Radio broadcasting; Transmission of news; Message sending; Radio communications; Wireless broadband communication services; Digital network telecommunications services; Signal transmission for electronic commerce via telecommunication systems and data communication systems; Transmission and receiving by radio; Wireless digital messaging services; Broadband radio communication services; Providing user access to a global computer network; Telecommunications information; Transfer of data by telecommunications; Communications via multinational telecommunication networks; Rental of communications equipment; Mobile communication; Telephone communication; Providing internet chatrooms; Video conferencing services; Computer aided transmission of messages and images; Network transmission of sounds, images, signals and data; Providing telecommunications connections to the internet or databases; Providing access to websites on the Internet or any other communications network; Provision of electronic communication links; Providing online forums.

CLASS 41

Educational services; Instruction services; Training in the field of communication technologies; Providing information in the field of education; Training of car drivers; Educational assessment services; Analysing educational test scores and data for others; Conducting of educational conferences; Arranging and conducting of colloquiums; Arranging and conducting of entertainment events; Book rental; Providing online electronic publications, not downloadable; Layout services, other than for advertising purposes; Publication of the editorial content of sites accessible via a global computer network; Publication of texts, other than publicity texts; Publication of books; Providing online videos, not downloadable; Providing online images, not downloadable; Video editing services for events; Photography; Translation; Providing on-line computer games; Entertainment services; Providing sports facilities; Providing online virtual guided tours.

CLASS 42

Technological research; Technical project studies; Information technology [IT] consultancy; Research and development of new products for others; Quality assessment; Quality control; Testing services for the certification of quality or standards; Quality testing; Cloud computing; Software as a service [SaaS]; Platform as a service [PaaS]; Computer software design; Computer software development; Updating of computer software; Maintenance of computer software; Installation, repair and maintenance of computer software; Testing of computer software; Computer software consultancy; Design, development and research in the field of multimedia devices; Design, development and research in the field of computers, computer hardware and software.

HUAWEI TECHNOLOGIES CO., LTD. ; Huawei Administration Building, Bantian, Longgang District, Shenzhen, Guangdong, 518129, CHINA

AGENT : Goh Mei Ling, Henry Goh & Co. Sdn. Bhd.; VO2-10-06 Lingkaran SV, Sunway Velocity, Jalan Peel, 55100 Kuala Lumpur

MONEYX**CLASS : 9**

TM2023021531 25 July 2023

Registration of this trademark shall give no right to the exclusive use of the word "money" and "x"

Mobile software used in the field of financial services; Downloadable mobile apps; Downloadable software applications [apps]; Computer software used in the field of financial services; Computer software in the form of an app for mobile devices and computers; Application programming interface for on-line banking payment; Computer communication software to allow customers to access bank account information and transact bank business; Machine learning software for finance; Downloadable electronic wallets; Digital and virtual currency wallets; Computer software for blockchain mobile applications and wallets; Data processing equipment; Computer software for accessing databases; Computer software for data processing; Computer software for processing information.

HEXTAR VISION SDN BHD ; No 64, Jalan Bayu Laut 4/Ks09, Kota Bayuemas, 41200 Klang, Selangor, MALAYSIA

AGENT : Yip Jiun Hann, TRADEMARK2U Sdn Bhd No. 1, Block C, Jalan Dataran SD 1 Dataran SD PJU 9, Bandar Sri Damansara, 52200 Kuala Lumpur

**CLASS : 9,42**

TM2023029708 2 October 2023

Advertisement of a series of two trade marks

The first trademark in the series is limited to the colours as shown in the representation on the form of application.

CLASS 9

Centralized monitoring and control equipment for air conditioning installations and equipment, lighting equipment, security equipment, alarms, and electricity meters located in buildings; Application software for use with computers, smartphones and tablet computers (downloadable), which enables remote monitoring and operation of centralized monitoring and control equipment for air conditioning installations and equipment, lighting equipment, security equipment, alarms, and electricity meters located in buildings.

CLASS 42

Providing temporary use of non-downloadable software applications accessible via a web site, which enables remote monitoring and operation of centralized monitoring and control equipment for air conditioning installations and equipment, lighting equipment, security equipment, alarms, and electricity meters located in buildings.

