General Information

1. Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules. It is published weekly on Fridays, unless otherwise directed by the Registrar.

2. Notice of Opposition

Any person who wishes to oppose any of the marks published may within two months from its publication date file a Notice of Opposition on Form TM11. Reasonable notice should be given to the Applicant beforehand, to provide the Applicant an opportunity to withdraw the application. Failure to give such notice will be taken into account when considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

3. Practice Directions and Circulars

The Registry has ceased our practice of publishing Practice Directions and Circulars in the Trade Marks Journal. Practice Directions and Circulars are available on our website at <https://www.ipos.gov.sg>. If you wish to receive our updates via email, you may subscribe to our mailing list by sending an email to news@ipos.gov.sg and letting us know the subject matter of interest (e.g. Trade Marks).

4. Information Contained in this Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

Class 09

Computer hardware; software development tools; software for use as an application programming interface (API); application programming interface (API) for use in building software applications; application programming interface (API) for software which facilitates online services for data retrieval, upload, download, access and management; software for modifying and enabling transmission of images, audio, audio visual and video content and data; software for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; computer software for sending and receiving electronic messages, alerts, notifications and reminders; computer peripheral devices; virtual, augmented, and mixed reality software for use in enabling computers, mobile devices, to provide virtual reality experiences; virtual reality software; augmented reality software; mixed reality software; software for integrating electronic data with real world environments for the purposes of entertainment, education, communicating; software for converting natural language into machine-executable commands; software, namely, an interpretive interface for facilitating interaction between humans and machines;

personal assistant software; social assistant software; software for planning activities with other users, making recommendations; software for social and destination mapping; software for ordering and/or purchasing goods and services; software for wireless content, data and information delivery; software for creating, managing and accessing groups within virtual communities; virtual reality computer hardware; virtual reality software for use in enabling computers, mobile devices, to provide virtual reality experiences; wearable peripherals for computers, mobile devices namely, configurable head-mounted displays; augmented reality computer hardware; virtual reality headsets; augmented reality headsets; virtual reality glasses; augmented reality glasses; virtual reality software for navigating a virtual reality environment; augmented reality software for navigating an augmented reality environment; augmented reality software for use in enabling computers, mobile devices, to provide augmented reality experiences; interactive entertainment software; gesture recognition software; motion tracking sensors for virtual reality technology; motion tracking sensors for augmented reality technology; computer software for controlling the operation of audio and video devices; digital media streaming devices; headphones; video display software; video display hardware, namely, video drivers for video eyewear; virtual reality software for object tracking, motion control and content visualization; augmented reality software for object tracking, motion control and content visualization; virtual reality software for users to experience virtual reality visualization, manipulation and immersion; augmented reality software for users to experience augmented reality visualization, manipulation and immersion; virtual reality software for operating virtual reality headsets; augmented reality software for operating augmented reality headsets; virtual reality software for interactive entertainment; augmented reality software for interactive entertainment; software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; wearable computing devices comprised primarily of software and display screens for connection to computers, mobile devices, and in order to enable virtual reality and augmented reality world

experiences; goggles for enabling virtual reality, augmented reality world experiences; software for use in creating and designing virtual reality and augmented reality software; application programming interface (API) for computer software for developing and creating virtual reality and augmented reality experiences; software and firmware for operating system programs; computer operating systems; software for tracking motion in, visualizing, manipulating, viewing, and displaying augmented and virtual reality experiences; software, firmware and hardware for use in visual, voice, audio, motion, eye and gesture tracking and recognition; hardware and software for operating sensor devices; electronic sensor devices, cameras, projectors, and microphones for gesture, facial, and voice detection, capture and recognition; hardware and software for detecting objects, user gestures and commands; wireless computer peripherals; head-mounted video display; software in the nature of a mobile application; software for processing images, graphics, audio, video, and text; messaging software; computer software for modifying photographs, images and audio, video, and audio-visual content with photographic filters and augmented reality (AR) effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; computer software to enable accessing, displaying, editing, linking, sharing and otherwise providing electronic media and information via the internet and communications networks; computer software, downloadable computer software and mobile application software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; application programming interface (API) software for allowing data retrieval, upload, access and management; software for organizing images, video, and audio-visual content using metadata tags; application programming interface (API) for use in developing AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; computer software for organizing events; computer software for sending and receiving electronic messages, graphics, images, audio and audio visual content via the internet and communication networks; downloadable software, namely, instant

