General Information

1. Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules. It is published weekly on Fridays, unless otherwise directed by the Registrar.

2. Notice of Opposition

Any person who wishes to oppose any of the marks published may within two months from its publication date file a Notice of Opposition on Form TM11. Reasonable notice should be given to the Applicant beforehand, to provide the Applicant an opportunity to withdraw the application. Failure to give such notice will be taken into account when considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

3. Practice Directions and Circulars

The Registry has ceased our practice of publishing Practice Directions and Circulars in the Trade Marks Journal. Practice Directions and Circulars are available on our website at <https://www.ipos.gov.sg>. If you wish to receive our updates via email, you may subscribe to our mailing list by sending an email to news@ipos.gov.sg and letting us know the subject matter of interest (e.g. Trade Marks).

4. Information Contained in this Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

Goods and/or Services:

Class 09

Computer programs and software (downloadable); Computer game software; games software for use on mobile phones, tablets and other electronic mobile devices; games software downloadable to mobile phones, tablets and other electronic mobile devices; computer programs, in particular computer, video, online and browser games, and games programs for mobile, tablets and other electronic devices; mobile applications; online and browser games; computer-based training apparatus.

Class 28

Games and playthings, gymnastic and sporting articles not included in other classes.

Class 35

Advertising and advertisement services; On-line advertising on computer networks; Promotion and marketing of events, arranging and conducting of events, promotion of competitions, organization of events, exhibitions, fairs and shows for commercial, promotional and advertising purposes; organisation and management of customer loyalty programmes.

Class 36

Financial services, namely, accepting and processing electronic payments and electronic payment transactions; Issuance of cashback, vouchers or tokens of value in the form of cashback and vouchers as rewards as part of a customer loyalty programme.

Class 38

Audio and video on demand and live transmission; streaming of audio and visual content; transmission of voice, data, images, signals, messages and information; audio and visual broadcasting; transmission and delivery of audio and visual content; video-on-demand and live transmission services; providing online chat rooms for registered users for transmission of messages concerning collegiate life, classifieds, virtual community, chatroom services for social networking, photo sharing and tracking of trends; Telecommunications services; creating an online forum community for registered users to participate in the administration of sports competitions and fantasy sports competitions and related operations, voting, auctioning, coaching, play calling, contract negotiations, salary negotiations, player trades, and player drafts.

Class 41

Providing of training; Entertainment; Arranging and conducting sporting activities; Arranging and conducting cultural activities; providing online entertainment in the nature of game tournaments, fantasy sports leagues and game shows.

Class 42

Computer software development; design and development of computer games; computer programming of electronic and digital games; development of games for use on mobile phones, tablets and other electronic devices; design, development and maintenance of computer software and online games; information and advice

relating to these services; Computer services, namely, creating an online community in the form of a website for registered users to participate in the administration of sports competitions and fantasy sports competitions and related operations, voting, auctioning, coaching, play calling, contract negotiations, salary negotiations, player trades, and player drafts.

of cooling water systems or boiler water systems; Chemicals for preventing and controlling the growth of algae, bacteria, and slime in industrial water systems; Chemicals used to control the growth of bacteria, algae and slime in the manufacture of pulp and paper; Chemical agents used to improve the handling of iron ore, coal, and other bulk materials for steelmaking in the field of mining, steel manufacturing and transportation; Scale removing preparations, other than for household purposes; Chemicals for use as flame retardant for electrolyte applied to lithium-ion batteries; Paint booth circulating water treatment agent [chemical]; Chemical Agent to Prevent Fire from Electrolyte in Lithium-Ion Batteries.

Class 09

Downloadable image files; Gas testing instruments; Gasometers [measuring instruments]; Computer programs, downloadable; Electronic publications, downloadable; Nanoparticle size analysers; Computer software applications, downloadable; Boiler control instruments; Monitoring apparatus, other than for medical purposes; Application software for virtual environments; Control panels [electricity]; Pressure measuring apparatus; Detectors; Diagnostic apparatus, not for medical purposes; Flowmeters; Measuring instruments; Measuring apparatus; Densitometers, not for medical purposes; Radiotelegraphy sets; Air analysis apparatus; Precision measuring apparatus; Remote control apparatus; Measuring devices, electric; Electric installations for the remote control of industrial operations; Batteries, electric; Ultrasonic imaging apparatus, not for medical purposes; Sensors [measurement apparatus], other than for medical use; Optical profilers; Remote control telemetering machines and instruments; Remote control telemetering apparatus; Laboratory apparatus and instruments; Power distribution or control machines and apparatus; Electrical cells and batteries; Electrical communication machines and instruments; Downloadable computer software for remote monitoring and analysis; Data communication apparatus and instruments; Surface inspection equipment; Particulate detection equipment; Electromagnetic measuring instrument;

Ultrasonic applied interface level meter; Automatic control device for measuring, monitoring, and controlling data related to the operation and energy usage of water treatment facilities; Image processing device; Microbial fuel cells; Apparatus and equipment used for water quality measurement and analysis; Electric instruments for monitoring chemical property of water, water quality and system performance in water and waste water treatment process; Electric instruments using in the treatment of aqueous system to analyze system conditions for the purpose of applying the appropriate chemical treatment; Electric sensors for measuring chemical levels or conductivity in water environmental parameters, namely, water quality; Electronic-based instruments for measuring and analyzing; Electronic-based instruments for monitoring environmental parameters, namely, chemical property of water, water quality and system performance in water and wastewater treatment process; Electronic-based instruments for use in the treatment of aqueous system, namely, for analysis of the system conditions for the purpose of applying the appropriate chemical treatment; Sensors for measuring chemical levels in water; Sensors for measuring conductivity in water; Electronic-based instruments setting in the water treatment system for the purpose of measuring and monitoring environmental parameter in water treatment system and controlling chemical injection according to the measuring results; Water level detection apparatus; Downloadable software for use in controlling, monitoring, and testing water treatment systems; Dosage dispensers and automated dispensers for measuring and dispensing portions of water treatment chemicals; Bio sensors, not for medical purposes; Apparatus and instruments for testing, identifying and measuring chemicals in aqueous and organic media.

