General Information

1. Trade Marks Journal

This journal is published by the Registry of Trade Marks pursuant to Rule 86A of the Trade Marks Rules. It is published weekly on Fridays, unless otherwise directed by the Registrar.

2. Notice of Opposition

Any person who wishes to oppose any of the marks published may within two months from its publication date file a Notice of Opposition on Form TM11. Reasonable notice should be given to the Applicant beforehand, to provide the Applicant an opportunity to withdraw the application. Failure to give such notice will be taken into account when considering any application by an Opponent for an Order of Costs if the opposition is uncontested by the Applicant.

3. Practice Directions and Circulars

The Registry has ceased our practice of publishing Practice Directions and Circulars in the Trade Marks Journal. Practice Directions and Circulars are available on our website at <https://www.ipos.gov.sg>. If you wish to receive our updates via email, you may subscribe to our mailing list by sending an email to news@ipos.gov.sg and letting us know the subject matter of interest (e.g. Trade Marks).

4. Information Contained in this Journal

The Registry of Trade Marks does not guarantee the accuracy of its publications, data records or advice nor accept any responsibility for errors or omissions or their consequences. Permission to reproduce extracts from this Journal must be obtained from the Registrar of Trade Marks.

Computers; Computer hardware; Computer peripherals; Communications equipment; Solar panels for production of electricity; Computer software; Software; Downloadable computer software; Downloadable mobile applications; Downloadable software for radar, radio frequency, and signal jamming; Downloadable software for detecting, countering, disabling, and/or destroying robots, vehicles, and drones; Radar, radio frequency, and signal jamming apparatus and equipment; Electronic equipment for disabling and destroying drones and unmanned aerial systems (UAS) by interfering with or impeding radio frequencies; Electronic equipment for disabling and destroying drones and unmanned aerial systems (UAS) by interfering with or impeding radio frequencies; Downloadable artificial intelligence software; Downloadable virtual reality and augmented reality software and mobile applications;

Virtual reality and augmented reality apparatus, hardware, and peripherals; Virtual reality software and hardware; Augmented reality software and hardware; Mixed reality software and hardware; Downloadable computer graphics software and applications; Computer software for management, storage and network management of digital media and enhancement of graphical and video display; Computer software for operation of integrated circuits, semiconductors, computer chipsets and micro-processors; Machine learning processors; Computer software for performing computer graphics operations and improving graphical and video display capabilities; Computer software for coordinating the operation and management of a variety of sensors, computer hardware, communications equipment, and unmanned vehicles; Computer software for operating and managing unmanned vehicles with the aid of artificial intelligence; Computer hardware and recorded software system for remotely monitoring environmental conditions and controlling devices within a building, facility, grounds, or designated spatial area; Computer software for the security of persons and premises, for surveillance, and for reconnaissance; Computer software for operating and deploying weapon systems; Computer hardware and software for artificial intelligence, machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence applications; Computer software for implementing swarm intelligence programs and algorithms; Computer hardware and software systems for artificial intelligence, computer vision, and mesh networking; Telecommunication towers; Telecommunications terminals; Telecommunication tower systems for security and surveillance, comprised primarily of wireless transmitters and receivers, computer hardware, computer software, cameras, solar panels, and electronic sensors and also containing mounting racks for telecommunications hardware, antenna masts, indicator lights for telecommunication apparatus and metal poles [aerials]; Software and hardware for use in operating artificial intelligence platforms; Data processing equipment; apparatus, instruments and equipment for electronic warfare, namely, electronic jamming devices and radar

jamming devices; Laser object detectors for use on vehicles; Lasers for measuring purposes; Lidar apparatus; Lidar sensors; Radar apparatus; Sensors (hardware and software) for the detection of electromagnetic, ultraviolet and infrared radiation; Infrared sensors; Collision warning sensors and radars; Surveillance cameras, vision equipment and electronic and optical sensors for manned and unmanned vehicles; Software for detecting and identifying vehicles; Laser warning apparatus; Thermal imaging apparatus and daytime vision apparatus; Thermal imaging hardware, namely, near infrared (NIR), short-wave infrared (SWIR), medium-wave infrared (MWIR), and long-wave infrared (LWIR) devices; Downloadable software for automotive technology, namely, software comprised of artificial intelligence and systems for autonomous navigation of motor vehicles; Programmable electronic controllers for autonomous vehicles; Electronic control devices for preventing the detonation of explosives and munitions; Computer hardware and software for detecting, classifying and analyzing presence, location, motion and nature of vehicles, aircraft, tanks, marine vessels, weapons platforms and personnel; Central processing units for processing information, data, sound or images; Automatic altitude indicators, speed indicators, level indicators and temperature indicators; Power supplies for lights, cameras, surveillance equipment, sirens and public address systems; Security surveillance robots; Guidance and navigation systems; Motion detection software and hardware; Global Positioning Systems (GPS); Software for developing, manufacturing, controlling, flying, steering, navigating, monitoring vehicles; Electronic equipment and systems namely, computer hardware and software for directing combat operations; Software for recording and processing data for controlling, flying, steering, navigating, monitoring and securing vehicles; Electronic communications, navigation, collision warning and pilot assistance systems for vehicles; Navigational instruments for vehicles on-board computers; Hardware and software for land or air vehicles for recording vehicle data and mission data; Software for planning and managing intelligence gathering requests; Hardware and software for surveillance and monitoring; Data processing apparatus and

computers; Satellite transmitters and receivers; Power converters and transponders; Software for secure communications; Software for satellite imaging and data; Hardware and software for target recognition, target identification and target tracking; Multi-sensor platforms for vehicles comprised of computer hardware, motion sensors, proximity sensors, collision sensors, and velocity sensors; Downloadable software for 3D-visualization, 3D modeling and 3D rendering; Software for image rendering, modeling, and image manipulation and processing; Electronic computer vision accelerators, namely, artificial intelligence, machine learning, deep learning, high performance computing, and simulation hardware and software; Electronic video streaming system and products, namely, electronic components of security systems; Mesh networking software and hardware; Wireless mesh sensing hardware and software; Mesh communication devices; Perimeter awareness systems comprised of motion and proximity recognizing sensors; Head-mounted displays; Virtual reality headsets; Augmented reality headsets; Virtual reality glasses; Virtual reality software for operating virtual reality headsets; Augmented reality glasses; Augmented reality software for operating augmented reality headsets; Gesture recognition software; Motion tracking sensors for augmented reality technology; Motion tracking sensors for virtual reality technology; Virtual reality software for navigating a virtual reality environment; Virtual reality software for object tracking, motion control and content visualization; Augmented reality software for navigating an augmented reality environment; Software for recording, storing, transmitting, receiving, displaying and analyzing data from wearable computer hardware; Software, firmware and hardware for use in visual, voice, audio, motion, eye and gesture tracking and recognition; Software for wireless content, data and information delivery; sensor fusion computer hardware and downloadable computer software for coordinating and unifying the operations of multiple electronic sensors; Downloadable software and algorithms for sensor fusion; Electronic computer vision accelerators; Artificial intelligence apparatus, namely, computer hardware and software for enhancing products and services with artificial intelligence technology; Automated self-contained video

streaming devices that can be deployed to gather and analyze information in remote locations; Computer hardware and computer software system that detects, classifies, triangulates, and tracks real world objects using computer vision sensors; Hardware systems comprised of cameras, switchers, monitors, microphones, recorders, transmitters and video streaming devices for IP (Internet protocol) video surveillance, namely, transmission of data; Mobile computers and mobile communications devices, namely, portable digital audio, video and multimedia transmitters and receivers for use with text, audio, video, images, still and motion pictures, graphics, signals, messages, multimedia files, and other digital data; Computer hardware and software for processing, reproducing, synchronizing, recording, organizing, downloading, uploading, transmitting, streaming, receiving, playing and viewing text, multimedia and data files; Computer hardware and software for use in artificial intelligence applications and computer vision; Computer vision software; Pattern recognition software; Computer hardware and software, and communications hardware and software for the operation, control, maintenance, and management of vehicles; Computer hardware and software for vehicle components for the purpose of vehicle navigation, travel and trip planning and communication with vehicles; Computer hardware and software for collecting, tracking, analyzing, and reporting data and information in the field of self-driving and autonomous vehicles; Software and hardware that facilitates data transmission, data collection, data analysis, and decision-making; Computer hardware for IP video streaming; Software for navigation, steering, tracking, communication, object detection, controlling cameras and sensors, and image processing; Software for steering and navigation of autonomous vehicles; Software for communicating with autonomous vehicles; Software for searching, locating, compiling, indexing, correlating, navigating, obtaining, downloading, receiving, encoding, decoding, playing, storing and organizing text, data, images, graphics, audio and video on a global computer network; Software for collecting, managing, editing, organizing, modifying, transmitting, sharing, and storing of data; Software platforms for artificial intelligence applications; Software, namely, an

interpretive interface for facilitating interaction between humans and machines; Software for compute intensive processing, processing architecture, smart infrastructure, predictive intelligence, execution planning and operating sensor devices for use in the fields of artificial intelligence, machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence; Software for modifying and enabling transmission of images, audio, audio visual and video content and data; Software and hardware for battlefield awareness; Software and hardware for threat assessment and intelligence; Software for processing images, graphics, audio, video, and text; Voice command and recognition software, speech to text conversion software; Voice processing software, namely, software for the control of voice controlled information and communication devices; Wireless controllers to monitor and control the functioning of other electronic devices; Electronic components, namely, circuit boards, Field Programmable Gate Array IP Cores, artificial neural networks, electronic thermal sensors, geofencing sensors, electromagnetic sensors, mechanical sensors, optical sensors, proximity sensors, image sensors, and motion sensors; Software for connecting, operating and managing networked computing systems, sensors, actuators, robotic systems, communication systems, and test systems; Scientific instruments, namely, instruments for gathering, measuring and processing data for use in the fields of artificial intelligence, machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence; Software, firmware and hardware for use in the fields of edge computing, artificial intelligence, high performance computing, distributed computing, machine learning, automation controls, data collection and data analytics; Wireless communication software for voice, audio, video, and data transmission; Robotic systems comprised of actuators, controllers and computer processors, all for use in the fields of artificial intelligence,

machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence; Communication transceivers, and power supplies for use in the fields of network edge computing, artificial intelligence, high performance computing, distributed computing, machine learning, automation controls, data collection and data analytics; Software development tools; Electronic display interfaces; Equipment for data processing and computers, namely, computer hardware and computer peripherals which integrate machine learning and artificial intelligence technology; Hardware and software for detecting objects, user gestures and commands; Hardware and software for operating sensor devices; Computer hardware for artificial intelligence and machine learning technology; Portable electronic devices for receiving and reading text, images and sound through wireless internet access; Simulation, modeling and data processing software and hardware for use in data visualization, data analysis, data mining, data interpretation, predictive analytics, accessing and editing large-scale data, interactive visual computing, design of information graphics, video streaming, maximizing graphics processing and performance; Electronic computing software platform for self-driving and autonomous vehicles; Self-driving and autonomous vehicle electronic driving system and equipment in the nature of artificial intelligence, machine learning, deep learning, high performance computing, and simulation software and hardware; Software for image analysis, content classification and categorization; Electronic sensors; Electronic controllers and control devices; Sensors for detecting and measuring acceleration; Sensors for detecting and measuring motion; Sensors for monitoring physical movements; Sensors for detecting and measuring the position of objects; Sensors for detecting and measuring temperature and pressure; Electronic night vision devices and apparatus; Electronic thermal vision devices and apparatus; Motion control devices and apparatus; Navigation apparatus; Vehicle navigation devices; Global positioning systems (GPS); Vehicle tracking devices; Tracking devices using sensor fusion;

Batteries; Batteries for vehicles; Security cameras; Apparatus and instruments for conveying, distributing, transforming, storing, regulating or controlling electricity; Tactical robots; Wireless communication equipment, apparatus, and peripherals; Optical and aiming instruments and devices; Air traffic control apparatus and equipment; Wireless transmitters and receivers; Antennas, aerials, and parts and accessories therefor; Apparatus and instruments for recording, analyzing, processing, and transmitting data, sound, images, and video; Automated drone detection systems; Automatic piloting and navigation software; Downloadable computer software for the collection, editing, organizing, modifying, book marking, transmission, storage, and sharing of data and information; Unmanned and robotic vehicle control computer systems; Unmanned and robotic vehicle navigation computer systems; Electronic surveillance apparatus and equipment; Cameras; Infrared cameras; Infrared detection apparatus; Infrared detectors, filters, scanners, sensors, detecting apparatus, locating apparatus, optical apparatus, devices for aiming weapons, devices for guiding weapons; Intruder detecting apparatus; Motion-activated cameras; Industrial automation controls; Software for controlling edge devices; Software for controlling self-driving and autonomous vehicles; Parts and fittings for all the aforesaid goods; Power management systems, namely, electric control devices for energy management; directional infrared (IR) and laser devices for defending against weapon attacks, namely, directional infrared countermeasures (DIRCM) systems comprised mainly of electronic proximity and motion sensors, infrared signal transmitters, lasers, directional aiming devices and associated computer processing hardware and recorded software for military and security threat assessment, weapon tracking and directing energy from such infrared sensors and lasers onto attacking weapons to neutralize the threat; non-medical lasers with kill assessment capabilities, for the purpose of intercepting and destroying enemy drones and UAS (Unmanned Aircraft Systems); electronic transmitters for jamming signals, for the purpose of intercepting and destroying enemy drones and UAS (Unmanned Aircraft Systems).

Class 12

Vehicles; Unmanned aerial vehicles (UAVs); Drones; Camera drones; Remote controlled air, land, water and space vehicles; Military drones; Military decoys in the nature of unmanned aerial vehicles; Military vehicles for transport; Robotic transport vehicles; Structural parts of aircraft; Structural parts of drones; Air and space vehicles, and structural parts therefor; Aircraft; Helicopters; Rotorcraft; Vehicle propellers and blades therefor; Hovercraft; Jet aircraft; Military aircraft; Marine vehicles; Boats; Ships; propulsion mechanisms for land vehicles; Remote control aircraft; Unmanned aircraft; Amphibious airplanes; Gliders; Light aircraft; Apparatus for locomotion by land, air, water or rail; Space vehicles; Launch vehicles in the nature of spacecraft; Self-driving transport vehicles; Vehicular balloons; Aeronautical apparatus, namely, remote-controlled aircraft other than toys; Land vehicles and structural parts therefor; Automobiles; Autonomous vehicles, namely, unmanned vehicles and self-driving vehicles; Robotic cars; Structural parts for autonomous vehicles; Vehicles featuring autonomous driving features and structural parts and accessories therefor; Driverless vehicles; Driverless transporter vehicles, namely, self-driving transport vehicles; Driverless cars, namely, autonomous cars; Electric vehicles; Autonomous vehicles based on artificial intelligence solutions; Robotic and self-driving transport vehicles that transport people, packages, supplies and freight; Driverless land vehicles; Connected vehicles, namely, vehicles connected to internet; Remote controlled vehicles; Structural electrical assemblies adapted for vehicles, namely, electric drives for land vehicles; Vehicles for neutralizing and destroying other vehicles; Engines and motors for unmanned land vehicles.

Class 13

Ammunition; Munitions; Explosives; Ballistic weapons; Projectiles [weapons]; Guided projectiles; Missiles; Bombs; Firearms and artillery; Kinetic weapons for disabling and destroying drones and unmanned aerial systems (UAS); Remotely-operated

kinetic projectiles for disabling and destroying drones and unmanned aerial systems (UAS); Remotely-operated kinetic projectiles for disabling and destroying other drones and unmanned aerial systems (UAS) via impact; Air to surface weapons; Surface to air weapons; Decoy weapons; Weapon-launching apparatus; Electronically-controlled weapons platforms that may also be used as decoys and for reconnaissance; Remotely-operated weapons; Ballistic weapons and projectiles for use with robots, vehicles and drones; Ballistic weapons and projectiles for countering, disabling, and/or destroying robots, vehicles and drones; Detonators; explosive armor plating, namely, explosives between armor plating for military vehicles; Gun turrets, gun carriages, missile launchers, countermeasure launchers, and decoy weapon launchers for later installation in or on aircraft, unmanned vehicles, drones, land vehicles, or marine vehicles; Defensive weapon systems; firing control installations in the nature of sighting devices, other than telescopic sights, for firearms; parts and fittings of the aforesaid goods.

Class 37

Construction services; Repair, maintenance, and installation of computer hardware, electronics, and electrical devices; Vehicle repair, maintenance, and installation services; Aircraft and spacecraft repair, maintenance, and installation services; Drone repair, maintenance, and installation services; Unmanned vehicle repair, maintenance, and installation services; Technical support services, namely, repair and maintenance of computer hardware, electronics, electrical devices, vehicles, aircraft, spacecraft, drones, and unmanned vehicles; Consulting, advisory, and information services relating to the aforesaid.

Class 38

Telecommunications services; Aeronautical telecommunication services; Electronic transmission of messages and data; Telecommunication services, namely, local and long-distance transmission of voice, data, graphics and video by means of wired and

wireless networks; Telecommunication services, namely, providing access to pictures, video, alarm status, building plans and other building and security information at a remote station; Telecommunication services, namely, providing electronic message alerts over wireless networks relating to notifying individuals of a changed status or condition of sensing devices, robots, and unmanned vehicles in a security and/or surveillance system; Electronic exchange of voice, data, audio, video, text and graphics accessible via computer and telecommunications networks; Teleconferencing services; Telephony communication services; Streaming and live streaming of video, audiovisual, and interactive audiovisual content via the internet; providing technical support services regarding the usage of communications equipment, namely, monitoring technological functions of communications equipment to ensure proper functioning; Providing access to computer, electronic and online databases; Telecommunications services, namely, electronic transmission of data, messages, graphics, images, audio, video and information; Computer transmission of communications, images and sounds; Communications by computer terminals; Communications by computer networks; Providing of access to electronic databases for drawings, images, photographs, graphic representations, aerial and satellite images and surface models; Providing of access to databases via the internet; Digital and satellite transmission; On-board wireless and satellite data networks, namely, transmission of data between linked computer systems.

