General Information

1. Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules. It is published weekly on Fridays, unless otherwise directed by the Registrar.

2. Notice of Opposition

Any person who wishes to oppose any of the marks published may within two months from its publication date file a Notice of Opposition on Form TM11. Reasonable notice should be given to the Applicant beforehand, to provide the Applicant an opportunity to withdraw the application. Failure to give such notice will be taken into account when considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

3. Practice Directions and Circulars

The Registry has ceased our practice of publishing Practice Directions and Circulars in the Trade Marks Journal. Practice Directions and Circulars are available on our website at <https://www.ipos.gov.sg>. If you wish to receive our updates via email, you may subscribe to our mailing list by sending an email to news@ipos.gov.sg and letting us know the subject matter of interest (e.g. Trade Marks).

4. Information Contained in this Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

Chemical additives for use in the manufacture of pollution control devices; chemical

preparations in the nature of filtering materials; chemicals and unprocessed plastics, namely polymers for use in encapsulating solar and photovoltaic cells; chemical substances being engineered materials for heat transfer or thermal management applications; plastic adhesives for industrial purposes; polymer compositions used in the manufacture of commercial and industrial goods; chemical stabilizers placed in polypropylene mesh under soil, sand and similar growing media for facilitating and promoting the growth of grass and turf; vegetable substances in the nature of filtering materials; chemical substrates and chemical preparations in the nature of accelerators for use with decorative and furniture construction materials, namely, for use with printable decorative overlays, saturated paper and dry film glue lines made of paper, utility, decorative and furniture construction materials, namely, chemical preparations in the nature of accelerators for veneer and tambour, chemical substrates in the nature of glue accelerators for decorative and furniture construction materials, namely, for saturated non-woven material and fleece; plastics in the form of powders, liquids or pastes; nitrate paper, sensitized paper, blueprint paper.

Class 05

Adhesive tapes for medical purposes; antibacterial/antimicrobial tape for the purpose of destroying bacteria, mold and mildew; bandages for dressings; bandages for dressings used for catheters; medical adhesive tapes; medical dressings; medical dressings made of polyurethane film and paper composite; medical plasters; wound dressings; adhesive bandages; surgical bandages; elastic bandages [dressings]; surgical dressings; compression bandages [dressings]; transdermal patches that facilitate the delivery of drugs; transdermal patches for use with medical devices in the treatment of diseases for patients sold without medication.

Class 06

Metal woven mesh screens used in the building products manufacturing industry; aluminum tape used to join panels for use in wall, attic, ceiling and flooring

applications in the building industry; meshes of common metal; metal tapes.

Class 07

Belt filters, namely multiroll belt presses, gravity belt filters; coated and uncoated filters being parts of filtration machines and filter cloths and belt filters for use in machines; filter presses for example plate and frame, recessed plate, membrane, mixed pack and pressure disc filter presses; polishing filters [parts of machines]; pressure leaf filters, horizontal leaf filters, circular leaf filters; rotary vacuum drum filters; rotary pressure filters; vacuum drum filters; pan filters; disc filters; vacuum disc filters; filters for machines and engines; filters being parts of machines.

Class 09

Commercial safety nets; photovoltaic cells and photovoltaic modules featuring an encapsulant or film for the back sheet of a photovoltaic module; computer application software for providing an interactive digital swatch book and enabling users to design paper-based products and store the specifications for making the product that has been designed; software; computer software; application software; safety markers; protective and safety equipment; safety restraints, other than for vehicle seats and sports equipment; safety apparatus [for the prevention of accident or injury]; photovoltaic cells; photovoltaic modules; calibrated photovoltaic reference cells; modules for photovoltaic power generation.

Class 10

Film and sheet or thermoplastic polyurethane (TPU) or other polymers extruded for use in medical applications, namely liquid and viral barriers, wound dressings, transdermal components and waterproof-breathable medical textiles; polyurethane foam bandage [supportive]; quantitative polymerase chain reaction [PCR] instruments for medical use; real-time polymerase chain reaction [PCR] instruments for medical use; dressing forceps [for surgical use]; materials for bandaging [elasticated]; protective breathing masks made of non-woven materials for surgical

applications; medical apparatus for assisting breathing; sheets [drapes] for medical use; incontinence sheets; medical examination sheets.

Class 11

Feed spacers as components for reverse osmosis units, water purification units and water desalination units; feed spacers for membrane separation units as components of water filters; filtration netting and tubing [parts of water filtration installations]; netting and tubing in the nature of components for water filters; water filters; pipe heating tape; apparatus and installations for lighting, heating, cooling, steam generating, cooking, drying, ventilating, water supply and sanitary purposes; electric surface heating tapes.

Class 16

Adhesive materials for office use; adhesive paper tapes for stationery purposes; adhesive tapes for stationery purposes; paper for use in the manufacture of battery separators; business forms, carbon paper and laminated paper for use in the manufacture of furniture; correcting tapes for type; paper in the form of sheets for use in the manufacture of vehicles wraps, fleet graphics, outdoor signage and building wraps; paper; paper products, namely filter papers, printing paper, photo-imaging paper, carbon paper and paper for the manufacture of bibles; paper wrappers for drinking straws; paper sheets used for laminating to particleboard for use in the manufacture of furniture and wall paneling; plastic adhesives for household or domestic use; self-adhesive plastic sheets for lining shelves; plastic shelving display liner formed from or incorporating one or more degradable, biodegradable or oxo-biodegradable polymers, namely plastic self-adhesive sheets for lining display shelves; plastic bags formed from or incorporating one or more degradable, biodegradable or oxo-biodegradable polymers for packaging goods, material handling, food handling and the collection and harvesting of fruits and nuts; self-adhesive plastic sheets for lining display shelves; sticky tape for stationery

purposes; stationery, namely plastic film for digital printing; wine label paper; paper for printing and writing; thermal transfer paper; envelopes; latex saturated paper for publishing and packaging products; papers consisting primarily of fibers, for publishing and packaging products; paper materials for the publishing and packaging industries; stationery being paper and bond paper; heat transfer paper; mailing labels; translucent printing paper; stationery, namely, paper stationery, writing stationery; color paper; colored card stock; white paper with pre-printed design; colored paper with pre-printed design; printed paper; dye sublimation paper; backing paper for abrasives; fine and specialty papers, namely printing and writing papers; coated paper namely for the manufacturing of labels or tags; crepe paper; tape base paper; latex saturated release paper; latex impregnated printing paper; text and cover paper; translucent paper; paper for use in the manufacture of books and book covers; uncoated paper; coated paper, particularly suitable for the manufacture of labels, tags, books, brochures, maps and packages; strengthened and coated paper-based material used as a substitute or alternative for plastic for the manufacture of stored value cards; paper, cardboard; coated paper; transparencies and transparency film; printed matter; book-binding materials; photographs; stationery; adhesives for stationery or household purposes; artists' material; paint brushes; typewriters and office requisites (except furniture); instructional and teaching material (except apparatus); plastic materials for packaging (not included in other classes); printers' type; printing blocks; coated paper and paper boards; uncoated paper and paper boards; carbonless copying paper; Bags [envelopes, pouches] of paper or plastics, for packaging; Packaging materials made of cardboard; containers and cartons made of paper and/or of paper boards; school supplies; writing pads; binders; notebooks; files (office requisites); folders (stationery); document and stationery-type portfolios; index cards and dividers; book covers; report covers; carton blanks; cartons; packaging materials made of paper; Packaging materials made of plastic; books; pamphlets; reproductions of images; copying paper, handwriting specimens for copying and plastic coated copying paper; paper, in particular letter paper and

stationery articles made of paper, cardboard and cardboard articles [stationery] printed matter, newspapers and periodicals, books, bookbinding articles, photographs; stationery, adhesive materials for stationery; paperboard; pressed paper; art paper; construction paper; corrugated paper; craft paper; fiber paper; filter paper; gummed paper; laminated paper; masking paper; parchment paper; printing paper; recycled paper; paper for reproduction machines; safety paper; synthetic paper; wrapping paper; writing paper; latex saturated paper; paper of non-woven materials; paper book covers; archival paper and paperboard; packing paper for cushioning or padding; edge reinforcing and binding paper; book bindings; book binding tape; paper tape; picture framing mat boards; printing papers, writing papers, notebooks, text and cover papers, scrapbook papers, stationery, letterhead, envelopes, business cards, index cards, memo paper, office paper pads, writing pads; heat transfer papers; tape base papers, latex saturated release papers; medical packaging papers; top quality letter paper; top quality text paper; top quality paper for books; top quality envelopes; top quality paper labels and top quality packaging paper; napkin paper; stickers; adhesives for stationery or household purposes; framed pictures; pens; pencils; posters; trading cards; calendars, calendars and holiday gift cards; paper tablecloths; magazines; photo prints; greetings cards; transfers [decalcomanias], heat transfer paper; printed event programs; illustration boards; comic books; bookmarks; tablecloths of paper; stickers albums; notepads; address book; appointment books; diaries, pencil sharpeners, non-magnetically encoded telephone calling cards, postal stamps, personal checks, cheque book covers, senders' labels of paper, paper sacks, banners; door signboard of paper; party bags of paper; rulers, erasers; window decals; collector's postage stamps; lithographs; gift packaging, paper cake decorations; paper, card, cardboard; stationery, writing paper, bond paper, printed matter; adhesive materials for stationery or household purposes; artists' materials; office requisites, other than furniture; instructional and teaching material, other than apparatus; plastics materials for packaging purposes; paper stock; paperboard blanks; printing paper;