Class 40

Air purification; Air deodorising; Water treating; Metal treating; Waste treatment [transformation]; Destruction of waste and trash; Incineration of waste and trash; Recycling of waste and trash; Upcycling [waste recycling]; Sorting of waste and

recyclable material [transformation]; Carbon capture; Production of renewable green energy; Providing information relating to material treatment; Decontamination of hazardous materials; Rental of chemical processing machines and apparatus and providing information relating thereto; Application of coatings using chemical, mechanical, thermal or thermomechanical processes; Application of thin films on the surfaces of objects by means of chemical, mechanical, thermal, thermomechanical, chemical vapor deposition, physical vapor deposition and vacuum deposition processes; Application of protective surface coatings to machines and tools; Coating and surface finishing of machines and tools; Treatment and coating of metal surfaces; Waste water treatment services for industrial purposes; Waste water treatment; Providing information relating to water treating services; Consultancy in the field of water treatment; Rental of water purifying apparatus and providing information relating thereto; Rental of water filtration units for commercial use; Information, advice and consultancy services relating to the recycling of waste and trash; Treatment of waste; Rental of waste compacting machines and apparatus; Rental of waste crushing machines and apparatus; Recycling of chemicals; Treatment of contaminated soil; Rental of chemical processing machines; Regeneration treatment of used filtration membrane; Water purification; Water recycling and desalination services; Water and/or wastewater treatment services; Contract-based regeneration treatment of industrial wastewater and sewage; Contract-based production services, namely regeneration, desalination, treatment and purification of industrial-grade pure and ultrapure water; Consulting services in the field of water and wastewater treatment; Water treatment and providing information relating thereto; Providing information relating to the rental of water purifying apparatus; Rental of water filters; Processing and recycling of waste and consultancy relating thereto; Treatment of metal parts to prevent dirt adhesion and corrosion; Rental of waste treatment equipment and provision of related information; Regeneration and reclamation of contaminants and deposits removed from the surfaces of machinery and equipment; Recycling and reprocessing of used materials and parts in the industrial field;

Processing of precision parts, electrical components, and electronic components, and providing related information; Surface treatment of industrial machinery, tools, parts; Providing information and consulting regarding surface treatment of industrial machinery, tools, and their parts; Surface treatment of machines, jigs, parts for the manufacturing process of flat panel displays, semiconductors, precision parts, electrical parts, electronic parts; Surface treatment of metal and non-ferrous metal surfaces; Surface treatment of mechanical equipment, jigs, parts after cleaning by physical or chemical methods; Metal coating; Surface modification and coating service of machines, equipment, devices, parts, tools and jigs used in clean room environment; Surface modification and coating of machines, equipment, devices, parts, tools and jigs used in manufacturing processes; Coating services for machinery, equipment, parts, tools and jigs; Recycling of waste, namely, regeneration and reclamation of contaminants and deposits removed from the surfaces of machinery, equipment, parts, tools or jigs; Chemical treatment of boilers and boiler pipings; Providing information, advisory and consultancy services relating to all the aforesaid services.

Class 42

Chemical analysis services; Bacteriological research; Chemistry services; Architectural consultancy; Construction drafting; Engineering; Calibration [measuring]; Quality control for others; Biological research; Consultancy in the field of energy-saving; Scientific research in the field of environmental protection; Providing scientific information, advice and consultancy relating to carbon offsetting; Water analysis; Energy auditing; Software as a service [SaaS]; Electronic data storage; Platform as a service [PaaS]; Research in the field of building construction; Providing online non-downloadable computer software; Energy performance testing of buildings; Engineering services in the field of energy technology; Consultancy in the field of energy efficiency; Design of machines, apparatus and instruments; Testing and research services relating to machines, apparatus and instruments; Planning and

layout design services for cleanroom environments; Monitoring of water quality; Water quality control services; Plant engineering; Engineering services in the field of environmental technology; Environmental testing and inspection services; Testing and research services in the field of preventing pollution; Scientific research in the field of renewable energy; Chemical, biochemical, biological and bacteriological research and analysis; Testing, inspection and research services in the fields of agriculture, livestock breeding and fisheries; Industrial research, testing and analysis services; Testing, analysis and evaluation of the goods and services of others for the purpose of certification; Design and development of testing and analysis methods; Calibration of measuring instruments; Calibration of analytical apparatus; Analysis in the field of molecular biology; Rental of measuring apparatus; Rental of laboratory apparatus and instruments; Provision of online non-downloadable computer software for managing and viewing operational status monitoring data of commercial water purification equipment and devices; Provision of online non-downloadable computer software for managing and viewing operational status monitoring data of commercial wastewater treatment equipment and devices; Providing temporary use of online non-downloadable software for the prediction of chemical products dosage and usage in membrane filtration systems; Provision of online non-downloadable computer software for managing and viewing operational status monitoring data of commercial waste incineration equipment; Provision of online non-downloadable computer software for managing and viewing water treatment status monitoring data; Providing temporary use of online non-downloadable software for the calculation and control of dosing chemicals; Testing and evaluation of equipment, machinery, tools, and materials for cleanrooms, as well as providing related information and consulting services; Computer software design and development; Design of water purification facilities and water purification equipment; Design of wastewater treatment facilities and wastewater treatment equipment; Design and technological advisory services for manufacturing equipment (including parts and accessories) for flat panel displays, semiconductors, other electronic components, and precision machinery parts;

