General Information

1. Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules. It is published weekly on Fridays, unless otherwise directed by the Registrar.

2. Notice of Opposition

Any person who wishes to oppose any of the marks published may within two months from its publication date file a Notice of Opposition on Form TM11. Reasonable notice should be given to the Applicant beforehand, to provide the Applicant an opportunity to withdraw the application. Failure to give such notice will be taken into account when considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

3. Practice Directions and Circulars

The Registry has ceased our practice of publishing Practice Directions and Circulars in the Trade Marks Journal. Practice Directions and Circulars are available on our website at <https://www.ipos.gov.sg>. If you wish to receive our updates via email, you may subscribe to our mailing list by sending an email to news@ipos.gov.sg and letting us know the subject matter of interest (e.g. Trade Marks).

4. Information Contained in this Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

National Applications Published For Opposition

Purposes

National Trade Mark No: 40202505280P

Filing Date: 05 March 2025

Classes: 35

ECO-CONVERTER

Goods and/or Services:

Class 35

Online wholesale services; Online retail services; Provision of an online marketplace for buyers and sellers of goods and services; Retail services.

National Trade Mark No: 40202515202Y

International Registration No: 1859737

Date of Protection in Singapore: 06 March 2025

Classes: 09 38 42

Goods and/or Services:

Class 09

Integrated circuits; SIM cards; transceivers; semiconductors; wide area network (WAN) hardware; transmitters (telecommunications); electronic signal receivers; computer hardware and computer peripherals; computer hardware, namely

integrated wireless modules for mobile computing and remote connectivity, wireless network adapters, USB adapters, modems, network routers and apparatus for computer network; computer hardware for the provision of wireless content; computer hardware for creating, facilitating and managing remote access and communication with local area networks (LANs), virtual private networks (VPNs), wide area networks (WANs), software defined networks (SDNs) and global computer networks; computer hardware development kit, comprising hardware development tools in the nature of software, antennas, SIM cards and printed circuits, software development tools and electronic publications, namely downloadable educational material on computers, computer hardware and software, technical documentation and wiring diagrams for developing wireless or wired telecommunication hardware; computer software for wireless telecommunications, namely for setting up, providing, configuring, controlling, monitoring, diagnosing and managing wireless network apparatus; SIM card management software platform and computer apparatus for enabling, monitoring, managing and leveling connectivity apparatus and services; computer software enabling the connecting, creating, facilitating and managing of remote access and communication with computers, mobile apparatus and smartphones, connected objects, information systems and sources, with local area networks (LANs), virtual private networks (VPNs), wide area networks (WANs), software defined networks (SDNs) and global computer networks; computer software for managing apparatus, firmware, integrated applications and airtime subscriptions via global networks; computer software for collecting, storing and processing data and events via a wireless communication network in order to create operational transparency for remote apparatus; software platform for use in the development of machine-to-machine (M2M) software solutions and the Internet of Things; software for providing communication integration services for machine-to-machine (M2M) and Internet of Things namely the integration of different computer systems, networks, hardware and software.

Class 38

Providing connectivity and telecommunication services for machine-to-machine (M2M) communication apparatus and the Internet of Things, so that they can communicate with each other and with servers via wireless networks; providing telecommunication connections to wireless networks through the provision and management of wireless network connectivity.

Class 42

Designing and developing wireless networks, apparatus, hardware and software; engineering services in the field of wireless networks, apparatus, hardware and software, machine-to-machine (M2M) communication and the Internet of Things; designing and developing data intelligence software solutions for the purpose of data management, analysis, interpretation, identification and reporting in order to enable decision-making and adoption of measures for networked apparatus and Internet of Things systems; software as a service (SaaS) services with software that enables users to configure, monitor and configure machine-to-machine (M2M) systems and the Internet of Things, and to manage apparatus, firmware, integrated applications and airtime subscriptions via global networks; software as a service (SaaS) services with a software platform that collects and transmits data from apparatus, objects, connected information systems and sources and integrates the data with enterprise software, web and mobile applications.

