GENERAL INFORMATION II

TRADEMARKS ACT 2019 (Act 815)

PUBLICATION OF APPLICATION FOR REGISTRATION OF TRADEMARKS

Pursuant to **section 31** of the Trademarks Act 2019, the following applications for registration of trademarks have been accepted and are hereby published in Intellectual Property Official Journal under **paragraph 148(1)(a)** of the Trademarks Act 2019

Where an application for registration is accepted subject to any conditions, amendments, modifications or limitations, such conditions, amendments, modifications or limitations shall appear in the publication.

Pursuant to subsections 35(1) and 35(2) of the Trademarks Act 2019 and subregulation 23(1) of the Trademarks Regulations 2019, a notice of opposition to oppose the registration of the application for registration of trademark which shall include the statement of the grounds of such opposition may be filed together with payment of the prescribed fee with the Registrar of Trademarks within two months from the date of the publication of the acceptance of such application for registration of trademark.

Notwithstanding the above paragraph, pursuant to subsection 153(1) of the Trademarks Act 2019 and subregulation 23(2) of the Trademarks Regulations 2019, the request for an extension of time may be allowed at the discretion of the Registrar of Trademarks for not more than two months after the expiry of the period for filing the notice of opposition.

CLASS 9

Computer hardware, namely, wireless network extenders; Electronic communication transmitters and receivers; Downloadable and recorded computer software for use with electronic monitor and sensor devices for detecting sound, motion, light, and temperature; Downloadable and recorded computer software for creating reminders and alarms for scheduling; Downloadable and recorded computer software for tracking health statistics; Downloadable and recorded software for displaying, aggregating, analyzing, and organizing data and information in the fields of health; Downloadable and recorded software for providing personalized insights, recommendations, programs and information to assist with improving health habits; Downloadable computer software for a digital thermostat for controlling climate conditions based on energy efficiency, availability of clean energy, and cost savings; Downloadable software application for use on computers and hand-held devices to control climate and energy usage in homes and businesses from a remote location; Downloadable software application for use on computers and hand-held devices for tracking energy consumption and environmental impact; Downloadable software application for use on computers and hand-held devices for monitoring when a local power grid is the cleanest and providing suggested actions to utilize clean and renewable energy when it is most cost effective; Downloadable software application for use on computers and hand-held devices matching your home's electricity consumption with renewable energy sources; Downloadable software application for use on computers and hand-held devices for viewing and paying utility bills; Optical sensors sold as a component of electronic display interfaces; Optical sensors sold as a component of electronic display interfaces for use with computers; Computer software sold as a component of electronic display interfaces for controlling computer and mobile device display screens; Optical sensors in the nature of light sensors sold as a component of electronic display interfaces; Computer devices, namely, electronic interactive devices in the nature of tablet computers, cameras, projectors, and microphones and imbedded recorded computer operating software, sold as a part thereof, for connecting, operating, and managing networked tablet computers, cameras, projectors, and microphones, all used as a system for capturing gesture, facial, and voice recognition.

CLASS 35

Subscription to an information media package, namely, services for providing personalized insights, recommendations, programs and information to assist with improving health habits; Services comprising the recording, transcription, compilation and analysis of video and audio; Statistical analysis and reporting services for businesses purposes; Arranging and conducting a program to reduce energy consumption, decrease energy costs, and utilize clean and renewable energy resources; Promoting awareness about how to reduce energy consumption, decrease energy costs, and utilize clean and renewable energy; Administering a program pursuant to which residential and non-residential electric utility customers contribute funds which are used to purchase renewable energy credits to promote development of renewable energy technologies; Arranging and conducting an incentive rewards program to reduce energy use, decrease energy costs, and utilize clean and renewable energy resources; Promotional services, namely, creating advertising messages and creating promotional incentives for energy users to reduce their energy use, decrease energy costs, and utilize clean energy sources; Energy monitoring services, namely, monitoring energy consumption and usage of equipment in the nature of appliances for the purpose of measuring energy use to improve energy efficiency in commercial, residential, and multifamily facilities; Administering a program to facilitate donations to organizations that promote clean energy and climate change initiatives; Promoting public awareness of the need for clean and renewable energy technologies and programs; Consulting in the field of energy usage management and energy efficiency, namely, providing energy savings analysis, consulting services and predictive analytics to commercial, residential, and multifamily facilities for reducing energy costs and utilizing clean energy sources; Business consulting services in the field of

utility usage management and utility efficiency management, namely, providing analysis, consulting services and predictive analytics to commercial, residential and multifamily facilities regarding the reduction of utility costs; Consulting services in the field of energy usage management to improve energy efficiency; Energy assessment services for the purpose of determining energy efficiency or usage management in commercial, residential, and multifamily facilities for business purposes; Energy usage management services, namely, developing plans for meeting future energy needs; Financial intermediary services, namely, facilitating the channeling of funds via administering a program to facilitate donations to organizations that promote clean energy and climate change initiatives.

CLASS 36

Charitable grant-making, namely, providing grants to organizations supporting work in the fields of clean energy accessibility, climate change, global warming, climate solutions, decarbonization, transition to clean energy, reduction in greenhouse gas emissions and other green initiatives; Providing bill pay services for utilities.

CLASS 38

Telecommunication services, namely, electronic transmission of voice, video, messages and data; Transmission, reception, and processing of sound and video via computer networks; Providing access to databases, namely, a web-based on-line portal that provides customer access to their electric bill account information, energy usage pattern information, energy consumption and usage data, rewards and incentives, status of clean energy on the grid, energy impact, and savings.

