General Information

1. Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules. It is published weekly on Fridays, unless otherwise directed by the Registrar.

2. Notice of Opposition

Any person who wishes to oppose any of the marks published may within two months from its publication date file a Notice of Opposition on Form TM11. Reasonable notice should be given to the Applicant beforehand, to provide the Applicant an opportunity to withdraw the application. Failure to give such notice will be taken into account when considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

3. Practice Directions and Circulars

The Registry has ceased our practice of publishing Practice Directions and Circulars in the Trade Marks Journal. Practice Directions and Circulars are available on our website at <https://www.ipos.gov.sg>. If you wish to receive our updates via email, you may subscribe to our mailing list by sending an email to news@ipos.gov.sg and letting us know the subject matter of interest (e.g. Trade Marks).

4. Information Contained in this Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

National Applications Published For Opposition

Purposes

National Trade Mark No: 40202004549Y
Filing Date: 28 February 2020
Classes: 29 30

computing, downloadable; Application software for mobile payment, downloadable; Artificial intelligence and machine learning software; Artificial intelligence software; Augmented reality game software; Augmented reality software; Augmented reality software for creating maps; Augmented reality software for education; Augmented reality software for use in mobile devices; Augmented reality software for use in mobile devices for integrating electronic data with real world environments; Augmented reality training simulation software; Authentication software, downloadable; BIOS software; Bioinformatics software; Boxes adapted for storing computer software disks; Boxes adapted for transporting computer software disks; Cards encoded to access computer software; Cartridges [software] for use with computers; Cartridges for computer games [software]; Cartridges for video games [software]; Children's educational software; Cloud network monitoring software, downloadable; Cloud server software, downloadable; Cloud software, downloadable; Collaboration management software platforms, recorded or downloadable; Communication software; Communication software for connecting computer network users; Communication software for connecting global computer networks; Communications processing computer software; Compiler software; Computer application software for mobile phones; Computer application software for mobile telephones; Computer application software for smartphones; Computer backgammon games [software]; Computer bridge games [software]; Computer chatbot software for simulating conversations; Computer chess games [software]; Computer communication software to allow customers to access bank account information and transact bank business; Computer firewall software; Computer game software; Computer game software downloadable from a global computer network; Computer game software for use on mobile and cellular phones; Computer game software, downloadable; Computer game software, recorded; Computer games entertainment software; Computer games programmes [software]; Computer games programs [software]; Computer games programs downloaded via the internet [software]; Computer games programs recorded on tapes [software]; Computer

games software; Computer graphics software; Computer hardware and software for artificial intelligence; Computer hardware and software for augmented reality systems; Computer hardware and software for blockchain technology; Computer hardware and software for cloud computing; Computer hardware and software for cognitive computing; Computer hardware and software for cryptocurrency; Computer hardware and software for providing secure remote access to computer and communication networks; Computer hardware and software for setting up and configuring local area networks; Computer hardware and software for setting up and configuring wide area networks; Computer hardware for use in computer-assisted software engineering; Computer hardware with embedded operating system software; Computer interface software; Computer operating software; Computer operating system software; Computer programs [downloadable software]; Computer programs and recorded software distributed online; Computer programs and software for image processing used for mobile phones; Computer screen saver software; Computer screen saver software, recorded or downloadable; Computer search engine software; Computer software; Computer software adapted for use in the operation of computers; Computer software applications, downloadable; Computer software designed to estimate costs; Computer software designed to estimate resource requirements; Computer software development tools; Computer software downloaded from the internet; Computer software for accessing data banks; Computer software for accessing databases; Computer software for accounting systems; Computer software for administration of local area networks; Computer software for analysing address files; Computer software for analysing market information; Computer software for application and database integration; Computer software for authorising access to databases; Computer software for authorizing access to databases; Computer software for business purposes; Computer software for communicating purposes between microcomputers; Computer software for communicating with users of hand-held computers; Computer software for communication between computer processes; Computer software for controlling and

managing access server applications; Computer software for controlling self-service terminals; Computer software for controlling the operation of audio and video devices; Computer software for converting document images into electronic formats; Computer software for creating and editing music and sounds; Computer software for database management; Computer software for document management; Computer software for encryption; Computer software for information management; Computer software for organizing and viewing digital images and photographs; Computer software for processing address files; Computer software for processing digital images; Computer software for processing digital music files; Computer software for processing market information; Computer software for producing financial models; Computer software for the analysis of defects; Computer software for the creation of firewalls; Computer software for time control; Computer software for use in computer access control; Computer software for use in controlling machines; Computer software for use in creating and designing websites; Computer software for use in processing semiconductor wafers; Computer software for use in programming facsimile machines; Computer software for use in providing multiple user access to a global computer information network; Computer software for use in relation to digital animation and special effects of images; Computer software for wireless content delivery; Computer software for wireless network communications; Computer software packages; Computer software platforms; Computer software platforms, recorded or downloadable; Computer software products; Computer software programs; Computer software programs for database management; Computer software programs for spreadsheet management; Computer software that assists computers in deploying parallel applications and performing parallel computations; Computer software to automate data warehousing; Computer software to enable searching and retrieval of data; Computer software to enable searching of data; Computer software to enable the transmission of photographs to mobile telephones; Computer software to maintain and operate computer system; Computer software, recorded; Computer telephony software; Computer video game

software; Computer whiteboard software; Content management software, downloadable; Controlling software for computer printers; Credit screening software; Data carriers for computers having software recorded thereon; Data communications software; Data compression software; Data management software, downloadable; Data mining software, downloadable; Data processing software; Data processing software for graphic representations; Data processing software for word processing; Database management software; Decoder software; Desktop publishing software; Downloadable LAN [local area network] operating software; Downloadable Real-Time Collaborative Editing [RTCE] software platforms; Downloadable application programming interface [API] software; Downloadable application simulation software; Downloadable application software; Downloadable application software for cell phones; Downloadable application software for cloud computing; Downloadable application software for computers; Downloadable application software for mobile payment; Downloadable application software for mobile telephones; Downloadable application software for robots; Downloadable application software for smart TVs; Downloadable application software for smartphones; Downloadable application software for tracking pets; Downloadable application software for virtual environments; Downloadable archiving software; Downloadable artificial intelligence software; Downloadable artificial intelligence software for analysis; Downloadable artificial intelligence software for driverless cars; Downloadable artificial intelligence software for healthcare; Downloadable artificial intelligence software for surveillance; Downloadable artificial intelligence software for vehicles; Downloadable assistive software; Downloadable augmented reality computer game software; Downloadable augmented reality software; Downloadable augmented reality software for cinematography; Downloadable augmented reality software for creating and accessing augmented reality experiences; Downloadable augmented reality software for creating maps; Downloadable augmented reality software for education; Downloadable augmented reality software for interactive entertainment; Downloadable augmented reality software for interactive mirrors; Downloadable

augmented reality software for medical teaching; Downloadable augmented reality software for pilot training; Downloadable augmented reality software for playing computer games; Downloadable augmented reality software for simulation; Downloadable augmented reality software for smart mirrors; Downloadable augmented reality software for use in mobile devices for integrating electronic data with real world environments; Downloadable augmented reality software for virtual mirrors; Downloadable augmented reality training simulation software; Downloadable authentication software; Downloadable banking software; Downloadable basic input/output system (BIOS) software; Downloadable billing software; Downloadable brain game software; Downloadable business management software; Downloadable business process management software; Downloadable business software; Downloadable calendaring software; Downloadable casino management software; Downloadable chemical engineering software; Downloadable civil engineering software; Downloadable cloud computing software; Downloadable cloud server software; Downloadable cloud software; Downloadable cloud-based software; Downloadable collaboration management software platforms; Downloadable communication software for providing access to the Internet; Downloadable computer anti-virus software; Downloadable computer antivirus software; Downloadable computer application software; Downloadable computer application software featuring avatars; Downloadable computer application software for cell phones; Downloadable computer application software for mobile telephones; Downloadable computer application software for portable media players; Downloadable computer application software for smartphones; Downloadable computer application software for software testing; Downloadable computer application software for streaming audiovisual media content via the internet; Downloadable computer application software for television apparatus; Downloadable computer application software for television monitors; Downloadable computer application software for televisions; Downloadable computer application software for testing of computing methods; Downloadable computer application software for use

in implementing the Internet of Things [IoT]; Downloadable computer chatbot software for simulating conversations; Downloadable computer chatbot software using artificial intelligence for simulating conversations; Downloadable computer communications software to allow customers to access bank account information and transact bank business; Downloadable computer e-commerce software to allow users to perform electronic business transactions via a global computer network; Downloadable computer game software; Downloadable computer game software for gambling machines; Downloadable computer game software for virtual environments; Downloadable computer game software via a global computer network and wireless devices; Downloadable computer gaming software for gambling; Downloadable computer operating software; Downloadable computer operating software for virtual environments; Downloadable computer operating system software; Downloadable computer operating system software for quantum computers; Downloadable computer operating system software for virtual environments; Downloadable computer programming software; Downloadable computer programs and computer software for electronically trading securities; Downloadable computer security software; Downloadable computer software; Downloadable computer software allowing subscribers to view and monitor video streams and to receive notifications; Downloadable computer software and firmware for operating system programs; Downloadable computer software applications; Downloadable computer software applications featuring avatars; Downloadable computer software applications for automated vehicle parking control; Downloadable computer software applications for cell phones; Downloadable computer software applications for creating animated files; Downloadable computer software applications for credit card fraud detection; Downloadable computer software applications for internet fraud detection; Downloadable computer software applications for laptop computers; Downloadable computer software applications for minting non-fungible tokens [NFTs]; Downloadable computer software applications for mobile telephones; Downloadable computer software applications for portable media players; Downloadable computer

software applications for providing scam alerts; Downloadable computer software applications for sharing videos and photos to social networking platforms; Downloadable computer software applications for smartphones; Downloadable computer software applications for streaming audiovisual media content via the internet; Downloadable computer software applications for television apparatus; Downloadable computer software applications for televisions; Downloadable computer software applications for use in implementing the Internet of Things [IoT]; Downloadable computer software applications for use in virtual environments; Downloadable computer software applications for use with artificial intelligence; Downloadable computer software being application programming interface [API]; Downloadable computer software development tools; Downloadable computer software featuring avatars; Downloadable computer software featuring avatars for use in virtual environments; Downloadable computer software featuring digital overlays for use in virtual environments; Downloadable computer software featuring skins for use in virtual environments; Downloadable computer software for accessing information directories that may be downloaded from a global computer network; Downloadable computer software for accessing, browsing and searching online databases; Downloadable computer software for accessing, reading and tracking information in the field of financial transactions on a blockchain; Downloadable computer software for administration of computer local area networks; Downloadable computer software for analysing market information authenticated by non-fungible tokens [NFTs] using blockchain technology; Downloadable computer software for analyzing market information authenticated by non-fungible tokens [NFTs] using blockchain technology; Downloadable computer software for audibly controlling a computer and the operation thereof; Downloadable computer software for blockchain data mining; Downloadable computer software for blockchain technology; Downloadable computer software for broadcasting and streaming of digital media content; Downloadable computer software for collecting, analysing and organising data in the field of deep learning; Downloadable computer software for collecting,

analyzing and organizing data in the field of deep learning; Downloadable computer software for computer aided software engineering; Downloadable computer software for computer application deployment; Downloadable computer software for computer application development; Downloadable computer software for computer application integration; Downloadable computer software for computer data deployment; Downloadable computer software for computer data development; Downloadable computer software for computer data integration; Downloadable computer software for computer database integration; Downloadable computer software for computer system deployment; Downloadable computer software for computer system development; Downloadable computer software for computer system integration; Downloadable computer software for controlling and managing access to application servers; Downloadable computer software for creating and designing websites; Downloadable computer software for creating and operating an online marketplace for buyers and sellers of goods authenticated by non-fungible tokens [NFTs]; Downloadable computer software for creating music videos; Downloadable computer software for creating searchable databases of information and data; Downloadable computer software for creating virtual reality models; Downloadable computer software for creating, analysing and running quantum algorithms; Downloadable computer software for creating, analysing and running quantum programs; Downloadable computer software for creating, analyzing and running quantum algorithms; Downloadable computer software for creating, analyzing and running quantum programs; Downloadable computer software for creating, managing, storing, accessing, sending, receiving, exchanging, validating and selling digital assets; Downloadable computer software for creating, managing, storing, accessing, sending, receiving, exchanging, validating and selling digital collectibles; Downloadable computer software for creating, managing, storing, accessing, sending, receiving, exchanging, validating and selling digital tokens; Downloadable computer software for creating, verifying, and managing digital identities; Downloadable computer software for cross blockchain transfers; Downloadable

computer software for daily tasks management; Downloadable computer software for data authentication; Downloadable computer software for data processing; Downloadable computer software for detecting deepfake audio and video files; Downloadable computer software for developing quantum virtual machines; Downloadable computer software for electronic authentication; Downloadable computer software for electronic data encryption for transmission through a secure and private connection over the internet; Downloadable computer software for enabling hands-free use of a cell phone through voice recognition; Downloadable computer software for enabling hands-free use of a mobile telephone through voice recognition; Downloadable computer software for enabling hands-free use of a smartphone through voice recognition; Downloadable computer software for enabling users to experience virtual reality visualization, manipulation and immersion; Downloadable computer software for ensuring the security of electronic data; Downloadable computer software for facilitating financial transactions for others; Downloadable computer software for facilitating payment transactions by electronic means; Downloadable computer software for fire mapping and analysis; Downloadable computer software for food ordering and delivery; Downloadable computer software for generating virtual images; Downloadable computer software for geolocation; Downloadable computer software for governance and management of web application programming interfaces; Downloadable computer software for instrument tuning; Downloadable computer software for interacting with blockchain platforms; Downloadable computer software for issuing digital certificates authenticated by non-fungible tokens [NFTs]; Downloadable computer software for managing and validating cryptocurrency transactions using blockchain-based smart contracts; Downloadable computer software for managing and verifying cryptocurrency transactions using blockchain technology; Downloadable computer software for managing and verifying financial transactions; Downloadable computer software for managing crypto asset transactions using blockchain technology; Downloadable computer software for managing cryptocurrency transactions using

blockchain technology; Downloadable computer software for managing digital collectibles using blockchain technology; Downloadable computer software for managing smart contracts using blockchain technology; Downloadable computer software for market data analysis; Downloadable computer software for mobile applications that enable interaction and interface between vehicles and mobile devices; Downloadable computer software for modeling and simulating online social media consumer behaviors; Downloadable computer software for monitoring the performance of computer systems; Downloadable computer software for multilingual speech recognition, translation, and transcription; Downloadable computer software for online appointment scheduling; Downloadable computer software for operating quantum computers; Downloadable computer software for optical character recognition; Downloadable computer software for ordering food; Downloadable computer software for photo slideshows; Downloadable computer software for printing purposes; Downloadable computer software for processing digital images; Downloadable computer software for processing electronic payments to and from others; Downloadable computer software for programming and running software on quantum computers; Downloadable computer software for providing access to virtual environments; Downloadable computer software for providing an all-around view for a vehicle; Downloadable computer software for providing remote data archiving and back-up; Downloadable computer software for providing secure and private access for users to the internet; Downloadable computer software for quantum algorithms; Downloadable computer software for quantum programming; Downloadable computer software for remote monitoring and analysis; Downloadable computer software for simulating quantum processes; Downloadable computer software for smart contracts; Downloadable computer software for smartphones; Downloadable computer software for social media communication networks; Downloadable computer software for social networking; Downloadable computer software for system cleaning and optimisation; Downloadable computer software for system cleaning and optimization; Downloadable computer software for testing vulnerability