DAIKIN INDUSTRIES, LTD. ; Osaka Umeda Twin Towers South, 1-13-1, Umeda, Kita-ku, Osaka-Shi, Osaka, 530-0001, JAPAN

AGENT : Goh Joo Seong, Cheang & Ariff, Loke Mansion, 273A Jalan Medan Tuanku, 50300 Kuala Lumpur

CLASS : 9

TM2024000346 5 January 2024

Protection devices for personal use against accidents; Batteries, electric; Materials for electricity mains [wires, cables]; Distribution boxes [electricity]; Switches, electric; Circuit breakers; Relays, electric; Inverters [electricity]; Alarms; Photovoltaic apparatus and installations for generating solar electricity; Charging stations for electric vehicles; Inductors [electricity]; Junction boxes [electricity]; Connections, electric; Electric sockets.

ZHEJIANG GEYA ELECTRICAL CO., LTD. ; Wenzhou Bridge Industrial Zone, Beibaixiang Town, Yueqing City, Zhejiang Province, CHINA

AGENT : Ho Pui Kit, Henry Goh & Co Sdn Bhd, V02-10-06 Lingkaran SV, Sunway Velocity, Jalan Peel, 55100 Kuala Lumpur

CLASS : 9,42

TM2024002987 31 January 2024

CLASS 9

Computer programs, downloadable; Mobile phone software applications, downloadable; Computer software platforms, recorded or downloadable; Downloadable computer software for data collection, analysis, and curation in the field of deep learning; Downloadable computer software for use in software development and coding, code generation, translation, and summarization, searching online code libraries and debugging and improving software code; Downloadable computer software in the nature of software extensions and plugins for code generation and software development; Downloadable computer software, namely, a code assistant that gives users the ability to search and answer questions about third-party code libraries, open source code, and the user's own codebase to create new code, review and compare existing code, and debug and improve software code; Downloadable computer software, namely, software development tools for use in collaborative software development; The aforementioned goods and services not in the field of fitness and health.

CLASS 42

Software as a service [SaaS]; Platform as a service [PaaS]; Computer programming; Writing of computer code; Computer programming services for data processing; Providing information relating to computer technology and programming via a website; Development of computer platforms; Design and development of computer software; Design and development of application software for mobile phones; Providing online non-downloadable computer software; Software as a service (SaaS) services featuring software for use in software development and coding, code generation, translation, and summarization, searching online code libraries and debugging and improving software code; Non-downloadable computer software, namely, a code assistant that gives users the ability to search and answer questions about third-party code libraries, open source code, and the user's own codebase to create new code, review and compare existing code, and debug and improve software code; Non-downloadable computer software, namely, software development tools for use in collaborative software development; The aforementioned goods and services not in the field of fitness and health.

SPRING TECHNOLOGY SERVICES LTD. ; P.O. Box 31119 Grand Pavilion, Hibiscus Way, 802 West Bay Road, Grand Cayman, KY1 – 1205, CAYMAN ISLANDS

AGENT : Charmayne Ong Poh Yin, Skrine; Unit No. 50-8-1, 8th Floor, Wisma UOA Damansara, 50 Jalan Dungun, Damansara Heights, 50490 Kuala Lumpur

CLASS : 9

TM2024015238 28 May 2024

Artificial intelligence software; Data processing apparatus with artificial intelligence; Downloadable computer programs using machine learning and artificial intelligence; Software for the integration of artificial intelligence and machine learning in the field of big data; Interactive software based on artificial intelligence; Operating software for metaverse environments; Downloadable software applications for virtual environments; Intelligent gateways for real-time data analysis.

SS GROUP INTERNATIONAL SDN. BHD. ; 17, Jalan Ekoperniagaan 2/6, Taman Ekoperniagaan, 81100 Johor Bahru, Johor, MALAYSIA

AGENT : Thay Pee Ywai, NBS Intellectual Sdn. Bhd., I-3-3, Block I, Persiaran Wawasan, Pusat Bandar Puchong, 47160 Puchong, Selangor

IPC ONE

CLASS : 9,37,42

TM2025007099 7 March 2025

International priority date claimed : 4 March 2025, United States Of America

Registration of this trademark shall give no right to the exclusive use of the word 'one'.

