General Information

1. Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules. It is published weekly on Fridays, unless otherwise directed by the Registrar.

2. Notice of Opposition

Any person who wishes to oppose any of the marks published may within two months from its publication date file a Notice of Opposition on Form TM11. Reasonable notice should be given to the Applicant beforehand, to provide the Applicant an opportunity to withdraw the application. Failure to give such notice will be taken into account when considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

3. Practice Directions and Circulars

The Registry has ceased our practice of publishing Practice Directions and Circulars in the Trade Marks Journal. Practice Directions and Circulars are available on our website at <https://www.ipos.gov.sg>. If you wish to receive our updates via email, you may subscribe to our mailing list by sending an email to news@ipos.gov.sg and letting us know the subject matter of interest (e.g. Trade Marks).

4. Information Contained in this Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

water, surface water, waste water and other liquids, in particular for channel or surface drainage systems; non-metallic drainage channels, namely, inflow basins and containers, intermediate containers, catch basins, gutter basins, sludge buckets being gullies, prefabricated inspection chambers, floor drains with and without odour traps, covers, covering grates and covering grid plates, covering plates, manhole covers with and without perforations, dirt bucket sieves and rakes, pipe ducts for walls and windows; drainage plates (not of metal); rainwater drainage apparatus of plastic materials for the drainage of buildings; air diffusers [vents, grills], not of metal, for ventilating and aerating, inner and outer shrouds; shoe cleaning apparatus, namely, floor panels of plastic, floor boards of plastic for use in and outside buildings; plastic and wooden doors, door and window frames, pre-fabricated windows, hopper windows and basement hopper windows with and without integrated roller blinds; profiles (not of metal) for doors and windows, namely built-in frames, soffit frames, protective grating, grilles, door and window frames, window casements and door leaves, cellar lightwells with and without lightwell grates, drainage pieces for cellar lightwells; building glass for doors, windows for buildings, in particular being single glass, insulating glass and double glass panes, and triple glass panes; doors and windows glass made of plastic or acrylic glass; pipes, not of metal, for civil engineering, hydraulic engineering, road construction, sports field construction and building construction, drainage pipes, aeration and ventilation tubes and inlet and waste water pipes, included in class 19, in particular flexible and non-flexible tubes, telescopic tubes, angled tubes, t-sections for pipes, curved pipes, branching pipes, cleaning tubes, rubble drain pipes, drainage pipes for building; modular prefabricated building units of non-metallic materials for the construction of inspecting chambers, flushing shafts and collection pits in drainage installation; including parts and accessories for all the aforesaid goods (not of metal) (included in class 19); non-metallic shaped blocks and plastic components for use in the construction of infiltration trenches in particular base elements and side walls, inspection manholes and manhole coverings; fittings for infiltration trenches of plastic; stabilisation fabrics

(geotextiles) for use in construction.

Class 37

Installation, telemonitoring for maintenance purposes, maintenance, general inspection for maintenance purposes and repair in relation to the following goods: dehydration systems, especially surface drainage installations, infiltration ditches, rainwater utilisation installations, waste water pump stations, backwater protection, pumping stations, sedimentation and filter installations, wet waste disposal systems and waste water cleaning installations, in particular light liquid and grease separators; installation, telemonitoring, maintenance, general inspection and repair in relation to the following goods: dehydration systems, especially surface drainage installations, infiltration ditches, rainwater utilisation installations, waste water pump stations, backwater protection, pumping stations, sedimentation and filter installations, wet waste disposal systems and waste water cleaning installations, in particular light liquid and grease separators; installation, repair, monitoring services for maintenance purposes, telemonitoring for maintenance purposes and maintenance in relation to window systems and light shafts, especially flood protection cellar window system and light shafts; installation, cleaning, maintenance, remote monitoring for maintenance purposes and repair of roofing and roof guttering system; rental, management and leasing of installations and systems for drainage inside and outside buildings; rental, management and leasing of installations and systems for drainage in the civil engineering and construction sector and rental, management and leasing in relation to the following goods: installations and systems for drainage in housing technology.

