General Information

1. Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules. It is published weekly on Fridays, unless otherwise directed by the Registrar.

2. Notice of Opposition

Any person who wishes to oppose any of the marks published may within two months from its publication date file a Notice of Opposition on Form TM11. Reasonable notice should be given to the Applicant beforehand, to provide the Applicant an opportunity to withdraw the application. Failure to give such notice will be taken into account when considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

3. Practice Directions and Circulars

The Registry has ceased our practice of publishing Practice Directions and Circulars in the Trade Marks Journal. Practice Directions and Circulars are available on our website at <https://www.ipos.gov.sg>. If you wish to receive our updates via email, you may subscribe to our mailing list by sending an email to news@ipos.gov.sg and letting us know the subject matter of interest (e.g. Trade Marks).

4. Information Contained in this Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

National Applications Published For Opposition

CYTIVA

Goods and/or Services:

Class 01

Chemical products, preparations and substances for use in science and industry; chemical test papers (chemically treated or containing chemicals); test papers; sensitized papers; indicators [chemicals] for scientific use; silica (chemically treated); cellulose powders; chemically treated cellulose; ion-exchange materials; buffer solutions; all for filtration, separation, analysis and testing in laboratories, industry, environmental and medical testing and research; biochemical preparations for laboratory and scientific research, biological processing and the production of pharmaceuticals, namely, buffers, cell growth media, cell culture media, stem cell media as nutritional media for maintenance and growth of cells in culture, serum-free media, proteins and amino acids, media components in the nature of amino acids, sera, chemical and biochemical additives, buffers, buffer solutions, balanced salt solutions and distilled water; chemicals and chemical products for laboratory and scientific research, biological processing and the production of pharmaceuticals, namely, buffers, cell growth media, cell culture media, stem cell media as nutritional media for maintenance and growth of cells in culture, centrifugation media,

chemicals sera, serum-free media as nutritional media for maintenance and growth of cells in culture, proteins and amino acids, media components in the nature of sera, chemical and biochemical additives, buffers, buffer solutions, and distilled water; deionized water for laboratory, scientific and medical research; biological reagents to maintain embryonic stem cells and/or embryos in in-vitro culture for in-vitro scientific and medical research use; cell culture reagents for scientific research, medical research, and the production of pharmaceuticals; purified water for scientific research, medical research, and the production of pharmaceuticals, namely, water for injection; eukaryotic cell nutrition media for scientific, research, or manufacture purposes; cell culture media for scientific, laboratory and research use; chemical nucleation preparations for scientific use; chemical preparations for industrial and scientific purposes; chemical preparations for use in chromatography; chemical products and preparations for life science purposes; chemical products for in-vitro use in analytical tests and in analytical processes; chemical products for in-vitro use in biochemical separation; chemical products for separation of molecules for industrial and scientific use; chemical products for use in centrifugal processes in biological and biochemical research and clinical investigations into cells, viruses and sub-cellular particles; silicon coated silica colloids; chemical products for use in biological and biochemical research; chemical products for in vitro use in research and in biochemistry; chemical products for use in gel filtration and in the separation of biomolecules; chemical substances for in vitro laboratory use; chemical products and substances, all for in vitro research and biotechnological purposes; none of the aforementioned goods for use in agriculture, horticulture and forestry; chemical products for use with medical science; chemical products for laboratory use for in vitro analysis and/or testing; chemical products, namely reagents, density gradient media, cell growth media, biochemicals, enzymes and proteins for scientific, laboratory in-vitro research, analysis and/or testing, biochemical research use; chemical products, namely, silica based density centrifugation media, to be used in biochemical and clinical research; chemical reagents and substances for analyses

(other than for medical or veterinary purposes); chemical reagents, chemicals, biochemicals, proteins and cells for scientific, laboratory in vitro analysis and/or testing and medical research use; chemical products, namely, density centrifugation media, to be used in biochemical and clinical research; chemical solutions and preparations consisting of pre-mixed reactants and reagents for scientific and research use in connection with amplification, analysis or labelling of nucleic acids; chemicals and chemical products for purification purposes; premade buffer concentrates for purification of proteins; chemicals and chemical reagents and preparations for scientific purposes, namely for use in the amplification, analysis or labelling of nucleic acids; enzymes; chemicals and chemical reagents for protein and proteome analysis; biochemical and biological preparations for use in industry, science and research; radioactive elements, isotopes, preparations and reagents for industrial, research and scientific purposes; gases and gas mixtures for industrial, research and scientific purposes; chemical kits comprising a lysis buffer and an enzyme for use in the generation of DNA for sequencing or cloning, and restriction analysis from plaques, bacterial colonies or bacterial cultures; chemical reagents and preparations, all for use in assays and all for the identification, determination or for the qualitative or quantitative analyses of substances or of fluids; chemical substances for use in performing analyses; preparations for diagnosis for scientific or research purposes; fluorescent agents for labelling and detecting nucleic acids and proteins; fluorescent agents for labelling nucleotides and proteins; fluorescent labels for nucleotides and proteins; chemicals, chemical reagents and preparations for use in the purification or selective recovery of particular components from a mixture; chemicals, chemical reagents and preparations for use in the purification or selective recovery of oligonucleotides, proteins, PCR or DNA products from a mixture using spin-column chromatography; sorbents, elution solvents and buffer solutions; chemicals, chemical reagents, radioactive elements and preparations for use in fluorometric assays and radioactive assays; fluorescent reagents; scintillants, namely, photographic chemicals; films and photosensitive materials, papers and plates; films

for use in autoradiography, fluorography or light detection techniques; sensitised films and chemical preparations and reagents for use therewith; photographic emulsions, developers, fixers and sensitisers; fixing baths; radioactive and non-radioactive preparations for scientific or research purposes; chemical reagents, preparations and gels for use in electrophoresis; protein preparations; chemicals for use as protein molecular weight markers for in vitro scientific and research use; non-radioactive chemical reagents and preparations for use in the labeling and detection of immobilized nucleic acids and proteins; chemicals for chromatography media; chemical products for use in separation and purification; chemicals that facilitate the separation of mixtures of organic or biological materials; chromatography chemicals; chemicals for scientific use, namely beads as microcarriers; chemicals for use in industry and science, namely high molecular substances for use as molecular sieve and ion exchange substances; chemicals used in industry, science and photography, as well as in agriculture, horticulture and forestry; chemicals used in industry, science and photography, as well as in agriculture, horticulture and forestry; unprocessed artificial resins, unprocessed plastics in the form of powder, liquids or pulp; manures; fire extinguishing compositions; tempering and soldering preparations; chemical substances for preserving foodstuffs; tanning substances; adhesives used in industry; kits and reagents for analysis or diagnosis used for scientific purposes, namely kits consisting of a packed column of chemical solids that function to facilitate the separation of mixtures of organic or biological materials based on their differing molecular weights or structures for use in the purification of Glutathione S-transferase-tagged recombinant proteins; prepared microtitre plates containing chromatographic substances; chemicals, namely agarose for use in the purification of proteins for in vitro use; chemicals, namely, polymers for use in the purification of DNA from small molecules by gel filtration and for the fractionation of lipids, hormones, vitamins and other small biomolecules; chromatography chemicals and media; chromatography media for purification of monoclonal antibodies; high molecular chemical substances for research and industrial purposes, namely

microcarriers for growth of primary mammalian cells, diploid cell strains from animals or humans and established cell lines; laboratory reagents, namely proteins for binding and detecting antibodies and chromatography packings and chromatography columns for purifying biological molecules; laboratory reagents, namely, silica beads for scientific research; nutrients for cultured animal cells and media for growing animal cells in a cell culture for scientific and laboratory use; polymers being chemical compounds for industrial use in the purification of chemical substances; process chromatography media for large scale purification of monoclonal antibodies; reagent kits for DNA and RNA sequencing for use in genomic research; reagents for use with quantitative cell pharmacology profiling instrument systems for scientific and research use; sample preparations of nucleic acids using silica-based membranes; scientific, biological, laboratory and forensic chemicals, in the form of substances, fluids and solutions, all for the collection, transportation, storage and analysis of samples and specimens; Serum for use as a supplement with cell culture media used to grow cells in scientific and laboratory research; resins designed and used in biopharmaceutical manufacturing; process chromatography membranes [chemical preparation] used in biopharmaceutical manufacturing namely, for purification of biopharmaceuticals; genomic and diagnostic chemical and biological products designed and used for extraction, isolation, cloning or amplification of nucleic acids (DNA, RNA, mRNA) in molecular biology research for analytical or preparative purposes; Diagnostic preparations, namely, polystyrene microspheres for laboratory use; cell culture media for manufacturing biopharmaceuticals designed and used for the growth and expansion of cells for cultivating human, animal, plant and microorganism cells; chromatography resin; PCR reagents; cellulose esters for industrial and research purposes; immunoassay reagents, other than for medical use; Assays for research purposes; cell culture media for manufacturing biopharmaceuticals; nucleic acid and protein transfer media [media for use in separation techniques], particularly for laboratory and clinical use; media for chromatography columns for industrial purposes.

Class 05

Sterilizing preparations; filtering preparations, materials and media for pharmaceutical, medical and sanitary purposes; air purifying preparations; filter capsules for pharmaceutical and medical purposes; diagnostic preparations for medical purposes, diagnostic kits comprising diagnostic agents, preparations and substances for medical purposes; chemical reagents for medical purposes; bacterial and biological preparations and cultures for medical use; cellulose for pharmaceutical purposes; chemico-pharmaceutical preparations; Chemical nucleation preparations for medical use; Chemical reagents and substances for analysis for medical and veterinary purposes, excluding clinical medical diagnostic products and services; Diagnostic agents, products and preparations for clinical or medical purposes; diagnostic agents, products and preparations for use in the amplification, analysis or labelling of nucleic acids; Pharmaceutical and veterinary preparations, medicines and substances; contrast media for medical imaging; diagnostic scanning agents for in vivo use; radio-pharmaceutical products; chemicals for medical use, in the form of substances, fluids or solutions, applied to media, and media for medical and diagnostic purposes, including chemicals, media and matrices for collection, transport, archiving, and analysis of collected samples and specimens; nutritive substances for animal cells, viruses, and microorganisms, namely, for cultured animal cells and media for growing animal cells in a cell culture for growing animal cells to produce biological materials for medical therapeutic or clinical diagnostic use; Medical and pharmaceutical chemicals in the form of substances, fluids and solutions; all for the collection, transportation, storage and analysis of samples and specimens; Cell culture media, reagents and buffers for medical use, namely, for ex-vivo for the further manufacturing of cell and gene therapies; nutritive substances for micro organisms, reagents for medical and veterinary purposes, serums; Chemical nucleation preparations for medical use, namely for maintaining cell viability following freezing and thawing; Chemically treated paper for collection,

isolation, and storage of biological samples for diagnostic, clinical and medical use; Diagnostic preparations, namely, polystyrene microspheres for clinical or medical use; serum designed and used for the growth and expansion of cells for cultivating human, animal, plant and microorganism cells; sera; cellulose esters for pharmaceutical purposes; immunoassay reagents for medical use.

Class 07

Heat sealing machines for sealing plastic tubes that are used in the laboratory, pharmaceutical, medical and biomedical fields; Pharmaceutical processing industrial machine (bioreactor used for the production of biological material for medical treatment or clinical diagnosis); pharmaceutical processing industrial machine (mixer used for the production of biological material for medical treatment or clinical diagnosis); Precision positioning equipment [machines], namely, mechanical actuators, screw actuators, electrical motors for biopharmaceutical manufacture use; hydrodynamic cleaning apparatus for cleaning particulate matter from industrial substrates; Filtration units; fermenters, namely, machines used for process fermentation in the pharmaceutical industry, for food and beverage production, and for manufacture of biopharmaceuticals; machines parts, namely filter tubes for biopharmaceutical manufacture use and filter cartridges for filtering machines for biopharmaceutical use, gas generators, apparatus for chemical separation [machines] for biopharmaceutical manufacture use, electrochemical gas generators and separators [machines] for biopharmaceutical manufacture use, electrochemical gas compressors [machines] for biopharmaceutical manufacture use, membranes filters for use as parts of gas separators machines for biopharmaceutical manufacture use, filters for chemical processing; Agitating machines (for chemical processing); mixing or blending machines (for chemical processing) and other chemical processing machines and apparatus; Chemical processing machines and apparatus for use in handling large scale bioprocess chemicals, and parts and fittings for the aforesaid goods; Computerized mixing machines comprising of pump

station, control panel, tubing, mixing implement of media for bioprocess for biopharmaceutical manufacture use; parts and fittings of the aforesaid goods; Heat sealing machines for sealing plastic tubes that are used in the laboratory, pharmaceutical, medical and biomedical fields; pipe [fitted parts of machines] for chemical processing machines and apparatus for biopharmaceutical manufacture use; machines and instruments [machines] for synthesizing deoxyribonucleic acid for preparations; machines for use in the manufacture of oligonucleotides.

Class 09

Chromatography columns; storage containers adapted for use in laboratories [laboratory equipment], namely, for storage of materials used in laboratories; chromatographic and electrophoretic devices for scientific and laboratory use, as well as accessories adapted for the aforesaid, namely, racks, stands, fittings, and tanks for storage of pressurized materials; laboratory apparatus; laboratory filters, namely surface filters, depth filters, membrane strainers, including membranes and filters of hyperfiltration membranes, all of which are in layers, fabrics and porous masses, such as sheet, tapes, rolls, round filters, filter sleeve, pleated filters and folding of paper, high polymer materials, organic fibers, inorganic, synthetic and/or natural material sintered and/or metallic materials; separation apparatus, namely filtering apparatus for laboratory use; Laboratory equipment, namely, bioreactors, electronic controllers for use with bioreactors and bag assemblies in the nature of fluid handling bags and bag manifold systems comprising a plurality of bags connected together with associated tubing, connectors and fittings, filters, ports, liners, chambers, capsules, filter holders, sensors, mixing impellers, tank dispensers and pumps all specifically adapted for use with bioreactors, sold for use in mixing animal cells suspended in cell culture media and for controlling the temperature, pH and other conditions of the suspension, for the purpose of producing biological materials for medical therapeutic or clinical diagnostic research use; Laboratory equipment, namely, mixers for laboratory use, electronic controllers for use with mixers and bag

assemblies for laboratory use in the nature of fluid handling bags and bag manifold systems comprising a plurality of bags connected together with associated tubing, connectors and fittings, filters, ports, liners, chambers, capsules, filter holders, sensors, mixing impellers, tank dispensers and pumps for use with mixers, sold in combination for the purpose of producing biological materials for medical therapeutic or clinical diagnostic research use; Laboratory equipment for use in pharmaceutical and biological product laboratories and testing facilities, namely, plastic bags adapted for laboratory and research use in holding biological material and related reagents for the purpose of producing biological materials for medical therapeutic or clinical diagnostic research use; laboratory equipment, namely, liners of plastic adapted for laboratory use for tanks used in holding biological material and related reagents; laboratory apparatus for freezing and thawing in clean room environments or in cryopreservation; computer software for remotely monitoring, managing, controlling and securing clinical, medical and laboratory assets and data; laboratory apparatus and instruments, namely, pre-packed columns for use in chromatography; cell processing laboratory apparatus and instruments with integrated computer software used to analyze, harvest, culture, process, expand and purify cells; cell processing laboratory apparatus and instruments with integrated computer software used to analyze, harvest, culture, process, expand and purify cells, parts and accessories for use with such laboratory apparatus and instruments, namely trays, cell culture bags, tubing and filters; laboratory apparatus and instruments for use in science, research and industry; measuring apparatus and instruments; radiological apparatus and instruments for industrial purposes; computers and printers, and software and programmes for use therewith; glassware for laboratory use; and parts and fittings for the aforesaid goods; chemistry apparatus and instruments; liquid chromatography apparatus for scientific use; apparatus for use in separation and purification for scientific use; laboratory and research equipment, consisting of empty and pre-packed columns of chemical solids for use in purification; laboratory apparatuses for molecular biology, namely filter membranes for transfer of biological

