General Information

1. Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules. It is published weekly on Fridays, unless otherwise directed by the Registrar.

2. Notice of Opposition

Any person who wishes to oppose any of the marks published may within two months from its publication date file a Notice of Opposition on Form TM11. Reasonable notice should be given to the Applicant beforehand, to provide the Applicant an opportunity to withdraw the application. Failure to give such notice will be taken into account when considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

3. Practice Directions and Circulars

The Registry has ceased our practice of publishing Practice Directions and Circulars in the Trade Marks Journal. Practice Directions and Circulars are available on our website at <https://www.ipos.gov.sg>. If you wish to receive our updates via email, you may subscribe to our mailing list by sending an email to news@ipos.gov.sg and letting us know the subject matter of interest (e.g. Trade Marks).

4. Information Contained in this Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

Software; Mobile application software; Computer hardware; Software for social networking and creating and interacting with online communities; Software for creating, managing and accessing groups within virtual communities; Software development tools; Software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; Software for use as an application programming interface (API); Software for organizing events, searching for events, calendaring and managing events; Software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, interacting with, embedding, and sharing or otherwise providing electronic media, images, video, audio, audio-visual content, data, and information via the internet and communication networks; Software for finding content and content publishers, and for subscribing to content; Software for creating and

managing social media profiles and user accounts; Software for streaming multimedia entertainment content, audio-visual content, video content, and associated text and data; Software for enabling transmission of images, audio, audio visual and video content and data; Software for modifying photographs, images and audio, video, and audio-visual content; Software for use in taking and editing photographs and recording and editing videos; Software for processing images, graphics, audio, video, and text; Software for collecting, managing, organizing, modifying, transmitting, synchronizing, and storing data and information; E-commerce software; E-commerce software to allow users to perform electronic business transactions via a global computer and communication networks; Software and mobile application software providing a virtual marketplace; Software for sending and receiving electronic messages, alerts, notifications and reminders; File sharing software; Messaging software; Search engine software; Software for use in creating, managing, measuring, and disseminating advertising of others; Advertisement server, namely, a computer server for storing advertisements and delivering advertisements to websites; Software for creating, sharing, disseminating and posting advertising; Software for geo-location based advertising and product and service promotion; Software that enables individuals, groups, companies, and brands to create and maintain an online presence and interact with online communities for marketing purposes; Downloadable virtual reality software; Downloadable augmented reality software; Downloadable mixed reality software; Virtual reality software for interactive entertainment and virtual reality gaming; Augmented reality software for interactive entertainment and augmented reality gaming; Software for integrating electronic data with real world environments for the purposes of entertainment, education, gaming, communicating, and social networking; Software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual reality and augmented reality experiences; Software for operating, configuring, and managing virtual reality headsets and controllers; Software for gesture recognition, object tracking, motion

control, and content visualization; Software, firmware and hardware for use in visual, voice, audio, motion, eye and gesture tracking and recognition; Software for navigating a virtual reality and augmented reality environments; Software for enabling users to experience virtual reality and augmented reality visualization, manipulation, and immersion; Software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; Software for use in creating and designing virtual reality and augmented reality software; Application programming interface (API) for computer software for developing virtual reality and augmented reality experiences; Virtual reality game computer hardware; Augmented reality game computer hardware; Mixed reality game computer hardware; Virtual reality computer hardware; Augmented reality computer hardware; Mixed reality computer hardware; Motion tracking sensors for virtual reality, augmented reality and mixed reality technology; Virtual reality hardware, namely, headsets, glasses, and controllers for engaging in virtual reality experiences and playing virtual reality games; Augmented reality hardware, namely, headsets, glasses, and controllers for engaging in augmented reality experiences and playing augmented reality games; Wearable computing devices comprised primarily of software and display screens for connection to computers, tablet computers, mobile devices, and mobile phones in order to enable virtual reality and augmented reality world experiences; Hardware and software for operating sensor devices; Electronic sensor devices, cameras, projectors, and microphones for gesture, facial, and voice detection, capture and recognition; Hardware and software for detecting objects, user gestures and commands; Game software; Software for game development; Gaming software development tools; Blockchain gaming software; Downloadable electronic game software in the nature of video games, computer games, interactive multimedia games, and virtual, augmented, and mixed reality games; Computer software for controlling the operation of audio and video devices; Video display software; Software for accessing and viewing text, images and electronic data relating to conferences in the field of software development; Software for converting natural

language into machine-executable commands; Software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms; Application programming interface (API) for use in developing AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; Software, namely, an interpretive interface for facilitating interaction between humans and machines; Artificial intelligence software, namely, machine learning software, visual perception software, speech or language recognition software, decision-making software, translation software, touch recognition software, conversational query software, software for converting natural language into machine-executable commands, and digital assistant software; Virtual assistant software that can perform tasks or services on behalf of a user that is activated by user input, location awareness, and online information; Software for providing consumer information; Software for providing electronic maps; Location-aware software for searching, determining, and sharing locations; Software for searching and identifying employment opportunities; Software for identifying and allowing users to contact government representatives; Software providing location-based weather information; Software providing, linking to, or streaming news or current events information; Parental control software; Computer software; Computer operating systems; Software for enabling electronic devices to share data and communicate with each other; Computer peripheral devices; Wearable peripherals for computers, tablet computers, mobile devices and mobile telephones; Digital media streaming devices; Headsets; Headphones; Gaming headsets; Computer gaming peripherals; Video display hardware, namely, video drivers for video eyewear; Cameras; Batteries; Battery cases; Battery packs; Rechargeable electric battery devices, namely, rechargeable batteries and portable power supplies; Battery chargers; Rechargeable external battery packs for use with mobile electronic devices; Power charging and power management devices for mobile electronic devices; Charging stands for mobile electronic devices; External chargers for use with computers, tablet computers, mobile devices and mobile telephones; Wireless charging cases for use

with computers, tablet computers, mobile devices and mobile telephones; Power adapters; Electrical adapters, cable, and connectors; Bags and cases specially adapted for mobile electronic devices; Protective covers and cases for mobile electronic devices; Cases for computers, smartphones, headphones, headsets; Holders, armbands, clips and carrying cases specially adapted for mobile electronic devices; Wall mounts for mounting mobile electronic devices; Stands for mobile electronic devices; Holders for mobile electronic devices; Remote controls for mobile electronic devices; Audio speakers; Electrical audio and speaker cables and connectors; Electronic cables parts and fittings; Electronic cables; Cables for optical signal transmission; Power cables and cable connectors; Microphones; Audio receivers; Audio transmitters; Head-mounted video display; Receivers of electronic signals; Video receivers; Wireless transmitters and receivers for reproduction of sound and signals; Electric sensors; Sensors for monitoring physical movements; SIM cards; Software for use in customer relationship management (CRM); Software for facilitating and arranging for the financing and distribution of fundraising and donations; Software for online charitable fundraising services and financial donation services; Software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, instant message and online social networking services; Telecommunications equipment for providing third party access to, and enabling the transmission of video, data and voice over, global communications networks, namely, mobile and access computer and mobile telephone terminals, base transceiver stations and wireless radio parts thereof, data transceivers, data repeaters, routers and switches, transmission circuits, integrated circuits, computer hardware, mobile cloud clients and servers, multiplexers, digital signal processors, radio frequency signal processors, mobile switching circuits, air traffic electrical controllers, mobility electrical controllers, access electrical controllers, remote port electrical controllers, radio ports, antennas, electronic radio components, software for telecommunications applications, and mobile core networks comprising data transceivers, wireless networks for collection, transmission and management of

data, voice and video; Communication software and communication computer hardware for providing access to the Internet; Telecommunications equipment; Radio receivers and transmitters; GPS receivers; Software to allow users to perform e-commerce transactions via the internet and communications networks; Communications software; Software that allows users to make payments and transfer funds; Software that enables online users to make payments and transfer funds across multiple websites and mobile applications; Electronic payment processing software; Software for processing electronic transactions; Computer software in the nature of a query engine; Software for facilitating machine learning; Software for building user interfaces; Downloadable electronic publications; Software for opinion polling; Software allowing users to post questions with answer options; Interactive photo and video equipment, namely, kiosks computer hardware for capturing, uploading, editing, printing and sharing digital images and video; Software for the synchronization of data between a remote station or device and a fixed or remote station or device; Voice command and recognition software, speech to text conversion software; Voice-enabled software applications for personal information management; Home automation and home device integration software; Wireless communication software for voice, audio, video, and data transmission; Software used for controlling stand-alone voice controlled information and personal assistant devices; Software for voice recognition for use in connection with the transmission of voice and data; Software for accessing, browsing, and searching online databases, audio, video, and multimedia content, games, and software applications, and software application marketplaces; Software for use to connect and control internet of things (iot) electronic devices; Computer application software for handheld wireless devices, namely, software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; Software for processing, reproducing, synchronizing, recording, organizing, downloading, uploading, transmitting, streaming, receiving, playing and viewing text,

multimedia and data files; Software, for personalized, interactive television (TV) programming and for use in displaying and manipulating visual media, graphic images, text, photographs, illustrations, digital animation, video clips, film footage and audio data; Software in the nature of a mobile application for telecommunication services for providing transmission of voice, data, video, and media content via the internet and the worldwide web for computers or other portable consumer electronic devices; Software for searching television entertainment exploration guides; Software for searching, locating, compiling, indexing, correlating, navigating, obtaining, downloading, receiving, encoding, decoding, playing, storing and organizing text, data, images, graphics, audio and video on a global computer network; Software to enhance mobile access to the internet via computers, mobile computers, and mobile communications devices; Software for formatting and converting content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works into a format compatible with portable electronic devices and computers; Software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; Electronic communication equipment and instruments, namely, mobile and wearable digital electronic devices for sending and receiving of text, data, audio, image, and video files; Telecommunications apparatus and instruments, namely, speakers and microphones sold as component features of computers, mobile and wearable digital electronic devices for the sending and receiving of telephone calls, text messages, electronic mail, and other digital data, and for use in providing access to the internet; Electronic notepads; Electronic personal organizers; Electronic voice recording and voice recognition apparatus; Portable digital electronic devices for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, and digital files; Wearable computer hardware; Wearable digital electronic devices comprised primarily of software for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data,

audio, image and digital files and display screens; Software for accessing, browsing and searching online databases; Software for accessing, monitoring, searching, displaying, reading, recommending, sharing, organizing, and annotating news, sports, weather, commentary, and other information, content from periodicals, blogs, and websites, and other text, data, graphics, images, audio, video, and multimedia content; Software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video, and multimedia content, electronic publications, and electronic games; Apparatus for recording, transmission or reproduction of sound or images; Apparatus for transmission of communication; Apparatus for data storage, namely, mobile and wearable digital electronic devices for the storage of text, data, audio, image, and video files; Blockchain software; Cryptography software; Software for cryptocurrency mining; Software for cryptocurrency farming; Software in the field of blockchain; Software for use with cryptocurrency; Software for use with digital currency; Software for use with virtual currency; Digital currency wallet and storage services software; Software for use as a cryptocurrency wallet; Cryptocurrency hardware wallet; Downloadable computer software for use as a digital wallet; Downloadable computer software for use as an electronic wallet; Computer programs and computer application software for electronic storage of data; Software for providing a digital wallet; Software for digital currency payment and exchange transactions; Software for use in managing portfolios of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Software for use as an electronic wallet; Software for creating and managing electronic wallets; Software for electronic wallet services; Downloadable e-wallets; Distributed ledger software; Distributed ledger platform software; Software for use with distributed ledger technology; Software that facilitates the ability of users to view, analyze, record, store, monitor, manage, trade and exchange digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto

tokens and utility tokens; Software for sending, receiving, accepting, buying, selling, storing, transmitting, trading and exchanging digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Software for executing and recording financial transactions; Distributed ledger software for use in processing financial transactions; Software for creating accounts and maintaining and managing information about financial transactions on distributed ledgers and peer to peer payment networks; Software for use in financial trading; Software for use in financial exchange; Software for accessing financial information and market data and trends; Software for providing authentication of parties to a financial transaction; Software for maintaining ledgers for financial transactions; Software for the management of cryptographic security of electronic transmissions across computer networks; Software for encrypting and enabling secure transmission of digital information over the Internet; Software for allowing users to calculate parameters related to financial transactions; Software for electronic funds transfer; Software for currency conversion; Software for the collection and distribution of data; Software for payment transactions; Software for connecting computers to local databases and global computer networks; Software for creating searchable databases of information and data; Software for managing and validating transactions involving digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; Software for creating, executing, and managing smart contracts; Software for managing payment and exchange transactions; Software and hardware for use as a digital currency wallet, virtual currency wallet, digital asset wallet, crypto token wallet, and utility wallet; Software for creating a decentralized and open source digital currency, virtual currency, cryptocurrency, digitized assets, digital token for use in blockchain-based transactions; Software for decentralized finance; Software for developing decentralized applications; Software for recording, managing, tracking, and transferring ownership interests in decentralized autonomous organizations;