Software as a service (SAAS) services featuring software that allows users to receive reports, alerts, and notifications related to water purifying, wastewater treating, sludge treating, and purewater and ultra-purewater manufacturing processes; Analysis and evaluation of steam generated from boilers and consulting based on the results; Testing related to metal corrosion in cooling water systems and boiler water systems; Technical consulting services in the engineering field of cooling water systems and boiler water systems, namely testing, auditing, monitoring, simulating, and evaluating to optimize water treatment conditions in these systems; Platform as a Service (PAAS) featuring computer software platforms for simulating and monitoring scale and corrosion in cooling water systems and boiler water systems, and optimizing water treatment in these systems; Chemical analysis and the interpretation and evaluation of analysis results; Analysis services for chemical composition of liquids; Research on cleaning technologies and surface processing technologies for machinery and their parts; Testing related to the purification treatment of wastewater; Research, testing and analysis services in the industrial field; Sampling and analysis service for the purpose of checking contamination, deterioration, and performance of used filtration membranes; Consultancy in the field of energy-saving and water conservation; Rental of measuring machinery and instruments; Testing or research related to civil engineering; Technical consulting services in the field of heat exchanger and condenser engineering, namely, testing, auditing, monitoring, simulating and evaluating heat exchanger and condenser equipment to optimize performance of such equipment; Platform as a service (PAAS) featuring computer software platforms for auditing, simulating, and monitoring the performance of heat exchangers and condensers to optimize heat transfer performance; Software as a service (SAAS) services featuring software that allows users to receive reports, alerts, and notifications related to agricultural, horticultural, industrial and manufacturing processes; Evaluation tests related to the coagulation of wastewater and the dewaterability of sludge; Testing related to metal corrosion; Testing related to scale formation in cooling water systems and boiler water systems;

Software as a service (SAAS) services featuring software for use in controlling, monitoring, and testing water treatment systems for tracking and generating reports regarding the history of water condition and performance of water treatment systems; Software as a service (SAAS) featuring software for use in controlling, monitoring, and testing water treatment systems; Software as a service (SAAS) featuring software for providing support services in the field of water treatment equipment; Providing temporary use of online non-downloadable computer software for use in monitoring of industrial manufacturing processes or cleanroom; Remote diagnostic and monitoring services for the conditions of industrial manufacturing processes or cleanroom; Architectural consultancy services; Monitoring of clean rooms for quality control purposes; Research on materials, goods, and technologies related to the construction, management, and maintenance of clean room environments; Testing, inspection and research of semiconductor manufacturing equipment and other equipment used in cleanroom environment; Testing and evaluation services for machinery, equipment, instruments and tools used in the construction, operation or maintenance of cleanroom environments; Testing and certification services for clean room environmental management in accordance with the orders and specifications of authorized bodies; Research on cleaning, surface processing and maintenance technologies for machines, equipment, parts, tools and jigs used in the manufacturing process of semiconductors, integrated circuits and precision equipment; Research on cleaning, surface processing and modification of machinery, equipment, and parts used in manufacturing processes of semiconductor, electronic equipment, precision instruments and medical equipment; Software as a Service (SaaS) featuring software for predicting failures of water pipings and other pipings, analyzing lifespan, assessing the physical condition and repair needs of pipelines, and assisting in the development of repair plans; Software as a service (SaaS) services featuring software for evaluating the condition and assessing potential failure of infrastructure assets; Information, advisory and consultancy services relating to all the aforesaid services.

Construction; construction work supervision [management]; construction project (construction work) management services; construction, maintenance, repair and renovation of buildings; installation of building interiors; installation of office interiors; maintenance and repair of installations in buildings; hygienic building sanitation services; asbestos extraction; asbestos removal; installation, maintenance and repair of urban furniture; electricity installation and maintenance work [electrician services]; installation services for electrical apparatus; maintenance and repair of electricity-operated installations; laying of cables; restoration, repair and maintenance of electric wiring; repair of electric lines; installation, maintenance and repair of HVAC systems [heating, ventilation and air conditioning]; heating equipment installation and repair; air-conditioning apparatus installation and repair; installation, maintenance and repair of de-smoking apparatus; plumbing; installation, maintenance and repair of water and gas ducts; installation and repair of electric apparatus; installation, maintenance and repair of electronic apparatus; machine installation, maintenance and repair; installation, maintenance and repair of computer hardware; installation, maintenance and repair of telecommunication apparatus; installation, maintenance and repair of computers; installation, maintenance and repair of telecommunication networks; installation, maintenance and repair of automation equipment; installation, maintenance and repair of automatic control systems; installation, maintenance and repair of home automation installations (computer hardware and networks); installation, maintenance and repair of intelligent systems for buildings (computer hardware and networks); installation, maintenance and repair of audiovisual equipment; installation, maintenance and repair of instrumentation systems; installation, maintenance and repair of security and safety equipment; installation, repair and maintenance of floor control systems; installation, maintenance and repair of fire detection systems; installation, maintenance and repair of video surveillance systems (video-frequency machines and apparatus); installation, maintenance and repair of equipment for automatic doors; door and window installation; installation,

maintenance and repair of lighting systems; fluid pumping services; installation, maintenance and repair of industrial sites; construction, maintenance and repair of apparatus and installations for generating power; installation, maintenance and repair of photovoltaic installations; demolition of buildings; dismantling of installations previously active in the field of nuclear energy [demolition services]; installation, maintenance and repair of radiation protection devices (computer hardware); information and advice relating to the aforesaid services.

Class 38

Telecommunications; information with respect to telecommunications; communications by computer terminals; communications by fiber-optic networks; provision of multiple-user access to a global computer information network; electronic bulletin board services (telecommunication services); electronic messaging services.