reproduction paper; cushioning or padding made of paper for packing purposes; picture framing mat boards; chemically saturated paper that is to be applied to a garment before printing directly onto the garment; saturated papers, coated papers, and impregnated papers for a variety of tapes; glue-glycerine saturated paper, and latex saturated paper; impregnated and coated papers; latex saturated paper in the laminated form; papers coated with resinous and plastic films especially suitable for use as a covering for the following items: decorative boxes, books, albums, loose leaf binders, stationery items, leather novelties, luggage and small leather goods; antimicrobial file folders; plastic film for wrapping; plastic film for packaging; films for wrapping foodstuffs; polythene films for wrapping or packaging; adhesive tapes [stationery]; paper and cardboard; bookbinding material; stationery and office requisites, except furniture; drawing materials and materials for artists; paintbrushes; instructional and teaching materials; plastic sheets, films and bags for wrapping and packaging; printers' type, printing blocks; adhesive plastic film for wrapping.

Class 17

Acoustical insulation for buildings; adhesive tapes for use in commercial or industrial manufacturing; adhesive coated amalgamating plastic tapes; adhesive packing tape for industrial or commercial use; adhesive tape for industrial or commercial use; adhesive tape for sealing cartons for industrial or commercial use; adhesive tapes for use in commercial or industrial manufacturing and adhesive sealants, other than for stationery and not for medical or household purposes; amalgamating plastic tapes; amalgamating plastic tapes being adhesive coated for industrial and commercial use; cable insulating tapes; cellulose acetate film used in the manufacture of pressure sensitive adhesive tape; drywall joint tape; duct tape; electrical insulating tape; electrical tape; films and sheets made from polymers, thermoplastic polyurethane (TPU) and extruded plastic for use in the manufacture of optical interlayers in the production of laminated glass and glass composites and in the protection of painted or metal surfaces and semi-processed plastics in the nature of film and sheet or

thermoplastic polyurethane (TPU) or other polymers extruded for use and in general commercial markets; filtering materials being semi-processed foams or films of plastic for industry; flexible plastic tubing for general use; floor marking tape; insulating tapes; insulation tape for use on pipes and other air conditioning, refrigeration, heating and ventilation equipment; adhesive tapes and films for industrial and commercial use; non-adhesive tapes and films of plastic for industrial and commercial use; adhesive tapes and films in the nature of anti-slip tape for securing floor coverings to prevent slippage; non-adhesive tapes and films of plastic in the nature of anti-slip tape for securing floor coverings to prevent slippage; non-metal weld backing tapes [Electrical insulating tapes]; pipe joint tape; plastic tubing for general manufacturing use; plastic sheeting used in the construction industry as water run-off containment barriers; adhesive-coated plastic sheets for use in manufacture of industrial towels, golf towels, quilt backing, construction enclosure film, crop cover and reinforced bags made of paper, tissue, film, foil and fabric materials; plastic sheets for use in manufacture of reinforcements for paper, films and non-woven products; semi-processed plastic sheets for paper, films and non-woven products; plastic tubing for general use; polythene coated plastic tapes; polythene coated plastic tapes for industrial and commercial use; polythene coated plastic waterproof tapes; polythene coated plastic waterproof tapes for industrial and commercial use; polyurethane film for use in glass laminations; extruded solid and hollow plastics, namely thermoplastic and fluoropolymer rods, cores, tubes and shafts for general manufacturing use and as conduits for general manufacturing use; protective adhesive tapes for industrial or commercial use; protective coatings, namely premium hard coat polycarbonate plastic and polyester plastic films for printing on substrates for opto-electric applications, namely application to flat panel or LCD displays; protective plastic film for painted surface; protective web sleeving of plastic used to insulate and pack items during shipment; sealants in the nature of cloth tapes; seam tape for building [insulating tapes]; self-amalgamating plastic tapes; self-amalgamating tape; semi-finished apertured plastic film for use in medical and

hygienic products; tapes with adhesive backing for industrial or commercial use; semi-processed thermoplastic polyurethane (TPU) film and sheet, including film and sheet from other high-performance polymers, that are extruded for use in medical textiles, transdermal devices, wound care devices and other general medical devices; wallboard joint tape; water swellable plastic tapes for protection from water ingress; water swellable plastic tapes for protection of water ingress; waterproof adhesive tapes with cloth backing for industrial and commercial use; waterproof plastic tapes and films; electrical insulation tape; masking tape; adhesive tape for industrial and commercial work; adhesive pressure sensitive tape [other than for stationery and not for medical or household purposes]; adhesive tapes for industrial purposes; industrial adhesive tapes for reinforcing edges; electrical insulating tapes; masking tapes; adhesive tapes for industrial and commercial work; adhesive pressure sensitive tape [other than for stationery and not for medical or household purposes]; edge reinforcing tapes for industrial use; electro-insulating tape, adhesive tape, adhesive tape for industrial and commercial work, adhesive pressure-sensitive tape (hand-sensitive) [other than for stationery and not for medical or household purposes], insulating tape, adhesive bands for reinforcing borders; recycled plastics; plastics insulating materials; plastics in extruded form for use in manufacture; recycled compound plastics; semi-processed plastics; insulating materials of plastics; plastics fibers [other than for textile use]; plastics in extruded form for use in production and industrial applications; semi-worked plastic substances; plastic substances, semi-processed; plastic materials in the form of moldings for use as cushioning materials in packaging; plastic spring insulators as components for cushion constructions, mattresses and box springs; plastic spring insulators for mattresses and cushions; electrical insulation paper.

Class 19

Building materials, namely, composite panels composed primarily of nonmetal materials; erosion control netting formed from or incorporating one or more

degradable, biodegradable or oxo-biodegradable polymers for use as a reinforcing material for growing and transplanting grass sod; erosion control netting formed from or incorporating one or more degradable, biodegradable or oxo-biodegradable polymers for construction and non-construction use; erosion control netting, not of metal; erosion control sheeting or fabric for construction use; geotextiles for erosion control; gutter supports, not of metal; gutter brackets, not of metal; non-metal fencing in the nature of plastic netting; non-metallic building materials, namely, erosion control sheeting, netting or fabric formed from or incorporating one or more degradable, biodegradable or oxo-biodegradable polymers for construction and non-construction use; non-metallic landscape and building products, namely pavers; plastic fences; wood and veneer wood for use in the manufacture of furniture and decorative panels; non-metallic building materials; non-metallic fencing; non-metallic fences; plastic fences; erosion control netting for use as a reinforcing material for growing and transplanting grass sod.

Class 20

Packaging materials being plastic shipping and storage boxes; plastic closures; plastic mesh packaging material being industrial packaging containers; decorative objects [ornaments] made of plastic; packaging containers of wood or plastic; plastics components for packaging containers; plastic trays for foodstuff packaging; transparent food containers for commercial packaging use; packaging boxes in made-up form [plastic]; floor units of cardboard for displaying merchandise.

Class 22

Elastic netting for meat products; elastic netting; extruded plastic netting for wrapping around pallets or goods on pallets for the purpose of shipping, transporting or storage; feather control netting for poultry and turkey trucks; nets of thermoplastic polyurethane (TPU) or polymers for use in textile lamination; food handling netting in the nature of elastic netting for meat products and produce; Medium density