Software for management and governance of decentralized autonomous organizations; Software for participating and voting in decentralized autonomous organizations; Software for arranging and conducting auctions; Software for voting; Computer application software for blockchain-based platforms, namely, software for digital exchanges for virtual items; Software for creating, selling and managing blockchain-based tokens or appcoins; Software for use in an electronic financial platform; Software for processing electronic payments and for transferring funds to and from others; Blockchain platform software; Software for managing and verifying transactions on a blockchain; Software for use in the management and implementation of digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token transactions; Software for creating and managing a blockchain platform for use in managing digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token accounts; Software for managing crypto currency and digital currency accounts; Software for use in payments, purchases, and investments using digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Software for use in managing the conversion of digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens into hard currency; Software for developing, deploying, and managing software applications, and integrating software applications for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, digitized asset, digital token, crypto token and utility token accounts; Software and hardware for use in electronically exchanging currency for digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Software for use as an application programming interface (API) for the development, testing, and integration of blockchain software applications; Computer hardware for digital currency, virtual currency, cryptocurrency, digital and blockchain asset, and digitized

asset mining; Security token hardware; Electronic currency converters; Software, namely, electronic financial platform that accommodates multiple types of payment and transactions in an integrated mobile phone, personal digital assistant (PDA), and web-based environment; Software for creating tokens to be used to pay for products and services, and that may be traded or exchanged for cash value; Software for managing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized asset, digital token, crypto token and utility token payments, money transfers, and commodity transfers; Software for use as an application program interface (API) software for use in computer hardware device identification; Software for use in authenticating user access to computers and computer networks; Software for use in facilitating secure transactions; Software for use in accessing, reading, tracking, and using blockchain technology; Software and hardware for managing identity information, access rights to information resources and applications and authentication functionality; Software for network identification verification, authentication and management services for security purposes; Downloadable authentication software for controlling access to and communications with computers and computer networks; Magnetically encoded credit cards and payment cards; Encryption devices; Security tokens; Software for use as a security token; Software used in issuing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Crypto tokens and utility tokens; Software used in auditing digital currency, virtual currency, cryptocurrency, digital and blockchain assets, digitized assets, digital tokens, crypto tokens and utility tokens; Ad server, namely, a computer server for storing advertisements and delivering advertisements to websites; Altimeters; Application programming interface (API) for computer software for developing and creating virtual reality, augmented reality and mixed reality experiences; Application programming interface (API) for computer software which facilitates online services for social networking and for data retrieval, upload, download, access and management; Application programming interface (API) for software which facilitates

online services for social networking and for data retrieval, upload, download, access and management; Application programming interface (API) for use in building software applications; Augmented reality glasses; Augmented reality headsets; Augmented reality software; Augmented reality software for interactive entertainment; Augmented reality software for navigating an augmented reality environment; Augmented reality software for object tracking, motion control and content visualization; Augmented reality software for operating augmented reality headsets; Augmented reality software for users to experience augmented reality visualization, manipulation and immersion; Cables, namely, electronic cables and connection cables; Cases, straps, wrist and arm bands for electronic monitoring devices; Computer application software for smartphones and mobile devices in the fields of fitness and exercise featuring personal training services, coaching, workouts and fitness assessments; Computer application software for use in connection with configuring and controlling wearable computer hardware and wearable computer peripherals; Computer hardware for displaying data and video; Computer hardware for use in measuring heart rhythm; Computer hardware for use in taking electrocardiograms; Computer operating system software; Computer peripherals for displaying data and video; Computer peripherals for mobile devices for displaying data and video, namely, peripherals worn on the head for mobile devices for displaying data and video; Computer peripherals for mobile devices for remotely accessing and transmitting data, namely, peripherals worn on the head for mobile devices for remotely accessing and transmitting data; Computer peripherals for mobile devices, namely, electronic devices, monitors, sensors, and displays for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, weather information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data; Computer peripherals for remotely accessing and transmitting data; Computer software and computer application software for mobile phones and personal digital devices that provides a

fitness assessment and fitness score by comparing previous athletic performances and fitness levels with future athletic performances and fitness levels, and provides advice and customized workouts for improving in specific areas of a particular sport or fitness activity; Computer software and computer application software for mobile phones and personal digital devices that monitor, track, and compare sport activity and fitness level; Computer software and computer application software for mobile phones and personal digital devices that evaluates a user's fitness level and athleticism, and provides fitness scores; Computer software and computer application software for mobile phones and personal digital devices that provides tips, coaching, and personalized workouts, to improve the user's fitness score; Computer software and computer application software for mobile phones and personal digital devices for communicating with gaming consoles, personal computers, personal digital devices, and mobile phones, regarding time, pace, speed, steps taken, athletic skill, calories burned, agility, motion, balance, coordination, and flexibility; Computer software and computer application software for mobile phones and personal digital devices for monitoring, uploading, and downloading data regarding sport activity, fitness training, and fitness level to the internet and other computer and electronic communication networks; Computer software and computer application software that detects user's movements during physical activity, fitness sessions, workouts, to provide personalized fitness scores and assessments; Computer software and firmware, namely, operating system programs, database synchronization software, and data synchronization programs; Computer software development tools; Computer software for accessing, browsing and searching online databases; Computer software for accessing, monitoring, searching, displaying, reading, recommending, sharing, organizing, and annotating news, sports, weather, commentary, and other information, content from periodicals, blogs, and websites, and other text, data, graphics, images, audio, video, and multimedia content; Computer software for communicating with gaming consoles regarding time, pace, speed, steps taken, athletic skill, calories burned, agility, motion, balance,

coordination, and flexibility; Computer software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video, and multimedia content, and electronic publications, and electronic games; Computer software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer the internet and communication networks; Computer software for creating, managing, and interacting with an online community; Computer software for fitness and weight management; Computer software for fitness, fitness assessments, and sport activities; Computer software for integrating electronic data with real world environments for the purposes of entertainment, communicating, and social networking; Computer software for managing information regarding tracking, compliance and motivation with a health and fitness program; Computer software for modifying and enabling transmission of images, audio, audio visual and video content and data; Computer software for modifying photographs, images and audio, video, and audio-visual content with photographic filters and virtual reality, mixed reality and augmented reality (AR) effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; Computer software for monitoring, processing, displaying, storing and transmitting data relating to a user's physical activity; Computer software for processing images, graphics, audio, video, and text; Computer software for sending and receiving electronic messages, graphics, images, audio and audio visual content via computer the internet and communication networks; Computer software for sending and receiving electronic messages, alerts, notifications and reminders; Computer software for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, weather information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data;

Computer software for setting up, configuring, operating and controlling mobile devices, wearable devices, mobile phones, computers, and computer peripherals; Computer software for social networking and interacting with online communities; Computer software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; Computer software for the redirection of messages, Internet e-mail, and/or other data to one or more electronic wearable wireless communication devices from a data store on or associated with a personal computer or a server; Computer software for tracking and managing information regarding health, fitness, and wellness programs; Computer software for use as an application programming interface (API); Computer software for use in creating, managing, measuring, and disseminating advertising of others; Computer software for viewing digital images and photographs provided as updates for or in combination with head-mounted display screen devices; Computer software for wireless content, data and information delivery; Computer software for wireless data communication for receiving, processing, transmitting and displaying information relating to fitness, body fat, body mass index; Computer software in the field of health, fitness, exercise, and wellness for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, navigational information, temperature, physical activity level, heart rate, pulse rate, blood pressure, calories burned, steps taken, and biometric data and for tracking and managing information regarding health, fitness, exercise, and wellness programs; Computer software that detects user's movements during physical activity, fitness sessions, workouts, to provide personalized fitness scores and assessments; Computer software that evaluates a user's fitness level and athleticism, and provides fitness scores; Computer software that monitor, track, and compare sport activity and fitness level; Computer software that provides a fitness assessment and fitness score by comparing previous athletic performances and fitness levels with future athletic performances and fitness levels, and provides advice and customized workouts for improving in specific areas of a particular sport

or fitness activity; Computer software that provides tips, coaching, and personalized workouts, to improve the user's fitness score; Computer software to enable accessing, displaying, editing, linking, sharing and otherwise providing electronic media and information via the internet and communications networks; Computer software to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; Computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the three-dimensional rendering of graphics, still images and moving pictures provided as updates for or in combination with head-mounted display screen devices; Computer software, namely, an application providing social networking functionalities; Computer software, namely, an interpretive interface for facilitating interaction between humans and machines; Computer software, namely, software development tools for the creation, debugging, and deployment of software applications for smart glasses, near eye displays, head mounted displays, and smartphones; Smartwatches; Connection cables; Eyewear; Sunglasses; Digital video eyewear; Digital video eyewear, head mounted video displays, namely, micro screens and associated optics, virtual reality headsets, associated electronics, namely, connection cables and adaptors, software and firmware for displaying video games, electronic media and images; Downloadable computer application software for mobile phones, smartphones, computers, tablets, smart glasses, digital video eyewear, wearable digital electronic devices, namely, glasses, goggles, and headsets, head mounted displays, near eye display systems, communications networks, cloud computing services, and computer systems for communicating between the devices, networks and services; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for displaying icons, determining and responding to user selection of icons, controlling connections to and communication with other devices, networks, and systems, operating a camera to record and display images and audio visual files,

organizing digital image and audio visual files, controlling microphones, controlling sound level of built-in speakers, transferring computer files between the smart glasses, near eye display systems, head mounted displays and other devices, networks, and systems, controlling user notifications, controlling a touchpad, controlling and obtaining data from sensors in the smart glasses, near eye display systems, and head mounted displays, including accelerometers, barometric, temperature, tilt, tip, and yawl sensors, head orientation sensors, and GPS receivers, controlling the speed of the CPU, and sensing and displaying the battery charge level, and displaying, capturing, recording, and streaming data, images, and audio visual content in standard reality, augmented reality, and mixed reality environments; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for the generation and display of standard reality, augmented reality, mixed reality content; Downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for communication with other smart glasses, near eye display systems, and head mounted displays; Downloadable computer software for enabling capture, storage, and transmission of photographs, videos, data, and information with a user's biometric, health, and other performance data overlaid and integrated into the recording; Downloadable computer software for viewing and interacting with a feed of images, audio, audio-visual and video content and associated text and data; Downloadable computer software, namely, mobile application for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; Electric cables; Electrical adapters; Electronic monitoring devices incorporating indicators that light up and change color based on wearer's cumulative activity level; Electronic monitoring devices incorporating microprocessors, digital display, and accelerometers, for detecting, storing, reporting, monitoring, uploading and downloading sport, fitness training, and activity data to the internet, and communication with gaming consoles and personal computers, regarding time, pace, speed, steps taken, athletic skill, calories burned, heart and body rate, global