materials, in particular, immobilizing membranes to detect nucleic acids and proteins; chromatography apparatus for laboratory use; laboratory apparatus and instruments for use in chromatography; computer software for remotely monitoring, managing, controlling and securing clinical, medical and laboratory assets and data; computer software for use in image analysis; imaging apparatus and instruments, namely a charge coupled device (CCD) camera for capturing images for analysis and use in the life science research field; computer software for use on laboratory systems in the life sciences industry; downloadable computer software, namely software for optimization, obtaining performance data, maintenance, remote diagnostics and troubleshooting, connectivity, calibration qualification, trade-ins, information about spare parts and kits, all for life science and bioprocess equipment; pre-packed columns for scientific use, for use in purification; filtration membranes for laboratory use, namely, supported and unsupported nitrocellulose microporous membranes for the media transfer and immobilisation of nucleic acids and proteins; Laboratory equipment namely, chromatographic columns, gas, water and other liquid or fluid filtering units, in the nature of tubes, cartridges, membrane filters and integral hardware therefor; laboratory filters, namely, extraction thimbles; laboratory apparatus, namely, programmable electronically controlled stirrers; computer software for remotely monitoring, managing, controlling and securing clinical, medical and laboratory equipment and data; laboratory apparatus and instruments for use in science, research and industry, namely, purification columns, electrophoresis apparatus not for medical purposes and western blotting systems comprised of computer hardware, software and scanners all used for qualitative and quantitative analysis of proteins; computers, printers, and software and programs all for use with running experiments on purification, electrophoresis and western blotting apparatus, namely, computers, printers, software and programs for screening, analyzing and evaluating proteins, and structural parts and fittings for the aforesaid apparatus; scientific apparatus and instruments used for radiology for the purpose of measuring, monitoring and surveying; computers, printers and software programs used for the

purpose of life science research and for nuclear cardiology and medical imaging, for use by laboratories, pharmacies, doctors, hospitals, and medical service providers; radiology apparatus and instruments, other than for medical use, for the reading and interpretation of autoradiographs and films, namely automated film readers and scanners; apparatus for electrophoresis; chromatography columns and pumps; laboratory apparatus for microfabrication; laboratory apparatus for scintillation; imaging apparatus for radioactive and luminescent emissions; microarrays; microarray slides; laboratory glassware; laboratory vials and microvials; microtitre plates; and parts and fittings for the aforesaid goods; Kit for the purification of proteins for in vitro laboratory use, other than for medical purposes, consisting primarily of pre-packed chromatography columns, and disposable dispenser syringes for laboratory use, sold as a unit with chemicals, pre-made buffer concentrates and instructional manual; nucleic acid purification filters; laboratory apparatus for scientific purposes that are disposable in nature and can not be repurposed after initial use, namely, syringe filters, chromatography columns, microscope lens paper, vent filter, DNA columns for separation purposes, RNA columns for separation purposes; Image acquisition (control) software featuring a unique noise reduction capture mode, offered as a part of a charge coupled device (CCD) camera system that is used for capturing images of protein gels & western blots for analysis in the life science research field; analyzers for research and scientific laboratories for automatically measuring and investigating the interactions of biomolecules in terms of strength, speed and specificity, including defining parameters such as kinetic constants, concentrations, binding patterns and multi-component complex formation; chromatography columns, namely, process scale columns for use with high resolution separation media in research and in the production of pharmaceuticals; computer software and hardware for controlling automated liquid handling systems, namely chromatography systems, filtration systems, bio reactors and oligonucleotide synthesizers; computer software for differential analysis in electrophoresis and other proteomics applications; computer software for graphing and charting data from

chromatography systems for the purification of proteins for use by biotechnology scientists and researchers in the life science field; computer software for microscopy, imaging, and informatics sold exclusively through direct sales; computer software for remotely monitoring, managing, controlling and securing clinical, medical and laboratory equipment and data; computer software for use in image analysis; filtration systems for laboratory use, namely, cross flow filtration and separation system comprising flow manifold, microporous membranes, product reservoir, pump, valves, gauges and piping for the separation and concentration of biological solutions in the biopharmaceutical and biotechnology fields; laboratory devices for enabling controlled loading of samples in chromatography columns, namely, valved glass tubes and injectors for laboratory use; disposable plastic bioreactors for cell culturing; downloadable computer software, namely software for optimization, obtaining performance data, maintenance, remote diagnostics and troubleshooting, connectivity, calibration qualification, trade-ins, information about spare parts and kits, all for life science and bioprocess equipment; electrical and scientific apparatus, namely automated DNA optical scanning equipment, not for medical use; electrical and scientific apparatus, namely, microscopes and high accuracy electro-mechanical actuators; automated microscopy systems comprising microscopes and computer hardware and software for high content imaging of microtiter plates, microscope slides and biological samples; electromechanical control and measuring devices and software systems comprising computers, computer software, electromechanical positioners for micropositioning control, for use in the field of photonics, digital flow control, semiconductor test and inspection, and microscopy and optical scanners and scanning systems for lasers; computer software for microscopy, imaging, and informatics in the field of clinical and diagnostic testing; electromechanical control and measuring devices and software systems comprising computers, computer software, electromechanical positioners for use in the inspecting and analysis of biological samples; electric actuators, namely, high precision electric computer controlled devices for adjusting laser frequency of tunable lasers; electromechanical

valve actuators [electric switches], namely, high precision electric computer controlled valves [electric switches] for use in high precision flow applications; precision positioning systems for scientific use comprised of optical indexers, namely, an optical train with a camera comprised of an objective lens, a shutter and a filter wheel that enables image data to be digitized, microscopy stages, electronic control circuitry, motion control chassis, linear actuators, screw actuators, linear slider, electric motors, and tunable lasers for use in precision positioning in the fields of photonics, biomedical imaging, fluidics, mass flow valves, life sciences, and semiconductor manufacturing; precision positioning systems for scientific use comprised of optical indexers, namely, an optical train with a camera comprised of an objective lens, a shutter and a filter wheel that enables image data to be digitized, microscopy stages, electronic control circuitry, motion control chassis, linear actuators, screw actuators, linear slider, electric motors, and tunable lasers for use in precision positioning in the field of clinical diagnostics; electrical and scientific apparatus, namely, optical imaging apparatus; electrical units used in electrophoresis formed of an electrode assembly, clamping frame and tank; laboratory apparatus and equipment for biological and life sciences research, namely, electrophoresis apparatus, mass spectrometry equipment namely a separation unit, a power supply/control unit, gel cassettes, cassette rack, circulation pump, glass plates, separator and filler sheets, cassette and buffer removal tools; laser imaging apparatus, namely an imagesetter for the production of photographic images in life sciences; laboratory apparatus, namely, filters and microporous membranes, holders, housings and supports therefor, none being made of metal; units for filtration and separation purposes, and parts thereof, all for scientific or laboratory use; all for scientific or laboratory use; filters and centrifuge separators for laboratory use; filter or separator holders, housings and supports [laboratory apparatus]; filtering units for laboratory use; parts and fitting for all the aforesaid goods, all for scientific and laboratory use; filters for rapid laboratory concentration and/or diafiltration of critical biological solutions; filters for use in laboratory equipment in the biopharmaceutical

industry; computer software for controlling chromatography processes and other liquid handling modules; heat sealing laboratory apparatus for sealing plastic tubes that are used in the laboratory, pharmaceutical, medical and biomedical fields; hybridization transfer membranes for non-medical scientific and research use; kit consisting primarily of chromatography laboratory equipment, namely, prepacked chromatography columns, and disposable reusable dispenser syringes for laboratory use for purification of proteins for in vitro use, sold as a unit with chemicals and premade buffer concentrates; kits consisting primarily of prepacked chromatography columns and disposable reusable dispenser syringes for laboratory use for protein purification purposes; apparatus and instruments for protein purification purposes for laboratory use, namely, prepacked chromatography columns; laboratory and clinical equipment, namely disposable plastic syringe filters, other than for medical or veterinary use; laboratory and clinical equipment, namely filters, syringe filters, disposable filter units and disposable syringe filters; laboratory and scientific research apparatus, namely, packed columns of chemical solids that function to facilitate the separation of mixtures of organic or biological materials based upon their differing molecular weights or structures; laboratory apparatus for use in laboratory sample preparation, namely, filters, filter-barrels, vials, caps [vial plugs] and vial stands; laboratory apparatus and instruments, namely, pre-packed columns for use in chemical synthesis; laboratory apparatus and instruments, namely, pre-packed columns for use in separation and purification; laboratory apparatus, namely, a syringeless filter; laboratory apparatus, namely, membrane filter cartridges for the separation of biomolecules in biopharmaceutical production; laboratory columns for use in chemical synthesis; laboratory equipment and accessories used in electrophoretic processes; laboratory equipment, namely, disposable column for small volume purification of monoclonal antibodies; ultra filtration installations for laboratory use, namely, laboratory filtration systems, consisting of filter cartridge, manifold, pump, back pressure valve, pressure gauges and holding tanks, for use in separation of biological components and membrane separation; laboratory

instrument used in the electrophoresis field, namely, an isoelectric focusing instrument; liquid chromatography apparatus for laboratory use and laboratory chromatography systems comprised of monitors, motor valves, series pumps, fraction collectors, autosampler, a working platform, pre-programmed method templates and analysis software for use with liquid chromatography apparatus and chromatography systems; scientific and laboratory apparatus and chromatography systems for laboratory use for use in purification, consisting of filters, columns, mixing chambers, holders, pumps, cables, tubing kits, and the parts thereof; liquid chromatography analyzers for laboratory use; membrane filter cartridges for scientific and laboratory use for the separation of biomolecules in biopharmaceutical production; apparatus for analysing laboratory samples, namely, multi-purpose fluorescent sample readers and scanners for analysis of gels, blot arrays and microplates; plastic labware including filtration membranes for laboratory use, namely, lateral flow membrane; laboratory equipment, namely, peristaltic pumps, fraction collectors, column monitors, isoelectric focusing units, electrophoresis units, cell culture units and laboratory centrifuges; software and hardware for analyzing data and automating processes related to biomanufacturing equipment; separating funnels for use in the life sciences, other than for medical purposes, and for biopharmaceutical manufacture use, laboratory filters, namely, soxhlet thimbles made from organic or inorganic fibre and filter, laboratory apparatus for separation via chemical means, namely, for use in separating biological material from other materials; membrane filters for laboratory use; filter supports for single use as laboratory apparatus.

Class 10

Medical machines, namely, medical apparatus specially adapted for freezing and thawing cell therapy samples for medical purposes; medical instruments with integrated computer software used to analyze, harvest, culture, process, expand and purify cells; parts and accessories for use with such medical instruments namely,

plastic cassettes, trays, cell culture bags, tubing and filters all for use therewith, all for medical or clinical use; apparatus and equipment for the collection, processing, analysis and preservation of biological samples such as blood and cellular material; disposable containers for the collection and preservation and transport of blood; apparatus for the temperature-controlled mixing of additives with biological samples such as blood and cellular material; kits comprising disposable bags for the collection, processing, analysis and preservation of biological samples such as blood and cellular material; bags, pouches and boxes for collecting and preserving biological samples such as blood and cellular material; devices adapted for medical use, namely tubing, valves, clips, pipe clamps, caps, brooches, clamps and accessories being part of or forming accessories for medical apparatus for the collection, processing, analysis and preservation of biological samples such as blood and cellular material; all the aforesaid devices being part of or forming accessories for medical apparatus for the collection, processing, analysis and preservation of biological samples such as blood and cellular material; medical apparatus for warming, cooling, cryoprotectant solution addition and mixing biological material such as cells, umbilical cord blood, bone marrow, peripheral blood, blood constituent, or any other blood-like material in order to cryo-prepare or thaw biological products; medical apparatus accessories, namely, disposable sets of interconnected medical containers and interconnectable medical containers for use in collecting, treating, analyzing and preserving biological samples such as blood and cellular material; medical apparatus accessories, namely, tubing, taps, clamps, stoppers and plugs, for interconnecting of and/or for fitting onto the aforementioned disposable sets of interconnectable medical containers and pouches for collecting and preserving biological samples such as blood and cellular material; medical apparatus for freezing, namely, medical apparatus for controlled rate freezing cell therapy samples; medical apparatus, namely handheld devices containing a foam swab for obtaining buccal cells; thawing apparatus for medical purposes; filter membranes, pharmaceutical grade aqueous filters, sterile vent filters, filters for use in blood and

plasma separation, inline gas or air filters used in respiratory filtration, filter capsules, molecular sieves, IV filters, encapsulated filter devices, pre-filters, multi layer filters, disposable filtration capsules, microporous membranes, hydrophilic membranes, hydrophobic membranes, hydrophobic filters, glass microfibre filters, filter cartridges, pleated filter cartridges, radiation sterilizable filtering materials, microaggregate transfusion filters, filter housings, all the aforesaid being filters for medical purposes; tubing sets for insufflation; ribbed or non-ribbed tubing; drain assemblies (tubing); connectors for filters and tubing, luer needle fittings for medical use, barbs for medical use, sealing rings for medical use, clamps for medical use; all the aforesaid for medical, dental, veterinary purposes; filters for the treatment, separation, or decontamination of gas, air or liquids for medical purposes for medical and pharmaceutical use; blood plasma separating filters for medical and pharmaceutical use.

Class 11

Filters, filter holders, filter valves, filter support screens, filter membranes for use in separating solid particles from liquid or gas, for commercial and industrial use; liquid chromatography apparatus for industrial use; columns for use in industrial chromatography procedures; cooling installations and machines; cooling installations for deep freezing; cooling installations for refrigerating; cooling installations for freezing; chromatography columns; parts of the aforesaid goods in this class; membrane filters for industrial use; Biomolecule purification filtration apparatus for industrial use; Filters as well as filters for solutions for industrial and commercial purposes, namely surface filters, depth filters, strainers, including membrane filters and hyperfiltration membranes, all of which are in layers, fabrics and porous masses, such as sheets, strips, rods, filters, round socket filters, pleated filters and folding paper, high polymer materials, organic fibers, inorganic, synthetic and / or natural material sintered and / or metallic materials; electrically operated combined cooling circulator and thermostatic bath for use in heating and cooling liquids; apparatus for

lighting, heating, steam generating, refrigerating, drying, ventilating, water supply and sanitary purposes; laboratory apparatus, namely, programmable electronically controlled hot plate; freezing apparatus for scientific research and laboratory purposes; freezing apparatus for scientific research and laboratory purposes, namely, laboratory controlled rate freezers for cryogenic preservation.

Class 16

Phase separating paper; chromatography paper, polyethelene-backed absorbant paper, and filter paper; lens cleaning tissue paper; general purpose bags of plastic for use in holding biological material and related reagents; Creped wood pulp paper filter that is acid and alkali resistant for laboratory and industrial purposes; Filter paper; glass microfibre filter papers; Polyethylene-backed absorbent paper for use as a protective cover for laboratory work surfaces, as an absorbent liner for animal cages, as a liner for humidity chambers; Marketing and scientific material [printed matter]; instructional material; Instruction manuals; printed matter relating to purification in life sciences.

Class 37

Repair/maintenance and installation services; Servicing of scientific apparatus and instruments; advisory services relating to the aforesaid; Building, constructing and installing bioprocessing and biomanufacturing facilities for the life sciences industry; Repair, installation, modification or maintenance of scientific apparatus and instruments for use in the life science field.

Class 41

Training relating to the use, calibration, re-calibration and servicing of scientific apparatus and instruments; Training and education services in relation to scientific apparatus, instruments and associated software used in the life science field; Customer training and educational courses in the fields of chemicals, pharmaceuticals, biotechnologicals, biochemical, life science and bioprocess

equipment.

Class 42

Software as a service (SaaS) services featuring software for remote monitoring, managing, controlling, and securing of clinical, medical and laboratory equipment and data; laboratory and scientific research services in the field of cryochain technology, namely, cryogenics and cryopreservation technology; design and development services for the creation of bioprocessing and biomanufacturing facilities for the life sciences industry; scientific, research and technological consultation in the chemical, pharmaceutical, biotechnological and biochemical fields; software as a service featuring manufacturing execution system (MES) for the pharma and biotechnology industries; software as a service featuring software for managing pharmaceutical and biopharmaceutical manufacturing processes; scientific image analysis services in the fields of biology, oncology, neurology, infectious disease, immunology and cell culture; scientific laboratory services; laboratory services, namely, stabilization of assays and reagents; software as a service (SAAS) services featuring software for customization and optimization of bioprocessing and biomanufacturing platforms for the production of biopharmaceuticals; providing an online portal featuring information on bioprocessing and biomanufacturing software platforms for the production of biopharmaceuticals; scientific consulting services in the life sciences field; consulting services in relation to use of bioprocessing and biomanufacturing software platforms for the production of biopharmaceuticals; customization of bioprocessing and biomanufacturing software platforms for the production of biopharmaceuticals; software as a service (SaaS) services featuring software for remote monitoring, managing, controlling and securing of clinical, medical and laboratory equipment and data; software as a service (SaaS) services featuring software for remote monitoring, managing, controlling and securing of clinical, medical and laboratory equipment and data; providing temporary use of non-downloadable software namely software for optimization, obtaining performance data,

maintenance, remote diagnostics and troubleshooting, connectivity, calibration qualification, trade-ins, information about spare parts and kits, all for life science and bioprocess equipment; providing software installation, maintenance and repair in the fields of life science and bioprocess equipment; scientific research; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; consultancy and advisory services for all of the aforementioned in the fields of life science and bioprocess equipment; contract research and industrial process development services for bioprocess development and manufacturing in the field of biotechnology and pharmaceuticals; platform as a service featuring computer software platforms for use in optimization of life sciences and biomanufacturing processes; Software as a service services featuring software for use in optimization of life sciences and biomanufacturing processes; Cloud computing featuring software for use in optimization of life sciences and biomanufacturing processes; Laboratory services for treating biological samples such as blood and cellular material for medical purposes including medical testing and for preservation of the collected blood or other cellular materials in view of later testing, analysis or use.