technology (IT) support services; design and development of industrial products; technical measuring services; rental of radio-frequency identification (RFID) tags; providing temporary use of online non-downloadable software for use in security alarm and monitoring systems; software as a service (SaaS) and platform as a service (PaaS) featuring software for use in security alarm and monitoring systems; designing websites for advertising purposes; providing temporary use of online non-downloadable software for use in the field of personnel management; providing temporary use of online non-downloadable software for use in job matching; cloud computing services in the field of electricity and power control; software as a service (SaaS) featuring software for use in operating, controlling and managing power conditioners, electric power controllers, electric power converters, electric inverters, batteries, accumulators, lithium ion secondary batteries, solar batteries, fuel cells and sensors; design and development of power conditioners, electric power controllers, electric power converters, electric inverters, batteries, accumulators, lithium ion secondary batteries, solar batteries, fuel cells and sensors; testing and research services in the field of electricity and power control; rental of meters for the recording of energy consumption; consultancy in the field of energy-saving and energy efficiency; technical consultancy in the field of energy saving and energy efficiency; consultancy relating to technological services in the field of power and energy supply; providing temporary use of non-downloadable computer software, namely, middleware for use in the management and administration of software applications on radio-frequency identification (RFID) systems; design, development, installation and maintenance of computer software, namely, middleware for use in the management and administration of software applications on radio-frequency identification (RFID) systems; scientific and technological services, namely, scientific analysis in the field of EEG signals, not for medical services; research and development of technology related to the analysis of EEG signals; providing temporary use of online non-downloadable computer software platforms and applications for use in analysis of EEG signals; providing temporary use of online

non-downloadable cloud computing software using artificial intelligence for machine learning; providing temporary use of online non-downloadable software for use in business management and marketing data analysis; providing temporary use of online non-downloadable software for simulating the operation of vehicles; providing temporary use of online non-downloadable software for use in tracking, detecting and locating the position of people and objects; software as a service (SaaS) and platform as a service (PaaS) featuring software for use in tracking, detecting and locating the position of people and objects; providing temporary use of online non-downloadable software for use in the operation, management, configuration, updating, remote control and maintenance of computer hardware and software; software as a service (SaaS) and platform as a service (PaaS) featuring software for use in the operation, management, configuration, updating, remote control and maintenance of computer hardware and software; technological consultancy for factory productivity improvement; technical support, namely, troubleshooting of computer systems in factories; design of factory automation equipment and installations; technological research; research and development in the field of information and communications technologies; design, development and maintenance of computer programs for use in systems for controlling power supply technologies; consultancy relating to technological services in the field of power and energy supply; technological consultancy in the field of power control; technological advisory and information services relating to electronic or electric materials, components and devices; technological research in the field of electronic or electric materials, components and devices; testing and research on electronic or electric materials, components and devices; providing temporary use of online non-downloadable software for designing products for use in the field of electronic or electric products; providing temporary use of online non-downloadable software for telecommunication or data transmission for use in the field of electronic or electric products; providing temporary use of online non-downloadable software for controlling for use in the field of electronic or electric products; providing temporary