positioning, direction, distance, altitude, navigational and weather information; Electronic navigational instruments and apparatus; Fitness and exercise sensors, monitors, and displays for sensing, monitoring, recording, displaying, measuring, and transmitting global positioning, direction, distance, altitude, speed, temperature, and navigational information, to be worn during exercise and for sports activities; Gesture recognition software; Glasses with the function of wireless communication; Global positioning system (GPS) devices; Goggles for enabling virtual reality, augmented reality and mixed reality world experiences; Hardware and software to view virtual images in creating virtual, augmented and mixed reality; Head mounted video display; Head-mounted display screen devices and their component parts, namely, video display cards; Headsets for use with computers; interactive entertainment software; interface electronics, namely, video driver interface circuits for digital video eyewear; Location-aware computer software, downloadable computer software and mobile application software for searching, determining and sharing locations; Loudspeakers; Microdisplays, namely, head mounted video displays and near eye video displays; Mixed reality glasses; Mixed reality headsets; Mixed reality software; Mixed reality software for interactive entertainment; Mixed reality software for navigating a mixed reality environment; Mixed reality software for object tracking, motion control and content visualization; Mixed reality software for operating mixed reality headsets; Mixed reality software for users to experience mixed reality visualization, manipulation and immersion; Mobile application software for creating personalized fitness training programs; Motion tracking sensors for augmented reality technology; Motion tracking sensors for mixed reality technology; Motion tracking sensors for virtual reality technology; Multifunctional electronic devices for displaying, measuring, and uploading to the Internet information including time, date, body and heart rates, global positioning, direction, distance, altitude, speed, steps taken, calories burned, navigational information, weather information, the temperature, wind speed, and the declination of body and heart rates, altitude and speed; Multifunctional electronic devices for displaying, measuring, and uploading to the Internet information including

time, date, heart rate, global positioning, direction, distance, altitude, speed, steps taken, calories burned, navigational information, changes in heart rate, activity level, hours slept, quality of sleep, and silent wake alarm; Near eye display optics, namely, video display screens for mounting near a user's eyes and lenses for displaying images to a user; Near eye display systems comprised of GPS sensors, accelerometers, magnetometers, directional compasses, environment temperature sensors, and electronic tip and tilt orientation sensors; Near eye display systems comprising computer hardware, electronic display interfaces, and software for the generation and display of virtual reality and mixed reality content; Near eye display systems comprising computer hardware, electronic display interfaces, and software specifically adapted for goggles; Near eye display systems comprising eyewear and software for the generation and display of standard reality, augmented reality, and mixed reality content; Near eye displays; Network communication apparatus, namely, mobile and wearable digital electronic devices for the sending and receiving of text, data, audio, image, and video files across networks; Pedometers; Peripherals for mobile devices, namely, pedometers and altimeters; Personal assistant software; Personal digital assistants; Personal electronic devices used to track fitness goals and statistics; Personal fitness trackers; Personal video display devices in the nature of wearable displays for viewing digital content including virtual reality, augmented reality and mixed reality content; Personal video display screens; Portable, handheld, and personal digital electronic devices for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, and digital files; Remote control apparatus for wearable computer hardware and smartwatches; Sensors for scientific use to be worn by a human to gather human biometric data, mobile and wearable digital electronic devices for recording, organizing, transmitting, manipulating, and reviewing text, data, audio, image and video files; Smart glasses; Smart glasses with wired and wireless audio capability; Smartwatch bands; Smartwatch straps; Smart jewelry; Social assistant software; Software and firmware for controlling, configuring and managing controllers; Software and firmware for displaying video games and

electronic media on display screen devices provided as updates for or in combination with head-mounted display screen devices; Software and firmware for operating system programs; Software and firmware for video drivers and video processing provided as updates for or in combination with head-mounted display screen devices; Software and firmware for enabling electronic devices to share data and communicate with each other; Software driver programs for electronic devices for enabling computer hardware and electronic devices to communicate with each other; Software for advertisers to communicate and interact with online communities; Software for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, audio, image and digital files and display screens; Software for communicating by wireless local area networks, wireless technologies, and other communication protocols between near-eye display systems and network devices, namely, mobile phones, smart phones, computers, tablets, and other computer systems; Software for creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, and sharing or otherwise providing electronic media or information via computer and communication networks; Software for creating, managing, and interacting with an online community; Software for generating images to be displayed in near-eye display system; Software for modifying and enabling transmission of images, audio, audio visual and video content and data; Software for ordering and/or purchasing goods and services; Software for organizing, searching for and managing events; Software for planning activities with other users, making recommendations; Software for smart phones and other computer systems to generate data, images, and audio for display in near-eye display systems and for transmitting such data, images, audio to near-eye display systems; Software for smart phones and other computer systems to receive data from near-eye display systems; Software for social and destination mapping; Software for social networking; Software for streaming multimedia entertainment content; Software for the collection,

managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; Software for tracking motion in, visualizing, manipulating, viewing, and displaying augmented, mixed and virtual reality experiences; Software for use in creating and designing virtual reality, augmented reality and mixed reality software; Software for wireless content, data and information delivery; Software in the nature of a mobile application; Software that enables individuals, groups, companies, and brands to create and maintain an online presence for marketing purposes; Virtual reality glasses; Virtual reality headsets; Virtual reality software; Virtual reality software for interactive entertainment; Virtual reality software for navigating a virtual reality environment; Virtual reality software for object tracking, motion control and content visualization; Virtual reality software for operating virtual reality headsets; Virtual reality software for users to experience virtual reality visualization, manipulation and immersion; Virtual, augmented, and mixed reality software for use in enabling computers, video game consoles, handheld video game consoles, tablet computers, mobile devices, and mobile telephones to provide virtual, augmented, and mixed reality experiences; Watches, bracelets, and wrist bands that communicate data to personal digital assistants, smart phones, and personal computers through Internet websites and other computer and electronic communication networks; Waterproof near eye display systems comprising computer hardware, electronic display interfaces, and software for the generation and display of virtual reality and mixed reality content; Wearable activity trackers; Wearable computer peripherals; Wearable computing devices comprised primarily of software and display screens for connection to computers, tablet computers, mobile devices, and mobile phones in order to enable virtual reality, augmented reality and mixed reality world experiences; Wearable digital electronic devices, namely, glasses, goggles, and headsets; Wearable electronic devices, namely, watches, bracelets, and wristbands that are comprised of software that communicates data to personal digital assistants, smart phones, and personal computers through Internet websites and other computer and electronic communication networks; Wearable peripherals

for computers, tablet computers, mobile devices and mobile telephones, namely, configurable head-mounted displays; Wireless computer peripherals; Light emitting diode (LED) signs; Neon signs; Non-fungible token (NFT) multimedia files; Non-fungible token (NFT) music files; Non-fungible token (NFT) image files; Non-fungible token (NFT) video files; Non-fungible token (NFT) text files; Non-fungible token (NFT) audio files; Image, music, audio, video and multimedia files authenticated by non-fungible tokens (NFTs); Digital images, audio, video and multimedia files; Computer graphics; Software for creating NFTs; Software for minting, creating, and issuing digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; Software for viewing and providing access to digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies; Software for distributing, trading, storing, sending, receiving, accepting, and transmitting digital assets, digital tokens, crypto-tokens, utility tokens, non-fungible tokens (NFTs), digital collectibles, crypto-collectibles, cryptocurrencies, digital currencies and virtual currencies.

Communications servers [computer hardware]; Computer controlled apparatus for furnishing voice responses to data inputs; Computer controlled workstations for data entry; Computer data in recorded form; Computer data input apparatus; Computer data input devices; Computer data interchange apparatus; Computer data storage apparatus; Computer databases; Computer installations for the communication of data; Computer installations for the processing of data; Computer installations for the storage of data; Computer network routers; Computer network server; Computer networks for the communication of data; Computer networks for the processing of data; Computer networks for the storage of data; Computer programs for connecting remotely to computers or computer networks; Computer programs for providing a

graphical presentation of data; Computer programs for scientific data analysis; Computer programs for the analysis of data processing efficiency; Computer related data communication apparatus; Computer servers; Computers for use in data management; Connecting devices for data collection; Connecting devices for data transfer; Data access apparatus for use in accessing stored information; Data acquisition apparatus; Data acquisition instruments; Data banks; Data buffers; Data bus interface units; Data carriers; Data carriers bearing computer programmes; Data carriers bearing machine readable data; Data carriers equipped with governing programs; Data carriers for computers having software recorded thereon; Data carriers for electronic data processing; Data carriers for use with data processing apparatus; Data carriers incorporating computer programs; Data carriers incorporating machine readable data; Data communications apparatus; Data communications hardware; Data communications installations; Data communications instruments; Data communications receivers; Data communications software; Data handling apparatus; Data handling installations; Data information processing apparatus; Data information processing units; Data loggers; Data logging apparatus; Data memories; Data meters; Data networks; Data processing apparatus; Data processing components; Data processing devices; Data processing equipment; Data processing information carriers; Data processing installations; Data processing instruments; Data processing machines; Data processing terminals; Data processing units; Data processors; Data processors for business data; Data programmes; Data protection backup units; Data receivers; Data recorded electronically; Data recorded electronically from the internet; Data recorded in electronic form; Data retrieval apparatus; Data security apparatus; Data security instruments; Data sets, recorded or downloadable; Data storage apparatus; Data storage devices; Data storage installations; Data storage instruments; Data storage machines; Data switches; Databases; Electric apparatus for data processing; Electric apparatus for storing computer data; Electric devices for transmission of data between computers; Electric devices for transmission of data between microprocessors; Electrical apparatus for

data acquisition; Electrical apparatus for recording data; Electrical apparatus for the input of data; Electrical apparatus for the output of data; Electrical apparatus for use in the encoding of data; Electrical communication apparatus for transmitting data; Electrical devices for storage of data; Electrical devices for transmission of data; Electrical units for data conditioning; Electrically recorded data for computers; Electronic apparatus for data processing; Electronic apparatus for manipulating data; Electronic apparatus for relaying data; Electronic apparatus for the transmission of data; Electronic data apparatus for use with computers; Electronic data carriers; Electronic data collection apparatus; Electronic data communications apparatus; Electronic data communications installations; Electronic data processing apparatus; Electronic data processing devices; Electronic data processing equipment; Electronic data processing installations; Electronic data processing machines; Electronic databases recorded on computer media; Electronic devices for data processing; Electronic devices for the transmission of data between computers; Electronic devices for the transmission of data between microprocessors; Electronic devices for transmitting data; Electronic industrial network apparatus for high speed data transmission; Electronic instruments for the receiving of data; Electronic mail servers; Electronic memories for the control of computer data; Electronic memories for the input of computer data; Electronic memories for the output of computer data; Electronic memories for the storage of computer data; Electronic remote data transfer apparatus; Electronic telecommunications apparatus; Expandable data processing apparatus; External storage apparatus for use with data processing apparatus; Flat screens for electronic data processing apparatus; Hard discs for electronic data processing; High speed data transmission apparatus; Information storage devices for use in data processing apparatus; Instruction programmes for the processing of data; Instruction programmes for the storage of data; Instruments for electronic data processing; Integrated data processing installations; Interactive data transfer apparatus; Internet servers; Intranet servers; Local area networking apparatus for the switching of data; Local area networking apparatus for the