Class 44

medical or paramedical services for the collection, processing, analysis and preservation of biological samples such as blood and cellular products; blood bank services; medical consultancy in the field of blood transfusion technology; medical clinic services in connection with treatment based on blood components, and the saving and recovery of surgical blood; Medical services in association with cryogenics cold chain technology; medical diagnostic services in the fields of biology, oncology, neurology, infectious disease, immunology and cell culture.

Augmented reality game software; Augmented reality software for use in mobile devices for integrating electronic data with real world environments for the purposes of entertainment; Augmented reality software for users to experience augmented reality visualisation, manipulation and immersion; Computer games; Computer game programmes and computer game software; Computer interface and middleware software for applications integration and cross-platform interoperability of disparate software applications and computer systems; Computer programmes and computer software for interactive games; Computer game and video game discs; Computer software platforms; Computer software, namely, software development tools for the creation of computer-generated imagery and graphics for the production of motion pictures, television shows, videos, 3D animations, 3D simulations, 3D visualizations, virtual reality motion pictures, and virtual reality television shows; Computer software,

namely, game engine software for video game development and operation; Computer software, namely, software development tools for the creation of computer-generated imagery and graphics for the production of video games; Development tools for recorded virtual goods, namely, computer programmes featuring avatars, clothing, pets, architecture, furniture, infrastructure, vehicles, weapons, tools, toys, emotes and gestures for use in virtual environments created for entertainment purposes; Downloadable computer development software for use in designing and creating other computer software; Downloadable computer software development tools; Downloadable computer game software for multi-media smart phones; Downloadable computer game software for network communications apparatuses; Downloadable computer game software for portable media players; Downloadable software for use in creating virtual, augmented mixed reality, and extended reality experiences; Downloadable computer software, namely, game engine software for the development, operation and production of content for virtual worlds and 3D platforms of video games, 3D architecture, 3D smart cities, 3D virtual training and 3D digital twins; Downloadable computer software, namely, real-time collaborative software development tools for the creation of computer-generated 2D and 3D imagery and graphics software development tools for the creation of computer-generated imagery and graphics for the production of content for virtual worlds and 3D platforms; downloadable Virtual Reality (VR) software, namely, software development tools for the creation of computer-generated imagery and graphics for the production of VR products, VR architecture, VR infrastructure; Augmented Reality (AR) game development software; Downloadable computer game software for wireless mobile devices; Downloadable computer software and electronic files consisting of interactive three-dimensional (3D) models and three-dimensional (3D) models; Downloadable computer development software for providing access to an online virtual development environment; Downloadable computer programmes and downloadable computer software for artificial intelligence, namely, computer software for developing, running and analysing algorithms that are

able to learn to analyse, classify, and take actions in response to exposure to data; Downloadable computer software for simulation environments for the purpose of testing artificial intelligence agents, algorithms or programmes; Downloadable computer software platforms for developing virtual reality software, augmented reality software, enterprise virtual reality software, and computer software featuring artificial intelligence-driven virtual characters; Downloadable development software for providing development access to a cloud-based, online multimedia virtual environment; Downloadable software for the creation of fully immersive and interactive animations, simulations, and visualizations for use in architecture, product design, and manufacturing; Virtual Reality software for use in simulations; Downloadable software for use in the creation of computer programmes and software, virtual spaces, virtual worlds, online universes, 2D and 3D sites, 2D and 3D content, immersive and realistic interactive experiences, and metaverse environments; Downloadable virtual reality software for access to an online virtual environment; Downloadable virtual goods, namely, computer software for developing avatars, clothing, pets, architecture, furniture, infrastructure, vehicles, weapons, tools, toys, emotes and gestures for use in virtual environments created by application and game developers for entertainment purposes; Downloadable virtual goods, namely, computer programmes featuring digital assets and content for use in computer programmes and software, virtual spaces, virtual worlds, online universes, 2D and 3D sites, 2D and 3D content, immersive and realistic interactive experiences, and metaverse environments; Downloadable virtual goods, namely, computer programmes featuring textures, meshes, models, rigs, graphics, images, videos, audio content, multimedia content, projects, packages, datasets, blueprints, assets, asset data, point clouds, and other digital content for use in computer programmes and software, virtual spaces, virtual worlds, online universes, 2D and 3D sites, 2D and 3D content, immersive and realistic interactive experiences, and metaverse environments; Downloadable virtual goods, namely, computer programmes featuring props, set pieces, buildings, structures, environments, terrains, foliage, landscapes,

avatars, characters, character packs, character animations, character effects, heroes, warriors, adversaries, clothing, accessories, outfits, skins, wraps, pets, vehicles, weapons, tools, armour, abilities, emotes, gestures, dialogue, and sounds for use in computer programmes and software, virtual spaces, virtual worlds, online universes, 2D and 3D sites, 2D and 3D content, immersive and realistic interactive experiences, and metaverse environments; Downloadable graphics for computers, namely, 2D and 3D images for use in computer programmes and software, virtual spaces, virtual worlds, online universes, 2D and 3D sites, 2D and 3D content, immersive and realistic interactive experiences, and metaverse environments; downloadable computer software programmes featuring animations, audio and visual effects, special effects, animation blueprints, maps, elements, audio packs, sounds, sound cues, and audio files for use in the creation of computer programmes and software, virtual spaces, virtual worlds, online universes, 2D and 3D sites, 2D and 3D content, immersive and realistic interactive experiences, and metaverse environments; Downloadable software featuring digital human and non-human characters and representations for use in computer programmes and software, virtual spaces, virtual worlds, online universes, 2D and 3D sites, 2D and 3D content, immersive and realistic interactive experiences, and metaverse environments; Downloadable virtual goods in 3D, namely computer programmes featuring digital content for use in 3D and virtual environments; Downloadable virtual goods, namely, computer programmes featuring digital content for use in creating and participating in online virtual worlds; Downloadable graphics for computers, namely, images for use in creating and participating in virtual environments; Downloadable graphics for computers, namely, images for use in an online multimedia virtual environment; Downloadable graphics for computers, namely, 2D and 3D images for use in the creation of computer-generated imagery and graphics; Downloadable graphics for computers, namely, 2D and 3D images for use in the creation and production of motion pictures, television shows, videos, animations, simulations, visualizations, visual media, digital media, virtual and augmented environments, and virtual,

augmented, mixed reality and extended reality experiences; Downloadable graphic files for use in connection with digital content creation platforms; Downloadable software for use in the creation and production of multimedia content, interactive worlds, virtual reality, augmented reality, mixed reality and extended reality experiences, films, television programmes, videos, and digital media in general; Electronic game software for wireless devices; Video game software; downloadable software for use in video game development, film production, television production, video production, and 3D animations, simulations, and visualizations; Computer software, namely, software development tools for the creation of computer-generated imagery and graphics for the production of content for virtual worlds and 3D platforms; Computer software, namely, software development tools for the creation of computer-generated imagery and graphics for use in architecture, product design, and manufacturing; Professional recorded 3D virtual reality development software for access to an online virtual environment; Recorded software for providing access to an online multimedia virtual environment; Recorded computer development software for use in creating, manipulating and participating in virtual environments; Recorded computer software for use in designing and creating other computer software; Recorded computer software for providing access to an online virtual environment; Recorded computer software development tools; Recorded virtual goods, namely recorded computer programmes featuring avatars, clothing, pets, architecture, furniture, infrastructure, vehicles, weapons, tools, toys, emotes and gestures for use in online virtual worlds; Software for tracking motion in, visualizing, manipulating, viewing, and displaying augmented and virtual reality experiences; Virtual, augmented, and mixed reality software for use in enabling computers, mobile devices, to provide virtual reality experiences; Virtual reality game software; Virtual reality software for multimedia content; Development software for design.

Class 35

Online retail store services featuring virtual goods, namely, avatars, characters,

environments, structures, props, furniture, vehicles, weapons, tools, toys, emotes, and gestures for use in online virtual worlds; Online retail store services featuring software for use in the creation of computer programmes and software, virtual spaces, virtual worlds, online universes, 2D and 3D sites, 2D and 3D content, immersive and realistic interactive experiences, and metaverse environments; Online retail store services featuring software for use in the creation of fully immersive and interactive animations, simulations, and visualizations; Online retail store services featuring downloadable virtual goods, namely, computer programmes featuring digital assets and content for use in computer programmes and software, virtual spaces, virtual worlds, online universes, 2D and 3D sites, 2D and 3D content, immersive and realistic interactive experiences, and metaverse environments; online retail store services featuring virtual goods, namely, computer programmes featuring textures, meshes, models, rigs, graphics, images, videos, audio content, multimedia content, projects, packages, datasets, blueprints, assets, asset data, point clouds, and other digital content; Online retail store services featuring graphics for computers; Online retail store services featuring virtual goods, namely, computer programmes featuring props, set pieces, buildings, structures, environments, terrains, foliage, landscapes, avatars, characters, character packs, character animations, character effects, heroes, warriors, adversaries, clothing, accessories, outfits, skins, wraps, pets, vehicles, weapons, tools, armour, abilities, emotes, gestures, dialogue, and sounds; Online retail store services featuring graphics for computers, namely, 2D and 3D images; Online retail store services featuring animations, audio and visual effects, special effects, animation blueprints, maps, elements, audio packs, sounds, sound cues, and audio files; online retail store services featuring digital human and non-human characters and representations; Online retail store services featuring 3D and virtual goods, namely, computer programmes featuring digital content for use in creating and participating in 3D and virtual environments; Online retail store services featuring virtual goods, namely, computer programmes featuring digital content for use in creating and participating in online virtual worlds; Online retail store services

featuring images for use in creating and participating in virtual environments; Online retail store services featuring images for use in an online multimedia virtual environment; Online retail store services featuring 2D and 3D images for use in the creation of computer-generated imagery and graphics; Online retail store services featuring 2D and 3D images for use in the production of motion pictures, television shows, videos, animations, simulations, visualizations, visual media, digital media, virtual and augmented environments, and virtual, augmented, mixed reality and extended reality experiences; Online retail store services featuring graphic files for use in connection with digital content creation platforms; Online retail store services featuring software for use in the creation of multimedia content, interactive worlds, virtual reality, augmented reality, mixed reality and extended reality experiences, films, television programmes, videos, and digital media in general; Online retail store services featuring software for use the creation of virtual, augmented, mixed reality, and extended reality experiences; Online retail store services featuring digital assets for use in the creation and production of animations, simulations, visualizations, digital media, virtual environments, and virtual, augmented, mixed reality and extended reality experiences; Online retail store services featuring digital assets for use in creating virtual spaces, online universes, 2D and 3D sites, 2D and 3D content, immersive and realistic interactive experiences, and metaverse environments; Online retail store services featuring digital assets for the creation of computer-generated imagery and graphics; Online retail store services featuring computer software and electronic files consisting of interactive three-dimensional (3D) models and three-dimensional (3D) models; Provision of an online marketplace for connecting sellers and buyers of software and electronic files consisting of interactive three-dimensional (3D) models and three-dimensional (3D) models; Operating an online marketplace featuring computer software and electronic files consisting of interactive three-dimensional (3D) models and three-dimensional (3D) models; Provision of an online marketplace for buyers and sellers of digital assets for use in the production of animations, simulations, visualizations, digital media, virtual environments, and

virtual, augmented, mixed reality and extended reality experiences; Provision of an online marketplace for connecting buyers and sellers of digital assets for use in the creation of virtual spaces, online universes, 2D and 3D sites, 2D and 3D content, immersive and realistic interactive experiences, and metaverse environments.

Class 42

Application service provider (ASP) featuring software for mapping services; Computer software technical support services; Computer services in the nature of hosting customised web pages featuring user-generated content; development of computer hardware and software; Hosting of digital [virtual reality and augmented reality] content on the internet; Industrial analysis and research services, namely, in the field of developers to create end-user experience, end-user research and statistics, market research and statistics, industry research and statistics, architectural design and digital twins; Installation of software; Design and development of computer hardware and software; Maintenance of software; Platform as a service (PaaS) services; Platform as a Service (PaaS) and Software as a Service (SaaS) featuring virtual reality game development software applications for the use of computer application developers and game developers to create end-user products; Platform as a service (PaaS) featuring computer software platforms for developing virtual reality software, augmented reality software, enterprise virtual reality software, and computer software featuring artificial intelligence-driven virtual characters; Providing custom developer software and application development, technological services and research and design relating thereto in the field of user interface, developer interface, software development, application development; Scientific and technical services, namely, software development; Platform as a Service (PaaS) featuring computer software platforms for use in database management, server-client functionality, development tools, 3D rendering, 3D animation, Graphical User Interface development, client side tool creation, animations, animation sequences; computer programming in the field of Software as

a Service (SaaS), providing online non-downloadable development software; Software consulting services; Platform as a service (PaaS) featuring non-downloadable software development tools in the field of multiplayer games, massively multiplayer games, multi-user real time applications, web development and tool applications, software development and tool applications; software as a service featuring non-downloadable software development tools in the field of multiplayer games, massively multiplayer games, multi-user real time applications, web development and tool applications, software development and tool applications; providing non-downloadable computer software development tools in the field of multiplayer games, massively multiplayer games, web applications, software applications; Software as a service (SaaS) services; Software as a service (SaaS) featuring artificial intelligence software; Software as a service (SaaS) services featuring software for uploading, downloading, publishing, viewing, and sharing interactive three-dimensional (3D) models; Software as a service (SaaS) services featuring software for use in the creation of virtual spaces, virtual worlds, online universes, 2D and 3D sites, 2D and 3D content, immersive and realistic interactive experiences, and metaverse environments; Software as a service (SaaS) services featuring software for use in the creation of fully immersive and interactive animations, simulations, and visualizations; Software as a service (SaaS) services featuring software for use in the creation of multimedia content, interactive worlds, virtual reality, augmented reality, mixed reality and extended reality experiences, films, television programmes, videos, and visual media; Software as a service (SaaS) services featuring software for use in uploading, downloading, and publishing digital content; Software as a service (SaaS) services featuring software for use in uploading, downloading, and publishing textures, meshes, models, rigs, graphics, images, videos, audio content, multimedia content, projects, packages, datasets, blueprints, assets, asset data, point clouds, and other digital content for use in computer programmes and software, virtual spaces, virtual worlds, online universes, 2D and 3D sites, 2D and 3D content, immersive and realistic interactive experiences,

and metaverse environments; Software as a service (SaaS) services featuring software for use in uploading, downloading and publishing props, set pieces, buildings, structures, environments, terrains, foliage, landscapes, avatars, characters, character packs, character animations, character effects, heroes, warriors, adversaries, clothing, accessories, outfits, skins, wraps, pets, vehicles, weapons, tools, armour, abilities, emotes, gestures, dialogue, and sounds for use in computer programmes and software, virtual spaces, virtual worlds, online universes, 2D and 3D sites, 2D and 3D content, immersive and realistic interactive experiences, and metaverse environments; Software as a service (SaaS) services featuring software for uploading, downloading and publishing 2D and 3D images for use in computer programmes and software, virtual spaces, virtual worlds, online universes, 2D and 3D sites, 2D and 3D content, immersive and realistic interactive experiences, and metaverse environments; Software as a service (SaaS) services featuring software for use in uploading, downloading and publishing animations, audio and visual effects, special effects, animation blueprints, maps, elements, audio packs, sounds, sound cues, and audio files for use in computer programmes and software, virtual spaces, virtual worlds, online universes, 2D and 3D sites, 2D and 3D content, immersive and realistic interactive experiences, and metaverse environments; Software as a service (SaaS) services featuring software for uploading, downloading and publishing digital human and non-human characters and representations for use in computer programmes and software, virtual spaces, virtual worlds, online universes, 2D and 3D sites, 2D and 3D content, immersive and realistic interactive experiences, and metaverse environments; Software as a service (SaaS) services featuring software for creating digital content in 3D and virtual environments; Software as a service (SaaS) services featuring software for creating and participating in 3D and virtual environments; Software as a service (SaaS) services featuring software for creating and participating in online virtual worlds; Software as a service (SaaS) services featuring software for uploading, downloading and publishing 2D and 3D images for use in the creation of computer-generated imagery

and graphics; Software as a service (SaaS) services featuring software for uploading, downloading and publishing 2D and 3D images for use in the production of motion pictures, television shows, videos, animations, simulations, visualizations, visual media, digital media, virtual and augmented environments, and virtual, augmented, mixed reality and extended reality experiences; Software as a service (SaaS) services featuring software for uploading, downloading and publishing graphic files for use in connection with digital content creation platforms; Software as a service (SaaS) services featuring software for use in the creation and development of multimedia content, interactive worlds, virtual reality, augmented reality, mixed reality and extended reality experiences, films, television programmes, videos, and digital media in general; software as a service (SaaS) services featuring computer software and electronic files consisting of interactive three-dimensional (3D) models and three-dimensional (3D) models; Software as a service (SaaS) services featuring software that enables users to browse and license digital content via an online website; Providing online non-downloadable software for simulation environments for the purpose of testing artificial intelligence agents, algorithms or programmes; Providing temporary use of online non-downloadable cloud computing software for virtual, augmented reality applications and environments; Providing temporary use of non-downloadable computer software for use in the creation, design, development, production, and operation of virtual spaces, online universes, 2D and 3D sites, 2D and 3D content, immersive and realistic interactive experiences, and metaverse environments; Providing temporary use of non-downloadable computer software for use in uploading, downloading and publishing digital assets for use in computer programmes and software, virtual spaces, virtual worlds, online universes, 2D and 3D sites, 2D and 3D content, immersive and realistic interactive experiences, and metaverse environments; Providing temporary use of non-downloadable computer software for use in creating and manipulating digital content and images in 3D and virtual environments, and online virtual worlds; Providing temporary use of non-downloadable computer software for uploading, downloading and publishing 2D and

3D images, graphic files, digital content, and multimedia content for use in the production of motion pictures, television shows, videos, animations, simulations, visualizations, visual media, digital media, virtual and augmented environments, and virtual, augmented, mixed reality and extended reality experiences; Software development services; Quality control and authentication services; Updating of software.