messaging software, file sharing software, communications software for electronically exchanging data, audio, video images and graphics via computer, mobile, wireless, and communication networks; computer software for personal information management, and data synchronization software; computer software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, instant message; communication software and communication computer hardware for providing access to the Internet; electronic display screens; smart glasses; computer peripherals for remotely accessing and transmitting data; computer peripherals for mobile devices for remotely accessing and transmitting data, namely, peripherals worn on the head for mobile devices for remotely accessing and transmitting data; computer hardware for displaying data and video; computer peripherals for displaying data and video; computer peripherals for mobile devices for displaying data and video, namely, peripherals worn on the head for mobile devices for displaying data and video; downloadable computer software, namely, downloadable mobile application for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; computer software for viewing digital images and photographs provided as updates for or in combination with head-mounted display screen devices; computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the three-dimensional rendering of graphics, still images and moving pictures provided as updates for or in combination with head-mounted display screen devices; computer software, namely, software development tools for the creation, debugging, and deployment of software applications for smart glasses, near eye displays, head mounted displays, and smartphone; digital video eyewear; downloadable computer application software for mobile phones, smartphones, computers, tablets, smart glasses, digital video eyewear, wearable digital electronic devices, namely, glasses, goggles, and headsets, head mounted displays, near eye display systems, communications networks, cloud computing services, and computer systems for communicating between the devices, networks and services; downloadable computer application

software for smart glasses, near eye display systems, and head mounted displays for displaying icons, determining and responding to user selection of icons, controlling connections to and communication with other devices, networks, and systems, operating a camera to record and display images and audio visual files, organizing digital image and audio visual files, controlling microphones, controlling sound level of built-in speakers, transferring computer files between the smart glasses, near eye display systems, head mounted displays and other devices, networks, and systems, controlling user notifications, controlling a touchpad, controlling and obtaining data from sensors in the smart glasses, near eye display systems, and head mounted displays, including accelerometers, barometric, temperature, tilt, tip, and yawl sensors, head orientation sensors, and GPS receivers, controlling the speed of the CPU, and sensing and displaying the battery charge level, and displaying, capturing, recording, and streaming data, images, and audio visual content in standard reality, augmented reality, and mixed reality environments; downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for the generation and display of standard reality, augmented reality, mixed reality content; downloadable computer application software for smart glasses, near eye display systems, and head mounted displays for communication with other smart glasses, near eye display systems, and head mounted displays; glasses with the function of wireless communication; software to view virtual images in creating augmented reality; head mounted video display; smart glasses with wired and wireless audio capability; software for communicating by wireless local area networks, wireless technologies, and other communication protocols between near-eye display systems and network devices, namely, mobile phones, smart phones, computers, tablets, and other computer systems; software for generating images to be displayed in near-eye display system; software for smart phones and other computer systems to generate data, images, and audio for display in near-eye display systems and for transmitting such data, images, audio to near-eye display systems; software for smart phones and other computer systems to

receive data from near-eye display systems; wearable digital electronic devices, namely, glasses; computer software for setting up, configuring, operating and controlling wearable devices, computers, and computer peripherals; electronic communication equipment and instruments, namely, mobile and wearable digital electronic devices for sending and receiving of text, data, audio, image, and video files; wearable computer hardware; wearable computer peripherals; computer software for accessing, monitoring, searching, displaying, reading, recommending, sharing, organizing, and annotating news, sports, weather, commentary, and other information, content from periodicals, blogs, and websites, and other text, data, graphics, images, audio, video, and multimedia content; computer software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video, and multimedia content, electronic publications; computer software and firmware, namely, operating system programs, database synchronization software, and data synchronization programs; computer application software for use in connection with configuring and controlling wearable computer hardware and wearable computer peripherals.

Class 38

Telecommunication services; providing access to computer, electronic and online databases; telecommunications services, namely, electronic transmission of data, messages, graphics, images, audio, video and information; providing online communications links which transfer mobile device and internet users to other local and global online locations; providing access to third party websites or to other electronic third party content via a universal login; audio, text and video broadcasting services over the internet or other communication networks; streaming and live streaming of video, audiovisual, and interactive audiovisual content via the internet; telecommunications services, namely, electronic transmission of virtual and augmented reality content and data; video conferencing services; providing technical

support services regarding the usage of communications equipment; providing equipment for video conferencing; teleconferencing; mobile phone communication services; encrypted electronic transmission and delivery of recovered data.

Class 42

Computer services, namely, hosting electronic facilities for others for organizing and conducting meetings, events and interactive discussions via communication networks; providing temporary use of online non-downloadable software for creating customized electronic personal and group profiles or webpages featuring user-defined or specified information, including, audio, video, images, text, content, and data; computer services, namely, providing search engines for obtaining data on the internet and communication networks; application service provider (ASP) services; providing an online network service that enables users to transfer personal identity data to and share personal identity data with and among multiple online facilities; providing searchable databases of information, including text, electronic documents, databases, graphics, electronic media, images and audio visual content via the internet and communication networks; providing non-downloadable software to allow users to perform electronic business transactions via the internet and communications networks; software as a service (SAAS) services featuring software for sending and receiving electronic messages, notifications and alerts; providing online sites that give users the ability to upload, modify and share virtual reality content, information, experiences and data; providing online sites that give users the ability to upload, modify and share augmented reality content, information, experiences and data; providing online sites that give users the ability to upload, modify and share mixed reality content, information, experiences and data; non-downloadable software for processing electronic payments; platform as a service (PAAS) services featuring computer software to allow users to perform electronic business and e-commerce transaction; software for electronic messaging; non-downloadable computer software for sharing and displaying a user's location,