in computers and computer networks; Downloadable computer software for the collection of data and information; Downloadable computer software for the display of digital media; Downloadable computer software for the generation of typefaces and fonts; Downloadable computer software for the remote control of electric lighting apparatus; Downloadable computer software for the remote control of office machines and equipment; Downloadable computer software for the remote control of security apparatus; Downloadable computer software for the remote control of telephone sets and radiotelephony sets; Downloadable computer software for the sharing of data and information; Downloadable computer software for the storage of data and information; Downloadable computer software for the structural and functional analysis of genomes; Downloadable computer software for the transmission of data and information; Downloadable computer software for use as a cryptocurrency wallet; Downloadable computer software for use as a digital token wallet; Downloadable computer software for use as a digital wallet; Downloadable computer software for use as an application programming interface [API]; Downloadable computer software for use as an electronic wallet; Downloadable computer software for use in computer access control; Downloadable computer software for use in implementing Internet of Things [IoT]; Downloadable computer software for use in time sheet management; Downloadable computer software for use in time tracking; Downloadable computer software for virtual environments; Downloadable computer software for web content management; Downloadable computer software for web crawling; Downloadable computer software for web scraping; Downloadable computer software for word processing; Downloadable computer software platforms; Downloadable computer software platforms for social networking; Downloadable computer software relating to the handling of financial transactions; Downloadable computer software to enable teleconferencing, videoconferencing and videophone services; Downloadable computer software to enhance the audiovisual capabilities of multimedia applications; Downloadable computer software to enhance the integration of texts, audios, graphics, still images

and moving pictures; Downloadable computer software to maintain and operate computer systems; Downloadable computer software to operate vehicles; Downloadable computer software using artificial intelligence for automatic speech to text conversion; Downloadable computer software using artificial intelligence for computational methods; Downloadable computer software using artificial intelligence for data analysis; Downloadable computer software using artificial intelligence for data models; Downloadable computer software using artificial intelligence in the field of biomedical research; Downloadable computer software using artificial intelligence in the field of genomic research; Downloadable computer software using artificial intelligence in the field of internet fraud detection; Downloadable computer software using artificial intelligence in the field of machine translation; Downloadable computer software using artificial intelligence in the field of medical diagnosis; Downloadable computer software using machine learning and artificial intelligence; Downloadable computer software using machine learning for computational methods; Downloadable computer software using machine learning for data analysis; Downloadable computer software using machine learning for data models; Downloadable computer software using machine learning in the field of biomedical research; Downloadable computer software using machine learning in the field of genomic research; Downloadable computer utility software; Downloadable computer-aided design software; Downloadable content management software; Downloadable cryptography software; Downloadable data and image processing software for making three dimensional models; Downloadable data management software; Downloadable data mining software; Downloadable database server software; Downloadable database synchronisation software; Downloadable database synchronization software; Downloadable display management software; Downloadable document management software; Downloadable e-commerce software; Downloadable e-payment software; Downloadable educational computer game software; Downloadable educational computer software; Downloadable educational software; Downloadable electronic commerce software; Downloadable

electronic game software; Downloadable electronic game software for wireless devices; Downloadable electronic payment software; Downloadable email software; Downloadable energy management software; Downloadable entertainment software; Downloadable environmental control software; Downloadable environmental monitoring software; Downloadable expense management software; Downloadable face recognition software; Downloadable facilities management software to control building environment, access and security systems; Downloadable factory automation software; Downloadable file server software; Downloadable file sharing software; Downloadable file synchronization software; Downloadable fire detection software; Downloadable game development software; Downloadable gaming software; Downloadable hardware reliability software; Downloadable hardware testing software; Downloadable home automation software; Downloadable image processing software; Downloadable image processing software for in-vehicle cameras; Downloadable industrial automation software; Downloadable industrial process controlling software; Downloadable instant messaging software; Downloadable intelligent personal assistant [IPA] software; Downloadable interactive business software; Downloadable interactive database software; Downloadable interactive entertainment software; Downloadable interactive entertainment software for playing computer games; Downloadable interactive entertainment software for playing video games; Downloadable interactive game software; Downloadable interactive software; Downloadable interface software; Downloadable inventory management software; Downloadable invoicing software; Downloadable language recognition software; Downloadable lighting control software for use in commercial and industrial facilities; Downloadable local area network operating software; Downloadable machine control software; Downloadable machine learning software; Downloadable machine learning software for advertising; Downloadable machine learning software for analysis; Downloadable machine learning software for finance; Downloadable machine learning software for healthcare; Downloadable machine learning software for surveillance; Downloadable machine learning software used in

computer deep learning programs; Downloadable machine learning software used in computer deep neural networks programs; Downloadable machine learning software used in computer intrusion networks detection programs; Downloadable machine learning software used in computer language processing programs; Downloadable machine learning software used in computer pattern recognition programs; Downloadable machine learning software used in computer predictive analytics programs; Downloadable machine learning software used in computer speech analysis programs; Downloadable market forecasting software; Downloadable media software; Downloadable media streaming software; Downloadable medical imaging software; Downloadable mobile application software; Downloadable multimedia software; Downloadable music-composition software; Downloadable navigation software; Downloadable networking software; Downloadable open-source computer software; Downloadable optimisation software; Downloadable optimization software; Downloadable payment application software for mobile phones; Downloadable process controlling software; Downloadable production support software; Downloadable project management software; Downloadable puzzle game software; Downloadable quantum computing software; Downloadable revision control software platforms; Downloadable screen saver software for cell phones; Downloadable screen saver software for mobile telephones; Downloadable security software; Downloadable security token software for user authentication; Downloadable server software; Downloadable simulation software; Downloadable smartphone game software; Downloadable smartphone software for heart rate monitoring; Downloadable software applications; Downloadable software applications for mobile phones; Downloadable software applications for mobile telephones; Downloadable software applications for smartphones; Downloadable software applications for virtual environments; Downloadable software as a medical device [SaMD]; Downloadable software development kits (SDK); Downloadable software for accessing and streaming multimedia entertainment content; Downloadable software for analysing energy and resource data; Downloadable software for analyzing energy

and resource data; Downloadable software for archiving computer files; Downloadable software for automating data entry from utilities; Downloadable software for automation management; Downloadable software for blockchain-based inventory management; Downloadable software for card readers; Downloadable software for content control; Downloadable software for continuous integration and continuous deployment (CI/CD); Downloadable software for distributed computing platforms; Downloadable software for electronic geolocation devices; Downloadable software for end-to-end testing of third-party software for functionality and bugs; Downloadable software for engaging in social networking and interacting with online communities; Downloadable software for ensuring the security of electronic mail; Downloadable software for financial management; Downloadable software for generating cryptographic keys for receiving and spending cryptocurrency; Downloadable software for generating cryptographic keys for receiving cryptocurrency; Downloadable software for generating cryptographic keys for spending cryptocurrency; Downloadable software for generating reports for analytical and informational purposes; Downloadable software for generating transaction tokens; Downloadable software for identifying opportunities to mitigate greenhouse gas emissions; Downloadable software for individuals, businesses and other organisations to monitor environmental trends and track progress towards sustainability targets; Downloadable software for lighting control; Downloadable software for machine learning for use in robots; Downloadable software for managing cryptocurrency transactions; Downloadable software for market data analysis; Downloadable software for measuring and reporting on international environmental standards; Downloadable software for minting non-fungible tokens [NFTs]; Downloadable software for monitoring and analysing carbon footprint; Downloadable software for monitoring and analyzing carbon footprint; Downloadable software for monitoring, analysing, controlling and running physical world operations; Downloadable software for monitoring, analyzing, controlling and running physical world operations; Downloadable software for natural language generation;

Downloadable software for preparing budgets, allocating costs, and analysing utility procurement; Downloadable software for providing access to an online virtual environment; Downloadable software for remote diagnostics; Downloadable software for remotely accessing and controlling a computer; Downloadable software for social networking based on geolocation; Downloadable software for spending and trading cryptocurrency; Downloadable software for streaming video content; Downloadable software for the analysis of business data; Downloadable software for the integration of artificial intelligence and machine learning in the field of big data; Downloadable software for transmitting distress signals; Downloadable software for use in displaying, monetizing, buying, selling, trading, clearing, confirming and authenticating digitized assets; Downloadable software for use in displaying, monetizing, buying, selling, trading, clearing, confirming digitized assets authenticated by non-fungible tokens [NFTs]; Downloadable software for wireless content delivery; Downloadable software in the nature of a mobile application for food delivery and ordering; Downloadable software platforms; Downloadable software platforms for cybersecurity data analysis; Downloadable software platforms for hosting computer sites; Downloadable software platforms to allow users to collect money; Downloadable software to control building environment, access and security systems; Downloadable software tokens for user authentication; Downloadable software using artificial intelligence for simulating natural conversation; Downloadable software using artificial intelligence for summarizing texts; Downloadable software using artificial intelligence for writing content based on a theme; Downloadable speech recognition software; Downloadable telecommunications software; Downloadable text-to-image generator software using artificial intelligence; Downloadable training software; Downloadable translation software; Downloadable video game software; Downloadable virtual assistant software; Downloadable virtual reality game software; Downloadable virtual reality software; Downloadable virtual reality software for education; Downloadable virtual reality software for medical teaching; Downloadable virtual reality software for

playing virtual reality games; Downloadable virtual reality software for simulation; Downloadable virtual reality software for telecommunications; Downloadable virtual reality training simulation software; Education software; Electrical leak detection hardware with embedded operating system software; Electronic device software drivers that allow computer hardware and electronic devices to communicate with each other; Electronic game software; Electronic game software for handheld electronic devices; Electronic game software for mobile phones; Electronic game software for wireless devices; Electronic sports training simulators [computer hardware and software-based teaching apparatus]; Embedded operating software; Engineering design software; Facial analysis software; Facial recognition software; Game programmes [programs] and software for use with electronic games of all kinds; Games software; Games software for use with an external display screen or monitor; Games software for use with computers; Gesture recognition software; Graphical user interface software; Image recognition software; Industrial computer software programs; Industrial controls incorporating software; Industrial process control software; Installations for the remote loading of computer software; Installations for the remote unloading of computer software; Integrated software packages; Interactive computer software; Interactive entertainment software for use with computers; Interactive multimedia software for playing games; Interactive video software; Internet access software; Internet messaging software; LAN [local area network] operating software; Magnetic cards bearing computer software; Magnetic storage materials incorporating software; Magnetic tapes for memorising software programs; Multimedia software recorded on CD-ROM; Music-composition software; Network access server operating software; Network management computer software; Operating computer software for main frame computers; Operating software for network access servers; Packaged software; Personal computer software applications, downloadable; Personal computers incorporating computer software; Pre-recorded software; Printer spooler software; Privacy protection software; Process controlling software; Programmed video games [software]; Programmed

video games contained on cartridges [software]; Recorded and downloadable media, computer software, blank digital or analogue recording and storage media; Recorded computer game software; Recorded computer software; Recorded computer software for safe vehicle driving; Recorded software and programmes for use with electronic games of all kinds; Routers with embedded network configuration software; Satellite imagery software; Security devices for computer software; Simulation software for use in digital computers; Smartphone game software, downloadable; Software applications for use with mobile devices; Software as a medical device [SaMD], downloadable; Software drivers; Software for GPS navigation systems; Software for automated business process discovery; Software for computers; Software for diagnostics and troubleshooting; Software for dosimetry purposes in the field of radiotherapy; Software for ensuring the security of electronic mail; Software for facilitating secure credit card transactions; Software for optical character recognition; Software for processing digital images; Software for processing images, graphics and text; Software for satellite navigation systems; Software for searching and retrieving information across a computer network; Software for the operational management of portable magnetic and electronic cards; Software to control and improve audio equipment sound quality; Speech analytics software; Speech recognition software; Table representation software; Tax preparation software; USB [universal serial bus] operating software; VPN [virtual private network] operating software; Video game software; Video games on disc [computer software]; Video games programs [computer software]; Video games software; Virtual reality game software; Virtual reality software; Virtual reality software for medical teaching; Voice recognition software; WAN [wide area network] operating software; Web site development software; Website development software; Apparatus for connecting electronics; Communications electronics for computers; Galena crystal detectors for use in electronics; Hermetically sealed boxes for electronics.

Goods and/or Services:

Class 09

Data processing equipment and computers; Computer software; computer programs; Downloadable software development kits (SDK); downloadable application programming interface (API) software that enables developers to build software applications; software applications for use with mobile devices and computers; software for processing electronic payments to and from others; computer software and software applications used in relation to financial services, financial transactions, electronic commerce, electronic payments, foreign currency exchange, trading and brokerage services, remittance transactions, cross-border money transfers, investment advisory and loan services, data, payment and computer security; authentication software; computer software and computer software applications (downloadable); instant messaging software; file sharing software; communications software for electronically exchanging and transmitting data, audio, video, images and graphics via computer, mobile, wireless and telecommunication networks; computer software for processing images, graphics, audio, video, and text; downloadable computer software which allows users to participate in web-based meetings and classes, with access to data, documents, images and software applications through a web browser; downloadable computer software for accessing, viewing, and controlling remote computers and computer networks; downloadable cloud-computing software; Downloadable cloud-based software; computer software

for tracking and evaluating customer and personal behaviour in relation to purchasing decisions; computer software applications for use in relation to environmental conservation, climate change and carbon offsetting; downloadable text files; downloadable electronic data files; Downloadable data sets; downloadable open source software; downloadable software for software development and collaboration in the software development process, namely, working with the source code and its browsing, editing, development, enhancement and testing; computer software, downloadable computer software, computer programs, software applications, and software development tools for code development, code editing, code testing, Application Programming Interface (API) selection and integration, code language selection and integration, plugins selection and integration, code deployment and integration; computer software, downloadable computer software, computer programs, software applications, and software development tools for source code repository management, data storage and backup, database management, and facilitating the exchange of information via the Internet featuring collaboration tools; software for facilitating online payments through a payment gateway; software for use in connection with contactless payments; software and software applications for the purpose of allowing merchants to accept contactless mobile commerce transactions, contactless presentation of loyalty credentials, and contactless redemption of coupons, rebates, discounts, vouchers and special offers; software and software applications that allow merchants to deliver coupons, rebates, discounts, vouchers and special offers directly to the mobile telecommunications devices of consumers; computer software for generating, scanning and recognising QR codes; QR code readers; software for mobile phone credit and e-wallet top-up services; computer software, downloadable computer software, computer programs, software applications and software development tools for use in relation to blockchain technology, blockchain infrastructure, blockchain cybersecurity, tokenisation of real-world assets, digital assets, digital asset exchange transactions, decentralized finance (DeFi) and integrating traditional financial systems with