Plant-based, fungus-based or fermentation-based proteins for the food industry; plant-based, fungus-based or fermentation-based protein mixtures for the food industry; plant-based, fungus-based extracts for the food industry; plant--based, fungus-based extracts with binding, gelling, emulsifying or foaming characteristics for the food industry; plant-based, fungus-based substances used in the food industry as substitutes for methylcellulose, gellan, xanthan or other gelling substances.

Class 29

Eggs, egg products or egg substitutes for use in bakery products such as pastries, long-life bakery products, sweet pastries, pastries, sponge cakes, pies, cakes, muffins, waffles, pancakes, cookies, meringue, cream cakes, or in dessert products such as ice cream, dessert mousse, or in bakery product components such as fruit creams, pie fillings, or for use as scrambled eggs, fried eggs, or for use in other products such as pasta, noodles, spaetzle, quiche, casseroles, breadcrumb coatings, cocktails, alcoholic beverages, vegan beverages, vegetarian beverages, or for use in margarine substitutes, margarine, marinades, dressings, salad dressings, mayonnaise, mayonnaise substitutes, cold sauces, hot sauces, dipping sauces, or for use as a stabilizer of fat- and water mixtures; gelatin substitutes based on plant-based, fungus-based and fermentation-based extracts; egg-based mousse; milk-based mousse; eggs and milk-based products for use in baking; scrambled eggs, fried eggs; legume- or tuber-based food products.

Class 30

Bread, pastries and confectionery, in particular long-life bakery goods, fruit cakes, vegetable cakes, quiches, sweet pastries, sponge cakes, pies, cakes, muffins, waffles, pancakes (crepes), pancakes, cookies, meringue, cream cakes, soufflés (desserts); Ice cream; pasta, in particular noodles or spaetzle; breadcrumb coatings; baking flavorings [except essential oils], marinades and food seasonings; dressings and cold and hot sauces, especially salad dressings, mayonnaise, mayonnaise substitutes, hollandaise sauce, dipping sauces; food starches.

ACCURIDE

Goods and/or Services:

Class 06

Drawer sliders of metal; metal furniture sliders; balls for bearings; metal drawer trim; drawer gliders of metal; drawer runners of metal; drawer guides of metal; metal angles; metal hinges; hinge clamps of metal; strap-hinges of metal; metallic mountings; overhead suspension tracks of metal; tracks [rails] of metal; suspension clamps of metal; metal brackets; spacer brackets of metal; cantilevered brackets of metal; brackets of metal for furniture; metal locksets; cylinder locks of metal; stops of metal; screw caps of metal; metal handles; drawer handles of metal; precision ball bearing slides, namely, metal drawer slides; sliding and rolling guides and slide rails of metal for containers, boxes, bins and consoles; runners, slides and rails of metal, and parts and fasteners of metal for all the aforesaid goods not included in other classes; beams, guide leaves and sliding elements made of metal for boxes,

cabinets, consoles, racks and containers for storing equipment and devices; metal runners and rollers, whether or not telescopic, especially for use with boxes, cabinets and consoles, kitchenware cupboards and containers for the use or storage of instruments and appliances; metal runners and rails for use in boxes, cases, cabinets, wall cupboards and containers intended for or containing instruments and apparatus; metal runners, castors and slides for boxes, cupboards, consoles, cabinets with shelves and containers used to hold household goods and appliances, and for supporting drawers, doors and shelves for cupboards, desks, filing cabinets and other office and household furniture; metal pulleys (other than for machines) and furniture castors (metal) for use with boxes, cabinets, consoles, sideboards and containers; metal containers for storing instruments and apparatus; door hinges of metal; door handles of metal; locks and keys of metal; metal sliding door rollers; metal furniture fittings; metal door fixings; metal fittings; metal angle brackets; metal nuts, bolts and fasteners; metal drawer slides; metal hardware; rollers, castors and small hardware of metal for boxes and housings, furniture, casings, folders, racks, cabinets, containers, doors, seats, tables, ramps, medical furniture, office furniture, home furniture, cooking apparatus, heating apparatus and cooling apparatus; metal structures and their components, namely metal bearings, sliders, castors, pulleys, sliding rollers, runners, tracks, guide rails, sliding rails, pushers, guard rails, guide rollers, guide pins, channel elements [cable ducts made of metal, other than electricity], chutes, gravity conveyors [chutes] of metal, glides and structures of metal and sub-assemblies of metal for boxes, cabinets, panels, consoles, wall cabinets, racks and containers used primarily for household use; metal runners for use inside boxes, inside cabinets, on shelves, inside cases, in racks, inside cabinets and containers used for instruments and apparatus that house them; metal fittings for furniture; articles made of metal, namely rails and runners for lockers, boxes, cases, consoles, containers; furniture fittings of metal of all kinds; metal rollers and runners for boxes, cupboards, consoles, sideboards and bins for household utensils and appliances; metal rollers and slides for use in boxes, desks, consoles, cabinets and

containers, used for storing instruments and apparatus and for supporting drawers, doors and shelves in furniture, desks, cabinets and other applications and household and office furniture; rails, guides and slides of metal; metal runners, guides and sliding elements for boxes, cabinets, consoles, racks and containers for storing tools and instruments.

Class 19

Rails of plastics, being non-metallic construction materials.

Class 20

Non-metal furniture sliders; drawer sliders (non-metallic -); drawer slides [furniture hardware]; slide closers (non-metallic -) for containers; slide closures (non-metallic -) for containers; non-metal hinges; hinge clamps of non-metallic materials; non-metal runners and rollers, whether or not telescopic, especially for use with containers, cabinets, boxes, racks, shelves, bins and consoles; non-metal sliding and rolling guides and slide rails, whether or not telescopic, for containers, cabinets, boxes, racks, shelves, bins and consoles; runners, slides and rails included in this class and parts and non-metallic fixing materials for all the aforesaid goods; non-metallic runners and slide closures of plastics for use in containers, cabinets, boxes, racks, shelves, bins and consoles; fasteners of non-metallic materials for use in containers, cabinets, boxes, racks, shelves, bins and consoles.

Class 40

Custom manufacture of metal and non-metal hardware and metal goods, in particular runners, slide rails, rollers, sliding and rolling guides, drawer slides, and slide closures, whether or not telescopic, especially for use with containers, cabinets, boxes, racks, shelves, bins and consoles; custom manufacture of tools for others.

Enablion

Goods and/or Services:

Class 01

Chemicals for use in the electronics, semiconductor, and microelectromechanical industries; adhesives for use in the manufacture of electronic equipment (industrial); chemical films and coatings used for circuit boards and electronic devices.

Class 02

Thinners for photo resists; corrosion resistant coating; electrically conductive coating.

Class 03

Cleaning preparations for removing photo resist and organic coating; polishing wax, polishing creams for use in the electronics, semiconductor, and microelectromechanical industries.

Class 06

Metal storage containers for the storage and delivery of liquid and gaseous chemicals for use in the electronics, semiconductor and microelectromechanical industries.

Class 07

Chemical vapor deposition machine; Atomic layer deposition machine for manufacturing liquid crystal displays [LCD], plasma display panels [PDP], solar cells, organic light emitting diodes [OLED] and light emitting diodes [LED]; reactive ion etching machine and chemical-mechanical planarization machine for the electronics, semiconductor and microelectromechanical industries; automated high flow bubbling apparatus for epitaxial processes in the semiconductor industry; semiconductor manufacturing machines, namely, combined cleaning and processing units for processing materials to manufacture semiconductors; industrial production machines for treating and processing semiconductor wafers and substrates, flat screens and data disks; machines for manufacturing semiconductor wafers, semiconductor substrates, flat panel displays and data disks, comprising wafer handling machines,

wafer chemical processing machines; apparatus for rinsing and drying semiconductor wafers; apparatus for applying and processing photoresists; apparatus for photoengraving.

Class 09

Downloadable computer software for controlling chemical delivery systems in the electronics, semiconductor and microelectromechanical industries; electrical process control devices used in the electronics, semiconductor and microelectromechanical industries for the manufacture of electronic devices, namely logic circuits, memory modules, electrical sensors; downloadable electrical process control software for use in the electronics, semiconductor and microelectromechanical industries; electrical process control equipment, namely, downloadable computer software for the monitoring, storage, delivery and management of gases and chemicals for the electronics, semiconductor and microelectromechanical industries; downloadable computer software for monitoring, delivery and dispensing of chemicals, chemical compounds, chemical mechanical planarization slurries, chemical solutions for removing residues and gases in the electronics, semiconductor and microelectromechanical industries; pin grid array integrated circuits; microchip carrier, multi-chip modules; circuit boards; circuit boards and electric conductors; silicon wafers; structured semiconductor wafers; beam splitter.

Class 11

Semiconductor processing furnaces for the thermal treatment of semiconductor products, such as semiconductor wafers, substrates, hard disks and circuit boards; optical films being components of lighting devices.

Class 12

Windows for vehicles; sun-blinds adapted for automobiles.

Class 17

Electrical insulation materials, insulating and protective interlayer dielectric materials and coatings for use in integrated circuits, semiconductor components; insulating film for use in semiconductor manufacture; tinted anti-glare films for windows; tinted plastic film for use on windows; laminated plastic films for windows.

Class 19

Non-metallic building materials, namely, glass panels with embedded fine electrical conductors, liquid crystals and pigments; stained glass windows with embedded fine electrical conductors, liquid crystals and pigments; stained glass windows with embedded fine electrical conductors; stained glass windows with embedded fine liquid crystals; stained glass window with embedded fine pigments.

Class 21

Glass with embedded fine electrical conductors, liquid crystals and pigments, not for building.

Class 35

Consultancy services for the sales promotion of experimental products and prototypes in the field of liquid and gaseous chemicals, chemical compounds, chemical precursors, chemical products, high purity gases and preparations for use in the electronics, semiconductor and microelectromechanical industries; consultancy services for the promotion of ampoules, containers and jars of glass, metal and plastic, including experimental ampoules, containers and jars and prototypes thereof.

Class 37

Construction and installation services, performed for others, of on-site systems for the storage, delivery and use of industrial and specialty gases for the electronics, semiconductor and microelectromechanical industries.

Class 40

Recovery of chemical products, chemical compounds, gases and materials for electronics, semi-conductor and microelectromechanical industries.

Class 42

Chemical analysis and new product design services for experimental products and prototypes in the field of liquid and gaseous chemicals, chemical compounds, chemical precursors, chemical products, high purity gases and preparations for use in the electronics, semiconductor and microelectromechanical industries; inspection services for quality control purposes in the electronics, semiconductor and microelectromechanical industries; product quality evaluation of experimental products and prototypes in the field of liquid and gaseous chemicals, chemical compounds, chemical precursors, chemical products, high purity gases and preparations for use in electronics, semiconductor and microelectromechanical industries; product quality evaluation of glass, metal and plastic ampoules, containers and jars, including experimental ampoules, containers and jars and their prototypes; services in the field of design and development of on-site systems for the storage, delivery and use of industrial gases and specialty gases for the electronics, semiconductor and microelectromechanical industries; inspection (technical review) of industrial facilities for quality control purposes.

Classes: 10 35 42 44

Goods and/or Services:

Class 10

Diagnostic test kits for medical use comprised of devices for collecting bodily fluid samples, namely, tubes, lancets, probes and collection pouches, all for the purpose

of medical diagnostic testing and treatment.

Class 35

Business management and management consulting services in connection with the provision of clinical, diagnostic and analytical testing services; economic and marketing forecasting of drug supplies for clinical trials; recruiting patients and volunteers for clinical trials; business administration of patient reimbursement programs; market research, data collection, database management, and business project management services, all in the fields of medical testing, diagnostic testing, testing for forensic purposes, testing for quality control purposes, genetic testing, clinical and analytical testing, disease, medical care, healthcare, pharmaceuticals, medical devices, biochemicals, and biotechnology; administrative services relating to regulatory submission management, namely, assisting others in preparing and filing applications with governmental regulatory bodies for approval of new drugs and medical devices.

Class 42

Pharmaceutical drug development and testing services; research and development of pharmaceuticals, medical devices, biotechnology, and biochemical; medical and scientific research, namely, designing, organizing, conducting, monitoring, and managing clinical and non-clinical trials and studies on pharmaceuticals and medical devices for others; scientific consulting services for others in the field of clinical and non-clinical trials and studies on pharmaceuticals and medical devices; collection, calibration, analysis and reporting of medical and scientific research data in connection with clinical and non-clinical trials and studies on pharmaceuticals and medical devices; scientific laboratory services; scientific laboratory services, namely, formulating and bioprocessing pharmaceuticals; hosting online computer databases in the fields of research and development of pharmaceuticals, medical devices, biotechnology, and biochemical; providing non-downloadable software through a

web-based portal to collect, organize, and report medical information, medical records, and diagnostic testing records; hosting a web site featuring medical testing for scientific research purposes, testing for forensic research purposes, testing for quality control purposes, genetic testing for scientific research purposes, and medical and scientific research in the field of disease, medical care, healthcare, pharmaceuticals, medical devices, biochemicals, and biotechnology; computer information storage and retrieval in the field of clinical, diagnostic and analytical testing.

Class 44

Medical testing for diagnostic, treatment, or screening purposes; medical testing for forensic purposes; genetic testing for medical purposes; consulting services in the fields of medical testing, testing for medical forensic purposes, genetic testing for medical purposes and relating to diagnostic, prophylactic and therapeutic information in the fields of disease, medical care and healthcare.