CLASS 9

Voice and data communications products, namely, integrated desktop and switching turrets and downloadable computer software platforms for use as a financial trading environment, which support voice, data and video applications; Electronic desktop trading console that provides computer, telecommunications and internet capability; Computer hardware and downloadable computer software that provides desktop communications capabilities and remote communications for use by financial and other market traders, and instruction manuals, sold as a unit; Downloadable computer software that provides desktop communications capabilities and remote communications for use in the financial industry, trading floor environments, security and law enforcement industry, utility industry, healthcare industry and customer support and contact center environments and instructional manuals, sold as a unit; Downloadable computer software and downloadable mobile application software for the connection, operation and management of virtual and video conferences, contact and directory management, meetings and telephone calls, for facilitating multimedia teleconferencing, videoconferencing services, web conferencing services, group broadcasts, social networking, instant messaging, electronic mail, email services, faxes, text messages, calendar synchronization, file sharing, telephone voice messages, and Voice over Internet Protocol (VoIP) communication services; Downloadable computer software and downloadable mobile application software for accessing multimedia and multiparty communications over computer networks and for integrating communication services with external service providers; Downloadable computer software and downloadable mobile application for recording, transcription, organization, display and management of messages, text, images, files, audio, video, data and audio-visual content.

CLASS 37

Voice and data communications systems integration services, namely, maintaining communications infrastructure hardware which integrate voice and data communications systems used in trading room environments; Technical customer support services, namely, troubleshooting in the nature of repairing computer hardware products for financial and telecommunications service firms.

CLASS 42

Voice and data communications systems integration services, namely, designing and implementing communications infrastructure hardware and software which integrate voice and data communications systems used in trading room environments; Technical customer support services, namely, proactive monitoring of computer systems to detect breakdowns and troubleshooting in the nature of diagnosing computer hardware and software problems and repair of computer software for financial and telecommunications service firms; Platform as a service (PAAS) featuring computer software platforms for the connection, operation and management of virtual and video conferences, contact and directory management, meetings and telephone calls, for facilitating multimedia teleconferencing,

videoconferencing services, web conferencing services, group broadcasts, social networking, instant messaging, electronic mail, email services, faxes, text messages, calendar synchronization, file sharing, telephone voice messages, and Voice over Internet Protocol (VoIP) communication services; Voice and data communications systems integration services, namely, maintaining communications infrastructure software which integrate voice and data communications systems used in trading room environments.

Computer network switches, routers, adapters, and interface devices; Wireless access point (WAP) devices; Local area network access point devices; Gateway routers; Wireless communication devices for data, audio, video, or image transmission; Computer hardware containing network security functionality, namely, firewalls, data encryption, and interoperability with network security protocols; Downloadable or recorded artificial intelligence software; Downloadable or recorded operating system software; Downloadable or recorded computer software for management of artificial intelligence computer networks; Downloadable or recorded operating system software for router and network infrastructure management; Downloadable or recorded operating system software that hosts computer software applications and facilitates interactions with other computers and peripherals across enterprise networks; Downloadable or recorded computer networking software; Downloadable or recorded computer software, namely, downloadable operating system programs for router management services; Downloadable or recorded computer software for managing, operating, designing, implementing, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of computer networks, local networks, wide-area networks, wired networks, and wireless networks; Downloadable or recorded computer software for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of network applications, network programs, computer applications, and computer programs; Downloadable or recorded computer software for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of routers, network switches, wireless networks access points, wired network access points, network infrastructure, computer infrastructure, and data centers; Downloadable or recorded computer software for managing, operating, designing, implementing, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of cloud computer networks, cloud computing resources, and cloud programs; Downloadable or recorded computer software for automation, operation, management, and control of operation of computer infrastructure and networking infrastructure; Downloadable or recorded software for management, control, and operation of computer and networking applications; Downloadable or recorded computer networking software for the administration, management, and optimization of computer networks; Downloadable or recorded software for developing and operating cloud computer networks and applications; Downloadable or recorded computer software for routing, switching, transmitting, processing, filtering, analyzing, securing, uploading, posting, displaying, tagging, editing, organizing, recording, and storing data, video, audio, voice traffic, packets, and information for use in network routing, switching, security orchestration and management; Downloadable or recorded computer software for operating, optimizing, configuring, maintaining, monitoring, managing, and deploying software over cloud computing networks; Downloadable or recorded computer software, namely, open network application platforms for the development, deployment, testing, configuration, monitoring, and automation of network applications; Downloadable or recorded computer software for data security and data protection; Downloadable or recorded computer software for providing security functionality in networks, namely, providing firewall filters, access control, virtual private networks (VPN), interoperability with router security protocols, and protection against network intrusion and viruses; Downloadable or recorded computer software for computer network security, namely, software for traffic prioritization, secure access control, user identification, encryption, security management, and intrusion prevention; Downloadable or recorded computer software for monitoring, analyzing or reporting of network information, data and traffic; Downloadable or recorded artificial intelligence and machine learning software for use in computer network management, monitoring, automation, diagnostics, troubleshooting, self-repair, and providing repair recommendations; Downloadable or recorded computer software for interconnecting, monitoring, managing, controlling, analyzing, securing and operating local, wide area, wireless networks, and data centers; Downloadable or recorded secure access service edge (SASE) software for data and network security; Downloadable or recorded computer software for design, deployment, and operation of data center networks and of cloud-computing infrastructure; Downloadable or recorded computer software for implementing automation of computer networks, for testing and validating computer networks, for managing and monitoring