transmission of data; Magnetic data media; Magnetic data memories; Magnetic data recording apparatus; Magnetic data storage materials; Magnetic media for the handling of data; Magnetic media for the storage of data; Memories for data processing equipment; Memory devices for use with data processing apparatus; Microchips for recording data; Microcircuit data carriers; Mobile communication terminals; Mobile computers; Mobile data apparatus; Mobile data communications apparatus; Mobile data instruments; Mobile data receivers; Multiplexers for bearing data; Multiplexers for use in the alternate transmission of data; Network access server hardware; Network access server operating software; Network routers; Network servers; Operating software for network access servers; Portable electronic apparatus for the collection of machine data; Private automatic branch exchanges for data; Processing programmes recorded on data carriers; Program carriers for electronic data processing apparatus; Real-time data processing apparatus; Recorded data files; Recorded data, encoded; Recording materials for the storage of data, magnetic; Remote data gathering apparatus; Repeaters for use in data networking; Scanners for entering data into computers; Sensors for real time data input apparatus; Sensors for real time data output apparatus; Servers for web hosting; Solid-state electrical apparatus for storing computer data; Solid-state electronic data storage materials; Storage apparatus for computer data; Storage materials for data in electronic form; Storage materials for data in magnetic form; Synchronous data communications apparatus; Synchronous data units; Synchronous data-link control adaptors; Telecommunications apparatus for transferring data to computers; Telecommunications apparatus for transmitting data for use with computers; VPN [virtual private network] hardware; VPN [virtual private network] operating software; WAN [wide area network] hardware; Watches that communicate data to smartphones; Wide area network (WAN) routers; Wire free data transmission apparatus; Wireless routers; Access control cards, encoded or magnetic; Access interfaces for managed private circuit networks; Actuators [electric switches]; Add-in cards for micro computers; Alarm central units; Alarm control

apparatus; Alarm devices, other than for vehicles; Alarm installations; Alarm instruments, other than for vehicles; Alarm management apparatus; Alarm management installations; Alarm monitoring systems; Alarm systems; Apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; Apparatus designed to monitor the performance of apparatus; Apparatus for collecting encoded data for supply to computers; Apparatus for communication; Apparatus for computing; Apparatus for converting digital values into graphic information; Apparatus for data collection; Apparatus for data communications between computers; Apparatus for data entry; Apparatus for data processing; Apparatus for data storage; Apparatus for data transmitting; Apparatus for decoding encoded signals; Apparatus for decoding magnetically recorded information; Apparatus for digital signal processing; Apparatus for digitising geometric data contained in documents; Apparatus for electronic digital processing; Apparatus for electronic image reception; Apparatus for electronic image transmission; Apparatus for electronic information processing; Apparatus for electronic mail; Apparatus for electronic payment processing; Apparatus for electronic publishing; Apparatus for information processing; Apparatus for information teleprocessing; Apparatus for information transmission; Apparatus for inputting information into a computer; Apparatus for processing data; Apparatus for processing data programmes; Apparatus for processing data relating to images; Apparatus for processing digital data; Apparatus for processing digital video signals; Apparatus for processing electronic payments; Apparatus for programming data; Apparatus for reading encoded data; Apparatus for reading encoded information; Apparatus for recording, transmission or reproduction of sound or images; Apparatus for remote data transmission; Apparatus for retrieving data; Apparatus for searching electronic information; Apparatus for sending data; Apparatus for the acquisition of data; Apparatus for the acquisition of information; Apparatus for the communication of data; Apparatus for the conversion of data; Apparatus for the conversion of information; Apparatus for the graphic display of data; Apparatus for the processing of data;

Apparatus for the processing of digital information; Apparatus for the processing of information; Apparatus for the storage of data; Apparatus for the storage of information; Apparatus for the transmission of data; Apparatus for verifying data on magnetically encoded cards; Appliances for communication; Cable installations for the transmission of data; Cable management installations for data signal transmission; Cards bearing data for use in data processing apparatus; Cards carrying magnetically, optically or electronically recorded or encoded information; Cards encoded to access computer software; Cards encoded with security features for authentication purposes; Cards encoded with security features for identification purposes; Coding apparatus; Communication devices; Communication devices for linking computer networks; Communication hubs; Communication installations; Communication instruments; Communication interface units; Communication modems; Communication routing apparatus; Communication routing instruments; Communications networks; Communications systems; Computer apparatus; Computer apparatus for filing information; Computer apparatus for gathering information; Computer apparatus for use with computer networks; Computer controls; Computer hardware; Computer hardware for telecommunications; Computer heat sinks; Computer housings; Computer installations; Computer installations incorporating a central processing unit; Computer interface apparatus; Computer interface devices; Computer interface instruments; Computer interface units; Computer interfaces; Computer monitoring apparatus; Computer monitoring instruments; Computer network adapters; Computer network bridges; Computer network hubs; Computer network operating installations; Computer network switches; Computer network-attached storage (NAS) hardware; Computer networking apparatus; Computer networking hardware; Computer networking installations; Computer networks; Computer operated digitisers; Computer peripheral apparatus; Computer peripheral devices; Computer peripheral equipment; Computer peripherals; Computers and computer peripheral devices; Computing apparatus; Computing apparatus for handling information; Computing installations; Data being electrically

recorded for computers; Data being magnetically recorded for computers; Data being optically recorded for computers; Data cables; Data capture apparatus; Data capture instruments; Data carriers bearing machine readable programs; Data carriers containing computer programs; Data carriers equipped with controlling programs; Data carriers incorporating computer programs written in machine code; Data carriers incorporating controlling programs; Data carriers incorporating programs; Data carriers recorded with programs to enable data to be displayed; Data collecting machines; Data collection apparatus; Data collection computer installations; Data collection instruments; Data collectors; Data conversion apparatus; Data encoding apparatus; Data encryption apparatus; Data entry apparatus; Data entry terminals; Data exchange units; Data exit terminals; Data feeders; Data feeders for use with artificial intelligence; Data feeders linked with artificial intelligence; Data files, downloadable; Data in machine readable form; Data input apparatus for use with computers; Data interconnecting computer installations; Data processing apparatus for use in information storage; Data processing apparatus for use with computers; Data processing input devices; Data sorting apparatus; Data terminals for the validation of data; Data transfer apparatus; Data transfer instruments; Data transmission apparatus; Data transmission installations; Data transmission networks; Data transmitting instruments; Downloadable applications for use with mobile devices; Electrical data converters; Electrical data input apparatus for use with computers; Electrical data input devices; Electrical data output apparatus for computers; Electronic instruments for monitoring systems associated with buildings; Firmware; Hard drives; Local area computer installations; Local area networks; Memory devices; Memory devices for use with computer apparatus; Memory expansion cards; Memory expansion modules; Memory modules; Microcomputer apparatus; Microcomputer assemblies; Microcomputers; Microcomputing apparatus; Microcomputing instruments; Microelectronic components; Microprocessors; Minicomputers; Multiplexers; Multiplexers for recording data; Multiplexers for use in the alternate transmission of voice signals; Network management apparatus;

Network protection devices, electric; Network protection devices, electronic; Networks for the interconnection of communication systems; Optical data carriers; Optical data media; Optical data receiving apparatus; Optical data recording apparatus; Optical data reproducing apparatus; Optical data storage apparatus; Optical data storage drives; Optical data transmission systems; Portable computers; Power stabilisers; Power supplies for computers; Power switches; Power system meters; Power testers; Power units for supplying electrical current; Regulated power supply apparatus; Regulating apparatus, electric; Regulating transformers; Remote monitoring apparatus; Repeaters; Secure microprocessors; Secure transmission apparatus; Secure transmission instruments; Security tokens [encryption devices]; Solid state drives; Solid-state component relays; Solid-state devices; Solid-state electrical apparatus for storing computer programs; Solid-state memories; Solid-state memory devices; Telecommunication exchangers; Telecommunication machines and apparatus; Telecommunication switches; Telecommunications equipment; Uninterruptible electrical power supplies; Uninterruptible power supply apparatus [battery]; Uninterruptible power supply instruments; Units for converting information received in machine readable format; Units for decoding information received in machine readable format; Units for displaying information received in machine readable format; USB adapters; USB dongles [wireless network adapters]; USB flash drives; USB hubs; USB port cards; USB web keys; Utility programs for performing computer system diagnostics; Webcams; Wide area networks; Wired communication apparatus; Wireless communication apparatus; Wireless transmission apparatus; Work stations [computer apparatus]; Work stations [computers]; communication apparatus.

Class 35

Advice relating to personnel management; Advisory services relating to data processing; Analysis of business data; Analysis of market research data and statistics; Automated data processing; Business consultancy relating to the

administration of information technology; Business consultancy services relating to data processing; Business data analysis; Business efficiency advice; Business management and administration services supporting utilisation of a global computer network; Business organisation and management consultancy in the field of personnel management; Business process management and consulting; Business risk assessment services; Business risk management consultancy; Business risk management services; Collating of data in computer databases; Collection of data; Collection of personnel information; Commercial information services provided by access to a computer database; Company data information services; Company record-keeping; Compilation and systemization of information into computer databases; Compilation of business data; Compilation of business statistics and commercial information; Compilation of indexed addresses; Compilation of information into computer databases; Compiling of information into computer databases; Computer data entry services; Computer data processing; Computerised business records keeping; Computerised data processing; Computerised data verification; Computerised database management; Computerised file management; Computerised office management; Consultancy of personnel recruitment; Consultancy relating to business efficiency; Consultancy relating to data processing; Consultancy relating to personnel management; Consultancy relating to personnel recruitment; Consultancy relating to the selection of personnel; Data collection for others; Data compilation for others; Data entry services; Data handling; Data management; Data management advice; Data management consultancy; Data preparation [office functions]; Data processing; Data processing for the collection of data for business purposes; Data processing verification; Data retrieval [office functions]; Data search in computer files for others; Data transcription; Database management; Database marketing; Electronic data processing; Evaluation of personnel requirements; Information retrieval [office functions]; Maintenance of personnel records for others; Management and compilation of computerised databases; Market research data collection services; Market research data retrieval

services; Online data processing services; Providing business information, also via internet, the cable network or other forms of data transfer; Provision of business data; Recruitment and personnel management services; Registration of written communications and data; Selection of staff; Statistical analysis and reporting services for business purposes; Systematization of data in computer databases; Systemization of information into computer databases; Tracking and monitoring energy consumption for others for account auditing purposes; Updating and maintenance of data in computer databases.

Class 36

Building leasing; Lease financing of telecommunication equipment; Leasing of buildings; Leasing or renting of buildings; Management of buildings; Providing information relating to the rental of buildings; Real estate management services relating to industrial premises; Rental of buildings; Financial information processing; Financial information provided by electronic means; Providing financial information by means of a computer database; Providing on-line stock exchange information from a computer database or the Internet; Provision of information and data concerning stock exchanges; Leasing of office space, namely leasing of rack space and purpose-built high specification space to facilitate the housing of telecommunication or computer-related equipment and services.