Class 40

Water purification , in relation to dehydration systems, especially surface drainage installations, infiltration ditches, rainwater utilisation installations, waste water pump stations, backwater protection, pumping stations, sedimentation and filter

installations, wet waste disposal systems and waste water cleaning installations, in particular light liquid and grease separators; water purification, in relation to window systems and light shafts, especially floor protection cellar window systems and light shafts.

Class 42

Consultancy in the field of drainage and separation technology; construction planning support, in particular via the providing of configurators for calculation and planning purposes; commissioning, in relation to the following goods: dehydration systems, especially surface drainage installations, infiltration ditches, rainwater utilisation installations, waste water pump stations, backwater protection, pumping stations, sedimentation and filter installations, wet waste disposal systems and waste water cleaning installations, in particular light liquid and grease separators; commissioning, in relation to the following goods: window systems and light shafts, especially flood protection cellar window systems and light shafts; commissioning of roof drains and roof drainage systems.

Metal castings made by 3D printers; metal castings made by 3D printers as form parts of metal; metal materials for building or construction; metal hardware; metal castings; alloyed steels; alloyed iron; alloys of metal; nickel alloys; aluminum alloys; carbon steels; metal in powdered form; metals in powder form for 3D printers; metal powders used in manufacturing; ferroalloys for further manufacture; iron carbon alloys; metals and metal alloys; molybdenum iron; non-ferrous metals and their alloys; common metal and their alloys; stainless steels; steel; steel alloys; titanium

and alloys thereof; iron and steel; common metals and their alloys, ores; common metals, unwrought and semi-worked, for further manufacture; unprocessed and semi-processed metal for additive manufacturing; common metals, unwrought or semi-wrought; brackets of metal.

Class 07

3D printers; metal 3D printers; plastic 3D printers; ceramic 3D printers; metal working machines; machines for processing metal powder by means of electromagnetic radiation or particle radiation; fuel injection nozzles for engines; thrust chambers (parts of rocket engines); internal combustion engines and their parts, not for land vehicles; electric motors and parts thereof, other than for land vehicles; non-electric prime movers and parts thereof, not for land vehicles; turbine blades, not for land vehicles; jet engine housings, not for land vehicles; die casting molds; brackets and fixtures for metalworking machines, plastic processing machines, ceramic processing machines and 3D printers; machine elements, not for land vehicles; laser melting machines for processing metal powders, ceramic powders, plastic powders and mixture of material powders thereof; ceramics processing machines; plastic processing machines; casting machines; vacuum casting machines; investment casting machines; laser sintering machines for processing metal powders, ceramic powders, plastic powders and mixture of material powders thereof; metalworking machine tools; machine tools for plastic processing; machine tools for ceramic processing; machine and apparatus for automatically unpacking products manufactured by 3D printers, metal working machines, ceramic processing machines and plastic processing machines from the aforementioned machines; surface treatment machines to depowdering material powders adhered to metal, ceramic and plastic products; machines and apparatus for conveying and loading/handling parts and accessories of 3D printers; machines and apparatus for loading powder materials to 3D printers, metal working machines, ceramic processing machines and plastic processing machines; sieves [machines or parts of machines]; mixing

machines; material conveying machines; accessories of metalworking machines, plastic processing machines, ceramic processing machines and 3D printers.

Class 09

Recorded, embedded, preinstalled and downloadable computer software for the manufacture of form parts; recorded, embedded, preinstalled and downloadable computer software for use in metal based 3D-printing; data processing software for the manufacture of form parts and for manufacturing technology; computer software; computers; downloadable computer software; computer software, recorded; packaged software; data processing software; downloadable cloud computing software; electronic control devices for controlling machines for processing raw materials, laser melting and laser sintering machines for processing raw materials, and casting machines; electronic control systems for machines; optical electronic control devices for guiding and focusing a path of a laser beam; measuring devices for use in machines for processing raw materials, laser melting and laser sintering machines for processing raw materials, and casting machines; measuring apparatus and instruments; detectors for measurement and quality control of materials processing by laser; computer software for controlling machines for the processing of raw materials, laser melting and laser sintering machines for the processing of raw materials, and casting machines; computer software for controlling machines based on 3D CAD data; computer software for controlling machines for the processing of raw materials, laser melting and laser sintering machines for the processing of raw materials, casting machines and machines based on 3D CAD data; electronic control systems for controlling machines for the processing of raw materials, machines for the processing of raw materials by laser, casting machine, vacuum casting machines and investment casting machines; measuring devices in the nature of testing equipment for measuring the temperature, pressure, position, form, velocity, mass, radiation or humidity of process workflows and workpieces for use in 3D printers or metal working machines for processing a raw material, or machines for processing a