Class 42

Software as a services (SAAS) services; Online non-downloadable software; Platform as a Services (PAAS) services; Hosting, designing, and maintaining interactive websites; Providing online non-downloadable software for radar, radio frequency, and signal jamming; Providing online non-downloadable software for detecting, countering, disabling, and/or destroying robots, vehicles, and drones; Advanced product research in the field of artificial intelligence; Providing non-downloadable artificial intelligence software; Providing non-downloadable virtual

reality and augmented reality software; Providing non-downloadable computer graphics software and applications; Providing non-downloadable software for management, storage and network management of digital media and enhancement of graphical and video display; Providing non-downloadable software for operation of integrated circuits, semiconductors, computer chipsets and micro-processors; Providing non-downloadable software for performing computer graphics operations and improving graphical and video display capabilities; Providing non-downloadable software for coordinating the operation and management of a variety of sensors, computer hardware, communications equipment, and unmanned vehicles; Providing non-downloadable software for operating and managing unmanned vehicles with the aid of artificial intelligence; Providing non-downloadable software for artificial intelligence, machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence applications; Providing non-downloadable software for enabling electronic devices to share data and communicate with each other; Providing non-downloadable software for operating system programs; Providing non-downloadable software for developing machine learning, deep learning, or artificial intelligence applications; providing online non-downloadable software for image recognition programs; Providing non-downloadable software for implementing swarm intelligence programs and algorithms; Providing non-downloadable software for artificial intelligence, computer vision, and mesh networking; Providing non-downloadable software for image rendering, modeling, and image manipulation and processing; Providing non-downloadable software for remotely monitoring environmental conditions and controlling devices within a building, facility, grounds, or designated spatial area; Providing non-downloadable software for the security of persons and premises, for surveillance, and for reconnaissance; Providing non-downloadable software for operating and deploying weapon systems; Scientific research and technological services; Research and development services; Robotic engineering services; Product testing; Product design;

Engineering; Computer services; Cloud computing; Cloud computing services featuring software for compute intensive processing for use in the fields of artificial intelligence, machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence; Computer software and technology consulting; Consultation in the design and development of computer hardware and software; Consulting services in the field of design and development, selection, implementation and use of computer hardware, software, applications, and networks; Computer programming; Computer services, namely, providing remote management of devices via computer networks, wireless networks and the Internet; Computer software design, computer programming, or maintenance of computer software; Maintenance, testing, updating, and installation of computer software; Design, testing, and development in the field of computer hardware and software; Design, testing, and development of military weapon and surveillance systems; Design, testing, and development of security systems; Design, testing, and development of surveillance systems; Design, testing, and development of robots and unmanned vehicles; Design, testing, and development of aircraft and spacecraft; Design, testing, and development of communications systems; Design, testing, and development of artificial intelligence systems; Design, testing, and development of virtual reality and augmented reality systems; Design and development of virtual reality hardware and software; Design and development of augmented reality hardware and software; Design and development of mixed reality hardware and software; Design and development of computer software for vehicle simulation; Design and development of software for fine-tuning, development, diagnostics for vehicles, calibration, configuration and diagnostics of electronic systems; Design and development of computer hardware and software; Design and development of computer hardware and software in the fields of artificial intelligence, machine learning, deep learning, and deep neural networks; Design and development of computer hardware and software in the fields

of self-driving and autonomous vehicle electronic computing platforms and systems; Design, development, and testing of vehicle simulators; providing non-downloadable computer software for use in manipulation of collections of user-defined data; Design of computer hardware, software and peripherals for others; Design, research and development of software; Industrial analysis and research services in the field of vehicle technology, vehicle simulations and vehicle test stands; Data storage; Data encryption; Data conversion; Computer security services; Remote monitoring of computer systems, electronic security and surveillance systems, computer networks, robots, and unmanned vehicles to ensure proper functioning; Industrial design in the field of artificial intelligence; Information, advisory and consultancy services relating to voice command and recognition software, speech to text conversion software, and voice-enabled software applications; Consulting services in the field of mobile computer and mobile communications device hardware and software design; Remote monitoring of computerized data and computer systems and networks for security purposes; Providing non-downloadable software for the operation, control, maintenance, and management of vehicles; Providing non-downloadable cloud-based software for compute intensive processing for use in the fields of artificial intelligence, machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence; Providing non-downloadable software enabling hardware and electronic devices to communicate with each other; Providing non-downloadable software enabling hardware and electronic devices to share data and communicate with each other; Providing non-downloadable software for artificial intelligence, machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence; Providing non-downloadable wireless communication software for voice, audio, video, and data transmission; Providing non-downloadable software for controlling electronic control systems for vehicles; Providing non-downloadable

software in the field of self-driving and autonomous vehicles, for self-driving and autonomous vehicle component operation, control, maintenance, management and communication; Providing non-downloadable software for artificial intelligence, machine learning, data analysis, high performance computing, distributed computed, data virtualization, and predictive analytics; Providing non-downloadable software for natural language processing, machine learning, voice command and recognition, converting speech to text, data analytics, and artificial intelligence; Providing non-downloadable software featuring knowledge-based artificial intelligence software platforms, data analytics software platforms, and automation software platforms; Providing non-downloadable software for self-driving and autonomous vehicle simulation; Providing non-downloadable software for detecting objects, user gestures and commands; Providing non-downloadable software for facilitating interaction between humans and machines; Providing non-downloadable software for language translation and image recognition programs; Providing non-downloadable software for object tracking, motion control and content visualization; Providing non-downloadable software for operating sensor devices; Providing non-downloadable software for others to use for the development of software for self-driving and autonomous vehicle electronic computing platforms and systems; Providing non-downloadable software for processing images, graphics, audio, video, and text; Providing non-downloadable software for operation, control, maintenance, and management of vehicle components, vehicle navigation, for travel and trip planning and for communications with vehicles; Providing non-downloadable software for collecting, tracking, analyzing, and reporting data and information in the field of self-driving and autonomous vehicles; Providing non-downloadable software for transmitting, sharing, receiving, downloading, displaying, interacting with and transferring content, text, visual works, audio works, audiovisual works, data, files, documents and electronic works; Providing non-downloadable software for use in electronic storage of data; Providing non-downloadable software for use in visual, voice, audio, motion, eye and gesture tracking and recognition; Research and design

in the field of artificial intelligence, natural language processing and machine learning; Research and design in the field of vehicle technology, vehicle simulation and vehicle testing; Scientific and technological services and research and design in the fields of artificial intelligence, machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence; Software development in the field of artificial intelligence and machine learning; Software development services in the fields of artificial intelligence, machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence; Providing online non-downloadable software for the integrating of electronic data with real world environments for the purpose of capturing, processing, and visualizing modeling and placement of goods of others and visual image markers; Technical research, development, and design of computer software, in the fields of artificial intelligence, machine learning, natural language processing, high performance computing, and data virtualization; Technical support, namely, troubleshooting of computer software application problems, and consultation services for developing computer software applications for others; Technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; Technical support services, namely, troubleshooting of computer software and hardware problems; Updating and maintenance of on-line database systems; Scientific and technological services, namely, product development and engineering, product development support and testing; Research and design, namely, quality engineering, cloud engineering, software engineering; Hardware and software development for industrial equipment for use in the fields of artificial intelligence, machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised learning, un-supervised learning, data

mining, predictive analytics and business intelligence; Providing non-downloadable software for performing learning algorithms; Providing non-downloadable software for navigation, steering, tracking, communication, object detection, controlling cameras and sensors, and image processing; Providing non-downloadable software for battlefield awareness; Providing non-downloadable software for threat assessment and intelligence; Providing non-downloadable software for steering and navigation of autonomous vehicles; Providing non-downloadable software for communicating with autonomous vehicles; Providing non-downloadable software powered by artificial intelligence for analyzing user data; Providing non-downloadable software to enable users to program, organize and access artificial intelligence, machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics and business intelligence models; Industrial design services; Industrial research services in the fields of aerospace and aeronautics; Scientific and technological services, namely, research and design in the fields of aerospace and aeronautics; Technical support services; Consulting, advisory, and information services relating to the aforesaid; Consulting in the fields of security intelligence and the security of critical information.

Class 45

Security services; Security services for protecting persons and physical premises; Security guard services; Security guard services provided through robotic and unmanned vehicle surveillance and security systems; security consultancy services provided via analyzing war strategies; Providing security information in the field of the military, military tactics and strategies; Providing information in the field of security tactics and strategies; Consulting, information, and advisory services related to security, surveillance, and reconnaissance; Consulting in the fields of personal security, national defense, national security, defense security, and security of infrastructure and security threat analysis for protecting public safety; security

advisory services relating to military and defense analysis and consulting; Security project management services; Information, advice and consultancy relating to security; Analysis, consulting and advice in relation to national security; User verification services; Identification verification services; Licensing of intellectual property.

Goods and/or Services:

Class 35

Business management; Business administration; Business project management services; logistics services (business management and organisation of facilities and resources); supply chain management services; procurement services for others (purchasing goods and services for others); provision of an on-line marketplace for buying and selling goods and services related to the building and maintenance of real estate and infrastructure developments; wholesaling and retailing of goods (by any means) related to the building and maintenance of real estate and infrastructure developments; Advertising, marketing and promotional services; market research and market information services; advisory, management, analytics and information services in relation to all of the aforesaid; all of the aforesaid with respect to a platform for the lifecycle of real estate and infrastructure developments namely scheme envisionment, development, design, creation, financing and asset management, construction, supply chain logistics and management, building operations, maintenance and tenancy management.

Class 36

Real estate services; administration and management of real estate and premises including residential, retail and commercial centres; Real estate agency services; agency services relating to the purchase and sale of buildings and land including letting, leasing, financing and valuing; Insurance services; real estate asset management and financing; advisory, analytics and information services in relation to all of the aforesaid; all of the aforesaid with respect to a platform for the lifecycle of real estate and infrastructure developments namely scheme envisionment,

development, design, creation, financing and asset management, construction, supply chain logistics and management, building operations, maintenance and tenancy management.

Class 37

Construction and building services; installation, maintenance and repair services in this class; construction and development of buildings and housing; building project management in relation to the construction and development of buildings and housing [building construction supervision]; installation of fixtures and fittings for all kinds of buildings; rental and hire of construction and building equipment and materials; advisory, analytics and information services in relation to all of the aforesaid; all of the aforesaid with respect to a platform for the lifecycle of real estate and infrastructure developments namely scheme envisionment, development, design, creation, financing and asset management, construction, supply chain logistics and management, building operations, maintenance and tenancy management; Maintenance of computer hardware.

Class 42

Architectural services; interior and exterior building design services; Engineering; planning and design services in relation to real estate developments, buildings, facilities and communities; town planning services; master planning services, namely architectural and urban planning services; Engineering, technical, marine, aerial, land, real estate surveying services; Building inspection services [surveying]; Construction drafting; Industrial design; Engineering project management services; Environmental assessment services; information technology [IT] consultancy; computer technology support services; design, development and maintenance of computer software; design and development of computer hardware; design, development and maintenance of computer platforms; software as a service (SaaS) in relation to a platform for real estate and infrastructure developments; Platform as a

service [PaaS]; Cloud computing; online provision of interactive web-based application (non-downloadable) in relation to a platform for real estate and infrastructure developments; computerised storage of business and commercial information; Technological services and research and design relating thereto; Research and development of new products for others; Research in the field of building construction; technical data analysis; advisory, management, analytics and information services in relation to all of the aforesaid; all of the aforesaid with respect to a platform for the lifecycle of real estate and infrastructure developments namely scheme envisionment, development, design, creation, financing and asset management, construction, supply chain logistics and management, building operations, maintenance and tenancy management; Engineering services.

Goods and/or Services:

Class 06

Casings, housings, rack frames and trays, all made of metal; framework structures of metal including non-electric metallic wires, fixing elements of metals and finished metal castings, all for casings, housings, rack frames, trays and boxes; premanufacture boxes for flush mounted casings; locks and closures for casing, bay and cabinet doors; metal key barrels and key sets for the aforesaid doors; metal cam locks for use in cabinet and casing closure; locks and padlocks for cabinets and

casings; metal hinges for cabinets and casings; flat connector pieces for casings; metal bars for use to connect between casings; lifting rings and brackets for cabinets and casings; cabinet, bay and case casters; furniture casters of metal; installation and/or distribution profiles of metal for second-fix construction and interior fittings, namely, trunking, moldings, skirting trunking, baseboard moldings, cornices, columns, tubes, sheaths, conduits, pipes, pipelines, rigid pipes, floor ducts, cable trays and rails; ironmongery of metal for building, namely, connecting, finishing and fastening parts in the nature of metallic boxes, housings, covers, plates, plaques, branch boxes, convector outlets, junction boxes, connection and branch t-pieces and angle pieces, end pieces, connecting parts for covers, connecting parts for trunking, adapters, frames, supporting brackets, location or marking holders, support frames, faceplates, internal partitions, access hatches, lugs, blocking pins, clips, staples, joining plates, screws, rivets, bolts, nuts, all for installation purposes; holding and/or guiding parts for wires or cables in profiles; fasteners; clasps and other fastening elements; clips for cables and tubes; installation, fitting, binding, cabling, fastening and/or clamping collars; single-use self-locking cable ties; mounts, dowels, bolts and identification plates for the aforesaid collars; dowels; binding screws of metal for cables; rope thimbles; collars, hooks and cable clips for cables or pipelines; signaling plates; screws; bolts; nuts; all made wholly or mainly of metal; metal furniture elements; scaffolding of metal; metal support brackets for loading and unloading merchandise; metal slings for loading and unloading merchandise; belt stretchers of metal; safety chains of metal; laths of metal; metal supports, metal posts, for cables and cable trays; advertising boards [metal display panels]; platforms, prefabricated, of metal; metal adjusting systems for positioning electronic apparatus, namely, lifting mechanisms for regulating the height of computer or television screens; metal spacers for load handling; crampons of metal; welding rods; metal braces for load handling.

Class 07

Electric motors for doors, entrance gates, curtains, windows and shutters; electric devices for opening and closing doors, entrance gates, curtains, windows and shutters; elevator operating apparatus.

Class 08

Tools [hand-operated] for use in the maintenance and repair of electrical installations for electricians, namely pliers, clamping pliers, cutting pliers, pliers for cutting tube entries, pliers for clamping and cutting collars, cable cutters, stripping pliers, twisting pliers, crimping pliers, notching pliers, screw drivers, current testing screwdrivers, sheeting grippers for the precomposition of markers and positioning of markers in marker holders, hole saws for drilling plasterboard; parts and components of all the aforesaid tools and instruments, and cases therefor; cable pullers [hand-operated tools]; fish tape for pulling cables.

Class 09

Apparatus, instruments and devices for electric control, remote control, signaling, calling, monitoring, remote monitoring, access control, detection, alarm; Apparatus and instruments for supplying electric current, conducting, transmitting, switching, distributing, transforming, accumulating, regulating or controlling electricity; electrical installation equipment; components adapted for electrical installations, namely, electrical mechanisms, boxes, housings, support brackets, clasps, fixing lugs, bases, mounting frames, surface mounted frames, adapters, adapter frames, plates, base plates, counter plates, top plates, floor top plates, hub plates, enclosure boxes, cover caps, control keys for switches and control levers; mechanisms for electrical installation apparatus and electrical control apparatus; modular electrical equipment for installations; apparatus for measuring electric current; electric grid supervision apparatus; electric grid analysis apparatus; transducers; breakers (circuit breakers); power circuit breakers; medium voltage circuit breakers; differential blocks for circuit breakers; circuit breakers for motors; circuit breakers for electric motors; modular

circuit breakers; controls for circuit breakers; control and signal auxiliaries for circuit breakers; undervoltage, overvoltage or delayed undervoltage releases for circuit breakers; load-break switches; power stabilizers; relays; differential relays; overload relays; protection relays; connected relays; residual current relays; decoupling relays; relays for group security devices; time delay relays; dusk-to-dawn relays; remote control relays; earthing apparatus; earthing connections; earthing collars; splitters; distribution boards; modular row distributors; distribution panels; circuit breakers; circuit breaker mechanisms; electric power cut-off mechanisms; fitted covers for emergency shutoff or emergency stop current switches; fuse cartridges; industrial cartridges (electricity); combined cartridge units; fused connection units; load controllers; counters; ammeters; voltmeters; transformers; auto-transformers; installation switchgear units; modular blocks (electricity); electric control boxes; detectors and sensors for the automatic control of home or building automation functions; solar cells; modular electric power support rails and connectors and adapters for said rails; installation support brackets for electrical equipment; branch boxes (electricity); connectors; coaxial connectors; connectors for tertiary furniture; connector cords; connectors for copper bars; data rails; connectors between installation bus cables and modular data rail boards; distribution studs; distribution grids; terminals (electricity); branch grids; terminal strips; cutout strips; terminal blocks; drawers for optical fibers; power supplies (electricity); modular power supplies; emergency power supplies; emergency power supply casings; power supply apparatus for programmable automated machinery; power supply terminals for campsites; soft starters for asynchronous motors; electric couplings; electric junction boxes; combs being parts of electric devices; connecting combs being parts of electric devices; distribution combs being parts of electric devices; distribution terminal blocks and holders therefor; filler plates (electricity); terminal shields and holders therefor; terminal cover casings; lightning conductors; dimmers; dimmer switches; light dimmers; voltage regulators; power regulators; speed regulators (electricity); limit regulators/switches; electronic pressure regulating apparatus;