Goods and/or Services:

Class 09

Electronic devices and computer software for monitoring, controlling, and operating home appliances, refrigerators, laundry machines, heating apparatus, cooling systems, ovens, range hoods, electric cooktops, electric toaster ovens, electric counter top ovens, electric food dehydrators, and microwave ovens from a remote location; downloadable computer software and computer hardware for home appliances, refrigerators, laundry machines, heating apparatus, cooling systems, ovens, range hoods, electric cooktops, electric toaster ovens, electric counter top ovens, electric food dehydrators, and microwave ovens that allows for a wireless connection to a smart-device for remote monitoring, controlling, and operating of the appliances from a remote location; electronic devices and computer software for monitoring, controlling, and operating home appliances, refrigerators, laundry machines, heating apparatus, cooling systems, ovens, range hoods, electric cooktops, electric toaster ovens, electric counter top ovens, electric food dehydrators, and microwave ovens from a remote location; solar energy regulating and control equipment and apparatus; solar energy systems for electricity generation; solar batteries; solar power management systems comprising of electronic equipment and software for control and monitoring for use in the generation of alternative energy including solar power; electricity generating solar cells and panels; electrical power supply apparatus other than generators; apparatus and instruments for conducting,

switching, transforming, accumulating, regulating or controlling electricity; parts and fittings for all the aforesaid goods; computer software (including application software, web-based software and downloadable software) for tracking, monitoring, measuring, assessing, reporting, calculating and sharing data and information about waste generation and waste minimisation, water usage, electricity usage, gas usage, usage of consumable products by home appliances, environmental impacts, gas emissions, sustainable environmental practices, and carbon footprints; measuring instruments, indicators and controllers relating to growing, breeding, conserving, and utilization of foodstuffs; measuring instruments, indicators and controllers relating to quantity, composition, and quality of nutrient solutions, water and fertilizers; detecting and monitoring instruments; monitoring and control apparatus, detectors and controllers required for aeroponic production of root vegetables; interfaces to facilitate wireless remote monitoring; connected and autonomous cultivation control software; turbine meters; turbine flow meters; turbine flowmeters; electric power supplies other than generators; electric power converters; inverters [electricity]; solar panels for the production of electricity; power controllers; electronic power controllers; electronic controls for motors; wireless controllers to remotely monitor and control the function and status of other electrical, electronic, and mechanical devices or systems; electrical controls for irrigation sprinkler systems; apparatus and instruments for controlling and monitoring aircraft, watercraft and unmanned vehicles; remote controls; timing sensors; temperature sensors; alarm sensors; electric batteries; electric batteries for vehicles; electric accumulators for vehicles; converters, electric; humanoid robots with artificial intelligence for use in scientific research and for virtual assistants; humanoid robots with artificial intelligence, being telepresence robots for guiding exercise, instructing how to use appliances, repair appliances install software, demonstrate products, or adapt your house to be energy efficient; computer hardware; augmented reality glasses; virtual reality software; projection apparatus with artificial intelligence; interactive computer game programs with artificial intelligence; computer software systems for virtual, augmented and extended reality

systems integrating electronic data with real world environments for the purpose of generating virtual, augmented and extended environments in which users can interact for recreational, leisure, fitness, entertainment, business entrepreneurial, educational, or training purposes, to allow users to try and experience new products, appliances, and spaces; computer software for metaverse technology namely applications to enable users to create their own augmented reality experiences, purchase and try products, and demonstrate machines, appliances or equipment; computer software for Building Internet of Things (BIoT) platform, including related technologies, namely to take the concept of IoT and automate functions within smart buildings and smart homes and smart gardens; computer software for the design and development of a virtual shop web application, enabling consumers to try (virtual) before they buy, including ability to use personalised 3D avatars to view items in virtual or augmented applications; computer software for use in relation to science and information technology, namely virtual, augmented and mixed reality software, software for monitoring, operating and controlling appliances and machines, and vehicles, collating data for diagnostics, and predictive analytics; computer software for designing and developing an augmented (mixed reality) operations platform embedded with an (AI) engine, enabling users to experience interactive, augmented and mixed reality experiences facilitating and assisting retailing, wholesaling, selling, advertising, demonstration, promotion, including the foregoing provided in stores; computer software for use in the metaverse to allow virtual avatars to purchase appliances, fitness equipment, design and decorate their homes; software being virtual appliances for use in virtual worlds; computer software and artificial intelligence software for diagnostics of machines and applications faults, operation of machines and maintenance and repair instruction; virtual assistant software in the form of an appliance repair person; a virtual human interface, namely software; a virtual human interface for communicating operation, maintenance and repair information; software being a virtual human interface in the form of a maintenance person, tradesperson, or repairperson; downloadable software for repair services

provided by a virtual repair person; downloadable software for chat bots and virtual repair persons, including those accompanied with the image of a person; control system software; load balancing software; out of balance control software; vibration sensors; intercommunication apparatus; digital data receiving apparatus; software, measuring instruments, indicators and controllers relating to quantity, composition, and quality of nutrient solutions, water and fertilizers and garden equipment and gardening machines; computer software for streaming audio content in the field of recipes and cooking instruction; downloadable software to provide real-time audio feedback; computers and downloadable software, and computer application software for mobile devices for monitoring and analyzing various parameters associated with the operation and use of domestic or household appliances; downloadable media, namely, downloadable audio and video recordings featuring operation and instruction guides for domestic or household appliances; computer software for streaming audio content and music; artificial intelligence software; computer chatbot software for simulating conversations with artificial intelligence; downloadable software and mobile application software for the creation, production, modification and utilisation of digital human avatars for access and use in online, virtual and extended reality environments; virtual reality and augmented reality software; software for creating and delivering artificial intelligence; computer peripheral devices; downloadable electronic game programs; weight sensors; load sensors; gyroscopes; acceleration sensors; downloadable computer software for use as an electronic wallet; downloadable virtual reality software for providing metaverse experiences; virtual reality headsets; consumer coupons downloaded from a global computer network; electronic device component for controlling and regulating HVAC, lighting, water, security, alarm, sensor and media controllers, including remote controllers, plug-in devices as well as smartphone and software applications used therewith; electrical and electronic controllers to control home electric powered devices, namely, controllers for garage doors, electrically activated door locks, appliance monitors, AV media systems, HVAC systems, lighting, water systems, security systems, alarms,

and motion sensors; computer application software for smartphones, tablet computers, PCs, laptops, and PDAs, namely, software for remotely activating electrical and electronic controllers that control the aforesaid home electric powered devices and appliances; electric control devices for heating management; photovoltaic apparatus and installations for generating solar electricity; electric installations for the remote control of industrial operations; electric power distribution machines; covers for electric outlets; solar panels for production of electricity; charging appliances for rechargeable equipment; electric storage batteries; electric batteries for powering electric vehicles; choking coils for use in electrical apparatus; electric control devices for energy management; electric control panels; distribution boxes for electrical power; solar panels for the production of electricity; sprinkler systems for fire protection; kitchen timers, non-electric; gas flow monitors; regulating apparatus, electric; computers; parts, fittings and accessories for all of the aforesaid goods; none of the aforementioned being life-saving equipment, respiratory apparatus, or for healthcare or medical use.

Class 42

Computer services, namely, providing information in relation to technology that allows users to interact remotely with home appliances, refrigerators, laundry machines, heating apparatus, cooling systems, ovens, range hoods, electric cooktops, electric toaster ovens, electric counter top ovens, electric food dehydrators, and microwave ovens via a website; platform as a service (PAAS) featuring computer software platforms for monitoring, controlling, and operating home appliances, refrigerators, laundry machines, heating apparatus, cooling systems, ovens, range hoods, electric cooktops, electric toaster ovens, electric counter top ovens, electric food dehydrators, and microwave ovens; software as a service (SAAS) services namely software for monitoring, controlling, and operating home appliances, refrigerators, laundry machines, heating apparatus, cooling systems, ovens, range hoods, electric cooktops, electric toaster ovens, electric counter top ovens, electric

food dehydrators, and microwave ovens and vehicles; environmental consulting; energy auditing; environmental consultancy in the field of energy use and conservation, greenhouse gas emission reduction, and utilisation of sustainable energy technologies; provision of technological information relating to energy usage and management; technical consultation services in the field of energy efficiency and energy saving systems; environmental analysis of energy used within homes; research and development in the field of energy efficiency, management systems and equipment; energy consumption monitoring and assessment, namely, energy auditing; advisory services relating to energy efficiency; advisory services relating to the use of energy; providing environmental information, advice and consultancy relating to carbon offsetting and carbon reduction; provision of on-line computer software (including web-based applications and software-as-a-service (SaaS) services) for tracking, monitoring, measuring, assessing, reporting, calculating and sharing data and information about waste generation and waste minimisation, usage of consumable products by home appliances, water usage, electricity usage, environmental impacts, gas emissions, sustainable environmental practices and carbon footprints; technological monitoring and management services relating to the performance of solar panels and other equipment used for converting solar energy into electricity; technological monitoring and analysis of the amount of energy generated and used by solar panels and similar equipment; technological monitoring and management services relating to the performance of home appliances, heating systems, plumbing systems, gas systems, wastewater systems and ventilation systems; advisory and consultancy services relating to the foregoing services; development of computer software for use with programmable controllers; calibration of sensors; monitoring of computer systems by remote access; product development consultancy for inventors in the field of artificial science; software as a service (SaaS) namely software for analyzing, filtering, training, predicting, and comprehending the structure of human and computer language; software as a service (SaaS) namely software for use in recognizing images, hand and body gestures, and voice

commands; software as a service (SaaS) software, platform as a service (PaaS) software, providing use of online non-downloadable cloud computing software, web-based applications, all being namely for artificial intelligence software, machine learning software, multi-modal natural language processing and cognitive computing software intended to interact with people in real time; software as a service (SaaS) software, platform as a service (PaaS) software, providing use of online non-downloadable cloud computing software, web-based applications, namely artificial intelligence software, machine learning software, multi-modal natural language processing and cognitive computing software intended to interact with people in real time; provision of non-downloadable computer software for streaming audio content in the field of recipes and cooking instruction; research and design services; scientific and technology services; technological services and research and design relating thereto; research, design and development of software for communication systems; mechanical research; product research; industrial research; product design; industrial design; design and testing of new products; computer system design; provision of non-downloadable software for providing information relating to maintenance and repairs of domestic or household appliances; provision of non-downloadable software for facilitating communication and coaching in the fields of recipes, cooking instruction, maintenance and repair instruction of domestic or household appliances; providing use of online non-downloadable digital human avatar software, provision of non-downloadable software for facilitating user enrolment and registration services, provision of non-downloadable software for access to live and on-demand operations, repair or maintenance instructional audio or video content relating to domestic or household appliances; all the aforesaid software also available as a subscription service, via online platforms, social media platforms, and telecommunications network; information, advisory and consultancy services relating to the foregoing services; providing use of online non-downloadable software for repair services provided by a virtual repair person; providing use of online non-downloadable software for chat bots and virtual repair persons, including

those accompanied with the image of a person; computer services, namely, providing information in relation to technology that enables users to monitor, control, and operate home appliances, refrigerators, laundry machines, heating apparatus, cooling systems, ovens, electric cooktops, electric toaster ovens, range hoods, electric counter top ovens, electric food dehydrators, and microwave ovens via a website; computer services, namely, providing information in relation to technology that allows users to interact remotely with home appliances, refrigerators, laundry machines, heating apparatus, cooling systems, ovens, electric cooktops, electric toaster ovens, electric counter top ovens, range hoods, electric food dehydrators, and microwave ovens and gardening equipment such as sprinkler systems, automated mowing via a website; platform as a service (PAAS) featuring computer software platforms for monitoring, controlling, and operating home appliances, refrigerators, laundry machines, heating apparatus, cooling systems, ovens, range hoods, electric cooktops, electric toaster ovens, electric counter top ovens, electric food dehydrators, and microwave ovens and gardening equipment such as sprinkler systems, automated mowing; software as a service (SAAS) services namely software for monitoring, controlling, and operating home appliances, refrigerators, laundry machines, heating apparatus, cooling systems, ovens, range hoods, electric cooktops, electric toaster ovens, electric counter top ovens, electric food dehydrators, and microwave ovens and gardening equipment such as sprinkler systems, automated mowing; technical data analysis, research relating to data processing, computerised data storage, creating programmes for data processing; scientific and technological services and research and design relating to data analysis, processing and storage; provision of software as a service to enable appliances to provide maintenance information, diagnostic information, and to allow communication and control via the internet; provision of software as a service that allows users to remotely interact with home monitoring, control, and automation systems; planning and design of kitchens and laundries; providing on-line non-downloadable software for use in customer relationship management; design and development of products,

appliances, gardening systems, software for interaction with the aforesaid, design and development of virtual products for use and sale in virtual worlds, and the metaverse; installation, repair, maintenance and updating of software; advisory services relating to the design of household energy systems, surveillance and measurement; graphic illustration and drawing services, namely, providing graphic illustrations and drawings of appliance designs, and converting appliance designs or markups to electronic cad drawings or 3D images; technological consulting and advisory services relating to appliances, energy provision, how to save energy, or use appliances in an energy efficient manner, how to manage water and electricity usage; provision of design consultancy and advisory services to architects and product designers; and consultancy, advisory and information services relating to the foregoing, and provision of the aforementioned services also by electronic means, including via the Internet or in a virtual environment; none of the aforementioned being for healthcare or medical goods or services.

Goods and/or Services:

Class 06

Pipes and tubes coated with protective impregnating agents, hoses and valves therefor, all made of metal; metal pipes [coated with protective impregnating agents]; metal ventilation ducts [coated with protective impregnating agents]; pipe fittings [junctions] of metal; manifolds of metal for pipelines; metal valves for controlling the flow of gases in pipelines coated with protective impregnating agents; metal valves for regulating the flow of liquids in pipelines coated with protective impregnating agents; containers of metal for chemicals, compressed gases and liquids; metal ampoules, containers and vessels for the storage and transport of liquid and gaseous chemicals and high-purity gases, including chemical compounds, precursors and reaction products, for industrial use, namely in the electronics,

semiconductor, microelectromechanical, battery cell manufacturing, pharmaceutical, biotechnology, and data and high-performance computing industries; all of the aforementioned goods being for the purpose of delivering substances to process instruments or to supply and conductor systems connected to such instruments.

Class 07

Material production and processing machines; process racks being parts and fittings for machines and mechanical machinery for use in the development and manufacture of biopharmaceuticals; filtering machines, separators and centrifuges; filter housings being parts of machines; bioreactors for use in manufacturing biopharmaceuticals; electromechanical machines for chemical industry; blending machines for chemical processing; pneumatic pumps for the supply of liquefied gases; pneumatic tube conveyors; plastics pipes [fitted parts of machines]; chemical processing machinery.

Class 09

Electronic apparatus and instruments combining high-precision sensors, digital control apparatus, and responsive electric actuators for control, regulation and monitoring of heating, air-conditioning and ventilation systems for use in clean room systems for use in clean room systems and for building control technology; computers and computer programs [included in this class] for building control technology; computer programs and software for the development and manufacture of biopharmaceuticals; chemistry apparatus and instruments; chromatography apparatus for laboratory use; measuring, detection, monitoring and control devices for gas supply in manufacturing and production processes; measuring, detection, monitoring and control devices for chemical supply; level indicators; level sensors; level sensors and control devices for gas and chemicals; temperature measuring instruments; temperature sensors; electrical control boards; filtering units for laboratory use; insulating vessels for laboratory use; fermentation apparatus for

laboratory use.

Class 11

Fans, filters for commercial air purification, air filter-fan units, lights, ventilation units for air conditioning and air conditioning units, each adapted for use in grid ceilings, walls, floors, cover plates and partition walls in clean rooms, climate chambers, clean room ceilings, rotary air showers and tunnel air showers; heating and air conditioning systems for climate control in laboratory and cleanroom environments; cooling, heating, drying and ventilation systems, equipment and apparatus; air conditioning and air conditioning equipment or parts and fittings therefor; dust, solvent vapour and oil mist extraction and separation equipment and systems composed thereof, each for use in clean room systems or for use in the treatment of atmospheric gases for purification purposes; fans for the aforesaid goods; gas scrubbers [parts of gas installations]; venturi scrubbers; wet scrubbers; gas cleaners (scrubbers) and purifiers; air purifying apparatus; taps for pipes and pipelines; air filters for use as dust extractors in industrial processes; fume extractors; flue gas cleaning apparatus; ventilating hoods for smoke; chromatography apparatus for industrial purposes.

Class 37

Services in the field of construction as well as assembly and installation work for the construction of building and process engineering systems for air conditioning technology, clean room technology, building technology, electrical engineering, supply technology, disposal technology, environmental control, automation, media supply as well as for data centers and high-performance data centers; maintenance as part of repair services as well as repair and cleaning of semiconductor factories, data centers and high-performance data centers; construction services and assembly and installation work for the construction of semiconductor factories, data centers and high-performance data centers as well as factories in the food industry, pharmaceutical industry, biotechnology and battery cell production; installation,

repair and maintenance of computer rooms, data centers and control centers; assembly and installation work for setting up computer rooms, data centers and control centers; installation and assembly work for the initial installation and commissioning of heating, cooling, air conditioning, drying, ventilation, extraction and separation systems and equipment; carrying out maintenance and inspection work (prior to maintenance) within the maintenance and inspection intervals specified by the manufacturer as well as repair and maintenance of heating, cooling, air conditioning, drying, ventilation, extraction and separation systems and equipment; assembly and installation work to retrofit existing factories with environmental protection systems and equipment; repair of gas supply systems; repair or maintenance of chemical plants; installation of gas supply and distribution apparatus; maintenance and repair of pipeline systems; anti-rust treatment for machines; pipe installation services; installation of smoke extraction systems; assembly and installation work for the construction, assembly and installation of modularized systems; installation, maintenance and repair of production machines.