CLASS 41

Educational services, in the field of clean and renewable energy and energy conservation; Providing information and in the fields of the environment, climate change, climate action, smart energy technologies, energy conservation, energy efficiency, power generation, energy management, clean energy, renewable energy, energy innovation, and energy access via an online blog.

CLASS 42

Providing online non-downloadable computer software for use with electronic monitor and sensor devices for detecting sound, motion, light, and temperature; Providing online non-downloadable computer software for creating reminders and alarms for scheduling; Providing online non-downloadable computer software for tracking health statistics; Providing online non-downloadable software for displaying, aggregating, analyzing, and organizing data and information in the fields of health; Providing online non-downloadable software for providing personalized insights, recommendations, programs and information to assist with improving health habits; Electronic storage of electronic media, namely, images, text, audio, and video data; Providing online non-downloadable software for recording, viewing, storing, sharing and analyzing online audio and video; Computer services, namely, providing an internet site featuring technology that facilitates the monitoring and control, from a remote location by wired or wireless communication, of devices for environmental monitoring and control, namely, thermostats, smoke alarms, carbon monoxide alarms, fire alarms, security alarms, and wireless local area network enabled cameras; Non-downloadable computer software for mobile phones, tablets and other wireless devices, namely, software for use in recording, viewing, storing, sharing and analyzing online audio and video; Computer services, namely, providing an internet site featuring technology for use in controlling climate, monitoring energy consumption and tracking environmental impact from a remote location; Computer services, namely, providing an internet site featuring technology for monitoring when a local power grid is the cleanest and providing suggested actions to utilize clean and renewable energy when it is most cost effective; Consulting in the field of energy usage management and energy efficiency, namely, providing energy savings analysis, consulting services and predictive analytics to commercial, residential, and multifamily facilities for reducing energy costs and utilizing clean energy sources; Consulting services in the field of energy measurement to improve energy efficiency for business, residential, and multifamily facilities; Consulting services in the field of utility usage management and utility efficiency management, namely, providing analysis, consulting services and predictive analytics to commercial, residential and multifamily facilities regarding the reduction of utility costs; Consulting services in the field of energy usage management to improve energy efficiency; Energy assessment services for the purpose of determining energy efficiency or usage management in commercial, residential, and multifamily facilities for business purposes; Energy usage management services, namely, developing plans for meeting future energy needs; Providing a web-based on-line portal that provides customer access to their electric bill account information, energy usage pattern information, energy consumption and usage data, rewards and incentives, status of clean energy on the grid, energy impact, and savings; Providing a website featuring information on reducing energy consumption, decreasing energy costs, and utilizing clean and renewable energy.

Computer software for organizing and viewing digital images and photographs; Computer software for processing digital images; Computer software for processing digital music files; Computer software for providing online trading platform for digital assets; Computerized digital maps; Covers for handheld digital electronic devices for playing music; Covers for personal digital assistants; Covers for personal digital assistants [pdas]; Covers for portable digital electronic devices for playing music; Digital slr cameras; Digital and virtual currency wallets; Digital art authenticated by non-fungible tokens [nfts]; Digital artworks and images, downloadable; Digital audio broadcasting [dab] radios; Digital audio discs; Digital audio files authenticated by non-fungible tokens [nfts]; Digital audio players; Digital audio recorders; Digital audio tape players; Digital audio tape recorders; Digital audio tapes; Digital bathroom scales; Digital boards; Digital book readers; Digital books downloadable from the internet; Digital books, downloadable; Digital camcorders; Digital cameras; Digital cameras for industrial use; Digital cell phones; Digital color copiers; Digital color printers; Digital compact disc players; Digital content; Digital content, downloadable; Digital controls for robots; Digital data processing apparatus; Digital data recording media; Digital disc drives; Digital door locks; Digital event recorders for seismic data; Digital force gauges; Digital frequency generators; Digital function generators; Digital indicators; Digital input and output scanners; Digital karaoke mixers; Digital locks; Digital map making apparatus; Digital meat thermometers; Digital media streaming devices; Digital mobile phones; Digital music [downloadable] provided from mp3 internet web sites; Digital music [downloadable] provided from a computer database or the internet; Digital music downloadable from the internet; Digital music players; Digital music, downloadable; Digital notepads; Digital organizers; Digital ph meters; Digital padlocks; Digital panel meters; Digital pens; Digital phones; Digital photo frames; Digital photo printers; Digital plotters; Digital projectors; Digital radio receivers; Digital radios incorporating clocks; Digital recording media; Digital sensors; Digital signage display panels; Digital signage monitors; Digital signs; Digital single