polyethylene or polypropylene netting for use in the wrapping and transportation of trees; netting [not of metal or asbestos]; netting for the collection and harvesting of fruits and nuts; netting for use in the wrapping and transportation of trees; non-metal net wrapping for pallets; non-woven polymeric fibers for textile use; pest barrier netting, rodent and bird control netting for commercial purposes; plastic netting employed as a backing for turf; plastic netting for control of pests for agricultural purposes; plastic netting for material handling, namely, plastic braces and harnesses for handling loads; plastic netting for material handling; plastic netting for the collection and harvesting of fruits and nuts; bags [sacks] of synthetic plastic materials for bulk storage; plastic netting formed from or incorporating one or more degradable, biodegradable or oxo-biodegradable polymers employed as a backing for turf; plastic netting formed from or incorporating one or more degradable, biodegradable or oxo-biodegradable polymers for packaging goods, material handling, food handling and the collection and harvesting of fruits and nuts; plastic netting formed from or incorporating one or more degradable, biodegradable or oxo-biodegradable polymers for packaging goods; plastic netting in tubular form for containment of various materials and deployed as containment barriers; plastic netting or mesh for industrial uses, namely, for protecting HVAC units and pool heaters from damage; plastic screening net; processed textile fibres of flax for use as biocomposite material; reinforcing and structural support netting formed from or incorporating one or more degradable, biodegradable or oxo-biodegradable polymers for the manufacture of textiles for packaging goods; rockfall prevention nets; rodent control and bird control netting for crop protection; polypropylene mesh nets placed in soil, sand and similar growing media to facilitate and promote the growth of grass and turf; tents, tarpaulins; nets; chemical fiber nettings; elastic netting for edible goods, foodstuffs, meats, poultry and seafood products; polyester plastic netting for packaging goods; non-metallic nets for wrapping pallets; non-metallic nets for wrapping bales; bags [sacks] of synthetic plastics for bulk storage; polyethylene sacks for the storage of materials in bulk; tarpaulins, awnings, tents, and unfitted vehicle covers; plastic bags [sacks]

for the transport of bulk materials; plastic bags [sacks] for the storage of bulk materials; polythene sacks for the transport of materials in bulk; polythene sacks for the storage of materials in bulk; polythene bags [sacks] for the transport of materials in bulk; polythene bags [sacks] for the storage of materials in bulk; plastic netting for general manufacturing use; plastic netting for industrial applications and general use in the industrial arts.

Class 24

Fabric for use in the manufacture of filter cloths; filtering materials of textile for use in plate and frame filters, filtering materials of textile for use in filter presses, and filtering materials of textile for use in tube presses, for use in the kaolin and ceramic industries, mining, quarries, coal, general chemical and pharmaceutical industries; nonwoven fabric for use in medical applications; non-woven textile fabrics; plastic material [substitute for fabrics] for reinforcement for woven and non-woven fabrics; mattress covers of plastic [textile substitute]; reinforced non-woven fabric for use in the manufacture of mattress and box spring covers and furniture and automobile upholstery; polyester fabric; resin-based nonwoven fabric on the roll, made of polyester and glass, sold for use in the manufacture and assembly of wings in the aircraft industry; woven fabric, such as used for filtering in the pulp and paper industry; cloth; polyester textiles; textiles.

Class 27

Carpets, rugs, mats, matting, carpet underlays, floor coverings and floor coverings made of textiles, all the aforesaid goods reinforced with netting; carpet padding reinforced with plastic webbing; carpets and carpet underlays reinforced with plastic webbing; anti-slip material for use under rugs; carpet and rug underlays; non-slip underlays; underlayment padding for artificial turf.

Class 28

Athletic sporting goods, namely adhesive grip tapes for hockey stick; grip tapes for

ice hockey sticks; sporting articles; nets for sports; party games; latex balloons; paper party hats; foil balloons; puzzles (sliding, colored).

Class 34

Cigarette paper; pocket machines for rolling cigarettes for use as smoking articles; rolling cigarettes, cigars and cigarillos; reconstituted tobacco; wrapping papers for cigarettes, cigarillos, and cigars; smoker's articles, namely cigarette paper made of hemp; smokers' articles; absorbent paper for tobacco; absorbent paper for tobacco pipes; books of cigarette papers; cigarette rolling papers; tipping paper for cigarettes; filters for tobacco products; cigarette filters; tobacco filters; tobacco, raw or manufactured; cigarette tobacco; tobacco powder; tobacco substitutes; rolling tobacco; leaf tobacco; smokeless tobacco; flavored tobacco; smoking tobacco; tobacco products; humidifiers for tobacco; flavourings for tobacco; cigarettes containing tobacco substitutes; articles for use with tobacco; flavourings, other than essential oils, for tobacco substitutes; hand held machines for injecting tobacco into paper tubes; natural tobacco filler substitute; tobacco blends for cigarettes; tobacco blends for roll-your-own cigarettes.

Class 42

Design and development of medical tapes, transdermal patches, plasters, bandages, dressings, wound dressings, dressings for catheters, adhesive materials, non-adhesive and adhesive tapes, adhesive paper tapes, sticky tape, correcting tapes, adhesive tapes and adhesive substances not for surgical or stationery purposes, non-adhesive and adhesive tapes and films, filtering materials being semi-processed foams or films of plastic, non-adhesive and adhesive tapes and films insulating tapes, amalgamating tapes, adhesive coated amalgamating tapes, self-amalgamating tapes, cable insulating tapes, water swellable tapes for protection of water ingress, waterproof tapes and films, waterproof cloth tapes, uncoated cloth tapes, cloth tapes, polythene coated tapes, polythene coated waterproof tapes, parts and fittings for all

of the aforesaid; environmental services, namely design for others in the field of environmental engineering; environmental consultancy services; environmental assessment services; scientific and technological services and research and design relating thereto; industrial analysis, industrial research and industrial design services; quality control and authentication services; design and development of computer hardware and software.

FUSILIER

Goods and/or Services:

Class 09

Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, radio, television, sound recording, sound reproducing, telecommunications, signalling, checking (supervision) and teaching apparatus and instruments; testing apparatus and instruments; tape measures; magnets; electrical and electronic apparatus for use in the reception of satellite, terrestrial or cable broadcasts; radios and receivers of radio signals; aerials; relays; thermometers; electrical locks; alarm apparatus and instruments; fire extinguishing apparatus and instruments; GPS apparatus and instruments; remote controls; anti-dazzle shades; switches for controlling electrical accessories; batteries; battery chargers; telephones; computers; computer hardware; computer software; computer software applications (apps); electronic games software; electronic computer games; portable and/or hand-held electronic devices for receiving, playing and transmitting music, sounds, images, text, signals, information and code; electronic publications [downloadable]; tapes, discs and wires, all being magnetic; audio cassettes and data cartridges; blank and pre-recorded audio and video cassettes, tapes and cartridges; compact discs; DVD discs; CD-Roms; memory cards and discs; memory carriers; music, video, sound and/or audio recordings (downloadable); MP3 players; tape players; compact disc players; telephone ring tones (downloadable); apparatus and

instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; smart cards; data storage apparatus, equipment and instruments; cases for mobile telephones; camera casings; electronic locks and locking apparatus; multimedia cards, memory cards, flash memory cards, memory chips, jack plugs, plug-in cards, SIM cards, telephone calling cards; global positioning systems; protective clothing; eyewear; sports eyewear; protective eyewear; sunglasses; cases for eyewear; cases for sunglasses; frames for eyewear; straps for sunglasses and eyewear; helmets; protective visors; parts and fittings for all the aforesaid goods.

Class 12

Land vehicles; land vehicle axles, bodies and chassis; land vehicle brakes, clutches and gears; engines and motors for land vehicles; steering wheels for vehicles; vehicle seats and upholstery; vehicle wheels; vehicle roof-racks and roof bars; vehicle suspensions; tow bars; vehicle windows; radiator grilles for land vehicles; parts and fittings for all the aforesaid goods.

Class 16

Printed matter; publications; newspapers; magazines; event programmes and brochures; comics; journals (publications); books; almanacs; maps; charts; user manuals; instructional and teaching materials (other than apparatus); posters; postcards; greeting cards; calendars; diaries; cards; certificates; collector cards; sticker albums; bumper stickers; stickers; writing instruments; printed advertising material; photographs; stationery; artists' materials; picture mounts for works of art, photographs and certificates.

Class 25

Clothing, footwear, headgear; sweatbands; sun visors; wristbands.

Class 35

Retail services and wholesale services connected with chemicals and chemical products for use in the operation, repair, servicing and maintenance of vehicles, brake fluid, defrosting compositions, antifreezing compositions, adhesive compositions for repairing surfaces, sealing compositions, aftershave, colognes, cosmetics, perfumery, toiletries, soaps, essential oils, dentifrices, transfers for cosmetic purposes, cleaning, bleaching and polishing preparations and substances, degreasers, sandpaper, sandcloth, emery cloth, turpentine, waxes, petrol, diesel, oils, greases, lubricants, fuels, badges, key chains, watch chains, key rings, chains, locks, nuts, bolts, screws, cables and wires (non-electric), ironmongery, spectacles, sunglasses, cases for spectacles and sunglasses, sunshades, switches for controlling electrical accessories, batteries, battery chargers, electronic games, radios and receivers of radio signals, aerials, video tapes and audio tapes, compact discs, DVDs, photographic apparatus and instruments, telephones, relays, thermometers, electrical locks, alarm apparatus and instruments, fire extinguishing apparatus and instruments, telecommunication apparatus and instruments, GPS apparatus and instruments, tape players, compact disc players, testing apparatus and instruments, computer software, computer software applications (apps), computer hardware, tape computer games, recording media, magnets, tape measures, computer games, lighting apparatus and instruments, light bulbs, headlamp covers, vehicle reflectors, torches, vehicles, vehicle axles, bodies and chassis, vehicle brakes, clutches and gears, engines and motors for vehicles, exhausts, steering apparatus, vehicle seats and upholstery, vehicle wheels, vehicle roof-racks and roof bars, vehicle suspensions, tow bars, vehicle windows, radiator grilles, jewellery, watches, clocks, watch bands, straps and chains, bracelets, buckles, cufflinks, key rings, key fobs, badges, tie clips and pins, printed matter, periodical publications, books, manuals, calendars, postcards, posters, pictures, photographs, photograph albums, cheque book covers, binders, files, banners, stickers, decalcomanias, playing cards, tattoos, atlases, stationery, rubber and plastic materials, storage containers and boxes, vehicle registration plates, furniture,