planning activities with other users and making recommendations; application service provider (ASP) featuring software to enable or facilitate the sharing and displaying a user's location, planning activities with other users and making recommendations; non-downloadable computer software for social and destination mapping; application service provider (ASP) featuring software to enable or facilitate social and destination mapping; non-downloadable software for ordering and/or purchasing goods and services; application service provider (ASP) featuring software to enable or facilitate ordering and/or purchasing goods and services; non-downloadable software for providing a virtual marketplace; non-downloadable computer software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; application service provider (ASP) featuring software to enable or facilitate interaction and communication between humans and AI (artificial intelligence) platforms, namely, bots, virtual agents and virtual assistants; providing personal assistant software; computer services in the nature of providing customized online pages featuring user-defined or specified information, personal profiles, virtual reality, and augmented reality content and data; maintenance and repair of computer software; non-downloadable software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; computer services, namely, providing information in the fields of technology via the internet; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; computer services, namely, cloud hosting provider services; online non-downloadable cloud computing software for use in electronic storage of data; online non-downloadable cloud computing software for virtual, augmented reality applications and environments; file sharing services, namely, providing online facilities for others featuring technology enabling users to upload and download electronic files; hosting of digital content on the internet; computer services, namely, providing remote management of devices via

computer networks, wireless networks or the internet; providing user authentication services using single sign-on and software technology for e-commerce transactions; providing user authentication services of electronic funds transfer, credit and debit card and electronic check transactions using single sign-on and software technology; application service provider (ASP) featuring software to enable or facilitate making reservations and bookings; providing temporary use of non-downloadable location-aware computer software for searching, determining and sharing the location of goods, services and events of interest; application service provider (ASP) featuring location-aware software for searching, determining and sharing the location of goods, services and events of interest; providing temporary use of non-downloadable software applications for searching and identifying local and location-based points of interest, events, landmarks, employment opportunities, entertainment, cultural events, shopping and offers; providing temporary use of non-downloadable software applications for providing location-based weather information; providing temporary use of non-downloadable software applications for providing, linking to, or streaming news or current events information; providing temporary use of non-downloadable computer software for finding content and content publishers, and for subscribing to content; providing temporary use of non-downloadable software for organizing images, video, and audio-visual content using metadata tags; providing temporary use of non-downloadable software for taking photographs and recording audio, audio-visual and video content; providing temporary use of non-downloadable software for uploading, downloading, archiving, enabling transmission of, and sharing images, audio-visual and video content and associated text and data; providing temporary use of non-downloadable e-commerce software to allow users to perform electronic business transactions via the internet; providing temporary use of non-downloadable computer software for use in facilitating voice over internet protocol (VOIP) calls, phone calls, video calls, text messages, electronic message and instant message; application service provider (ASP) services featuring software to enable or facilitate voice over internet protocol (VOIP) calls, phone calls, video

calls, text messages, electronic message and instant message; providing temporary use of non-downloadable computer software for use in taking and editing photographs and recording and editing videos; application service provider (ASP) featuring software to enable or facilitate taking and editing photographs and recording and editing videos; application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, web sites, and databases in the fields of wireless communication, mobile information access, and remote data management for wireless delivery of content to handheld computers, laptops and mobile electronic devices; providing temporary use of online non-downloadable software and applications for instant messaging, voice over internet protocol (VOIP), video conferencing, and audio conferencing; data encryption services; providing online non-downloadable software for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals; platform as a service (PaaS) featuring computer software platforms for voice command and recognition software, speech to text conversion software, voice-enabled software applications for personal information management; platform as a service (PaaS) featuring computer software platforms for personal assistant software; platform as a service (PaaS) featuring computer software platforms for home automation and home device integration software; platform as a service (PaaS) featuring computer software platforms for wireless communication software for voice, audio, video, and data transmission; software as a service (SaaS) featuring computer software used for controlling stand-alone voice controlled information and personal assistant devices; software as a service (SaaS) featuring computer software for personal information management; software as a service (SaaS) featuring computer software for accessing, browsing, and searching online databases, audio, video and multimedia content and software applications, software application marketplaces; software as a service (SaaS) featuring computer software for accessing, monitoring, tracking, searching, saving, and sharing information on topics of general interest; software as a service (SaaS) featuring computer software