blockchain technology; computer software, downloadable computer software, computer programs, software applications, and software development tools for electronically creating, accessing, exchanging, trading, transmitting, managing and storing digital assets, digital currencies, cryptocurrencies, stable coins, virtual currencies, digital securities, digital tokens, and digital collectibles, and for facilitating users' ability to view, analyse, record, store, monitor, manage, trade, and exchange the aforesaid assets, as well as manage related payment and exchange transactions; cryptography software; cryptography software for ensuring security and compliance in blockchain transactions; downloadable digital collectibles, being image files featuring art, animation cels, images, photographs, trading cards, videos and other digital media content; Downloadable digital files authenticated by non-fungible tokens [NFTs]; downloadable software to enable the building of applications on the blockchain, interaction with blockchain smart contracts, and asset and information exchange; downloadable software for creating, agreeing, executing, managing and performing smart contracts; downloadable computer software for use as an electronic wallet, a digital wallet and a cryptocurrency wallet; Artificial intelligence software; artificial and virtual reality immersion software; artificial intelligence software in the field of humanoid robots and robots working alongside humans; humanoid and collaborative robots with artificial intelligence; robots with artificial intelligence for use in human-machine integration solutions; operating systems for robots; software for facilitating interaction and communication between humans and artificial intelligence platforms, namely, bots, virtual agents and virtual assistants; Robotic Process Automation [RPA] software; Intelligent Process automation [IPA] software; downloadable software for controlling and managing embodied artificial intelligence systems, namely humanoid robots and autonomous machines; artificial intelligence apparatus; humanoid robots with artificial intelligence for use in the provision of financial services; artificial intelligence software for use in relation to marketing, cloud computing, data analytics, predicting trends and customer support; artificial intelligence software for use in relation to cybersecurity and IT infrastructure

protection; computer software, downloadable computer software, computer programs, software applications and software development tools for use in relation to artificial intelligence, artificial intelligence driven humanoid robots and robots working alongside humans, machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, predictive and prescriptive analytics, process and task automation, computer vision, internet of things (IoT) and smart data discovery; computer software, downloadable computer software, computer programs, software applications and software development tools for use in relation to automation of processes and tasks; computer software, downloadable computer software, computer programs, software applications and software development tools for use in relation to business analytics, business intelligence, data integration, data warehousing, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization and data analytics; computer software and application software for the provision, communication and administration of loyalty, incentive, reward and redemption scheme, membership scheme, electronic vouchers, electronic wallets, electronic coupons, electronic direct marketing, customer relationship management, marketing campaign, customer database, transaction management, reminders or other messages; downloadable software for omnichannel marketing solutions; software as a medical device (SaMD), downloadable; online electronic publications (downloadable from the Internet or a computer network or a computer database); downloadable electronic publications in the nature of magazines, articles, brochures, leaflets, datasheets, information and instructional materials in the field of business, e-commerce, information technology, cloud computing, telecommunications, the Internet, business and e-commerce training, business, sales, marketing and financial management; Computer peripherals; SIM cards; eSIM cards; pocket wifi devices, notebook computers; Laptop computers; Portable computers; Handheld computers; Personal digital assistants; Personal media players; Mobile telephones; Smart phones; batteries, battery chargers; computer workstations (not furniture); Computer

servers; computer and telecommunications networking hardware; computer network adaptors, switches, routers and hubs; wireless and wired modems and communication cards (encoded or magnetic) and devices; laptop holders, computer bags; computer hardware and firmware; automobile navigation system; digital music (downloadable from the Internet); Telecommunications apparatus; Mouse mats; mobile phone accessories; downloadable games, pictures, motion pictures, movies and music; Alarm systems; Security cameras; Headphones; Speakers; Global Positioning System (GPS) apparatus and equipment; computer, electronic and video games programmes and software (including software downloadable from the Internet); liquid crystal displays for telecommunications and electronic equipment; data storage programs; spectacles and sunglasses; electronic signboards; encoded or magnetic payment, bank, credit, debit, cash, charge, telephone and identification cards; Electronic book readers; Encoded key cards; 3D spectacles; Memory cards for video game machines; wearable computers, smart phones, monitors, displays, activity trackers, audio equipment, communications apparatus, telecommunication apparatus, and digital electronic communication devices; downloadable mobile applications and application software for use with wearable computers, smart phones, monitors, displays, activity trackers, audio equipment, communications apparatus, telecommunication apparatus, and digital electronic communication devices; electronic cards and stored value cards; terminals, devices or apparatus for electronic payments and transactions and other contactless interactions with mobile devices; contactless payment terminals; electronic financial transaction apparatus and software for secure online and offline payment transactions.

Class 35

Advertising; Business management; Business administration; Office functions; Organization, operation and supervision of loyalty and incentive schemes; Accountancy; Arranging and conducting of trade fairs; Data processing; Provision of business information; Database management; Compilation of information into

computer databases; Business consulting services; Business intelligence services; business strategic management services; business strategic management consulting services; Arranging and conducting of commercial events; Business project management services; market research and business consulting services; business consultancy services relating to facilitating the transaction of business via local and global computer networks by locating and providing referrals for the delivery of a wide variety of business and consumer products and services; dissemination of business information of goods and services of others via local and global computer networks; business consultancy services relating to providing a web site on a global computer network by which third parties can offer and source goods and services, place, determine the status of and fulfil trade leads and orders, enter into contracts and transact business; business consulting services in the field of online payments; business information management, namely, electronic reporting of business analytics relating to payment processing, authentication, tracking, and invoicing; business management, in the nature of providing strategic consultancy and operational support to businesses for the optimisation of payment processes; business consulting services and project management services in the field of artificial intelligence, artificial intelligence software development and artificial intelligence driven robots; providing computerized online ordering services; advertising of goods and services of others via local and global computer networks; international import and export agency services; rental of advertising space on communication media; online trading services relating to electronic auctioneering and providing online business evaluation relating thereto; compilation of business directories of third party web sites to facilitate business transactions; business consultancy services relating to operating an electronic marketplace for the buyers and sellers of goods and/or services on a global computer network; business assistance relating to facilitating business transactions via local and global computer networks; corporate management consultancy services; marketing and promotion services; Publication of publicity materials; dissemination of advertising materials, updating of advertising

materials, compilation of advertisements for use as web pages on the Internet; Rental of advertising space; Computer data processing; commercial sales, business and promotional information services; Auctioneering provided on the internet; Personnel management; provision of commercial sales, business, advertising and promotional information through a global computer network and via the Internet; presentation of goods on communication media for retail purposes; retail, online retail and wholesale services of telephones, smartphones, mobile phone accessories, telecommunications goods, computer hardware, firmware and computer software, payment terminals, devices or apparatus for electronic payments and transactions, artificial intelligence apparatus, humanoid and collaborative robots with artificial intelligence, humanoid robots with artificial intelligence for use in the provision of financial services, computers, data processing equipment, sim cards, eSIM cards, computer peripherals, computers, Global Positioning System (GPS) apparatus and equipment, computer workstations, servers, computer and telecommunications networking hardware, computer network adaptors, switches, routers and hubs, wireless and wired modems and communication cards and devices, computer bags, online electronic publications, digital music (downloadable from the Internet), pocket wifi devices, mouse mats, downloadable games, pictures, motion pictures, movies and music, electronic and video games programmes and software (including software downloadable from the Internet), electronic amusement and game apparatus, games and electronic toys, liquid crystal displays for telecommunications and electronic equipment, data storage programs, signboards, and user manuals; buying agency services and selling agency services for goods; selection of goods and procurement of goods for individuals and businesses; ordering services (for others); Provision of business statistical information; Organization of exhibitions for commercial or advertising purposes; business investigation; Business administration services for the processing of sales made on the Internet; business referral services and personnel placement; document reproduction; Transcription services; Customer relationship management; Business management services relating to electronic

commerce; business management and administration services relating to sponsorship programmes; charitable services, namely business management and administration of volunteer programmes and community service projects; Provision of commercial and business contact information; Search engine optimization; Web site traffic optimization; Pay per click advertising; Commercial intermediation services; Business management for freelance service providers; Negotiation and conclusion of commercial transactions for third parties; Updating and maintenance of data in computer databases; promotion of goods and services through sponsorship; Sponsorship search; Purchasing of goods and services for other businesses; procurement services for others; commercial trading and consumer information services; computerised point-of-sale data collection services; promoting the sale of goods and services by others by awarding points for credit card use or mobile financial software application use; promotional information and advisory services provided to members, subscribers and users of incentive loyalty schemes and reward programs; Promoting the sale of goods and services of others by means of contests and incentive award programs; promotional services in the nature of administration of bonus programmes for purchases of selected goods and services, featuring benefits in connection with environmentally-conscious purchase and lifestyle choices; provision of advertising, business management and data processing services by the use of artificial intelligence; the bringing together, for the benefit of others, of a variety of goods, namely, virtual and digital currencies and collectibles, blockchain-based non-fungible assets and downloadable files authenticated by non-fungible tokens; provision of an online marketplace for buyers and sellers of non-fungible assets, digital assets, and digital collectibles; operating an online marketplace for buyers and sellers of non-fungible assets, digital assets and digital collectibles; online auction services featuring non-fungible assets, digital assets, and digital collectibles; information, consultancy and advisory services all relating to the aforesaid services.

Class 36

Insurance; Financial affairs; Monetary affairs; real estate affairs; clearing and reconciling financial transactions via a global computer network; online banking services and financial services; Credit card services; processing and transmission of bills and payments thereof, and providing insurance for financial transactions; Funds transfer services; transfer of payments for others via the internet; financial services in the nature of bill payment services and processing services; provision of financial information via the Internet; issuing of travel vouchers services; capital investments; Financial evaluation [insurance, banking, real estate]; Asset management services; Financial consultancy and advisory services; securities brokerage services, stock exchange quotation services; stocks and bonds brokerage, financial analysis; debit card services, charge card services and cheque guarantee services; Financial clearing services; credit verification via global computer information network; electronic credit risk management services; electronic purchase payment and electronic bill payment services; issuance of stored value cards, charge cards and debit cards; information services relating to finance and insurance, provided online from a computer database or the Internet; agency for collection of gas and electricity fees; Charitable fund raising; Online payment services; Issuing of vouchers; provision of electronic funds transfer services; monetary exchange services, issuance of prepaid cards and tokens of value; remittance services and money transfer services; financial transaction services, namely, providing secure payment and remittance transactions; including all of the aforementioned services provided by electronic means; Foreign currency transfer services; Foreign currency exchange; Currency trading; Buying and selling currency; Brokerage of currency; financial transactions via blockchain; fundraising and financial sponsorship; Brokerage of carbon offsets; financial sponsorship of carbon offset programmes; funding of and investment in emissions reduction projects; investment in emissions reduction funds; Provision of loans; Providing temporary loans; electronic wallet services (payment services); payment services and transfer of funds by means of payment terminals;

financial services, namely, the provision of contactless mobile payments through merchants at retail, online and wholesale locations; Financial risk management services; financial transaction analysis, namely, analyzing transactions for payment fraud, illegality and compliance with payment transaction regulations and antifraud and money laundering controls; providing purchase protection services for goods and services purchased by others via a global computer network and wireless networks, namely, providing fraud reimbursement services in the field of credit card purchases and electronic payment purchases, and providing secure commercial transactions for credit card purchases and electronic payment purchases; reimbursement of funds for disputed items in the field of electronic payment purchases; financial services in relation to and for facilitating the buying, selling, trading and management of digital currency, blockchain tokens, and other digital assets on a trading platform; financial services related to digital wallets and electronic wallets, including secure storage and transaction processing of digital assets; Issuance of tokens of value; redeeming the tokens of value of others for payment of goods or services; financial consultancy services related to blockchain technology, digital assets, smart contracts and the integration of traditional and decentralised financial systems; financial services, namely trading of digital currency, cryptocurrency, stablecoins and virtual currency; financial services relating to digital currency wallet and digital currency storage services; financial services, namely, custodian electronic wallet services in relation to digital currency, cryptocurrency, stable coin, digital payment tokens and virtual currency; Issuance and transfer of stable coins and digital payment tokens; financial services relating to customer loyalty, incentive and reward programs; exchange and redemption of tokens of value in relation to customer loyalty, incentive and reward programs; providing discount card services and other rebate services as part of a customer loyalty program; Providing rebates at participating establishments of others through use of a membership card; consultancy, information and advisory services relating to the aforesaid services.

Class 42

Scientific and technological services and research and design relating thereto, industrial analysis and research services; design and development of computer hardware, software and artificial intelligence software; software as a service (SaaS); blockchain as a service (BaaS); platform as a service (PaaS); Infrastructure as a service [IaaS]; encryption, decryption and authentication of information, messages and data; providing user authentication services using biometric, facial recognition, finger print authentication, voice recognition and other types of hardware and software authentication technology for provision of financial services, e-commerce transactions, donations, licensed product tracking and fan engagement; Data security services; IT security, protection and restoration; Computer security threat analysis for protecting data; provision of security services for computer networks, computer access and computerised transactions; certification (quality control) of data via blockchain; data authentication via blockchain; all of the aforementioned services for use in connection with payment systems; computer design and development services in connection with transmitting information, data, documents, and images over the Internet; Application service provider (ASP) services, namely, hosting computer software applications of others; application service provider (ASP) services for providing software in the fields of web-based conferencing, audio conferencing, electronic messaging, document collaboration, video conferencing, and voice and call processing; providing online non-downloadable software for facilitating the interoperability of multiple software applications; technical support services relating to computer software and applications provided online, by email and by telephone; computer services, namely, creating an online community for registered users to participate in discussions, get feedback from their peers, form virtual communities, engage in social networking, and exchange documents; computer service relating to creating indexes of information, sites and resources on computer networks; providing search engines; design of mobile telephones and smart phones; design of digital

cameras; research, design and product development services in connection with payment terminals and electronic payment systems; technical support services relating to payment terminals and electronic payment systems; computer services, namely computer system administration for others; Computer programming; computer integration services; computer analysis services; computer programming in relation to the defence against virus; computer system software services; Computer system design; design and development of webpages; hosting webpages for others; hosting computer application software for searching and retrieving information from databases and computer networks; providing technological information at the specific request of end-users by means of telephone or global computer network; consultancy services in relation to computer software; computer services relating to customized searching of computer databases and websites; computer and electronic signal coding and decoding; conversion of physical data and documents into electronic media format; product testing and evaluation services; computer information services; computer network information services, namely, providing technological information relating to computers and networks in the field of business and e-commerce; provision of computer security risk management programs; computer security information and testing services; Quality assurance services; computer services relating to certification of business transactions and preparation of reports therefor; access control to (security services for-) computers, electronic networks and databases; computer security services for data transmission and for transactions via computer networks services; consultancy in the field of data security; technological consultancy concerning securing telecommunications; Computerized communication network security services; Authentication services for computer security; online authentication of electronic signatures; Off-site data backup; Electronic data storage; Providing information on computer technology and programming via a web site; Cartography services; Cloud computing; Cloud hosting provider services; providing temporary use of non-downloadable cloud-based software and cloud computing software; providing virtual computer systems and