mirrors, picture frames, blinds, luggage, trunks, umbrellas, belts, bands and straps, briefcases, key cases, back packs, rucksacks, bags, boxes, tool belts, wallets and purses, covers for vehicles, domestic utensils and containers, mugs and cups, glassware, chinaware, earthenware, textile articles, towels, blankets, flags and pennants, clothing, footwear, headwear, carpets, rugs, mats and matting, floor covering, games and playthings, sporting articles, beer, ale, mild, lager, stout, porter, non-alcoholic beverages, fruit juices and drinks, mineral and aerated waters, alcoholic beverages, cigarette lighters, smokers' requisites, parts and fittings for any of the aforementioned goods; advertising services; marketing services; business consultancy services and business management services; organisation of customer loyalty programmes; advice, information and consultancy services relating to all the aforesaid services.

Class 37

Inspection, repair, restoration, maintenance, reconditioning, servicing, diagnostic tuning, care, cleaning, greasing, painting and polishing services for motor vehicles and engines; repair information for motor land vehicles; construction information for motor vehicles relating to repair and maintenance; motor vehicle maintenance and repair; anti-rust treatment for motor vehicles; repair, retreading, vulcanization, replacement of tyres; servicing of motor vehicles; installation of motors; installation of electric and electronic equipment in motor vehicles; vehicle breakdown service relating to vehicle repair, vehicle breakdown assistance relating to vehicle repair, vehicle roadside breakdown service relating to vehicle repair; installation of motor vehicle interiors; installation of parts and fittings for motor vehicles; consultancy, information and advice relating to all the aforesaid services.

Class 41

Education services; entertainment services; club services; rental of sports equipment; recreational services; publishing services; providing on-line electronic publications

(not downloadable); providing on-line electronic audio, video and audio-visual film, data and sound footage relating to sports; provision of streamed (non-downloadable) content in the nature of audio, images, text, signals and information relating to sports events; publication of magazines, books and printed matter; live show production services; organising of sporting events, activities and competitions; measurement of time at sports events and competitions; ticket reservation services relating to sports and entertainment; betting, gaming and gambling services; leisure services; arranging conferences, seminars, symposiums or workshops; arranging exhibitions or festivals; ticket reservation and booking agency services for entertainment, sporting and cultural events; organisation of sports events; automobile owners and enthusiasts club services [entertainment services]; film and TV programme production services; organisation of shows, exhibitions and sports competitions; rental of sports equipment; advice, information and consultancy services relating to all the aforesaid services.

Class 42

Scientific and technological services and research and design relating thereto; industrial design, analysis and research services; research, development and testing of new products and materials; design services; engineering services; vehicle testing services; research services; technical advisory and consultancy services for licensees and franchisees in the field of engineering; preparation of engineering drawings, technical documentation and reports; commissioning, test and inspection of plant, machinery and apparatus; design services relating to vehicles; design and development of computer hardware and software, hosting, creating and maintaining websites; computer engineering services for Interactive communications and broadcasting; installation, rental and maintenance of computer software; weather forecasting; computer engineering services; electronic storage of data; design, installation, maintenance or updating of computer software; design of computer hardware; computer programming services; providing Internet search engines; rental

or leasing of computer hardware or software; testing, research, assessing, consultancy, advising or providing information in relation to computer programming services; conducting scientific research and preparation of expert technical reports; provision of online mapping; online website hosting services allowing users to publicise and share data online; advice, information and consultancy services relating to all the aforesaid services.

COPELAND

Goods and/or Services:

Class 07

Compressors for air conditioning and refrigeration systems; compressors for industrial applications, namely, gas systems, refrigeration systems, heat pump systems and carbon capture systems; variable speed drives for HVAC and refrigeration applications; oil separators for refrigerant systems.

Class 09

Refrigerated shipping container monitoring systems comprised of computer hardware, wireless hubs, modems, embedded software and downloadable software applications for personal computers and mobile devices for use in tracking, collecting, measuring, analyzing, and reporting on temperature, humidity, carbon dioxide, oxygen, environmental conditions, status and performance of cargo containers, and refrigeration and cold-chain transportation systems and providing alerts of triggering events via a computer network or mobile device; commercial facility and building automation systems comprised of computer hardware and embedded software for monitoring, controlling and sending alerts for HVAC, refrigeration, electrical power, and other building systems; downloadable software applications to allow users to interface with commercial facility and building automation systems and to receive alerts; downloadable computer software applications for personal computers and mobile devices used to allow users to interface with electronic cargo logging and

tracking devices and to receive alerts; downloadable computer software applications for personal computers and mobile devices used to allow users to interface with temperature monitoring systems and to receive alerts; electronic cargo logging and cellular-based, real-time tracking devices for monitoring, recording, logging data, transmitting, and sending alerts and alarms relating to temperature, humidity, vibration, security, carbon dioxide, location, and environmental and security conditions to provide oversight of the transportation and storage of food and other products and to provide chain of custody verification; temperature monitoring systems comprised of temperature sensors, data recorders, real-time cellular-based trackers, and apparatus for computer wireless network, all for use in collecting, measuring, analyzing, and reporting on the temperature of products throughout refrigeration and cold chain distribution and performance of refrigeration and cold-chain distribution systems and providing alerts of triggering events, all via a computer network; environmental monitoring systems comprised of sensors for temperature, humidity, airflow, gas levels, or other environmental conditions, data loggers, wireless transmitters, and apparatus for computer cellular network, all for use in collecting, measuring, analyzing, and reporting on environmental conditions and providing alerts of triggering events; downloadable computer software application used to allow users to interface with environmental monitoring systems and to receive alerts; electrical and mechanical timers; electronic controls for air conditioning and refrigeration systems; electronic controls for food display cases, refrigerated cabinets, and commercial food service equipment; temperature, humidity and pressure probes for refrigeration and HVAC applications; environmental monitoring system comprised of wireless transmitters and receivers that measure pressure, humidity, temperature, and include alarm and reporting functions; downloadable computer software applications for personal computers and mobile devices used to allow users to interface with remote temperature and humidity monitors and to receive alerts; components for use in heating, ventilation, air conditioning, and refrigeration (HVACR) systems and appliances, namely,

thermostats, furnace controls, control valves for regulating the flow of gas for use in furnaces and other gas appliances [electromagnetic switches], ignition controls for furnaces and other gas appliances, thermocouples, thermopiles, flame sensors, fan controls, electric heater controls, water heater controls, pool heater controls, hydronic zone valves, namely, solenoid valves for regulating the flow of water or steam in hydronic heating or cooling systems, electrical relays and transformers, solenoid valves for regulating the flow of refrigerant in air conditioning and refrigeration systems, defrost controls for use in heat pump systems, electrical contactors, electromechanical oil controls for use in refrigerant systems, temperature controls for refrigeration and heating systems, pressure controls for use in refrigerant systems; electronic controls for refrigerant and gas compressors for industrial applications; electronic controls for compressors for air conditioning and refrigeration systems; electronic modules for monitoring diagnostics information relating to the operation of compressors for refrigeration and air conditioning systems; downloadable software applications to allow users to interface with compressor diagnostic systems and to receive alerts; electronic modules for monitoring current and voltage of compressors for refrigeration and air conditioning systems; heating, ventilation, and air conditioning (HVAC) monitoring system comprised of electronic data hub and sensors that measure temperature, voltage and other HVAC equipment parameters, and include alarm and reporting functions; downloadable software applications for mobile devices to allow users to interface with HVAC monitoring systems and to receive reports and alerts; remote temperature and humidity sensor modules for use with thermostats; downloadable computer software applications for mobile devices for monitoring and controlling HVAC systems and to allow users to receive alerts and modify thermostat settings; refrigerant leak detectors; refrigerant leak detection systems, consisting of sensors for detecting refrigerant leaks, and control unit comprised of computer hardware and embedded computer software sold as a unit; refrigerant leak detection and isolation systems, consisting of sensors for detecting refrigerant leaks, electronic solenoid valve, and

control unit comprised of computer hardware and embedded computer software sold as a unit; moisture indicators for use in refrigerant systems.