for use to connect and control internet of things (IoT) electronic devices; software as a service (SaaS) featuring computer software for connecting, operating, integrating, controlling, and managing networked consumer electronic devices, home climate devices and lighting products via wireless networks; application service provider (ASP) services featuring software for controlling, integrating, operating, connecting, and managing voice controlled information devices, namely, cloud-connected and voice-controlled smart consumer electronic devices and electronic personal assistant devices; providing customized searchable databases of information; computer services, namely, providing remote management of devices via computer networks, wireless networks or the Internet; provision of Internet search engine services; information, advisory and consultancy services relating to voice command and recognition software, speech to text conversion software, and voice-enabled software applications, home automation, and internet-of-things software; providing information, news, and commentary in the field of science and technology, home decorating, weather, and graphic, interior, product, and fashion design; technological services, namely, data warehousing services; application service provider (ASP), namely, hosting computer software applications through the internet for others; application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the fields of calculation of website ranking based on user traffic; software as a service (SAAS) services, namely, hosting software for use by others to provide an online database featuring a wide range of general interest information via the internet; providing temporary use of on-line non-downloadable mobile communications device software for enhancing mobile access to the internet via computers, mobile computers, and mobile communications devices; technical support, namely, troubleshooting of computer hardware and software problems and mobile computer and mobile communications device hardware and software problems; providing internet search engines; providing search platforms to allow users to request and receive photos, videos, text, data, images, and electronic works; computer consulting, computer

programming; providing search platforms to allow users to request and receive content, text, visual works, audio works, audiovisual works, literary works, data, files, documents, and electronic works; computer hardware, software, application, and network consulting services; providing temporary use of non-downloadable computer software and hosting online facilities to enable users to access and download computer software; application service provider (ASP), namely, remote hosting of computer applications of others; application service provider (ASP), namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the fields of calculation of website ranking based on user traffic; providing temporary use of on-line non-downloadable software and applications for accessing streaming audio and video files, text files, and multimedia files; application service provider (ASP), namely, hosting, managing, developing and maintaining applications, software, and web sites, in the fields of personal productivity, wireless communication, and mobile applications; providing technical support services, namely, troubleshooting of computer software problems regarding the usage of communications equipment; creating, maintaining and hosting of a website and other computer and electronic communication networks featuring information, online links, and electronic resources in the field of sports and fitness; creating, maintaining and hosting of an interactive web site and other computer and electronic communication networks that enables users to enter, access, track progress, monitor and generate health, fitness, personal exercise, sports, and athletic activity information and achievements; creating, maintaining and hosting of an interactive web site and other computer and electronic communication networks that enables users to compete and compare athletic information and achievements with other users; non-downloadable computer software for displaying, aggregating, analyzing and organizing data and information in the fields of health, wellness, fitness, physical activity, weight management, sleep, and nutrition; non-downloadable computer software for tracking fitness, health and wellness goals and statistics; non-downloadable software for creating personalized fitness training

programs; non-downloadable software for providing personal training services, workouts and fitness assessments; provide an interactive web site that enables users to enter, access, track progress, monitor and generate nutrition, calories, health, fitness, personal exercise, sports, and athletic activity information and achievements; provide use of non-downloadable software to provide information regarding sports, athletic skill development, fitness coaching, and fitness training via an online website and other computer and electronic communication networks for personal computers, personal digital devices, and smart phones; providing an interactive web site that enables users to enter, access, track progress, monitor and generate calories, fitness, personal exercise, and athletic activity information and achievements; software as a service (SAAS) for use in designing, creating and analyzing data, metrics and reports in the areas of health, fitness, sleep, nutrition and wellness; software as a service (SAAS) services featuring software for use of an algorithm for calculating and generating data for sport activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations and goal setting; software as a service (SAAS) services, namely, hosting software for use by others which uses an algorithm for calculating and generating data for sport activity, fitness training, fitness level assessments, fitness coaching, fitness recommendations and goal setting; software as a service (SAAS) services, namely, providing a customized website and mobile portal for individuals featuring data analytics based on physiological metrics for purposes of health monitoring; software as a service (SAAS) that enables users to manage employee accounts, schedule and track employee participation, and facilitate and manage corporate fitness and wellness programs.

Goods and/or Services:

Class 02

Spray-applied corrosion-resistant coil coating designed to protect heat exchange units; anti-corrosive coatings.

Class 03

Chemical cleaners for air conditioners.

Class 07

Air cooled condensers; refrigerant compressors and refrigerator compressor racks for use in rack refrigeration systems; radiators for engines; refrigerated vending machines; oil coolers and radiators for commercial and passenger vehicles.

Class 09

Downloadable computer software for refrigeration equipment selection; capacitors, namely, condensing units, and capacitors, namely, condensers used in industrial refrigeration applications; laboratory equipment, namely, ultra low temperature refrigeration units being temperature controllers for cooling scientific research applications; central processing unit coolers; refrigeration systems controls being thermostats; battery thermal management systems for regulating battery pack temperature and regulating electrical systems that monitor energy draw, vehicle optimization, and battery usage of vehicles, namely commercial, offhighway, and industrial and passenger vehicles.