raw material using a laser, or casting machines, vacuum casting machines or investment casting machines; recorded and downloadable computer software for controlling machines for processing a raw material, for controlling machines for processing a raw material using a laser, or for controlling casting machines, in particular vacuum casting machines or investment casting machines; pre-recorded hard disk drives, optical data carriers, magnetic data carriers, flash memory featuring computer software for controlling machines for processing a raw material, for controlling machines for processing a raw material using a laser, for controlling casting machines, vacuum casting machines or investment casting machines, or for controlling machines based on 3D CAD data; recorded and downloadable computer software designed for use in metal 3D printing; recorded and downloadable computer software for use in metal based 3D-printing; telecommunication machines and apparatus; remote monitoring apparatus; optical machines and apparatus; detectors; compact discs [read-only memory]; flash memory cards; pre-recorded flash memory cards; hard disk drives; magneto-optical and optical data carriers; magnetic and optical data carriers; prerecorded magnetic data carriers; structural components of satellites.

Class 35

Retail or wholesale services for additive alloys for the production of iron, additive alloys for the production of steel, alloyed steels, alloyed iron, alloys of common metal, alloys of metal containing calcium and aluminum, alloys of metal, alloys of nickel, alloys used for casting, aluminum, aluminum alloys, bar steel, bars made of titanium, bars of metal, brazing alloys, bronze, cadmium, carbon steels, cast iron, cast steel, casting alloys, chrome iron, chromium, cobalt-chrome, unprocessed cobalt, common metal alloys, common metals, common metals and their alloys including stainless steel, copper unwrought or semi-wrought, ferrochrome, ferroalloys, ferrotitanium, ferrous metals, German silver, germanium, glucinium, hafnium, indium, iron, iron alloys, iron carbon alloys, lead-tin alloys, limonite, magnesium, magnesium alloys,

manganese, metals, molybdenum, molybdenum iron, nickel, nickel alloys, nickel-silver, nickel-chromium-based alloys, niobium, non-ferrous metals, non-ferrous metal alloys, plated steels, metals in powder form, pyrophoric metals, sheet iron, sheet metal, sheet metal for roofing, sheet steel, sheet piles of metal, sheets of aluminum, sheets of metal, sheets of metal including those from alloy steel and titanium, silicon iron, metal soil vents, stainless steel, steel, steel alloys, steel unwrought or semi-wrought, metal tantalum, tantalum and its alloys, tin and its alloys, titanium and its alloys, titanium iron, tombac, unprocessed and semi-processed metal, not specified for use; retail or wholesale services for 3D printers, metalworking machines, plastic processing machines, ceramic processing machines, electrical machinery and apparatuses and parts thereof; retail or wholesale services for machine and apparatus for automatically unpacking products manufactured by 3D printers, metal working machines, ceramic processing machines and plastic processing machines from the aforementioned machines; retail or wholesale services for surface treatment machines to depowdering material powders adhered to metal, ceramic and plastic products; retail or wholesale services for machines and apparatus for storage and conveying parts and accessories of 3D printers; retail or wholesale services for machines and apparatus for provision of powder materials to 3D printers, metal working machines, ceramic processing machines and plastic processing machines; retail or wholesale services for sieves [machines or parts of machines]; retail or wholesale services for mixing machines; retail or wholesale services for material conveying machines; retail or wholesale services for measuring machines and apparatus; retail or wholesale services for accessories of metalworking machines, plastic processing machines, ceramic processing machines and 3D printers; retail or wholesale services for machines for processing metal powder, ceramic powder or plastic powder; retail or wholesale services for machines for processing metal powder, ceramic powder or plastic powder using laser; retail or wholesale services for casting machines, vacuum casting machines and investment casting machines; retail or wholesale services for electronic control systems for controlling machines for