Class 42

Scientific analyses; scientific research; technological research; technological analysis services; industrial research services; industrial analysis services; technical research; technical data analysis services; mechanical research; research in industrial processes; development of industrial processes; technical project study; research and development of new products for third parties; design services; architectural services; design relating to interior space design; construction drafting; engineering; civil engineering (engineering works); electrical engineering services; technical engineering; mechanical engineering; engineering services with respect to designing electronic systems; engineering services relating to robotics; computer engineering services; engineering services regarding information technology; telecommunications engineering; engineering services in the field of energy technology; nuclear engineering services; energy auditing; advice with respect to energy saving; consultancy services relating to energy efficiency; design and development of

computer hardware; computer programming; software development [design]; software development; software integration; software installation; software rental; software maintenance; updating of software; provision of online non-downloadable software; computer system design; computer system integration services; cloud computing; Software as a Service [SaaS]; computer Platform as a Service [PaaS]; infrastructure as a service [IaaS]; computer analyses; computer system analysis; computer programming services for data analysis; recovery of computer data; design and development of electronic data security systems; monitoring of computer systems to detect breakdowns; conversion of computer programs and data, other than physical conversion; conversion of data or documents from physical to electronic media; computer-aided graphic design; industrial design; computer simulation and modeling services [computer programming services]; three-dimensional scanning services; digital mapping service; research relating to computerized automation of industrial procedures; research in the field of instrumentation; technological consultancy services; computer technology consulting services; telecommunication technology consultancy services; technological advice on digital transformation; consultation with respect to software; consultant services with respect to computer hardware design and development; consultation with respect to computer security; consultant services with respect to data security; advice regarding artificial intelligence; management of computer projects; project management in the field of information technology.

Class 07

Turbomachinery; turbochargers; electric turbomachinery; electric turbochargers; superchargers for engines; electric and non-electric turbomachinery for industrial treatment, heating, ventilating, air conditioning and purification apparatus and installations; blowers; electric blowers; compressors; electric compressors; electric and non-electric compressors as parts of machines, motors and engines; parts of engines, propulsion mechanisms for water vehicles and power generation apparatus; turbines; turbines as parts of electric and non-electric turbomachinery; turbines as parts of electric and non-electric turbochargers; parts and fittings for electric and non-electric turbochargers and electric and non-electric turbomachinery, namely, turbines, compressors, bearings, casings, shaft sealing components, lubrication devices [parts of machines], internal cooling devices, air filter silencers, electric generators; heat recovery devices [parts of machines]; waste heat recovery systems for machines comprised primarily of heat exchanger [parts of machines] and electric and non-electric turbomachinery; waste energy recovery systems namely waste energy utilising installations for oil and gas industrial applications; fuel injection systems for

engines comprising of fuel nozzles, fuel pumps, plunger pistons, barrels [parts of engines], fuel valves [parts of engines], atomizers [parts of engines]; fuel injection systems; High-pressure fuel accumulators for injection systems being parts of internal combustion engines [parts of machines]; water injection systems for engines; injectors for engines; injectors for machines; fuel injectors; injectors for fuel injection installations and exhaust gas after-treatment systems for engines; fuel injection nozzles for fuel pressure accumulator injection systems for internal combustion engines; fuel injection pumps; pumps; filters for fuel injection installations; injection nozzle holders being parts of motors, engines or machines; gas ignition apparatus for internal combustion engines; pre-combustion chambers for motors and engines; gas admission valves being parts of pre-combustion chambers for motors and engines; exhaust gas after-treatment systems; pumps and valves for exhaust gas after-treatment systems; high-pressure fuel accumulators for injection systems for combustion engines [parts of machines]; hydraulic and mechanical control apparatus for internal combustion engines and engine fuel injection installations; hydraulic controllers for internal combustion engines and injection installations; seals for fuel injection systems; valves for injecting fuel into gas engines; valves for engine fuel and water injection installations, in particular safety valves, circulation valves, constant flow regulators, control valves, electrohydraulic control valves for compressor regulation; pilot valves; assembly machines for internal combustion engines and injection systems; parts of the aforementioned goods.

Class 09

Computer software; Apps; computer software and apps for turbomachinery, turbochargers, electric turbomachinery, electric turbochargers, superchargers, blowers, electric blowers, compressors, electric compressors, motors, engines, propellers, butterfly valves, propulsion systems, power generation systems, turbines, power plants, heat recovery devices [parts of machines], waste heat recovery systems, waste energy recovery systems, injection systems, fuel injection systems,

pressure accumulator injection systems, water injection systems for engines, injectors for engines, injectors for machines, fuel injectors, injectors for fuel injection installations and exhaust gas after-treatment systems for engines, injection nozzles for pressure accumulator injection systems, fuel injection pumps, pumps, filters for fuel injection installations, injection nozzle holders, gas ignition systems, pre-combustion chambers for motors and engines, gas admission valves for pre-chambers, exhaust gas after-treatment systems, pumps and valves for exhaust gas after-treatment systems, high-pressure accumulators for injection installations, control apparatus for internal combustion engines and injection installations, hydraulic controllers for internal combustion engines and injection installations, seals for fuel injection systems, valves for injecting fuel into gas engines, valves for injection installations, pilot valves, assembly machines for internal combustion engines and injection systems, electric and non-electric turbomachinery for industrial treatment, heating, ventilating, air conditioning and purification apparatus and installations; computer software and apps for the control and regulation of turbomachinery, turbochargers, electric turbomachinery, electric turbochargers, superchargers, blowers, electric blowers, compressors, electric compressors, motors, engines, propellers, butterfly valves, propulsion systems, power generation systems, turbines, power plants, waste heat recovery systems, waste energy recovery systems, injection systems, fuel injection systems, pressure accumulator injection systems, water injection systems for engines, injectors for engines, injectors for machines, fuel injectors, injectors for fuel injection installations and exhaust gas after-treatment systems for engines, injection nozzles for pressure accumulator injection systems, fuel injection pumps, pumps, filters for fuel injection installations, injection nozzle holders, gas ignition systems, pre-combustion chambers for motors and engines, gas admission valves for pre-chambers, exhaust gas after-treatment systems, pumps and valves for exhaust gas after-treatment systems, high-pressure accumulators for injection installations, control apparatus for internal combustion engines and injection installations, hydraulic controllers for internal combustion