virtual computer environments through cloud computing; rental of entertainment software; Technical research in the field of carbon offsetting; provision of scientific information, advice and consultancy in relation to carbon offsetting and environmental protection; Providing technological information about environmentally-conscious and green innovations; environmental testing, assessment and monitoring services; scientific research in the fields of environmental protection and conservation; research and provision of scientific information in the field of climate change; scientific consultation services relating to fuels, fuel and carbon dioxide emissions and environmental issues; industrial consultation services relating to environmental issues; scientific and technological services relating to recommendation of courses of action to reduce carbon dioxide emission in a cost effective manner; scientific and technological services relating to management of carbon offset programmes; providing non-downloadable open source software; providing temporary use of non-downloadable cloud-based software for software development and collaboration in the software development process, namely, working with the source code and its browsing, editing, development, enhancement and testing; writing, design and development of computer code; computer software testing, namely, source code review; consulting services in the field of source code and application software development, implementation, maintenance, repair, analysis, security, and optimization; providing non-downloadable software for use in relation to code development, code editing, code testing, Application Programming Interface (API) selection and integration, code language selection and integration, plugins selection and integration, code deployment and integration; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for use in relation to code development, code editing, code testing, Application Programming Interface (API) selection and integration, code language selection and integration, plugins selection and integration, code deployment and integration; providing non-downloadable software for use in relation to source code repository management, data storage and backup, database management, and facilitating the exchange of

information via the Internet featuring collaboration tools; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for use in relation to source code repository management, data storage and backup, database management, and facilitating the exchange of information via the Internet featuring collaboration tools; designing, creating and hosting of bill payment websites; network information services, namely, providing technical information relating to computers and networks in the field of payments including contactless payments; providing temporary use of online non-downloadable computer software for tracking and analyzing payment activity; providing temporary use of online non-downloadable software to evaluate and detect fraud and illegality in payment transactions, and manage compliance validation; providing non-downloadable software for use in relation to electronic payments and contactless transactions; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for use in relation to electronic payments and contactless transactions; providing non-downloadable software for mobile commerce, loyalty and rewards programs, and digital voucher redemption; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for mobile commerce, loyalty and rewards programs, and digital voucher redemption; providing non-downloadable software for generating, scanning, and recognizing QR codes; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for generating, scanning, and recognizing QR codes; providing non-downloadable software for use as an electronic wallet, digital wallet, and cryptocurrency wallet, and for facilitating top-up services and value storage for such wallets; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for use as an electronic wallet, digital wallet, and cryptocurrency wallet, and for facilitating top-up services and value storage for such wallets; providing non-downloadable software for use in relation to blockchain technology, blockchain infrastructure, blockchain cybersecurity, tokenisation of real-world assets, digital assets, digital asset exchange transactions, decentralized finance (DeFi) and integrating traditional financial systems with blockchain technology; Software as a

Service (SaaS), Platform as a Service (PaaS) and Infrastructure as a Service (IaaS) featuring software for use in relation to blockchain technology, blockchain cybersecurity, tokenisation of real-world assets, digital assets, digital asset exchange transactions, decentralized finance (DeFi) and integrating traditional financial systems with blockchain technology; providing non-downloadable software for electronically creating, accessing, exchanging, trading, transmitting, managing, storing, sending, receiving, and accepting digital assets, digital currencies, cryptocurrencies, stable coins, virtual currencies, digital securities, digital tokens, and digital collectibles, and for facilitating users' ability to view, analyse, record, store, monitor, manage, trade, and exchange these assets, as well as manage related payment and exchange transactions; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for electronically creating, accessing, exchanging, trading, transmitting, managing, storing, sending, receiving, and accepting digital assets, digital currencies, cryptocurrencies, stable coins, virtual currencies, digital securities, digital tokens, and digital collectibles, and for facilitating users' ability to view, analyse, record, store, monitor, manage, trade, and exchange these assets, as well as manage related payment and exchange transactions; providing non-downloadable cryptography software for ensuring security and compliance in blockchain transactions; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring cryptography software for ensuring security and compliance in blockchain transactions; providing non-downloadable software to enable the building of applications on the blockchain, interaction with blockchain smart contracts, and asset and information exchange; Software as a Service (SaaS), Platform as a Service (PaaS) and Infrastructure as a Service (IaaS) featuring software for the building of applications on the blockchain, interaction with blockchain smart contracts, and asset and information exchange; providing non-downloadable artificial intelligence software, artificial and virtual reality immersion software, and artificial intelligence software in the field of humanoid robots and robots working alongside humans; Software as a Service (SaaS) and Platform as a Service (PaaS)

featuring artificial intelligence software, artificial and virtual reality immersion software and artificial intelligence software in the field of humanoid robots and robots working alongside humans; providing non-downloadable software for facilitating interaction and communication between humans and artificial intelligence platforms, namely, bots, virtual agents and virtual assistants; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for facilitating interaction and communication between humans and artificial intelligence platforms, namely, bots, virtual agents and virtual assistants; providing non-downloadable Robotic Process Automation [RPA] and Intelligent Process automation [IPA] software; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring Robotic Process Automation [RPA] and Intelligent Process automation [IPA] software; providing non-downloadable software for controlling and managing embodied artificial intelligence systems, namely artificial intelligence apparatus, humanoid robots and autonomous machines; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for controlling and managing embodied artificial intelligence systems, namely artificial intelligence apparatus, humanoid robots and autonomous machines; providing non-downloadable artificial intelligence software for use in relation to marketing, cloud computing, data analytics, predicting trends, customer support, cybersecurity and IT infrastructure protection, Software as a Service (SaaS) and Platform as a Service (PaaS) featuring artificial intelligence software for use in relation to marketing, cloud computing, data analytics, predicting trends, customer support, cybersecurity and IT infrastructure protection; providing non-downloadable software for use in relation to artificial intelligence, artificial intelligence driven humanoid robots and robots working alongside humans, machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, predictive and prescriptive analytics, process and task automation, computer vision, internet of things (IoT) and smart data discovery; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for use in relation to artificial intelligence, artificial intelligence driven humanoid robots and robots working alongside humans,

machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, predictive and prescriptive analytics, process and task automation, computer vision, internet of things (IoT) and smart data discovery; providing non-downloadable software for use in relation to process and task automation, business analytics, business intelligence, data integration, data warehousing, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization and data analytics; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for use in relation to process and task automation, business analytics, business intelligence, data integration, data warehousing, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization and data analytics; providing non-downloadable software for the provision, communication and administration of loyalty, incentive, reward and redemption scheme, membership scheme, electronic vouchers, electronic wallets, electronic coupons, electronic direct marketing, customer relationship management, marketing campaign, customer database, transaction management, reminders or other messages; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for the provision, communication and administration of loyalty, incentive, reward and redemption scheme, membership scheme, electronic vouchers, electronic wallets, electronic coupons, electronic direct marketing, customer relationship management, marketing campaign, customer database, transaction management, reminders or other messages; providing non-downloadable software for the provision of omnichannel marketing solutions; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for the provision of omnichannel marketing solutions; design and development of medical technology and related computer software; design and development of artificial intelligence apparatus and humanoid robots; technical development services in the field of artificial intelligence and software engineering; research in the field of artificial intelligence and humanoid robots and robots working with humans; advanced product research in the field of artificial intelligence;

Providing artificial intelligence computer programs on data networks; Infrastructure as a Service [IaaS] for the provision of artificial intelligence; hosting of websites for the provision of artificial intelligence; consultancy, information and advisory services relating to the aforesaid services.

Acids used in oil and gas exploration and production; hydraulic fluid; chemical preparations, namely, cleaning solvents used in oil and gas exploration and production; chemicals used in oil drilling; drilling muds for use in oil and gas well drilling; chemicals for welding; gases for welding; metal welding flux; chemical drilling fluids for use in subterranean wells, namely, drilling muds, completion fluids, workover fluids and wellbore fluids; chemical additives for use with drilling fluids; chemical drilling fluids for use in oil well drilling; hydrogen as energy carrier; and lithium as part of a renewal energy system.

Class 07

Drilling rig mechanization machines and implements [machines] for oil, gas, geothermal, water development industries; structural and replacement parts [linking mechanisms] for drilling rig mechanization machines comprising of locks, nipples, expandables, cones, isolation valves, liner hangers, couplings, bushings, manifolds, collars, cables, retainers, stabilizers, hold openers, mills, seals, plugs, drill bits, drill stems, tubes, tubing, swivels, half mule shoes, guide shoes, burn shoes, washover shoes, drilling machine bearings, drilling machine rotors, packers, stators being parts of drilling rigs machines, safety valves, hangars, slicklines, pumps, tubing, pipes, pipe joints, safety joints, casings, and cables; devices adapted for use with drilling rig mechanization machines, namely, flow control devices, toolstring centralizer, casing centralizer, liner centralizer, logging device centralizer, bow-spring centralizer, monitoring devices, multilateral devices, packing devices, hold openers, under reamers, whip stocks, drilling motors, drilling hammers, drilling impact tools, milling assemblies, percussion hammers, tongs, cutters, casing and tubing patches, injection pump, injection mandrel, injection line, injection swages, shakers, desanders, desilters, mud cleaner, shale shaker, vacuum degasser, decanter centrifuge, mud agitator, mud tank, centrifugal pump, mixing hooper, mud gas separator centrifuges, heat exchanger, accumulator, compressor, air coolers, evaporators, batch reactor, continuous reactor, tubular furnace, boiler, pumps, dust

collectors, wet scrubber, fabric filter, settling chamber, precipitator, oil treater, straddles, spears, vacuums, retrieving tools, fishing tools, drilling rigs, packers, rotating control devices, banding tool, hangars, sensors, inflow control tools, slicklines, perforating devices, accelerators, scrapers, exchangers, gas lifting devices, fluid separators, meters, motors, accumulator, steerable motor, mud motor, generators, actuators, wellhead control panels, flowheads, booster pump, pump station, suction anchor, mudmat, hydraulic booster, vibration detectors, anchors, electromagnetic pipe scanner, wells, storage devices, tanks, hydraulic power units, hydraulic pumping units, hydraulic control system, hydraulic actuator, hydraulic booster, and apparatus for the remote observation and operation of oil and gas drilling rigs; gas flotation machine; drilling machines; reservoir screening machine; surface well screening machines; machines for subsea boosting; machines for borehole imaging; machines for seismic imaging; machines for delivering hydraulic pressure and flow; pumps for use in irrigation systems; parts of oilfield wellhead machines, namely, chokes, degassers, and centrifuges; power operated pressure control equipment consisting of parts of oilfield wellhead machines, namely, chokes, degassers, centrifugal degassers, hydrogen sulfide mud gas separators, dual mud gas separators for horizontal drilling; rubber and metal mechanical o-ring seals used in equipment for oil and gas exploration and production; cutting machines and machine tools, namely, powered machines for cutting or shaping or finishing metals or other materials; precision machine tools, namely, hard metal tools, high speed steel (HSS) tools, carbide tools, ceramic tools, poly crystalline diamond (PCD) tools, and diamond-coated and diamond-uncoated tools, and hard metal tools, all for use in the cutting and forming of material by others; mechanical seals; air-operated power tools, namely, drills, grinders, and millers; drills for the mining industry; electric drills; pneumatic drills; power drills; power tools, namely, reamers; electric welding machines; laser welding machines; friction-stir welding tools; friction-stir welding machines; bits for mining machines; bits for power drills; core drilling bits; mining bits; tool bits for machines; bearings, as parts of machines; roller bearings for machines;

pump diaphragms; machines, namely, cementing equipment used in oil and gas exploration and production; automatic vending machines; laser welding devices; welding electrodes.

Class 09

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment and computers; fire extinguishing apparatus; computer software and manuals distributed therewith to process data used for oil and gas exploration and production in locating, evaluating and producing hydrocarbons; firmware for digital enablement of oilfield tools; automated self-contained electronic surveillance devices that can be deployed to gather information in oil and gas exploration and production facilities; testing and measuring equipment used in oil and gas exploration and production facilities to test performance and efficiency of oil and gas well equipment; petroleum industry equipment, namely, electronic rig instrumentation for monitoring well pressure and volume of returned drilling fluid; micro-processor computer controlled rig floor monitors which monitor and display various drilling functions with alarms; electronic pit volume totalizers and return flow sensors for use in blow-out prevention or monitoring of drilling fluid pressure, temperature, viscosity, and composition; electronic drilling recorders, namely, micro-processor controlled drilling mud logging equipment for use in logging drilling fluid pressure, temperature, viscosity and composition; electric cables, fiber optic cables; cement testing machines; welding transformers; magnets for industrial purposes; magnets used in oil and gas exploration and production; hydrogen fuel cells; capacitors for energy storage used in the lithium extraction process; electronic

control devices and regulators used in the lithium extraction process; pumps for the extraction of gases [laboratory apparatus]; laboratory apparatus for capturing and storage of carbon relating to carbon dioxide storage and containment; energy regulators and control devices for the use of geoenergy or geothermal power; computer software.

Class 12

Tractors used in oil and gas exploration and production; trucks equipped with apparatus to conduct services well testing, evaluating, drilling, completing, producing and repairing rendered in connection with oil and gas wells, and for acquiring, processing, interpreting, storing, presenting and transmitting from one location to another of well site logging data; boats and barges equipped with pumping equipment for fracturing, acidizing, cementing, and sand control in connection with oil and gas wells; land vehicles for cable inspection and on-site oil and gas well measurements.

Class 13

Explosive substances and projectiles in the form of shaped charges for use in perforating metal casing lining and oil well along with the adjoining earth formation.

Class 35

Business management relating to exploration, production and operations of gas and oil properties for others; advertising and marketing services, namely, promoting the goods and services of others in the fields of oil and gas exploration and production; online procurement for others relating to purchasing of oil well drilling and well improvement for oil and gas exploration and production; administrative services relating to planning and scheduling of drilling rigs and vessels used in oil and gas exploration and production in the field of transportation logistics; data processing services in the fields of oil and gas exploration and production; business consulting services for the energy industry related to establishing and improving business

functions, namely, corporate and project strategies, organization management, operations management, operations improvement, technology management, mergers and acquisitions, and company integration.

Class 37

Construction project management services for others in the fields of oil and gas exploration and production; oil and gas drilling; consulting services in the fields of oil and gas well drilling; maintenance of wellbore area in oil and gas well drilling relating to sand control services in the field of oil and gas well drilling; maintenance of oil and gas wells relating to fishing and retrieval of tools and instruments lost in drilling of oil or gas well; artificial oil and gas pumping services in the fields of oil and gas well drilling; artificial lift services in the fields of oil and gas well drilling; maintenance and repair of oil separators; rental of construction tools and drilling equipment in connection with the fields of geothermal resources, water management, and carbon dioxide storage and containment; repair and maintenance of oil and gas drilling equipment and facilities; subterranean well drilling services; cementing services for oil and gas wells; drilling of wells; rental of drilling platforms; installation and maintenance of irrigation systems; irrigation devices installation and repair; perforating (drilling) services in connection with the oil and gas industries; rental of equipment used in connection with irrigation services and oil and gas exploration and production; lithium extraction services.

