General Information

1. Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules. It is published weekly on Fridays, unless otherwise directed by the Registrar.

2. Notice of Opposition

Any person who wishes to oppose any of the marks published may within two months from its publication date file a Notice of Opposition on Form TM11. Reasonable notice should be given to the Applicant beforehand, to provide the Applicant an opportunity to withdraw the application. Failure to give such notice will be taken into account when considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

3. Practice Directions and Circulars

The Registry has ceased our practice of publishing Practice Directions and Circulars in the Trade Marks Journal. Practice Directions and Circulars are available on our website at <https://www.ipos.gov.sg>. If you wish to receive our updates via email, you may subscribe to our mailing list by sending an email to news@ipos.gov.sg and letting us know the subject matter of interest (e.g. Trade Marks).

4. Information Contained in this Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

INVENTIA

Goods and/or Services:

Class 01

Biological products, preparations and substances (other than for medical use); chemical reagents and consumables (chemicals) for biological materials and products, cell maintenance and growth; biological samples and cells, including living, functional cellular structures for use in scientific and medical research; fine chemicals; chemical and biological reagents; chemical preparations for scientific purposes; none of the foregoing being in relation to oral or injectable therapies for the treatment of patient needs in the areas of fibrosis, lysosomal storage disorders and oncology, cardiometabolic diseases, liver diseases, metabolic disorders (including obesity, diabetes, severe dyslipidemias, NASH), inflammatory diseases and autoimmune diseases.

Class 05

Surgical grafts (living tissues); engineered living tissues and 3D cell cultures for medical and surgical use; tissue-regenerative medical preparations; biological tissue cultures for medical purposes; biological preparations use for in cell cultures (medical); engineered biological tissues and cells for medical uses; reagents in this class, not being biological reagents for medical purposes; cell culture media.

Class 07

3D printers; machines, namely, 3D bioprinters for the printing of living cells and tissues or printing 3D cell structures; 3D bioprinter cartridges for containing printing materials; 3D bioprinter cartridges for containing bioprinting materials; 3D bioprinter cartridges for containing biomaterials and reagents; 3D bioprinter cartridges for containing bio-ink; robotic handling apparatus; accessories and spare parts for three dimensional (3D) printers for the production of biological materials, namely print heads for three dimensional (3D) printers; machines, namely, three dimensional (3D) printer for the printing of engineered living tissues; three dimensional (3D) printers; parts and fittings therefor; none of the foregoing being in relation to oral or injectable therapies for the treatment of patient needs in the areas of fibrosis, lysosomal storage disorders and oncology, cardiometabolic diseases, liver diseases, metabolic disorders (including obesity, diabetes, severe dyslipidemias, NASH), inflammatory diseases and autoimmune diseases.

Class 09

Laboratory robots; downloadable software, including software for monitoring and controlling communication between computers and automated machine systems, software for operating and controlling 3D printers, downloadable operating software to control laboratory apparatus for fabrication of three dimensional (3D) engineered living tissues, and software for the purpose of the manufacture of products by means of a 3D printer, including medical products; electronic components for use in

connection with laboratory robots; laboratory instruments and apparatus, including cell assembly apparatus for laboratory use for fabrication of three dimensional (3D) engineered living tissues; print heads for printers; electronic publications; parts and fittings for all of the foregoing, including electronic control panels with digital displays for the control of three dimensional (3D) printers; none of the foregoing being in relation to oral or injectable therapies for the treatment of patient needs in the areas of fibrosis, lysosomal storage disorders and oncology, cardiometabolic diseases, liver diseases, metabolic disorders (including obesity, diabetes, severe dyslipidemias, NASH), inflammatory diseases and autoimmune diseases.