engines and injection installations, seals for fuel injection systems, valves for injecting fuel into gas engines, valves for injection installations, pilot valves, assembly machines for internal combustion engines and injection systems, electric and non-electric turbomachinery for industrial treatment, heating, ventilating, air conditioning and purification apparatus and installations; computer software and apps for measuring of temperatures, pressures, velocities and vibrations within turbomachinery, turbochargers, electric turbomachinery, electric turbochargers, superchargers, blowers, electric blowers, compressors, electric compressors, motors, engines, propellers, butterfly valves, propulsion systems, power generation systems, turbines, power plants, waste heat recovery systems, waste energy recovery systems, injection systems, fuel injection systems, pressure accumulator injection systems, water injection systems for engines, injectors for engines, injectors for machines, fuel injectors, injectors for fuel injection installations and exhaust gas after-treatment systems for engines, injection nozzles for pressure accumulator injection systems, fuel injection pumps, pumps, filters for fuel injection installations, injection nozzle holders, gas ignition systems, pre-combustion chambers for motors and engines, gas admission valves for pre-chambers, exhaust gas after-treatment systems, pumps and valves for exhaust gas after-treatment systems, high-pressure accumulators for injection installations, control apparatus for internal combustion engines and injection installations, hydraulic controllers for internal combustion engines and injection installations, seals for fuel injection systems, valves for injecting fuel into gas engines, valves for injection installations, pilot valves, assembly machines for internal combustion engines and injection systems, electric and non-electric turbomachinery for industrial treatment, heating, ventilating, air conditioning and purification apparatus and installations; electronic apparatus, instruments and devices for controlling and regulating turbomachinery, turbochargers, electric turbomachinery, electric turbochargers, superchargers, blowers, electric blowers, compressors, electric compressors, motors, engines, propellers, butterfly valves, propulsion systems, power generation systems, turbines, power plants,

waste heat recovery systems, waste energy recovery systems, injection systems, fuel injection systems, pressure accumulator injection systems, water injection systems for engines, injectors for engines, injectors for machines, fuel injectors, injectors for fuel injection installations and exhaust gas after-treatment systems for engines, injection nozzles for pressure accumulator injection systems, fuel injection pumps, pumps, filters for fuel injection installations, injection nozzle holders, gas ignition systems, pre-combustion chambers for motors and engines, gas admission valves for pre-chambers, exhaust gas after-treatment systems, pumps and valves for exhaust gas after-treatment systems, high-pressure accumulators for injection installations, control apparatus for internal combustion engines and injection installations, hydraulic controllers for internal combustion engines and injection installations, seals for fuel injection systems, valves for injecting fuel into gas engines, valves for injection installations, pilot valves, assembly machines for internal combustion engines and injection systems, electric and non-electric turbomachinery for industrial treatment, heating, ventilating, air conditioning and purification apparatus and installations; apparatus, instruments and devices for measuring of temperatures, pressures, velocities and vibrations within turbomachinery, turbochargers, electric turbomachinery, electric turbochargers, superchargers, blowers, electric blowers, compressors, electric compressors, motors, engines, propellers, butterfly valves, propulsion systems, power generation systems, turbines, power plants, waste heat recovery systems, waste energy recovery systems, injection systems, fuel injection systems, pressure accumulator injection systems, water injection systems for engines, injectors for engines, injectors for machines, fuel injectors, injectors for fuel injection installations and exhaust gas after-treatment systems for engines, injection nozzles for pressure accumulator injection systems, fuel injection pumps, pumps, filters for fuel injection installations, injection nozzle holders, gas ignition systems, pre-combustion chambers for motors and engines, gas admission valves for pre-chambers, exhaust gas after-treatment systems, pumps and valves for exhaust gas after-treatment systems, high-pressure accumulators for

injection installations, control apparatus for internal combustion engines and injection installations, hydraulic controllers for internal combustion engines and injection installations, seals for fuel injection systems, valves for injecting fuel into gas engines, valves for injection installations, pilot valves, assembly machines for internal combustion engines and injection systems, electric and non-electric turbomachinery for industrial treatment, heating, ventilating, air conditioning and purification apparatus and installations; sensors, in particular for turbomachinery, turbochargers, electric turbomachinery, electric turbochargers, superchargers, blowers, electric blowers, compressors, electric compressors, motors, engines, propellers, butterfly valves, propulsion systems, power generation systems, turbines, power plants, waste heat recovery systems, waste energy recovery systems, injection systems, fuel injection systems, pressure accumulator injection systems, water injection systems for engines, injectors for engines, injectors for machines, fuel injectors, injectors for fuel injection installations and exhaust gas after-treatment systems for engines, injection nozzles for pressure accumulator injection systems, fuel injection pumps, pumps, filters for fuel injection installations, injection nozzle holders, gas ignition systems, pre-combustion chambers for motors and engines, gas admission valves for pre-chambers, exhaust gas after-treatment systems, pumps and valves for exhaust gas after-treatment systems, high-pressure accumulators for injection installations, control apparatus for internal combustion engines and injection installations, hydraulic controllers for internal combustion engines and injection installations, seals for fuel injection systems, valves for injecting fuel into gas engines, valves for injection installations, pilot valves, assembly machines for internal combustion engines and injection systems, electric and non-electric turbomachinery for industrial treatment, heating, ventilating, air conditioning and purification apparatus and installations; testing and measuring apparatus for internal combustion engines and fuel injection systems; computer software, apps and electronic components for controlling, monitoring and regulating fuel injection systems.