Class 11

Heat pumps; desiccant heat exchange modules for use in heating, ventilation, and air conditioning (HVAC) system; thermostatic expansion valves for controlling the flow of refrigerant in air conditioning and refrigeration systems; spark ignitors for furnaces; air filters for HVAC systems; filter driers; shut-off valves and check valves for use in controlling the flow of refrigerant in air conditioning and refrigeration systems; mufflers in the nature of heat exchangers and heat accumulators for use in refrigerant systems; dosing valves for controlling the level and the distribution of oil in refrigerant systems.

Class 42

Providing on-line, non-downloadable, internet-based software application to allow users to interface with refrigerated shipping container monitoring systems and to receive alerts; providing on-line, non-downloadable, internet-based software application to allow users to interface with location, security, temperature and other environmental monitoring systems to enable oversight of in-transit shipments and to receive alerts; remote monitoring of the condition of commercial refrigeration and electrical systems, and remote monitoring of commercial refrigeration and electrical systems for quality control; remote monitoring of heating, ventilation and air conditioning (HVAC) systems for energy efficiency.

Class 45

Remote monitoring of commercial refrigeration, and electrical systems for security purposes and providing security guard services to respond to alarms.

Class 03

Non-medicated cosmetics and toiletry preparations; toothpaste; non-medicated skin care preparations, namely, cleansers, creams, lotions, moisturizers, barrier creams and emollients; hand cleaning preparations; non-medicated hand soaps; non-medicated skin care preparations.

Class 05

Sanitary preparations for medical purposes; antiseptics; disinfectants; antifungal preparations; hand sanitizing preparations; plasters; materials for dressings; surgical, medical and wound dressings; medical tapes; surgical tapes; adhesive pads for medical use; dental and orthodontic preparations and materials; material for stopping teeth; dental wax; dental impression materials; dental cements; biological/non-biological and chemical indicators for monitoring sterilization processes for medical, dental or veterinary purposes; biological and chemical Indicators for use with autoclaves in monitoring the efficacy of sterilization processes for medical, dental, and veterinary purposes; chemical indicator strips for monitoring exposure to glutaraldehyde, ethylene oxide, and other sterilization agents used in medical, dental, and veterinary sterilization processes; biological/non-biological and chemical indicators in the nature of steam sterilization indicator strips and tape containing

thermally responsive compounds for monitoring sterilization processes for medical, dental or veterinary purposes; sterilization monitor testing kits consisting of reagent strips for testing the sterility of surgical and medical instruments for medical or veterinary purposes; sterilizing preparations for medical purposes in the form of gases and gas mixtures sold in pre-filled cartridges; adhesive pads for use with wound dressings to seal and protect wounds from moisture; hydrocolloid pads for use with wound dressings to seal and protect wounds from moisture; biodegradable adhesive pads for use with wound dressings to seal and protect wounds from moisture; moisture absorbing, adhesive polymer pads for use with wound dressings that promote wound healing; moisture absorbing, adhesive polymer pads for use with wound dressings to seal and protect wounds from moisture; conformable adhesive pads for use with wound dressings to seal and protect wounds from moisture; burn dressings; corn pads; corn rings for the feet; corn plasters; chilblain preparations; dressings for the treatment of diabetic ulcers, pressure ulcers, surgical wounds, vascular and circulatory system-related skin diseases; medicated preparations and substances for the treatment of scars and scar-related skin conditions; antimicrobial metal coatings and powders containing silver oxysalts to treat the growth of bacteria for use in and on medical and surgical wound and burn dressings; antimicrobial preservatives containing silver oxysalts for the treatment of skin and wounds; antiseptic liquid bandages; liquid bandages for skin wounds; medical topical preparations, namely, liquids that form a barrier film to protect skin and treat damaged skin; bandages for dressings; bandages for skin wounds; adhesive bandages; surgical bandages; biological indicators for monitoring sterilization processes for medical or veterinary purposes; disinfectant and film forming disinfecting solution for use on incise area of a surgical patient; dressings for the treatment of wounds, namely, foam-based dressings, colloid and collagen-based dressings, and chemically treated dressings; foam dressings for wound healing applications; foam pads for use as materials for medical wound dressing; gauze for dressings; materials for dressings, namely, gauze, hydrogel pads, hydrocolloid pads;

antimicrobial hand-sanitizing preparations; hydrogel for medical purposes; medical adhesive strips for closing wounds or incisions; medical and surgical hemostatic preparations for halting blood flow; medical wound dressings for use in cleansing wounds, exfoliating skin and wounds and removing debris from skin and wounds; dressings for the management of exudate from wounds; medicated skin care preparations; medicated compresses; medical cleansers for skin and wounds; sanitizing wipes and pads; antiseptic preparations; medicated pads impregnated with anti-infective preparations; hydrocolloid dressings; plasters for medical purposes; medical plasters; adhesive plasters for medical purposes; swabs for medical purposes; medicated swabs; therapeutic medicated bath preparations; medicated bath preparations; bath salts and bath preparations for medical purposes; transparent film dressings; wound care products containing silver, namely, antimicrobial medical and surgical wound and burn dressings; impregnated bandages, surgical bandages, and dressings for skin wounds; wound dressings for negative pressure tissue treatment; anti-microbial wound dressing; bandages impregnated with anti-infective preparations; eye patches for medical purposes; anti-cavity dental coating preparations containing fluoride; bonding and primer materials for dental purposes; material for repairing teeth and for dental crowns and bridges; dental ceramics; material for dental bridges; dental adhesives; adhesives for dentistry and dental technical purposes; dental bite registration materials; duplicating material for dental and dental technical uses, embedding material for dental and dental technical uses; dental sealants; dental composite materials; teeth filling material; dental restoration compounds; etching materials for dental use; fissure sealant for dental and dental technical purposes; material for lining and filling tooth cavities; material for tooth crowns and tooth bridges for dental and dental technical purposes; materials for artificial teeth; plastics for use as modeling material for dental purposes; materials for dental fillings and for sealing purposes; medicated candy, namely, a xylitol sweetened mint; medicated dental rinses; medicated anti-cavity mouth rinses; medicated anti-cavity dental rinses; medicated mouthwash; medicated

dentifrices; medicated toothpaste; plastics in the form of paste or powder for the manufacture of tooth crowns, tooth bridges, artificial teeth and plastic prostheses; plastics as modelling material for dental uses, tooth fillers, tooth lacquers; sand-blasting agents for adhesive restoration and for pretreatment for adhesive attachments for dental and dental technical uses; bonding and primer materials for dental purposes; dental veneers; dental veneers for use in dental restoration; dental resin for temporary bridges, crowns and veneers; orthodontic bonding paste; adhesives for use with orthodontic appliances.

Class 09

Speech recognition software; software for medical transcription, coding and reimbursement; software for creating and maintaining medical, patient and healthcare records; computer hardware for voice transcription; electronic apparatus for testing the sterility of medical equipment; computer hardware and downloadable computer software for use in the healthcare field in connection with reporting, scanning and medical coding of patient medical information; computer hardware and downloadable computer software for use for reporting and clinical documentation of patient medical information; computer hardware and downloadable computer software for creation of clinical documentation of patient medical information in health information systems; downloadable computer software for natural language, speech, speaker, voice and/or voice-print recognition, identification, verification and/or processing for use in the field of medical records and health information management; computer hardware and downloadable software for managing patient medical information; computer software for retrieval, display, and browsing of medical information; computer hardware in the nature of stand-alone voice controlled devices for medical and data transcription; downloadable audio to text transcription computer software used for controlling stand-alone voice controlled devices; wireless communication devices for voice and data transmission; computer hardware and downloadable software used for the control of voice controlled information and

communication devices; downloadable voice recognition software; downloadable computer software for medical records management, namely, software for recording and reporting patient medical data for billing, third party payer and regulatory agencies, and for assessing, tracking, and reporting infections; downloadable computer software for natural language, speech, speaker, voice and/or voice-print recognition, identification, verification and/or processing for use in the fields of transcription, healthcare documentation, healthcare records management; computer software and computer software development tools for speech and language recognition; computer software for natural language, speech, speaker, voice and/or voice-print recognition, identification, verification and/or processing for use in the fields of medical records, medical coding, compliance and health information management; downloadable computer software for use in calculating, analyzing, grouping and processing patient information for healthcare billing and government reimbursement; downloadable computer software for use in dentistry to utilize images of teeth and the mouth, and for designing and milling dental restorations, namely, crowns, bridges, inlays, onlays and veneers; downloadable computer software for use in the reporting of and the clinical documentation of patient medical information on portable devices; downloadable computer software for use with stethoscopes and in the field of cardiac and pulmonary auscultation for the display of sounds primarily related to the heart and lung; downloadable computer software for use with stethoscopes for use in the field of medicine for auscultation and the transmission primarily of heart and lung sounds; downloadable computer software, namely, a desktop transcription platform featuring voice capture, integrated speech recognition, interpretation and formatting, editing tools for transcriptionists, and document management and distribution; computer hardware and downloadable software for the delivery of enterprise and internet-based software applications for use in connection with healthcare transcription, dictation, electronic signature and speech recognition solutions; downloadable computer software, namely, integrated software applications designed to organize and integrate medical record information;