use of online non-downloadable software for designing products for use in the field of industrial products; providing temporary use of online non-downloadable software for controlling for use in the field of industrial products; providing temporary use of online non-downloadable software for use in design of industrial products via the Internet; providing analysis computer software using finite element method via the Internet; development or design of telecommunication machines and apparatus, computer programs and electronic machines, apparatus and their parts; testing, inspection or research in the field of electric or electronic machines, apparatus and instruments; development, design and maintenance of custom or customised hardware and software for others in the field of wireless systems; development engineering services to create custom or customised hardware and software in the field of wireless systems; providing temporary use of online non-downloadable software in the field of wireless systems; design, creation, development and maintenance of computer system, namely, computer system integration in the field of wireless systems; quality control, namely, quality certification services in the field of wireless systems; quality control, namely, quality certification services in the field of wireless services; providing temporary use of online non-downloadable software for use in management and operation of medical services in hospital facilities; software as a service (SaaS) and platform as a service (PaaS) featuring software for use in management and operation of medical services in hospital facilities; providing temporary use of online non-downloadable software for use in management and remote viewing and monitoring of patients' health records; software as a service (SaaS) and platform as a service (PaaS) featuring software for use in management and remote viewing and monitoring of patients' health records; providing temporary use of online non-downloadable software, namely, the internet of things platforms for use in patient monitoring; software as a service (SaaS) and platform as a service (PaaS) featuring software, namely, the internet of things platforms for use in patient monitoring; providing temporary use of online non-downloadable software for use in notification of critical events and changes in patients' status; software as a service

(SaaS) and platform as a service (PaaS) featuring software for use in notification of critical events and changes in patients' status; providing temporary use of online non-downloadable software for use in monitoring respiration during sleep; software as a service (SaaS) and platform as a service (PaaS) featuring software for use in monitoring respiration during sleep; providing temporary use of online non-downloadable software for operating and controlling electronic clinical thermometers; software as a service (SaaS) and platform as a service (PaaS) featuring software for operating and controlling electronic clinical thermometers; providing temporary use of online non-downloadable software for measuring, managing and storing data of patients' body temperatures; software as a service (SaaS) and platform as a service (PaaS) featuring software for measuring, managing and storing data of patients' body temperatures; scientific and technological testing of the functionality of machines, apparatus and instruments in the medical field; scientific and technological research on machines apparatus and instruments in the medical field; providing patient monitoring computer systems and platforms through cloud computing; technological research in the fields of game software design, digital content design, and electric or electronic product development; technological research in the fields of haptics technologies, cross reality technologies, brain science and ergonomics; providing temporary use of online non-downloadable software for use in the operation, control and management of electronic devices using haptic technologies; providing temporary use of online non-downloadable software for use in design and development of game software applications, for use in design and development of electric and electronic products, and for use in design and development of software applications using haptics technologies; software as a service (SaaS) and platform as a service (PaaS) featuring software for use in design and development of game software applications, for use in design and development of electric and electronic products, and for use in design and development of software applications using haptics technologies; providing temporary use of online non-downloadable augmented reality software for use in design and development of game software

applications, for use in design and development of electric and electronic products, and for use in design and development of software applications using haptics technologies; software as a service (SaaS) and platform as a service (PaaS) featuring augmented reality software for use in design and development of game software applications, for use in design and development of electric and electronic products, and for use in design and development of software applications using haptics technologies; providing temporary use of online non-downloadable mixed reality software for use in design and development of game software applications, for use in design and development of electric and electronic products, and for use in design and development of software applications using haptics technologies; software as a service (SaaS) and platform as a service (PaaS) featuring mixed reality software for use in design and development of game software applications, for use in design and development of electric and electronic products, and for use in design and development of software applications using haptics technologies; providing temporary use of online non-downloadable virtual reality software for use in design and development of game software applications, for use in design and development of electric and electronic products, and for use in design and development of software applications using haptics technologies; software as a service (SaaS) and platform as a service (PaaS) featuring virtual reality software for use in design and development of game software applications, for use in design and development of electric and electronic products, and for use in design and development of software applications using haptics technologies; providing temporary use of online non-downloadable software for use in design and development of digital contents; software as a service (SaaS) and platform as a service (PaaS) featuring software for use in design and development of digital contents; providing temporary use of online non-downloadable software for use in editing sounds, audio, video, photographs, still and moving images; software as a service (SaaS) and platform as a service (PaaS) featuring software for use in editing sounds, audio, video, photographs, still and moving images; providing temporary use