Class 12

Motors and engines for vehicles for locomotion by land or rail; Turbines for vehicles for locomotion by land or rail; vehicles for locomotion by land, air, water or rail.

Class 37

Installation, maintenance, repair of turbomachinery, turbochargers, electric turbomachinery, electric turbochargers, superchargers, blowers, electric blowers, compressors, electric compressors, motors, engines, propellers, butterfly valves, propulsion systems, power generation systems, turbines, power plants, waste heat recovery systems, waste energy recovery systems, injection systems, fuel injection systems, pressure accumulator injection systems, water injection systems for engines, injectors for engines, injectors for machines, fuel injectors, injectors for fuel injection installations and exhaust gas after-treatment systems for engines, injection nozzles for pressure accumulator injection systems, fuel injection pumps, pumps, filters for fuel injection installations, injection nozzle holders, gas ignition systems, pre-combustion chambers for motors and engines, gas admission valves for pre-chambers, exhaust gas after-treatment systems, pumps and valves for exhaust gas after-treatment systems, high-pressure accumulators for injection installations, control apparatus for internal combustion engines and injection installations, hydraulic controllers for internal combustion engines and injection installations, seals for fuel injection systems, valves for injecting fuel into gas engines, valves for injection installations, pilot valves, assembly machines for internal combustion engines and injection systems, electric and non-electric turbomachinery for industrial treatment, heating, ventilating, air conditioning and purification apparatus and installations; Provision of information on installation, maintenance, repair of turbomachinery, turbochargers, electric turbomachinery, electric turbochargers, superchargers, blowers, electric blowers, compressors, electric compressors, motors, engines, propellers, butterfly valves, propulsion systems, power generation systems, turbines, power plants, waste heat recovery systems, waste energy recovery

systems, injection systems, fuel injection systems, pressure accumulator injection systems, water injection systems for engines, injectors for engines, injectors for machines, fuel injectors, injectors for fuel injection installations and exhaust gas after-treatment systems for engines, injection nozzles for pressure accumulator injection systems, fuel injection pumps, pumps, filters for fuel injection installations, injection nozzle holders, gas ignition systems, pre-combustion chambers for motors and engines, gas admission valves for pre-chambers, exhaust gas after-treatment systems, pumps and valves for exhaust gas after-treatment systems, high-pressure accumulators for injection installations, control apparatus for internal combustion engines and injection installations, hydraulic controllers for internal combustion engines and injection installations, seals for fuel injection systems, valves for injecting fuel into gas engines, valves for injection installations, pilot valves, assembly machines for internal combustion engines and injection systems, electric and non-electric turbomachinery for industrial treatment, heating, ventilating, air conditioning and purification apparatus and installations; consultation and advisory services concerning the installation, maintenance, repair of turbomachinery, turbochargers, electric turbomachinery, electric turbochargers, superchargers, blowers, electric blowers, compressors, electric compressors, motors, engines, propellers, butterfly valves, propulsion systems, power generation systems, turbines, power plants, waste heat recovery systems, waste energy recovery systems, injection systems, fuel injection systems, pressure accumulator injection systems, water injection systems for engines, injectors for engines, injectors for machines, fuel injectors, injectors for fuel injection installations and exhaust gas after-treatment systems for engines, injection nozzles for pressure accumulator injection systems, fuel injection pumps, pumps, filters for fuel injection installations, injection nozzle holders, gas ignition systems, pre-combustion chambers for motors and engines, gas admission valves for pre-chambers, exhaust gas after-treatment systems, pumps and valves for exhaust gas after-treatment systems, high-pressure accumulators for injection installations, control apparatus for internal combustion engines and injection

installations, hydraulic controllers for internal combustion engines and injection installations, seals for fuel injection systems, valves for injecting fuel into gas engines, valves for injection installations, pilot valves, assembly machines for internal combustion engines and injection systems, electric and non-electric turbomachinery for industrial treatment, heating, ventilating, air conditioning and purification apparatus and installations; installation, maintenance, repair of parts and accessories of fuel injection and fuel admission systems for engines for propulsion and power generation, workshop appliances and devices, power generators; installation, maintenance, repair of controlling and regulating apparatus, instruments and devices, in particular for internal combustion engines and parts thereof; installation, maintenance, repair of water injection systems for engines and parts thereof; installation, maintenance, repair of gas ignition systems and parts thereof; installation, maintenance, repair of assembly machines for internal combustion engines, injection systems and parts thereof; installation, maintenance and repair of apparatus, instruments and devices for control and regulation of turbomachinery, turbochargers, electric turbomachinery, electric turbochargers, superchargers, blowers, electric blowers, compressors, electric compressors, motors, engines, propellers, butterfly valves, propulsion systems, power generation systems, turbines, power plants, waste heat recovery systems, waste energy recovery systems, injection systems, fuel injection systems, pressure accumulator injection systems, water injection systems for engines, injectors for engines, injectors for machines, fuel injectors, injectors for fuel injection installations and exhaust gas after-treatment systems for engines, injection nozzles for pressure accumulator injection systems, fuel injection pumps, pumps, filters for fuel injection installations, injection nozzle holders, gas ignition systems, pre-combustion chambers for motors and engines, gas admission valves for pre-chambers, exhaust gas after-treatment systems, pumps and valves for exhaust gas after-treatment systems, high-pressure accumulators for injection installations, control apparatus for internal combustion engines and injection installations, hydraulic controllers for internal combustion engines and injection