voltage surge protectors; electronic speed regulating apparatus; pressure regulators; power units; potentiometers; timers for electric installations; cutoff early warning apparatus coupled with a timer; telerupters; auxiliaries for remote switches; contactors; power contactors; contactors for off-peak or other applicable electricity tariffs; auxiliaries for contactors; uninterruptible electrical power sources; uninterruptible electric batteries; Electric cells, batteries and accumulators; battery boxes; accumulator cassettes; capacitors; electrical ballasts and their monitors; compensators (electricity); repeaters; electric distribution compensation panels; chargers; wireless chargers; USB chargers; charging stations for electric vehicles; electric sockets, posts and cables for recharging points for electric vehicles; mounted and pre-wired electric boards for photovoltaic installations; waterproof electric casings for photovoltaic installations; inverters for photovoltaic installations; electronic apparatus providing hotel guest services, namely, management of lighting, heating, communication with the hotel reception; sockets for hotel room management systems; multi-app modular controller for hotel room management; electrical equipment for heating control and energy management; energy management apparatus, especially for electric heating; heating programmers; apparatus and instruments for measuring and/or regulating temperature; thermostats; room thermostats; programmable thermostats; probes for thermostats; apparatus for controlling temperature [thermostats]; smart temperature control apparatus [thermostats]; wireless temperature control apparatus [thermostats]; smart thermostatic valves; smart thermostats; smart electric apparatus for optimizing energy consumption; smart thermostatic valves enabling the remote control of heating; decorative covers adapted for thermostats; electric control devices for ventilating installations; wireless weather stations; couplers [data processing equipment]; phase couplers; modular couplers; bus couplers; modular transmitters and receivers, in particular for remote control; interfaces for remote control apparatus and installations; filters (electricity); input filters, in particular for remote control apparatus and installations; socket insulator filters; programming units; programmers

for household appliances; cooker control devices; household programmers; power distribution unit; power distribution unit accessories, namely, connecting cable and extension cable; energy distribution unit management software; switched-mode power distribution units; metered power distribution units; smart electric distribution units; remote controlled power distribution units; distribution cabinets, casings, pedestals and boards (electricity); medium voltage electric boards; electric push button panels; modular casings (electricity); terminal casing covers (electricity); casings for weak-current and signals; subscriber branch boxes (electricity); subscriber panels (electricity); plates for circuit breakers and/or subscriber meters; casings prefitted with plates for subscriber connection; casings prefitted with a fuse circuit breaker; casings prefitted with circuit breakers; sheaths for weak-current; sheaths for electric cables; accessories for electric distribution boards, namely, flat bar mounts, flat bars, additional brass bars, divisible cable entry points, cable entry knock-out plates, security locks; parts and component parts for casings, cupboards, bays, electric boards, namely, power supply units, splitters, sockets, switches, connectors, cable sheathings, wire saddles; electric conductors, including wires, cables, rails and buses; extension cables and cords; connected busbars; reels for electric cables; electric cable sheaths for fitted cabinets; electric cable ducts; ladders for electric cables; ducting, moldings, skirting ducting and columns for conductors and/or electrical equipment; cable guides for electric conductors; cable trays for electric conductors; ducts [electricity]; technical distribution slabs (electricity); cable glands (electricity); electric feedthroughs; cable ferrules; strain-relief cable glands; markers for electric conductors; sleeves for markers for electric conductors; label holders for markers for electric conductors; collars for electric conductors and equipment; terminal blocks; control modules; diode modules; electric control, remote control, radio control, infrared control apparatus, devices and installations, in particular for heating, watering, air conditioning, ventilation, alarm apparatus, roller shutters, blinds, projection screens, televisions, doors, door phones, locks, presence simulation and, in general, all electrically operated apparatus; electric control and

management appliances for lighting; electric controls for lighting; ambient lighting management apparatus; apparatus for controlling heating and other functions by telephone; electric roller shutter controls; electric controls for blinds; wind and/or sun sensor sets for apparatus for controlling roller shutters or blinds; remote controls; radio remote controls; remote control casings; auxiliary remote control apparatus; portable remote controls; infrared remote controls; electric or radio bus control units; infrared controllers; transmitters and receivers (remote control); infrared transmitters and receivers; antennas; single-function or multi-function electric control units; electro-mechanical interfaces for control apparatus; switches; electronic switches; push switches; differential switches; time switches; time delay switches; dusk-to-dawn switches; free-release switches; switch disconnectors; fused switch disconnectors; electric current switches; switches with pilots; light switches; light bulbs for light switches; switch-receivers; power switches; key switches and push buttons; key, badge or card switches (including for hotel rooms); switches with a lock; switches for roller shutters; remote controlled switches; connected switches; decorative switch plate covers; source inverters; changeover switches; commutators; medium voltage electric switching apparatus; electric push buttons; label holder push buttons (electricity); push-buttons (electricity); coded keypad control apparatus, including switches and push buttons; electronic two-way switching devices; electronic double two-way switching devices; electronic two-way switching devices and illuminated push buttons; push buttons and turning buttons for electric control and signaling; emergency "punch" cut-off buttons; auxiliary contacts; wire outlets; cable outlets; indicators (electricity); electric indicator lights; indicator lights (signaling) and diffusers for these; beacon lights; label holders (signaling); plugs and sockets (electricity); jack sockets and plugs; RJ45 sockets and plugs; HD15 sockets and plugs; plugs (connectors); plugs and sockets,; connected sockets; electric sockets with USB socket; combined TV and telephone sockets; data sockets; frames and holders for electric sockets; electric tap boxes for construction sites; socket end seals,; television plugs and sockets; plugs and sockets for video; plugs and sockets

for radios; telephone plugs and sockets; loudspeaker input and output connectors;; microphone plugs and sockets; computer plugs and sockets; multimedia plugs and sockets; communication plugs and sockets; computer connectors; connector units; connection strips; distribution strips; plugs and sockets for satellite reception and/or communication; plugs and sockets for cable network reception and/or communication; plugs and sockets for receiving frequency modulation; plugs and sockets for connectors; locks for connectors; connector covers; connector sockets; plugs and sockets for optical fibres; optical fiber connectors; optical patch jumper cables; plugs and sockets for signaling, calling and/or alarm apparatus; plugs and sockets for electric control apparatus; central vacuum electric sockets; lightning rod sockets; multi-outlet power strips; industrial plugs and sockets; industrial socket casings; connector bases; mobile sockets; attenuators; adapters (electricity); electric plug adaptors for travel; electric converters; patch panels (electric connections); patch cords; installation switchgear blocks; flush boxes (electricity); boxes for connecting light fittings such as boxes for sconces or for center points; electric conductors, especially cables, wires, cords, rails and buses; multiplexed electric wiring harnesses; installation and/or distribution profiles for electric conductors and/or apparatus; stand-alone signal units; stand-alone beacon units; apparatus for controlling stand-alone security lighting units and centralizing information from such units; repeaters for remote control of security lighting apparatus; interfaces, connector devices, function cards and auxiliary modules, all for signaling installations and apparatus; casings, cabinets, consoles, console cabinets, bays, housings, trays, cassettes and drawers, all specially adapted for receiving electric, electronic, optoelectronic and/or computer apparatus or equipment, and/or optical fibers, whether or not pre-fitted, for surface-mounting or flush-mounting; distribution, connection and/or wiring equipment for casings and cabinets (electricity); distribution equipment for modular electric apparatus; patch panels, casings, bays and cabinets for voice-data-image (VDI) applications; patch panels for data centers; smart patch panels; optical fiber patch panels; high-density optical fiber patch panels; remote

control apparatus for home or building automation functions, in particular via power line, radio, telephone; remote control apparatus for electric sockets; programming interfaces for electric apparatus; servers for home automation and/or building automation applications, which receive and transmit remote control orders; modems for connecting the aforesaid servers to telecommunications and/or computer networks; alarm apparatus and instruments; modular alarm apparatus; modular apparatus for technical alarms; central units for the management of signaling and/or alarm apparatus; alarm systems; home automation hubs; fire alarm control units; smoke extraction fan controls; sound monitoring apparatus, especially for children's rooms; call boards; electric sound, call and/or alarm signaling apparatus and appliances, including for doors and entrance gates; bell and/or call buttons; bells and chimes (warning, signaling and/or alarm apparatus), including for doors and entrance gates; electric doorbells; transformers [electricity] for ring tones; wireless electronic doorbells; door entry systems; plates for door entry systems; smart door entry systems; access control devices; warning signals for electric networks; warning lights; acoustic [sound] alarms; horns; anti-theft alarms (other than for vehicles); fire alarms; electric warning bells; industrial warning devices; buzzers; sirens; siren casings; sound diffusers for emergency evacuation; luminous signals (signs); rotating lights (signs); flashing lights; strobe lights; flashing and audible lights; holders for the aforesaid lights; signal beacons; intrusion alarm apparatus, especially wired or radio; telephone transmitters and electromechanical relay interfaces (apparatus) therefor; video surveillance systems; indoor cameras for video surveillance systems; outdoor cameras for video surveillance systems; anti-theft alarms; video surveillance systems; video telephones; plates for video phones; cameras for video phones; webcams; intercommunication apparatus; interphone plates; intercommunication apparatus, cameras and intercoms for alarm systems; computer hardware and software intended for use in video surveillance; electronic anti-theft device; electric locks; smart locks; apparatus for recording, reproducing, issuing, transmitting, broadcasting, receiving sound and/or images, including: loudspeakers, cabinets for loudspeakers,

sound bars, pre-amplifiers, amplifiers, microphones, call microphones, selectors for sound volume adjustment, sound volume attenuators; preset radio station selectors; public address apparatus; music players; electric devices to suppress noise interference; sound and/or image and/or data and/or computer program magnetic, optical, electronic and/or digital recording media; television and/or radio receiving stations, in particular via hertzian wave and/or via satellite; amplifiers for hertzian and/or satellite signals; switches for hertzian and/or satellite signal receivers; electronic switches for video signals; couplers for hertzian and/or satellite signal meetings; hertzian and/or satellite signal distributors; VDI (voice-data-images) distributors; multi-port ethernet repeaters; computer software used to record, transmit, display or project sound, images; projectors; film projectors; overhead projectors; electronic touch screens; screens for photographic, computer or cinematographic projection use; handheld screens as well as related parts and accessories; video screens incorporating fabrics; pods for cinematographic cameras or projectors; control device for projection screen; locking system for projection screen; support brackets for loudspeakers, support brackets for audio and video equipment and wall mounts for audio and video equipment; supports adapted for laptops; support brackets for computer hardware; stands for tablet computers; support brackets for computer screens; LCD support frame; television; television antennas; plugs and cables for use with audio and video equipment; multimedia apparatus for receiving, recording, transmitting, amplifying sound; analog apparatus for receiving, recording, transmitting, amplifying sound; digital apparatus for receiving, recording, transmitting, amplifying sound; computer cabinets; liquid crystal displays (LCD screens); adjustable mounting systems, namely, mounting brackets, brackets, tables and trolleys adapted for liquid crystal displays, plasma displays, cathode ray tube displays, projectors, video cameras; stereoscopic apparatus; thin film transistor liquid crystal display (TFT-LCD) panel; racks for amplifiers; video conferencing apparatus; video and audiovisual system controllers; video and audiovisual systems comprised of electric controllers and computers which provide an automated movement tracking

which tracks a moving presenter; IP cameras for video capture; thermal imaging cameras; camcorders; video intercoms, audio intercoms; software for videosurveillance cameras; video surveillance cameras; application software for mobile electronic apparatus for displaying videos on mobile apparatus; camera covers, camera housings, camera lenses; control panels for videosurveillance cameras; floor visual display units o; video encoders, television decoders, camera servers, motion controllers for cameras, optical motion detectors and trackers for cameras during meetings or presentations; video and audiovisual system controllers, namely, controllers which turn on/off, select audio/video sources or indirectly operate such video cameras, electronic switches, systems, components, cables and peripherals; digital voice signal processor; software for designing, selecting or ordering audio and video equipment accessories, namely, accessories for projectors and flat screens; software for generating or modifying a list of parts for audio and video equipment accessories; audio equipment for cars; fire alarm management apparatus; detectors; infrared detectors; infrared receivers; interfaces between transmitters and receivers; magnetic opening detectors, in particular for garage doors; presence detectors; motion sensors; passage detectors; intruder detectors; proximity sensors; radio frequency detectors; fire and smoke detectors; stand-alone releasing detectors; gas detectors; flood detectors; temperature increase detectors; glass breakage detectors; pre-signal detectors; electro-mechanical interfaces for detectors; photoelectric cells; electric contacts, especially for doors and gates; electromagnetic suction closures and actuators for fire doors and escape routes; control casings for emergency exits and fire extinguishing systems; electric or electronic strike plates, locks and closures and controls and remote controls therefor, including with keyboard; encoded keypad controls for access control; coded keypads for buildings; prehung door units for electric locking of emergency exits; door closing selectors; cases and readers for access control apparatus; autonomous access control readers and electronic keys therefor; magnetic and/or electronic and/or optical and/or digital keys, cards and badges, especially for access control; badge

holders for the aforesaid badges; access control apparatus, namely, identification badge readers; programming keys for electronic keys; building and villa door phones; intercommunication apparatus; video telephones; interphone and telephone exchanges and apparatus; interphone and telephone handsets; electric installation appliances enabling control and management, in particular centralized and programmable, on-site or remote, in particular from a computer or a mobile phone, home automation and/or building automation functions and applications, including the control and management of electric and electronic circuits, lighting, heating, air conditioning, ventilation, automatic sprinkler, shutters, blinds, sunroofs, door phones, breakdown, leak or defect, temperature and fluid consumption level management, control and management of security, alarm, fire detection, lightning protection, surveillance, access control, intruder defense, recording and/or disseminating sound and/or images, intercoms, telephones, televisions, telecommunications and/or computer systems; home automation systems; home automation apparatus; bus interfaces for home automation systems; apparatus for programming and controlling home automation systems; electric opening and closure control apparatus; electric apparatus for controlling openings and closures by powerline carrier current or radio frequency; apparatus for centralizing electric controls; connection modules for smart apparatus; connection modules for electric controls; interface for controlling electric apparatus; communication gateways (electric apparatus); teaching apparatus for technical teaching and training in electricity and electronics as well as with respect to the assembly, installation, use and maintenance of electric appliances and installations, including: educational cabled panels, coated with electric circuits, equipment and/or appliances, synoptic boards, simulation apparatus and installations; electronic apparatus for technical teaching and training; teaching, instructional and training software, in particular in the nature of recorded databases, all in the field of electric installation appliances; software to assist in the design and roll out of electric installations, assistance in determining the nature, quality, characteristics and quantities of appliances and materials required for such purposes as well as

normative and compliance standards applicable to the same, assistance in drawing up descriptions of the aforesaid appliances and materials, deciphering and reupdating corresponding quotes, ordering the above-mentioned appliances and materials, invoicing, cost-price visualization, sales support, construction site monitoring; electric grid measurement, analysis and monitoring software; software for drawing up electric installation plans; software for taking and managing orders, in particular electric installation appliances, with pricing set at the distributor's rate; software for managing customer files; browsing software for accessing digital information services over computer and telematic networks, for searching and viewing data and information (such as: electronic catalogs and documentation, product notices, certificates of compliance, study software, multimedia presentations, wiring diagrams; software for taking and managing orders with pricing set at the distributor's rate, all in the field of electrical equipment for installations; software for tracking drivers and components used in the performance of electrical equipment, in particular cables and appliances in electrical casings and cabinets; electronic or optical display devices for conductors and components of electrical equipment; software for creating labels for identifying modular electric apparatus and circuits; software for studying distribution boards (electricity), in particular their nomenclature, installation plan, cost price and installation cost; software for autonomous security lighting units, including for positioning and locating them on a plan; servers, software and recorded databases with respect to electrical equipment for installations, in particular modular, and apparatus and installations for controlling and managing home automation functions; electronic keypad printing machines for editing labels; electric or electronic plotters for marking locations; electronic publications (downloadable), including electronic letter and newsletters, electronic newspapers, electronic magazines; computers; computer hardware; power supplies for computers; computer cables, cords and extensions; magnetic recording media, sound recording disks; digital recording media; computer peripherals; wireless computer peripherals; computer peripherals, namely, computer printers, computer monitors, integrated

circuits, computer mice, computer keyboards, computer memories; microchip (computer hardware); computer program for access or entrance control; wireless router; wide area network (WAN) router; network router; computer interfaces; downloadable software for monitoring and managing internet protocol (IP) computer networking systems and IP computer networking equipment, namely, routers, switches, and access points with compatible firmware for remotely monitoring and managing, on the Internet; data center cabinets; server cabinets; cages for data centers; cabinets for virtual office infrastructure; LAN cabinets; open-frame LAN racks; racks for virtual desktop office infrastructure; measuring and monitoring apparatus for air conditioning in data processing rooms; preconnectorized optical fiber for data centers; access control devices for data centers; cable trays for optical fibers; busbars for data centers; critical power monitors; KVM cables (namely, screen-keyboard-mouse) over Internet protocol; KVM adapters (namely, screen-keyboard-mouse) over Internet protocol; KVM management software (namely, screen-keyboard-mouse) over Internet protocol; KVM console (namely, screen-keyboard-mouse) over Internet protocol; KVM analog (namely, screen-keyboard-mouse) over Internet protocol; KVM over IP (namely, screen-keyboard-mouse) over Internet protocol; secure KVM switch (namely, screen-keyboard-mouse) over Internet protocol; automatic transfer switches; rack transfer switches; server bay accessories, namely, cables, plugs; optical fiber patch panels for data centers; cassettes and modules for data center racks; WiFi communication equipment; WiFi switches; WiFi adaptors; WiFi routers; WiFi antennas; WiFi controllers; communication gateways (electronic devices); switches, adapters, PoE (power-over-ethernet) controllers; ethernet switches for industrial automation; audiovisual ethernet switches; network testers; cable testers; cables for multimedia apparatus and instruments; multimedia communication panels; active multimedia components; passive multimedia components; Ethernet switches; interconnection computer hardware, namely, switches, network bridges and wireless network range extenders; computer network routers and wired and wireless communication apparatus, namely,