processing a raw material; retail or wholesale services for electronic control systems for controlling machines for processing a raw material using a laser and for controlling casting machines, casting machines and investment casting machines; retail or wholesale services for measuring apparatus for controlling machines for processing a raw material, for controlling machines for processing a raw material using a laser and for controlling casting machines, casting machines and investment casting machines; retail or wholesale services for computer software for controlling machines for processing a raw material, for controlling machines for processing a raw material using a laser, and for controlling casting machines, vacuum casting machines and investment casting machines; retail or wholesale services for prerecorded magnetic data carriers featuring computer software for controlling machines for processing a raw material, for controlling machines for processing a raw material using a laser, and for controlling casting machines, vacuum casting machines and investment casting machines and for controlling machines based on 3D CAD data; retail or wholesale services for computer software; retail or wholesale services for metal in powder form for 3D printers; retail or wholesale services for measuring apparatus.

Class 37

Cleaning services for brackets of metal, fuel injection nozzles for engines, thrust chambers (parts of rocket engines), internal combustion engines and their parts, not for land vehicles, electric motors and parts thereof, other than for land vehicles, non-electric prime movers and parts thereof, not for land vehicles, turbine blades, jet engine housings, not for land vehicles, die casting molds, brackets and fixtures for metalworking machines, plastic processing machines, ceramic processing machines and 3D printers, structural components of satellites and space vehicles, medical implants made from artificial materials, surgical instruments, medical instruments, components of vehicle chassis, components of suspension systems for vehicles, housings for gearboxes and transmissions for land vehicles, manufactured or

repaired by a laser sintering or laser melting process; cleaning services for brackets of metal, fuel injection nozzles for engines, thrust chambers (parts of rocket engines), internal combustion engines and their parts, not for land vehicles, electric motors and parts thereof, other than for land vehicles, non-electric prime movers and parts thereof, not for land vehicles, turbine blades, jet engine housings, not for land vehicles, die casting molds, brackets and fixtures for metalworking machines, plastic processing machines, ceramic processing machines and 3D printers, structural components of satellites and space vehicles, medical implants made from artificial materials, surgical instruments, medical instruments, components of vehicle chassis, components of suspension systems for vehicles, housings for gearboxes and transmissions for land vehicles, manufactured or repaired by a laser sintering or laser melting process or by a manufacturing process containing laser sintering or laser melting; cleaning services by water jetting for brackets of metal, fuel injection nozzles for engines, thrust chambers (parts of rocket engines), internal combustion engines and their parts, not for land vehicles, electric motors and parts thereof, other than for land vehicles, non-electric prime movers and parts thereof, not for land vehicles, turbine blades, jet engine housings, not for land vehicles, die casting molds, brackets and fixtures for metalworking machines, plastic processing machines, ceramic processing machines and 3D printers, structural components of satellites and space vehicles, medical implants made from artificial materials, surgical instruments, medical instruments, components of vehicle chassis, components of suspension systems for vehicles, housings for gearboxes and transmissions for land vehicles, manufactured or repaired by a laser sintering or laser melting or by a manufacturing process containing laser sintering or laser melting; providing information in the field of repair of laser melting machines and laser sintering machines for processing metal powders, ceramic powders, plastic powders, plastic powders, casting machines; providing information in the field of repair of casting machines; installation, repair and maintenance of brackets of metal, fuel injection nozzles for engines, thrust chambers (parts of rocket engines), internal combustion