Class 37

Installation of data network apparatus; Installation of data processing apparatus; Installation of electric light and power systems; Installation of electronic and digital connection to a call centre; Installation of security and safety equipment; Installation of security systems; Maintenance and repair of data communications networks; Maintenance and repair of data processing apparatus; Maintenance and repair of hardware for data processing apparatus; Maintenance and servicing of data processing installations; Building and construction of real estate subdivisions and

developments; Building maintenance and repair; Commissioning [installation and maintenance] services; Computer installation and repair; Custom construction of buildings; Diagnostic maintenance services; Electric appliance installation and repair; Electrical wiring services; Installation and repair of telecommunication apparatus; Installation of apparatus for air-conditioning; Installation of apparatus for ventilating; Installation of clean room environmental control systems; Installation of clean room systems; Installation of communication equipment; Installation of communications network apparatus; Installation of communications network instruments; Installation of computer hardware; Installation of computer systems; Installation of computerised information systems; Installation of computers; Installation of electricity generators; Installation of electronic apparatus; Installation of energy-saving apparatus; Installation of environmental control systems; Installation of environmental protection systems; Installation of hardware and cables for Internet access; Installation of hardware for computer systems; Installation of heating and cooling apparatus; Installation of storage facilities; Installation of telecommunications apparatus; Installation of ventilation and dust extraction systems; Installation, maintenance and repair of computer hardware; Installation, repair and maintenance of computers and computer peripherals; Installing of electronic communications networks; Installing of telecommunications networks; Interference suppression in electrical apparatus; Maintenance and repair of communications systems; Maintenance and repair of computer hardware; Maintenance and repair of computers; Maintenance and repair of cooling appliances and installations; Maintenance and repair of telecommunications apparatus; Property development [building and construction services]; Property maintenance; Providing information relating to the repair or maintenance of telecommunication machines and apparatus; Repair and maintenance of computer and telecommunications hardware; Repair of electrical equipment and electrotechnical installations; Repair of electronic apparatus; Repair or maintenance of telecommunication machines and apparatus.

Class 38

Telecommunications services; Advisory and consultancy services relating to wireless communications and wireless communications equipment; Advisory services relating to communications equipment; Advisory services relating to telecommunications; Automatic transfer of digital data using telecommunications channels; Broadcast transmission by satellite; Broadcasting services; Cable broadcasting and transmission; Cable transmission of sounds, images, signals and data; Call centre services [electronic call diversion and messaging]; Communication between computers; Communication by computer; Communication by computer terminals; Communication by electronic means; Communication of data by means of telecommunications; Communication of information by satellite; Communication services between data banks; Communication services by cable; Communication services by electronic means; Communication services by radio; Communication services for the electronic transmission of data; Communication services for the transmission of information; Communication services over computer networks; Communication services provided electronically; Communication services, namely, electronic transmission of data and documents among users of computers; Communication via computer terminals, by digital transmission or by satellite; Communication via fibre-optic networks; Communications services for accessing a data-base; Communications services for the exchange of data in electronic form; Communications services provided over the Internet; Communications via analogue and digital computer terminals; Communications via multinational telecommunication networks; Computer aided transmission of messages, data and images; Computer data transmission services; Computer network communication services; Computerised data communications; Consultancy in the field of telecommunications; Consultancy services relating to communications; Consultancy services relating to data communications; Data broadcasting services; Data communication services; Data streaming; Data transfer services; Data transmission; Data transmission and reception services via telecommunication means; Data transmission for others; Data

transmission services; Data transmission services between networked computer systems; Data transmission services over telecommunications networks; Data transmission via telematic networks; Digital network telecommunications services; Digital transmission of data; Digital transmission of data via the Internet; Digital transmission services; Digital transmission services for audio and video data; Electronic communication services; Electronic communication services for the transmission of data; Electronic data communications; Electronic data exchange services; Electronic data interchange [EDI] services; Electronic data transmission; Electronic exchange of data stored in databases accessible via telecommunication networks; Electronic transmission and retransmission of sounds, images, documents, messages and data; Electronic transmission of data; Electronic transmission of data and documents via computer terminals and electronic devices; Electronic transmission of messages and data; Fiber optic telecommunications services; Geolocation services [telecommunications services]; High bit-rate data transmission services for telecommunication network operators; Hire of communications apparatus; Hire of electronic mail boxes; Hire of telecommunications apparatus; Hire of telecommunications installations; Hire of telecommunications instruments; Information services relating to broadcasting; Information services relating to electronic communication networks; Information services relating to telecommunications; Internet access provider services; Internet broadcasting services; Internet communication services; Internet portal services; Internet service provider [ISP] services; Leasing of access time to a computer database; Leasing of access time to global computer networks; Leasing of telecommunication equipment; Netcasting [broadcasting over a global computer network]; Network transmission of sounds, images, signals and data; News agency services for electronic transmission; Operating of electronic communications networks; Operating of electronic communications systems; Operation of cellular communications systems; Operation of local area networks; Operation of telecommunications apparatus; Operation of telecommunications systems; Providing access to computer networks; Providing

access to computer software; Providing access to databases; Providing access to information on the Internet; Providing access to information via data networks; Providing access to information via the Internet; Providing access to multimedia content online; Providing access to online computer databases; Providing access to platforms and portals on the Internet; Providing access to telecommunication networks; Providing access to the Internet and other communications networks; Providing access to web portals; Providing access to websites on the Internet or any other communications network; Providing electronic telecommunication connections; Providing frame relay connectivity services for data transfer; Providing high speed access to computer and communication networks; Providing information about wireless communication; Providing information, including online, about telecommunications; Providing of access to telecommunication warehousing services; Providing telecommunication connections to the internet or databases; Providing telecommunications connections to a global communication network or databases; Providing third party users with access to telecommunication infrastructure; Providing user access to computer programmes in data networks; Providing user access to computer software in data networks; Providing user access to global computer network and online sites containing information on a wide range of topics; Providing user access to global positioning signals for navigation purposes; Providing virtual private network (VPN) services; Provision of access to an electronic on-line network for information retrieval; Provision of access to computer databases; Provision of access to data on communication networks; Provision of access to data or documents stored electronically in central files for remote consultation; Provision of access to data via the Internet; Provision of communications between computers; Provision of electronic communications facilities; Provision of electronic data links; Provision of email services; Provision of telecommunication connections to a global computer network; Provision of telecommunication facilities; Provision of user access to the internet; Remote transmission of data by means of telecommunications; Rental of access time to a computer database; Rental of access time to a database

server; Rental of access time to databases; Rental of access time to global computer networks; Rental of communication apparatus and implements; Rental of communications equipment; Rental of communications instruments; Rental of communications systems; Rental of data communication apparatus; Rental of data communications equipment; Rental of data communications installations; Rental of telecommunication apparatus; Rental of telecommunication devices and equipment enabling connection to networks; Rental of telecommunication facilities; Rental of telecommunications apparatus and installations; Rental of telecommunications routers; Satellite transmission of sounds, images, signals and data; Satellite transmission services; Secure e-mail services; Secure telecommunications [providing secure connections and access including to computers and the global computer network]; Signal transmission for electronic commerce via telecommunication systems and data communication systems; Streaming of audio, visual and audiovisual material via a global computer network; Streaming of data; Switching network services [telecommunications]; Telecommunication access services; Telecommunication gateway services; Telecommunications; Telecommunications services for the distribution of data; Telecommunications services provided via fiber optic, wireless and cable networks; Telecommunications services provided via the Internet, intranet and extranet; Transfer of data by telecommunications; Transfer of information and data via online services and the Internet; Transferring and disseminating information and data via computer networks and the Internet; Transmission and distribution of data or audiovisual images via a global computer network or the Internet; Transmission and reception of database information via telecommunication networks; Transmission of computerised data; Transmission of data; Transmission of data and information by computer and electronic communication means; Transmission of data by cable; Transmission of data by computer; Transmission of data by electronic means; Transmission of data via ISDN lines; Transmission of data via satellite; Transmission of data via the Internet; Transmission of data, audio, video and multimedia files, including

downloadable files and files streamed over a global computer network; Transmission of data, messages and information; Transmission of data, sound and images by satellite; Transmission of database information via telecommunications networks; Transmission of electronic mail; Transmission of information by computer; Transmission of information by data communications for assisting decision making; Transmission of information by electronic communications networks; Transmission of information by electronic means; Transmission of information on a wide range of topics, including online and over a global computer network; Transmission of information via computer networks; Transmission of information via national and international networks; Transmission of information via wireless or cable networks; Transmission of messages, data and content via the Internet and other communications networks; Transmission of stock market information with the help of telecommunication media; Transmission of videos, movies, pictures, images, text, photos, games, user-generated content, audio content, and information via the Internet; Video broadcasting; Video communication services; Video conference services [telecommunications services]; Video, audio and television streaming services; Web portal services [providing user access to global computer network]; Webcasting services; Wire service; Wireless broadcasting; Wireless communication services; Wireless electronic transmission of data; Wireless PBX services; Wireless transfer of data via digital mobile telephony; Wireless transfer of data via the Internet; Wireless transfer of data via wireless application protocols.

Class 39

Physical storage of electronically stored data or documents; Physical storage of electronically stored data, documents, digital photographs, music, images, video, and computer games; Physical storage of electronically stored digital data, photographs, audio and image files; Physical storage of electronically stored files and documents; Physical storage of electronically stored information; Providing information about temporary storage services; Providing information relating to storage services;

Packaging and storage of goods; Transport; Travel arrangement; Collection of documents; Computerised distribution planning relating to transportation; Computerised transport information services; Consultancy services relating to the distribution of electricity; Depository storage; Electricity storage; GPS navigation services; Information and advisory services in relation to the distribution of energy; Rental of warehouse space; Vehicle routing by computer on data networks; Bonded storage; Bonded warehousing; Warehousing.

Class 42

Design and development of computer hardware and software; Industrial analysis, industrial research and industrial design services; Quality control and authentication services; Administration of mail servers; Administration of user rights in computer networks; Advisory services in the field of product development and quality improvement of software; Advisory services relating to building design; Advisory services relating to computer hardware; Advisory services relating to computers; Advisory services relating to energy efficiency; Analysis and evaluation of product design; Analysis and evaluation of product development; Analysis of telecommunication signals; Application service provider [ASP] services; Authentication services for computer security; Authentication services for electronic documents and e-mail; Back-up of computer data; Backup services for computer hard drive data; Building design services; Cloud hosting provider services; Cloud storage services for electronic data; Cloud storage services for electronic files; Coding of messages; Commissioning [testing and inspection] services; Comparative analysis studies of the performance of computer systems; Compilation of computer programs; Compilation of data-processing programs; Compilation of web pages for the Internet; Compression of data for electronic storage; Computer advisory services; Computer analysis; Computer rental; Computer code conversion for others; Computer co-location services; Computer consultancy; Computer database design consultancy services; Computer design services; Computer disaster recovery

planning; Computer disaster recovery services; Computer engineering; Computer firewall services; Computer forensic services; Computer hardware design; Computer hardware development; Computer leasing; Computer network configuration services; Computer network design for others; Computer network services; Computer performance testing; Computer program advisory services; Computer program maintenance services; Computer program updating services; Computer project management in the field of EDP; Computer research services; Computer security consultancy; Computer security engineering; Computer security services [design and development of secure computer hardware, software and systems]; Computer security services [programming and software installation, repair and maintenance services]; Computer security services [testing and risk assessment of computer networks]; Computer security services for protection against illegal network access; Computer security services in the nature of administering digital certificates; Computer security threat analysis for protecting data; Computer services in the nature of hosting web sites for others; Computer software advisory services; Computer software development; Computer software installation and maintenance; Computer software integration; Computer software programming services; Computer software repair; Computer software research; Computer software technical support services; Computer software updating services; Computer systems design; Computer systems development; Computer time-sharing services; Computer virus protection services; Computerised business information storage; Computerised communication network security; Computerised data storage services; Configuration of computer firmware; Configuration of computer networks by software; Configuration of computer software; Configuration of computer systems and networks; Consultancy in the field of technological design; Consultancy in the field of technological research; Creating of computer programs; Creating programmes for data processing; Creating, maintaining, and updating computer software; Cross-platform conversion of digital content into other forms of digital content; Cryptocurrency mining; Cryptomining; Customization of computer software; Cybersecurity consultancy; Data conversion of

computer programs and data, not physical conversion; Data conversion of electronic information; Data migration services; Data mining; Data security services [firewalls]; Database design and development; Debugging computer software for others; Decoding of data; Design and development of computer firmware; Design and development of computer peripherals; Design and development of computer software; Design and development of electronic database software; Design and development of energy distribution networks; Design and development of energy management software; Design and development of Internet security programs; Design and development of wireless computer networks; Design and development of wireless data transmission apparatus, instruments and equipment; Design and planning services relating to telecommunication equipment; Design of communication systems; Design of communications apparatus; Design of computer cluster configurations; Design of computer codes; Design of computer databases; Design of computer hardware; Design of computer languages; Design of computer peripherals; Design of computers; Design of diagnostic apparatus and equipment; Design of information systems; Design of telecommunications apparatus and equipment; Design of telecommunications installations; Maintenance, development and updating of computer software; Developing data feed formats featuring user-defined information; Developing of driver and operating system software; Development and creation of computer programmes for data processing; Development and maintenance of computer database software; Development of computer based networks; Development of computer codes; Development of computer hardware; Development of computer programs; Development of computer software; Development of computer software application solutions; Development of computer systems; Development of computers; Development of data processing programs by order of third parties; Development of energy and power management systems; Development of programmes for data processing; Development of software; Development of software for secure network operations; Development of systems for the processing of data; Development of systems for the storage of data;