lens reflex cameras; Digital sound processors; Digital storage media; Digital tablets; Digital telecommunications apparatus; Digital telephones; Digital to analogue converters; Digital transmitters; Digital versatile disc drives; Digital versatile disc recorders; Digital versatile discs; Digital versatile disk players and recorders; Digital versatile disk recorders; Digital video disc players and recorders; Digital video disk players and recorders; Digital video disk recorders; Digital works of art and images, downloadable; Docking stations for digital music players; Downloadable car keys stored in digital wallets; Downloadable computer software for creating, verifying, and managing digital identities; Downloadable computer software for digital currency; Downloadable computer software for managing digital collectibles using blockchain technology; Downloadable computer software for matching computer game spectators with live digital media content sessions; Downloadable computer software for streaming videos from digital media content sessions; Downloadable digital artworks and images; Downloadable digital assets being digital wallets; Downloadable digital books; Downloadable digital content; Downloadable digital content being tv shows; Downloadable digital content being home videos; Downloadable digital content being images; Downloadable digital content being music audios; Downloadable digital content being music videos; Downloadable digital content being photos; Downloadable digital content being self-created pictures; Downloadable digital content in the form of electronic publications of booklets; Downloadable digital content in the form of electronic publications of books; Downloadable digital content in the form of electronic publications of brochures; Downloadable digital content in the form of electronic publications of handbooks; Downloadable digital content in the form of electronic publications of magazines; Downloadable digital content in the form of electronic publications of newsletters; Downloadable digital content in the form of electronic publications of pamphlets; Downloadable digital media content being photos; Downloadable digital video recordings; Downloadable driver's license cards stored in digital wallets; Downloadable event tickets stored in digital wallets; Downloadable flight bookings stored in digital wallets; Downloadable loyalty cards stored in digital wallets; Downloadable software featuring collectible digital goods using blockchain technology; Downloadable software for receiving and accessing digital collectibles; Downloadable software for receiving and accessing digital currency; Downloadable vaccination certificates stored in digital wallets; E-wallets for storing digital files authenticated by non-fungible tokens [nfts]; Educational materials in digital format; Electric mobile digital communication devices; Neutral density filters for digital cameras; Operating and user instructions for computer software stored in digital form on cd-rom; Operating and user instructions for computers stored in digital form; Usb cables for mobile phones; Usb cables for mobile telephones; Airbag deactivation switches for automobiles; Anti-dust plugs for mobile telephones; Application software for mobile telephones; Audio cassette players for automobiles; Automobile airbag deactivation switches; Automobile data loggers; Automobile data recorder; Automobile data recorders; Automobile stereo adapters; Bags adapted for mobile telephones; Bags and cases adapted or shaped to contain mobile phones; Bags and cases adapted or shaped to contain mobile telephones; Batteries for mobile telephones; Batteries for use with mobile telecommunication devices; Battery chargers for mobile phones; Battery chargers for mobile telephones; Braille mobile phones; Carriers adapted for mobile phones; Carrying cases for mobile phones; Cases adapted for mobile phones; Cases and covers for mobile phones; Clear protective covers adapted for mobile phones; Computer application software for mobile phones; Computer software applications for mobile phones featuring educational materials for children and parents; Computer software applications for mobile phones featuring learning activities for children; Computer software for mobile applications that enable interaction and interface between vehicles and mobile devices; Computer software in the form of an app for mobile devices and computers; Computer software to enable the transmission of photographs to mobile phones; Dashboard mats adapted for holding mobile phones; Dashboard mats adapted for holding mobile telephones and smartphones; Devices for hands-free use of mobile phones; Displays for mobile phones; Docking stations for mobile phones; Downloadable applications for use with mobile devices; Downloadable computer software applications for mobile phones; Downloadable coupons for mobile phones; Downloadable emojis for mobile phones; Downloadable graphics for mobile phones; Downloadable mobile application software for creating and managing non-fungible tokens [nfts] in the form of cyber pets; Downloadable mobile applications; Downloadable mobile applications for creating, editing, processing and converting of gif files; Downloadable mobile applications using artificial intelligence and machine learning for vehicle delivery logistics to manage trip itineraries; Downloadable mobile apps; Downloadable mobile game software; Downloadable mobile phone software applications; Downloadable ring tones for mobile phones; Downloadable software applications for mobile phones; Downloadable software in the nature of a mobile application for cloud kitchen delivery and ordering; Downloadable software in the nature of a mobile application for creating, editing, processing and converting of gif files; Dustproof plugs for jacks of mobile phones; Earphones and headphones for mobile phones; Earphones for mobile phones; Earphones for use with mobile telecommunication devices; Electronic devices being wireless peer-to-peer mobile phone finders; Electronic game software for mobile phones; Electronic keys for automobiles; Encoded electronic chip cards for identifying particular users of computers and mobile phones; Face plates for mobile phones; Cd printers for home or office use; Cd printers for use with computers; Dvd printers for use with computers; Bar code printers; Biometric fingerprint readers; Biometric fingerprint scanners; Blueprint apparatus; Cards encoded to access printers; Carrying cases specially adapted for computer printers; Colour laser printers; Colour laser printers for documents; Computer printers; Computer programmes for printing purposes; Computer programs for printing purposes; Computer stands specially designed for holding a computer, printer and accessories; Computerized time clocks with fingerprint recognition; Daisy wheel printers; Desktop printers; Digital