of online non-downloadable computer software platforms for use in design and development of game programs; providing temporary use of online non-downloadable software, namely, platform middleware for use in design and development of game software applications; platform as a service (PaaS) featuring middleware platforms for use in design and development of game software applications; providing temporary use of online non-downloadable computer software for enhancing feel, vibration and feedback provided from portable electronic machines and apparatus; providing temporary use of online non-downloadable computer software for recording, transmitting, reproducing, receiving, downloading, saving and editing sounds, images and haptic data; providing temporary use of online non-downloadable computer software used to give a user a feeling of a response, force, pressure, touch in 3D games, video games, virtual reality; rental of computer software for use in design and development of game software applications, for use in design and development of electric and electronic products, and for use in design and development of software applications using haptics technologies; rental of augmented reality computer software for use in design and development of game software applications, for use in design and development of electric and electronic products, and for use in design and development of software applications using haptics technologies; rental of mixed reality computer software for use in design and development of game software applications, for use in design and development of electric and electronic products, and for use in design and development of software applications using haptics technologies; rental of virtual reality computer software for use in design and development of game software applications, for use in design and development of electric and electronic products, and for use in design and development of software applications using haptics technologies; providing temporary use of online non-downloadable software development kits (SDKs); providing online information on computer technology and programming; technological audio analysis; technological analysis of analog signals; technological analysis of digital signals; analysis of technical data; providing temporary use of

online non-downloadable software for use in data detection, collection, analysis and management relating to communications in the field of human resources; providing temporary use of online non-downloadable software for use in tracking, detecting and positioning of people and objects; providing temporary use of online non-downloadable software for use in managing, monitoring and analyzing of production and manufacturing equipment and systems; providing temporary use of online non-downloadable software for use in managing, monitoring and analyzing of working status, environment, safety and health conditions of employees and workers in the construction and manufacturing industries; providing temporary use of online non-downloadable computer software platforms or applications for use in analysis of EEG (electroencephalogram) signals; providing temporary use of online non-downloadable software for use in two or three dimensional simulation for use in design and development of industrial products; providing temporary use of online non-downloadable software for use in the design and development of industrial products; providing temporary use of online non-downloadable software for use in analysis using finite element method; providing temporary use of online non-downloadable software for use in analysis of electromagnetic waves; providing temporary use of online non-downloadable software for use in analysis of magnetic fields; providing temporary use of online non-downloadable software for use in analysis of electric fields; providing temporary use of online non-downloadable software for use in stress analysis of structures; providing temporary use of online non-downloadable software for use in analysis of heat conductions; providing temporary use of online non-downloadable software for use in analysis of fluid; providing temporary use of online non-downloadable software for use in piezoelectric analysis; providing temporary use of online non-downloadable software for use in analysis of sonic waves; providing temporary use of online non-downloadable software for controlling engines or brakes for vehicles; providing temporary use of online non-downloadable software for use in operating self-driving vehicles; information, advisory and consultancy services relating to the aforesaid services.

Goods and/or Services:

Class 09

Downloadable virtual goods namely computer programs featuring clothing, footwear, belts, headgear, bags, sport bags, backpacks, sport equipment, computer and phone cases made of leather or imitation thereof, wallets, handbags, clutches, purses, suitcases, briefcases, hair accessories, eyewear, jewelry, watches, chronometric instruments, home linen, artworks, tableware, carpets, furniture for use online and in online virtual worlds; downloadable virtual goods namely computer programs featuring perfumes, home fragrances, cosmetics, make up products, games and toys, vehicles, and downloadable virtual assets, namely real estate, lands, all of them being for use in online virtual environments including in online games also being authenticated by non fungible tokens (NFTs); downloadable multimedia files containing artwork, text, audio, and video relating to fashion, all of them also authenticated by non fungible tokens (NFTs); downloadable image files and video recordings containing clothing, footwear, belts, headgear, bags, sport bags, backpacks, computer and phone cases made of leather or imitation thereof, wallets, handbags, clutches, purses, suitcases, briefcases; downloadable image files and video recordings containing hair accessories, eyewear, jewelry, watches, chronometric instruments, home linen, artworks, tableware, carpets, furniture, perfumes, home fragrances, cosmetics, make up products, games and toys, vehicles, real estate and land, all of them also authenticated by non fungible tokens (NFTs);