meshed network routers; wired computer network router; wired communication equipment; wireless computer network router; wireless communication equipment; optical fiber spreader; pass-through panels; optical fiber drawers; telephone apparatus; computer telephony hardware; transceivers for communication via electric lines; modems for communication via electric lines; plugs and sockets for communication via electric lines; power line communication modules; adapters for communication via electric lines; lighting control apparatus; electric couplings for lighting installations; wireless lighting control apparatus; electrified rails for mounting spot lights; electronic bulletin boards; interactive computer kiosks mounted on support brackets, comprising computers, computer hardware and software for advertising and disseminating information about the products and services of third parties; emergency call apparatus for elderly or dependent persons; alarm buttons for elderly or dependent persons; emergency device sending out an alarm in case of a fall for elderly or dependent persons; mobile emergency call devices for elderly or dependent persons with GPSs tracking functionality; electronic trigger sending an alarm to the terminal with positioning and activity functionality; RFID/area ID generator for positioning functionalities; electronic devices reminding the user that a medication must be taken and sending an alarm if it is not taken; electronic nurse call apparatus; voice communication systems (electronic devices) for nursing homes and hospitals; software for voice communication systems for nursing homes and hospitals; retirement home management software; motion detectors with door alarm; door opening sensor; movement sensor for beds or armchairs for the elderly or dependent; ground sensor; bed sensor; air quality sensors; fire sensors; temperature sensors; heat sensors; gas sensors; flood sensor; wired sensors; wireless sensors; bathroom scales; communication gateway for transmitting radio alarms via IP or serial interfaces; radio range amplifier; bidirectional physical input/output to radio gateway; hall lighting for displaying a visual alarm or notification; luminous safety signs; signaling lamps; modular sheathing for hospital bed heads; work clothes for protection against accidents or injuries; downloadable virtual products, namely,

downloadable image files of virtual equipment and instruments for conducting, distributing, transforming, storing, regulating or controlling electricity authenticated by non-fungible tokens; downloadable virtual products, namely, downloadable image files of virtual apparatus for recording, displaying, projecting, transmitting or reproducing sound or images authenticated by non-fungible tokens; downloadable virtual products, namely, downloadable image files of medical apparatus and instruments authenticated by non-fungible tokens; downloadable virtual products, namely, downloadable image files of virtual lighting apparatus authenticated by non-fungible tokens; electric aerator casings.

Class 10

Medical apparatus and instruments; heart rate monitor; clinical thermometers; blood pressure sensor; enuresis detectors; epilepsy detectors.

Class 11

Apparatus and installations for lighting, heating, refrigerating, ventilating, aerating, air conditioning, water and fluid distribution; air-to-air exchangers; air conditioners; fans; ceiling fans; air delivery apparatus; electric lamps and tubes, especially for electrical installation, control, signaling, marking and lighting apparatus and equipment; electric lamps for indicators; electric lamps for illuminated label holders; fluorescent tubes for lighting; electric lights for portholes; diffusers for warning lights; incandescent lamps; halogen lamps; lighting portholes; lamps for lighting; safety lamps; electric light bulbs; light bulbs; independent lighting units, including lighting for security, marking and atmospheric purposes; modular emergency lighting units; security lighting plates; strip lights for lighting tubes; lighting fixtures; incandescent and fluorescent lighting fixtures; portable lighting apparatus; portable lamps; portable lamps; flashlights (pocket torches); flashlights; lighting bollards, stakes, studs, portholes and boxes; garden lighting stakes; spotlights; floodlights; reading lamps; night lights (lighting apparatus); night lights (lighting apparatus); lanterns for lighting; ceiling lights;

electric bulb caps and sockets, tubes and lamps; ballasts for lighting tubes; ventilation, heating, cooling and lighting apparatus and installations, all for casings, cabinets, bays and housings accommodating electric, electronic and/or computer equipment; air conditioning for data processing rooms; lighting sheathing and sconces, including hospital bed head sheaths and hospital sconces; lighting modules, in particular for bed head sheathing; water supply and distribution terminals, in particular for outdoor accommodation (camping, caravanning, marinas, yacht harbors); speed variators adapted for ventilation installations; light fixtures for hospitals; lighting and reflectors for lighting; decorative covers adapted for lighting fixtures; antibacterial lamps; germicidal lamps.

Class 16

Printed matter relating to electrical equipment for installations as well as in the fields of electric installations, lighting, electric control, signaling, monitoring, alarm, access control and/or home automation; printed guides and manuals for using software with respect to electric installation appliances or intended for electricians and installers of electric equipment; printed educational materials and media fact books, all for the technical teaching and training of electricity as well as the assembly, installation, use and maintenance of electric appliances and installations, including educational folders, writing or drawing books and practical work folders and answer sheets, binders, index cards, transparent slides, handbooks, manuals, mounting and maintenance notices, charts, posters and catalogs; printed matter, newspapers, periodicals, reviews, magazines, letters and newsletters relating to electric installation appliances as well as in the fields of electric installations, lighting, electric control, signaling, monitoring, alarm, access control and/or home automation; signal labels made of paper and/or cardboard for electric installation appliances and for security or beacon lighting apparatus; printed index cards made of paper or cardboard for preparing registers for electric conductors or for terminal blocks; binders for the aforesaid information sheets; cardboard packaging for electrical

appliances; white boards; whiteboard pliers, namely paper-clips; dry erase writing boards.

Class 17

Insulators; insulating materials; insulators; insulating tapes; insulators, in particular for connections; sealants for electricity; gaskets and seals; insulating rivets made of synthetic materials; insulating supports made of synthetic materials; insulating protective screens; insulating articles for electric cable terminations; insulating housings for electric appliance mechanisms; electrical insulators; cable sleeves; insulating compounds for electricity; insulators for electric mains; electrical insulating materials for electric installation, in particular switches and sockets; insulating materials for electric installation appliance mechanisms, in particular for switch and socket mechanisms; insulating adaption parts and components for flush mounted boxes for electrical appliances and/or conductors, including: sleeves for thermal insulation, fastening covers for sleeves; adhesive tapes for electric conductors and/or electric appliances for installations; flexible pipes not of metal; pipe sleeves and couplings, not of metal.

Class 19

Installation and/or distribution profiles not of metal for second-fix construction and interior fitting, namely, trunking, moldings, skirting trunking, baseboard moldings, cornices, columns, tubes, sheaths, conduits, pipes, pipelines, rigid pipes, floor ducts, cable trays and rails; prefabricated construction elements, namely, false floor slabs, false ceiling slabs, manholes; all the aforesaid goods wholly or principally not of metal, including of synthetic materials or polymeric materials.

Class 20

Premanufactured boxes for flush mounted cabinets; locks and closures (not of metal) for cabinets and bays; hinges (not of metal) for cabinets, furniture bays and casings; fastening parts namely screws, bolts, dowels (not of metal) for furniture casings,

cabinets, bays and boards; wall mounted brackets for furniture casings; cabinet, bay and casing casters; non-metallic furniture fixtures in the nature of connecting elements for furniture, screws, rivets, bolts and nuts; markers; pre-cut marker plates; marker holders; holding strips for markers; identification marking devices for industrial use; binding screws, not of metal, for cables; screws; bolts; nuts; all the aforesaid goods made wholly or principally of synthetic material and in particular of plastic or polymeric materials; wardrobes; bays (furniture); standing desks; racks (furniture); chests (furniture); furniture panels for bedhead covers and cabinets; parts and components of furniture, namely, cabinets, racks, bays, pedestals, consoles and casings; doors for casings and cabinets; shelves; shelves for storage; drawers; furniture for television sets; furniture for audiovisual apparatus; plastic clips for cables; furniture for use with audio or video equipment, table for image projectors; computer furniture; mobile furniture for image, sound and computing equipment; lecterns; desks [furniture]; work benches; console tables (furniture); shelving units; computer trolleys (furniture); display stands; showcases; chairs; storage cabinets with drawers; storage racks (furniture); trestles [furniture]; furniture for household appliances; indoor window blinds [shades]; window blinds, namely, roller blinds, pleated blinds and honeycomb shades; venetian blinds; drapery hardware, namely, cross bars, poles, curtain hooks, curtain rods and finials; furniture for computer, audio and video equipment.

Class 21

Dispensers for cleaning products, namely, spray bottles that distribute solutions to clean display screens such as, for example, television screens and monitors.

Goods and/or Services:

Class 06

Valves of metal, other than parts of machines; valve slides and valve flaps of metal, other than parts of machines; common metals and their alloys; ironmongery and small items of metal hardware; manually operated valves of metal, other than parts of machine; check valves of metal (other than parts of machines); metal valves for controlling the flow of gases in pipelines; metal valves for controlling the flow of fluids

or liquids in pipelines; metal connectors and push in fittings for pipes and tubes for hydraulic and pneumatic systems; rods made of metal; tension levers made of metal; fasteners made of metal; nuts made of metal; bolts made of metal; screws made of metal; connectors made of metal; studs made of metal; metal pipes, hoses and tube fittings; junctions of metal for pipes; fittings of metal for compressed air ducts; metal couplings; mounts for valves made of metal (other than parts of machines); anchors made of metal; anvils made of metal; pipe joints of metal; pipe nipples made of metal; non-electric connecting sockets of metal; flanges of metal; pipe plugs of metal; pipe mounting clamps made of metal; reinforcing materials of metal for pipes; bells made of metal; rolled and cast building material of metal; rails and other metallic materials for railway tracks; chains of metal (except driving chains for vehicles); cables and wires (non-electric); safes and cash boxes; steel balls; cables and wires of common metals and their alloys (non-electric); steel wire; metal building materials; metal fittings for pipes or tubes for connecting to radiator valves; metal tanks; parts and fittings for all the aforesaid goods.

Class 07

Valves; valve slides and valve flaps [parts of machines]; valves being parts of machines; valves being parts of machine tools; hydraulic valves; pneumatic valves; hydraulic and pneumatic closing mechanisms for valves; valves to control flow, pressure, temperature and liquid level; pressure regulators; pressure controllers [regulators] being parts of machines; pressure reducers; nozzles being parts of power-operated sprayers; turbines; actuating magnets for valves being parts of machines; valve spindles [parts of machines]; valve stems [parts of machines]; silencers; mufflers; sound absorbers; pumps; mounts for valves being parts of machines; pumps; gears other than for land vehicles; gear boxes other than for land vehicles; gears for machines; gear units for machines; machine coupling and belting (except for land vehicles); gearbox casings other than for land vehicles; connecting rods for machines, motors and engines; hand wheels, not of metal for valves

(machine parts); control units, apparatus and mechanisms (hydraulic or mechanically controlled) for machines, motors and engines; actuators [parts of machines]; positioners [parts of machines]; pneumatic industrial process controllers; ignition apparatus for machines and engines; propulsion mechanisms other than for land vehicles; machine tools, machine coupling and transmission components (except for land vehicles); machine tools, namely, vices and clamps for the precision clamping of work pieces; control and regulatory apparatus being parts of machines, namely, pressure regulators being parts of machines, and hydraulic controls for machines, motors and engines; hoists; lubricating machines; fluid-blocking spray machines and apparatus; large size agricultural implements, other than hand-operated; automatic drainage machines for liquids; powered-operated spray and blow guns; machine parts, namely, pneumatic and hydraulic cylinders; pneumatic air preparation units and parts thereof for use in pneumatic machinery; pneumatic air compressor units for use in pneumatic machines; slide tables for pneumatic and hydraulic devices; powered grippers for pneumatic and hydraulic devices; guide blocks with roller bearings for machines; electric spindles for machine tools; parts of machines, namely, manifold assemblies for valves comprised primarily of pressure switches, check valves, regulators and gauges; filters; filter cleaning systems for machines; hydraulic engines; servomotors for mechanical engineering and tool manufacture; pneumatic devices for servo-driven switching and controlling plants, air barriers, reflex nozzles, booster relays; power operated tools; pneumatic tools; valves being parts of industrial machines used in major power plants, nuclear, fossil, oil, liquefied natural gas and gas plants, platforms and refineries and petrochemical plants including well heads, liquefied natural gas plants, fossil and nuclear power stations, refineries and petrochemical plants; pressure regulators being parts of machines used in power generation, oil and gas systems; machine parts, namely, nozzles which are part of power-operated sprayers for water in gas injection to steam systems; silencers for machines; handling and positioning apparatus for use in automated assembly and processing installations; compressors; parts and fittings for all the aforesaid goods.

Class 09

Solenoid valves; apparatus and instruments for detection, measuring, timing, inspection, sensing, checking (supervision), signalling, monitoring; accumulating electronic apparatus for the remote control of industrial operations; solenoid valves; electrovalves, namely electrically controlled valves for regulating the flow of liquids or gases [solenoid valves]; electromagnetic valves, namely, solenoid valves that control the flow of liquids and gases using an electromagnet; electromagnetic circuit interrupters; positioning sensors; electronic positioners [electronic controllers]; digital positioners [electronic controllers]; electric apparatus for remote ignition; electric flow control apparatus and instruments; data processing equipment and instruments; computer software; computer software for use in automating and managing production line processes; computer software for streamlining and optimising manufacturing processes and production line processes; thermostats; nanometric switches; electronic connectors for solenoid valves; sensors; circuit boards; pressure boosters [amplifiers]; electrostatic precipitators; gauges; room thermostats; humidistats; laboratory equipment, namely, diaphragms and capillary tubes for control systems; remote control devices and software for HVAC; fire-extinguishing apparatus; downloadable software for managing fluid powered systems and machines involved in factory automation; downloadable and recorded software for identifying operational issues, control logic issues, design issues, maintenance issues, and hardware and equipment issues in industrial plants; electronic controls for operating cylinders; solenoid valves for controlling and regulating the flow of gases or liquids not being parts of plumbing, heating, cooling installations or machines; automatic solenoid valves to control flow, pressure, temperature and liquid level; parts and fittings for all the aforesaid goods; none of the aforementioned goods in connection with military purposes, simulators or simulation systems.

Class 11

Valves for heating, ventilating and air conditioning units; valve slides and valve flaps [parts of heating or gas installations]; valves as part of radiators; apparatus, installations and instruments for lighting, heating, steam generating, cooking, ventilating, refrigerating, drying, water supply, water flow regulating and water distribution, air-conditioning, cooling and sanitary purposes; thermostat-controlled valves as parts of heating apparatus; thermostat heads for thermostatic radiator valves; plumbing fittings; water pressure reducers; regulators for level controlling in tanks; thermostatic and steam valves as parts of cryogenic apparatus and equipment; flare stack systems for use in the oil industry; burner control apparatus and instruments [parts of burner]; industrial driers for pneumatic systems; air and gas driers; air vents [ventilation systems]; air filters for industrial installations and water filters; filters being parts of air treatment apparatus for the treatment of compressed air or other compressed gases; locking and multipath water taps; apparatus and installations for degassing water, namely, vacuum degassing devices; gas and air separator equipment and devices; venting devices for ventilation purposes; venting and separating device for water heaters for removing micro bubbles, sludge, oxygen and magnetite, namely, separators for the cleaning and purification of liquids, gases, and air; water pipe apparatus and installations [water supply apparatus]; heat-exchangers (not part of machines); water treatment equipment; industrial and domestic water treatment apparatus, installations and instruments for expansion and maintenance of pressure in water systems and pressure boosting systems; industrial water purification equipment; pressure maintenance devices consisting of steam valves for water heating and cooling systems; taps being parts of heating installations; expansion tanks for closed heating or cooling systems; radiators; feeding apparatus for heating boilers; flues; pipes for heating boilers; lubricating equipment and apparatus being parts of heating, ventilation and air-conditioning apparatus; steam valves being parts of steam heating installations for manual and automatic isolation and control; parts and fittings for all the aforesaid goods.

Class 17

Valves of rubber; valve slides and valve flaps of rubbers, other than parts of machines; vibration dampers of rubber; flexible pipes, not of metal; flexible tubes, not of metal; flexible tubing; flexible hoses, not of metal; insulating materials in the form of blocks; rubber bars and rods; shaped rubber pipe, tube and hose sections; non-metallic fittings for pipes, tubes and hoses; flexible hose couplings, not of metal; non-metal hose connectors; couplings, unions and joints, not of metal, for pipes, tubes and hoses; seals; non-metallic seals for preventing leakage of gases; non-metallic seals for preventing leakage of fluids; seals made of rubber or plastic for shock absorbers; gaskets; sealing material; plastic fibres for use in the manufacture of packings and seals; polytetrafluoroethylene compounds for use in the manufacture of packings and seals; non-metallic pipe fittings namely, joint packings, pipe nipples, pipe sleeves, pipe flanges, pipe plugs, pipe gaskets; rubber stoppers for pipes; gaskets; parts and fittings for all the aforesaid goods; all of the aforesaid goods not made of metal.