colour printers; Dot matrix printers; Downloadable computer programmes for printing purposes; Downloadable computer programs for 3d printers; Downloadable computer programs for three dimensional [3d] printers; Downloadable printable calendars; Downloadable printable planners and organizers; Downloadable printing fonts; Downloadable software applications for 3d printers; Drying apparatus for photographic prints; Dye-sublimation printers; Fingerprint activated electronic locking devices; Fingerprint door locks; Fingerprint imagers; Fingerprint padlocks; Fingerprint scanners; Flexible printed circuits; Hand-held electronic bar code label printers; Hand-held electronic photo printers; Holographic prints; Impact printers; Ink cartridges, unfilled, for computer printers; Ink cartridges, unfilled, for photocopiers and printers; Ink cartridges, unfilled, for printers; Ink cartridges, unfilled, for printers and photocopiers; Ink jet colour printers; Ink jet printers for use with computers; Inkjet colour printers; Multilayer printed wiring boards; Non-impact printers; Portable colour laser printers; Portable laser printers; Print heads for computer printers; Print heads for plotters; Printed circuit boards incorporating integrated circuits; Printed electronic circuits; Printed wiring boards; Printer cables; Security systems for vehicles being fingerprint activated electronic locks; Teleprinters; Thermal printers; Ticket printers; Unfilled ink cartridges for printers; Unfilled ink cartridges for computer printers; Unfilled ink cartridges for photocopiers and printers; Wireless portable printers for use with laptops; Wireless portable printers for use with laptops and mobile devices; Xerographic printers; Body harnesses for support when lifting loads; Downloadable software to provide information and support for business intelligence; Downloadable software to provide information and support for competitive intelligence; Downloadable software to provide information and support for technology surveillance; Downloadable software to provide information and support for trend and innovation monitoring; Frames and supports for electrical cover plates; Production support software; System software and system support software; System software, system support software and firmware; Wrist supports for use with computer keyboards; Wrist supports for use with computer peripherals; Computer software for interacting with blockchain platforms; Computer software platforms; Computer software platforms for social networking; Computer software platforms, downloadable; Computer software platforms, recorded or downloadable; Downloadable computer software platforms; Downloadable computer software platforms for cybersecurity data analysis; Downloadable computer software platforms for hosting computer sites; Recorded computer software platforms; Software for providing online trading platform for digital assets; Internet of things [iot] gateway; Apparatus for downloading audio, video and data from the internet; Computer application software for streaming audiovisual media content via the internet; Computer application software for use in implementing internet of things [iot]; Computer application software for use in implementing the internet of things [iot]; Computer game programmes downloadable via the internet; Computer game programs downloadable via the internet; Computer hardware modules for internet of things [iot] enabled devices; Computer hardware modules for electronic devices using internet of things [iot]; Computer programs for accessing and using the internet; Computer programs for using the internet and the world wide web; Computer software and telecommunications apparatus to enable connection to databases and the internet; Computer software and telecommunications apparatus, including modems, to enable connection to databases, computer networks and the internet; Computer software and telecommunications apparatus, including modems, to enable connection to databases, computer networks, global computer networks and the internet; Computer software applications for streaming audiovisual media content via the internet; Computer software applications for use in implementing the internet of things [iot]; Computer software downloaded from the internet; Computer software for computer games on the internet; Computer software for facsimile, e-mail, voice mail or internet messaging; Computer software to enable the provision of electronic media via the internet; Data recorded electronically from the internet; Digital music [downloadable] provided from mp3 websites on the internet; Downloadable computer programs using artificial intelligence in the field of internet fraud detection; Downloadable computer programs using machine learning in the field of internet fraud detection; Downloadable digital music provided from mp3 internet web sites; Downloadable digital music provided from a computer database or the internet; Electronic publications [downloadable] provided from databases or the internet; Electronic publications [downloadable] provided online from databases or the internet; Hardware and software for games of chance on the internet and via telecommunication networks; Internet access software; Internet bots being computer programs; Internet bots being computer software; Internet messaging software; Internet phones; Internet servers; Magazines downloaded in electronic form from the internet; Monitoring apparatus for internet of things [iot] enabled devices; Scientific and medical data downloadable via the internet; Sensors for internet of things [iot] enabled devices; Software downloadable from the internet; Software for internet access; Weekly publications downloaded in electronic form from the internet; Access control and alarm monitoring systems; Alarm monitoring systems; Apparatus and instruments for controlling and monitoring aircraft; Apparatus and instruments for controlling and monitoring aircraft, watercraft and unmanned vehicles; Apparatus and instruments for controlling and monitoring unmanned vehicles; Apparatus and instruments for production line verification, inspection and monitoring; Apparatus for monitoring rotor vibrations; Apparatus for monitoring the vibration of rotors; Computer software for managing electromagnetic field monitoring; Downloadable computer software for remote monitoring and analysis; Downloadable smartphone software for heart pulse monitoring; Electrical control, testing and monitoring apparatus; Electronic baby monitoring (listening) devices; Electronic listening devices for baby monitoring; Electronic monitoring apparatus, other than for medical purposes; Energy meters for tracking and monitoring energy usage; Flame monitoring systems; Measuring, detecting, monitoring and controlling devices; Monitoring instruments; Remote monitoring equipment; Sensors, detectors and monitoring