downloadable software for the delivery of enterprise applications targeting the creation and connection of mission critical healthcare information including transcription, dictation, electronic signature and speech recognition solutions; computer transcription hardware and downloadable computer transcription software for use in the medical field to allow physicians the ability to dictate, self-edit and electronically sign medical reports and documents or send to transcription service for return to electronic inbox upon completion for signature; dictation microphones incorporating a light pen; downloadable computer software and mobile applications using artificial intelligence and speech recognition to assist in the entering of data in health information systems; downloadable mobile application software featuring a database of recorded heart and lung sounds for use as a teaching aid in training auscultation and cardiovascular and pulmonary diagnostics; downloadable mobile application software featuring a database of recorded heart and lung sounds for use by medical personnel in improving the ability to recognize benign and pathological heart sounds and murmurs; downloadable mobile application software for providing continuing professional education and training for medical personnel in the field of auscultation and cardiovascular and pulmonary diagnostics; downloadable mobile applications using speech recognition for use by medical and healthcare professionals for the documentation of patient medical information and electronic health records; downloadable mobile applications for use by medical and healthcare professionals for charge capture, order entry and dictation of e-prescriptions; downloadable software application that enables users to monitor and improve compliance with governmental guidelines and best practices in the use and maintenance of intravenous lines, medical devices for use in connection therewith, and medical dressings for use at infusion catheter and intravenous sites; downloadable software application that enables users to monitor and improve disease infection control, workflows, clinical outcomes and compliance with governmental guidelines and guidelines of professional organizations; downloadable software application that enables users to monitor and improve best practices in the

use, care and maintenance of medical devices, namely, intravenous lines and medical devices for use in connection therewith, medical dressings for use at infusion catheter and intravenous sites, medical tapes and adhesives used for securing medical tubing and devices, medical tubing, and medical apparatus for warming and cooling a patient's body temperature, managing patient hypothermia, warming blood and iv fluids, and monitoring and recording a patient's body temperature; downloadable software application that enables users to monitor and reduce infection rates and intravenous line complications, protect skin from damage, and manage wound sites, conditions that impact skin, the care and maintenance of skin, and blood stream infections; downloadable software application that enables users to monitor, and improve best practices in sterilization procedures used in the medical field; downloadable software in the nature of a mobile application for providing information to healthcare professionals to assist in the provision of wound care services to patients and to assist in ordering or purchasing products; scanners and related downloadable software for capturing images of the mouth and teeth for use in dentistry; laboratory equipment and supplies, namely, laboratory analysis kit comprising wands for collecting bacteria sold as a unit with pre-measured chemical solutions for preparing standardized inoculums for antimicrobial susceptibility testing in a clinical laboratory; laboratory equipment, namely solid phase extraction disks, extraction disk cartridges and high density glass beads for use as filter aids; laboratory equipment, namely, membrane filters for liquid; laboratory equipment, namely, membranes, capillary membranes, flat membranes, and porous tubular membranes, and modules containing said membranes for the laboratory equipment, namely, liquid concentrators, purifiers, and filters; laboratory filters; filters for use in laboratory equipment; laboratory filters in the nature of membrane filters made of synthetic or regenerated polymers in the shapes of flat films, hollow fibers, tubes and pipes; laboratory filters in the nature of membrane filters in the shapes of hollow fibers, tubes and pipes connected with textile threads; scientific equipment, namely, laboratory filters for osmosis and reverse osmosis, sterilization processes,

ultrafiltration, and microfiltration; laboratory equipment incorporating microporous hollow fibers for conducting membrane separations and laboratory apparatus containing the same; laboratory equipment and supplies incorporating microporous hollow fibers used in contactors, degassers, filters, concentrators, purifiers, diffusers, and medical laboratory equipment; membranes made of synthetic or regenerated polymers in the form of hollow fibers, tubing, piping and film for laboratory separation processes, and modules equipped with the aforesaid membranes for scientific laboratory purposes, namely, filtration modules, modules for osmosis and reverse osmosis, sterilizers, ultrafiltration modules, debubblers, degassers, mass transfer devices; laboratory equipment, namely, membranes, capillary membranes, flat membranes, and porous tubular membranes; laboratory filter membranes used in microfiltration and ultrafiltration; technical apparatus, namely, laboratory filtering membranes for technical or medical laboratory separations and transfers; filters for blood and blood components for laboratory use; ophthalmic lenses and ophthalmic prisms; indicator strips for indicating temperatures for use in sterilization and safety-monitoring.

Class 10

Orthopedic articles; orthopedic inserts for footwear; hosiery for medical, surgical, and orthopedic purposes; stethoscopes; orthopedic and compression bandages; medical and surgical drapes, sheets and gowns; medical connectors and closures and component parts thereof for use in connection with intravenous (iv) lines and medical fluid management, delivery, extraction and removal; patient warming systems comprising warming apparatus for medical use; medical devices for closing wounds; wound drainage apparatus; wound suction apparatus; negative pressure wound therapy systems, namely medical apparatus for wound therapy using negative pressure; incubators for medical purposes; orthodontic brackets and appliances; dental crowns; membranes being parts of medical devices for blood treatment and dialysis; cases fitted for medical instruments; implant abutments for dental purposes;

dental apparatus and instruments for producing, relining and repair of dental prostheses; dental curing lights; dental apparatus, namely, intra-oral light systems; dental devices and apparatus, namely, mixers and dispensers for dental impression material; dental instruments, namely, mandrels, burs, discs, cups, wheels, points, brushes, and abrasive strips, used to grind, polish or finish dental restorations; dental instruments, namely, custom dental matrices for use with dental restoratives and dental composite materials; dental instruments, namely, dental prophylaxis angles and dental prophylaxis cups, for use in cleaning teeth and dental hygiene procedures; dental instruments, namely, disposable prophy angles; dental syringes; dental apparatus, namely, dispensing guns specially adapted for dental purposes for use in dispensing dental restorative material; finishing and polishing discs for dental use; dental instruments, namely, scissors, crimping pliers, contouring pliers and impression trays; applicators and dispensers for dental primers, cements, adhesives, impression materials and restorative materials; glass-fiber posts used in dental restorative procedures; dental prophylaxis angles and dental prophylaxis cups for use in cleaning teeth and dental hygiene procedures; dental instruments for preparing dental materials, namely, dental instruments for mixing, dispensation and application of dental impression materials and bite checking materials; dental apparatus featuring dental applicators containing pre-filled dental filling and bonding material; cutting and grinding discs for dental applications; orthodontic appliances, namely, pliers, braces, lugs, wires, pins and brackets; orthodontic buccal tubes; orthodontic rubber bands; wound suction apparatus, wound drainage apparatus, and parts and fittings therefor; disposable negative pressure wound therapy device in the nature of a subatmospheric pressure source and related tubing, all for use with wound interface drainage receptacles, and all for promoting wound healing; eartips for stethoscopes; stethoscopes and parts and fittings therefor; electronic noise reducer sold as an integral component of stethoscopes for enhancing auditory capabilities for auscultation; medical instrument consisting of a wireless electronic transceiver for use in conjunction with electronic stethoscopes for the recording and

display of heart sounds and other physiological acoustic signals; elastic bandages; casting tape for orthopedic purposes; orthopedic splints; support bandages; therapeutic compression wraps [elastic bandages]; padding for orthopedic casts; surgical sterile sheets; medical isolation gowns; protective barriers in the nature of medical drapes; medical electrodes; cardiac electrodes; electrodes for external defibrillators; medical electrodes with or without chemical conductors and wet gels for use in cardiac, electrocardiograph, electroencephalograph and other types of patient monitoring; medical leads and connectors for use with medical electrodes; defibrillation pads; electrosurgical pads, plates and adapters to remove radiofrequency (RF) current from a patient's body during electrosurgery; medical support padding designed for use between patients and medical equipment to prevent pressure injuries, and for elevating or positioning limbs during medical treatment, surgical procedures or rehabilitation; pouches for holding surgical and medical instruments; surgical compresses; elastic compression bandages for surgical purposes; post-operative compression garments; medical examination sheets for examining tables and operating tables; thermometers for medical use; therapeutic hot and cold therapy packs; surgical skin staplers; drainage tubes for medical purposes; receptacles for collecting wound drainage; medical and surgical apparatus for tissue transplantation; electronic temperature monitors for medical use; blankets for medical purposes; medical apparatus for human and veterinary use for warming and cooling a patient's body temperature, comprising an air convective device, a hose, a gown or blanket, sensors, controls, and parts and fittings therefor; medical apparatus for intravenous administration of fluids, namely, fluid warmers; medical apparel in the nature of lab coats for use in medical examination and treatment; medical device control system, namely, a system comprised of microprocessor controlled medical pumps and connecting tubing for providing alternating negative pressure to promote tissue granulation and decompression, flap and graft survival, and to remove infectious materials, sold as a unit with wound dressings; electronic medical appliances for wound healing; medical device control