Class 42

Technological planning for the construction of building and process engineering systems for air conditioning technology, clean room technology, building technology, electrical engineering, supply technology, disposal technology, environmental control, automation, media supply as well as for data centers and high-performance data centers; carrying out technical inspections to ensure the legally required functionality of heating, cooling, air conditioning, drying, ventilation, extraction and separation systems and equipment; building services, namely carrying out technical inspections of the functionality of building technology systems as well as of the technical production and work processes; technological advice and technical planning for the implementation of work and production activities or processes in the field of microelectronics, biotechnology, battery cell manufacturing, pharmaceutical and food industries as well as for data centers and high-performance data centers;

technological consulting and planning in the field of environmentally friendly microelectronics manufacturing; technical advice on the implementation of environmentally friendly microelectronics manufacturing technology; technological advice on the redesign of semiconductor factories, data centers and high-performance data centers as well as factories in the food industry, pharmaceutical industry, biotechnology and battery cell production; technological advice on improving eco-efficiency and on energy saving and recycling techniques; technological planning of semiconductor factories; technological planning of factories in the food industry, pharmaceutical industry, biotechnology and battery cell production; technological planning of data centers; technological planning of high-performance data centers; technical project management being technological planning, carrying out of technical inspections [quality control] taking legal requirements into account, as well as the certification [quality control] of clean rooms and technical building equipment at all stages of the project including at the stage of planning and installation, and at the stage of preparation of technical documentation and reports in relation to functionality and operational behaviour; technological planning of building and process engineering systems; engineering services relating to gas transport and supply systems.

International Registration No: 1841397

Date of Protection in Singapore: 14 February 2024

Classes: 06 07 09 10 11 20 37 42

Goods and/or Services:

Class 06

Closures of metal; containers of metal; aluminium foils; aluminium foil paper; connectors of metal for pipes; pipes, tubes and hoses, and fittings therefor, including valves, of metal; parts, fittings and accessories for all the aforesaid goods.

Class 07

Heat exchangers, being parts of machines; heat recovery devices, being parts of machines; mechanical, pneumatic and hydraulic controls for machines, motors or

engines; steam traps; valves, filters, strainers and pumps, all being machines or parts of machines; separators and air compressors, all being machines or parts of machines; lubricators and regulators, all being parts and fittings for machines; steam producing apparatus (parts of machines); valve actuators; pneumatic valve actuators; positioners for actuated control valves, all being parts of machines; thermocompressors, all being parts of machines; machine couplings [other than pipes]; pressure regulators [parts of machines] and control valves [parts of machines] for regulating the flow of gases and liquids; actuators for valves; positioners [machines]; mixing machines; magnetic mixers [machines] for use in the bioprocessing and pharmaceutical industries; agitators and mixers including impeller, blades; pumps [machines]; pumps [parts of machines, engines or motors]; pumps and pump heads; mechanical, pneumatic and hydraulic control apparatus for pumps; mechanical, pneumatic and hydraulic controllers for use with pumps; assembly machines; filling, stoppering and capping machines; peristaltic pumps; pipes and tubing for pumps; power operated valves and linings therefor; diaphragms for valves; drives for valves; valves (being parts of machines) and linings therefor; valves for regulating fluid flow; positive displacement pumps for filling; tubing connectors and product bags (product chambers) adapted for use with all the aforesaid goods; pipes and tubing adapted for use with peristaltic pumps; valves; soldering irons; parts and fittings for all the aforesaid goods.

Class 09

Control, metering, monitoring apparatus and instruments; sight glasses; conductivity meters; flow meters; apparatus and instruments for monitoring and controlling boiler water levels; gauges; electric actuators; computer software for remotely controlling, metering, monitoring, communicating with and measuring and reporting the efficiency, performance and energy consumption of industrial systems, industrial apparatus, steam systems, components of steam systems, steam traps, valves, filters, strainers, pumps, separators, air compressors, lubricators, regulators, gauges, boilers, boiler

systems, heat exchangers, heating installations, steam heaters, and steam producing apparatus; wireless communication apparatus; programmable control apparatus; remote control apparatus; multiple control signal transmission units; apparatus and instruments for scientific, nautical, surveying, electric, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching purposes; electric resistance elements; electric resistors; electric rheostats; electric transformers; electro-magnetic contactors; electric switches; electric thermal cut-outs; electric circuit breakers; electric resistor wire; electric resistor ribbon; thermostats; apparatus for recording, transmission or reproduction of sound or images; magnetic data carriers, recording discs; calculating machines, data processing equipment and computers; devices, elements, installations and units, being electrical and electronic control apparatus for cooling, drying and heating systems; measuring apparatus; electrical power regulating apparatus; sensors; time switches; cables; transformers; cable glands for use with electrical apparatus; monitors; electronic data recording equipment; alarms and alarm systems; sensing apparatus and instruments; conductivity meters; temperature controllers; electrical power and resistance controllers; temperature sensors; apparatus, instruments and cables for electricity; electrical and electronic components; electric cables and wires; electric control panels; electrical connections; industrial automation controls; industrial controls incorporating software; computer software; computer software for designing heat trace systems; computer software for use with industrial controls; load banks; flow measuring and regulating apparatus and instruments; dosing (measuring) apparatus and instruments; peristaltic pumps, pipes, and tubing for laboratory and scientific purposes, as well as for biotechnology and biomedical research use; electrical and electronic control apparatus for valves; electrical and electronic actuators for valves; switches for actuators and valves; electronic master controllers; automatic dosing systems featuring flexible pipes, tubing, and silicone bags for measuring purposes; software for use in connection with all the aforesaid goods; enclosures of metal specially adapted for housing

electronic power controls for heat tracing systems; prefabricated housings of metal specially adapted for electronic power controls; parts, fittings and accessories including tubing connectors and product bags (product chambers) adapted for all the aforesaid goods, included in this class.

Class 10

Peristaltic pumps, pipes and tubing, for medical and clinical purposes; parts and fittings including tubing connectors and product bags (product chambers) for all the aforesaid goods.

Class 11

Heating, steam generating, cooling and ventilating installations and apparatus; valves being parts of heating, steam generating, ventilating and water supply system, in the form of ball valves, thermostatic valves, air valves for steam heating systems, level control valves, mixing valves (faucets), pressure release valves (safety devices), valves for heating installations, water regulating valves (safety devices); surplussing valves [parts of heating or gas and steam generating installations and apparatus]; heat recovery installations and apparatus; filters (parts of industrial installations); pipeline accessories and boiler pipes for heating and steam generating installations and apparatus; humidification apparatus; strainers of metal, being parts of industrial steam producing machines; electric heaters; electric boilers; steam generating installations; steam heating apparatus; steam boilers other than parts of machines; hot water apparatus; steam injectors being parts of heating and steam generating installations and apparatus; apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes; oven heaters; tubular heating elements for broilers; air blast heaters; hot plates; range plates for keeping food warm; hot plates for cooking; urn heaters; fluid superheaters principally for industrial purposes; fluid pre-heaters principally for industrial purposes; flatiron bases for use in heating and steam generating appliances; electric heating

elements; heating element in the form of heat trace cables; electric trace heating systems and apparatus; gas purifying installations; oil purifying installations; immersion heaters; storage tank heaters; air heaters; duct heaters; radiant heaters; circulation heaters; cartridge heaters; insertion heaters; strip heaters; tubular heaters; ring heaters; disc heaters; band heaters; cable heaters; enclosure heaters; industrial heaters; air handlers; electric heating cables; parts, fittings and accessories for all the aforesaid goods.

Class 20

Clamps, not of metal; plastic caps.

Class 37

Construction, repair, installation, commissioning and maintenance of engineering systems, fluid or steam control systems, thermal energy systems, heating systems and electrical thermal systems; valve reconditioning services; consultancy and provision of information relating to repair, installation, and maintenance of fluid technology systems, liquid filling systems, pumping systems and flow control systems; information and advisory services in connection with all the aforesaid services.

Class 42

Professional consulting and advisory services in engineering; conducting of engineering feasibility studies relating to fluid and steam control, and thermal energy; technological, research and consultation services relating to engineering; testing of installations and apparatus relating to engineering, fluid and steam control, and thermal energy; construction drafting, engineering, industrial design and mechanical research; steam quality testing; inspection of engineering systems; inspection of fluid and steam control and thermal energy systems; measurement services for the condition, efficiency, performance and energy consumption of industrial systems, industrial apparatus, steam systems, components of steam systems, steam traps,

valves, filters, strainers, pumps, separators, air compressors, lubricators, regulators, gauges, boilers, boiler systems, heat exchangers, heating installations, steam heaters, and steam producing apparatus, using a secure online portal accessible through a global computer network; providing online non-downloadable software for remotely controlling, metering, monitoring, communicating with and measuring and reporting the efficiency, performance and energy consumption of industrial systems, industrial apparatus, steam systems, components of steam systems, steam traps, valves, filters, strainers, pumps, separators, air compressors, lubricators, regulators, gauges, boilers, boiler systems, heat exchangers, heating installations, steam heaters, and steam producing apparatus, including by means of a secure online portal accessible through a global computer network; installation, updating, maintenance and repair of computer software; preparation of technical reports; energy auditing; consultancy and advisory services in the field of energy-saving and energy efficiency; engineering services; design services; electrical thermal engineering; engineering and design of heaters, heating systems, heat traces and electrical thermal systems; technological consultancy and research relating to engineering systems, heating systems, heat traces and electrical thermal systems; custom design of engineering systems, heating systems, heat traces and electrical thermal systems; consultancy, provision of information and technical advisory services relating to custom design, validation and commissioning (testing and inspection) of engineering systems, heating systems, heat traces and electrical thermal systems; technological research and feasibility studies; inspection of engineering systems, heating systems, heat traces and electrical thermal systems; professional consultations and advice relating to engineering; technological consultancy and research relating to engineering, fluid technology, liquid filling systems and pumping systems; custom design of fluid technology systems, liquid filling systems, pumping systems and flow control systems; consultancy, provision of information and technical advisory services relating to custom design and commissioning (testing and inspection) of fluid technology systems, liquid filling

systems, pumping systems and flow control systems; technological research and feasibility studies; inspection of fluid technology systems, liquid filling systems and pumping systems.

Goods and/or Services:

Class 09

Electronic publications (downloadable); on-line publications (downloadable); interactive electronic publications; electronic publications recorded on computer media; electronic publications in the nature of magazines; electronic publications downloadable from databases or the internet; downloadable publications in electronic form; publications in electronically, magnetically or optically recorded and recordable forms; downloadable digital content being images, music, photos, video recordings, media content, books, publications; videocasts; downloadable videos; compact discs, cassettes [video], dvds and other digital recording media; cd-roms; software applications for use with mobile devices; downloadable applications for use with mobile devices; interactive entertainment software for use with computers; downloadable software in the nature of an application for obtaining news, information, commentary, and textual, audio and visual content of the type found in general interest publications on mobile and stationary electronic device; downloadable files authenticated by non-fungible tokens [NFT]; downloadable image, music, audio, video and multimedia files authenticated by non-fungible tokens (nfts); virtual goods in the form of digital files (downloadable); game software; computer application software featuring games and gaming; downloadable computer games; virtual reality software for playing computer games.

Applicant/Proprietor Details:

Bennett, Coleman & Company Limited

THE TIMES OF INDIA BUILDING,

DR. D. N. ROAD, FORT

MUMBAI 400001

National Trade Mark No: 40202511942U

International Registration No: 1854202

Date of Protection in Singapore: 15 April 2025

Classes: 03 09 41 42

CHEMSERVE

Goods and/or Services:

Class 03

Cleaning preparations; detergents; industrial soap; cleaning agents for metal; kettle cleaner.

Class 09

Downloadable and recorded content; media content; databases; software; recorded data files; data sets, recorded or downloadable; databases (electronic); interactive databases.

Class 41

Publishing and writing of texts; translation and interpretation; teaching; training; arranging of classes; organisation of conferences, exhibitions and competitions; provision of training courses; electronic data processing training; instructional and

training services; providing publications from a global computer network or the Internet which may be browsed; providing electronic publications; electronic text publishing services.

Class 42

Design services; IT services; testing, authentication and quality control; science and technology services; updating of software databases; design of computer databases; electronic storage services for archiving databases; IT consultancy, advisory and information services; quality assurance consultancy; computer aided industrial testing; providing quality assurance services; process monitoring for quality assurance; testing of chemicals; industrial testing; environmental testing and inspection services.

PhariaOS

Goods and/or Services:

Class 09

Software; mobile apps; artificial intelligence and machine learning software; computer chatbot software for simulating conversations; communication and networking software; server software; interactive software; interactive software based on artificial intelligence; artificial intelligence software for analysis; computer software development tools; interfaces for computers; computer software for use as an application programming interface [API]; computer software for application and database integration; downloadable and recorded content; software for the integration of artificial intelligence and machine learning in the field of Big Data; cloud server software; downloadable computer programs and downloadable computer software using artificial intelligence for the processing, generation, understanding and analysis of natural language; downloadable computer programs and downloadable computer software for machine learning; downloadable computer programs and downloadable computer software for image recognition and generation; downloadable computer programs and downloadable computer software using artificial intelligence for music generation; downloadable computer programs and downloadable computer software for artificial intelligence, namely computer software for the development, execution and analysis of algorithms capable of learning, analyzing, classifying and taking action in response to data; downloadable

computer software for simulation environments for testing agents, algorithms or artificial intelligence programs; computer hardware; computers; computer peripheral devices; computer systems; data processing apparatus; computer servers; cloud servers; computer networking and data communications equipment; database servers; database engines; interactive databases; humanoid robots with artificial intelligence; electronic publications, downloadable; image, audiovisual, audio and video recordings [stored and downloadable].

Class 35

Business consultancy and advisory services; collection of data; data management services; management and compilation of computerized databases.

Class 42

Platform as a service [PaaS]; platforms for artificial intelligence as software as a service [SaaS]; AI as a service [AlaaS]; cloud computing; application service provider [ASP] services featuring software; providing online non-downloadable computer software; providing artificial intelligence computer programs on data networks; providing online non-downloadable computer programs and non-downloadable computer software using artificial intelligence for the processing, generation, understanding and analysis of natural language; providing online non-downloadable computer programs and non-downloadable computer software for machine learning; providing online non-downloadable computer programs and non-downloadable computer software for image recognition and generation; providing online non-downloadable computer programs and non-downloadable computer software using artificial intelligence for music generation; providing online non-downloadable computer programs and non-downloadable computer software for artificial intelligence, namely computer software for the development, execution and analysis of algorithms capable of learning, analyzing, classifying and taking action in response to data; providing online non-downloadable computer programs and non-

downloadable computer software for simulation environments for the testing artificial intelligence agents, algorithms or programs; data center services, namely provision of data center facilities, rental of data center facilities; server administration; hosting of servers and hosting of software; public cloud hosting provider services; private cloud hosting provider services; IT services; IT project management; software design, development, programming, implementation, installation, updating and maintenance; design and development of computer hardware, design of computer hardware; development and testing of computing methods, algorithms and software; consultancy and providing of information relating to the aforesaid services.

CLARENCE NY 14031

National Trade Mark No: 40202512004Q

International Registration No: 1854548

Date of Protection in Singapore: 17 December 2024

Classes: 09 35 36 38 42

Goods and/or Services:

Class 09

Computer software for online payment; computer software to allow users to perform electronic business transactions via a global computer network; computer software for receiving, storing, editing, and transmitting purchase information over a computer network; computer software to log commercial transactions; mobile applications for online transactions; computer software for processing electronic payments and for transferring funds to and from others; authentication software for controlling access

to and communications with computers and computer networks; magnetically encoded credit cards and payment cards.

Class 35

Business consulting services in the field of payment processing, namely selection, implementation, use and operation of computer software for payment processing solutions; on-line trading services to facilitate the sale of goods by others via a computer network; publicity and sales promotion; market evaluation and business planning services; business management to support the commercialization of goods and services in connection with e-commerce; bringing together for the benefit of others of a variety of consumers goods, enabling customers to conveniently view and purchase those goods, by mail-order and via the global computer network; reconciling financial transactions.

Class 36

Financial services, namely, electronic funds transfer; clearing financial transactions; providing a wide variety of payment and financial services, namely, credit card services, issuing credit cards and lines of credit, electronic payment services involving electronic processing and subsequent transmission of bill payment data, all conducted via a global communications network; credit card and debit card transaction processing services; providing electronic mobile payment services for others; payment processing services, namely, providing virtual currency transaction processing services for others.