engines and their parts, not for land vehicles, electric motors and parts thereof, other than for land vehicles, non-electric prime movers and parts thereof, not for land vehicles, turbine blades, jet engine housings, not for land vehicles, die casting molds, brackets and fixtures for metalworking machines, plastic processing machines, ceramic processing machines and 3D printers, structural components of satellites and space vehicles, medical implants made from artificial materials, surgical instruments, medical instruments, components of vehicle chassis, components of suspension systems for vehicles, housings for gearboxes and transmissions for land vehicles, manufactured or repaired by a laser sintering or laser melting process; installation, cleaning, repair, and maintenance of laser melting machines for processing metal powders, ceramic powders, plastic powders and/or composite material powders; installation, cleaning, repair, and maintenance of casting machines, vacuum casting machines, investment casting machines; installation, cleaning, repair, and maintenance of laser sintering machines for processing metal powders, ceramic powders, plastic powders and/or composite material powders; installation, cleaning, repair, and maintenance of machine tools for use in the laser melting and sintering machines and casting machines for processing metal powders, ceramic powders, plastic powders and/or composite material powders; installation, cleaning, repair, and maintenance of machine tools for use in electronic controlling machines for controlling machines for processing metal powders, ceramic powders, plastic powders and/or composite material powders; installation, cleaning, repair, and maintenance of measuring devices for use in machines for processing metal powders, ceramic powders, plastic powders; installation, cleaning, repair, and maintenance of measuring devices for use in laser melting and laser sintering machines for processing raw materials, and for use in casting machines; repair and maintenance of 3D printers; machinery installation; installation, cleaning, repair and maintenance of optical electronic control devices for guiding and focusing a laser beam; installation, cleaning, repair and maintenance of measuring devices for use in machines for processing powder materials; installation, cleaning, repair and

maintenance of measuring instruments for measuring and quality control of material processing by laser; construction consultancy; repair or maintenance of metalworking machines and tools; repair or maintenance of plastic processing machines and apparatus; repair or maintenance of ceramic processing machines and apparatus; cleaning of metalworking machines; cleaning of plastic processing machines; cleaning of ceramic processing machines; repair or maintenance of measuring machines and instruments; repair or maintenance of optical machines and instruments; construction; sanding services for brackets of metal, fuel injection nozzles for engines, thrust chambers (parts of rocket engines), internal combustion engines and their parts, not for land vehicles, electric motors and parts thereof, other than for land vehicles, non-electric prime movers and parts thereof, not for land vehicles, turbine blades, jet engine housings, not for land vehicles, die casting molds, brackets and fixtures for metalworking machines, plastics processing machines, ceramic processing machines and 3D printers, structural components of satellites and space vehicles, medical implants made from artificial materials, surgical instruments, medical instruments, components of vehicles chassis, components of suspension systems for vehicles, housings for gearboxes and transmissions for land vehicles, manufactured or repaired by laser sintering or melting process.

Class 40

Custom manufacture of metal parts; custom manufacture of machine parts of metal; custom manufacturing of metal products; custom manufacture of plastic parts; custom manufacture of machine parts of plastic; custom manufacturing of plastic products; custom manufacture of ceramic parts; custom manufacture of machine parts of ceramic; custom manufacturing of ceramic products; custom manufacturing for brackets of metal, fuel injection nozzles for engines, thrust chambers (parts of rocket engines), internal combustion engines and their parts, not for land vehicles, electric motors and parts thereof, other than for land vehicles, non-electric prime movers and parts thereof, not for land vehicles, turbine blades, jet engine housings,

not for land vehicles, die casting molds, brackets and fixtures for metalworking machines, plastic processing machines, ceramic processing machines and 3D printers, structural components of satellites and space vehicles, medical implants made from artificial materials, surgical instruments, medical instruments, components of vehicle chassis, components of suspension systems for vehicles, housings for gearboxes and transmissions for land vehicles, manufactured or repaired by a laser sintering or melting process; surface grinding by scouring brackets of metal, fuel injection nozzles for engines, thrust chambers (parts of rocket engines), internal combustion engines and their parts, not for land vehicles, electric motors and parts thereof, other than for land vehicles, non-electric prime movers and parts thereof, not for land vehicles, turbine blades, jet engine housings, not for land vehicles, die casting molds, brackets and fixtures for metalworking machines, plastic processing machines, ceramic processing machines and 3D printers, structural components of satellites and space vehicles, medical implants made from artificial materials, surgical instruments, medical instruments, components of vehicle chassis, components of suspension systems for vehicles, housings for gearboxes and transmissions for land vehicles, manufactured or repaired by a laser sintering or melting process; custom 3D printing; 3D printing; rental of laser melting machines for processing metal powders, ceramic powders, plastic powders; rental of casting machines; rental of vacuum casting machines; rental of adhesive casting machines; rental of laser sintering machines for processing metal powders, ceramic powders, plastic powders; rental of metal treating machines and tools; rental of plastic processing machines; rental of ceramic processing machines; rental of 3D printers; metalworking; metal treating; processing of plastic; processing of plastic materials; ceramic processing.