Class 39

Rental of tractors used in oil and gas exploration and production; waste oil collection for recycling; carbon storage services; hydrogen storage and distribution services.

Class 40

Carbon capture services; hydrogen production.

Class 41

Educational services, namely, conducting classes, seminars, conferences, and workshops in the fields of oil and gas exploration, measurement, detection, and production, geothermal resources, water management, storage and containment of carbon dioxide, and environmental issues and distribution of course material in connection therewith.

Class 42

Providing information in the form of news and commentary in the fields of oil and gas exploration; technical support services, namely, troubleshooting of computer software problems used in the fields of oil and gas exploration and production; updating of computer software for others; providing technical information updates of computer software used in the fields of oil and gas exploration and production; computer software consultation; consultation services in the fields of selection, testing, implementation and use of computer hardware and software systems for others; providing online information in the fields of computer software used in the fields of oil and gas exploration and production; testing, analysis, and evaluation of oil and gas reserves; measurement services relating to providing measurements and its reports via downhole data recorded by MWD (measurements-while-drilling) tools while drilling oil and gas wells; engineering services in the field of environmental compliance; conducting environmental wellbore technical survey services in the fields of oil and gas exploration and production, for geothermal resources, water management, and for the storage and containment of carbon dioxide industries; oil and gas well logging and testing services; industrial inspection on oil and gas wells; and sampling to assess oil and gas quality; performing oil and gas well diagnostics; oil and gas well surveying; surveying of oil-bearing seams; non-medical ultrasound imaging services in connection with oil and gas exploration; conducting magnetic resonance imaging interpretation and analysis for the oil and gas industries; engineering services related to recovery services in the fields of oil and gas exploration and production; engineering services related to retrieving of instruments

and tools lost in a well; engineering services related to remedial services in the field of oil and gas production to restore a well to higher production levels; computer modeling services, namely, computer technology services relating to computer simulation of drilling processes and operation of facilities used in oil and gas exploration and production; engineering services relating to modeling and design of drilling processes and operation of facilities used in oil and gas exploration and production; technological solutions in the fields of oil and gas exploration and production for the optimization of production, including cloud based solutions, software-as-a-service solutions, machine learning, artificial intelligence, and on-premise solutions; design of seismic acquisition parameters, namely, models or plans for acquiring seismic data used in connection with oil and gas drilling operations; interpretation and analysis for the petroleum industry in methods and products for interpreting oil and gas well data obtained during the provision of testing services; providing early production and extended well testing facilities for others to allow production of oil and gas while full field development is being planned and permanent facilities are being built; subterranean well testing services for use in connection with subterranean oil well drilling operations; engineering services in connection with the selection and use of specialized equipment for subterranean well drilling operations and providing technical advice on drilling fluids and drilling fluid use and technical advice on data control, products control, and pressure control; providing oil well pressure control testing services for others in the oil and gas industries; oil and gas exploration; engineering, engineering consulting, and testing services in connection with exploring and developing geothermal resources, water management, and carbon dioxide storage and containment; engineering services in the field of geothermal power production and distribution.

NATURE RESEARCH INTELLIGENCE

Goods and/or Services:

Class 09

Apparatus and instruments for recording, transmitting, reproducing or processing

sound, images or data; recorded and downloadable media, computer software, blank digital or analogue recording and storage media; computers and computer peripheral devices; software for the analysis of business data; machine learning software for analysis; artificial intelligence software for analysis; artificial intelligence software; digital data recording media; data storage media; reference software; reporting software; downloadable electronic reports; databases; computer databases; electronic databases; interactive databases; database management software; database server software; electronic databases recorded on computer media; computer software for accessing, browsing and searching online databases; computer software which enables access to global computer networks; all the foregoing only for use in or in respect of the fields of mathematics, humanities (namely, performing arts (theatre, music, dance), and visual arts (painting, sculpture, photography, filmmaking)), business and commerce (namely, accounting, finance, management, marketing).

Class 35

Advertising; statistical analysis and reporting; compilation and systemisation of information into computer databases; consultancy relating to data processing; editing of publicity texts; business management consultancy and advisory services; records management services, namely, document indexing for others; preparation of market reports and studies; data transcription; data management services; data retrieval services; all the foregoing only for use in or in respect of the fields of mathematics, humanities (namely, performing arts (theatre, music, dance}), and visual arts (painting, sculpture, photography, filmmaking), business and commerce (namely, accounting, finance, management, marketing).

Class 38

Providing access to and leasing access time to computer databases; providing access to a global computer network for the transfer and dissemination of

information; telecommunication services for enabling computer users to access, update, manipulate, modify, organize, store, back up, synchronize, transmit and share digital data and electronic media of any kind.

Class 41

Education; providing of training; arranging and conducting of workshops and seminars; organisation of webinars; online academic library services; editorial consultation; training in data processing techniques; organising and arranging of conferences, seminars and symposia; training in the use of data processing programs; editing of texts (except publicity texts); reference library services; educational information provided online from a computer database or the internet; library services provided by means of a computerised database; educational consultancy services; data processing training; bibliographic information; all the foregoing only for use in or in respect of the fields of mathematics, humanities (namely, performing arts (theatre, music, dance), and visual arts (painting, sculpture, photography, filmmaking)), business and commerce (namely, accounting, finance, management, marketing).

Class 42

Design and development of computer hardware and software; technical data analysis services; consultancy relating to quality control; data storage via blockchain; electronic storage of data; technical data analysis; maintenance of computer software for databases software; database design and development services; updating of database software; providing online non-downloadable software for database management; database design and development; hosting databases; design and development of data display systems; consultancy relating to computer database programmes; consultancy relating to technical analysis; providing search engines for obtaining data on a global computer network; compression of data for electronic storage; electronic storage of data; electronic storage services for

archiving databases; backup services for computer hard drive data; remote computer backup services; off-site data backup; cloud storage services for electronic data; all the foregoing only for use in or in respect of the fields of mathematics, humanities (namely, performing arts (theatre, music, dance), and visual arts (painting, sculpture, photography, filmmaking)), business and commerce (namely, accounting, finance, management, marketing).

Classes: 09 37 38 42

Goods and/or Services:

Class 09

Audio and video recording systems featuring network management functionalities, namely, Internet digital video recorders, networked digital video recorders, audio and video streaming devices; broadband communication equipment, namely, networking routers and networking switches; broadband wireless equipment, namely, base station equipment for wireless and fixed networking communications applications in the nature of wireless access point devices; broadband wireless equipment, namely, telecommunications base station equipment for cellular, wireless and fixed networking and communications applications; call management apparatus comprising of computers and computer software for processing and routing calls; camera system comprising of video camera and software to remotely access the video camera through web browser; carrier class wireless point-to-multipoint radios; cloud controlled device in the nature of computer hardware, platform in the nature of computer operating system and software for managing and controlling advertisements on screens, monitors and electronic displays; communications and data networking hardware, namely, devices for transporting and aggregating voice, data, and video communications across multiple network infrastructures and communications protocols; communications software for connecting users on

wireless networks, computer networks, and information technology (IT) systems; computer firmware for wireless communication devices; computer hardware for use in network management; computer networking hardware; computer operating programs and computer operating systems; computer software for communicating with users of hand-held computers; computer software for wireless content delivery; computer software for administration of computer networks and information technology (IT) systems, for administration of video, voice, and data transmission, for connecting radio networks, for setting up and configuring local area networks, for setting up and configuring wide area networks, for use in network management, for connecting users on wireless networks, for connecting computer network users, for communicating with users of hand-held computers, for controlling and managing access server applications, for management of communication equipment, for wireless content delivery, for controlling the operation of an antenna system, for synchronizing GPS clocks in antenna systems, for communication in the nature of providing transmission of data between two points and data networking services; computer software for administration of computer networks and information technology (IT) systems, for connecting radio networks, for setting up and configuring local area networks, for setting up and configuring wide area networks, for changing radio channels at given intervals that may be downloaded from a global computer network, for use in network management, for connecting users on wireless networks, for connecting computer network users, for communicating with users of hand-held computers, for controlling and managing access server applications, for management of communication equipment, for wireless content delivery, for controlling the operation of an antenna system, for synchronizing a GPS clock in an antenna system, for telecommunications and data networking services; communications software for connecting users on wireless networks, computer networks, and information technology (IT) systems; computer software for communicating with wireless access points; devices for wireless radio transmission, namely, wireless access point devices; devices for wireless radio transmission;

digital display management systems, namely, computer hardware and software system for managing electronic displays in the nature of digital signage; digital media receivers; digital media streaming devices; digital video recorders; display monitor operating software; downloadable network operating software; downloadable software for administration of computer networks; downloadable software for scanning of WiFi networks, discovery of devices on a WiFi network, mapping of WiFi signal levels, providing WiFi network status information, conducting WiFi speed tests, and providing VPN access; electrical plug device enabling connection and disconnection of power; electrical plug device enabling connection and disconnection of power; power cables; redundant power supply to provide backup power; electronic control systems for devices, namely, controllers to monitor and control the functioning of other electronic devices; electronic storage device, namely, blank flash drive, memory media, hard drive, and storage subsystems for storage and backup of electronic data either locally or via a telecommunication network; electronic transmitters and receivers for wireless networks, namely, transmitters and receivers of electronic signals in the nature of wireless access point devices; electronic transmitters and receivers for wireless networks, namely, transmitters and receivers of electronic signals; electronic video door bells with two-way audio communication; encoding and decoding apparatus and instruments; wireless radio transmitters and receivers; industrial wireless point-to-multipoint radios; ethernet networking devices; interoperable communication systems designed to provide wireless internet, namely, wireless access point devices; IP (Internet Protocol) cameras; microwave antennas; radio antenna; microwave transmission apparatus for delivering audio visual content, software, and data; microwave transmission apparatus for delivering wireless content, radio programs and messages; network access server hardware; network video recording software for IP (Internet Protocol) video surveillance; network-based video recording hardware, namely, cameras, video recorders, electric doorbells; outdoor radio receivers and transmitters used as part of an outdoor wireless network; outdoor wireless transceiver radio used as part of an outdoor wireless network; power

adaptors; power cables; power switches; radio devices, namely, devices for outdoor wireless radio transmission as part of an outdoor wireless network; radio devices, namely, devices for wireless radio transmission; radio receivers and transmitters; redundant power supply to provide backup power; remote control telemetering machines and apparatus; remote controlled devices, namely, sensors, switches, door access devices, power controllers, and power strips; network controlled door access security devices; security and surveillance video cameras and recorders; software for management and control of display monitors; surveillance system comprising of video camera and software to remotely access the video camera through remote internet access; computer hardware for IP video surveillance; telecommunications and data networking hardware, namely, devices for transporting and aggregating voice, data and video communications across multiple network infrastructures and communications protocols; telecommunications and data networking hardware; telecommunications call management software for originating, processing and routing calls to telecommunication carriers and other telecommunication service providers; telecommunications equipment, namely, inbound and outbound telecommunications call management apparatus comprising computers and computer software for processing, routing calls, and distributing voice and data telecommunications; telecommunications equipment, namely, network controlled power switches; telephones; video cameras; wired and wireless communications devices for voice, data or image transmission; wireless access point (WAP) devices; wireless communications devices for voice, data or image transmission; wireless point-to-multipoint radios; wireless transceiver radio; wireless transmitters and receivers, namely, wireless access point devices; wireless transmitters and receivers; light emitting diodes [LED].

Class 37

Providing technical support services, namely, troubleshooting of computer hardware repair problems in the field of networking, information technology (IT), and wireless

networking hardware.

Class 38

Providing electronic telecommunication connections, namely, providing Internet connectivity for wireless and remote controlled devices and information technology (IT) systems; providing multiple user wireless access to the Internet; telecommunication services, namely, transmission of voice, data, graphics, images, audio and video by means of telecommunications and data networks, wireless communication networks, and the Internet; telecommunication services, namely, transmission of voice, data, graphics, images, audio and video by means of telecommunications and data networks, wireless communication networks, and the Internet; transmission and distribution of audio visual content, software, and data to computer network systems and information technology (IT) systems; providing multiple-user access to a global computer information network for the transfer and dissemination of audio visual content, software and data; wireless broadband data transmission; transmission and distribution of audio visual content, software, and data to computer network systems and information technology (IT) systems; providing multiple-user access to a global computer information network for the transfer and dissemination of audio visual content, software and data.

Class 42

Computer services, namely, creating an on-line community in the form of a website for registered users to participate in discussions, obtain technical support, get feedback from their peers, form user groups, and engage in social networking services in the fields of communications technology, telecommunications hardware and software, networking hardware and software, information technology (IT), and wireless networking; providing an Internet portal for configuring, managing, tracking, monitoring, controlling and operating wireless networks, wireless devices, information technology (IT) systems, and remote controlled devices, for providing

information in the field of communications technology, telecommunications hardware and software, networking hardware and software, information technology (IT) systems, and wireless networking, and for providing technical and customer support services, namely, troubleshooting in the nature of diagnosing computer software and hardware problems; computer services, namely, remote management of telecommunication systems and devices, computer networks, telephone networks, and information technology (IT) systems of others; providing virtual computer systems and virtual computer environments through cloud computing for configuring, managing, tracking, monitoring, controlling and operating wireless networks, wireless devices, information technology (IT) systems, and remote controlled devices; hosting an interactive website for purposes of configuring, managing, tracking, monitoring, controlling and operating wireless networks, wireless devices, computer networks, telephone networks, information technology (IT) systems, and remote controlled devices; monitoring of computer usage, connections, and service quality of telecommunication systems and devices, computer networks, telephone networks, and information technology (IT) systems for others for technological purposes; providing technical support services, namely, troubleshooting of computer software problems in the field of networking, information technology (IT), and wireless networking software; updating and maintaining cloud-based computer software through on-line updates, enhancements and patches; providing temporary use of non-downloadable cloud-based software for connecting, operating, and managing computers, telecommunications, and data networks; updating and maintaining cloud-based computer software through providing on-line computer software updates for cloud-based telecommunications and computer data networks to interface with corresponding network administration devices; updating and maintaining cloud-based computer software through providing on-line computer software updates for cloud-based telecommunications and computer data networks to interface with corresponding network video devices; updating and maintaining cloud-based computer software through providing on-line computer software updates for cloud-

based telecommunications and computer data networks to interface with corresponding door access devices.