Class 10

Robotic apparatus for medical or surgical purposes; robots for medical or surgical purposes; apparatus and instruments for medical use; medical apparatus for use in the treatment of injuries; parts and fittings therefor; none of the foregoing being in relation to oral or injectable therapies for the treatment of patient needs in the areas of fibrosis, lysosomal storage disorders and oncology, cardiometabolic diseases, liver diseases, metabolic disorders (including obesity, diabetes, severe dyslipidemias, NASH), inflammatory diseases and autoimmune diseases.

Class 35

Data management; retail and wholesale services for pharmaceutical, medical, scientific, laboratory and 3D printing consumables and supplies; administrative processing of purchase orders; computerised stock ordering and purchasing; computerised data processing; compilation of scientific information; maintenance of registers (for others), including registers relating to device history and maintenance history; none of the foregoing being in relation to oral or injectable therapies for the treatment of patient needs in the areas of fibrosis, lysosomal storage disorders and oncology, cardiometabolic diseases, liver diseases, metabolic disorders (including obesity, diabetes, severe dyslipidemias, NASH), inflammatory diseases and

autoimmune diseases.

Class 42

Scientific and technological services and research and design relating thereto; industrial analysis, industrial research and industrial design services; design and development of computer software; software-as-a-service; provision of online non-downloadable software (application service provider); computer support services (programming and software installation, repair and maintenance services); analysis of statistical data for scientific research; design services, including design of software, design of biological materials, design services relating to printing and product design; research relating to design; laboratory research; biomedical research; cloud computing; advisory services relating to scientific products and scientific research; scientific research into the development of new products; providing technical support services regarding medical and diagnostic laboratory instruments and systems; web-based software platform for laboratory and diagnostic equipment information management, monitoring and analysis; providing information, including online, about all of the foregoing; none of the foregoing being in relation to oral or injectable therapies for the treatment of patient needs in the areas of fibrosis, lysosomal storage disorders and oncology, cardiometabolic diseases, liver diseases, metabolic disorders (including obesity, diabetes, severe dyslipidemias, NASH), inflammatory diseases and autoimmune diseases.

Classes: 06 07 09 11 37 42

Goods and/or Services:

Class 06

Linings, wires, pipes, hoses coated with protective impregnation agents and valves (other than parts of machines), all made of metal; metal pipes [coated with protective impregnation]; metal ventilation ducts [coated with protective impregnations]; pipe fittings [junctions] of metal; manifolds of metal for pipelines; metal valves for controlling the flow of gases in pipelines coated with protective impregnations; metal valves for regulating fluid flow in pipelines coated with protective impregnations; containers of metal for chemicals, compressed gases and liquids; ampoules, containers and vessels, each made of metal, for the storage and supply of liquid and gaseous chemicals, chemical compounds, chemical precursors, chemical products and high-purity and ultra-high-purity gases to a process instrument or a feed/conducting system for a process instrument for use in the electronics, semiconductor and microelectromechanical industries, battery cell production, pharmaceutical industry, biotechnology as well as in data and high-performance data centers.

Class 07

Material production and processing machines; process racks being parts and fittings for machines and mechanical machinery devices for use in the development and production of biopharmaceuticals; filtering machines, separators and centrifuges; filter housings being parts of machines; bioreactors for use in manufacturing biopharmaceuticals; electromechanical machines for chemical industry; blending machines for chemical processing; compressed air pumps for liquid gas supply; pneumatic tube conveyors; plastic pipes [adapted machine parts]; chemical processing machinery.

Class 09

Electronic apparatus and instruments combining high-precision sensors, digital control apparatus, and responsive electric actuators for control, regulation and monitoring of heating, air conditioning and ventilation systems for use in clean room systems and for building control technology; computers and computer programs [included in this class] for building control technology; computer programs and software for the development and production of biopharmaceuticals; chemistry apparatus and instruments; chromatography apparatus for laboratory use; measuring, detection, monitoring and control devices for gas supply in manufacturing and production processes; measuring, detection, monitoring and control devices for chemical supply; level indicators; level sensors; level sensors and control devices for gas and chemicals; temperature measuring instruments; temperature sensors; electrical control boards; filtering units for laboratory use; insulating vessels for laboratory use; fermentation apparatus for laboratory use.