Class 11

HVAC units; heat exchangers not being part of machines, namely, condensers, heater cores, radiators, water coils, evaporators, oil and gas coolers for residential and commercial air conditioners, dehumidifiers, and refrigeration systems; heat exchangers being parts of air conditioning systems for vehicles, namely, condensers and evaporators; refrigeration equipment, namely, process chillers, cooling towers, unit coolers, air handlers and fluid coolers; packaged refrigeration systems, namely,

refrigerators for commercial use; refrigerated self-service cases; walk-in coolers; evaporators for industrial refrigeration applications; refrigerated reach-in coolers; ice making machines; refrigeration systems, namely, refrigerators transportable by vehicle or sea transport; heat exchanger coils and tubing specifically adapted for refrigeration equipment, namely, process chillers, cooling towers, unit coolers, air handlers, fluid coolers, refrigerating display cases, and walk in coolers; electric heating elements; Heat exchange apparatus, namely coils and tubing, not being parts of machines; heat exchange apparatus, namely coils, not being parts of machines, and not for medical use; commercial air conditioning and heat pump units and heating and cooling ventilation units; rooftop ventilation units used to filter, heat, cool, or dehumidify air for commercial or industrial use; air conditioning and heat pump units; gas-fired heating units for non-residential commercial purposes; gas fired and hot water space heaters for residential, commercial or industrial use; commercial air conditioning and heat pump units; heating, cooling and ventilating units for industrial purposes; gas fired heaters for greenhouses; ventilation systems for heating, ventilation and air conditioning for schools and commercial use.

Class 37

HVAC maintenance services, namely, applying a spray corrosive-resistant coating to HVAC cabinets for the purpose of protecting the internal and external components of HVAC cabinets.

Class 40

Applying coating for metal substrates, particularly coating heat transfers fins for air conditioner condensers, evaporators, and related components and other metal parts.

Class 42

Providing online non-downloadable computer software for selecting heat exchangers for air conditioning and refrigeration applications.

Lime chloride, not for agricultural purposes; calcium hydroxide, not for agricultural purposes; lime carbonate, not for agricultural purposes; non-metallic minerals for use in manufacture; plastics [raw materials]; groundwood pulp or chemical pulps for manufacturing purposes; chemical compositions for developing photographs; photosensitive plates; foam of ceramics in the nature of silicon carbide, alumina, zirconia, titanium oxides, aluminum nitride, silicon nitride; compositions for the manufacture of technical ceramics.

Class 07

Metalworking machines and tools and their parts and fittings; cutting tools for machinery; dies for use with machine tools; metalworking machines and tools for friction stir welding of metals; metalworking machines and tools, namely, impact wrenches, electric ratchet wrenches, wrenches (power-driven), electric screwdrivers, electrical drills, drilling bits [parts of machines], reamers [parts of machines], grinding tools [parts of machines], hammers [parts of machines], jigsaws [machines], electric sanders; cutting tools for metalworking, other than hand-operated; ceramic cutting tools and dies for metalworking, other than hand-operated; cemented carbide cutting tools other than hand-operated; cermet cutting tools other than hand-operated; diamond-pointed metal-cutting tools other than hand-operated; thread milling cutters (machine tools); milling cutters (machine tools); cemented carbide tips for use with machine tools; wear-resistant metal-cutting tools other than hand-operated; moulds and dies for metal-forming (parts of machines); non-electric prime movers, not for land vehicles; parts of non-electric prime movers; parts of engines, namely, engine gaskets, DPF gasket kits, cylinder head gaskets, sealing joints, injectors, air filters, turbochargers, power steering pumps, oil pumps, water pumps, urea SCR filters, urea water filters, DPF (diesel particulate filters), pistons, cylinder liners, valve rocker arms and shafts, fuel pumps, carburetors, diesel fuel injection systems (mechanical), diesel fuel injection systems (electronic), diesel fuel injection nozzles, fuel filters, air cleaners; parts of engines, namely, oil pump filters, oil coolers, fans and fan clutches,