Class 41

Provision of training courses on additive manufacturing and 3D printing; provision of training courses on the use and maintenance of additive manufacturing and 3D

printing machines; arranging and conducting of workshops on the subject of additive manufacturing, 3D printing; arranging and conducting of workshops on the subject of the use and maintenance of additive manufacturing and 3D printing machines; organizing and conducting of seminars in the field of additive manufacturing, 3D printing; organizing and conducting of seminars in the field of the use and maintenance of additive manufacturing and 3D printing machines; educational services in the field of additive manufacturing and 3D printing; educational services in the field of the use and maintenance of additive manufacturing and 3D printing machines; coaching in the field of additive manufacturing, 3D printing; coaching in the field of the use and maintenance of additive manufacturing and 3D printing machines; providing educational demonstrations; computer education training; education and training services; teaching; teaching and instruction services; arranging, conducting and organization of seminars; arranging and conducting of seminars, congresses, conferences and symposiums; arranging of workshops and seminars; conducting of workshops and seminars; digital imaging services in the nature of editing of images related to electronic construction drawings and electronic technical drawings.

Class 42

Updating of computer software; updating and customizing of computer programs; customization of computer software; customized design of computer hardware and software; advisory services relating to computer software; computer programming and computer software design; technical project planning in the field of additive manufacturing and 3D printing; technological design in the field of additive manufacturing and 3D printing; engineering; technical engineering in the field of additive manufacturing and 3D printing; engineering services relating to metal forming systems; software engineering services for data processing; construction planning; construction research and design services; technical drawing of electronic construction drawings and electronic technical drawings; design and engineering in

the field of machines for the processing of raw materials, casting machines, vacuum casting machines, investment casting machines and machines for the processing of raw materials using a laser; mechanical engineering; design of machines, apparatus and instruments; designing computer software for use in controlling machines; developing and maintaining computer software for use in controlling machines for the processing of raw materials, machines for the processing of raw materials using a laser, casting machines and machines based on 3D CAD data; scientific research; industrial research in the field of machines for the processing of raw materials, casting machines, vacuum casting machines, investment casting machines and laser melting and laser sintering machines for the processing of raw materials; industrial research; installation, repair, rental and maintenance of computer software for controlling machines for the processing of raw materials, for laser melting and laser sintering machines for the processing of raw materials, and for casting machines; installation, repair, rental and maintenance of computer software for controlling machines for the processing of raw materials, for laser melting and laser sintering machines for the processing of raw materials, for casting machines and for machines based on 3D CAD data; engineering design and consultancy; engineering consultancy services; engineering research; updating and adapting of computer programs; computer engineering; structural engineering design services; design of computer files for use with 3D printers and machines for metal working; installation, rental and maintenance of computer software for controlling machines based on 3D CAD data (computer aided design); engineering and designing of laser melting machines for processing raw materials; engineering, designing, implementation and maintenance services relating to computer software for controlling machines; design and development of computer software; troubleshooting of computer software problems; scientific research and industrial research in the field of 3D-printing and additive manufacturing; computer-aided engineering design and drawing services; technical drawing featuring creation and editing of computer files in the nature of electronic construction drawings and electronic technical drawings for use with 3D