Date of Protection in Singapore: 17 July 2023

Classes: 09 10 11 16 35 37 40 41 42

Goods and/or Services:

Class 09

Scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signalling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; apparatus and instruments for accumulating and storing electricity; apparatus, instruments and cables for electricity; apparatus and instruments for regulating and converting electricity; apparatus and instruments for generating solar electricity; photovoltaic apparatus for generating electricity; photovoltaic panels; inverters; string inverters; hybrid inverters; photovoltaic inverters; energy regulators; energy control devices; chargers for electric batteries; batteries; battery packs; battery sets including battery boxes, battery packs and battery mounts; solar batteries; solar batteries for domestic use; solar batteries for industrial use; solar-powered rechargeable batteries; battery charging devices for motor vehicles; battery charging equipment; charging appliances for rechargeable equipment; electrical and electronic measuring and display systems for solar plants; solar modules; solar panel arrays; solar cells; apparatus and instruments for recording, transmitting, reproducing or processing sound, images or data; recorded and downloadable media, computer software, blank digital or analogue recording and storage media; calculating devices; computers and computer peripheral devices;

beam projectors, picture projectors, magnetic data carriers, data processing devices; computer programs and software of all kind, included in this class; software applications [apps] for electrical and communication devices; software and data processing programs; computers and computer software for the control and operation of photovoltaic systems including inverters; LEDs (light emitting diodes) and laser diodes, including organic LEDs and laser diodes; optical cables; fiber optical, optical sensors, light barriers, LED lamp modules, also for signalling purposes; displays using LED-technology; electric and electronic devices and apparatus for the operation, regulation and control of lighting facilities, luminaires and lamps for central building control systems and for the regulation and control of building installations, especially interface modules for such apparatus and devices as well as transformers and electronic ballasts; electric igniters and electronic starters for lamps and luminaires; miniature transformers, choking coils, electrical terminal connectors and contact elements including plugs, terminals, sleeves, commutators, electric breakers [switches]; parts of all the aforesaid goods included in this class.

Class 10

Surgical, medical, dental and veterinary apparatus and instruments; artificial limbs, eyes and teeth; orthopaedic articles; suture materials; therapeutic and assistive devices adapted for persons with disabilities; massage apparatus; apparatus, devices and articles for nursing infants; sexual activity apparatus, devices and articles; medical irradiation apparatus; parts of all the aforesaid goods included in this class.

Class 11

Apparatus and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilating, water supply and sanitary purposes; lighting apparatus, especially electric lamps and luminaires; lighting apparatus and lighting systems consisting thereof, especially on the basis of LEDs, including organic LEDs, LED-lamps and

LED-luminaires and their parts, included in this class; lighting lamps and apparatus and devices and systems consisting thereof as well as their parts, included in this class, on the basis of LEDs; LED modules, namely LED lighting systems, including organic LEDs, with light functions for lighting purposes; electric lights for Christmas trees; solar lamps and solar lights; solar thermal collectors [heating]; solar energy powered heating installations; solar water heaters; sunlight collecting apparatus for heating purposes; supports adapted for use with solar heating tubes; heat pumps; air to water heat pumps; heat accumulators; cosmetic irradiation apparatus, namely, sun-tanning apparatus for cosmetic purposes, ultra-violet sunbeds for cosmetic purposes, ultra-violet sunlamps for cosmetic purposes, ultra-violet ray lamps for cosmetic purposes, ultraviolet cosmetic puff sterilizers for household purposes, ultraviolet sterilizers, ultra-violet irradiators, combined lighting and ultraviolet apparatus, and ultra-violet apparatus for tanning the face; parts of all the aforesaid goods included in this class.

Class 16

Printed matter, especially journals, newspapers, books, catalogues and prospectuses.

Class 35

Advertising; business management, organization and administration; office functions; administrative processing and organizing of mail order services; administrative data processing; computerized file management; business data analysis services; cost price analysis; merchandise display services; advisory services relating to business planning; business management consulting with relation to strategy, marketing, production, personnel and retail sale matters; business management of projects for energy generation, energy storage and energy consumption optimization; assistance and consultancy services in the field of business management of companies in the energy sector; organizational consulting and business consulting of consumers in

relation to energy production and energy consumption consulting of consumers in relation to energy production and energy consumption optimization; provision of advertising space; business management; market assessment services; direct mail advertising; project studies for businesses; market analysis; preparation and presentation of audio visual displays for advertising purposes; data entry and data processing; pricing surveys; provision of sales analyses; business analysis of markets; market analysis; market research; provision of space on web-sites for advertising goods and services; operational business assistance to enterprises; arranging of presentations for business purposes; demonstration of goods; presentation of goods on communication media, for retail purposes; price analysis services; telephone order-taking services for others; distribution of advertising material; dissemination of advertisements; dissemination of advertising for others; rental of advertising space on the internet; arranging of business introductions; advertising by mail order; brochure distribution for advertising purposes; handbill distribution; administrative order processing; demonstration of goods; the bringing together, for the benefit of others, of a variety of goods [excluding the transport thereof], namely, lighting products, in particular lamps and luminaires, and corresponding electronic ballasts, apparatus for control, checking apparatus and detectors, as well as technical, cosmetic and medical irradiation and lighting apparatus, luminous decorative goods including electric lights for Christmas trees, clothing and footwear, enabling customers to conveniently view and purchase those goods via retail, wholesale and mail order retail services.

Class 37

Building construction, repair and installation of lighting systems and advisory service relating thereto; installation, repair and maintenance of solar systems, solar power plants and products in the field of solar energy, namely solar cells, solar cell units, solar panels, solar modules and solar connectors, solar power plants and power plant operated on the basis of fossile resources; installation, maintenance and repair

of solar energy systems, energy storage mechanisms and energy management equipment, including associated computer hardware; installation, maintenance and repair of battery charging equipment and devices.

Class 40

Generation of power; rental of equipment for power generation.

Class 41

Education; providing of training; entertainment; sporting and cultural activities; training; education information; business training services; provision of training courses; providing electronic, non-downloadable publications; arranging and conducting workshops; arranging and conducting conferences and seminars, as well as conducting training and educational information events, especially in the field of lighting technology, home automation and building automation, energy production, on issues of energy management and optimization of energy consumption.

Class 42

Scientific and technological services and research and design relating thereto; industrial analysis and research services; industrial analysis, industrial research and industrial design services; quality control and authentication services; design and development of computer hardware and computer software; technical planning of lighting facilities and consultancy relating thereto, architectural services and design of interior decor, especially in the field of lighting; providing non-downloadable software relating to planning and simulation programs for illumination applications, also via the Internet; design and development of photovoltaic systems; consulting services regarding the use and saving of energy; consulting services related to energy efficiency; technical consulting for consumers, companies and public administrations and institutions in the field of energy production, energy storage and energy consumption optimization; web portal design; hosting web portals.

Flexel

Goods and/or Services:

Class 09

Laboratory, biological pilot plant and biological production equipment specially adapted for use in pharmaceutical and biological product laboratories and testing facilities, namely, plastic bags adapted for use in holding biological material and related reagents; laboratory equipment, namely, liners of plastic for tanks used in holding biological material and related reagents; liquid handling apparatus of plastic specially adapted for laboratory use in pharmaceutical and biological product laboratories and testing facilities, namely, pre-assembled tubes, pipes, bags, containers and filters for pharmaceutical or biotechnology applications; disposable plastic bioreactors for cell culture; disposable plastic bioreactors for cultivating microorganisms; bioreactors and fermenters specially adapted for laboratory use in pharmaceutical and biological product laboratories and testing facilities, in particular having plastic bags, filters of plastic and sterile connector apparatus of plastic, being single-use apparatus for the pharmaceutical and biotechnological industries.

Class 10

Flexible medical plastic bags specially designed for biological, medical or pharmaceutical liquids; medical plastic bags designed to hold medical and pharmaceutical liquids; bags adapted for medical purposes, namely for cell cultivation; flexible medical pouches of plastic specially designed for storing and transporting biopharmaceutical liquids; flexible medical pouches of plastic specially designed for storing and transporting biopharmaceutical liquids having tubings and filters connected thereto.

Class 16

Packaging materials of plastic.

Class 20

Containers, not of metal [storage, transport], and closures and holders therefore, not of metal; containers, not of metal, for storage or transport; containers for biopharmaceutical liquids [storage, transport], non-metallic; packaging containers of plastic; all the aforementioned goods not for use in relation to fuels, waste or drinking water.

T100

Goods and/or Services:

Class 09

Headphone-microphone combinations; headphones; on-board computers; portable computers; wearable computers; video recordings; video game programs; interactive video software; computer game programs; software applications for use on mobile devices; games software; pre-recorded videos; discs (compact -) [audio-video]; DVDs; optical data media; electronic speed recorders; mileage recorders for vehicles; kilometre recorders; electronic temperature recorders, other than for medical use; electronic carbon dioxide recorders [other than for medical purposes]; wind measurement apparatus; advertising signboards [luminous]; advertising signboards [mechanical]; advertising boards [mechanical or luminous]; advertising display signs [mechanical or luminous]; downloadable podcasts; downloadable publications; downloadable graphics for mobile phones; film recordings; bags, cases and covers specially adapted for holding or carrying mobile telephones, tablets; laptop bags; binoculars; eyeglasses and sunglasses; eyeglass cases; eyeglass chains; eyeglass cords; mouth guards; cases for holding mouth guards; bicycle helmets; crash helmets; protective sports helmets; wetsuits.

Class 16

Printed matter; books; printed publications; magazines; journals; calendars; diaries; supplements; guides; guidebooks; books; newspapers; printed advertising materials; printed promotional materials; posters; handbooks [manuals]; autograph books; greeting cards; photographs; photograph albums; stationery; notepaper folders; paperweights; passes, other than encoded or magnetic; passport holders.

Class 18

Trunks and travelling bags; umbrellas, parasols and beach umbrellas; backpacks; bags; bags for travel; beach bags; garment bags for travel; gym bags; handbags; rucksacks; satchels; school bags; shopping bags; sport and leisure bags; toiletry bags, not fitted; tote bags; travelling bags; belts [leather shoulder -]; leather wallets; briefcases; business card cases; credit card holders; key cases [leatherware]; luggage tags; travel cases.

Class 25

Clothing; triathlon clothing; sportswear; athletic wear; exercise wear; triathlon training and racing apparel; clothing for cycling; clothing for running; clothing for swimming; warm up suits; track suits; sweat pants and sweat shirts; sweaters; sweatshirts; jumpers; jerseys; bodysuits; tops; shirts; athletic attire for the purposes of participating in triathlons; t-shirts; singlets; running tops; vests; rash vests; swimwear; swimming and racing suits; briefs; bathing suits; suits; trousers; pants; jeans; shorts; skirts; coats; dresses; jackets; rain jackets and outer clothing; underclothing; sleepwear; headgear; hats; caps; headbands; visors; footwear; sports shoes; cycling shoes; running shoes; socks; wrist bands; gloves; scarves; accessories in this class for the aforesaid goods.

Class 35

Administration of membership schemes; marketing and promotion of sporting and

recreational activities and events including triathlons; business administration of sporting and recreational activities, including triathlons; retail and wholesale services relating to triathlons; advertising, marketing, business management and office functions; advertising, including promotion of products and services of third parties through sponsoring arrangements and licence agreements relating to international sports' events; business management of sport personalities; agency services for promoting sport personalities; business administration and management of sporting and recreational activities and events including triathlons; production of promotional audio visual advertising films recorded on videotapes and video discs; production of sound recordings for marketing purposes; arranging of presentations for advertising purposes; arranging of competitions for advertising purposes; advertising management assistance to commercial enterprises; business management advice; commercial business management; business management of sporting venues [for others]; business management of sporting facilities [for others]; publicity services; agency services for arranging business introductions; negotiation and conclusion of commercial transactions for third parties; arranging of collective buying; commercial administration of the licensing of goods and services of others; consultancy and information services in relation to the aforementioned services.

Class 38

Broadcasting of educational, teaching and instructional programmes; broadcasting of entertainment programmes; broadcasting of programmes via the internet; broadcasting of sports programmes; broadcasting services; communications and telecommunications services; broadcasting and transmission of television programs and recordings; streaming of digital content via the internet and mobile networks; streaming of audio material on the internet; streaming of video material on the internet; streaming of live programmes via the internet and mobile networks; streaming of pre-recorded programmes via the internet and mobile networks; broadcasting of radio and internet programmes; electronic mail services; news

agency services; providing access to real-time data via the internet; providing telecommunication access to a multiple user network system allowing access to programmes, digital content and games via the internet and mobile networks; providing telecommunications connections to a global network; provision of access to interactive computer databases in the field of sports; radio broadcasting; receiving and exchanging of information, messages, images and data; transferring and disseminating information and data via computer networks and the internet; secure transmission of data, sound or images; satellite transmission of data, sounds and images; information services relating to broadcasting.

Class 41

Sporting services; arranging and conducting athletic competitions, races and activities consisting of running, swimming and biking; conducting triathlons; organising of sporting events, competitions and sporting tournaments; event management services being organisation of educational, entertainment, sporting or cultural events; provision and management of sporting events; provision and management of education and training events; sports education and training services; timing of sports events; production of sporting events; production of television, radio and video programs and on-line information relating to sporting events including triathlons; instruction in sporting activities; provision of sporting facilities; entertainment, sporting and cultural activities; publication of printed matter and electronic media content regarding sporting events including triathlons; providing information, including online, regarding sporting and recreational activities and events including triathlons; ticket information services for sporting events; sound recording and video entertainment services; production of video and/or sound recordings; editing or recording of sounds and images; rental of motion pictures and of sound recordings; production of entertainment in the form of sound recordings; video editing; video game entertainment services; providing on-line videos, not downloadable; arranging of seminars relating to advertising; arranging of

conferences relating to advertising; training courses in strategic planning relating to advertising, promotion, marketing and business; seminars; conference services; betting services; hospitality services (entertainment); providing online electronic publications; provision of information relating to sport online from a computer database on the internet; internet games (non downloadable); production of television programmes; providing data for educational or entertainment purposes and in connection with sporting and cultural activities; electronic games services provided on line by means of the internet; interactive internet and television games and gaming; provision of non-downloadable games on the Internet; internet gaming services; information, advisory and consultancy services relating to all of the aforesaid services.

