Linings, wires, pipes, hoses coated with protective impregnation agents and accessories therefor, including valves (other than parts of machines), all made of metal; Metal pipes [coated with protective impregnation]; Metal ventilation ducts [coated with protective impregnations]; Pipe fittings [junctions] of metal; Manifolds of metal for pipelines; Metal valves for controlling the flow of gases in pipelines coated with protective impregnations; Metal valves for regulating fluid flow in pipelines coated with protective impregnations; Containers of metal for chemicals, compressed gases and liquids; Ampoules, containers and vessels, each made of metal, for the storage and supply of liquid and gaseous chemicals, chemical compounds, chemical precursors, chemical products and high-purity and ultra-high-purity gases to a process instrument or a feed/conducting system for a process instrument

for use in the electronics, semiconductor and microelectromechanical industries, battery cell production, pharmaceutical industry, biotechnology as well as in data and high-performance data centers.

CLASS 7

Material production and processing machines; Process racks as accessories for machines and mechanical devices for use in the development and production of biopharmaceuticals; Filtering machines, separators and centrifuges; Filter housings being parts of machines; Bioreactors for use in manufacturing biopharmaceuticals; Electromechanical machines for chemical industry; Blending machines for chemical processing; Compressed air pumps for liquid gas supply; Pneumatic tube conveyors; Plastic pipes [adapted machine parts]; Chemical processing equipment.

CLASS 9

Electronic apparatus and instruments for control, regulation and monitoring, also as components for heating, air conditioning and ventilation systems for use in clean room systems and for building control technology; Computers and computer programs [included in this class] for building control technology; Computer programs and software for the development and production of biopharmaceuticals; Chemistry apparatus and instruments; Chromatography apparatus for laboratory use; Measuring, detection, monitoring and control devices for gas supply in manufacturing and production processes; Measuring, detection, monitoring and control devices for chemical supply; Level indicators; Level sensors; Level sensors and control devices for gas and chemicals; Temperature measuring instruments; Temperature sensors; Electrical control boards; Filtering units for laboratory use; Insulating vessels for laboratory use; Fermentation apparatus for laboratory use.

CLASS 11

Fans, filters for commercial air purification, units consisting of air filters and fans, lights, ventilation devices for air conditioning and air conditioning devices, each adapted for use in grid ceilings, walls, floors, cover plates and partitions in clean rooms, climate chambers, clean room ceilings, rotary air showers and tunnel air showers; Heating and air conditioning systems as building technology systems; Cooling, heating, drying and ventilation systems, devices and apparatus; Air conditioning devices or room units and systems composed therefrom; Dust, solvent vapor and oil mist extraction and separation devices and systems composed therefrom, each for use in clean room systems or for use in the treatment of atmospheric gases; Fans for the aforesaid goods; Gas scrubbers [parts of gas installations]; Venturi scrubbers; Wet scrubbers; Gas cleaners and purifiers; Air purifying apparatus; Taps for pipes and pipelines; Air filters for use as dust extractors in industrial processes; Fume extractors; Flue gas cleaning apparatus; Ventilating hoods for smoke; Chromatography apparatus for industrial purposes.

CLASS 37

Services in the field of construction as well as assembly and installation work for the construction of building and process engineering systems for air conditioning technology, clean room technology, building technology, electrical engineering, supply technology, waste disposal technology, environmental control, automation, media supply as well as for data centers and high performance-data centers; Maintenance as part of the repair system as well as repair and cleaning of semiconductor factories, data centers and high-performance data centers; Services in the field of construction as well as assembly and installation work for the construction of semiconductor factories, data centers and high-performance data centers as well as factories in the food industry, pharmaceutical industry, biotechnology and battery cell production; Installation, repair, maintenance and setup of computer rooms, data centers and control centers; Installation and assembly work for the initial installation and commissioning of heating, cooling, air conditioning, drying, ventilation, extraction and separation systems and devices; Carrying out maintenance and inspection work within the framework of the maintenance and inspection intervals prescribed by the manufacturer as well as repair and maintenance of heating, cooling, air conditioning, drying, ventilation, extraction and separation systems and devices; Assembly and installation work to retrofit existing factories with environmental protection systems and equipment; Repair of gas supply systems; Repair or maintenance of chemical plants; Installation of gas supply and distribution apparatus; Maintenance and repair of pipeline systems; Anti-rust treatment for machines; Pipe installation services; Installation of smoke extraction systems; Assembly and installation work for the construction, assembly and installation of modularized systems; Installation, maintenance and repair of production machines.

CLASS 42

Technical planning for the construction of building and process engineering systems for air conditioning technology, clean room technology, building technology, electrical engineering, supply technology, disposal technology, environmental control, automation, media supply as well as for data centers and high-performance data centers; Carrying out technical inspections to ensure the legally required functionality of heating, cooling, air conditioning, drying, ventilation, extraction and separation systems and devices; Building technology services, namely carrying out technical checks on the functionality of building technology systems as well as on the technical production and work processes; Technical advice and technical planning for the implementation of work and production activities or processes in the field of microelectronics, biotechnology, battery cell production, pharmaceutical and food industries,

as well as for data centers and high-performance data centers; Technical advice and technical planning in the field of environmentally friendly microelectronics manufacturing; Technical advice on the implementation of environmentally friendly microelectronics manufacturing; Technical advice on the redesign of semiconductor factories, data centers and high-performance data centers as well as factories in the food industry, pharmaceutical industry, biotechnology and battery cell production; Technical advice on improving eco-efficiency as well as on energy saving and recycling techniques; Technical planning of semiconductor factories; Technical planning of factories in the food industry, pharmaceutical industry, biotechnology and battery cell production; Technical planning of data centers; Technical planning of high-performance data centers; Technical planning and technical project for carrying out technical inspections, also taking legal requirements into account, as well as certification of clean rooms and all areas of technical building equipment at the stages, planning, installation, function and behavior as well as their documentation as part of technical project management and when carrying out technical inspections; Technical planning of building and process engineering systems; Engineering services relating to gas transport and gas supply systems.