installations, seals for fuel injection systems, valves for injecting fuel into gas engines, valves for injection installations, pilot valves, assembly machines for internal combustion engines and injection systems, electric and non-electric turbomachinery for industrial treatment, heating, ventilating, air conditioning and purification apparatus and installations; installation, maintenance and repair of sensors, in particular for generating data for turbomachinery, turbochargers, electric turbomachinery, electric turbochargers, superchargers, blowers, electric blowers, compressors, electric compressors, motors, engines, propellers, butterfly valves, propulsion systems, power generation systems, turbines, power plants, waste heat recovery systems, waste energy recovery systems, injection systems, fuel injection systems, pressure accumulator injection systems, water injection systems for engines, injectors for engines, injectors for machines, fuel injectors, injectors for fuel injection installations and exhaust gas after-treatment systems for engines, injection nozzles for pressure accumulator injection systems, fuel injection pumps, pumps, filters for fuel injection installations, injection nozzle holders, gas ignition systems, pre-combustion chambers for motors and engines, gas admission valves for pre-chambers, exhaust gas after-treatment systems, pumps and valves for exhaust gas after-treatment systems, high-pressure accumulators for injection installations, control apparatus for internal combustion engines and injection installations, hydraulic controllers for internal combustion engines and injection installations, seals for fuel injection systems, valves for injecting fuel into gas engines, valves for injection installations, pilot valves, assembly machines for internal combustion engines and injection systems, electric and non-electric turbomachinery for industrial treatment, heating, ventilating, air conditioning and purification apparatus and installations.

Class 38

Provision of access to databases and computer and communication networks for use in connection with the installation, maintenance, repair and initial operation of

turbomachinery, turbochargers, electric turbomachinery, electric turbochargers, superchargers, blowers, electric blowers, compressors, electric compressors, motors, engines, propellers, butterfly valves, propulsion systems, power generation systems, turbines, power plants, waste heat recovery systems, waste energy recovery systems, injection systems, fuel injection systems, pressure accumulator injection systems, water injection systems for engines, injectors for engines, injectors for machines, fuel injectors, injectors for fuel injection installations and exhaust gas after-treatment systems for engines, injection nozzles for pressure accumulator injection systems, fuel injection pumps, pumps, filters for fuel injection installations, injection nozzle holders, gas ignition systems, pre-combustion chambers for motors and engines, gas admission valves for pre-chambers, exhaust gas after-treatment systems, pumps and valves for exhaust gas after-treatment systems, high-pressure accumulators for injection installations, control apparatus for internal combustion engines and injection installations, hydraulic controllers for internal combustion engines and injection installations, seals for fuel injection systems, valves for injecting fuel into gas engines, valves for injection installations, pilot valves, assembly machines for internal combustion engines and injection systems, electric and non-electric turbomachinery for industrial treatment, heating, ventilating, air conditioning and purification apparatus and installations.

Class 42

Rental, design, development, installation, maintenance and repair of computer software and apps for use in connection with turbomachinery, turbochargers, electric turbomachinery, electric turbochargers, superchargers, blowers, electric blowers, compressors, electric compressors, motors, engines, propellers, butterfly valves, propulsion systems, power generation systems, turbines, power plants, waste heat recovery systems, waste energy recovery systems, injection systems, fuel injection systems, pressure accumulator injection systems, water injection systems for engines, injectors for engines, injectors for machines, fuel injectors, injectors for fuel

injection installations and exhaust gas after-treatment systems for engines, injection nozzles for pressure accumulator injection systems, fuel injection pumps, pumps, filters for fuel injection installations, injection nozzle holders, gas ignition systems, pre-combustion chambers for motors and engines, gas admission valves for pre-chambers, exhaust gas after-treatment systems, pumps and valves for exhaust gas after-treatment systems, high-pressure accumulators for injection installations, control apparatus for internal combustion engines and injection installations, hydraulic controllers for internal combustion engines and injection installations, seals for fuel injection systems, valves for injecting fuel into gas engines, valves for injection installations, pilot valves, assembly machines for internal combustion engines and injection systems, electric and non-electric turbomachinery for industrial treatment, heating, ventilating, air conditioning and purification apparatus and installations; Rental, design, development, installation, maintenance and repair of computer software and apps for the control and regulation of turbomachinery, turbochargers, electric turbomachinery, electric turbochargers, superchargers, blowers, electric blowers, compressors, electric compressors, motors, engines, propellers, butterfly valves, propulsion systems, power generation systems, turbines, power plants, waste heat recovery systems, waste energy recovery systems, injection systems, fuel injection systems, pressure accumulator injection systems, water injection systems for engines, injectors for engines, injectors for machines, fuel injectors, injectors for fuel injection installations and exhaust gas after-treatment systems for engines, injection nozzles for pressure accumulator injection systems, fuel injection pumps, pumps, filters for fuel injection installations, injection nozzle holders, gas ignition systems, pre-combustion chambers for motors and engines, gas admission valves for pre-chambers, exhaust gas after-treatment systems, pumps and valves for exhaust gas after-treatment systems, high-pressure accumulators for injection installations, control apparatus for internal combustion engines and injection installations, hydraulic controllers for internal combustion engines and injection installations, seals for fuel injection systems, valves for injecting fuel into gas engines,

valves for injection installations, pilot valves, assembly machines for internal combustion engines and injection systems, electric and non-electric turbomachinery for industrial treatment, heating, ventilating, air conditioning and purification apparatus and installations; rental, design, development, installation, maintenance and repair of computer software and apps for measuring of temperatures, pressures, velocities and vibrations within turbomachinery, turbochargers, electric turbomachinery, electric turbochargers, superchargers, blowers, electric blowers, compressors, electric compressors, motors, engines, propellers, butterfly valves, propulsion systems, power generation systems, turbines, power plants, waste heat recovery systems, waste energy recovery systems, injection systems, fuel injection systems, pressure accumulator injection systems, water injection systems for engines, injectors for engines, injectors for machines, fuel injectors, injectors for fuel injection installations and exhaust gas after-treatment systems for engines, injection nozzles for pressure accumulator injection systems, fuel injection pumps, pumps, filters for fuel injection installations, injection nozzle holders, gas ignition systems, pre-combustion chambers for motors and engines, gas admission valves for pre-chambers, exhaust gas after-treatment systems, pumps and valves for exhaust gas after-treatment systems, high-pressure accumulators for injection installations, control apparatus for internal combustion engines and injection installations, hydraulic controllers for internal combustion engines and injection installations, seals for fuel injection systems, valves for injecting fuel into gas engines, valves for injection installations, pilot valves, assembly machines for internal combustion engines and injection systems, electric and non-electric turbomachinery for industrial treatment, heating, ventilating, air conditioning and purification apparatus and installations; design, development of apparatus, instruments and devices for controlling and regulating turbomachinery, turbochargers, electric turbomachinery, electric turbochargers, superchargers, blowers, electric blowers, compressors, electric compressors, motors, engines, propellers, butterfly valves, propulsion systems, power generation systems, turbines, power plants, waste heat recovery