exhaust manifold converters, mufflers; parts of engines, namely, throttle bodies, timing belts, fan belts, belt tensioners, clutches, pressure switches being parts of machines; motors, other than for land vehicles; fan belts for motors and engines; transmissions for machines; mechanical engine parts for land vehicles; igniting devices for internal combustion engines; ignition apparatus and their accessories being parts of internal combustion engines of all kinds, namely spark plugs, glow plugs, spark plug caps, spark plug cables and spark plug ignition coils; chemical processing machines and apparatus; machines for generating gas by electrolysis; industrial machines for hardening molded products of lime material by applying carbon dioxide for chemical processing; electromechanical machines for chemical industry; tile making machines being chemical processing machines and apparatus; pottery manufacturing machines and apparatus; potters' wheels; high-voltage generators; electricity generators; fuel dispensing machines for service stations; fuel dispensing pumps for service stations; fuel dispensing machines for hydrogen stations; fuel dispensing pumps for hydrogen stations; hydrogen station equipment for fuel cell vehicles; valves (parts of engines); valves (parts of engines), namely, EGR valves, ISC valves, proportional relay valves, ABS modulator valves for industrial machinery, thermostatic control valves; industrial fishing machines; machines and equipment for the aquaculture industry; machines and equipment for the aquaculture industry, namely, tanks being parts of machines, water pumps and auto- feeders; chemical vapor deposition reaction machines for processing semiconductor wafers; chemical vapor deposition reaction machines for manufacturing liquid crystals; physical vapor deposition reaction machines for processing semiconductor wafers; physical vapor deposition reaction machines for manufacturing liquid crystals; plasma etching processing machines for processing semiconductor wafers; plasma etching processing machines for manufacturing liquid crystals; ion implanting machines for processing semiconductor wafers; ion implanting machines for manufacturing liquid crystals; semiconductor wafer processing machines and parts therefor; semiconductor manufacturing machines

and systems; parts and fittings of semiconductor manufacturing machines and systems; machines for manufacturing liquid crystal display devices; machine elements not for land vehicles; pneumatic or hydraulic machines and instruments; generators with cogeneration function; alternators; direct current generators; ignition coils [parts of engines]; starters for motors and engines, and their parts and fittings; feed water heaters for non-electric prime movers and engines with fuel cells; feed water heaters for non- electric prime movers and engines used for cogeneration systems; feed water heaters for non-electric prime movers and engines; machines for generating gas by electrolysis for hydrogen stations for fuel-cell (hybrid) vehicles; electric motors for automobile windshield wipers; fuel pressure regulators for internal combustion engines.

Class 09

Telecommunication machines and apparatus, and their parts for measuring, testing, monitoring and detecting water quality; telecommunication machines and apparatus, and their parts for analyzing and visualizing data of water-quality for use with monitoring devices and water-quality monitors; telecommunication machines and apparatus, and their parts for collecting and utilizing data of automobiles; telecommunication machines and apparatus, and their parts for use in the field of fuel cells and other batteries; telecommunication machines and apparatus, and their parts for measuring, monitoring, managing and evaluating condition of batteries; telecommunication machines and apparatus, and their parts for conducting, controlling and regulating the distribution of electricity; telecommunication machines and apparatus, and their parts for trading greenhouse gas emission rights or credits; telecommunication machines and apparatus, and their parts for measurement, analysis and management of greenhouse gas emission; telecommunication machines and apparatus, and their parts for controlling and managing measuring and testing machines and instruments; electron tubes; semi-conductor devices; electronic circuits; computer programs, recorded; computer programs, downloadable;

downloadable image and video files; downloadable audio and sound files; electronic publications, downloadable; personal digital assistants; laboratory apparatus and instruments; power distribution or control machines and apparatus; apparatus and instruments for conducting, controlling and regulating the distribution of electricity; high voltage power supplies for ignition using dry battery or household power source; high voltage power supplies for piezoelectric gas ignition; igniting apparatus, electric, for igniting at a distance; rotary converters; phase modifiers; electric or magnetic meters and testers; conductors, electric; cables, electric; eyewear; computer hardware; computer peripherals; electronic components; piezoelectric elements (electronic components); semi-conductor elements; integrated circuits; integrated circuit packages; substrates being wafers for integrated circuits; computer hardware for measuring, testing, monitoring and detecting water quality; computer hardware for analyzing and visualizing data of water- quality for use with monitoring devices and water-quality monitors; computer hardware for collecting and utilizing data of automobiles; computer hardware for use in the field of fuel cells and other batteries; computer hardware for measuring, monitoring, managing and evaluating condition of batteries; computer hardware for conducting, controlling and regulating the distribution of electricity; computer hardware for trading greenhouse gas emission rights or credits; computer hardware for measurement, analysis and management of greenhouse gas emission; computer hardware for controlling and managing measuring and testing machines and instruments; buzzers, electric; fire alarms; gas leak alarms; burglar alarms; magnetic cores; resistance wires; electrodes, other than welding electrodes or medical electrodes; fuel cell electrodes; calculating machines; ultrasonic wave oscillators; ozonisers [ozonators]; measuring or testing machines and instruments; measuring apparatus and instruments; sensors, detectors and monitoring instruments; piezoelectric sensors; thermal sensors; optical sensors; gas sensors; pressure sensors; acceleration sensors; velocity sensors; distance sensors; water quality sensors; apparatus for measuring concentration of fuel vapor, oxygen, nitrogen, oxide, hydrocarbon, methane, alcohol and hydrogen in air or gas;