instruments; Software applications for mobile devices for monitoring and managing patient medical information; Software applications for use with mobile devices for monitoring and managing patient medical information; Software for monitoring, analyzing, controlling and running physical world operations; Voltage monitoring units; Wearable activity trackers with pulse rate monitoring function; Apparatus for processing, transmitting and storing database information; Bibliographic databases; Complete-text databases; Computer database servers; Computer databases; Computer hardware and computer software for database management; Computer programs for accessing databases; Computer programs for accessing online databases; Computer programs for accessing, browsing and searching online databases; Computer programs for browsing and searching online databases; Computer software and telecommunications apparatus, including modems, to enable connection to databases and the internet; Computer software for accessing, browsing and searching online databases; Computer software for application and database integration; Computer software for authorising access to databases; Computer software for creating searchable databases; Computer software for creating searchable databases of information and data; Computer software programs for database management; Data communication apparatus that transmit data and information to databases; Database management software; Database server software; Database synchronization software; Databases; Dynamic databases; Electronic databases; Electronic databases recorded on computer media; Electronic publications downloadable from databases or the internet; Interactive database software; Interactive databases; Software for data and file management and database software; Software for data and file management and for databases; Software for use in database management; Static databases; Gps navigation devices; Loran navigation devices; Loran navigation machines; Autonomous navigation systems; Cabinets adapted to hold navigation apparatus; Cabinets adapted to hold navigation instruments; Earth satellites for use in geolocation navigation; Electric navigational instruments; Electronic navigation apparatus; Electronic navigation instruments; Inertial navigational apparatus; Long range navigation devices; Navigation apparatus; Navigation software; Navigation, guidance, tracking, targeting and map making devices; Navigational instruments; Navigational satellites; Satellite navigation devices; Satellite navigation systems; Satellite navigational apparatus; Scientific, research, navigation, surveying, photographic, cinematographic, audiovisual, optical, weighing, measuring, signaling, detecting, testing, inspecting, life-saving and teaching apparatus and instruments; Software for gps navigation systems; Software for satellite navigation systems; Underwater navigation sonars; Underwater sonar navigational apparatus; Avalanche probes featuring sensors for measuring snow depth; Biochip sensors; Distance sensors; Electric or electronic sensors; Electronic sensors; Hygrometer sensors; Infrared sensors; Level sensors; Motion sensors; Proximity sensors; Sensors; Sensory software; Timing sensors; Touchscreen sensors; Ultrasonic sensors; Blank analogue recording media; Blank electronic storage media; Computer software to enable the provision of electronic media via communications networks; Downloadable digital media content; Downloadable digital media content being tv shows; Downloadable digital media content being home videos; Downloadable digital media content being images; Downloadable digital media content being movies; Downloadable digital media content being music audios; Downloadable digital media content being music videos; Downloadable digital media content being videos; Downloadable media; Downloadable media content; Downloadable multimedia content; Downloadable multimedia files; Electronic data media; Electronic data storage media; Electronic publications recorded on computer media; Fiction e-books recorded on computer media; High definition multimedia interface cables; Interactive multimedia computer programs; Interactive multimedia game programs; Magnetic recording media; Media content; Media software; Multimedia content; Aerials being communications apparatus; Aerials for telecommunications; Antennas being communications apparatus; Antennas for telecommunications networks; Antennas for wireless communications apparatus; Apparatus for point-to-point communications; Automatic switching apparatus for telecommunications; Cellular telecommunications apparatus; Communication hubs; Communication interface units; Communication networks; Communications computers; Communications networks; Communications servers [computer hardware]; Communications software for connecting global computer networks; Computer communications software to allow customers to access bank account information and transact bank business; Computer hardware for telecommunications; Computer programmes for use in telecommunications; Computer software for use in the field of telecommunications for providing electronic transmission of documents and facsimile transmission; Data communications computer software; Downloadable bill communication software; Earpieces for remote communication; Electrical transformers for telecommunication apparatus; Electronic apparatus for developing communication links; Electronic communications apparatus; Fiber optic connectors for telecommunications apparatus; Fiber optics communication installations for use with electronic apparatus; Fibre optic connectors for telecommunications apparatus; Humanoid robots having communication and learning functions for assisting people; Humanoid robots having communication and learning functions for entertaining people; Indicator lights for telecommunication apparatus; Intercommunication apparatus; Intercommunication apparatus with artificial intelligence; Mobile telecommunications devices; Portable telecommunications apparatus; Programmable telecommunication apparatus; Telecommunications apparatus for use with mobile networks; Telecommunications circuit board units; Telecommunications equipment; Telecommunications installations; Telecommunications multiplexers; Telecommunications networks; Telecommunications software; Telecommunications switchboards; Telecommunications switching systems; Toy walkie-talkies with communications capability; Transmitters [telecommunication]; Wireless communication devices; Usb web keys for automatically launching pre-programmed website urls; Business management computer programmes; Computer programmes for