computer network traffic, and for visualizing, planning, and simulating computer network architecture; Downloadable or recorded operating system software using artificial intelligence for router and network infrastructure management; Downloadable or recorded operating system software using artificial intelligence that hosts computer software using artificial intelligence applications and facilitates interactions with other computers and peripherals across enterprise networks; Downloadable or recorded computer networking software using artificial intelligence; Downloadable or recorded computer software using artificial intelligence, namely, downloadable operating system programs for router management services; Downloadable or recorded computer software using artificial intelligence for managing, operating, designing, implementing, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of computer networks, local networks, wide-area networks, wired networks, and wireless networks; Downloadable or recorded computer software using artificial intelligence for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of network applications, network programs, computer applications, and computer programs; Downloadable or recorded computer software using artificial intelligence for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of routers, network switches, wireless networks access points, wired network access points, network infrastructure, computer infrastructure, and data centers; Downloadable or recorded computer software using artificial intelligence for managing, operating, designing, implementing, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of cloud computer networks, cloud computing resources, and cloud programs; Downloadable or recorded computer software using artificial intelligence for automation, operation, management, and control of operation of computer infrastructure and networking infrastructure; Downloadable or recorded software using artificial intelligence for management, control, and operation of computer and networking applications; Downloadable or recorded computer networking software using artificial intelligence for the administration, management, and optimization of computer networks; Downloadable or recorded software using artificial intelligence for developing and operating cloud computer networks and applications; Downloadable or recorded computer software using artificial intelligence for routing, switching, transmitting, processing, filtering, analyzing, securing, uploading, posting, displaying, tagging, editing, organizing, recording, and storing data, video, audio, voice traffic, packets, and information for use in network routing, switching, security orchestration and management; Downloadable or recorded computer software using artificial intelligence for operating, optimizing, configuring, maintaining, monitoring, managing, and deploying software using artificial intelligence over cloud computing networks; Downloadable or recorded computer software using artificial intelligence, namely, open network application platforms for the development, deployment, testing, configuration, monitoring, and automation of network applications; Downloadable or recorded computer software using artificial intelligence for data security and data protection; Downloadable or recorded computer software using artificial intelligence for providing security functionality in networks, namely, providing firewall filters, access control, virtual private networks (VPN), interoperability with router security protocols, and protection against network intrusion and viruses; Downloadable or recorded computer software using artificial intelligence for computer network security, namely, software using artificial intelligence for traffic prioritization, secure access control, user identification, encryption, security management, and intrusion prevention; Downloadable or recorded computer software using artificial intelligence for monitoring, analyzing or reporting of network information, data and traffic; Downloadable or recorded computer software using artificial intelligence for interconnecting, monitoring, managing, controlling, analyzing, securing and operating local, wide area, wireless networks, and data centers; Downloadable or recorded secure access service edge (SASE) software using artificial intelligence for data and network security; Downloadable or recorded computer software using artificial intelligence for design, deployment, and operation of data center networks and of cloud-computing infrastructure; Downloadable or recorded computer software using artificial intelligence for implementing automation of computer networks, for testing and validating computer networks, for managing and monitoring computer network traffic, and for visualizing, planning, and simulating computer network architecture; Computer hardware and recorded or downloadable software sold as a unit for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, and troubleshooting of computer networks, local networks, wide-area networks, wired networks, and wireless networks; Computer hardware and recorded or downloadable software sold as a unit for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, and troubleshooting of network applications, network programs, computer applications, and computer programs; Computer hardware and recorded or downloadable software sold as a unit for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating,

browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, and troubleshooting of routers, network switches, network infrastructure, and computer infrastructure; Computer hardware and recorded or downloadable software sold as a unit for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, and troubleshooting of cloud computer networks, cloud computing resources, and cloud programs; Computer hardware and recorded or downloadable software sold as a unit for routing, switching, transmitting, processing, filtering, analyzing, securing, uploading, posting, displaying, tagging, editing, organizing, recording, and storing data, video, audio, voice traffic, packets, and information for use in network routing and management; Computer hardware and recorded or downloadable software sold as a unit for programming local, wide, and global area networks and network infrastructure in mobile devices, televisions, and other video devices; Downloadable webcasts, web seminars, case studies, audio files, and videos in the fields of interconnecting, establishing, managing, securing, monitoring, troubleshooting, operating, accessing, and automation of computer hardware, computer software, artificial intelligence, machine learning, technology, peripherals, operating systems, local networks, widearea networks, wired networks, wireless networks, computer networks, network infrastructure, network security, web browsers, electronic devices, cloud computing, and data security for cloud computing environments; Videos and accompanying downloadable materials in the fields of cloud computing and data security for cloud computing environments; Downloadable educational videos and accompanying downloadable training materials for use in association therewith in the fields of cloud computing and data security for cloud computing environments.

CLASS 42

Consulting services in the fields of design and implementation of computer networks, cloud computing, data center design, storage design, data center infrastructure, computer network and network infrastructure management, computer network security, computer software, development and use of computer hardware, development and use of computer networking equipment, computer network design, storage design, network security, cloud security, network virtualization, and computer network analytics; Consulting services in the field of software scripts for network automation; Consulting services for developing computer systems, applications, architecture, and computer hardware, software, and firmware, namely, application development computer software programs; Technical support services, namely, troubleshooting in the nature of diagnosing problems for computer hardware for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, and securing of computer networks, local networks, wide-area networks, wired networks, wireless networks, network infrastructure, routers, switches, cloud computer networks, and data centers; Technical support services, namely, troubleshooting in the nature of diagnosing problems for computer software for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, and securing of computer networks, local networks, wide-area networks, wired networks, wireless networks, network infrastructure, routers, switches, cloud computer networks, and data centers; Technical support services, namely, migration of data centers, servers, and databases between computer networks; Technical support services in the fields of computer, data, email, web, and network security, namely, monitoring of network systems for technical and computer security purposes; Technical support services in the fields of computer software, development, and use of computer hardware, computer networking equipment, telecommunications equipment, computer network design, storage design, cloud computing, network security, cloud security, data center design, and analytics, namely, providing live and online diagnosing of problems, service desk, and help desk services in all of the above-listed fields; Computer network design for others; Computer programming; Design and development of computer software applications for network efficiency improvement, storage design, cloud security, and data center design; Design, testing, engineering, and research services relating to computers, telecommunications technology, computer networks, computer software, computer hardware, computer programming, and network security, and advisory services regarding designing, building, testing, engineering, operating, research and development in the above-listed fields; Design and development of computer networks, local networks, wide-area networks, wired networks, wireless networks, and devices for network connectivity; Testing, analysis, and evaluation of computer networks for the purposes of designing, building, and operation of computer networks; Technical management in the field of computer networks; Technical consulting in the field of the administration of computer networks; Technical management in the field of administration of computer networks for designing, building, testing, engineering, and operating computer networks; Consulting services in the field of cloud computing; Computer management services, namely, the monitoring, reporting, management of, and automation of data traffic across wireless communications networks and the internet; Management of wireless networks for others; Computer network assessment for testing, analysis, and evaluation and providing authentication services, namely, restricting unauthorized network access by users without credentials; Providing information via a website and via computer networks in the field of computer networking; Providing technical information online in the fields of local networks, wide-area networks, wireless networks, computer networks, routers, network infrastructure, network applications, network programs, computer applications, computer programs, data, network traffic, network