Class 09

Computers; quantum computers; computer hardware and software; computer hardware and software for information technology analysis and data management; computer hardware and software for application development; computer hardware and software for cloud computing; computer hardware and software for cognitive computing; computer hardware and software for artificial intelligence; computer hardware and software for blockchain technology; computer hardware and software for quantum computing and quantum programming; computer hardware, namely, magnetic tape units (data processing), magnetic tapes, printed circuits, integrated circuits, computer keyboards, compact disks (audio-video), optical disks, couplers (data processing), diskettes, magnetic data carriers; computer hardware, namely, video screens, scanners (data processing equipment), computer printers, interfaces (data processing), readers (data processing), software (recorded programs), microprocessors, modems, monitors (hardware), computers, computer memories,

computer peripherals; computer adapters; computer components; data processing equipment; data processing equipment for data and information management; semiconductors; machine-readable electronic data media; magnetic disks; disk drives; tape recorders; calculating machines; cash registers; facsimile machines; video recorders; videotapes; electric cells and electric batteries; computer chips; boards for integrated circuits; computer accessories, namely, computer communication servers; computer carrying cases; computer interface boards; computer cables and computer cable parts; fax modem cards for computers; computer accessories, namely, screen filters, mouse pads, radio pagers, joysticks; electric converters, namely, digital-to-analog, analog-to-digital and step-by-step voltage switches; computer mice; integrated circuit cards and smart cards, adapters for integrated circuits and adapters for smart cards; readers for integrated circuit cards and smart cards; microcomputers; electrical power supplies; projectors (projection apparatus); remote controls for computers; inverters, surge protectors and uninterruptible power supplies; point-of-sale terminals (payment terminals); computer servers; computer storage devices, namely high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunication network; recorded and downloadable computer programs and software; video game software; operating system software and programs; software used for accessing a global computer network; document management software; database management software; software used for locating, retrieving and receiving text, electronic documents, graphics and audiovisual information on enterprise-wide internal computer networks and local and wide-area global computer networks; software used for software development and web authoring and user manuals in electronic format sold as a unit with these products; computer software for use in controlling the operation and execution of computer systems, programs, and computer networks; computer software for use in connecting disparate computer networks and systems, computer servers and storage devices; computer programs for linking computers together and for enabling computer activities across a global

computer network; computer software for managing systems, software and processes that exist within an information technology environment; computer systems combining computer hardware and software for use in management and analysis of data and instruction manuals in electronic format sold with these products; cloud computing systems, namely networks integrating computer hardware and software for dynamic provisioning, virtualization and consumption metering of computer resources; recorded and downloadable cloud computing software for deploying and managing virtual machines on a cloud computing platform; computer systems, namely, computer hardware and computer software for developing and integrating artificial intelligence, namely, machine learning, deep learning and natural language processing which are capable of collecting, organizing and analyzing data; computer systems, namely, computer hardware and computer software for integrating Natural Language Processing (NLP), Computational Linguistics (CL), Information Retrieval (IR) and Machine Learning (ML) which is capable of understanding general human queries and formulating responses; software for developing, building and operating blockchain applications; computer hardware and computer software for developing and testing quantum algorithms; documentation and instruction manuals recorded on machine-readable electronic data media and relating to computers or computer programs; electronic publications, downloadable; electronic publications on computer media, namely, user manuals, guide books, brochures, information sheets, written presentations and teaching materials in the field of computing, computer networks, computer storage, computer operating systems, information technology, database management, cloud computing, artificial intelligence, blockchain technology and quantum computing; computer hardware and software for implementing generative Artificial Intelligence solutions; computer hardware and computer software for helping companies to understand the potential of generative Artificial Intelligence; computer hardware and computer software for managing and expanding generative Artificial Intelligence projects for other companies; computer hardware and computer software for integrating generative

Artificial Intelligence in operations.

Class 35

Advertising; sales promotion services (for third parties); commercial business management and advice regarding commercial business management; business information; distribution of prospectuses; distribution of samples; arranging newspaper subscriptions for third parties; accounting; document reproduction; systematization of data in a central file; organization of exhibitions for commercial or advertising purposes; business management consulting services and business consulting services; business development service; analysis of market research data and statistics; electronic data processing; computer data processing services for artificial intelligence; computer data processing services for cognitive computing; computer data processing services for cloud computing; computer data processing services for blockchain technology; computer data processing services for data management; computer data processing services for quantum computing and quantum programming; arranging and conducting trade show exhibitions in the field of computers, computer services, information technology, artificial intelligence, cloud computing, blockchain technology, quantum computing, database management and electronic business transactions via a global computer network; business consulting services for companies regarding artificial intelligence; business consulting services for companies regarding computer systems that integrate Natural Language Processing (NLP), Computational Linguistics (CL), Information Retrieval (IR) and Machine Learning (ML) functions and capable of understanding general human queries and formulating responses; business consulting services for companies relating to cloud computing; business consulting services for companies regarding blockchain technology; business consulting services for companies regarding quantum computing, quantum programming and for developing and testing quantum algorithms; business consulting services for companies regarding information technology; analyzing and compiling business data; systemization of data in

computer databases; services for business management and consultancy for implementing generative Artificial Intelligence solutions; market research and analysis services for helping companies to understand the potential of generative Artificial Intelligence; advertising and promotional services for companies providing generative Artificial Intelligence solutions; business administration services for managing and expanding generative Artificial Intelligence projects for other companies; consultancy and advisory services and in the field of commercial strategies for integrating generative Artificial Intelligence in operations.

Class 42

Computer programming; Software as a service (SaaS) services featuring software for data management; software as a service (SaaS) services featuring software for cloud computing; software as a service (SaaS) services featuring software for artificial intelligence; software as a service (SaaS) services featuring software for cognitive computing; software as a service (SaaS) services featuring software for blockchain technology; software as a service (SaaS) services featuring software for quantum computing and quantum programming; software as a service (SaaS) services featuring software for constructing, analyzing and running quantum programs and quantum algorithms; software as a service (SaaS) services featuring software for developing and testing quantum algorithms; computer programming and computer consulting services for artificial intelligence; computer programming and computer consulting services for cognitive computing; computer programming and computer consulting services for information management; computer programming and computer consulting services for data management; computer programming and computer consulting services for cloud computing; computer programming and computer consulting services for blockchain technology; computer programming and computer consulting services for quantum computing; computer programming and computer consulting services for software as a service (SaaS); design, installation, updating and maintenance of software; computer software and hardware design for

the benefit of third parties, and professional advisory services in the field of computers; technical support services, namely, troubleshooting of computer program and software problems; computer services, namely, design, creation and maintenance of websites for third parties; analysis of computer systems, integration of computer networks and databases, computer programming for third parties, all intended for commercial interactions on global computer networks; design of systems for interconnection of computers and software, namely, electronic connection of computers and software to each other; computer software and hardware testing services (quality and technical controls); technical project studies in the field of computer hardware and software; consultancy services in the field of computer hardware, namely consultancy regarding computing research and development; computer advice and assistance concerning Internet use; rental of computers and software; scientific and industrial research, namely research and development of new products, biological research, bacteriological research, chemical research, cosmetology research, mechanical research, geological research, technological research, pharmaceutical research, scientific research for medical purposes; information technology consulting; computer system integration services; consulting services in the field of design, selection, implementation and use of computer hardware and software systems for third parties; technical support services, namely, troubleshooting computer program problems; computer system design services for third parties; design of systems for interconnection of computers and computer programs, namely, integration of computer systems and computer networks; computer program and computer hardware testing services, namely testing of software, computers and servers to ensure proper functioning thereof; cloud computing services, namely, integrated computer hardware and network software services for dynamic provisioning, virtualization, and consumption metering of computer resources; providing virtual computer systems and virtual computer environments through cloud computing; design and development of software for cloud storage of data; cloud computing hosting provider services; electronic storage

of electronic data and data recovery; data security service; computer support services with respect to computer programs provided by computer specialists; design of computer hardware for computer networks; design and development of computers; scientific research and development services in the field of generative Artificial Intelligence technology; technology advisory services for companies seeking to make use of generative Artificial Intelligence in their activities; developing software for creating and customizing generative Artificial Intelligence solutions; planning and implementing technical projects for companies developing their skills with respect to generative artificial intelligence; designing and developing computer hardware and software for generative artificial intelligence applications; computer monitoring services for data/content quality relating to the use of generative Artificial Intelligence; computer quality testing services of the generative Artificial Intelligence solutions of others; technical support services, namely diagnosing computer hardware problems.

LIFETEC

Goods and/or Services:

Class 07

Lifting tackle [machines] for lifting or for deformation of vehicles' hoods to provide impact protection or reduction of impact in connection with vehicle collisions; gas operated power generators for use in connection with the inflation of air bags in vehicles; cutting tools being power-operated for cutting cables and pipes in vehicles to avoid crashes or after vehicle crashes to avoid or reduce further damage to property or injuries to drivers and/or passengers; electrical drives [motors] for safety belts; gas operated power generators for inflation of air bags; ignition cables for motor vehicle engines and electric vehicle engines.

Class 09

Software for vehicle braking and vehicle braking systems; software for triggering airbag systems in vehicles; infrared sensors; switches for vehicle steering wheels; software for vehicle safety; software for analysis and processing of information for testing and research of vehicle braking and vehicles braking systems; software for analysis and processing of information for use in seatbelt systems; electrical and electronic switches for breaking or closing electrical circuits stations for connecting power generating devices or electrical machines to the power lines in networks for transmission and distribution of electrical power; software for operating vision and night vision systems, radar systems, seatbelt systems, airbag systems, anti-whiplash systems and pedestrian protection systems in vehicles; software for analysis and processing of information for use in airbag systems; electrical and electronic switches for breaking or closing electrical circuits in motor vehicles, electric vehicles, wind-mills and other electrical power generating plants; software for analysis and processing of information for use in vehicle braking and vehicle braking systems; software for analysis and processing of information for testing and research of vehicle anti-whiplash systems; apparatus and instruments for technical research in the field of automotive safety; computer software in the field for automotive safety; software for analysis and processing of information for testing and research of vehicle seatbelt systems; software for triggering seatbelt systems in vehicles;

software for analysis and processing of information for testing and research of vehicle airbag systems; software for triggering anti-whiplash systems in vehicles; software for analysis and processing of information for use in anti-whiplash systems; computer software; computer software in the field of vehicle safety and vehicle passenger safety; software for triggering brakes in vehicles; software for analysis and processing of information for testing and research of vehicle pedestrian protection systems; computer hardware modules and software for analyzing the received signals and for determining actions needed to be taken by actuating systems within the vehicle, including by warning systems or other information display systems, braking systems, speed reduction systems and dipped headlights; electrical and electronic sensors for observation of vehicle drivers' status and condition; electrical and electronic switches for disconnecting cables and pipes in motor vehicles, electric vehicles, wind-mills and other electrical power generating plants; electric current breakers for use in motor vehicles, electric vehicles, windmills and electrical power generating plants and circuit breakers for used in power stations to connect power generating devices or electrical machines with power lines in networks for transmission and distribution of electrical power; electronic sensors and detectors for use in controlling the actuation and operation of automotive safety apparatus and equipment and parts and fittings for all the aforesaid goods.

Class 12

Brakes for vehicles; brakes for emergency braking of vehicles; automotive safety apparatus and equipment for the protection of vehicle occupants, namely, air bags [safety devices for automobiles] and safety belts for automobile seats; vehicle seats; vehicle brake pads; vehicle brake parts made of materials having frictional properties; air bags, safety belts and equipment for use with air bags and safety belts; steering wheels; braking systems for vehicles; brake components for vehicles; brake segments for vehicles; safety seats for children; parts for braking systems for vehicles; vehicle brake plates; vehicle safety restraints; gas igniters being parts of

seat belt retractors, gas igniters being parts of vehicle brakes and vehicle braking systems, gas igniters being parts of vehicle safety apparatus, gas igniters being parts of airbags for vehicles, gas igniters being parts of actively pressurizing and/or expanding structural parts or structural components of vehicles and gas igniters being parts of vehicle safety actuators namely hood lifters and cutters for vehicles.

Class 13

Pyrotechnic actuators; pyrotechnic gas generators; pyrotechnic gas generators and pyrotechnic feeders being parts of pyrotechnic gas generators.

Class 42

Preparation of reports relating to automotive safety testing; research and development services in the field of automotive safety; research, development and design services relating to advanced driver assistance systems, namely, hardware and software for vehicle to vehicle and vehicle to roadway infrastructure communication; research, development and design services relating to vehicle safety, vehicle braking and vehicle braking systems, systems for assisting and alerting vehicle drivers, vision and night vision systems for vehicles, radar systems for vehicles, seatbelt systems for vehicles, airbag systems for vehicles, anti-whiplash systems for vehicles and pedestrian protection systems for vehicles; safety technology services relating to land vehicles; technological analysis of vehicle braking and vehicle braking systems, vision and night vision systems for vehicles, radar systems for vehicles, seatbelt systems for vehicles, airbag systems for vehicles, anti-whiplash systems for vehicles and pedestrian protection systems for vehicles; analyses in the form of technical reports relating to vehicle safety and vehicle passenger safety; product testing services in the field of automotive safety; testing and inspection of vehicle braking and vehicle braking systems, vision and night vision systems for vehicles, radar systems for vehicles, seatbelt systems for vehicles, airbag systems for vehicles, anti-whiplash systems for vehicles and pedestrian

protection systems for vehicles; product testing and tests concerning vehicle safety and vehicle passenger safety; research, development and design services relating to advanced driver assistance systems, namely, embedded automotive hardware and software for monitoring, providing and analyzing position, and predictive position, direction and time information for vehicles; testing of and development of systems for self-driving vehicles; safety technological services relating to vehicle braking and vehicle braking systems, vision and night vision systems for vehicles, radar systems for vehicles, seatbelt systems for vehicles, airbag systems for vehicles, anti-whiplash systems for vehicles and pedestrian protection systems for vehicles; crash testing services in the field of automotive safety; consultancy, advisory and information services concerning the aforementioned services; crash testing services concerning vehicle safety and vehicle passenger safety; testing of self-driving vehicles; preparation of reports relating to automotive safety research and testing; information, advisory and consultancy services relating to the design and development of vehicle brakes and vehicle braking systems, vision and night vision systems for vehicles, radar systems for vehicles, seatbelt systems for vehicles, airbag systems for vehicles, anti-whiplash systems for vehicles and pedestrian protection systems for vehicles; consultancy, advisory and information services in the field of automotive safety research and testing; preparation of engineering reports relating to vehicle brakes and vehicle braking systems, vision and night vision systems for vehicles, radar systems for vehicles, seatbelt systems for vehicles, airbag systems for vehicles, anti-whiplash systems for vehicles and pedestrian protection systems for vehicles.

ABBEXA

Goods and/or Services:

Class 01

Chemicals for use in industry, science and photography, as well as in agriculture, horticulture and forestry; chromatography chemicals; tanning substances; unprocessed artificial resins; manures; compositions and preparations used in fire extinguishers; preparations for tempering and soldering; adhesives; cell line and biological tissue cultures for scientific or research purposes; loading controls in the nature of loading control antibodies and proteins, tags and markers, namely, tag and marker antibodies and proteins; tagged antibodies; activator enzymes; amino acids; assay preparations for mycotoxins; biochemical precursors/preparations as well as diagnostic reagents and preparations including chemical buffers and buffer solutions, dyes, media for cell and tissue culture; biomolecule labelling kits consisting of chemical substances; chemical components for radio-labelling of proteins; chemical emulsifiers/additives/polymers/preservatives; chemical reagents for use in genetic research; chemicals for use in immuno-assay testing; chemicals for use in the purification of proteins for in vitro use; chemicals used in industry; colorimetric or fluorescent chemicals for nucleotides and proteins, chemicals for the purification of fluorescent nucleotides; diagnostic preparations; enzyme substrates/stabilizers; enzymes for labelling/measuring protein fractions; enzymes for use in the continuous homogenous isothermal amplifications of specific DNA/RNA templates; lipids; monoclonal antibodies and reagents; peptide/protein substrates; polypeptides/oligopeptides/peptides; protein plastics; proteins [raw material]; proteins for binding antibodies and for use in recombinant DNA technology; raw proteins; reagents in kit form for conducting enzyme-linked immunosorbent assays (ELISA); regulatory proteins; biological preparations for use as assay samples for scientific purposes; chemical substances and reagents for laboratory use; biological and chemical preparations for use in laboratory analysis; chemical substances and reagents including those for use in genetic probe assay kits all for laboratory,

technical, medical, diagnostic, scientific, manufacturing, industrial and/or research purposes.