data processing; Computer programmes for document management; Computer programmes, recorded; Data processing programmes; Downloadable video game programmes; Interactive video game programmes; Virtual reality computer game programmes; Children's eyeglasses; Children's spectacles; Coloring and drawing computer programs featuring learning activities of creative expression for children; Computer programs and software featuring learning activities for children; Downloadable multimedia files containing artwork for children relating to letters of the alphabet authenticated by non-fungible tokens (nfts); Humanoid cognitive robots with artificial intelligence capable of carrying out a normal conversation and having teaching skills for assisting children with special needs of learning; Protective goggles for children; Talking children's books; Computer motherboards; Motherboards; Downloadable smartphone applications for heart rate monitoring; Wearable activity trackers with heart rate monitoring function; Audio baby monitors; Audio-video baby monitors; Baby alarms; Baby scales; Video baby monitors; Access control devices; Air traffic control systems; Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the distribution or use of electricity; Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling the use of electricity; Apparatus and instruments for controlling and monitoring watercrafts; Automatic access control apparatus; Automatic access control installations; Automatic access control systems; Automatic access control systems for security barriers; Automatic control apparatus; Carbon level control sensors; Computer cards access control systems; Computer-controlled electronic apparatus for electrophysiological measurement and testing of cells, not for medical purposes; Computer controlled telecommunications exchange apparatus; Computer hardware for lighting control; Computer software for controlling and managing access server applications; Computer software for controlling self-service terminals; Computer software for remote control apparatus; Control equipment for power plants; Control equipment for power stations; Controlled access security apparatus [closed circuit television]; Controllers for virtual reality environments, other than for video games; Control panels [electricity]; Control panels for gates; Control panels for security alarms; Downloadable computer software for controlling gas burners; Downloadable computer software for controlling gas or liquid flows; Downloadable computer software for use in computer access control; Electric access control systems; Electrical and electronic control apparatus and instruments; Electric control apparatus for robots; Electric control devices for heating management; Electric controls for programmable sound generators; Electric installations for the remote control of industrial operations; Electronic access control devices provided with a hand geometry scanner; Electronic access control installations; Electronic access control systems for doors in combination with an intercom; Electronic control apparatus; Electronic control apparatus for computer programmes; Electronic control apparatus for machine tools; Facility management software for controlling access to buildings and security systems; Microcontrollers; Musical instrument digital interface controllers being audio interfaces; Navigation control instruments for watercrafts; Network management control apparatus; Power controllers; Power modules for sequential control; Production process control, optimization and management software; Programmable logic controllers; Remote controls; Remote control telemetering apparatus; Remote control transmitters; Security control apparatus; Software applications for lighting control; Software for controlling buildings and premises, access and security systems; Software for monitoring, analysing, controlling and running physical network operations; Touch sensitive display and control screens; Virtual reality controllers; Virtual reality controllers, other than for playing video games; Virtual reality training simulation software in the field of air traffic control; Volume control pedals; Wireless controllers to remotely monitor and control the function and status of security systems; Safety, security, protection and signalling devices; Computer software development tools; Acrylic screen protectors adapted for television apparatus; Capacitive pens for touchscreen devices; Computer screens; Computer screensaver software; Credit screening software; Display screen filters; Expandable screen smartphones; Oled screens; Navigation, guidance, tracking, targeting and mapping devices; Audiovisual and information technology equipment; Code application and encoding technology devices; Computer hardware and software for blockchain technology; Computer programs using blockchain technology in the field of electronic commerce; Computer software for blockchain technology; Downloadable computer software for blockchain technology; Downloadable computer software for managing smart contracts using blockchain technology; Downloadable software for managing and verifying cryptocurrency transactions using blockchain technology; Downloadable software for managing crypto asset transactions using blockchain technology; Downloadable software for managing cryptocurrency transactions using blockchain technology; Electric actuators featuring capacitive technology; Electronic publications in the field of interactive technology; Information technology equipment; Virtual reality training simulation software in the field of information technology; Automatic solar tracking sensors; Computer hardware for tracking driver behavior; Electronic navigational, tracking and positioning apparatus and instruments; Personnel tracking devices; Product tracking and identification apparatus, instruments and software; Product tracking apparatus; Personal digital assistants in the shape of a watch; Personal digital assistants [pdas]; Privacy screen protectors adapted for personal digital assistants [pdas]; Screen protectors made of tempered glass specially adapted for personal digital assistants; Smartwatches that communicate data to personal digital assistants [pdas]; Touchscreens for personal digital assistants; Touchscreens for personal digital assistants [pdas]; Machine learning software used in computer e-mail filtering programs.

GENERAL INFORMATION III

TRADEMARKS ACT 2019 (Act 815)

PUBLICATION OF ACCEPTANCE OF INTERNATIONAL REGISTRATION DESIGNATING
MALAYSIA

Pursuant to regulation 71 of the Trademarks Act 2019, the following international registrations designating Malaysia have been accepted and are hereby published in Intellectual Property Official Journal under section 148 of the Trademarks Act 2019.

Where an application for registration is accepted subject to any conditions, amendments, modifications or limitations, such conditions, amendments, modifications or limitations shall appear in the publication.

Pursuant to subsections 35(1) and 35(2) of the Trademarks Act 2019 and subregulation 72(1) of the Trademarks Regulations 2019, a notice of opposition to oppose the registration of the international registrations designating Malaysia which shall include the statement of the grounds of such opposition may be filed together with payment of the prescribed fee with the Registrar of Trademarks within two months from the date of the publication of the acceptance of such international registrations designating Malaysia in the Intellectual Property Official Journal.

Notwithstanding the above paragraphs, pursuant to subsection 153(1) of the Trademarks Act 2019 and subregulation 72(2) of the Trademarks Regulations 2019, the request for an extension of time may be allowed at the discretion of the Registrar of Trademarks for not more than two months after the expiry of the period for filing the notice of opposition