Class 37

Installation, repair and maintenance services relating to valves, valve slides and valve flaps, common metals and their alloys, ironmongery and small items of metal hardware, manually operated valves, check valves of metal (other than parts of machines), metal valves for controlling the flow of gases in pipelines, metal valves for controlling the flow of fluids or liquids in pipelines, pneumatic and hydraulic cylinders made of metal, blast air-containers made of metal, metal connectors and push in fittings for hydraulic and pneumatic devices, nozzles made of metal as parts of machines, rods made of metal, tension levers made of metal, fasteners made of metal, nuts made of metal, bolts made of metal, screws made of metal, connectors made of metal, studs made of metal, metal pipes, hoses and tube fittings, junctions of metal for pipes; installation, repair and maintenance services relating to fittings of metal for compressed air ducts, metal couplings, mounts for valves made of metal,

anchors made of metal, anvils made of metal, pipe joints, nipples made of metal, sockets of metal, flanges of metal, pipe plugs of metal, pipe mounting clamps made of metal, reinforcing materials of metal for pipes, bells made of metal, rolled and cast building material, rails and other metallic materials for railway tracks, chains (except driving chains for vehicles), cables and wires (non-electric); installation, repair and maintenance services relating to safes and cash boxes, steel balls, cables and wires of common metals and their alloys (non-electric), steel wire, metal building materials, radiator valve fittings (made of metal), metal tanks, valves being parts of machines, valves being parts of machine tools, hydraulic valves, pneumatic valves, valve closure mechanisms, valves to control flow, pressure, temperature and liquid level, valve wells, pressure regulators, pressure controllers, pressure reducers, nozzles, turbines, actuating magnets for valves, valve spindles, valve stems; installation, repair and maintenance services relating to silencers, mufflers, sound absorbers, pumps, mounts for valves being parts of machines, pressure accumulators and pumps, gears other than for land vehicles, gear boxes other than for land vehicles, gears for machines, gear units for machines, machine coupling and belting (except for land vehicles), gearbox casings other than for land vehicles, connecting rods for machines, motors and engines, hand wheels, not of metal for valves (machine parts), control units, apparatus and mechanisms (hydraulic, manually and/or mechanically controlled); installation, repair and maintenance services relating to actuators, positioners, pneumatic industrial process controllers, ignition apparatus for machines and engines, propulsion mechanisms other than for land vehicles, machine tools, machine coupling and transmission components (except for land vehicles), control and regulatory apparatus and fittings, hoists, lubricating equipment and apparatus, fluid-blocking spray machines and apparatus, large size agricultural implements, automatic drainage machines for liquids, powered-operated spray and blow guns; installation, repair and maintenance services relating to machine parts, namely, pneumatic and hydraulic cylinders, pneumatic air preparation units and parts thereof for use in pneumatic machinery, pneumatic air compressor units for use in pneumatic

machines, slide tables for pneumatic and hydraulic devices, powered grippers for pneumatic and hydraulic devices, guide blocks with roller bearings for machines, electric spindles, parts of machines, namely, manifold assemblies for valves comprised primarily of pressure switches, check valves, regulators and gauges, filters, filter cleaning systems for machines, hydraulic engines, servomotors for mechanical engineering and tool manufacture, pneumatic devices for servo-driven switching and controlling plants, air barriers, reflex nozzles, booster relays; installation, repair and maintenance services relating to power operated tools, pneumatic tools, handling and positioning apparatus for use in automated assembly and processing installations, compressors, apparatus and instruments for controlling, detection, measuring, indicating, timing, switching, transforming, inspection, sensing, checking (supervision), signalling, monitoring, accumulating, adjusting or regulating, solenoid valves, electrovalves, electromagnetic valves, electromagnetic interrupters, positioner sensors, electronic positioners, digital positioners, electric apparatus for remote ignition, flow control apparatus and instruments; installation, repair and maintenance services relating to data processing equipment and instruments, computer software, filters, electric filter cleaning systems, thermostats, nanometric switches, fluidic apparatus for logistics and for machine and process control, electronic connectors for solenoid valves, sensors, circuit boards, pressure amplifier boosters, electrostatic precipitators, gauges, room thermostats, humidistats, diaphragms and capillary tubes for control systems, controlled devices and software for HVAC; installation, repair and maintenance services relating to fire-extinguishing apparatus, valves as part of radiators, apparatus, installations and instruments for lighting, heating, steam generating, cooking, ventilating, refrigerating, drying, water supply, flow and distribution, steam lines, air-conditioning, cooling and sanitary purposes, thermostat-controlled valves, thermostat heads for valves, thermostat superstructures for valves, plumbing fittings, water pressure reducers, regulators for level controlling in tanks, valves for use in cryogenic apparatus and equipment, flare stack systems for use in the oil industry burner control apparatus and instruments,

driers for pneumatic systems, air and gas driers, air vents, filters, filters for the production, processing or treatment of compressed air or other compressed gases, locking and multipath taps, apparatus and installations for degassing water, gas and air separator equipment and devices; installation, repair and maintenance services relating to venting devices, a venting and separating device for water heaters for removing micro bubbles, sludge, oxygen and magnetite, water pipe apparatus and installations, heat-exchangers (not part of machines), water treatment equipment, apparatus, installations and instruments for expansion and maintenance of pressure in water systems and pressure boosting systems, industrial water purification equipment, pressure maintenance devices with pumps for heating, solar and chilled water systems, taps being parts of heating installations; installation, repair and maintenance services relating to expansion tanks for closed heating or cooling systems, gaskets, radiators, feeding apparatus for heating boilers, flues, pipes for heating boilers, indoor and outdoor waterfalls, lubricating equipment and apparatus, pipes, tubes, flexible tubing, hoses, blocks, rods, shaped pipe, tube and hose sections, non-metallic fittings for pipes, tubes and hoses, flexible conduits, couplings, connectors, joints and unions for pipes, tubes and hoses, seals, gaskets, sealing material, fittings namely, joint packings, nipples, sleeves, flanges, pipe plugs, pipe gaskets, pipe stoppers, pipe fastening clips, clamping screw fittings; installation, repair and maintenance services relating to parts and fittings for all the aforesaid goods; information on the repair and maintenance of HVAC systems.

Class 42

Industrial design and research services; industrial design and research services in the field of severe service applications in the power, nuclear, oil, gas, petrochemical and chemical processing industries and in the field of critical applications such as safeguarding plants, equipment or people and averting emergency shutdowns in the power, nuclear, oil, gas, petrochemical and chemical processing industries; scientific and technological services, engineering services for others; scientific and

technological services, namely, analysis of technical data to identify operational issues, control logic issues, design issues, maintenance issues, and hardware and equipment issues in industrial plants; scientific and technological services relating to flow control analysis and optimization of performance in the power, nuclear, oil, gas, petrochemical and chemical processing industries; engineering design services; consulting in the field of engineering; consulting services in the field of industrial engineering; technology consultation in the field of industrial plant operations; engineering and computer system analysis in the field of industrial plant operation systems; engineering testing services; quality control testing services; technical testing services; testing of apparatus and machinery; testing of valves; computer software design, programming and maintenance; information, advice and consultancy services in relation to all of the aforesaid services; none of the aforementioned services in connection with military purposes, simulators or simulation systems.

parts, electric parts and other machine parts; glass product manufacturing machines and apparatus; rubber forming machines; clamps, chucks and extension chucks as parts of machines and apparatus for manufacturing rubber goods; rubber product manufacturing machines using waste tires; vulcanization apparatus; concrete product manufacturing device; metalworking machine tools; integrated circuit board manufacturing equipment; integrated circuit manufacturing equipment; polyurethane foam production equipment; power jacks; industrial robots and their parts and accessories; industrial robot arms and their parts and accessories; metalworking machines and tools, and their parts and accessories; civil engineering machines and apparatus and their parts and accessories; road building machines; road paving machines; asphalt paving machines; asphalt pavement removal machinery; loading-unloading machinery and apparatus and their parts and accessories; chemical processing machines; machinery and equipment for food or beverage processing; lumbering, woodworking, or veneer or plywood making machines; printing or bookbinding machines; glassware manufacturing machines; painting machines; packaging or wrapping machines; plastic processing machines; semiconductor manufacturing machines and apparatus and parts and accessories thereof; rubber goods manufacturing machines; stone working machines; non-electric prime movers, not for land vehicles, other than water mills and wind mills; non-electric prime movers, other than water mills and wind mills; pneumatic or hydraulic machines and instruments and parts and accessories thereof; starters for motors and engines; AC motors and DC motors [not including those for land vehicles but including parts for any AC motors and DC motors]; AC generators [alternators]; DC generators; DC motors; motors.

Class 09

Hard disk surface testing device; optical disk testing device; test devices for defect inspection of electronic circuit components and circuit boards; computer terminals for work equipment in the production sector; computer interface control devices and

parts thereof; testing and inspection equipment for printed circuit boards; electrical inspection and measurement devices for printed circuit boards or component mounted boards; printed circuit board inspection machine; power controllers; control panels [electricity]; remote control devices for electrical signals; remote control apparatus for telecommunication machines and apparatus; electro-dynamic apparatus for the remote control; telecommunication machines and apparatus with electronic control mechanism; semiconductor wafer testing equipment; semiconductor wafer inspection equipment; semiconductor inspection and testing equipment; equipment for testing electrical characteristics of semiconductors; semiconductor substrate inspection equipment; equipment for testing electrical characteristics of semiconductor integrated circuits; inspection and testing equipment for semiconductor integrated circuits and semiconductor substrates; semiconductor integrated circuit inspection equipment; automatic liquid-flow control machines and instruments; readers [data processing equipment]; recorded computer operating programs; computer programs, downloadable; computer programs for data transfer processing; computer software; computer software for the management and transfer of files; computer software applications, downloadable; storage media containing manuals on computer software; computer joysticks (except for video games); virtual reality headsets; virtual private network [VPN] hardware; virtual private network [VPN] operating software; video playback apparatus; video recording apparatus; animated cartoons; video and images available by downloading via the internet; humanoid robots with artificial intelligence for use in scientific research; humanoid robots with artificial intelligence for use in educational support; teaching robots; vehicle driving skill training simulator; sports training simulators; laboratory apparatus and instruments; laboratory robots; specimen preparation equipment (except for medical use); specimen samplers, cups and cutters for laboratory and scientific use; physical and chemical machinery and equipment used for the culture of specimens; testing apparatus not for medical purposes; automatic sample collection equipment for experiments; laboratory countertops; biochemical analyzer for laboratory use;

laboratory apparatus and instruments for genomic and genetic analysis research; devices for analyzing genome information; gene specimen samplers, cups and cutters for laboratory and scientific use; optical machines; measuring or testing machines; remote control equipment for solar cell manufacturing equipment; electronic control unit for automatic assembly of small components and inspection devices; power distribution or control machines and apparatus, and parts and accessories thereof; DC/DC converters; electric converters; rotary converters; phase modifiers; solar cells; electrical cells; electric or magnetic meters and testers, parts and accessories therefor; electric wires and cables; telecommunication machines and apparatus, parts and accessories therefor; electronic data processing machines, apparatus and their parts and fittings; pre-recorded CDs; downloadable image files; recorded video discs and video tapes; pre-recorded DVDs; electronic publications; exposed cinematographic films; slide films featuring genes and genomes; downloadable computer software for machine and device emulator and virtualizer; adsorption electromagnets for loading and unloading pallets of metal; automatic inspection equipment for small components.

Class 10

Medical apparatus and instruments, and parts and accessories thereof; diagnostic apparatus for medical purposes; testing apparatus for medical purposes; measuring apparatus for medical purposes; analyzing apparatus for medical purposes; image diagnostic and analyzing apparatus for medical purposes; medical testing machines and apparatus, and parts and accessories thereof; blood testing machines and equipment; automatic dispensing apparatus for blood testing purposes; medical apparatus and instruments used for cell culture; apparatus for taking samples limited to those for medical purposes; apparatus for taking blood samples.

Class 12

Automatic guided vehicles for automated warehouse; electric cart; cart for

transporting goods; automatic guided vehicles; self-propelled goods conveying robots for outdoor use, and parts and accessories thereof; towing vehicle, and parts and accessories thereof; ropeways for cargo or freight handling, and parts and accessories thereof; non-electric prime movers for land vehicles, not including their parts; machine element for land vehicles; AC motors or DC motors for land vehicles, not including their parts; rail-mounted unmanned transport device for cargo handling (traverser type); suspended monorail-type transport device for cargo handling.

Class 19

Tar; pitch; bitumen asphalt; materials for making and coating roads; binding material for road repair; asphalt, and asphalt building or construction materials; asphalt; road asphalt; non metallic building mineral materials [unworked or partly worked], non metallic building mineral materials for road construction [unworked or partly worked].

Class 35

Marketing through analyzing big data, data log, or electronic data, consultancy and providing information related thereto; business management analysis or business consultancy and providing information related thereto; business management, consultancy and providing information related thereto; market research or analysis, consultancy and providing information related thereto; providing information relating to retail sale services of goods; business support services to provide analysis of data or statistics, consultancy and providing information related thereto; analysis of business data, consultancy and providing information related thereto; compilation of mathematical or statistical data, consultancy and providing information related thereto; compilation of information into computer databases, consultancy and providing information related thereto; providing business assistance to others in the operation of data processing apparatus namely, computers, typewriters and other similar office machines, consultancy and providing information related thereto; information processing of big data, data logs or electronic data using computers,

consultancy and providing information related thereto; providing business information on the results of processing big data, data logs, or electronic data information using computers; collection and business management of clinical data related to clinical trials of pharmaceutical products at medical institutions, consultancy and providing information related thereto.

Class 37

Machinery installation; electrical apparatus installation; telecommunication wiring; thermal insulating for buildings; drilling work; plumbing; pipe laying work; construction work; road construction; road paving; deteriorated asphalt reclamation coating; installation of telecommunications network systems; repair or maintenance of optical machines and instruments; repair or maintenance of cargo handling machines and apparatus; maintenance and repair of robots for unmanned transport; repair or maintenance of electronic application machinery and equipment; installation, maintenance and repair of computer network equipment and information technology equipment; repair or maintenance of telecommunication machines and apparatus; repair or maintenance of construction machines and apparatus; repair and maintenance of road making equipment; repair and maintenance of road paving machines and apparatus; repair or maintenance of consumer electrical appliances; repair or maintenance of electric motors; repair or maintenance of power distribution or control equipment; repair or maintenance of power generators; repair or maintenance of laboratory apparatus and instruments; repair and maintenance of specimen preparation apparatus other than for medical purposes; repair or maintenance of measuring and testing machines and instruments; repair or maintenance of medical machines and apparatus; repair and maintenance of specimen collection apparatus for medical purposes; repair and maintenance of biochemical analysis device; repair or maintenance of chemical processing machines and apparatus; repair or maintenance of metalworking machines and tools; repair or maintenance of integrated circuit manufacturing equipment; repair or maintenance of

semiconductor manufacturing machines and systems; repair or maintenance of painting machines and apparatus; repair or maintenance of plastic processing machines and apparatus; maintenance and repair of robots for plastic molding machines; maintenance and repair of unloading robots for injection molding machines; repair or maintenance of reclamation equipment for crushed asphalt waste; rental of construction machines and apparatus; rental of road making machines; rental of road paving machines.

Class 42

Designing of machines, apparatus, instruments [including their parts] or systems composed of such machines, apparatus and instruments, consultancy and providing information related thereto; design of telecommunications facilities; design services (other than for advertising purposes), consultancy and providing information related thereto; computer software design, computer programming, or maintenance of computer software, consultancy and providing information related thereto; detection and elimination of viruses and prevention of infection in computers, and detection and elimination of unsolicited e-mails; user authentication for accessing communication network; monitoring by computer programs to ensure security such as prevention of unauthorized intrusion into communication networks; remote monitoring of computer security systems for computer security purposes; remote monitoring of communication network systems for computer security purposes; remote monitoring of computers and computer programs using communication network for computer security purposes; design, programming, or maintenance of computer programs for the protection of systems from unauthorized access and security of computer networks; diagnosis or consulting on countermeasures of computer security for communication network systems; design, programming and maintenance of operating software for accessing and using a cloud computing network; consultancy on design or maintenance of computer programs for systems that function by using robots; installation, updating and maintenance of computer

software, consultancy and providing information related thereto; research and development of computer software, consultancy and providing information related thereto; technical data analysis or electronic storage of big data, consultancy and providing information related thereto; providing technological information on the results of technical data analysis or electronic storage of big data; creating programs for information processing of big data, data logs or electronic data using computers, consultancy and providing information related thereto; technological advice relating to computers, automobiles and industrial machines, consultancy and providing information related thereto; technological advice relating to remote monitoring, research, analysis and consultancy on failures in computer network systems; testing, inspection or research of pharmaceuticals, cosmetics or foodstuffs, consultancy and providing information related thereto; providing information in the field of plant genetics research resources; plant genetics research; research in the field of plant genetic engineering technology, consultancy and providing information related thereto; structural and functional scientific analysis of genomes, consultancy and providing information related thereto; scientific research in the field of genetics and genetic engineering, consultancy and providing information related thereto; consultancy and providing scientific information on genetic analysis; testing or research on electricity, consultancy and providing information related thereto; testing, inspection or research on agriculture, livestock breeding or fisheries, consultancy and providing information related thereto; testing or research on machines, apparatus and instruments, consultancy and providing information related thereto; consultancy relating to technical and scientific analysis and providing information relating thereto; technical measuring and testing services, consultancy and providing information related thereto; preparation of technical reports, consultancy and providing information related thereto; providing technological information; quality control testing and consultancy relating thereto; quality testing of products for certification purposes, consultancy and providing information related thereto; consultancy on information technology and providing information relating thereto;

rental of measuring apparatus, consultancy and providing information related thereto; rental of computers, consultancy and providing information related thereto; providing computer programs on data networks, consultancy and providing information related thereto; rental of laboratory apparatus and instruments, consultancy and providing information related thereto; rental of laboratory apparatus and instruments for genome and gene analysis research, consultancy and providing information related thereto; rental of information processing devices for genome information analysis, consultancy and providing information related thereto; rental of scientific instruments, namely gene analyzers, consultancy and providing information related thereto; rental of biological specimens being genetic resources, consultancy and providing information related thereto; providing information about computer technology and computer programs, via manuals; consultancy on computer technology and computer programs, via manuals; providing online non-downloadable computer software for machine and device emulator and virtualizer; preparation of reagents for pharmaceutical research, consultancy and providing information related thereto.