apparatus for measuring concentration of fuel vapor, oxygen, nitrogen oxide, hydrocarbon, methane, alcohol and hydrogen, and controlling air/fuel ratio in the exhaust gas from internal combustion engines, boilers, incinerators, gas turbines, generators and fuel cells; knock sensors; temperature sensors; outdoor air sensors for measuring air quality; load sensors; hydrogen leak detection sensors; urea sensors; speed sensors; sensors for measuring the position of liquid; position sensors; sensors for measuring flow rate of gas, air and liquid; gear position sensors of transmission; anti-theft infrared sensors; liquid detection sensors; impact detection sensors; illuminance sensors; sensors for measuring air inhalation speed; parking aid sensors; electromagnetic sensors; ultrasonic sensors; sensors [measurement apparatus], other than for medical use; vibration sensors; motion sensors; infrared sensors; photoelectric sensors; detecting machines for analyzing failure of semiconductor; parts for ceramic semiconductor; ceramic wiring board; electronic sensors; electronic decoders; electronic meters; electronic control systems; electronic control units; electronic surveillance apparatus; electronic control apparatus; electronic semi-conductors; process controlling apparatus [electronic]; testing apparatus for electronic equipment; electrodes; electrical cells and batteries, and their parts and fittings; galvanic cells; battery cases; solar batteries, and their parts and fittings; solar panels for the production of electricity; chargers for electric accumulators, and their parts and fittings; battery charging equipment; battery cases equipped with measuring equipment and communication equipment for measuring, monitoring and managing condition of batteries; battery chargers utilizing solar power generation panels equipped with measuring equipment and communication equipment for measuring, monitoring and managing condition of batteries; apparatus for measuring heat production by household fuel-cells by monitoring flow volume of heating medium in-and-out temperature differences; calorimeters; fuel cells using metal anodes or alkaline fluid electrolytes; polymer electrolyte fuel cells; computers for remote monitoring of fuel battery generators using communication networks; fuel cells; electrochemical power generating apparatus, namely fuel-cells stacks, fuel

cells, and control devices for fuel cells, and structural parts of fuel cells with heat insulating function; fuel cell for electricity generation; hydrogen fuel cells for electric vehicles; light-emitting diodes [LED]; parts and fittings for light diodes; fuel battery cells; fuel cell stacks; fuel cell modules; electric wires, cables, and connectors for land and water vehicles, and their accessories; sensors for vehicles; automotive and other vehicular sensors, namely, position sensors, temperature sensors, pressure sensors, speed sensors, vacuum sensors, oxygen sensors, fluid level sensors, knock sensors and mass air flow sensors; battery clips and battery leads; starting and charging system components, namely, electric starting cables, electrical wires, voltage regulators, and voltage stabilizers; electrical switches; pressure switches; capacitors and electronic control modules for gasoline engines for land vehicles and voltage regulators and reducers; solenoid valves [electromagnetic switches]; electronically controlled air suspension (ECAS) solenoid valves; variable valve timing (VVT) solenoids; safety helmets; oxygen breathing apparatus, other than for artificial respiration; electric relays.

Class 10

Medical apparatus and instruments; oxygen concentrators for medical purposes; medical respiratory equipment, namely, liquid oxygen stationary and portable chambers and stationary and portable oxygen concentrators.

Class 11

Heating elements; electric water heaters; air sterilizers for industrial use; ozone sterilizers; air sterilizers for household use; ozone air purifiers; air purifying apparatus and machines; ozone air purifiers for industrial use; industrial air purifiers; household ozone air purifiers; air purifiers for household use; humidifiers; dehumidifiers; disinfectant apparatus; disinfectant apparatus for medical purposes; sterilizers; sanitary apparatus and installations; toilet bowls; bath fittings; wash-hand bowls [parts of sanitary installations]; membrane apparatus for generating gas; adsorption

apparatus for generating gas; drying apparatus for chemical processing; electric lamps and other lighting apparatus; boilers, other than parts of machines; oven gas igniters; gas lighters; heat exchangers, other than parts of machines; evaporators; distillation apparatus; air-conditioning apparatus; air conditioners for vehicles; air conditioner filters for vehicles; water purifying apparatus and machines; household electrothermic appliances, namely, ovens, water heaters, cookers; tap water faucets; level controlling valves in tanks; cocks for pipes and pipelines; waste water treatment tanks for industrial purposes; feedwater heaters using fuel-cells for industrial purposes; air-conditioning apparatus using fuel cells; lighting apparatus using light emitting diode; lighting apparatus using the laser diode; lighting apparatus for vehicles; feed water heaters used for cogeneration systems; air conditioners used for cogeneration systems; feed water heaters for industrial purposes; stoves [space heaters] for household purposes, non-electric.

Class 17

Gaskets; non-metal pipe couplings and joints; joint packings; electrical insulating materials; mineral wool [insulator].