systems comprised of medical therapeutic pumps and medical connection tubing for controlled delivery of therapeutic pressure to wound healing devices; medical fluid injectors; medical devices for managing fluids; medical devices for fluid delivery, extraction and removal; medical instruments, namely, hemostats that clamp blood vessels to diminish or halt blood flow; vacuum pumps for medical purposes; medical devices, namely pump units for promoting wound healing, receptacles for collecting wound drainage, and parts and accessories for the foregoing; medical devices, namely, medical connectors and component parts thereof for use with products for transferring fluids; plastic closures being medical devices for use in covering fluid connectors and ends on fluid transportation lines and ports; medical devices, namely, tamper-evident devices for use in connection with intravenous (iv) lines; wound therapy system comprised of wound treatment apparatus, valves, tubes and straps with holsters, sold as a unit with wound dressings; parts of wound treatment apparatus in the form of strap and holster used to secure apparatus to patient; medical equipment, namely, membranes made of polymers in the form of hollow fibers for separation processes for use in medical apparatus for blood treatment, dialysis, hemodiafiltration, hemofiltration, endotoxin filtration; medical equipment, namely, membranes, capillary membranes and flat membranes, and modules containing said membranes for medical equipment, namely, hemoconcentration apparatus, hemodialysis apparatus, hemodiafiltration apparatus, plasmapheresis apparatus, oxygenators, and plasma fractionation; hypodermic needles; filters for medical purposes, namely, blood filters; hemodialysis apparatus; membranes for medical purposes, namely for blood filtration, hemodialysis, hemofiltration, hemodiafiltration, and oxygenation; membranes for use in medical apparatus made of synthetic or regenerated polymers in the form of capillaries, tubing, piping, and film for hemodialysis, hemofiltration, hemodiafiltration, endotoxin filtration, plasmapheresis, hemoconcentration; membranes for use in medical apparatus made of synthetic or regenerated polymers in form of films, hollow fibers, tubings and pipings for separation processes, as well as bundles or fabrics of the aforesaid

hollow fibers, tubings and pipings in combination with textile threads all for use in hemodialysis, hemofiltration, hemodiafiltration, endotoxin filtration, plasmapheresis, hemoconcentration; membranes made of polymers in the form of hollow fibers for separation processes for use in medical apparatus for blood treatment, namely, dialysis filters, hemodiafilters, hemofilters, endotoxin filters, plasmapheresis filters, blood oxygenators, microfiltration, ultrafiltration, and sterilization units for medical purposes, air filtration for medical ventilators; membranes for medical use made of synthetic or regenerated polymers in the form of hollow fibers, tubing, piping and film for separation processes, and modules equipped with the aforesaid membranes for use in medical apparatus, namely, dialysis and plasmapheresis filters in the nature of hemodialysers, hemofiltration, hemofiltration modules, hemodiafiltration, hemodiafiltration modules, endotoxin filtration modules, plasmapheresis modules, and hemoconcentration modules; membranes in the nature of hollow fibers for medical therapeutic purposes; membranes in the nature of hollow fibers for medical therapeutic purposes, sold empty, for use in for blood filtration, hemodialysis, hemofiltration, hemodiafiltration, and oxygenation; negative pressure wound therapy device in the nature of a subatmospheric pressure source and related tubing, all for use with wound interface drainage receptacles, and all for promoting wound healing; orthopedic apparatus and instruments for diagnostic and therapeutic use; orthopedic, orthotic, chiropody, foot care and veterinary apparatus and instruments, namely, orthopedic cushions and padding, orthopedic padding for the treatment and prevention of oedema or scarring, orthopedic padding for use in combination with casts or with prosthetics, medical and surgical gloves; orthopedic cushions and padding, namely, pressure relieving cushions, pressure relieving pads, pressure redistributing pads, protective apparatus against the hardening, ulceration or inflammation of areas of skin, cushions for care of the feet; orthopedic articles, namely, orthopedic insoles, disposable orthopedic insoles; instruments and apparatus for placing bandages, namely, slings; apparatus for the fixing of fingers and toes, namely, splints; elastic bandages for joints; elastic bandages, namely,

elastic gaiters; medical braces for knees, namely, elastic knee-joints; orthopedic support bandages; subatmospheric wound therapy device for use at home, which utilizes negative pressure to promote tissue granulation and decompression, flap and graft survival, and to remove infectious materials; surgical staple removers; surgical sponges; surgical staplers; wearable medical devices for protecting against the hardening, ulceration or inflammation of areas of skin; medical device control systems, namely, systems comprised of microprocessor-controlled medical pumps and connecting tubing for controlled delivery of therapeutic pressure to tissue, sold as a unit with wound dressings; medical devices, namely, plastic closures for use in covering fluid connectors and ends on fluid transportation lines and ports; surgical masks; disposable surgical masks; reusable surgical masks; sanitary masks for medical purposes; protective masks for medical purposes; sanitary masks for medical wellness purposes; masks for use by medical personnel; protective face masks for medical use; face masks being sanitary masks for use by health care providers; personal protective equipment (ppe), namely, masks for use by medical personnel; respirators for filtering air for medical purposes; sanitary masks; medical testing apparatus for analyzing sterilization indicators.

Class 11

Water filtering apparatus; industrial liquid filtration and purification units and parts and accessories therefor; filters for high purity filtration for use in commercial, industrial and bioprocessing industries; membranes for use in water filtration and purification in the medical industry; filter membranes being parts of water supply or sanitary installations used in microfiltration and ultrafiltration; membrane filters for water filtering apparatus; apparatus and instruments for use in the sterilization of liquids and gases used in the medical industry; air filter installations incorporating fibrous filtering media for general industrial use; air filtering apparatus incorporating fibrous filtering media for general industrial use; air filtering installations incorporating fibrous filtering media for general industrial use; liquid filters for cleaning and

purifying air, gases, and liquids incorporating a membrane contactor comprised of microporous hollow fibers for conducting membrane separation and transferring dissolved gases to or from a fluid stream; water filtration and purification units and replacement cartridges and filters therefor; apparatus for the separation of liquids being water filtering apparatus; filter cartridge for the filtration of liquids for industrial purposes; industrial liquid filtering devices, namely, filters, filter cartridges and filter housings for the removal of impurities from fluids and other filterable substances sold as a unit with filter media; fluid filtering cartridges for general domestic and industrial use; filtering devices, namely, filters, filter cartridges, filter housings, membranes, filter discs and parts thereof for fluid filtration for domestic and commercial use sold as a unit with filter media; water softening and conditioning units; reverse osmosis water purification units incorporating flow restrictors for reverse osmosis water purification systems; non-electrical water purification units; air filters for industrial and domestic use in furnaces, air conditioners, room air cleaners, home and building HVAC air ventilation and cleaning equipment, air cleaning and purification units, and other domestic, industrial and commercial uses and installations; industrial liquid filtering devices, namely, filters, filter cartridges, and filter housings and parts thereof, all for use in the filtration of liquids and gases sold as a unit with filter media; water purifying units, for potable water for commercial or industrial use; filters and filter cartridges sold as components of liquid purification units for filtering coatings, liquids for machinery and engines, and liquids used in the electronics industries; filters for high purity water and liquid filtration for commercial and industrial use, namely membrane filters for filtering liquids; filters for industrial use in water filtration, water purification and liquid filtration namely, membrane filters for filtering liquids; industrial liquid filters, filter housings, filter cartridges, filter installations and filter apparatus employed in the filtration of liquid by the electrokinetic capture and adsorption of contaminate particles from fluids; filtration capsules used in water treatment and industrial liquid purification systems for the clarification, purification and separation of aqueous and semiaqueous solutions in sanitary, commercial and industrial

applications; water filtering cartridges, and parts thereof; water filtration and purification units and replacement cartridges and filters therefor; water filtering units for domestic, commercial, and industrial use; water filters and components thereof, namely, filter cartridges for reduction of hard water, acid water, iron, lead, dirt, rust and sediment from drinking water supplies, from hot water systems, and from household appliances and humidifiers, for domestic and industrial use; water filtration systems comprised of a filter cartridge, sold as a unit with tubing, connectors and brackets; water filters; water filter cartridges; air purifiers; autoclaves for medical use.