Class 11

Fans, filters for commercial air purification, units consisting of air filters and fans, lights, ventilation devices for air conditioning and air conditioning devices, each adapted for use in grid ceilings, walls, floors, cover plates and partitions in clean rooms, climate chambers, clean room ceilings, rotary air showers and tunnel air

showers; heating and air conditioning systems as building technology systems; cooling, heating, drying and ventilation systems, devices and apparatus; air conditioning devices or room units and systems composed therefrom; dust, solvent vapor and oil mist extraction and separation devices and systems composed therefrom, each for use in clean room systems or for use in the treatment of atmospheric gases; fans for the aforesaid goods; gas scrubbers [parts of gas installations]; venturi scrubbers; wet scrubbers; gas cleaners and purifiers; air purifying apparatus; taps for pipes and pipelines; air filters for use as dust extractors in industrial processes; fume extractors; flue gas cleaning apparatus; ventilating hoods for smoke; chromatography apparatus for industrial purposes.

Class 37

Services in the field of construction as well as assembly and installation work for the construction of building and process engineering systems for air conditioning technology, clean room technology, building technology, electrical engineering, supply technology, waste disposal technology, environmental control, automation, media supply as well as for data centers and high performance-data centers; maintenance as part of the repair system as well as repair and cleaning of semiconductor factories, data centers and high-performance data centers; services in the field of construction as well as assembly and installation work for the construction of semiconductor factories, data centers and high-performance data centers as well as factories in the food industry, pharmaceutical industry, biotechnology and battery cell production; installation, repair, maintenance and setup of computer rooms, data centers and control centers; installation and assembly work for the initial installation and commissioning of heating, cooling, air conditioning, drying, ventilation, extraction and separation systems and devices; carrying out maintenance and inspection work within the framework of the maintenance and inspection intervals prescribed by the manufacturer as well as repair and maintenance of heating, cooling, air conditioning, drying, ventilation, extraction and

separation systems and devices; assembly and installation work to retrofit existing factories with environmental protection systems and equipment; repair of gas supply systems; repair or maintenance of chemical plants; installation of gas supply and distribution apparatus; maintenance and repair of pipeline systems; anti-rust treatment for machines; pipe installation services; installation of smoke extraction systems; assembly and installation work for the construction, assembly and installation of modularized systems; installation, maintenance and repair of production machines.

Class 42

Technological planning for the construction of building and process engineering systems for air conditioning technology, clean room technology, building technology, electrical engineering, supply technology, disposal technology, environmental control, automation, media supply as well as for data centers and high-performance data centers; carrying out technical inspections to ensure the legally required functionality of heating, cooling, air conditioning, drying, ventilation, extraction and separation systems and devices; building technology services, namely carrying out technical checks on the functionality of building technology systems as well as on the technical production and work processes; technological advice and planning for the implementation of work and production activities or processes in the field of microelectronics, biotechnology, battery cell production, pharmaceutical and food industries, as well as for data centers and high-performance data centers; technological advice and planning in the field of environmentally friendly microelectronics manufacturing; technological advice on the implementation of environmentally friendly microelectronics manufacturing; technological advice on the redesign of semiconductor factories, data centers and high-performance data centers as well as factories in the food industry, pharmaceutical industry, biotechnology and battery cell production; technological advice on improving eco-efficiency as well as on energy saving and recycling techniques; technological

planning of semiconductor factories; technological planning of factories in the food industry, pharmaceutical industry, biotechnology and battery cell production; technological planning of data centers; technological planning of high-performance data centers; technological planning, carrying out technical inspections and certification of clean rooms and all areas of technical building equipment for documentation as part of technical project management and when carrying out technical inspections; technological planning of building and process engineering systems; engineering services relating to gas transport and gas supply systems.