downloadable augmented reality software for use in mobile devices for integrating electronic data with real world environments for the purpose of creating artwork, elements of fashion design and art installations; downloadable software for generating cryptographic keys for receiving and spending cryptocurrency; downloadable computer software for managing and verifying cryptocurrency transactions on a blockchain; goggles for sports; accessories for communication apparatus including tablets, mobile phones, smartphones, MP3 players and computers, namely cases, hands free kits, covers, chargers, straps, headphones; smartwatches; wearable activity trackers; connected bracelets [measuring instruments]; personal digital assistants [PDAs]; downloadable emoticons for mobile phones; animated cartoons; downloadable music files; downloadable computer software applications; downloadable ring tones for mobile phones; downloadable and recorded computer game software; downloadable wallpapers for computers and phones; downloadable virtual goods authenticated by non fungible tokens (NFTs) or other digital tokens based also on blockchain technology, namely, virtual clothing, virtual footwear, virtual belts, virtual headgear, virtual bags, virtual sport bags, virtual backpacks, virtual computer and phone cases made of leather or imitation thereof, virtual wallets, virtual handbags, virtual clutches, virtual purses, virtual suitcases, virtual briefcases; downloadable virtual goods authenticated by non fungible tokens (NFTs) or other digital tokens based also on blockchain technology, namely, virtual hair accessories, virtual eyewear, virtual jewelry, virtual watches, virtual chronometric instruments, virtual home linen, virtual tableware, virtual carpets, virtual furniture; downloadable virtual goods authenticated by non fungible tokens (NFTs) or other digital tokens based also on blockchain technology, namely, virtual perfumes, virtual home fragrances, virtual cosmetics, virtual make up products, virtual games and toys, virtual vehicles, virtual land, virtual real estate, virtual artworks, virtual audio files, virtual video files, virtual moving images, virtual animated images, virtual sound files, virtual artwork files; computer software for management of cryptocurrencies and non-fungible tokens (NFTs); digital artwork (downloadable) and digital images

(downloadable); downloadable digital media, namely digital art; downloadable digital media, namely digital assets, namely audio files, video files, moving images, animated images, sound files, artwork files, digital collectibles, namely digital clothing, digital footwear, digital belts, digital headgear, digital bags, digital sport bags, digital backpacks, digital computer and phone cases made of leather or imitation thereof, digital wallets, digital handbags, digital clutches, digital purses, digital suitcases, digital briefcases; downloadable digital media, namely digital hair accessories, digital eyewear, digital jewelry, digital watches, digital chronometric instruments, digital home linen, digital artworks, digital tableware, digital carpets, digital furniture, digital perfumes, digital home fragrances, digital cosmetics, digital make up products, digital games and toys, digital vehicles, digital land, digital real estate; downloadable digital media, authenticated by digital tokens and non fungible tokens (NFTs), namely, digital assets, namely audio files, video files, moving images, animated images, sound files, artwork files; downloadable digital media, authenticated by digital tokens and non fungible tokens (NFTs), namely digital collectibles, namely digital clothing, digital footwear, digital belts, digital headgear, digital bags, digital sport bags, digital backpacks, digital computer and phone cases made of leather or imitation thereof, digital wallets, digital handbags, digital clutches, digital purses, digital suitcases, digital briefcases; digital collectibles, namely digital hair accessories, digital eyewear, digital jewelry, digital watches, digital chronometric instruments, digital home linen, digital artworks, digital tableware, digital carpets, digital furniture, digital perfumes, digital home fragrances, digital cosmetics, digital make up products; downloadable digital media, authenticated by digital tokens and non fungible tokens (NFTs), namely digital collectibles, namely digital games and toys, digital vehicles, digital land, digital real estate; downloadable computer software for creating, managing, storing, accessing, sending, receiving, exchanging, validating and selling digital assets, digital collectible, digital tokens and non fungible tokens (NFTs); downloadable software for enabling user to view, market, purchase, sell or exchange nonfungible tokens (NFTs) or digital goods; downloadable software for creating non