Industrial minerals; processed minerals; processed hematite minerals; processed magnetite minerals; chemicals and chemical additives for use in industry, science, manufacture and research; cobalt chemicals; cobalt chemicals produced by renewable energy; lithium; lithium produced by renewable energy; chemical products for use in industry, science, manufacture and research; chemical preparations and substances for use in industry, science, manufacture and research; chemical preparations for decarbonising engines; ammonia and ammonia additives and hydrogen and hydrogen additives for use in industry, science, manufacture and research; ammonia and hydrogen products, preparations and substances for use in industry, science, manufacture and research; hydrogen; hydrogen chemical preparations and substances; hydrogen produced by renewable energy sources; hydrogen gas; liquid hydrogen; dissolved hydrogen; mixtures of gas, liquid and dissolved hydrogen; graphite; synthetic graphite; graphite for industrial use; chemical reagents or mixtures, other than for medical or veterinary purposes; ammonia; ammonia (volatile alkali) for industrial purposes; volatile alkali (ammonia) for industrial purposes; ammonia for industrial purposes; ammonia produced by renewable energy sources; ammonia water; aqueous ammonia for industrial purposes; anhydrous ammonia; ammonia alum; ammonia and ammonia produced by renewable energy sources for use in industrial processes, including industrial processes that make nitrogen based fertilisers, dye, pharmaceuticals, chemicals, metal ores, iron and steel; ammonia and ammonia produced by renewable energy sources for use for the manufacture of refrigerants, cleaning products, including household cleaning products, plastics, rubbers, explosives, textiles, pesticides and cosmetic products; ammonia and ammonia produced by renewable energy sources for purification treatments of water supplies and wastewater treatments; chemical water testing and treatment preparations; hydrocarbons; hydrocarbon compounds; gaseous hydrocarbons; gaseous hydrocarbon compounds; graphene; graphene for industrial use; carbon for industrial use; catalysts for the production of hydrogen; iron oxides, phosphates and salts used in industry; iron oxide; gases for industrial use or

laboratory use, other than for medical use; gas mixtures for use in science; gas purifying preparations and substances; inert gases for industrial and scientific use; liquefied gases for use in industry, research and science, other than for medical use; magnesium chloride for use in industry, science, manufacture and research; magnesium oxide for use in industry, science, manufacture and research; cement (adhesives); cement (metallurgy); chemical mixtures for use as additives and agglutinants for concrete; chemical mixtures for use as additives and agglutinants for cement and concrete produced by renewable energy sources; cement and concrete preservatives, except paints and oils; cement and concrete waterproofing chemicals, except paint; chemical additives for cement and concrete; chemical compositions for hardening cement and concrete; chemical preparations for the treatment of cement and concrete; binding chemicals for concrete; bonding agents for concrete; chemical preparations for use with cement and concrete; chemical products for use as additives to cement and concrete; compositions for setting cement and concrete; compositions for preserving cement and concrete; preservatives for cement and concrete; chemical products for protecting and sealing cement and concrete; chemical reagents or mixtures, other than for medical or veterinary purposes.

Class 04

Fuels; fuel mixtures; fuels derived from hydrogen or predominantly derived from hydrogen; fuels derived from hydrogen, or predominantly derived from hydrogen, produced by renewable energy sources; fuels derived from ammonia or predominantly derived from ammonia; fuels derived from ammonia, or predominantly derived from ammonia, produced by renewable energy sources; electricity (energy); energy derived from ammonia or predominantly derived from ammonia; energy derived from ammonia, or predominantly derived from ammonia, produced by renewable energy sources; energy derived from hydrogen or predominantly derived from hydrogen; energy derived from hydrogen, or predominantly derived from hydrogen, produced by renewable energy sources; fuel and energy derived from

direct ammonia conversion, namely combustion or direct ammonia fuel cells; fuel and energy derived from indirect ammonia conversion, namely, hydrogen vector; hydrocarbon fuels; solid, liquid and gaseous fuels; electricity; electrical energy; carbon materials for use as fuels namely graphite or synthetic graphite; graphite as a fuel; liquid fuel; vaporised fuel mixtures; solid fuels; solid oxygen fuel; non-chemical additives for fuels; gaseous fuels; gas mixtures; liquid gases; dissolved gases; combustible gases; natural gas; solidified gas (fuel); synthetic gas (fuel); gases for use as illuminants; fuels and gases for heating and lighting purposes; fuels and gases for automobiles; illuminants and illuminating materials; biofuel; biogas; combustible fuels and gases; renewable energy, namely, solar energy, wind energy, hydroelectric and geothermal energy; geothermal steam for use as fuel or industrial heating.

Class 06

Common metals and their alloys; iron; steel and chrome alloys; iron alloys; ores; iron ores; iron ores, namely, magnetite ore; iron ores produced by renewable energy sources; iron ore sinter; iron ore pellets; iron ore concentrate; pig iron; pure iron; iron metallics, namely, pig iron, direct reduced iron and hot briquetted iron; steel produced by renewable energy; iron produced by hydrogen generated via water electrolysis using renewable energy; iron produced by hydrogen and ammonia; iron produced by electrochemicals; nickel; nickel produced by renewable energy; cobalt (raw); cobalt (raw) produced by renewable energy; metallic ores; ferrous ores; processed metal ores; processed iron ores; iron, unwrought or semi-wrought; metal powders; ore powders; iron powders; mineral ores in this class; common metals, unwrought or semi-wrought; alloys of common metals; ores of metal; limonite; chrome ores; steel; steel produced by renewable energy; copper; gold solder; lithium pegmatite ore; copper-porphyry; copper-molybdenum; copper-gold; metal building products.

Class 07

Automated assembly machines; automated machines for loading materials; automated handling apparatus; mechanical control instruments (mechanisms) for the automation of machining operations; mine working machines; machines for drilling; electric drills; bulldozers; excavators; diggers (machines); drilling rigs; automated drilling machines; automated electric drills; automated excavators; automated diggers (machines); automated drilling rigs; automated concrete mixer machines; automated concrete pump machines; automated concrete spraying machines; automated apparatus and machines for use in mining; automated energy generation plants; automated electrolysis plants; industrial robots; apparatus, equipment and instruments for the generation of power; generators; electricity generators; wind powered electricity generators; power generation plants; electric generators; electric generator stations; machines for generating gas by electrolysis; electrolysis plants; machines for generating power; wind turbines; wind towers, being parts of wind turbines; wind turbine blades; turbines for power generation; power operated tools; apparatus and machines for use in mining; concrete mixer machines; concrete pump machines; concrete spraying machines; converters for steel works; electric motors; gas converters; gas condenser machines; fuel dispensing pumps for service stations and parts related thereto; hydrogen fuel dispensing pumps for refuelling stations for vehicles with hydrogen engines or propulsion systems; hydrogen dispensing pumps for service stations; automated control mechanisms for machines, engines or motors; electric motors for machines; electric drives for machines; transmissions for machines; power transmission systems for machines; mobile machines adapted to operate automatically; mechanical control apparatus for the automation of plant and machinery; fuel conversion apparatus for internal combustion engines; electrolysis apparatus for converting water into hydrogen and/or oxygen gas; electric engines for the propulsion of aircraft; electric engines for the propulsion of watercraft; electric drives for aircraft; electric drives for watercraft; hydrogen engines for the propulsion of aircraft; hydrogen engines for the propulsion of watercraft; engines for aircraft

using ammonia as a fuel source; engines for watercraft using ammonia as a fuel source; parts, fittings and accessories for the aforementioned goods.

Class 09

Scientific, research, navigation, surveying, photographic, cinematographic, audio-visual, weighing, measuring, signalling, detecting, testing, inspecting, and teaching apparatus and instruments; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; recorded and downloadable media; computer software; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for controlling and monitoring unmanned vehicles; electrical apparatus for the automated control of vehicles and machines; computer apparatus for use in the automation of machines; application software; computer programs; downloadable computer software; battery management software; computer algorithms; downloadable computer software using artificial intelligence for use in machine learning; downloadable artificial intelligence software; artificial intelligence and machine learning software; software featuring technologies including algorithms and artificial intelligence; data feeders for use with artificial intelligence; software for the supervision of equipment and installations for the production and distribution of energy; software for smart charging of electric vehicles and/or hydrogen-powered or hydrogen-propelled vehicles; computer software, computer hardware and computer firmware for the autonomous operation of vehicles and equipment, including mining haul trucks, road trains, trains, water carts, mining trucks and carts, excavators, bulldozers, diggers, machine loaders, drones and drilling rigs; downloadable and recorded computer software for the remote control of automatically guided vehicles, unmanned aircraft, drones, unmanned locomotives, and unmanned ships and barges; computer software for the remote management, maintenance, fault diagnosis, control and tracking of autonomous or semi-autonomous vehicles, including mining haul vehicles, trucks and carts, road trains,

trains and drones; computer software for the remote management, maintenance, fault diagnosis, control and tracking of autonomous or semi-autonomous machines, including bulldozers, excavators, diggers, machine loaders and drilling rigs; autonomous driving control systems for vehicles; computers for autonomous operation of vehicles and equipment; autonomous navigation systems for vehicles and machines; automatic and autonomous driving control systems for vehicles; pre-collision detection and collision avoidance systems; pre-collision detection and collision avoidance systems for automated vehicles and machines; anti-collision and shockproof sensors for vehicles and automated machinery; anti-collision and shockproof radars for vehicles and automated machinery; computer hardware, software and firmware for high precision machine guidance of vehicles and machinery on mining sites; computer software for the management and operation of mining sites; computer software for the efficient assignment of manned and autonomous assets and resources on a mining site; computer algorithms for the efficient assignment of manned and autonomous assets and resources on a mining site; computer software for vehicle fleet management, including for the management of fleets of autonomous or semi-autonomous vehicles; vehicle tracking apparatus, including in relation to fleets of autonomous or semi-autonomous vehicles; computer software for monitoring, optimising, and regulating the storage and discharge of stored energy to and from batteries and electric cells; application software for monitoring the electric charge and status of vehicles and machines powered by batteries and electric cells; downloadable and recorded computer software for monitoring energy consumption; downloadable and recorded application software for controlling and monitoring energy and utility systems, energy production plants, iron and steel production plants, cement and concrete production plants, hydrogen production plants and ammonia production plants; computer hardware, computer software and computer firmware for use in the fields of battery management/control and energy storage; computer software to enable users to capture, record, monitor, display, transmit, process and/or analyse information and data relating to energy

storage and battery performance; computer software that enables users to monitor, interpret and/or model information and data relating to energy storage and battery performance; computer software for energy management; humanoid robots with artificial intelligence; electronic memories; electronic databases; computers and computer peripheral devices; computer hardware; electronic control devices; remote control apparatus and instruments; sensors; cameras; apparatus for managing energy supplies; electronic publications; electrolyzers; electric power supply units; electrification systems for land, air, rail and marine vehicles comprising vehicle battery packs, inverters for power supply, electric power controllers, electrical transformers, electrical cabling, electronic power converters, electric power distribution machines, battery chargers, and battery management software; electric cables; bundles of electric cabling; batteries; electric batteries for powering land, air or water vehicles; battery subpacks; battery chargers, including for vehicles; electric battery chargers; rapid charger units for battery electric equipment; electric batteries; high energy density energy cells; electric charging cables; electric cells; electric control devices for energy management; lithium batteries; battery management systems, namely, battery management software, resistor networks and electrical power connectors which monitor and regulate the supply, distribution and use of power from batteries; energy management systems, namely, power management software, resistor networks and electrical power connectors which monitor and regulate the generation, supply, transmission, distribution and use of power; power electronics, namely, inverters, converters, semiconductors; power controllers; power distribution or control machines and apparatus; electrical and electronic monitoring and switching apparatus and systems; thermal management systems for batteries and inverters, namely, resistor networks, temperature controlling apparatus, heat regulating apparatus, computer software for controlling heat exchangers, heat sensors and regulators, thermal management software and firmware and electronic power controllers; mobile and static off board power units; electronic measuring, sensing, recording, signalling and warning apparatus; charging stations for electric

vehicles; global positioning system (GPS) devices; photovoltaic cells and modules; electronic digital building automation systems; electronic digital automation installations for measuring building service installations; power units; parts, fittings and accessories for the aforementioned goods.