information, cloud computer networks, cloud programs, and data centers, namely, providing information regarding hardware and software performance as part of computer networking; Installation, maintenance, and repair services in regards to computer software in the fields of computer networks, telecommunications, networking, communications, and network security; Technical support services, namely, troubleshooting in the nature of repairing computer software for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, and securing of local networks, wide-area networks, wireless networks, and wired networks; Computer services namely, remote and on-site management of the information technology (IT) systems of others; Providing online non-downloadable software for management of artificial intelligence computer networks; Providing online non-downloadable software for managing, designing, implementing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of computer networks, local networks, wide-area networks, wired networks, and wireless networks; Providing online non-downloadable software for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of network applications, network programs, computer applications, and computer programs; Providing online non-downloadable software for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of routers, network switches, wireless networks access points, wired network access points, network infrastructure, computer infrastructure, and data centers; Providing online non-downloadable software for managing, designing, implementing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of cloud computer networks, cloud computing resources, and cloud programs; Providing online non-downloadable software for routing, switching, transmitting, processing, filtering, analyzing, securing, uploading, posting, displaying, tagging, editing, organizing, recording, and storing data, video, audio, voice traffic, packets, and information for use in network routing, switching, orchestration, and management; Providing online non-downloadable software for providing security functionality in networks, namely, providing firewall filters, access control, virtual private networks (VPN), interoperability with router security protocols, protection against network intrusion and viruses, encryption and authentication of data, data-loss prevention, data recovery, network security, and detection, filtering, analyzing, managing and blocking of electronic communications; Providing online non-downloadable software, namely, non-downloadable open network application platforms for the development, deployment, testing, configuration, monitoring, and automation of network applications; Providing online non-downloadable software for programming local, wide, and global area networks and network infrastructure in mobile devices, televisions, and other video devices; Providing online non-downloadable software for automation, visibility, operation, management, and control of operation of networking infrastructure, and automation, visibility, operation, management, orchestration, and control of operation of computer applications, and services within a computer networking infrastructure; Providing online non-downloadable, cloud-based software featuring a virtual assistant for use in managing, monitoring, troubleshooting, and automation of computer networks through artificial intelligence and machine learning; Providing online, non-downloadable artificial intelligence and machine learning software for use in computer network management, monitoring, automation, diagnostics, troubleshooting, self repair, and providing repair recommendations; Providing online nondownloadable secure access service edge (SASE) software for data and network security; Providing online nondownloadable software for use in hierarchical and distributed network processing, computer network analytics, computer network monitoring, computer network management, data storage, computer network security, controlling computer network access, data mining, monitoring, analyzing, and controlling machine-to-machine communications and human-machine interaction; Providing online non-downloadable software for computer network management, network infrastructure management, information technology infrastructure management, and data center infrastructure management; Providing online non-downloadable computer programs for use in accessing and viewing computer network infrastructure and systems; Non-downloadable software for managing wireless access points and local area network access points; Providing online non-downloadable software for use in edge analytics; Platform-as-a-service (PaaS) featuring software for enabling business enterprises, data centers, and telecommunication service providers to deploy, manage, troubleshoot, track and upgrade network software and services; Software-as-a-service (SaaS) services featuring software for managing computer networks and telecommunications networks, providing data security, monitoring network performance, and collecting and analyzing network usage data and user, device, application and customer activity data; Software-as-a-service (SaaS) services featuring software for connecting, operating, and managing networked devices via wireless or wired networks; Software-as-a-service (SaaS) services featuring software for connecting, operating, and managing networked internet of things (IoT) devices; Software-as-a-service (SaaS) services featuring software for managing machine-to-machine applications and machine-to-machine networks; Providing online non-downloadable software and cloud platforms for machine-to-machine networks for data connectivity, device