Class 05

Medical and veterinary diagnostic reagents and assays; pharmaceuticals, medical and veterinary preparations; disinfectants; preparations for destroying vermin; fungicides; herbicides; encoded particles for single- and multi-plexed analysis, detection, quantification and/or identification of proteins, nucleic acids and small molecules for medical, diagnostic, clinical or veterinary use; diagnostic kits consisting primarily of buffer or powder form reagents in vials for medical, diagnostic, clinical or veterinary use; assays for monitoring, identifying, analysing, detecting and/or quantifying proteins, nucleic acids and small molecules for medical, diagnostic, clinical or veterinary use; diagnostic kits consisting primarily of reagents, particles and buffers sold as a unit with vials for monitoring, identifying, detecting, and/or quantifying proteins, nucleic acids and small molecules for medical, diagnostic, clinical or veterinary use; chemical diagnostic reagents for medical use; RNA synthesis inhibitors; stem cells; rapid test strips for medical, diagnostic, clinical or veterinary use; medical diagnostic reagents and assays for testing of body fluids.

Class 09

Vials for laboratory use; laboratory apparatus, instruments and equipment including mixers, centrifuges, incubators, microplate readers and pipettes; laboratory glassware and plasticware; clothing for laboratory use; computer software for detecting, identifying, reading, quantifying, decoding, tracking and/or analyzing proteins, cells, molecules or encoded particles, and for processing, managing, tracking displaying, and creating reports of generated data; computer software for scientific, laboratory, clinical or medical analysis of proteins, cells, molecules or encoded particles.

Class 35

Online and mail order retail and wholesale services and advertisement in relation to proteins, antibodies and laboratory reagents including monoclonal antibodies and reagents, proteins for binding antibodies and for use in recombinant DNA technology, protein plastics, proteins [raw material], raw proteins, peptide/protein substrates, polypeptides/oligopeptides/peptides, regulatory proteins, protein loading controls, enzymes, enzyme substrates/stabilizers, amino acids, lipids and RNA synthesis inhibitors; online and mail order retail and wholesale services and advertisement in relation to biochemical precursors/preparations as well as research and/or diagnostic reagents and preparations including chemical buffers and buffer solutions, dyes, media for cell and tissue culture; online and mail order retail and wholesale services and advertisement in relation to biomolecule labelling kits, assay preparations for mycotoxins, chemical components for radio-labelling of proteins, chemical emulsifiers/additives/polymers, chemical preparations for use in DNA analysis, chemical reagents for use in genetic research, chemicals for use in immuno-assay testing, chemicals for use in the purification of proteins for in vitro use, chemicals used in industry, chromatography chemicals and colorimetric or fluorescent chemicals or labels for nucleotides and proteins; online and mail order retail and wholesale services and advertisement in relation to diagnostic preparations, enzymes for labelling/measuring protein fractions, enzymes for use in the continuous homogenous isothermal amplifications of specific DNA/RNA templates, substances and reagents for laboratory use, substances including those for use in genetic probe assay kits; online and mail order retail and wholesale services and advertisement in relation to conjugated, labelled, tagged or marked antibodies and proteins; online and mail order retail and wholesale services and advertisement in relation to scientific specimens, laboratory mixers/filters/centrifuges/pipettes and reagents in kit form for conducting enzyme-linked immunosorbent assays (ELISA).

Class 41

Organising and conducting meetings, seminars, conferences, congresses,

symposiums, exhibitions, competitions and workshops relating to research, medical and scientific topics, particularly those concerning antibodies, proteins and scientific protocols, for educational and training purposes, including in the field of advertising, commercial, trade and business; publication of scientific information.

Class 42

Scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software; providing scientific and medical research information, technical support and information services relating to antibodies, peptides, enzymes, lysates, vectors, lipids, assay kits, reagents, stem cells, loading controls, tags and markers, cell line arrays, cell line slides, tissue arrays, and tissue slides for scientific and medical research purposes; providing scientific and medical research information, technical support and information services on immune response and the selection, production, purification, application and protocols relating to use, structure and activities of antibodies; online computer services in the nature of providing a search engine for obtaining data, namely, searching, retrieving, and providing information on antibodies and research topics pertaining to antibodies on a global computer network; biological, biotechnological, genetic, biomedical, biochemical, chemical, bacteriological, scientific, pharmaceutical, medical and clinical research and development and research services; research laboratories.

Class 44

Medical services; healthcare services; clinical services; veterinary services; agriculture, horticulture and forestry services; hygienic and beauty care for human beings and animals; medical, healthcare, clinical, veterinary, agricultural, horticultural and forestry consultancy, advice, professional information and information services; providing medical, healthcare, clinical, veterinary, agricultural, horticultural and forestry services, information and reports online, by phone, email or in person;

medical, healthcare, clinical and veterinary consultation, screening, imaging, analysis, testing, diagnostic and treatment services; information, advisory and consultancy services relating to veterinary pharmaceuticals and medical instruments and problems related thereto; medical, clinical, healthcare and veterinary assistance, nursing and counselling services; information, advisory and consultancy services relating to the use of chemicals, fertilisers and manures used in agriculture, horticulture and forestry; information, advisory and consultancy services relating to the use of non-chemical treatments for sustainable agriculture, horticulture and forestry; information, advisory and consultancy services relating to weed, pest and vermin control and extermination in agriculture, horticulture and forestry.

Class 09

Parts and accessories for telecommunication machines and apparatus; earphones; personal digital assistants; parts and accessories for personal digital assistants; covers for personal digital assistants; cases for personal digital assistants; straps for personal digital assistants; spectacles [eyeglasses and goggles]; parts and accessories for spectacles; sunglasses; computer cases; cases for smartphones; flame-retardant balaclavas; balaclavas for protection against accidents, irradiation and fire; humanoid robots for event performances, having communication and learning functions for assisting and entertaining people, and parts and fittings for the aforesaid robots, all other than for industrial, medical, or playing purposes; humanoid robots for entertainment, having communication and learning functions for assisting and entertaining people, and parts and fittings for the aforesaid robots, all other than for industrial, medical, or playing purposes; laboratory robots and their parts and

fittings; humanoid robots for information retrieval support, having communication and learning functions, and parts and fittings for the aforesaid robots, all other than for industrial, medical, or playing purposes; humanoid robots for customer service support, having communication and learning functions, and parts and fittings for the aforesaid robots, all other than for industrial, medical, or playing purposes; teaching robots and their parts and fittings; security surveillance robots and their parts and fittings; laboratory apparatus and instruments; photographic apparatus and instruments; cinematographic apparatus and instruments; optical machines and apparatus; measuring or testing machines and instruments; power distribution or control machines and apparatus; rotary converters; phase modifiers; solar batteries; electrical cells; electric or magnetic meters and testers; electric wires and cables; telecommunication machines and apparatus; personal digital assistants in the shape of a watch; smartphones; computer programs; computer software applications, downloadable; game programs for arcade video game machines; game programs for home video game machines; electronic circuits and CD-ROMs recorded with programs for hand-held games with liquid crystal displays; phonograph records; downloadable music files; downloadable image files; recorded video discs and video tapes; electronic publications.

Class 14

Brooches [jewellery]; key ring; necklaces; rings [jewellery]; pierced earrings; earrings; bangles; bracelets; precious metals; unwrought and semi-wrought precious stones and their imitations; key holders; jewelry boxes; prize cups of precious metals; commemorative shields of precious metal; personal ornaments; shoe ornaments of precious metal; clocks.

Class 16

Cardboard gift boxes; gift boxes of paper; plastic or paper bags for merchandise packaging [envelopes, pouches]; industrial packaging containers of paper; bags

[pouches] of plastics, for packaging; food wrapping plastic film for household use; garbage bags of paper for household purposes; garbage bags of plastic; paper patterns; tailors' chalk; banners of paper; paper bunting; hygienic hand towels of paper; paper washcloths; paper serviettes; paper handtowels; hand towels of paper; assorted pieces of colored paper [craft paper]; transfers [decalcomanias]; origami folding paper; cutout pictures of paper; chiyogami [assorted pieces of Japanese paper with colorful patterns printed thereon]; coloring books; paper and cardboard; stationery; printed matter; paintings and calligraphic works; photographs; printed materials for religious or temple purposes, other than toys.

Class 18

Pouches; wallets; card case; shoulder bag; tote bags; backpacks; rucksacks; handbags; reusable shopping bags; horseshoes; leathercloth; leather and fur, unworked or semi-worked; industrial packaging containers of leather; clothing for domestic pets; luggage; vanity cases sold empty; umbrellas; walking sticks; canes; metal parts of canes and walking sticks; handles for canes and walking sticks; saddlery.

Class 25

Headwear; knitted caps; balaclavas; caps; hats; gloves and mittens [clothing]; cravats; mufflers [clothing]; kerchiefs [clothing]; socks and stockings other than special sportswear; down jackets; down vests; blousons; jackets; coats; T-shirts; tank tops; sleeveless shirts; shirts; blouses; hoodies; sweatshirts; sweat jackets; sweatpants; sweaters; knitwear [clothing]; cardigans; vest tops; jerseys [clothing]; denims; denim pants; long pants; shorts; skirts; long skirts; one-piece dress; shoes; sneakers; pumps [footwear]; sandals; boots, other than boots for sports; booties; mountaineering boots; leather shoes; clothing; garters; sock suspenders; braces [suspenders] for clothing; waistbands; belts [clothing]; footwear [other than special footwear for sports]; protective members for footwear; masquerade costumes;

special footwear for sports; clothes for sports, other than clothes for water sports.

Class 28

Golf bags; covers for golf clubs; toy robots and their parts and fittings; robots for play or games and their parts and fittings; clothes for Japanese traditional dolls; golf equipment; amusement machines and apparatus for use in amusement parks; toys for domestic pets; toys; dolls; Go board games; shogi games [Japanese chess]; uta-garuta [Japanese playing cards]; dice; sugoroku board games; dice cups; Chinese checkers games; chess games; checkers pieces; conjuring apparatus; dominoes; playing cards; Japanese playing cards (hanafuda); Mah jong games; game machines and apparatus; billiard equipment; sports equipment; fishing tackle.

Class 35

Advertising and publicity services; promoting the goods and services of others through the administration of sales and promotional incentive schemes involving trading stamps; business management analysis or business consultancy; business management services; marketing research or analysis; providing information concerning commercial sales; job placement services; auctioneering; import and export agencies; arranging newspaper subscriptions for others; shorthand; transcription; document copying; office functions, namely filing, in particular documents or magnetic tapes; compilation of information into computer databases; providing business assistance to others in the operation of data processing; reception services for visitors in buildings [office functions]; rental of publicity material; rental of photocopying machines; providing commercial information and advice for consumers in the choice of products and services; providing employment information; providing information about newspaper articles being news clipping services; retail services or wholesale services for telecommunication machines and apparatus and their parts and fittings, earphones; retail services or wholesale services for personal digital assistants, parts and accessories for personal digital assistants, covers for

personal digital assistants, cases for personal digital assistants, straps for personal digital assistants and cases for smartphones; retail services or wholesale services for parts and accessories for spectacles and sunglasses; retail services or wholesale services for computer cases; retail services or wholesale services for key ring and key holders; retail services or wholesale services for pierced earrings; retail services or wholesale services for brooches [jewellery], necklaces, rings [jewellery], earrings, bangles and bracelets; retail services or wholesale services for personal ornaments; retail services or wholesale services for cardboard gift boxes and gift boxes of paper; retail services or wholesale services for plastic or paper bags for merchandise packaging [envelopes, pouches]; retail services or wholesale services for pouches; retail services or wholesale services for wallets, card case, shoulder bag, tote bags, backpacks, rucksacks, handbags and shopping bags; retail services or wholesale services for horseshoes; retail services or wholesale services for leathercloth; retail services or wholesale services for leather and fur, unworked or semi-worked; retail services or wholesale services for industrial packaging containers of leather; retail services or wholesale services for clothing for domestic pets; retail services or wholesale services for vanity cases sold empty; retail services or wholesale services for umbrellas; retail services or wholesale services for walking sticks, canes, metal parts of canes and walking sticks and handles for canes and walking sticks; retail services or wholesale services for saddlery; retail services or wholesale services for headwear, knitted caps, balaclavas, caps and hats; retail services or wholesale services for gloves and mittens [clothing], cravats, mufflers [clothing], kerchiefs [clothing] and socks and stockings other than special sportswear; retail services or wholesale services for down jackets, down vests, blousons, jackets, coats, blouses, sweatshirts, sweat jackets, sweatpants, sweaters, cardigans, vest tops, denim pants, skirts, long skirts, one-piece dress and long pants; retail services or wholesale services for T-shirts, tank tops, sleeveless shirts and shirts; retail services or wholesale services for hoodies; retail services or wholesale services for knitwear [clothing], jerseys [clothing] and denims; retail services or wholesale services for

shorts; retail services or wholesale services for sandals; retail services or wholesale services for shoes, sneakers, pumps [footwear], boots other than boots for sports, booties and leather shoes; retail services or wholesale services for garters, sock suspenders, braces [suspenders] for clothing, waistbands and belts [clothing]; retail services or wholesale services for protective members for footwear; retail services or wholesale services for masquerade costumes; retail services or wholesale services for special footwear for sports; retail services or wholesale services for clothes for sports, other than clothes for water sports; retail services or wholesale services for golf bags, covers for golf clubs and golf equipment; retail services or wholesale services for sports equipment; retail services or wholesale services for flame-retardant balaclavas; retail services or wholesale services for balaclavas for protection against accidents, irradiation and fire; retail services or wholesale services for event performance robots and their parts and fittings other than for industrial, medical or playing purposes, entertainment robots and their parts and fittings other than for industrial, medical or playing purposes, information retrieval support robots and their parts and fittings other than for industrial, medical or playing purposes, customer service support robots and their parts and fittings other than for industrial, medical or playing purposes, teaching robots and their parts and fittings; retail services or wholesale services for security surveillance robots and their parts and fittings; retail services or wholesale services for laboratory robots and their parts and fittings; retail services or wholesale services for toy robots and their parts and fittings; retail services or wholesale services for industrial game robots and their parts and fittings; retail services or wholesale services for clothes for Japanese traditional dolls; retail services or wholesale services for woven fabrics and bedding; retail services or wholesale services for clothing; retail services or wholesale services for footwear, other than special footwear for sports; retail services or wholesale services for bags and pouches; retail services or wholesale services for personal articles; retail services or wholesale services for electrical machinery and apparatus; retail services or wholesale services for pharmaceutical, veterinary and sanitary preparations and

medical supplies; retail services or wholesale services for cosmetics, toiletries, dentifrices, soaps and detergents; retail services or wholesale services for printed matter; retail services or wholesale services for paper and stationery; retail services or wholesale services for sports goods; retail services or wholesale services for toys, dolls, game machines and apparatus; retail services or wholesale services for semi-wrought precious stones and their imitations; retail services or wholesale services for clocks, watches and spectacles [eyeglasses and goggles].