Class 44

Fertilizer spreading, consultancy and providing information related thereto; cultivation of plants, consultancy and providing information related thereto; plant cultivating management, consultancy and providing information related thereto; weed killing, consultancy and providing information related thereto; vermin exterminating for agriculture, aquaculture, horticulture or forestry, consultancy and providing information related thereto; consultancy and providing information on medical practice; providing medical information; providing information on medical care, medical services and medical facilities; providing information on pharmaceuticals; genetic testing for medical purposes, consultancy and providing information related thereto; providing information on gene therapy; consultancy and information services relating to biopharmaceutical products; behavioral analysis for medical purposes, consultancy and providing information related thereto; dietary and nutritional

guidance, consultancy and providing information related thereto; providing information on nutritional guidance regarding the consumption of healthy foods; nutritional guidance using health foods or nutritional supplements; genetic testing of animals for diagnostic or treatment purposes; rental of farming equipment, consultancy and providing information related thereto; rental of medical apparatus and instruments, consultancy and providing information related thereto; rental of parts for medical apparatus and instruments, consultancy and providing information related thereto.

recording, transmission or reproduction of sound or images relating to the mining industry, metal, gas and oil processing, fuels, energy production; charging stations for electric vehicles; charging cables for electric vehicles; electric vehicle charging piles; electrical cells and batteries; electric battery chargers; electric batteries for vehicles; electric navigational instruments; solar collectors for electricity generation; solar electricity panels; cables for electrical or optical signal transmission; electrical energy utilization metering devices; electric installations for the remote control of industrial operations; electrical apparatus for controlling the pressure and flow of gases; electrical apparatus for monitoring the pressure and flow of gases; electric cables and wires; data processing equipment and computers relating to the mining industry, metal, gas and oil processing, fuels, energy production; software in relation to metals, minerals, fuels, and energy production; facilities management software to control building environmental access and security systems; digital data processing apparatus.

Class 11

Apparatus for the purification of gas; cooling installations for gas; gas burners for industrial purposes; gas recovery apparatus; gas generation furnaces for industrial purposes; regulating apparatus for gas pipe installations; solar energy collectors for heating; solar-powered lamps; solar-powered steam generators; solar powered ventilation apparatus; environmental control apparatus and installations for the purposes of lighting, namely computer controlled lighting apparatus, reflectors for light control, louvres for light control, screens for controlling light, shades for light sources, filters for lighting apparatus, electric discharge tubes for lighting, luminous cables for lighting purposes, solar powered lamps; environmental control apparatus and installations for the purposes of cooling, namely electrically-operated devices used in cooling, electrically powered fans for ventilation purposes, electrically powered air blowers for air-conditioning purposes, solar powered ventilation apparatus; environmental control apparatus and installations for the purposes of

sanitizing, namely ozonizers for sanitizing purposes, air cleaning filters [parts of air cleaning machines or installations], electric air purifiers, electric water purifiers for household purposes, water purifiers for industrial use, electric humidifiers, portable decontamination apparatus, wastewater purification units, water conditioning units; desalination installations; steam heating apparatus for industrial purposes; heating installations for industrial purposes.

Class 35

Business project management services for construction projects; commercial intermediation services; retail services for construction equipment; wholesale services for construction equipment; energy price comparison services; preparation of energy consumption statements; billing services in the field of energy; import-export agencies in the field of energy; procurement of contracts concerning energy supply; procurement services in the nature of purchasing energy supply for others; tracking and monitoring energy consumption for others for account auditing purposes; retail services for metal hardware; wholesale services for metal hardware; retail and wholesale services for non-metallic building materials; retail and wholesale services in relation to aluminium; retail and wholesale services in relation to common metals, unwrought or semi-wrought; retail and wholesale services in relation to alloys of common metal; distributorship services in the field of aluminium; retail and wholesale services in relation to electricity generators; Negotiation and conclusion of commercial transactions for procurement of electricity for third parties; retail services relating to electric charging infrastructures for electric vehicles; business management of infrastructures for electric vehicles; subscription services to electric vehicle charging services; electricity meter reading for billing purposes; arranging subscriptions to electric vehicle charging services; retail and wholesale services for electricity measuring instruments; business management supervision in the field of electric mobility; business project management services in the field of electric mobility; price comparison services relating to gas, electricity and water utilities;

auditing utility rates for others; utility meter reading for billing purposes; retail services relating to electric charging infrastructures for hybrid vehicles; sales promotion and publicity relating to electric vehicle charging services; providing advice in the field of business efficiency; wholesale services for lighting.

Class 36

Energy brokerage services; brokerage of renewable energy credits; brokerage of financial investments in energy companies; brokerage of solar renewable energy credits; consultancy concerning financing of energy projects; agencies for collecting gas or electric power utility payments; arranging finance for construction projects; lease-purchase financing of mobile and modular constructions; real estate affairs relating to industrial premises; real estate management services relating to industrial premises; investment trust services; services of brokers dealing in shares and property.

Class 37

Building and construction services; construction engineering services [construction consultancy]; construction engineering services [construction supervision]; construction project management [construction supervision]; commercial property construction; communications infrastructure construction; construction equipment rental; construction of commercial buildings; construction of industrial plants; construction, repair and maintenance of power plants; construction of energy and power generating installations being structures; construction of solar power plants; construction of wind power plants; construction, maintenance and renovation of public works; power infrastructure construction; provision of construction advice; construction of structures for the production of natural gas; construction of structures for the storage of natural gas; construction of structures for the transportation of natural gas; real estate development [building and construction services]; construction of roads, sewers and water supply systems; construction, repair and

maintenance of heat insulation systems; extraction of natural gas; installation of gas pipelines; gas supply system repair services; installation of gas detection systems; mining extraction, oil and gas drilling; compressed natural gas [CNG] fueling equipment installation, maintenance and repair; installation, maintenance and repair of gas and electricity systems; installation of apparatus for supply and distribution of gas; installation, maintenance and repair of gas, electricity and water supply apparatus; mining of metals; mining of metal ores; mining extraction services; installation, maintenance and repair of apparatus for processing metals; earthworks [excavation] in the field of the mining industry; mining extraction of minerals; construction of residential buildings; servicing and repair of lifting apparatus; construction work relating to the installation and maintenance of electrical systems.

Class 39

Distribution of energy; storage of energy and fuels; information and advisory services in relation to the distribution of energy; providing information on chemical storage of energy via a website; storage, distribution and supply of energy and fuel; supply of electrical energy, gas, water and district heating; leasing the use of power lines to third parties for the transmission of electricity; public utility services in the nature of electricity distribution.

Class 40

Energy generation services; conversion of waste energy into electricity [energy recycling services]; conversion of waste energy into steam [energy recycling services]; leasing of energy generating equipment; processing and transforming of wind energy into electricity; processing and transforming of wave energy into electricity; processing and transforming of geothermal energy into electricity; processing and transforming of solar energy into electricity; processing and transforming of stored wind energy, stored wave energy, stored geothermal energy, stored solar energy into electricity; production of energy by power plants; production

of renewable green energy; consultancy in the field of energy generation; production of electrical energy from renewable sources; production and processing of fuels, of energy from renewable sources and of energy from conventional sources, namely oil, natural gas, coal, nuclear energy; processing of natural gas; gas production services; natural gas liquefaction services; advisory services relating to production of electricity from liquefied natural gas; processing and transforming of mineral resources and of other raw materials, namely caustic soda, calcined coke, bauxite residues, foundry alloys, various metal, and mineral residues; treatment of metals; extrusion of metal alloys; recycling of metals; metal fabrication and finishing services; treatment of common metal materials; processing of earth materials to obtain metals [material processing]; drilling of metals; electro and metal coating, metal treating and casting, hardening of metal and metal products; provision of information in the field of mineral processing; recycling of minerals; sorting of waste and recyclable materials [transformation]; recycling of mineral waste; soil, waste or water treatment services [environmental remediation services]; treatment of waste materials in the field of environmental pollution control; sewage treatment services; water recycling and desalination services.

Class 41

Provision of educational and training services in relation to metals, energy production, minerals, and fuels; arranging and conducting of conferences, seminars, exhibitions and symposiums in relation to metals, energy production, minerals, and fuels; training in the use of construction machinery.

Class 42

Engineering and technological consultancy for metal processing systems; engineering and technical support services for the design and configuration of hardware and software systems for use in metal finishing operations; computer programming for the energy industry; design and development of software for control,

regulation and monitoring of solar energy systems; energy auditing services; energy consultancy in the field of increase savings by improving energy efficiency; design and development of energy distribution networks; development of energy and power management systems; engineering services in the field of energy technology; engineering services relating to energy supply systems; monitoring services relating to energy efficiency performance; professional consultancy in the field of energy saving; rental of meters for the recording of energy consumption; research in the field of renewable energy; design and development of regenerative energy generation systems; energy auditing services relating to electricity and natural gas; technological analysis relating to energy and power needs of others; technological consultancy in the field of alternative energy generation; conducting research and technical project studies relating to the use of natural energy; construction drafting services; construction planning services; construction research services; providing quality assurance in the construction industry; design of solar photovoltaic systems; research and development services relating to solar cells and electricity generation; scientific and industrial research in the field of photovoltaics and solar collectors; technical development of structural elements, devices and systems for solar collectors and photovoltaic plants; mineral exploration services; mineral quality evaluation; scientific research in the field of environmental conservation; technical consulting in the field of environmental engineering; providing technological information about environmentally conscious and green innovations; environmental testing; environmental assessment services; underground utility mapping services.

Class 45

Political lobbying services relating to energy policies; inspection of factories for safety purposes; regulatory compliance auditing; licensing services relating to the manufacture of goods; monitoring services of gas alarm systems for safety purposes; electronic monitoring services for control of building environmental access and security systems; legal research in the field of environmental conservation.

Class 01

Industrial chemicals; raw chemicals; chemicals for use in metalworking; chemicals for use in metal treatment; chemicals for use in treating metal surfaces; chemicals for use in metal plating; chemicals for use in manufacture; metal tempering preparations [tempering chemicals]; alkaline galvanising chemicals for metallic substances; welding chemicals; brazing chemicals; waste treatment chemicals; water treatment chemicals; sewerage water treatment chemicals; waste water treatment chemicals for industrial use; chemicals for treating spent chemicals used in manufacture; chemicals for the manufacture of preparations for preventing corrosion; binding chemicals for concrete; chemicals for use in the gas industry; mixtures of chemicals and microorganisms for fertilizing compost; chemicals for use in the manufacture of solar cells; earth metals; alkaline metals; salts of metals; rare earth metals; alkaline-earth metals; mordants for metals; chemical preservatives for use in the manufacture of corrosion inhibitors for metals; hardening preparations for metals; gases for carbonizing metals; alloys of rare earth metals; salts from rare earth metals; formulations for electroplating metals on substrates; salts of precious metals for industrial purposes; chemical preparations for facilitating the alloying of metals; chemical additives for use in the moulding of metals; chemical additives for use in the casting of metals; chemicals used for plating non-conducting surfaces with metals; metallic oxides; cement [metallurgy]; sands for use in metallurgy; dielectric fluids as a chemical preparation for use in metalworking, except oils; alumina;

bauxite; zinc oxide for use in manufacture; gas purifying preparations; solidified gases for industrial purposes; gases and gas mixtures for use in industry; industrial minerals.

Class 04

Mineral fuels; biomass fuel; gas oil; ethanol [fuel]; gas for lighting; hydrogen fuel; solidified gases [fuel]; vaporized fuel mixtures; electrical energy.

Class 06

Aluminium; aluminium alloys; aluminium foil; aluminium wire; bindings of metal; common metals, unwrought or semi-wrought; alloys of common metal; ores of metal; non-ferrous metal alloys; non-ferrous metals; brass, unwrought or semi-wrought; bronze; balls of steel; wire of common metal; brazing alloys.

Class 07

Electricity generators; mobile electric power generators.

Class 09

Power adaptors; power amplifiers; power cables; power connectors; power controllers; power inverters; power modules; power relays; power testers; power wires; automation systems for power stations; control equipment for power stations; electrical power distribution units; electrical power supplies; portable power chargers; power conditioning apparatus; power generation monitoring apparatus; power regulating apparatus; power system meters; solar-powered battery chargers; mobile power supply [rechargeable batteries]; power distributing apparatus for street lighting; photovoltaic installations for generating electricity [photovoltaic power plants]; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; electricity measuring instruments; apparatus for recording, transmission or reproduction of sound or images relating to the mining industry, metal, gas and oil processing, fuels, energy production; charging stations

for electric vehicles; charging cables for electric vehicles; electric vehicle charging piles; electrical cells and batteries; electric battery chargers; electric batteries for vehicles; electric navigational instruments; solar collectors for electricity generation; solar electricity panels; cables for electrical or optical signal transmission; electrical energy utilization metering devices; electric installations for the remote control of industrial operations; electrical apparatus for controlling the pressure and flow of gases; electrical apparatus for monitoring the pressure and flow of gases; electric cables and wires; data processing equipment and computers relating to the mining industry, metal, gas and oil processing, fuels, energy production; software in relation to metals, minerals, fuels, and energy production; facilities management software to control building environmental access and security systems; digital data processing apparatus.

Class 11

Apparatus for the purification of gas; cooling installations for gas; gas burners for industrial purposes; gas recovery apparatus; gas generation furnaces for industrial purposes; regulating apparatus for gas pipe installations; solar energy collectors for heating; solar-powered lamps; solar-powered steam generators; solar powered ventilation apparatus; environmental control apparatus and installations for the purposes of lighting, namely computer controlled lighting apparatus, reflectors for light control, louvres for light control, screens for controlling light, shades for light sources, filters for lighting apparatus, electric discharge tubes for lighting, luminous cables for lighting purposes, solar powered lamps; environmental control apparatus and installations for the purposes of cooling, namely electrically-operated devices used in cooling, electrically powered fans for ventilation purposes, electrically powered air blowers for air-conditioning purposes, solar powered ventilation apparatus; environmental control apparatus and installations for the purposes of sanitizing, namely ozonizers for sanitizing purposes, air cleaning filters [parts of air cleaning machines or installations], electric air purifiers, electric water purifiers for

household purposes, water purifiers for industrial use, electric humidifiers, portable decontamination apparatus, wastewater purification units, water conditioning units; desalination installations; steam heating apparatus for industrial purposes; heating installations for industrial purposes.

Class 35

Business project management services for construction projects; commercial intermediation services; retail services for construction equipment; wholesale services for construction equipment; energy price comparison services; preparation of energy consumption statements; billing services in the field of energy; import-export agencies in the field of energy; procurement of contracts concerning energy supply; procurement services in the nature of purchasing energy supply for others; tracking and monitoring energy consumption for others for account auditing purposes; retail services for metal hardware; wholesale services for metal hardware; retail and wholesale services for non-metallic building materials; retail and wholesale services in relation to aluminium; retail and wholesale services in relation to common metals, unwrought or semi-wrought; retail and wholesale services in relation to alloys of common metal; distributorship services in the field of aluminium; retail and wholesale services in relation to electricity generators; Negotiation and conclusion of commercial transactions for procurement of electricity for third parties; retail services relating to electric charging infrastructures for electric vehicles; business management of infrastructures for electric vehicles; subscription services to electric vehicle charging services; electricity meter reading for billing purposes; arranging subscriptions to electric vehicle charging services; retail and wholesale services for electricity measuring instruments; business management supervision in the field of electric mobility; business project management services in the field of electric mobility; price comparison services relating to gas, electricity and water utilities; auditing utility rates for others; utility meter reading for billing purposes; retail services relating to electric charging infrastructures for hybrid vehicles; sales

promotion and publicity relating to electric vehicle charging services; providing advice in the field of business efficiency; wholesale services for lighting.

Goods and/or Services:

Class 09

Computer software; computer software relating to the design, calibration, installation, repair and maintenance of engineering testing, authentication and quality control equipment; computer software relating to the design, calibration, installation, repair and maintenance of testing, authentication and quality control equipment in the field of engine and component testing; computer software relating to the design, calibration, installation, repair and maintenance of testing, authentication and quality control equipment in connection with fuel nozzle spray angles and fuel nozzle spray patterns; computer software relating to the design, calibration, installation, repair and maintenance of fuel nozzle flushing, segmentation measurement and proof pressure testing equipment; computer software relating to the design, calibration, installation,

repair and maintenance of testing, authentication and quality control equipment in connection with auxiliary power units; computer software relating to the design, calibration, installation, repair and maintenance of testing, authentication and quality control equipment in connection with engine fuel accessory components; computer software relating to the design, calibration, installation, repair and maintenance of testing, authentication and quality control equipment in connection with airframe hydraulic and accessory components; computer software relating to the design, calibration, installation, repair and maintenance of engine testing trailers, engine testing trolleys, transport and storage trolleys for engines; computer software relating to the design, calibration, installation, repair and maintenance of engine protection and preservation bags, propeller protection and preservation bags; computer software relating to engineering project management services; computer software relating to project management services in connection with the testing, authentication and quality control of engineering equipment; computer software relating to engineering surveying services; computer software relating to surveying services in connection with the testing, authentication and quality control of engineering equipment; computer software relating to preparation of engineering reports; computer software relating to preparation of engineering reports in connection with the testing, authentication and quality control of engineering equipment.

Class 16

Bags [pouches] of plastics for packaging aero-engines; bags [pouches] of plastics for packaging propellers.