printers and metalworking machines; rental of optical electronic control devices being computer peripheral devices for guiding and focusing a laser beam; rental of electric or optical measuring apparatus for use in machines for processing raw materials; rental of measuring apparatus; rental of measuring instruments for measuring and quality control of material processing by laser; computer design and development services; design and development of computer peripherals; computer technology consultancy; technical drawing; design and development of engineering products; design and development of new products; design of machines, apparatus and instruments; monitoring of computer system operation by remote access; computer system design and analysis; computer software design, computer programming, or maintenance of computer software; software as a service [SaaS]; providing virtual computer systems through cloud computing; cloud computing; providing non-downloadable computer software for cloud computing; computer rental; rental of computer software; platform as a service [PaaS]; design, maintenance, rental and updating of computer software; rental of peripheral devices for computers; providing temporary use of on-line non-downloadable single sign-on software; providing computer programs designed to the specifications of others; providing computer programs on data networks; design, development, maintenance and updating of computer software for data processing; testing and research services relating to machines, apparatus and instruments; quality control; product quality evaluation; industrial design; technical advice relating to computer hardware, peripherals and software; technological advice relating to computers, automobiles and industrial machines.

Recorded computer programs and downloadable computer programs that implement

a computer programming language; recorded computer programs and downloadable computer programs that implement a compiler for computer programming language; downloadable computer software for use in performing computations, creating and executing computational algorithms, analyzing data, accessing data, visualizing data, and deploying downloadable computer software applications and electronic hardware implementations of those algorithms; computer programs recorded on external devices for use in implementing a computer programming language; downloadable computer programs for use in implementing a computer programming language; downloadable computer programs and hardware for Electronic Design Automation; downloadable computer programs and hardware for simulation of physical systems; downloadable computer programs for use in Artificial intelligence and machine learning systems, namely, downloadable computer programs and hardware to improve the simulation of physical systems; downloadable computer software for the simulation, visualization, testing, fabrication, and design of physical systems; downloadable computer software, namely, downloadable computer software for implementing Electronic Design Automation tools; downloadable open source applications software, namely, downloadable computer software for use in software development; downloadable open source applications software, namely, downloadable computer software development tools for design and development of open-source and proprietary software programs; downloadable open source applications software, namely, downloadable software that enables users to share and collaboratively develop software, software packages, software libraries, and computer code; computer programs and downloadable computer programs that implement a computer programming language; computer programs and downloadable computer programs that implement a compiler for computer programming language; computer software for use in performing computations, creating and executing computational algorithms, analyzing data, accessing data, visualizing data, and deploying computer software applications and electronic hardware implementations of those algorithms; downloadable open source modular

scientific simulation software featuring a polyglot userbase, high performance differential equation solving, physics-informed model discovery and learning, compiler-assisted model analysis and sparsity acceleration, machine learning assisted tooling for model acceleration, differentiable scientific data structures and simulators, and tools for accelerated algorithm development and research; downloadable open source modular scientific simulation software, namely, high performance differential equation solving downloadable software featuring a library for solving ordinary differential equations, stochastic differential equations, delay differential equations, differential-algebraic equations, and hybrid differential equations which include multi-scale models and mixtures with agent-based simulations; downloadable open source modular scientific simulation software, namely, high performance differential equation solving downloadable software featuring templated implementation that allows arbitrary array and number types to be compatible, giving compatibility with arbitrary precision floating point numbers, GPU-based computations, unit-checked arithmetic, and other features designed for both high performance on large-scale and small-scale problems; downloadable open source modular scientific simulation software, namely, physics-informed model discovery and learning downloadable software featuring a litany of modules for automating the process of model discovery and fitting, compiler-assisted model analysis and sparsity acceleration that builds a set of interconnected tools for generating numerical solver code directly on the models that are being simulated, differentiable scientific data structures and simulators for pre-built scientific simulation tools along with data structures for accelerating the development of models, and tools for accelerated algorithm development in the field of numerical simulation methods and methodologies; downloadable open source modular scientific simulation software tools with a common interface, namely, a modular ecosystem for handling a wide variety of scientific simulations, solving differential equations and universal neural differential equations, a modeling framework for automatically parallelized machine learning featuring a computer algebra system for

integrated symbolics for physics-informed machine learning and automated transformations of differential equations.

Class 38

Providing on-line forums for transmission of messages among computer users concerning computer programming languages; providing on-line forums in the field of electronic design, namely, for the design and validation of integrated circuits, semiconductors, printed circuit boards, electronic systems, and gateway for field-programmable gate arrays.

Class 41

Technical training in the field of electronic design.