fungible tokens (NFTs); downloadable software for providing electronic cryptocurrency exchange services; downloadable computer software; downloadable computer software for the creation, production and modification of digital animated and non animated designs and characters, avatars, digital overlays and skins for access and use in online environments, virtual online environments and extended reality virtual environments; downloadable virtual goods, namely computer programs consisting of digital animated and non-animated designs and characters, avatars, digital overlays and skins, all of them being for use in online virtual environments and extended reality virtual environments, including in online games, all of them also being authenticated by non-fungible tokens (NFTs); downloadable computer software for interactive games for use via a global computer network and through various wireless networks and electronic devices; downloadable software for engaging in social networking and interacting with online communities; downloadable software for accessing and streaming multimedia entertainment content; downloadable software for providing access to an online virtual environment.

Class 35

Online retail store services featuring virtual goods, namely clothing, footwear, belts, headgear, bags, sport bags, backpacks, computer and phone cases made of leather or imitation thereof, wallets, handbags, clutches, purses, suitcases, briefcases; online retail store services featuring virtual goods, namely hair accessories, eyewear, jewelry, watches, chronometric instruments, home linen, artworks, tableware, carpets, furniture, perfumes, home fragrances, cosmetics, make up products; online retail store services featuring art, games and toys, vehicles, digital animated and non-animated designs and characters, avatars, digital overlays and skins; online retail store services featuring virtual assets, namely real estate and lands, all of them being for use in online virtual environments, including in online games, also being authenticated by non-fungible tokens (NFTs); providing online market place for the purchase and sale of virtual goods and virtual assets also authenticated by non-

fungible tokens (NFTs), namely clothing, footwear, belts, headgear, bags, sport bags, backpacks, computer and phone cases made of leather or imitation thereof; providing online market place for the purchase and sale of virtual goods and virtual assets also authenticated by non-fungible tokens (NFTs), namely wallets, handbags, clutches, purses, suitcases, briefcases, hair accessories, eyewear; providing online market place for the purchase and sale of virtual goods and virtual assets also authenticated by non-fungible tokens (NFTs), namely jewelry, watches, chronometric instruments, home linen, artworks, tableware, carpets, furniture; providing online market place for the purchase and sale of virtual goods and virtual assets also authenticated by non-fungible tokens (NFTs), namely perfumes, home fragrances, cosmetics, make up products, games and toys, vehicles; providing online market place for the purchase and sale of virtual goods and virtual assets also authenticated by non-fungible tokens (NFTs), namely real estate, lands, all of them being for use in online virtual environments, including in online games; online retail store services featuring virtual artwork consisting of photos, drawings, graphic designs, paintings and sculptures for use in online virtual environments; provision of an online marketplace for buyers and sellers of downloadable digital art images and video clips, also authenticated by non-fungible tokens (NFTs); conducting virtual fashion shows online for commercial purposes; providing an online marketplace (including auctions and auction sales) for buyers and sellers of virtual goods, crypto-collectibles, all authenticated by non-fungible tokens (NFT) or other blockchain based non-fungible valuables, namely virtual clothing, virtual footwear, virtual belts, virtual headgear, virtual bags, virtual sport bags, virtual backpacks; providing an online marketplace for buyers and sellers and arranging and concluding commercial transactions for others relating to the purchase and sale (including of auctions and auction sales) of virtual goods, crypto collectibles, all authenticated by non-fungible tokens (NFT) or other blockchain based non-fungible valuables, namely virtual computer and phone cases made of leather or imitation thereof, virtual wallets, virtual handbags, virtual clutches, virtual purses, virtual suitcases, virtual briefcases; providing an online marketplace