Class 38

Communications and telecommunications services for electronic bill payment systems; leasing access time to web-sites for electronic bill payment systems; telecommunications services, namely the electronic transmission of data and information, paging services, providing an online, interactive bulletin board for the transmission of messages among computer user concerning trading, and the

purchase and sale of items via a global computer network; data streaming; transmission of videos; videotext services.

Class 42

Providing temporary use of non-downloadable software for payment processing via a website; computer services, namely, acting as an application service provider in the field of information management to host computer application software for the purpose of payment processing, and to host an interactive web site that allows electronic invoicing and payment processing; providing temporary use of a secure online non-downloadable software which allows electronic invoicing and payment processing.

Goods and/or Services:

Class 01

Agar-agar for industrial purposes; nitrogen; actinium; alkaloids; alginates for the food industry; alginates for industrial purposes; crotonic aldehyde; ammonium aldehyde; aldehydes; americium; amyl acetate; ammonia; ammonia [volatile alkali] for industrial purposes; anhydrous ammonia; acetic anhydride; anhydrides; anti-knock substances for internal combustion engines; disincrustants; antioxidants for use in the manufacture of cosmetics; antioxidants for use in the manufacture of food supplements; antioxidants for use in the manufacture of pharmaceuticals; antioxidants for use in manufacture; antistatic preparations, other than for household purposes; antifreeze; size for use in the textile industry; argon; lead arsenate;

astatine; aluminium acetate; lime acetate; lead acetate; acetate of cellulose, unprocessed; acetates [chemicals]; acetylene; acetone; oenological bactericides [chemical preparations for use in wine making]; barium; barytes; albumin [animal or vegetable, raw material]; animal albumen [raw material]; iodised albumen; malt albumen; benzene; benzol; bentonite; berkelium; bicarbonate of soda for chemical purposes; potassium dioxalate; biostimulants for plants; bichromate of potassium; bichromate of soda; bauxite; bromine for chemical purposes; albumenized paper; baryta paper; diazo paper; blueprint paper; test paper, chemical; litmus paper; reagent paper, other than for medical or veterinary purposes; self-toning paper [photography]; nitrate paper; sensitized paper; photometric paper; borax; agglutinants for concrete; gas purifying preparations; polish removing substances; preparations for the separation of greases; substances for preventing runs in stockings; water-softening preparations; limestone hardening substances; tanning substances; adhesives for industrial purposes; tensio-active agents; artificial sweeteners [chemical preparations]; fissionable material for nuclear energy; foundry binding substances; concrete-aeration chemicals; leather-dressing chemicals; chemicals for the manufacture of paints; chemicals for the manufacture of pigments; starch-liquifying chemicals [ungluing agents]; flower preservatives; seed preserving substances; viscose; bismuth; bismuth subnitrate for chemical purposes; vitamins for the food industry; vitamins for use in the manufacture of cosmetics; vitamins for use in the manufacture of food supplements; vitamins for use in the manufacture of pharmaceuticals; witherite; distilled water; seawater for industrial purposes; acidulated water for recharging batteries; heavy water; lye water for the food industry; hydrogen; seaweeds [fertilizers]; grafting wax for trees; gadolinium; getters [chemically active substances]; protective gases for welding; solidified gases for industrial purposes; propellant gases for aerosols; basic gallate of bismuth; gallium; gambier; helium; electrophoresis gels; genes of seeds for agricultural production; hydrazine; aluminium hydrate; hydrates; hyposulfites; hypochlorite of soda; gypsum for use as a fertilizer; ceramic glazings; glycol; expanded clay for hydroponic plant

growing [substrate]; kaolin; alumina; glycerides; glycerine for industrial purposes; glucose for the food industry; glucose for industrial purposes; glucosides; gluten for the food industry; holmium; hormones for hastening the ripening of fruit; peat pots for horticulture; graphene; graphite for industrial purposes; guano; humus; gurjun balsam for use in the manufacture of varnish; dextrin [size]; dendrimer-based polymers for use in the manufacture of capsules for pharmaceuticals; detergents for use in manufacturing processes; defoliants; diastase for industrial purposes; manganese dioxide; titanium dioxide for industrial purposes; zirconia; oil dispersants; petroleum dispersants; dispersions of plastics; dysprosium; bichloride of tin; detergent additives to petrol; ceramic compositions for sintering [granules and powders]; additives, chemical, to drilling muds; additives, chemical, to insecticides; chemical additives for oils; additives, chemical, to motor fuel; additives, chemical, to fungicides; dolomite for industrial purposes; tan-wood; yeast for use in biofuel production; yeast for scientific purposes; europium; gelatine for photographic purposes; gelatine for industrial purposes; auxiliary fluids for use with abrasives; fluids for hydraulic circuits; liquids for removing sulfates from batteries; power steering fluid; brake fluid; magnetic fluid for industrial purposes; transmission fluid; tree cavity fillers [forestry]; glaziers' putty; moderating materials for nuclear reactors; diatomaceous earth; fuller's earth for use in the textile industry; lime chloride; isotopes for industrial purposes; active chemical ingredients; ion exchangers [chemicals]; ytterbium; yttrium; iodine for industrial purposes; iodine for chemical purposes; aluminium iodide; alkaline iodides for industrial purposes; casein for the food industry; casein for industrial purposes; kainite; potassium; sorrel salt; californium; calomel [mercurous chloride]; gum arabic for industrial purposes; tartar, other than for pharmaceutical purposes; camphor, for industrial purposes; calcium carbide; silicon carbide [raw material]; carbide; lime carbonate; magnesium carbonate; carbonates; cement [metallurgy]; cassiopium [lutetium]; catalysts; biochemical catalysts; catechu; caustics for industrial purposes; alum; ammonia alum; aluminium alum; chrome alum; quebracho for industrial purposes; ketones; kieselgur;

cinematographic film, sensitized but not exposed; oxygen for industrial purposes; nitric acid; anthranilic acid; benzoic acid; boric acid for industrial purposes; tartaric acid; tungstic acid; gallic acid for the manufacture of ink; gallotannic acid; glutamic acid for industrial purposes; tannic acid; iodic acid; phenol for industrial purposes; citric acid for industrial purposes; lactic acid; formic acid; persulfuric acid; oleic acid; picric acid; pyrogallic acid; salicylic acid; sebacic acid; sulfuric acid; sulfurous acid; spirits of salt; stearic acid; carbonic acid; spirits of vinegar [dilute acetic acid]; phosphoric acid; hydrofluoric acid; hydrochloric acid; cholic acid; chromic acid; oxalic acid; acids; benzene-based acids; fatty acids; mineral acids; arsenious acid; adhesives for billposting; leather glues; adhesives for wall tiles; adhesives for paperhanging; glue for industrial purposes; gums [adhesives] for industrial purposes; birdlime; conductive adhesives; isinglass, other than for stationery, household or alimentary purposes; gluten [glue], other than for stationery or household purposes; starch paste [adhesive], other than for stationery or household purposes; stem cells, other than for medical or veterinary purposes; collagen for industrial purposes; collodion; compost; beer preserving agents; preservatives for use in the pharmaceutical industry; mangrove bark for industrial purposes; tan; starch for industrial purposes; silicon; creosote for chemical purposes; krypton; xenon; xylene; xylol; biological tissue cultures, other than for medical or veterinary purposes; blue vitriol; curium; lactose [raw material]; lactose for the food industry; lactose for industrial purposes; lanthanum; dry ice [carbon dioxide]; lecithin [raw material]; lecithin for the food industry; lecithin for industrial purposes; lithium; magnesite; manganate; oils for tanning leather; oils for currying leather; oils for preparing leather in the course of manufacture; oils for the preservation of food; transmission oil; carbolineum for the protection of plants; paper pulp; wood pulp; grafting mastic for trees; mastic for leather; mastic for tyres; oil cement [putty]; synthetic materials for absorbing oil; brazing preparations; ceramic materials in particulate form, for use as filtering media; filtering materials of unprocessed plastics; filtering materials of mineral substances; filtering materials of vegetable substances; filtering materials of

chemical substances; metalloids; alkaline-earth metals; alkaline metals; methane; methyl benzene; methyl benzol; flour for industrial purposes; tapioca flour for industrial purposes; potato flour for industrial purposes; soap [metallic] for industrial purposes; arsenic; dressing, except oils, for skins; emollients for industrial purposes; animal manure; nanopowders for industrial purposes; sodium; naphthalene; sal ammoniac; toxic gas neutralizers; neodymium; neon; neptunium; ammonium nitrate; uranium nitrate; nitrates; combusting preparations [chemical additives to motor fuel]; nitrous oxide; baryta; uranium oxide; oxalates; lithia [lithium oxide]; lead oxide; antimony oxide; chromium oxide; cobalt oxide for industrial purposes; mercuric oxide; olivine [silicate mineral]; gallnuts; clarification preparations; wine finings; textile-brightening chemicals; beer-clarifying and preserving agents; must-fining preparations; reducing agents for use in photography; bases [chemical preparations]; wax-bleaching chemicals; fat-bleaching chemicals; organic digestate [fertilizer]; paste fillers for automobile body repair; pectin for the food industry; pectin for industrial purposes; pectin [photography]; perborate of soda; percarbonates; hydrogen peroxide for industrial purposes; persulfates; perchlorates; foundry sand; plastisols; sensitized plates for offset printing; ferrotype plates [photography]; plasticizers; plastics, unprocessed; X-ray films, sensitized but not exposed; plutonium; chemical coatings for ophthalmic lenses; polonium; diagnostic strips for testing breast milk, other than for medical or veterinary use; potash; potash water; soil for growing; praseodymium; rubber preservatives; masonry preservatives, except paints and oils; brickwork preservatives, except paints and oils; cement preservatives, except paints and oils; preservatives for tiles, except paints and oils; bacterial preparations, other than for medical and veterinary use; bacteriological preparations for acetification; bacteriological preparations, other than for medical and veterinary use; biological preparations, other than for medical or veterinary purposes; vulcanizing preparations; diagnostic preparations, other than for medical or veterinary purposes; renovating preparations for phonograph records; currying preparations for leather; currying preparations for skins; galvanizing preparations; metal hardening preparations; fixing

baths [photography]; opacifiers for glass; opacifiers for enamel; separating and unsticking [ungluing] preparations; metal annealing preparations; metal tempering preparations; preparations for preventing the tarnishing of lenses; preparations for preventing the tarnishing of glass; cement-waterproofing chemicals, except paints; plant growth regulating preparations; wallpaper removing preparations; anti-boil preparations for engine coolants; fulling preparations for use in the textile industry; descaling preparations, other than for household purposes; fertilizing preparations; flashlight preparations; finishing preparations for use in the manufacture of steel; sizing preparations; animal carbon preparations; preparations of microorganisms, other than for medical and veterinary use; corrosive preparations; cryogenic preparations; dehydrating preparations for industrial purposes; degreasing preparations for use in manufacturing processes; gum solvents; oil-bleaching chemicals; decolorants for industrial purposes; meat tenderizers for industrial purposes; preparations for stimulating cooking for industrial purposes; anti-incrustants; preparations of trace elements for plants; moistening [wetting] preparations for use in dyeing; moistening [wetting] preparations for use in bleaching; enzyme preparations for the food industry; enzyme preparations for industrial purposes; filtering preparations for the beverages industry; chemical preparations to prevent mildew; chemical preparations to prevent wheat blight; chemical condensation preparations; chemical preparations for smoking meat; chemical substances for analyses in laboratories, other than for medical or veterinary purposes; chemical preparations for scientific purposes, other than for medical or veterinary use; chemical preparations for facilitating the alloying of metals; chemical preparations to prevent diseases affecting vine plants; chemical preparations to prevent diseases affecting cereal plants; engine-decarbonising chemicals; fulling preparations; fuel-saving preparations; coal saving preparations; damp-proofing chemicals, except paints, for masonry; anti-sprouting preparations for vegetables; preparations of the distillation of wood alcohol; by-products of the processing of cereals for industrial purposes; chemical substances for preserving foodstuffs;

benzene derivatives; cellulose derivatives [chemicals]; promethium; protactinium; protein [raw material]; proteins for the food industry; proteins for use in the manufacture of food supplements; proteins for use in manufacture; mordants for metals; radium for scientific purposes; radon; solvents for varnishes; anti-frothing solutions for batteries; drilling muds; solutions for cyanotyping; silver salt solutions for silvering; toning baths [photography]; chemical reagents, other than for medical or veterinary purposes; rhenium; mercury; rubidium; carbon black for industrial purposes; soot for industrial or agricultural purposes; lamp black for industrial purposes; samarium; saccharin; selenium; saltpeter; sulfur; silver nitrate; carbon disulfide; silicates; aluminium silicate; silicones; scandium; topsoil; foundry molding preparations; potting soil; acrylic resins, unprocessed; polymer resins, unprocessed; conductive resins, unprocessed; synthetic resins, unprocessed; epoxy resins, unprocessed; soda ash; calcined soda; caustic soda for industrial purposes; barium compounds; fluorspar compounds; salts [fertilizers]; salts [chemical preparations]; ammoniacal salts; ammonium salts; salts of precious metals for industrial purposes; salts for galvanic cells; salt for preserving, other than for foodstuffs; salts for coloring metal; salts for industrial purposes; iron salts; gold salts; iodised salts; calcium salts; sodium salts [chemical compounds]; salt, raw; salts from rare earth metals; mercury salts; toning salts [photography]; chrome salts; chromic salts; salts of alkaline metals; rock salt; mold-release preparations; fire extinguishing compositions; compositions for the manufacture of phonograph records; compositions for the manufacture of technical ceramics; compositions for repairing inner tubes of tyres; compositions for repairing tyres; acid proof chemical compositions; glutinous tree-grafting preparations; adhesive preparations for surgical bandages; fireproofing preparations; compositions for threading; sauce for preparing tobacco; amyl alcohol; vinic alcohol; wood alcohol; sal ammoniac spirits; alcohol; adjuvants, other than for medical or veterinary purposes; cement for footwear; concrete preservatives, except paints and oils; water glass [soluble glass]; strontium; substrates for soil-free growing [agriculture]; barium sulfate; sulfates; antimony sulfide; sulfides; benzoic sulfimide;

sulfonic acids; sumac for use in tanning; superphosphates [fertilizers]; antimony; thallium; talc [magnesium silicate]; tannin; cream of tartar for the food industry; cream of tartar for industrial purposes; cream of tartar for chemical purposes; tellurium; terbium; thermal paste; tetrachlorides; carbon tetrachloride; acetylene tetrachloride; technetium; thymol for industrial purposes; thiocarbanilide; titanite; sensitized cloth for photography; blueprint cloth; toluol; fuel for nuclear reactors; thorium; peat [fertilizer]; gum tragacanth for industrial purposes; thulium; carbonic hydrates; carbon; activated carbon; carbon for filters; animal charcoal; animal carbon; bone charcoal; blood charcoal; fertilizers; nitrogenous fertilizers; fish meal fertilizers; wood vinegar [pyroligneous acid]; uranium; chemical intensifiers for paper; chemical intensifiers for rubber; vulcanization accelerators; enzymes for the food industry; enzymes for industrial purposes; ferments for chemical purposes; milk ferments for the food industry; milk ferments for industrial purposes; milk ferments for chemical purposes; fermium; ferrocyanides; fixing solutions [photography]; flavonoids [phenolic compounds] for industrial purposes; flocculants; soldering fluxes; brazing fluxes; formic aldehyde for chemical purposes; phosphatides; phosphates [fertilizers]; phosphorus; photographic paper; photosensitive plates; sensitized photographic plates; sensitized films, unexposed; photographic developers; photographic sensitizers; chemical preparations for use in photography; photographic emulsions; francium; fluorine; chemicals for use in forestry, except fungicides, herbicides, insecticides and parasiticides; glass-frosting chemicals; leather-renovating chemicals; glass-staining chemicals; enamel-staining chemicals; oil-separating chemicals; water-purifying chemicals; oil-purifying chemicals; condensation-preventing chemicals; stain-preventing chemicals for use on fabrics; anti-tarnishing chemicals for windows; leather-waterproofing chemicals; textile-waterproofing chemicals; chemicals, except pigments, for the manufacture of enamel; radiator flushing chemicals; leather-impregnating chemicals; textile-impregnating chemicals; horticultural chemicals, except fungicides, herbicides, insecticides and parasiticides; agricultural chemicals, except fungicides, herbicides, insecticides and parasiticides;

soil conditioning preparations; chimney cleaners, chemical; industrial chemicals; color-brightening chemicals for industrial purposes; refrigerants; coolants for vehicle engines; chlorine; chlorates; hydrochlorates; aluminium chloride; magnesium chloride; chlorides; palladium chloride; chromates; flowers of sulfur for chemical purposes; caesium; cellulose; cement for mending broken articles; cerium; cyanides [prussiates]; calcium cyanamide [fertilizer]; cymene; loam; slag [fertilizers]; size for finishing and priming; spinel [oxide mineral]; alkalies; caustic alkali; plant extracts for use in the manufacture of food; plant extracts for use in the manufacture of cosmetics; plant extracts for use in the manufacture of pharmaceuticals; tea extracts for the food industry; tea extracts for use in the manufacture of cosmetics; tea extracts for use in the manufacture of pharmaceuticals; radioactive elements for scientific purposes; rare earths; fissionable chemical elements; emulsifiers; erbium; ethane; methyl ether; sulfuric ether; ethyl ether; glycol ether; ethers; esters; cellulose ethers for industrial purposes; cellulose esters for industrial purposes; ethyl alcohol; gluten for industrial purposes; cultures of microorganisms, other than for medical and veterinary use; humus top dressing; moistening [wetting] preparations for use in the textile industry; welding chemicals; baths for galvanizing.