Class 12

Vehicles; apparatus for locomotion by land, air or water; land, air, rail and marine vehicles; helicopters; trains; regenerative trains; vehicles for transport of goods by land, air, rail or water; mining vehicles; autonomous vehicles; autonomous trains; mining trucks and carts; mine carts; mine trains; mine cart wheels; autonomous mining trucks, trains and carts; electric engines for land vehicles; electric drives for land vehicles; hydrogen engines for land vehicles; engines for land vehicles using ammonia as a fuel source; traction engines; dump trucks; camera and delivery drones; remote control vehicles (other than toys); accessories for remote control vehicles; remote control drones; accessories for remote control drones; civilian drones; military drones; photography drones; parts, fittings and accessories for the aforementioned goods except for electric engines, electric drives, hydrogen engines and engines for land vehicles and traction engines.

Class 19

Materials, not of metal, for building and construction; cement; concrete; concrete aggregate; cement and concrete made by renewable energy sources; blended cements and concrete; cement and concrete mixes; premixed cement or concrete; fibre cements; magnesium cement; refractory cement; building and construction materials made of cement or concrete; cement or concrete based mixtures for use in building and construction; cement or concrete based coatings for use in building and construction; cement or concrete based materials for use in building and construction; cement or concrete based wall coatings; cement or concrete blocks; cement for blast furnaces; cement or concrete posts, slabs, blocks, wall components, wall members,

tiles, cladding, panels, slopes, piles, plates, posts, sheets, beams, roof panels, roofing, mouldings, architectural products; fireproof cement coating; sheets of fibre cement for use in building; soil stabilising cement for use in agriculture; substances made of cement or concrete for filling and repair of surface defects and flaws; mixtures of cement, sand and stone material; cement or concrete products for use in buildings, gardens, landscaping, roadways, walkways, ponds, pools, water tanks; mortar; grout.

Class 35

Business research services; business administration; business management; business advice and assistance; business consultancy; business analysis; business information services; compilation and analysis of statistical information; compilation of data about mined material and mined product statistical information; business and administrative services for operating mines including import and export agency services and retail and wholesale of mined materials and products; business and administrative management of mines including import and export agency services and retail and wholesale of mined materials and products; business and administrative management services relating to the production of cement and concrete; business and administrative management of utility networks; business and administrative management services relating to the production of steel and iron; business and administrative management services relating to the production of energy, solar energy, renewable energy, ammonia, hydrogen, electricity, gas, fuel and water; business and administrative management of hydrogen production and generation plants; business and administrative management of ammonia production and generation plants; business and administrative management of solar power plants; business and administrative management of iron production facilities and plants; business and administrative management of steel production facilities and plants; business and administrative management of energy production and generation plants; business and administrative management of solar power, turbine

power, hydropower production facilities and plants; business and administrative management of fuel production and generation plants; business and administrative management of cement and concrete production facilities; advertising; marketing; retailing and wholesaling; retailing and wholesaling of mined material and products; retailing and wholesaling of hydrogen; retailing and wholesaling of hydrogen produced by renewable energy sources; retailing and wholesaling of ammonia; retailing and wholesaling of ammonia produced by renewable energy sources; retailing and wholesaling of fuels and energy; retailing and wholesaling of fuels and energy derived from ammonia or predominantly derived from ammonia; retailing and wholesaling of fuels and energy derived from ammonia, or predominantly derived from ammonia, produced by renewable energy sources; retailing and wholesaling of fuels and energy derived from hydrogen or predominantly derived from hydrogen; retailing and wholesaling of fuels and energy derived from hydrogen, or predominantly derived from hydrogen, produced by renewable energy sources; retailing and wholesaling of renewable energy, namely, solar energy, wind energy, hydroelectric and geothermal energy; retailing and wholesaling of iron; retailing and wholesaling of iron produced by renewable energy sources; retailing and wholesaling of steel; retailing and wholesaling of steel produced by renewable energy sources; retailing and wholesaling of cement and concrete and products made from cement or concrete; retailing and wholesaling of cement or concrete produced by renewable energy sources; retailing and wholesaling of autonomous vehicles, autonomous drones, autonomous mining equipment and systems for automating vehicles and equipment; the bringing together, for the benefit of others, of a variety of goods, enabling customers to conveniently view and purchase those goods; market surveys; compiling research and statistical data; computerised online ordering services; office functions; cost price analysis; public relations; import export agency services; sales promotion for others; business project management services for construction projects; business project management services for ammonia, hydrogen, hydro electrical and solar power systems and plant construction; business project

management services for iron and steel production facilities and plants; business project management of mining exploration and mining extraction services; providing business information via a web site; computerised stock ordering and control services; computerised file management; foreign trade consultancy; operation of loyalty programs; personnel management; business project management of mining exploration and mining extraction services; information, consultancy and advisory services concerning all the aforementioned.

Class 36

Financial services; valuation services; valuation of commodities; commodities trading (financial services); valuation of ores and precious metals; financial, funding, fundraising and banking services; financial and monetary affairs; financial consultancy, advice and information; financial sponsorship of education, training, entertainment, sporting, or cultural activities; charitable fundraising; conducting financial feasibility studies; funding and providing scholarships; financial investment services; financial funding services; fundraising projects; insurance; real estate affairs; fund management and investment management; financial management; financial analysis; electronic banking; debt collection; loan financing; property valuation; information, consultancy and advisory services concerning all the aforementioned.

Class 37

Construction; construction of plants and facilities; mining extraction services; mining services; construction of mines; cement and concrete pumping services; civil and mechanical engineering construction of mines; beneath ground construction of mines; construction, installation, repair and maintenance services; drilling; excavating; rental of excavators; charging electric vehicles; recharging of batteries and accumulators; rental of battery chargers; installation, repair and maintenance of electric vehicles chargers; installation, maintenance and repair of photovoltaic cells and modules;

installation of photovoltaic power generation installations; construction, installation, maintenance and repair of solar energy apparatus and installations; construction, installation, maintenance and repair of wind energy apparatus and installations; vehicle service stations and vehicle fuelling station services; hydrogen refuelling stations; hydrogen gas refuelling for vehicles; aircraft refuelling and maintenance services, including such services involving hydrogen fuels; watercraft refuelling and maintenance services, including such services involving hydrogen fuels; recharging services for electric vehicles, electric aircraft and electric watercraft; hydroelectric power station construction services; building of railways; constructions of ports and port terminals; rental of machinery for use in mining and excavating; rental of autonomous machinery for use in mining and excavating; remote operation in the field of maintenance of mining equipment; information, consultancy and advisory services concerning all the aforementioned.

Class 38

Telecommunications and communication services; communication services for remote control vehicles; communication services for remote control of machines and vehicles; communication services for remote controlling of transport of materials by land, rail, air and ship; providing telecommunications connections to a global computer network; web portal services (providing user access to a global computer network); transmission of information on a wide range of topics, including online and over a global computer network; providing access to online computer databases; information, consultancy and advisory services concerning all the aforementioned.

Class 39

Transport; transportation services; transport by land, air, road, marine, pipeline and railway; transportation of materials by land, air, ship and railway; packaging and storage of goods; packaging and storing of metals; transportation, transmission, storage, supply, distribution and delivery of hydrogen; transportation, transmission,

storage, supply, distribution and delivery of hydrogen produced by renewable energy sources; transportation, transmission, storage, supply, distribution and delivery of ammonia; transportation, transmission, storage, supply, distribution and delivery of ammonia produced by renewable energy sources; transportation, transmission, storage, supply, distribution and delivery of fuel; transportation, transmission, storage, supply, distribution and delivery of fuel derived from ammonia or predominantly derived from ammonia, including ammonia produced by renewable energy sources; transportation, transmission, storage, supply, distribution and delivery of fuel derived from hydrogen or predominantly derived from hydrogen, including hydrogen produced by renewable energy sources; transportation, storage, supply, distribution and delivery of iron ore, iron and steel; transportation, storage, supply, distribution and delivery of iron ore, iron and steel made by renewable energy sources; transportation, storage, supply, distribution and delivery of cement and concrete; transportation, storage, supply, distribution and delivery of cement or concrete produced by renewable energy sources; transportation, transmission, storage, supply and distribution of renewable energy, solar energy, wind energy, hydroelectric and geothermal energy; transmission and supply of energy and fuels through green electrons; transportation, transmission, storage, supply, distribution and delivery of ammonia energy, hydrogen energy, electricity, gas, natural gas, fuel, graphite and/or other hydrocarbon energy; transmission, storage, distribution and supply of electricity; electricity supply services; transportation, transmission and distribution of ammonia energy and hydrogen energy from production facilities services to end users through pipelines and by transport distribution services; storage, transportation and distribution of water; distribution of energy; transportation logistics services; transport of materials by land vehicles controlled remotely; warehousing services; logistics services for the storage and transport of goods; tracking of assets by computer; removal and transportation of waste; rental of autonomous vehicles, aircraft and watercraft; rental of hydrogen powered vehicles, aircraft and watercraft; vehicle fleet management services in the field of tracking and monitoring of vehicle fleets,

including in relation to fleets of autonomous or semi-autonomous vehicles;
information, consultancy and advisory services concerning all the aforementioned.