for buyers and sellers and arranging and concluding commercial transactions for others relating to the purchase and sale (including of auctions and auction sales) of virtual goods, crypto-collectibles, all authenticated by non-fungible tokens (NFT) or other blockchain based nonfungible valuables, namely virtual hair accessories, virtual eyewear, virtual jewelry, virtual watches, virtual chronometric instruments; providing an online marketplace for buyers and sellers and arranging and concluding commercial transactions for others relating to the purchase and sale (including auctions and auction sales) of virtual goods, crypto-collectibles, all authenticated by non-fungible tokens (NFT) or other blockchain based non-fungible valuables, namely virtual home linen, virtual tableware, virtual carpets, virtual furniture, virtual perfumes, virtual home fragrances, virtual cosmetics, virtual make up products; providing an online marketplace for buyers and sellers and arranging and concluding commercial transactions for others relating to the purchase and sale (including auctions and auction sales) of virtual goods, crypto-collectibles, all authenticated by non-fungible tokens (NFT) or other blockchain based non-fungible valuables, namely virtual games and toys, virtual vehicles, virtual land, virtual real estate, virtual artworks; providing an online marketplace for buyers and sellers and arranging and concluding commercial transactions for others relating to the purchase and sale (including auctions and auction sales) of virtual goods, crypto-collectibles, all authenticated by non-fungible tokens (NFT) or other blockchain based non- fungible valuables, namely virtual audio files, virtual video files, virtual moving images, virtual animated images, virtual sound files, virtual artwork files; online retail services relating to digital assets, namely audio files, video files, moving images, animated images, sound files, artwork files; online retail services relating to digital collectibles, namely digital clothing, digital footwear, digital belts, digital headgear, digital bags, digital sport bags, digital backpacks, digital computer and phone cases made of leather or imitation thereof; online retail services relating to digital collectibles, namely digital wallets, digital handbags, digital purses, digital suitcases, digital briefcases; online retail services relating to digital collectibles, namely digital eyewear, digital jewelry,

digital watches; online retail services relating to digital collectibles, namely digital tableware, digital furniture, digital perfumes, digital home fragrances, digital cosmetics; online retail services relating to digital collectibles, namely digital games and toys; online retail services relating to downloadable virtual goods authenticated by non-fungible tokens (NFTs) or other digital tokens, namely, virtual clothing, virtual footwear, virtual belts, virtual headgear, virtual bags, virtual sport bags, virtual backpacks; online retail services relating to downloadable virtual goods authenticated by non-fungible tokens (NFTs) or other digital tokens, namely, virtual computer and phone cases made of leather or imitation thereof, virtual wallets, virtual handbags, virtual clutches, virtual purses, virtual suitcases, virtual briefcases, virtual hair accessories, virtual eyewear; online retail services relating to downloadable virtual goods authenticated by non-fungible tokens (NFTs) or other digital tokens, namely, virtual jewelry, virtual watches, virtual chronometric instruments, virtual home linen, virtual tableware, virtual carpets, virtual furniture, virtual perfumes, virtual home fragrances, virtual cosmetics, virtual make up products; online retail services relating to downloadable virtual goods authenticated by non-fungible tokens (NFTs) or other digital tokens, namely, virtual games and toys, virtual vehicles, virtual land, virtual real estate, virtual artworks, virtual audio files, virtual video files, virtual moving images, virtual animated images, virtual sound files, virtual artwork files.

Class 38

Telecommunication services; data streaming services; electronic data transmission; streaming of audio, video, and audiovisual material on the Internet; providing online chat rooms; providing online community forums and online forums for discussions and transmission of messages, audio data, and video data among users.