Class 37

Installation, repair and maintenance of engineering testing, authentication and quality control equipment; installation, repair and maintenance of testing, authentication and quality control equipment in the field of engine and component testing; installation, repair and maintenance of testing, authentication and quality control equipment in

connection with fuel nozzle spray angles and fuel nozzle spray patterns; installation, repair and maintenance of fuel nozzle flushing, segmentation measurement and proof pressure testing equipment; installation, repair and maintenance of testing, authentication and quality control equipment in connection with auxiliary power units; installation, repair and maintenance of testing, authentication and quality control equipment in connection with engine fuel accessory components; installation, repair and maintenance of testing, authentication and quality control equipment in connection with airframe hydraulic and accessory components; installation, repair and maintenance of engine testing trailers, engine testing trolleys, transport and storage trolleys for engines; installation, repair and maintenance of engine protection and preservation bags, propeller protection and preservation bags; installation, repair and maintenance of moving, handling, lifting and hoisting equipment; advisory services about all of the aforesaid services.

Class 42

Design of testing, authentication and quality control equipment in the field of engine and component testing; design of testing, authentication and quality control equipment in connection with fuel nozzle spray angles and fuel nozzle spray patterns; design of fuel nozzle flushing, segmentation measurement and proof pressure testing equipment; design of testing, authentication and quality control equipment in connection with auxiliary power units; design of testing, authentication and quality control equipment in connection with engine fuel accessory components; design of testing, authentication and quality control equipment in connection with airframe hydraulic and accessory components; design of engine testing trailers, engine testing trolleys, transport and storage trolleys for engines; design of engine protection and preservation bags, propeller protection and preservation bags; design of moving, handling, lifting and hoisting equipment; calibration of testing, authentication and quality control equipment in the field of engine and component testing; calibration of testing, authentication and quality control equipment in connection with fuel nozzle

spray angles and fuel nozzle spray patterns; calibration of fuel nozzle flushing, segmentation measurement and proof pressure testing equipment; calibration of testing, authentication and quality control equipment in connection with auxiliary power units; calibration of testing, authentication and quality control equipment in connection with engine fuel accessory components; calibration of testing, authentication and quality control equipment in connection with airframe hydraulic and accessory components; engineering project management services; project management services in connection with the testing, authentication and quality control of engineering equipment; engineering surveying services; surveying services in connection with the testing, authentication and quality control of engineering equipment; preparation of engineering reports; preparation of reports in connection with the testing, authentication and quality control of engineering equipment; software as a service [saas]; software as a service [saas] relating to the design, calibration, installation, repair and maintenance of engineering testing, authentication and quality control equipment; software as a service [saas] relating to the design, calibration, installation, repair and maintenance of testing, authentication and quality control equipment in the field of engine and component testing; software as a service [saas] relating to the design, calibration, installation, repair and maintenance of testing, authentication and quality control equipment in connection with fuel nozzle spray angles and fuel nozzle spray patterns; software as a service [saas] relating to the design, calibration, installation, repair and maintenance of fuel nozzle flushing, segmentation measurement and proof pressure testing equipment; software as a service [saas] relating to the design, calibration, installation, repair and maintenance of testing, authentication and quality control equipment in connection with auxiliary power units; software as a service [saas] relating to the design, calibration, installation, repair and maintenance of testing, authentication and quality control equipment in connection with engine fuel accessory components; software as a service [saas] relating to the design, calibration, installation, repair and maintenance of testing, authentication and quality control equipment in connection with airframe

hydraulic and accessory components; software as a service [saas] relating to the design, calibration, installation, repair and maintenance of engine testing trailers, engine testing trolleys, transport and storage trolleys for engines; software as a service [saas] relating to the design, calibration, installation, repair and maintenance of engine protection and preservation bags, propeller protection and preservation bags; software as a service [saas] relating to the design, calibration, installation, repair and maintenance of moving, handling, lifting and hoisting equipment; software as a service [saas] relating to engineering project management services; software as a service [saas] relating to project management services in connection with the testing, authentication and quality control of engineering equipment; software as a service [saas] relating to engineering surveying services; software as a service [saas] relating to surveying services in connection with the testing, authentication and quality control of engineering equipment; software as a service [saas] relating to preparation of engineering reports; software as a service [saas] relating to preparation of reports in connection with the testing, authentication and quality control of engineering equipment; IT services; software design, engineering, development, installation and maintenance; design, engineering, development, installation and maintenance of engineering software; design, engineering, development, installation and maintenance of software for the testing, authentication and quality control of engineering equipment; advisory services about all of the aforesaid services.

Installation services for servers for home automation; repair and maintenance work on servers for home automation; installation services for home automation devices; repair and maintenance work on home automation devices; installation services for switches; repair and maintenance work on switches; installation services for magnetic switches; repair and maintenance work on magnetic switches; installation services for wireless switches; repair and maintenance work on wireless switches; installation services for thermomagnetic switches; repair and maintenance work on thermomagnetic switches; installation services for tactile switches; repair and maintenance work on tactile switches; installation services for electromagnetic switches; repair and maintenance work on electromagnetic switches; installation services for timer switches; repair and maintenance work on timer switches; installation services for rocker switches; repair and maintenance work on rocker switches; installation services for electric switches; repair and maintenance work on electric switches; installation services for differential switches; repair and maintenance work on differential switches; installation services for sensor switches; repair and maintenance work on sensor switches; installation services for telecommunication switches; repair and maintenance work on telecommunications switches; installation services for rotary switches (electric); repair and maintenance work on rotary switches (electric); installation services for tactile switches [electric];

repair and maintenance work on tactile switches [electric]; installation services for electric breakers [switches]; repair and maintenance work on electric breakers [switches]; installation services for limit switches; repair and maintenance work on limit switches; installation services for level switches; repair and maintenance work on level switches; installation services for pressure switches; repair and maintenance work on pressure switches; installation services for switches for lighting; repair and maintenance work on switches for lighting; installation services for current switches; repair and maintenance work on current switches; installation services for temperature switches; repair and maintenance work on temperature switches; installation services for loudspeaker switches; repair and maintenance work on loudspeaker switches; installation services for electric switches; repair and maintenance work on electric switches; installation services for rotary switches (electrically operated); repair and maintenance work on rotary switches (electrically operated); installation services for electric switch frames; repair and maintenance work on electric switch frames; installation services for toggle switches [electric]; repair and maintenance work on toggle switches [electric]; installation services for multiple remote switches; repair and maintenance work on multiple remote switches; installation services for high-frequency switches; repair and maintenance work on high-frequency switches; installation services for foil switches (electric); repair and maintenance work on foil switches (electric); installation services for electric circuit switches; repair and maintenance work on electric circuit switches; installation services for mechanical contact switches; repair and maintenance work on mechanical contact switches; installation services for electric switch boxes; repair and maintenance work on electric switch boxes; installation services for switches for electric lamps; repair and maintenance work on switches for electric lamps; installation services for basic switch frames [electronic]; repair and maintenance work on basic switch frames [electronic]; installation services for special decorative plates for switches; repair and maintenance work on special decorative plates for switches; installation services for liquid level switches; repair and maintenance work

on liquid level switches; installation services for fault voltage switches; repair and maintenance work on fault voltage switches; installation services for fault current switches; repair and maintenance work on fault current switches; installation services for electric switches for lighting; repair and maintenance work on electric switches for lighting; installation services for rotary switches for adjusting cams; repair and maintenance work on rotary switches for adjusting cams; installation services for dimmer switches; repair and maintenance work on dimmer switches; installation services for electronic switches with motion detection; repair and maintenance work on electronic switches with motion detection; installation services for accessories for wall lights [switches]; repair and maintenance work on accessories for wall lights [switches]; installation services for temperature control apparatus [electric switches]; repair and maintenance work on temperature control apparatus [electric switches]; installation services for temperature control apparatus [electric switches] for machines; repair and maintenance work on temperature control apparatus [electric switches] for machines; installation services for commutators (switches); repair and maintenance work on commutators (switches); installation services for optical switches; repair and maintenance work on optical switches; installation services for switches [electric]; repair and maintenance work on switches [electric]; installation services for electromagnetic switches; repair and maintenance work on electromagnetic switches; installation services for sensor switches; repair and maintenance work on sensor switches; installation services for household switches [electric]; repair and maintenance work on household switches [electric]; installation services for data switches; repair and maintenance work on data switches; installation services for current switches; repair and maintenance work on current switches; installation services for electric commutator panels; repair and maintenance work on electric commutator panels; installation services for hook switches; repair and maintenance work on hook switches; installation services for branch switches; repair and maintenance work on branch switches; installation services for cut-off switches; repair and maintenance work on cut-off switches;

installation services for Ethernet switches; repair and maintenance work on Ethernet switches; installation services for push button switches (electric); repair and maintenance work on push button switches (electric); installation services for electric turn signal switches; repair and maintenance work on electric turn signal switches; installation services for electric switch cabinets; repair and maintenance work on electric switch cabinets; installation services for automatic transfer switches; repair and maintenance work on automatic transfer switches; installation services for switch panels [electric]; repair and maintenance work on switch panels [electric]; installation services for electric timer switches; repair and maintenance work on electric timer switches; installation services for electric current switches; repair and maintenance work on electric current switches; installation services for electric switches for lighting; repair and maintenance work on electric switches for lighting; installation services for moisture regulator switches; repair and maintenance work on moisture regulator switches; installation services for automatic switches (for telecommunications); repair and maintenance work on automatic switches (for telecommunications); installation services for network switches for computers; repair and maintenance work on network switches for computers; installation services for switches [for telecommunication apparatus]; repair and maintenance work on switches [for telecommunication apparatus]; installation services for touch-sensitive electronic switches; repair and maintenance work on touch-sensitive electronic switches; installation services for switches for routing audio, video and digital signals; repair and maintenance work on switches for routing audio, video and digital signals; installation services for home automation systems; repair and maintenance work on home automation systems; installation services for apparatus for increasing energy efficiency; repair and maintenance work on apparatus for increasing energy efficiency; installation services for electric and electronic components; repair and maintenance work on electric and electronic components; installation services for audio adapters; repair and maintenance work on audio adapters; installation services for electronic control mechanisms [electric ballasts] for LED lamps and light fixtures;

repair and maintenance work on electronic control mechanisms [electric ballasts] for LED lamps and light fixtures; installation services for instruments for temperature control; repair and maintenance work on instruments for temperature control; installation services for electronic synchronization control instruments; repair and maintenance work on electronic synchronization control instruments; installation services for temperature control instruments [thermostats]; repair and maintenance work on temperature control instruments [thermostats]; installation services for electric installations for the remote control of industrial operations; repair and maintenance work on electric installations for the remote control of industrial operations; installation services for electric control installations; repair and maintenance work on electric control installations; installation services for energy control devices; repair and maintenance work on energy control devices; installation services for remote electric igniting devices; repair and maintenance work on remote electric igniting devices; installation services for electric connection panels; repair and maintenance work on electric connection panels; installation services for thermal circuit breakers; repair and maintenance work on thermal circuit breakers; installation services for thermal controls [thermostats]; repair and maintenance work on thermal controls [thermostats]; installation services for thermal controls; repair and maintenance work on thermal controls; installation services for receivers for remote controls; repair and maintenance work on receivers for remote controls; installation services for universal remote controls; repair and maintenance work on universal remote controls; installation services for thermostats; repair and maintenance work on thermostats; installation services for room thermostats; repair and maintenance work on room thermostats; installation services for digital climate control thermostats; repair and maintenance work on digital climate control thermostats; installation services for electric thermostats; repair and maintenance work on electric thermostats; installation services for remote controllers for controlling electronic products; repair and maintenance work on remote controllers for controlling electronic products; installation services for thermostatic controllers; repair and

maintenance work on thermostatic controllers; installation services for industrial automation controls; repair and maintenance work on industrial automation controls; installation services for stage lighting controls; repair and maintenance work on stage lighting controls; installation services for smart manufacturing system controls; repair and maintenance work on smart manufacturing system controls; installation services for electric controls; repair and maintenance work on electric controls; installation services for industrial controls incorporating software; repair and maintenance work on industrial controls incorporating software; installation services for programmable controls for lighting apparatus and instruments; repair and maintenance work on programmable controls for lighting apparatus and instruments; installation services for remote controls; repair and maintenance work on remote controls; installation services for remote controls for household use; repair and maintenance work on remote controls for household use; installation services for wireless remote controls for portable electronic devices and computers; repair and maintenance work on wireless remote controls for portable electronic devices and computers; installation services for remote controls for operating vehicle alarms; repair and maintenance work on remote controls for operating vehicle alarms; installation services for remote controls for mobile electronic devices; repair and maintenance work on remote controls for mobile electronic devices; installation services for remote controls for audiovisual equipment; repair and maintenance work on remote controls for audiovisual equipment; installation services for remote controls for window shades; repair and maintenance work on remote controls for window shades; installation services for remote controls for motors; repair and maintenance work on remote controls for motors; installation services for remote controls for projectors; repair and maintenance work on remote controls for projectors; installation services for remote controls for multimedia systems; repair and maintenance work on remote controls for multimedia systems; installation services for sound-sensitive controls for lighting apparatus and instruments; repair and maintenance work on sound-sensitive controls for lighting apparatus and instruments; installation services for

programmable controllers; repair and maintenance work on programmable controllers; installation services for digital electronic controllers; repair and maintenance work on digital electronic controllers; installation services for electronic controllers; repair and maintenance work on electronic controllers; installation services for sensor controllers; repair and maintenance work on sensor controllers; installation services for remote control apparatus; repair and maintenance work on remote control apparatus; installation services for thermostatic control apparatus; repair and maintenance work on thermostatic control apparatus; installation services for heat regulating apparatus; repair and maintenance work on heat regulating apparatus; installation services for electronic apparatus for remote control of signals; repair and maintenance work on electronic apparatus for remote control of signals; installation services for electric control apparatus; repair and maintenance work on electric control apparatus; installation services for electric apparatus for controlling robots; repair and maintenance work on electric apparatus for controlling robots; installation services for electric remote control apparatus; repair and maintenance work on electric remote control apparatus; installation services for pneumatic control apparatus; repair and maintenance work on pneumatic control apparatus; installation services for electrical energy controllers; repair and maintenance work on electrical energy controllers; installation services for electrical process controllers; repair and maintenance work on electrical process controllers; installation services for infrared remote control apparatus; repair and maintenance work on infrared remote control apparatus; installation services for remote control apparatus for air conditioning installations; repair and maintenance work on remote control apparatus for air conditioning installations; installation services for remote control apparatus for controlling lighting; repair and maintenance work on remote control apparatus for controlling lighting; installation services for programmable control apparatus; repair and maintenance work on programmable control apparatus; installation services for control apparatus for lighting; repair and maintenance work on control apparatus for lighting; installation services for numerical control apparatus; repair and maintenance

work on numerical control apparatus; installation services for electric control apparatus; repair and maintenance work on electric control apparatus; installation services for monitoring control apparatus [electric]; repair and maintenance work on monitoring control apparatus [electric]; installation services for variable speed control apparatus; repair and maintenance work on variable speed control apparatus; installation services for time control apparatus; repair and maintenance work on time control apparatus; installation services for temperature control apparatus for machines [thermostats]; repair and maintenance work on temperature control apparatus for machines [thermostats]; installation services for automatic control apparatus; repair and maintenance work on automatic control apparatus; installation services for sound activated control apparatus for lighting installations; repair and maintenance work on sound activated control apparatus for lighting installations; installation services for temperature controller apparatus for machines; repair and maintenance work on temperature controller apparatus for machines; installation services for valve actuators [electric controls]; repair and maintenance work on valve actuators [electric controls]; installation services for electronic surveillance apparatus; repair and maintenance work on electronic surveillance apparatus; installation services for electric and electronic security apparatus and instruments; repairs and maintenance work for electric and electronic security apparatus and instruments; installation services for security control apparatus; repair and maintenance work on security control apparatus; installation services for remote alarms [except those against vehicle theft]; repair and maintenance work on remote alarms [except those against vehicle theft]; installation services for acoustic (sound) alarms; repair and maintenance work on acoustic (sound) alarms; installation services for acoustic (sound) alarms, other than for vehicles; repair and maintenance work on acoustic (sound) alarms, other than for vehicles; installation services for electronic anti-theft alarms; repair and maintenance work on electronic anti-theft alarms; installation services for smoke alarms; repair and maintenance work on smoke alarms; installation services for natural gas alarms; repair and maintenance work on natural

gas alarms; installation services for water leakage detection alarms; repair and maintenance work on water leakage detection alarms; installation services for warning alarms [other than those used for vehicles]; repair and maintenance work on warning alarms [other than those used for vehicles]; installation services for fire alarms; repair and maintenance work on fire alarms; installation services for central alarms; repair and maintenance work on central alarms; installation services for electronic anti-theft alarms; repair and maintenance work on electronic anti-theft alarms; installation services for anti-theft alarms [other than for vehicles]; repair and maintenance work on anti-theft alarms [other than for vehicles]; installation services for anti-theft alarms; repair and maintenance work on anti-theft alarms; installation services for pool alarms; repair and maintenance work on pool alarms; installation services for security alarms; repair and maintenance work on security alarms; installation services for electric fire alarms; repair and maintenance work on electric fire alarms; installation services for electric smoke alarms; repair and maintenance work on electric smoke alarms; installation services for electric and electronic anti-theft alarms; repair and maintenance work on electric and electronic anti-theft alarms; installation services for alarms for detecting flammable gases; repair and maintenance work on alarms for detecting flammable gases; installation services for alarm panels; repair and maintenance work on alarm panels; installation services for alarm instruments; repair and maintenance work on alarm instruments; installation services for electronic anti-theft device; repair and maintenance work on electronic anti-theft device; installation services for electric smoke detectors; repair and maintenance work on electric smoke detectors; installation services for flame detectors; repair and maintenance work on flame detectors; installation services for fire detectors; repair and maintenance work on fire detectors; installation services for gas detectors; repair and maintenance work on gas detectors; installation services for warning indicator apparatus [other than for vehicles]; repair and maintenance work on warning indicator apparatus [other than for vehicles]; installation services for security surveillance apparatus; repair and maintenance work on security