Class 35

Medical transcription services; business administration relating to medical coding; medical scribing services, namely, computer data entry services; business consulting services in the field of medical coding; online retail store services; business consulting services in the field of patient medical records coding; business consulting services related to medical coding, on-site manual medical coding, and specialized medical coding/operational assessments; medical transcription and business management of medical documentation used by health care providers to improve documentation workflow and healthcare records management in the field of physician documentation, integrating dictation, transcription, speech or language recognition, medical coding, and retrieval of health-related reports, allowing doctors to spend more time during physician-patient encounters, medical exams, and evaluations; business consulting services in the field of medical coding, namely, consulting related to assignment of predetermined codes for medical diagnoses and procedures, and business auditing of medical coding; business administration for outsource service provider in the field of medical coding; business administration for outsource service provider in the field of professional and technical coding for ambulatory medical and surgical providers for purposes of offering clinical documentation improvement services, improved productivity and efficiency, staffing coverage, guaranteed turnaround times and appropriate revenue capture; business

consulting services in the field of professional and technical coding for ambulatory medical and surgical providers; physical and on-line retail store services featuring toiletries, therapeutic devices, surgical, medical, orthopedic, orthotic, chiropodial, podiatric, foot care related, and veterinary apparatus and instruments, wound care preparations and instruments, dressings, medicated products and preparations, and preparations for the care of the skin, feet and body; analysis of business data via reviewing medical documents and assigning medical, billing, insurance, and administrative codes thereto.

Class 41

Medical, healthcare, dental and orthodontic education services; continuing education services, namely, providing online continuing professional education and training seminars and courses in the field of auscultation and cardiovascular diagnostics for medical personnel; educational services related to medical coding, compliance and health information management, namely, education relating to on-site manual coding, customized training seminars and education relating to specialized coding/operational assessments; educational services, namely, providing live and online classes, non-downloadable webinars, seminars, and workshops to medical and healthcare professionals in healthcare facilities regarding compliance with governmental guidelines and guidelines of professional organizations, disease infection control, workflow and process improvement, and management and improvement of clinical outcomes, and distribution of educational materials in connection therewith; educational services, namely, providing live and online classes, non-downloadable webinars, seminars, and workshops to medical and healthcare professionals in healthcare facilities regarding best practices in the use, care and maintenance of medical devices, namely, intravenous lines and medical devices for use in connection therewith, medical dressings for use at infusion catheter and intravenous sites, medical tapes and adhesives used for securing medical tubing and devices, medical tubing, and medical apparatus for warming and cooling a patient's

body temperature, managing patient hypothermia, warming blood and iv fluids, and monitoring and recording a patient's body temperature, and distribution of educational materials in connection therewith; educational services, namely, providing live and online classes, non-downloadable webinars, seminars, and workshops to medical and healthcare professionals in healthcare facilities regarding reducing infection rates and intravenous line complications, protecting skin from damage, and managing wound sites, conditions that impact skin, the care and maintenance of skin, and blood stream infections, and distribution of educational materials in connection therewith; educational services, namely, providing live and online classes, non-downloadable webinars, seminars, and workshops to medical and healthcare professionals in healthcare facilities regarding monitoring, and improving best practices in sterilization procedures used in the medical field, and distribution of educational materials in connection therewith; educational services, namely, providing live and online classes, seminars and workshops to medical and healthcare professionals in healthcare facilities regarding compliance with governmental guidelines and best practices in the use, care and maintenance of intravenous lines, reducing infection rates and intravenous line complications, and protecting skin from damage, and regarding the proper usage of medical devices, namely, intravenous lines, medical devices for use in connection therewith, and medical dressings for use at infusion catheter and intravenous sites; educational services, namely, training in the use of computer software for voice recognition and medical records.

Class 42

Consulting services related to medical software; research and design for medical purposes; software as a service (SaaS) for speech recognition, medical transcription, coding and reimbursement; software as a service (SaaS) for creating and maintaining medical, patient and healthcare records; design of water treatment systems for others; quality testing services in the field of water treatment; computer

software consultation; technical support services, namely, troubleshooting of computer software problems; computer software design; design of commercial water treatment systems for others; providing on-line non-downloadable software that enables users to monitor and improve compliance with governmental guidelines and best practices in the use and maintenance of intravenous lines, medical devices for use in connection therewith, and medical dressings for use at infusion catheter and intravenous sites; providing on-line non-downloadable software that enables users to monitor and improve disease infection control, workflows, clinical outcomes and compliance with governmental guidelines and guidelines of professional organization; providing on-line non-downloadable software that enables users to monitor and improve best practices in the use, care and maintenance of medical devices, namely, intravenous lines, medical devices for use in connection therewith, medical dressings for use at infusion catheter and intravenous sites, medical tapes and adhesives used for securing medical tubing and devices, medical tubing, and medical apparatus for warming and cooling a patient's body temperature, managing patient hypothermia, warming blood and iv fluids, and monitoring and recording a patient's body temperature; providing on-line non-downloadable software that enables users to monitor and reduce infection rates and intravenous line complications, protect skin from damage, and manage wound sites, conditions that impact skin, the care and maintenance of skin, and blood stream infections; providing on-line non-downloadable software that enables users to monitor, and improve best practices in sterilization procedures used in the medical field; providing on-line, non-downloadable software for use in extracting patient clinic notes and medical records and translating language for assigning diagnostic and treatment codes, and for comparing accuracy with other coding inputs, for use primarily in medical reimbursement; providing online, non-downloadable, Internet-based software using speech recognition for use by medical healthcare professionals for the documentation of patient medical information and electronic health records; providing online, non-downloadable, Internet-based software for use by medical and

healthcare professionals for charge capture, order entry and dictation of e-prescription; providing remote monitoring and diagnostic services for dictation and transcription software and software systems to detect system errors, identify malfunctions, and perform troubleshooting analysis; providing temporary use of non-downloadable cloud-based software for artificial intelligence virtual assistance for use in the healthcare field in the clinical documentation of patient medical information in health information systems and in the management of clinical documentation improvement (CDI) processes; providing temporary use of non-downloadable software for use in extracting medical records and translating language for assigning codes primarily for medical reimbursement; providing temporary use of online non-downloadable software featuring a database of recorded heart sounds for use as a teaching aid in training auscultation and cardiovascular diagnostics; providing temporary use of online non-downloadable software featuring a database of recorded heart sounds for use by medical personnel in improving the ability to recognize benign and pathological heart sounds and murmurs; providing temporary use of online non-downloadable software featuring continuing professional education and training seminars and courses for use by medical personnel in the field of auscultation and cardiovascular diagnostics; providing temporary use of non-downloadable software that identifies patterns of language in medical documents in order to organize, manipulate, and codify such documents; software as a service (SaaS), namely, services featuring software for providing medical, health, and wellness information accessible through mobile applications; software as a service (SaaS), namely, services featuring software for providing medical, health, and wellness information accessible through remote connectivity module equipped devices; software as a service (SaaS), namely, software to assist in ordering or purchasing products.

Class 44

Therapeutic wound care services; monitoring and remote monitoring of individuals or

groups for medical treatment; medical, orthodontic and dental consultation services; medical consulting services in the fields of disease infection control, intravenous line care and maintenance, and skin protection; medical consulting services provided to medical and healthcare professionals in healthcare facilities regarding compliance with governmental guidelines and best practices in the use, care and maintenance of intravenous lines, reducing infection rates and intravenous line complications, and protecting skin from damage, and regarding the proper usage of medical devices, namely, intravenous lines, medical devices for use in connection therewith, and medical dressings for use at infusion catheter and intravenous sites; medical consulting services provided to medical and healthcare professionals in healthcare facilities regarding compliance with governmental guidelines and guidelines of professional organizations, disease infection control, workflow and process improvement, and management and improvement of clinical outcomes; medical consulting services provided to medical and healthcare professionals in healthcare facilities regarding best practices in the use, care and maintenance of medical devices, namely, intravenous lines, medical devices for use in connection therewith, medical dressings for use at infusion catheter and intravenous sites, medical tapes and adhesives used for securing medical tubing and devices, medical tubing and medical apparatus for warming and cooling a patient's body temperature, managing patient hypothermia, warming blood and iv fluids, and monitoring and recording a patient's body temperature; medical consulting services provided to medical and healthcare professionals in healthcare facilities regarding reducing infection rates and intravenous line complications, protecting skin from damage, and managing wound sites, conditions that impact skin, the care and maintenance of skin, and blood stream infections; medical consulting services provided to medical and healthcare professionals in healthcare facilities regarding monitoring, and improving best practices in sterilization procedures used in the medical field; medical services, namely, providing medical information related to advanced wound care, negative pressure wound therapy, and therapeutic support systems; monitoring, tracking, and

reporting medical conditions, medical data, and medical records, namely, medical diagnostic testing, monitoring and reporting services in the nature of remote monitoring of data indicative of the health or condition of an individual or group of individuals for medical diagnosis and treatment purposes; medical diagnostic monitoring and reporting services, namely, monitoring and reporting the medical condition of individuals; therapeutic healthcare services, particularly the automated alternating application of negative pressure wound therapy and controlled delivery of topical solutions to a wound site; tissue therapy and tissue therapy control services, namely, the provision of reduced pressure tissue treatment using therapeutic devices with wound site feedback control systems for optimizing control of the therapy.