Software; Computer software for controlling and managing access server applications; Electronic control instruments; Image recognition software; Automatic control apparatus; Readers [data processing equipment]; Multiport controllers; Photovoltaic apparatus for converting solar radiation to electrical energy; Programmable logic controllers; Industrial software; Manual switching apparatus for telecommunication; Ethernet controllers; Radio-frequency identification (RFID) readers; Apparatus and instruments for transforming electricity; Electric control apparatus; Electronic controllers; Connecting modules for electric controls; Audio-sensitive controls for lighting apparatus and instruments; Access control systems (automatic -); Computer programmes for data processing; Wireless controllers to remotely monitor and control the function and status of security systems; Apparatus for improving power efficiency; Central processing units for processing information, data, sound or images; Electronic access control system for buildings; Electronic cards for processing images; Numerical control apparatus; Automatic dosage apparatus; Cad-cam software; Automatic switching apparatus [for telecommunication]; Electric power distribution apparatus; Electric installations for the remote control of industrial operations; Computer programmes for image processing; Computer applications for automotive control; Computer software for processing digital images; Energy control devices; Electronic control systems; Industrial controls incorporating software; Programmable controllers; Data management software; Valves (remote controls for automatically operating -); Software programmable microprocessors; Computer software for scanning images and documents; Electrical switch cabinets; Data processing apparatus; Apparatus and instruments for regulating electricity; Apparatus and instruments for switching electricity; Telecommunications equipment; Apparatus and instruments for conducting electricity; Electronic switch gears; Electronic control units; Wireless controllers to remotely monitor and control the function and status of other electrical, electronic, and mechanical devices or systems; Electronic device software drivers that allow computer hardware and electronic devices to communicate with each other; Computer software to automate data warehousing; Process controlling software; Computer software for the control of lighting; Apparatus and instruments for accumulating electricity; Computer programs and software for image processing used for mobile phones; Computer programs to operate vehicles; Sensory software; Remote controllers for controlling electronic products; Computer software for system cleaning and optimization; Thermal controls; Computer programs for use in autonomous control of vehicles; Apparatus for the processing of images; Computer software for audibly controlling a computer and the operation thereof; Control installations (electric -); Signal cables for it, av and telecommunication.

CLASS 11

Transportable instruments for processing sewage; Sewage purification installations; Wastewater purification units; Valves (temperature sensitive controls for automatically operating -) [parts of heating installations]; Wastewater treatment installations; Apparatus for controlling water supply; Regulating and safety accessories for gas apparatus; Filters for wastewater; Sewage disposal plants; Settler apparatus for sewage; Bioreactors for use in the treatment of wastewater; Sewage purification apparatus; Installations for controlling the flow of gases; Sewage treatment [purification] installations; Mechanisms for controlling fluid level in tanks [valves].

CLASS 37

Providing information relating to the repair or maintenance of tobacco processing machines; Installation of electric light and power systems; Providing information relating to the repair or maintenance of semiconductor manufacturing machines and systems; Installation of building automation equipment; Installation of manufacturing plants; Power infrastructure construction; Repair or maintenance of tobacco processing machines; Installation of energy-saving apparatus; Repair or maintenance of semiconductor manufacturing machines and systems; Repair of energy production plants and machines; Maintenance and repair of energy generating installations; Advisory services relating to the installation of building automation equipment; Installation of solar powered systems; Repair of energy supply installations; Construction of geothermal energy installations; Installation of environmental engineering systems.

CLASS 38

Transmission of messages and images; Electronic transmission and retransmission of sounds, images, documents, messages and data.

CLASS 39

Distribution of energy; Information and advisory services in relation to the distribution of energy.

CLASS 41

Provision of instruction relating to computer programming; Training in the operation of software systems; Education courses relating to automation; Analyzing educational tests scores and data for others; Education services relating to conservation; Training services relating to the use of computer aided engineering systems; Conducting of educational courses in engineering; Engineering training college services; Consultancy services relating to engineering education; Training in the development of software systems.

CLASS 42

Architectural and engineering services; Technical measuring and testing; Creation of control programs for electric operation control and drive modules; IT project management; Computer software consultancy; Environmental consultancy services; Research relating to the computerised automation of technical processes; Research and development services in the field of engineering; Updating of software for data processing; Consultancy in the field of energy-saving; Computer software design; Development of computer software for use with computer-controlled switching systems; Creation of control programs for automated measurement, assembly, adjustment, and related visualisation; Development of systems for the processing of data; Technical project planning in the field of engineering; Computer software design and updating; Technical research relating to automatic identification systems; Technological engineering analysis; Design and development of data retrieval software; Measurement evaluation services; Development of computer programs recorded on data media (software) designed for use in construction and automated manufacturing (CAD/CAM); Environmental surveys; Consultancy relating to technological services in the field of power and energy supply; IT services; Engineering consultancy services; Professional consultancy relating to energy efficiency in buildings; Technical engineering; Software design and development; Updating of software databases; Provision of information concerning research and technical project studies relating to the use of natural energy; Advisory services relating to energy efficiency; Research in the field of energy; Advisory services relating to the use of energy; Engineering and computer-aided engineering services; Assessment in the field of science provided by engineers; Software as a service [SaaS]; Engineering services; Design and development of image processing software; Environmental testing; Development of measuring and testing methods; Research relating to the computerised automation of administrative processes; Research in the field of science provided by engineers; IT security, protection and restoration; Consultancy services relating to research in the field of environmental protection; Computer programming and software design; Information technology [IT] consultancy; Research in the field of technology provided by engineers; Research relating to the computerised automation of industrial processes; Research in measurement technology; Design of measurement systems; Updating of software for embedded devices; Recording data relating to energy consumption in buildings; Professional consultancy services relating to computer programming; Certification services for the energy efficiency of buildings; Control technology consulting services; Software customisation services; Updating of software for communication systems; Engineering design; Design of data storage systems; Design of engineered building systems; Electronic storage services for archiving databases, images and other electronic data; Assessment in the field of technology provided by engineers; Development of systems for the transmission of data; Software engineering; Providing technical advice relating to energy-saving measures; Conducting engineering surveys; Energy auditing; Designing of electronic systems; Custom design of software packages; Engineering project studies; Software development; Research in the field of environmental protection; Installation of software; Engineering research; Civil engineering consultancy; IT consultancy, advisory and information services.