surveillance apparatus; installation services for intruder identification apparatus [other than those used for vehicles]; repair and maintenance work on intruder identification apparatus [other than those used for vehicles]; installation services for security warning apparatus; repair and maintenance work on security warning apparatus; installation services for anti-theft alarm apparatus [other than those used for vehicles]; repair and maintenance work on anti-theft alarm apparatus [other than those used for vehicles]; installation services for alarm apparatus [other than for vehicles]; repair and maintenance work on alarm apparatus [other than for vehicles]; installation services for vibrating alarms to remember medication; repair and maintenance work on vibrating alarms to remember medication; installation services for alarm signal transmitters; repair and maintenance work on alarm signal transmitters; installation services for metal bells for alarms; repair and maintenance work on metal bells for alarms; installation services for electronic warning bells; repair and maintenance work on electronic warning bells; installation services for electric alarm bells; repair and maintenance work on electric alarm bells; installation services for alarm bells; repair and maintenance work on alarm bells; installation services for bells [alarm apparatus]; repair and maintenance work on bells [alarm apparatus]; installation services for numeric keypads for security alarms; repair and maintenance work on numeric keypads for security alarms; installation services for special decorative covers for smoke detectors; repair and maintenance work on special decorative covers for smoke detectors; installation services for alarm control systems; repair and maintenance work on alarm control systems; installation services for alarm systems for gas leaks; repair and maintenance work on alarm systems for gas leaks; installation services for security alarm systems [other than for vehicles]; repair and maintenance work on security alarm systems [other than for vehicles]; installation services for alarm systems; repair and maintenance work on alarm systems; installation services for flame sensors; repair and maintenance work on flame sensors; installation services for microwave-type intruder sensors; repair and maintenance work on microwave-type intruder sensors; installation services for

fire sensors; repair and maintenance work on fire sensors; installation services for electric current sensors; repair and maintenance work on electric current sensors; installation services for alarm sensors; repair and maintenance work on alarm sensors; installation services for automatic access control units; repair and maintenance work on automatic access control units; installation services for electronic key cards; repair and maintenance work on electronic key cards; installation services for magnetically encoded key cards; repair and maintenance work on magnetically encoded key cards; installation services for access control cards [encoded or magnetic]; repair and maintenance work on access control cards [encoded or magnetic]; installation services for encoded access cards; repair and maintenance work on encoded access cards; installation services for electronic entry systems; repair and maintenance work on electronic entry systems; installation services for electronic access control systems for buildings; repair and maintenance work on electronic access control systems for buildings; installation services for electric access control systems; repair and maintenance work on electric access control systems; installation services for electronic access control systems for interlocking doors; repair and maintenance work on electronic access control systems for interlocking doors; installation services for automatic access control systems; repair and maintenance work on automatic access control systems; installation services for electronic lock systems; repair and maintenance work on electronic lock systems; installation services for biometric voice recognition systems; repair and maintenance work on biometric voice recognition systems; installation services for biometric access control systems; repair and maintenance work on biometric access control systems; installation services for wireless locking mechanisms; repair and maintenance work on wireless locking mechanisms; installation services for smart locks; repair and maintenance work on smart locks; installation services for mechanical locks [electric, metal]; repair and maintenance work on mechanical locks [electric, metal]; installation services for metal locks [electric]; repair and maintenance work on metal locks [electric]; installation services

for door locks for reading fingerprints; repair and maintenance work on door locks for reading fingerprints; installation services for radio frequency-controlled locks; repair and maintenance work on radio frequency-controlled locks; installation services for mechanical dial locks [electric]; repair and maintenance work on mechanical dial locks [electric]; installation services for card-operated electronic locks; repair and maintenance work on card-operated electronic locks; installation services for mechanical locks [electric, non-metallic]; repair and maintenance work on mechanical locks [electric, non-metallic]; installation services for electric lock assemblies; repair and maintenance work on electric lock assemblies; installation services for wireless lock assemblies; repair and maintenance work on wireless lock assemblies; installation services for radio-operated door blocking controls; repair and maintenance work on radio-operated door blocking controls; installation services for safety closure devices [electric]; repair and maintenance work on safety closure devices [electric]; installation services for releasable locking devices [electric]; repair and maintenance work on releasable locking devices [electric]; installation services for remote control apparatus for opening and closing doors; repair and maintenance work on remote control apparatus for opening and closing doors; installation services for central door locking apparatus; repair and maintenance work on central door locking apparatus; installation services for automatic access security apparatus; repair and maintenance work on automatic access security apparatus; installation services for electric access security apparatus; repair and maintenance work on electric access security apparatus; installation services for apparatus for verifying data stored on magnetically encoded cards; repair and maintenance work on apparatus for verifying data stored on magnetically encoded cards; installation services for electric access control apparatus; repair and maintenance work on electric access control apparatus; installation services for electric locks; repair and maintenance work on electric locks; installation services for electronic locks; repair and maintenance work on electronic locks; installation services for electromagnetic locks; repair and maintenance work on electromagnetic locks; installation services

for smart door locks; repair and maintenance work on smart door locks; installation services for digital door locks; repair and maintenance work on digital door locks; installation services for wireless locks; repair and maintenance work on wireless locks; installation services for electrical power supply sockets; repair and maintenance work on electrical power supply sockets; installation services for telephone sockets; repair and maintenance work on telephone sockets; installation services for electrical sockets; repair and maintenance work on electrical sockets; installation services for outlets; repair and maintenance work on outlets; installation services for electric outlet boxes; repair and maintenance work on electric outlet boxes; installation services for electric outlet plates; repair and maintenance work on electric outlet plates; installation services for remote-controlled sockets; repair and maintenance work on remote-controlled sockets; installation services for safety sockets; repair and maintenance work on safety sockets; installation services for relay sockets; repair and maintenance work on relay sockets; installation services for power plugs; repair and maintenance work on power plugs; installation services for electric plugs; repair and maintenance work on electric plugs; installation services for female sockets; repair and maintenance work on female sockets; installation services for electric sensors; repair and maintenance work on electric sensors; installation services for sensors; repair and maintenance work on sensors; installation services for photoelectric sensors; repair and maintenance work on photoelectric sensors; installation services for electronic sensors; repair and maintenance work on electronic sensors; installation services for proximity sensors; repair and maintenance work on proximity sensors; installation services for humidity sensors; repair and maintenance work on humidity sensors; installation services for distance sensors; repair and maintenance work on distance sensors; installation services for gas sensors; repair and maintenance work on gas sensors; installation services for electro-optical sensors; repair and maintenance work on electro-optical sensors; installation services for thermal sensors [thermostats]; repair and maintenance work on thermal sensors [thermostats]; installation services for digital

sensors; repair and maintenance work on digital sensors; installation services for touch screen sensors; repair and maintenance work on touch screen sensors; installation services for presence sensors; repair and maintenance work on presence sensors; installation services for temperature sensors; repair and maintenance work on temperature sensors; installation services for smoke sensors; repair and maintenance work on smoke sensors; installation services for heat sensors; repair and maintenance work on heat sensors; installation services for pressure sensors; repair and maintenance work on pressure sensors; installation services for light sensors; repair and maintenance work on light sensors; installation services for electronic measuring sensors; repair and maintenance work on electronic measuring sensors; installation services for electric smoke sensors; repair and maintenance work on electric smoke sensors; installation services for passive infrared sensors; repair and maintenance work on passive infrared sensors; installation services for air temperature sensors; repair and maintenance work on air temperature sensors; installation services for LED position sensors; repair and maintenance work on LED position sensors; installation services for monitoring sensors, detectors and instruments; repair and maintenance work on monitoring sensors, detectors and instruments; installation services for air quality sensors; repair and maintenance work on air quality sensors; installation services for touch sensors with projected capacitive technology; repair and maintenance work on touch sensors with projected capacitive technology; installation services for Internet of Things [IoT] sensors; repair and maintenance work on Internet of Things [IoT] sensors; installation services for door opening and closing detection sensors; repair and maintenance work on door opening and closing detection sensors; installation services for window opening and closing detection sensors; repair and maintenance work on window opening and closing detection sensors; installation services for apparatus for monitoring electrical energy consumption; repair and maintenance work on apparatus for monitoring electrical energy consumption; installation services for fire alarms; repair and maintenance work on fire alarms; installation services for fire alarms; repair and

maintenance work on fire alarms; installation services for electric alarms; repairs and maintenance work for electric alarms; installation services for sound alarms; repair and maintenance work on sound alarms; installation services for touch screens [electronic]; repair and maintenance work on touch screens [electronic]; installation services for computer touch screens; repair and maintenance work on computer touch screens; installation services for electric push buttons; repair and maintenance work on electric push buttons; installation services for push buttons for bells; repair and maintenance work on push buttons for bells; installation services for push button panels (electric); repair and maintenance work on push button panels (electric); installation services for push buttons boxes (electric); repair and maintenance work on push buttons boxes (electric); installation services for manual fire alarm push buttons; repair and maintenance work on manual fire alarm push buttons; installation services for linear actuators [electric]; repair and maintenance work on linear actuators [electric]; installation services for lighting regulators; repair and maintenance work on lighting regulators; installation services for LCD screens; repair and maintenance work on LCD screens; installation services for electronic displays; repair and maintenance work on electronic displays; installation services for display screens; repair and maintenance work on display screens; installation services for touch-sensitive electronic displays; repair and maintenance work on touch-sensitive electronic displays; installation services for devices for access control; repair and maintenance work on devices for access control; installation services for electronic power supplies; repair and maintenance work on electronic power supplies; installation services for electric power supplies; repair and maintenance work on electric power supplies; installation services for direct current power supplies; repair and maintenance work on direct current power supplies; installation services for low voltage power supplies; repair and maintenance work on low voltage power supplies; installation services for transformers; repair and maintenance work on transformers; installation services for current transformers; repair and maintenance work on current transformers; installation services for communication interface units; repair and

maintenance work on communication interface units; installation services for dew sensors; repair and maintenance work on dew sensors; installation services for optical sensors; repair and maintenance work on optical sensors; installation services for pollutant sensors; repair and maintenance work on pollutant sensors; installation services for vibration sensors; repair and maintenance work on vibration sensors; installation services for infrared active sensors; repair and maintenance work on infrared active sensors; installation services for connecting and disconnecting sensors; repair and maintenance work on connecting and disconnecting sensors; installation services for object detecting sensors; repair and maintenance work on object detecting sensors; installation services for remote temperature sensors; repair and maintenance work on remote temperature sensors; installation services for detectors; repair and maintenance work on detectors; installation services for infrared detectors; repair and maintenance work on infrared detectors; installation services for magnetic detectors; repair and maintenance work on magnetic detectors; installation services for leak detectors; repair and maintenance work on leak detectors; installation services for motion detectors; repair and maintenance work on motion detectors; installation services for motion detectors; repair and maintenance work on motion detectors; installation services for voltage detectors; repair and maintenance work on voltage detectors; installation services for smoke detectors; repair and maintenance work on smoke detectors; installation services for proximity detectors; repair and maintenance work on proximity detectors; installation services for passive infrared detectors; repair and maintenance work on passive infrared detectors; installation services for smoke detector apparatus; repair and maintenance work on smoke detector apparatus; installation services of electronic interface apparatus for use with detectors; repair and maintenance of electronic interface apparatus for use with detectors; installation services of electronic interface apparatus for use with audio equipment; repair and maintenance of electronic interface apparatus for use with audio equipment; installation services for thermistor probes; repair and maintenance work on thermistor probes; installation

services for electric contacts; repair and maintenance work on electric contacts; installation services for mass flow sensors; repair and maintenance work on mass flow sensors; installation services for network routers; repair and maintenance work on network routers; installation services for computer network routers; repair and maintenance work on computer network routers; installation services for routers for routing audio, video and digital signals; repair and maintenance work on routing audio, video and digital signals; installation services for video door phone apparatus; repair and maintenance work on video door phone apparatus; installation services for tags with integrated RFID chips; repair and maintenance work on tags with integrated RFID chips; installation services for card readers; repair and maintenance work on card readers; installation services for smart card readers; repair and maintenance work on smart card readers; installation services for card reading equipment; repair and maintenance work on card reading equipment; installation services for electronic card readers; repair and maintenance work on electronic card readers; installation services for chip card readers; repair and maintenance work on chip card readers; installation services for radio-frequency identification readers; repair and maintenance work on radio-frequency identification readers; installation services for biometric digital fingerprint readers; repair and maintenance work on biometric digital fingerprint readers; installation services for electronic relays; repair and maintenance work on electronic relays; installation services for electric relays; repair and maintenance work on electric relays; installation services for electric relays; repair and maintenance work on electric relays; installation services for safety relays [electric]; repair and maintenance work on safety relays [electric]; installation services for safety relays [electrical energy]; repair and maintenance work on safety relays [electric energy]; installation services for safety relays [electrically operated]; repair and maintenance work on safety relays [electrically operated]; installation services for plug connectors; repair and maintenance work on plug connectors; installation services for connectors (male sockets and female sockets); repair and maintenance work on connectors (male sockets and female sockets); installation

services for electric plugs and connectors; repair and maintenance work on electric plugs and connectors; installation services for connectors (electric plugs and connectors); repair and maintenance work on connectors (electric plugs and connectors); installation services for proximity switches; repair and maintenance work on proximity switches.

Goods and/or Services:

Class 01

Chemical, biochemical, and biotechnological products for commercial, industrial, and scientific purposes, in particular, diagnostic preparations except for human or veterinary medical purposes; non-medical reagents, enzymes, and buffer solutions for scientific research purposes for sample preparation, modification and manipulation of cells, and for labelling, separating, isolating, purifying, enhancing, sequencing, and/or for analysis of biopolymers, in particular nucleic acids, macromolecules, and biologically active substances, especially, reagents, enzymes, and buffer solutions for nucleic acid amplification; molecular diagnostic testing equipment in the form of diagnostic reagents with diagnostic substances, other than for medical or veterinary purposes; diagnostic preparations sold as kits, other than for medical or veterinary purposes; diagnostic reagents for the analysis of nucleic acids and proteins.

Class 07

Machines for treatment of materials and for manufacturing for the pharmaceutical industry; machine tools for the pharmaceutical industry; industrial robots.

Class 09

Measurement devices; measurement instruments, in particular, electrical, electronic, or optical measurement devices and instruments, especially, with integrated sample

measurement; electrical, electronic, or optical weighing and monitoring, controlling and regulating apparatus, devices, and instruments; scientific apparatus and instruments for research in laboratories and as laboratory devices; laboratory machines; optical glass; optical data media; optical and photoelectric sensors; computer programmes [programs], recorded; software for measurement instruments; devices for data acquisition, processing, storage, and output, as well as associated data processing programs; peripheral devices for data processing apparatus and computers included in this class; software for implementing, evaluating, and presenting chemical and biochemical analysis, processes, and process controls; material testing instruments and machines; measurement and navigation devices; optical devices for measuring and evaluating images; devices for sample designation and identification (laboratory devices); DNA chips; spectroscopic and photometric analytical devices; analytical and diagnostic devices not for medical purposes; analytical devices for analysis and for automatic determination of sum parameters; laboratory devices for plasma analysis; components and accessories of laboratory machines; laboratory devices for membrane drying for the purpose of water compensation, and with aerosol traps for purification purposes for particle removal and automatic monitoring function via overpressure monitoring, existing in analytical devices, not for medical purposes; laboratory machines for the automation of movement processes for the automation of a sample insertion and/or volume transfer; laboratory machines for purification/isolation, magnetic separators for DNA isolation from samples for scientific purposes; laboratory machines for preparation of the samples for digestion for scientific purposes; laboratory machines for rapid temperature change or for tempering, especially at temperatures for cultivation of microorganisms for scientific purposes.

Class 10

Medical diagnosis devices; medical instruments and apparatus; analytical devices for medical purposes; apparatus and instruments for use in diagnosis, in particular

ultraviolet ray lamps for medical purposes, filters for ultraviolet rays for medical purposes.

Class 37

Repair, installation and maintenance services in relation to measurement devices, measurement instruments, optical instruments, weighing instruments, monitoring instruments, controlling instruments, regulating apparatus, scientific apparatus, laboratory devices, and installations consisting of the aforementioned apparatuses, devices and instruments.

Class 41

Arrangement and conducting of seminars in the field of analytical measurement technology, molecular biology, liquid handling and laboratory automation technology, instrumentation for chemical analysis and instrumentation for laboratory purposes; arrangement and conducting of workshops in the field of analytical measurement technology, molecular biology, liquid handling and laboratory automation technology, instrumentation for chemical analysis and instrumentation for laboratory purposes.

Class 42

Scientific and technological services and research works; technical inspection and monitoring services for quality control, in particular in relation to measurement devices, measurement instruments, in particular, electrical, electronic, or optical measurement devices and instruments, especially with integrated sample measurement, and electrical, electronic, or optical weighing and monitoring, controlling and regulating apparatus, devices, and instruments, and scientific apparatus and instruments for research in laboratories and as laboratory devices, and installations and facilities consisting of the aforementioned apparatuses, devices and instruments; engineering services; design and development of computer software; creation of programs for data processing; technological consulting in the production of diagnostic agents and in the production of analytical and diagnostic

devices; implementation of chemical analyses; chemical laboratory services; scientific and technological services for material and substance testing; industrial analysis and research services; repair, installation, and maintenance of software for administration of physical data, analysis data, measurement data, medical data; installation and maintenance of software for measurement or testing machines and instruments.