systems, waste energy recovery systems, injection systems, fuel injection systems, pressure accumulator injection systems, water injection systems for engines, injectors for engines, injectors for machines, fuel injectors, injectors for fuel injection installations and exhaust gas after-treatment systems for engines, injection nozzles for pressure accumulator injection systems, fuel injection pumps, pumps, filters for fuel injection installations, injection nozzle holders, gas ignition systems, pre-combustion chambers for motors and engines, gas admission valves for pre-chambers, exhaust gas after-treatment systems, pumps and valves for exhaust gas after-treatment systems, high-pressure accumulators for injection installations, control apparatus for internal combustion engines and injection installations, hydraulic controllers for internal combustion engines and injection installations, seals for fuel injection systems, valves for injecting fuel into gas engines, valves for injection installations, pilot valves, assembly machines for internal combustion engines and injection systems, electric and non-electric turbomachinery for industrial treatment, heating, ventilating, air conditioning and purification apparatus and installations; design, development of sensors, in particular for generating data for turbomachinery, turbochargers, electric turbomachinery, electric turbochargers, superchargers, blowers, electric blowers, compressors, electric compressors, motors, engines, propellers, butterfly valves, propulsion systems, power generation systems, turbines, power plants, waste heat recovery systems, waste energy recovery systems, injection systems, fuel injection systems, pressure accumulator injection systems, water injection systems for engines, injectors for engines, injectors for machines, fuel injectors, injectors for fuel injection installations and exhaust gas after-treatment systems for engines, injection nozzles for pressure accumulator injection systems, fuel injection pumps, pumps, filters for fuel injection installations, injection nozzle holders, gas ignition systems, pre-combustion chambers for motors and engines, gas admission valves for pre-chambers, exhaust gas after-treatment systems, pumps and valves for exhaust gas after-treatment systems, high-pressure accumulators for injection installations, control apparatus for internal combustion

engines and injection installations, hydraulic controllers for internal combustion engines and injection installations, seals for fuel injection systems, valves for injecting fuel into gas engines, valves for injection installations, pilot valves, assembly machines for internal combustion engines and injection systems, electric and non-electric turbomachinery for industrial treatment, heating, ventilating, air conditioning and purification apparatus and installations; engineering services, including engineering services in the field of computer software, apps and hardware for use in connection with turbomachinery, turbochargers, electric turbomachinery, electric turbochargers, superchargers, blowers, electric blowers, compressors, electric compressors, motors, engines, propellers, butterfly valves, propulsion systems, power generation systems, turbines, power plants, waste heat recovery systems, waste energy recovery systems, injection systems, fuel injection systems, pressure accumulator injection systems, water injection systems for engines, injectors for engines, injectors for machines, fuel injectors, injectors for fuel injection installations and exhaust gas after-treatment systems for engines, injection nozzles for pressure accumulator injection systems, fuel injection pumps, pumps, filters for fuel injection installations, injection nozzle holders, gas ignition systems, pre-combustion chambers for motors and engines, gas admission valves for pre-chambers, exhaust gas after-treatment systems, pumps and valves for exhaust gas after-treatment systems, high-pressure accumulators for injection installations, control apparatus for internal combustion engines and injection installations, hydraulic controllers for internal combustion engines and injection installations, seals for fuel injection systems, valves for injecting fuel into gas engines, valves for injection installations, pilot valves, assembly machines for internal combustion engines and injection systems, electric and non-electric turbomachinery for industrial treatment, heating, ventilating, air conditioning and purification apparatus and installations; industrial analysis and research services, including in the areas of turbomachinery, turbochargers, electric turbomachinery, electric turbochargers, superchargers, blowers, electric blowers, compressors, electric compressors, motors,

engines, propellers, butterfly valves, propulsion systems, power generation systems, turbines, power plants, waste heat recovery systems, waste energy recovery systems, injection systems, fuel injection systems, pressure accumulator injection systems, water injection systems for engines, injectors for engines, injectors for machines, fuel injectors, injectors for fuel injection installations and exhaust gas after-treatment systems for engines, injection nozzles for pressure accumulator injection systems, fuel injection pumps, pumps, filters for fuel injection installations, injection nozzle holders, gas ignition systems, pre-combustion chambers for motors and engines, gas admission valves for pre-chambers, exhaust gas after-treatment systems, pumps and valves for exhaust gas after-treatment systems, high-pressure accumulators for injection installations, control apparatus for internal combustion engines and injection installations, hydraulic controllers for internal combustion engines and injection installations, seals for fuel injection systems, valves for injecting fuel into gas engines, valves for injection installations, pilot valves, assembly machines for internal combustion engines and injection systems, electric and non-electric turbomachinery for industrial treatment, heating, ventilating, air conditioning and purification apparatus and installations; rental, design, development, installation, maintenance and repair of computer software and apps; software as a service (SaaS); design and development of computer hardware and software for industrial applications; design and development of software for evaluation and calculation of data.