Class 21

Drinking vessels; dishes; dinnerware, other than knives, forks and spoons; dishware; tableware, other than knives, forks and spoons; vases; porcelain ware; earthenware; crockery; pottery; works of art of porcelain, ceramic, earthenware, terra-cotta or glass; ceramics for household purposes; glass containing phosphor; glass phosphor coated.

Class 37

Repair or maintenance of metalworking machines and tools; providing information relating to the repair or maintenance of metalworking machines and tools; repair or maintenance of automobiles; repair or maintenance of two-wheeled motor vehicles; repair or maintenance of telecommunication machines and apparatus; repair or maintenance of consumer electrical appliances; repair or maintenance of measuring

and testing machines and instruments; repair or maintenance of water-quality monitors; repair or maintenance of medical machines and apparatus; repair or maintenance of fishing machines and instruments; repair or maintenance of aquaculture machines and instruments; repair or maintenance of machines and instruments for the aquaculture industry; repair or maintenance of water pollution control equipment; repair or maintenance of water purifying apparatus for industrial purposes; sterilization of medical apparatus and instruments; providing information relating to the repair or maintenance of automobiles, and consultation and advice relating thereto; providing information relating to the repair or maintenance of two-wheeled motor vehicles, and consultation and advice relating thereto; repair or maintenance of chemical processing machines and apparatus; repair or maintenance of tile manufacturing machines and apparatus; repair or maintenance of pottery manufacturing machines and apparatus; installation of industrial machinery; repair and maintenance of batteries, generators, and battery chargers; repair and maintenance of electronic machines and apparatus; rental of battery chargers; repair or maintenance of fuel cells, fuel battery cells, fuel cell stacks, fuel cell modules and other batteries and their parts; repair or maintenance of fuel battery generators; repair or maintenance of generators with cogeneration function; installation of fuel battery generators; installation of generators with cogeneration function; construction; repair or maintenance of batteries; repair or maintenance of power generators.

Class 38

Rental of telecommunication equipment.

Class 40

Custom manufacturing of fuel cells; custom manufacturing of fuel cell stacks; rental of fuel cells; rental of water purifying apparatus; rental of humidifier for household purposes; rental of air purifiers for household purposes; rental of humidifier for industrial purposes; rental of air purifying apparatus and machines for industrial

purposes; rental of metal treating machines and tools; rental of metalworking machines and tools; rental of power-driven hand tools for metal treating; ceramic processing, and consultancy and information service relating thereto; hardening of molded products of lime material using carbon dioxide, and consultancy and information service relating thereto; processing of chemicals; custom assembling of materials for others; treatment of materials for the manufacture of ceramic goods; sorting and disposal of waste and trash; recycling of waste and trash; recycling of electric batteries; rental of batteries; rental of electricity generators; custom manufacture of fuel cells, other batteries and their parts; rental of fuel cells, other batteries and their parts; rental of generators with cogeneration function; rental of space heating apparatus; rental of space heating apparatus using cogeneration system; rental of air-conditioning apparatus; rental of air-conditioning apparatus for household purposes; rental of air conditioners for industrial purposes; rental of fuel cell batteries for household purposes; rental of fuel cells for household purposes; rental of generators with cogeneration function for household purposes; metalworking and providing information relating thereto; ceramic processing and providing information relating thereto.

Class 42

Testing or research on machines, apparatus and instruments; design services; technological advice relating to computers, automobiles and industrial machines; chemical testing, laboratory testing, pollution testing in the field of aquaculture; scientific research in the field of aquaculture; rental of measuring apparatus; rental of computers; designing of fuel cells and fuel cell stacks; consultation in relation to designing of fuel cells; designing of fuel cell power generation system; designing of machines, apparatus, instruments [including their parts] or systems composed of such machines, apparatus and instruments; computer programming; computer software design; maintenance of computer software; testing, inspection or research of pharmaceuticals, cosmetics or foodstuffs; testing or research on electricity;

providing computer programs on data networks; providing computer application programs on data networks; cloud computing; electronic data storage; rental of computer equipment; rental of computer hardware; providing computer programs for trading greenhouse gas emission rights or credits on data networks; providing computer programs for measurement, analysis and management of greenhouse gas emission on data networks; measuring and analysis of greenhouse gas emissions, and consultancy and information service relating thereto; energy auditing; monitoring of computer systems by remote access; providing computer programs on data networks for measuring, monitoring, managing and evaluating condition of batteries; material testing; consultancy in the field of energy-saving; testing and assessment of battery condition and quality; design of fuel cells, other batteries and their parts; advisory services relating to design of fuel cells, other batteries and their parts; testing and research on cogeneration system.

Class 44

Rental of equipment and instruments for fishery for commercial fishing purposes; rental of equipment and devices for aquaculture; aquaculture services and consultancy relating thereto; pest control services for aquaculture.