Class 36

Rental of apartments; rental of offices for co-working; rental of real estate; rental of offices [real estate]; rental of farms; accommodation bureau services [apartments]; stock exchange quotations; brokerage; real estate affairs; antique appraisal; jewellery appraisal; stamp appraisal; real estate appraisal; numismatic appraisal; art appraisal; financial evaluation of development costs relating to the oil, gas and mining industries; securities brokerage; real estate brokerage; brokerage of carbon credits; real estate agency services; stock brokerage services.

Class 37

Asphalting; drilling of deep oil or gas wells; drilling of wells; building sealing; linen

ironing; pressing of clothing; disinfecting; sanitizing of upholstery; disinfecting of surgical instruments; deodorizing of upholstery; mining extraction; knife sharpening; bricklaying; riveting; construction consultancy; varnishing; re-tinning; road paving; window cleaning; vehicle washing; building construction supervision; irradiation of medical instruments; renovation of clothing; paper hanging; painting or repair of signs; cleaning of buildings [exterior surface]; providing construction information; rental of bulldozers; rental of drainage pumps; rental of battery chargers; rental of dish drying machines; rental of road sweeping machines; rental of cleaning machines; rental of cranes [construction equipment]; rental of portable power chargers; rental of dishwashing machines; rental of laundry washing machines; rental of construction equipment; rental of excavators; masonry; roofing services; painting, interior and exterior; carpentry services; plastering; quarrying services; excavation of ruins, not for research; umbrella repair; parasol repair; clock and watch repair; upholstery repair; shoe repair; clothing repair; restoration of works of art; demolition of buildings; warehouse construction and repair; sterilization of medical instruments; washing; washing of linen; construction; pier breakwater building; underwater construction; harbour construction; factory construction; building of fair stalls and shops; shipbuilding; cleaning of buildings [interior]; snow removal; street cleaning; laying of artificial turf; vermin exterminating, other than for agriculture, aquaculture, horticulture and forestry; housekeeping services [cleaning services]; pest control services, other than for agriculture, aquaculture, horticulture and forestry; hydraulic fracturing services; hardscaping services; artificial snow-making services; laundering; joinery services [repair of woodwork]; swimming-pool maintenance; chimney sweeping; dry cleaning; diaper cleaning; leather care, cleaning and repair; fur care, cleaning and repair; building insulating; laying of cable; cleaning of clothing.

Class 40

Paper finishing; upcycling [waste recycling]; vulcanization [material treatment]; skin dressing; embroidering; galvanization; electroplating; engraving; decontamination of

hazardous materials; air deodorizing; tanning; metal tempering; gilding; custom manufacturing of boats; cadmium plating; leather staining; fur dyeing; shoe staining; lithographic printing; metal casting; fur glossing; tin plating; boilermaking; magnetization; nickel plating; abrasion; paper treating; woodworking; processing of cinematographic films; leather working; metal treating; fur conditioning; fur mothproofing; waste treatment [transformation]; wool treating; framing of works of art; air freshening; air purification; soldering; recycling of waste and trash; pattern printing; photographic printing; offset printing; metal plating; printing; burnishing by abrasion; rental of batteries; rental of boilers; knitting machine rental; rental of air-conditioning apparatus; rental of air conditioners; rental of space heating apparatus; rental of industrial robots for use in manufacturing; rental of electricity generators; photographic film development; pottery firing; blacksmithing; bookbinding; welding services; glass-blowing; saddlery working; sawing of materials; refining services; timber felling and processing; fur satining; custom manufacturing of aircraft; silver plating; incineration of waste and trash; laser scribing; sorting of waste and recyclable material [transformation]; photocomposing services; planing of materials; fulling of cloth; destruction of waste and trash; custom 3D printing for others; cryopreservation services; key cutting; sandblasting services; production of energy; joinery services [custom manufacturing of woodwork]; custom fashioning of fur; photogravure; millworking; chromium plating; colour separation services; silkscreen printing; optical glass grinding; crushing of concrete; stripping finishes; gold plating; taxidermy; custom manufacturing of yachts.

PRENOSTICS

Goods and/or Services:

Class 01

In-vivo diagnostic reagents for scientific use; diagnostic reagents for in vitro use in biochemistry, clinical chemistry and microbiology; diagnostic reagents for scientific or research use.

Class 05

Medical diagnostic reagents; clinical diagnostic reagents; reagents for use in diagnostic tests [for medical purposes]; medical diagnostic reagents and assays for testing of body fluids; diagnostic biomarker reagents for medical purposes; diagnostic reagents for medical use; reagents and media for medical and veterinary diagnostic purposes; diagnostic testing materials for medical use; chemical diagnostic reagents for medical use; diagnostic chemical reagents for medical use; diagnostic preparations for medical or veterinary purposes; indicators for medical

diagnosis; reagents for use in medical genetic testing; diagnostic preparations for medical purposes; diagnostic reagents for medicinal use; reagents for use with analyzers [for medical purposes]; diagnostic agents for medical use; radio-isotope markers for therapeutic or diagnostic use; biopharmaceuticals for the treatment of cancer; compounds for treating cancer; biological preparations for the treatment of cancer; pharmaceutical products for the treatment of cancer; pharmaceutical preparations for the treatment of cancer; pharmaceutical preparations and substances for the treatment of cancer; pharmaceutical preparations and substances for the prevention of cancer; pharmaceutical preparations for treating malignant tumors; pharmaceutical preparations for the treatment of tumours; pharmaceutical preparations for the prevention of tumours; anti-cancer drugs; chemotherapeutics; pharmaceutical preparations for the treatment of diseases of the metabolic system; pharmaceutical preparations for suppressing tumors; tumor suppressing agents; protein synthesis inhibitors; neoantigens; diagnostic radiopharmaceutical preparations; clinical medical reagents.

Class 10

Tools for medical diagnostics; diagnostic testing instruments for use in immunoassay procedure [medical]; testing probes for medical diagnostic purposes; diagnostic, examination, and monitoring equipment for medical purposes; diagnostic testing apparatus for use in immunoassay procedures [medical]; medical diagnostic instruments; testing instruments for medical diagnostic purposes; nuclear medicine diagnostic imaging apparatus; spectrum analyzers for use in medical diagnosis; diagnostic imaging apparatus for medical use; diagnostic instruments for medical use; diagnostic apparatus for medical purposes; medical diagnostic apparatus for medical purposes; apparatus for the treatment of cancer; apparatus for tumour diagnosis.

Class 42

Design and development of medical technology; computer diagnostic services;

development of diagnostic apparatus; research and development in the field of diagnostic preparations; scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software; design and development of computer hardware and software, in particular computer programs; scientific research for medical purposes, in particular research and development in the field of human medical and veterinary medical diagnostics and therapy; medical research; scientific research for medical purposes; scientific research for medical purposes in the area of cancerous diseases; advice on scientific information relating to alleviation, diagnosis, prevention and treatment of cancer; administration of research in the fields of health, diet, nutrition, cancer and cancer prevention; research laboratories; preparation of biological samples for testing and analysis in research laboratories; provision of information and data relating to medical and veterinary research and development; medical research laboratories; all of the aforesaid services provided in relation to cancer diagnosis, treatment and therapy.

Class 44

Medical diagnostic services; medical testing for diagnostic or treatment purposes; medical analysis services for the diagnosis of cancer; remote monitoring of medical data for medical diagnosis and treatment; medical analysis services for cancer diagnosis and prognosis; medical testing services relating to the diagnosis and treatment of disease; medical analysis services for diagnostic and treatment purposes provided by medical laboratories; performing diagnosis of diseases; prostate cancer screening services; breast cancer screening services; lung cancer screening services; testicular cancer screening services; cervical cancer screening services; bowel cancer screening services; medical services for the treatment of skin cancer; RNA or DNA analysis for cancer diagnosis and prognosis; providing cancer screening services; analysis of human tissues for medical treatment; advisory services relating to the treatment of degenerative diseases; analysis of human serum

for medical treatment; health care; health risk assessment; advice relating to the personal welfare of elderly people [health]; all of the aforesaid services provided in relation to cancer diagnosis, treatment and therapy.

Class 09

Access control devices; access control systems (automatic -) or electric access control systems; electronic locks for use in relation to doors, windows, safe boxes, cabinets and compartments; electronic cylinder locks; padlocks, electronic; wall readers [hardware] being parts of access control systems for restricted areas; badge/card readers, for use in access control; keypad wall readers; connected wall readers that interact with electronic locks; RFID readers; biometric systems, for use in access control; biometric readers; cameras for face recognition; electronic control systems for security barriers; interphone; intercom systems; adapters for intercoms enabling doors to be opened; magnetic or encoded cards, key fobs, bracelets and rings being part (keys) of access control systems; electronically encoded and smart cards, key rings, wristbands, radio-frequency-emitting rings that function as keys; electronic encryption units; electric and electronic programming units for digital locks or smart locks; multiple control signal transmission units; electronic units, for use in process control; electronic purses; ticket and e-ticket validation machines; ticket printers; electronic tags; electronic displays, for use in relation to food and beverage vending machines; closed circuit television cameras; video surveillance systems; apparatus for recording, transmission or reproduction of images; video processors; sensors for detecting the opening and closing of doors and windows; alarm sensors; air temperature sensors; sensors, for use in object detection; apparatus for monitoring electrical energy consumption; remote access control units, for use in controlling lighting; water meters; water temperature regulators; temperature indicators; electronic terminals, for use in payment of goods; electronic terminals, for use in self-registration of visitors; electronic terminals, for use in control of parking facilities; apparatus for data processing; cash registers; downloadable software

enabling access control to restricted areas; downloadable software enabling cloud-based access control to restricted areas; biometric software; downloadable software for identity management and biometric recognition of individuals; downloadable software for identity management and biometric recognition of individuals from the cloud; authentication software; downloadable authentication software that works from the cloud; software, namely downloadable applications enabling interaction with access control devices; software, namely downloadable applications enabling interaction with access control apparatus from the cloud; downloadable software for the management, reservation and purchase of tickets and passports; downloadable software for the management, reservation and purchase of tickets and passports from the cloud; downloadable software for the management of ticket sales points; downloadable software for the management and booking of sports, leisure or recreational facilities; downloadable software for the management and reservation of sports and leisure or entertainment facilities operated from the cloud; computer programs, downloadable for secure online electronic payments; computer programs, downloadable, for the processing of electronic payments and the transfer of funds to and from others; authentication computer programs downloadable from a global computer network and/or recorded on computer media for the control of access to restricted areas and for ticket management; software, downloadable, for the management of visits to restricted areas; software, downloadable, for the cloud-operated management of visits to restricted areas; software, downloadable, for the management of car-parking facilities; software, downloadable, for the cloud-operated management of car-parking facilities; software, downloadable, for controlling the entry and exit of employees; software, downloadable, for the cloud-operated control of the entry and exit of employees; computer application software for the application of the internet of things [IoT]; computer application software for the cloud-operated application of the internet of things [IoT]; downloadable software applications for image processing and downloadable software applications for identity authentication; downloadable software applications for image processing and downloadable

software applications for identity authentication, the aforesaid software applications being operated from the cloud; downloadable software applications for the control and management of energy consumption; downloadable software applications for the cloud-operated control and management of energy consumption; downloadable credentials, tickets, coupons and vouchers from a global computer network; downloadable data files, namely digital tickets and digital access credentials.

Class 42

New product design of locks of metal, other than electric locks, lock cylinders of metal, fittings of metal being parts of locks, padlocks of metal, locking devices of metal, lock bolts, all for use in access control to restricted areas; design of keys of metal, control devices for doors of metal, cabinets [lockers] for automated teller machines [ATMs] of metal, bolts for cabinet doors of metal, security accessories for doors of metal, non-electric door-opening devices, metal barriers for the pedestrian traffic control, access control devices, automatic or electric access control systems; design of electronic locks for doors, windows, lockers, cabinets and compartments, electronic cylinder locks, electronic padlocks, wall readers [hardware] being parts of access control systems for restricted areas, access control apparatus for id and card readers; design of wall readers incorporating a keypad, connected wall readers that interact with electronic locks, radio-frequency identification readers, biometric access control systems, biometric readers, facial recognition cameras, electronic access barriers, intercoms, intercom systems, adapters for intercom systems enabling doors to be opened, magnetically encoded cards or cards being encoded, keyfobs, wrist braces, rings being parts [keys] of access control systems, cards, keyfobs, wrist braces, rings emitting radio frequencies and acting as keys; design of electronic encryption units, units for the programming of locks, units for the transmission of multiple control signals, electronic units for process control, electronic ticket dispensers, electronic purses; design of machines for the inspection of tickets and electronic tickets, ticket printers, electronic tags, electronic displays for food and

beverage vending machines, video surveillance cameras, video surveillance systems, apparatus for the transmission, receipt, reproduction and processing of images, door and window opening and closing detecting sensors; design of alarm sensors, air temperature sensors, sensors for the detection objects, energy control apparatus, remote-control apparatus for the control of lighting, counters for water, water temperature regulators, temperature displays, time pieces; design of electronic terminals for the payment of goods, electronic terminals for the self-registration of visits, electronic terminals for the control of parking facilities, data processing apparatus, cash registers as well as software, whether downloadable or not, for the control and management of all the aforesaid goods; design, updating and maintenance of computer software; software as a service enabling access control to restricted areas; software as a biometric analysis service for identity management and the biometric identification of persons and image processing; software as a service for identity and document authentication; software as a service enabling interaction with access control devices; software as a service for the management, reservation and purchase of tickets and identity cards; software as a service for the management of ticket counters; software as a service for the management and reservation of sports and leisure or entertainment facilities; software as a service for secure online electronic payments, for the processing of electronic payments and for the transfer funds to and from others; software as a service for the management of visits to restricted areas; software as a service for the management of car parks; software as a service for controlling the entry and exit of employees; software as a service for the application of the internet of things [IoT]; software as a service for the control and management of energy consumption; software as a service for the monitoring of people and restricted areas; user authentication services featuring login technology for online software applications; platform as a service providing computer software platforms for the management of access to restricted areas; platform as a service providing computer software platforms for identity management and the biometric identification of persons and image processing; platform as a

service providing computer software platforms for identity and document authentication; platform as a service providing computer software platforms for interaction with access control devices; platform as a service providing computer software platforms for the management, reservation and purchase of tickets and identity cards; platform as a service providing computer software platforms for the management of ticket counters; platform as a service providing computer software platforms for the management and reservation of sports and leisure or entertainment facilities; platform as a service providing computer software platforms for secure online electronic payments, for the processing of electronic payments and for the transfer of funds to and from others; platform as a service providing computer software platforms for the management of visits to restricted areas; platform as a service providing computer software platforms for the management of car parks; platform as a service providing computer software platforms for controlling the entry and exit of employees; platform as a service providing computer software platforms for the application of the internet of things [IoT]; platform as a service providing computer software platforms for the control and management of energy consumption; platform as a service providing computer software platforms for the monitoring of persons and restricted areas; cloud computing; computer database development; providing non-downloadable software online for use in database administration; providing online non-downloadable simulation software for the adaptation of locks and padlocks; web page design services for others; monitoring of computer systems to detect unauthorised access or data breaches; authentication services; authentication services (control) of data transmitted via telecommunications.

Mark Clause(s):

The following claim is made in the International Registration: Colour(s) claimed: The colors blue, white, grey, yellow, green, red, and black are claimed as features the mark. The mark consists of three non-Latin characters presented in blue with a white outline and grey shading, positioned above the words "POKKÉN TOURNAMENT" presented in a stacked manner and depicted in stylized yellow font with a black outline. To the left and the right of the term "POKKÉN" are rectangles with slanted edges featuring a black outline and containing three horizontal lines depicted in green, red, and blue. The white background is not claimed as a feature of the mark.