Class 40

Production and generation of energy; production and generation of fuel; production and generation of hydrogen; production and generation of hydrogen produced by renewable energy sources; production and generation of ammonia; production and generation of ammonia produced by renewable energy sources; production and generation of fuel and energy derived from ammonia or predominantly derived from ammonia, including ammonia produced by renewable energy sources; production and generation of fuel and energy derived from hydrogen or predominantly derived from hydrogen, including hydrogen produced by renewable energy sources; production and generation of solar energy, renewable energy, ammonia energy, hydrogen energy, electricity, gas, water energy and natural gas energy; production and generation of renewable energy, namely, solar energy, wind energy, hydroelectric and geothermal energy; production of iron for others; production of iron for others, produced by renewable energy sources; production of iron for others, using electrochemicals; production of iron for others, using hydrogen produced by water electrolysis using renewable energy; production of iron for others, using hydrogen and ammonia; production of steel for others; production of steel for others, produced by renewable energy sources; processing, separation and fractionating liquids from natural gas; production of cement for others; production of concrete for others; production of cement for others, produced by renewable energy sources; production of concrete for others, produced by renewable energy sources; water treatment services; electricity generation; production of electricity; electricity generation by power plants; hire of electrical generators; rental of electricity generators; gas processing and treatment; gas processing services; processing and conversion of energy, ammonia, hydrogen, gas and fuels; processing and conversion of fuels and energy; processing and conversion of energy generated from renewable

sources; water treatment services; waste water treatment services; water treatment facilities; treatment of materials; heat treatment services; recycling services; recycling of chemicals, batteries, materials, waste and industrial goods; carbon offsetting services (recycling); energy recycling services; operation of hydrogen production and generation plants for others; operation of ammonia production and generation plants for others; operation of solar power plants for others; operation of iron production facilities and plants for others; operation of steel production facilities and plants for others; operation of energy production and generation plants for others; operation of solar power, turbine power, hydropower production facilities and plants for others; operation of fuel production and generation plants for others; operation of cement and concrete production facilities for others; custom manufacture of products, equipment, installations and systems associated with energy production, storage, supply and conversion; custom manufacture of products, equipment, installations and systems associated with hydrogen production, storage, supply and conversion; custom manufacture of products, equipment, installations and systems associated with hydrogen produced by renewable energy sources; custom manufacture of products, equipment, installations and systems associated with storage, supply and conversion of hydrogen made by renewable energy sources; custom manufacture of products, equipment, installations and systems associated with ammonia production, storage, supply and conversion; custom manufacture of products, equipment, installations and systems associated with ammonia produced by renewable energy sources; custom manufacture of products, equipment, installations and systems associated with storage, supply and conversion of ammonia, made by renewable energy sources; custom manufacture of products, equipment, installations and systems associated with energy production, storage, supply and conversion; custom manufacture of products, equipment, installations and systems associated with energy produced by ammonia, hydrogen and renewable energy sources; custom manufacture of products, equipment, installations and systems associated with storage, supply and conversion of energy; custom manufacture of products,

equipment, installations and systems associated with storage, supply and conversion of iron; custom manufacture of products, equipment, installations and systems associated with iron and steel production, including iron and steel produced by renewable energy sources; custom manufacture of products, equipment, installations and systems associated with storage, supply and conversion of steel; custom manufacture of products, equipment, installations and systems associated with storage, supply and conversion of iron, made by renewable energy sources; custom manufacture of products, equipment, installations and systems associated with storage, supply and conversion of steel made by renewable energy sources; custom manufacture of products, equipment, installations and systems associated with fuel production, storage, supply and conversion; custom manufacture of products, equipment, installations and systems associated with fuel produced by ammonia and renewable energy sources; custom manufacture of products, equipment, installations and systems associated with storage, supply and conversion of fuel; custom manufacture of products, equipment, installations and systems associated with cement and concrete production, storage and supply, including cement and concrete produced by renewable energy sources; moulding of cement or concrete; custom manufacture of autonomous vehicles and equipment, including, mining haul trucks, road trains, trains, water carts, mining trucks and carts, excavators, bulldozers, diggers, machine loaders, drones, and drilling rigs; custom manufacturing of systems for the automation of vehicles and equipment; custom manufacturing of batteries, fuel cells, and electric powertrains for vehicles, including mining vehicles; treatment and blending of minerals, metals and ores; metal and ore processing; ore processing, namely, beneficiation of iron ores; drilling of metals; recycling and reprocessing services of common metals and their alloys and goods made from common metals and their alloys; metallurgical processing, namely, treatment of arsenic-containing materials; metallurgical processing; lithium processing; copper processing; power generation; production of energy; hydroelectric energy production; rental of batteries; rental of electricity generators; information, advisory and consultancy services in

relation to all the aforesaid services.

Class 41

Education and training services; arranging and conducting workshops; organisation of competitions (education or entertainment); organising exhibitions for cultural or educational purposes; arranging and conducting of conferences; electronic publication of information on a wide range of topics, including online and over a global computer network; taking aerial images for analysing and diagnosing air, soil, earth, and water; information, consultancy and advisory services concerning all the aforementioned.

Class 42

Gas and oil exploration services; geophysical exploration; mineral exploration services including iron ore exploration; mining exploration services; mining exploration of iron, copper, gold, silver, lithium, lithium pegmatite, copper-porphyry, magnetite, copper-molybdenum and copper-gold; geological prospecting; geological test drilling; surveying services; mineral and chemical analysis services; sediment sampling; engineering services; mining and mineral exploration services; scientific and technological design, consulting, and research services; scientific and technological design, research and consulting in the mining and metallurgical industries; testing, research, design and development in the field of autonomous technology; testing, research, design and development in the field of artificial intelligence; scientific and technological design, research and consulting in the field of renewable energy; chemical analysis and research; research in the field of environmental protection; testing, research, design and development in the field of hydrogen and hydrogen products, including hydrogen production and distribution; environmental surveys and testing; environmental monitoring services; advisory and research services relating to environmental pollution and protection; environmental testing; cartographic or thermographic measurement services by drone; providing

non-downloadable software; providing online non-downloadable software using artificial intelligence for machine learning; providing non-downloadable artificial intelligence software; development and testing of computing methods, algorithms and software; providing software as a service (SaaS); design and development of computer hardware and software; computerized data storage services; providing software as a service (SaaS) for the supervision of equipment and installations for the production and distribution of energy; providing online non-downloadable software for the remote control of automatically guided vehicles, unmanned aircraft, drones, unmanned locomotives, and unmanned ships and barges; providing online non-downloadable software for the remote management, maintenance, fault diagnosis, control and tracking of autonomous or semi-autonomous vehicles, including mining haul vehicles, trucks and carts, road trains, trains and drones; providing online non-downloadable software for the remote management, maintenance, fault diagnosis, control and tracking of autonomous or semi-autonomous machines, including bulldozers, excavators, diggers, machine loaders and drilling rigs; providing online non-downloadable software for vehicle fleet management, including for the management of fleets of autonomous or semi-autonomous vehicles; providing online non-downloadable software for monitoring, optimising, and regulating the storage and discharge of stored energy to and from batteries and electric cells; providing online non-downloadable software for monitoring the electric charge and status of vehicles and machines powered by batteries and electric cells; providing online non-downloadable software for monitoring energy consumption; providing online non-downloadable software for energy management; providing online non-downloadable software for the management and operation of mining sites; providing online non-downloadable software for high precision machine guidance of vehicles and machinery on mining sites; providing online non-downloadable software for the efficient assignment of manned and autonomous assets and resources on a mining site; providing online non-downloadable software for controlling and monitoring energy and utility systems,

energy production plants, iron and steel production plants, cement and concrete production plants, hydrogen production plants and ammonia production plants; computer programming services; architectural or engineering project management services; design, development, installation, integration, testing, maintenance, support, repair, updating and upgrading of computer software; design, development, installation, integration, testing, maintenance, support, repair, updating and upgrading of computer software for automated vehicles and machines; design and development of energy and power management systems; design, development and engineering services, and consultancy services relating thereto, for batteries, fuel cells, inverters, electric motors for vehicles and electric motors; software development services for management, control and/or monitoring systems for batteries, fuel cells, inverters, electric motors for vehicles and electric motors; scientific, technological and research services in the fields of battery management/control, monitoring and energy storage; design and development of hardware, software and firmware for use in the fields of battery management/control and energy storage; design and development of battery management and control systems; providing temporary use of non-downloadable software for use in the fields of battery management/control and energy storage; providing temporary use of non-downloadable interface software for use in connection with battery management and control systems; software as a service [SaaS] featuring software for use in the fields of battery management/control and energy storage; platform as a service [PaaS] featuring software platforms for use in the fields of battery management/control and energy storage; providing temporary use of non-downloadable software to enable users to capture, record, monitor, display, transmit, process and/or analyse information and data relating to energy storage and battery performance; providing temporary use via license of non-downloadable software to enable users to monitor, interpret and/or model information and data relating to energy storage and battery performance; consultancy services relating to the design and development of batteries; technological consultancy services relating to battery lifetime and battery

lifetime extension; technological consultancy services relating to battery management/control and energy storage; technical data analysis services; electronic data storage; technological services relating to remote operation in the field of mining including remote control and remote monitoring of mining assets; scientific and technological design, consulting, and research services relating to mining, including autonomous mining; energy use and conservation consultancy services; development of energy use and conservation systems; information, advisory, consultancy services concerning all of the aforementioned.

Priority Details:

Class Number: 01

Priority Date: 17/07/2023

Country/Territory: AUSTRALIA

Priority Application Number: 2372447

Goods and/or Services: Cobalt chemicals; cobalt chemicals produced by renewable energy; lithium; lithium produced by renewable energy; chemical preparations for decarbonising engines.

Class Number: 01

Priority Date: 03/02/2023

Country/Territory: JAMAICA

Priority Application Number: 88597

Goods and/or Services: Industrial minerals; processed minerals; processed hematite minerals; processed magnetite minerals; chemicals and chemical additives for use in industry, science, manufacture and research; chemical products for use in industry, science, manufacture and research; chemical preparations and substances for use in industry, science, manufacture and research; ammonia and ammonia additives and hydrogen and hydrogen additives for use in industry, science, manufacture and research; ammonia and hydrogen products, preparations and substances for use in

industry, science, manufacture and research; hydrogen; hydrogen chemical preparations and substances; hydrogen produced by renewable energy sources; hydrogen gas; liquid hydrogen; dissolved hydrogen; mixtures of gas, liquid and dissolved hydrogen; graphite; synthetic graphite; graphite for industrial use; chemical reagents or mixtures, other than for medical or veterinary purposes; ammonia; ammonia (volatile alkali) for industrial purposes; volatile alkali (ammonia) for industrial purposes; ammonia for industrial purposes; ammonia produced by renewable energy sources; ammonia water; aqueous ammonia for industrial purposes; anhydrous ammonia; ammonia alum; ammonia and ammonia produced by renewable energy sources for use in industrial processes, including industrial processes that make nitrogen based fertilisers, dye, pharmaceuticals, chemicals, metal ores, iron and steel; ammonia and ammonia produced by renewable energy sources for use for the manufacture of refrigerants, cleaning products, including household cleaning products, plastics, rubbers, explosives, textiles, pesticides and cosmetic products; ammonia and ammonia produced by renewable energy sources for purification treatments of water supplies and wastewater treatments; chemical water testing and treatment preparations; hydrocarbons; hydrocarbon compounds; gaseous hydrocarbons; gaseous hydrocarbon compounds; graphene; graphene for industrial use; carbon for industrial use; catalysts for the production of hydrogen; iron-containing materials used in industry; iron oxide; gases for industrial use or laboratory use, other than for medical use; gas mixtures for use in science; gas purifying preparations and substances; inert gases for industrial and scientific use; liquefied gases, other than for medical use; geothermal steam for industrial purposes; magnesium chloride for use in industry, science, manufacture and research; magnesium oxide for use in industry, science, manufacture and research; cement (adhesives); cement (metallurgy); concrete mixtures; cement and concrete mixtures produced by renewable energy sources; cement and concrete preservatives, except paints and oils; cement and concrete waterproofing, except paint: chemical additives for cement and concrete; chemical compositions for hardening cement and concrete;

chemical preparations for the treatment of cement and concrete; binding chemicals for concrete; bonding agents for concrete; chemical preparations for use with cement and concrete; chemical products for use as additives to cement and concrete; compositions for setting cement and concrete; compositions for preserving cement and concrete; preservatives for cement and concrete; products for protecting and sealing cement and concrete; chemical reagents or mixtures, other than for medical or veterinary purposes.