CLASS 9

Computer software, which involves systems for the analysis of biometric data; Computer software for biometric systems; Biometric identification computer systems; Software, which involves number of algorithms designed to identify abnormal areas in the image of identity document, payment card, bank statement, tax bill, utility bill, voter roll, corporate documents, or other documents and sources, as well as images and videos of users; Computer systems conducting customer identification, documents verification, anti-money laundering transaction monitoring and customer screening, virtual currency address and transaction screening, liveness test, and other related procedures; Computer software for anti-money laundering transaction monitoring and customer screening, virtual currency transaction screening, liveness test, customer identification, including video identification, documents verification, and other related procedures; Computer platforms, which involves a number of algorithms designed to identify abnormal areas in the image of identity document, payment card, bank statement, tax bill, utility bill, voter roll, corporate documents, or other documents and sources, as well as images and videos of users; Computer platforms for customer identification, documents verification, anti-money laundering transaction monitoring and customer screening, virtual currency address and transaction screening, liveness test, and other related procedures; Application software, which involves systems for the analysis of biometric data; Application software for anti-money laundering transaction monitoring and customer screening, virtual currency transaction screening, liveness test, customer identification, including video identification, documents verification, and other related procedures; Application programming interface for anti-money laundering transaction monitoring and customer screening, virtual currency transaction screening, liveness test, customer identification, including video identification, documents verification, and other related procedures; Mobile device application software for collecting data from identity document, payment card, bank statement, tax bill, utility bill, voter roll, corporate documents, or other documents and sources, as well as images and videos of users; Computer application software for transmitting and inputting data into a computer, mobile device, or website user interface; Mobile device application software for transmitting and inputting data into a computer, mobile device, or website user interface; Computer for the customer identification.

CLASS 36

Financial risk management services via computer network for the purpose of allowing acceptance or rejection of electronic funds and virtual currency transactions; Financial risk management services via computer network based on customer identification, documents verification, anti-money laundering transaction monitoring and customer screening, virtual currency address and transaction screening, liveness test; Financial risk management services ensuring secure authorization and secure processing for transactions; Services for online banking related to customer identification, documents

verification, anti-money laundering transaction monitoring and customer screening, virtual currency address and transaction screening, liveness test.

CLASS 42

Software as a services (SaaS) services featuring software for customer identification, documents verification, anti-money laundering transaction monitoring and customer screening, virtual currency address and transaction screening, liveness test; Users' identity verification services via software by means of comparison of users' identity data with their facial biometrics; Services of software development, which involves systems for the analysis of biometric data; Services of software development, which involves number of algorithms designed to identify abnormal areas in the image of identity document, payment card, bank statement, tax bill, utility bill, voter roll, corporate documents, or other documents and sources, as well as images and videos of users; Design, development and programming of computer software that allows to carry out customer identification, documents verification, anti-money laundering transaction monitoring and customer screening, virtual currency address and transaction screening, liveness test, and other related procedures; Conversion services of data or documents from physical to electronic media; Design of computer systems conducting customer identification, documents verification, anti-money laundering transaction monitoring and customer screening, virtual currency address and transaction screening, liveness test, and other related procedures; Design of biometric identification computer systems; Development of computer platforms for customer identification, documents verification, anti-money laundering transaction monitoring and customer screening, virtual currency address and transaction screening, liveness test, and other related procedures; Development of computer platforms, which involves a number of algorithms designed to identify abnormal areas in the image of identity document, payment card, bank statement, tax bill, utility bill, voter roll, corporate documents, or other documents and sources, as well as images and videos of users; Design of computer software, application software and application programming interface for anti-money laundering transaction monitoring and customer screening, virtual currency transaction screening, liveness test, customer identification, including video identification, documents verification, and other related procedures; Design of computer software, application software and application programming interface, which involves systems for the analysis of biometric data; Design of computer software, application software and application programming interface, which involves a number of algorithms designed to identify abnormal areas in the image of identity document, payment card, bank statement, tax bill, utility bill, voter roll, corporate documents, or other documents and sources, as well as images and videos of users; Design of computer and mobile device application software for collecting data from identity document, payment card, bank statement, tax bill, utility bill, voter roll, corporate documents, or other documents and sources, as well as images and videos of users; Design of computer and mobile device application software for transmitting and inputting data into a computer, mobile device, or website user interface; Design of computer software for biometric systems; Design of computer for the customer identification; Services of encryption data, collected from identity document, payment card, bank statement, tax bill, utility bill, voter roll, corporate documents, or other documents and sources, as well as images and videos of users; Services of encryption data in the process of customer identification, documents verification, anti-money laundering transaction monitoring and customer screening, virtual currency address and transaction screening, liveness test, and other related procedures; Electronic storage of data collected from identity document, payment card, bank statement, tax bill, utility bill, voter roll, corporate documents, or other documents and sources, as well as images and videos of users, and other connected data in computer databases; Electronic storage of data for customer identification, documents verification, anti-money laundering transaction monitoring and customer screening, virtual currency address and transaction screening, liveness test, and other related procedures; Installation of computer software for the purpose of customer identification, documents verification, anti-money laundering transaction monitoring and customer screening, virtual currency address and transaction screening, liveness test, and other connected purposes; Consultancy services in the field of computer software for customer identification, documents verification, anti-money laundering transaction monitoring and customer screening, virtual currency address and transaction screening, liveness test; Verification of personal identification [computer security] for use in secure processing of debit card payments; Verification of personal identification [computer security] for use in secure processing of credit card payments; Verification of personal identification [computer security] for use in secure processing of electronic card transfers; Hosting of websites featuring customer identification data.