management, configuration, provisioning, management, integration and control of internet of things (IoT) devices; Fog computing services, namely, providing virtual computer systems in which computing resources and application services are distributed as a decentralized computing infrastructure; Providing online non-downloadable software and cloud platforms that route and transmit data between connected devices, applications, and data platforms; Providing online nondownloadable software and cloud platforms for collecting, connecting, transmitting and analyzing machine-to-machine data from and between connected devices, applications, and computer networks; Software-as-a-service (SaaS) services featuring software for designing, planning, provisioning, operating and optimizing computer networks and telecommunications networks; Platform-as-a-service (PaaS) services featuring software for designing, planning, provisioning, operating and optimizing computer networks and telecommunications networks; Software-as-a-service (SaaS) services featuring software for data security and for monitoring, analyzing and optimizing computer networks and web application performance; Platform-as-a-service (PaaS) services featuring computer software platforms for data security and for monitoring, analyzing and optimizing computer networks and web application performance; Providing online non-downloadable software for design, deployment, and operation of data center networks and of cloud-computing infrastructure; Providing online non-downloadable software for implementing automation of computer networks, for testing and validating computer networks, for managing and monitoring computer network traffic, and for visualizing, planning, and simulating computer network architecture; Providing online non-downloadable software using artificial intelligence for managing, designing, implementing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of computer networks, local networks, wide-area networks, wired networks, and wireless networks; Providing online non-downloadable software using artificial intelligence for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of network applications, network programs, computer applications, and computer programs; Providing online non-downloadable software using artificial intelligence for managing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of routers, network switches, wireless networks access points, wired network access points, network infrastructure, computer infrastructure, and data centers; Providing online non-downloadable software using artificial intelligence for managing, designing, implementing, operating, maintaining, controlling, administering, optimizing, developing, deploying, testing, configuring, automating, hosting, navigating, browsing, transferring, distributing, interconnecting, accessing, viewing, monitoring, analyzing, virtualizing, securing, tracking, upgrading, and troubleshooting of cloud computer networks, cloud computing resources, and cloud programs; Providing online nondownloadable software using artificial intelligence for routing, switching, transmitting, processing, filtering, analyzing, securing, uploading, posting, displaying, tagging, editing, organizing, recording, and storing data, video, audio, voice traffic, packets, and information for use in network routing, switching, orchestration, and management; Providing online nondownloadable software using artificial intelligence for providing security functionality in networks, namely, providing firewall filters, access control, virtual private networks (VPN), interoperability with router security protocols, protection against network intrusion and viruses, encryption and authentication of data, data-loss prevention, data recovery, network security, and detection, filtering, analyzing, managing and blocking of electronic communications; Providing online non-downloadable software using artificial intelligence, namely, non-downloadable open network application platforms for the development, deployment, testing, configuration, monitoring, and automation of network applications; Providing online non-downloadable software using artificial intelligence for programming local, wide, and global area networks and network infrastructure in mobile devices, televisions, and other video devices; Providing online non-downloadable software using artificial intelligence for automation, visibility, operation, management, and control of operation of networking infrastructure, and automation, visibility, operation, management, orchestration, and control of operation of computer applications, and services within a computer networking infrastructure; Providing online, non-downloadable artificial intelligence and machine learning software using artificial intelligence for use in computer network management, monitoring, automation, diagnostics, troubleshooting, self-repair, and providing repair recommendations; Providing online non-downloadable secure access service edge (SASE) software using artificial intelligence for data and network security; Providing online nondownloadable software using artificial intelligence for use in hierarchical and distributed network processing, computer network analytics, computer network monitoring, computer network management, data storage, computer network security, controlling computer network access, data mining, monitoring, analyzing, and controlling machine-to-machine communications and human-machine interaction; Providing online nondownloadable software using artificial intelligence for computer network management, network infrastructure management, information technology infrastructure management, and data center infrastructure management; Providing online non-downloadable software using artificial intelligence for computer network management; Providing online non-downloadable computer programs using artificial intelligence for use in accessing and viewing computer network infrastructure and systems; Non-downloadable software using artificial intelligence for managing wireless access points and local area network access points; Providing online non-downloadable software using artificial intelligence

for use in edge analytics; Platform-as-a-service (PaaS) featuring software using artificial intelligence for enabling business enterprises, data centers, and telecommunication service providers to deploy, manage, troubleshoot, track and upgrade network software and services; Software-as-a-service (SaaS) services featuring software using artificial intelligence for managing computer networks and telecommunications networks, providing data security, monitoring network performance, and collecting and analyzing network usage data and user, device, application and customer activity data; Software-as-a-service (SaaS) services featuring software using artificial intelligence for connecting, operating, and managing networked devices via wireless or wired networks; Software-as-a-service (SaaS) services featuring software using artificial intelligence for connecting, operating, and managing networked internet of things (IoT) devices; Software-as-a-service (SaaS) services featuring software using artificial intelligence for managing machine-to-machine applications and machine-to-machine networks; Providing online nondownloadable and cloud platforms using artificial intelligence for machine-to-machine networks for data connectivity, device management, configuration, provisioning, management, integration and control of internet of things (IoT) devices; Providing online non-downloadable software and cloud platforms using artificial intelligence that route and transmit data between connected devices, applications, and data platforms; Providing online non-downloadable software and cloud platforms using artificial intelligence for collecting, connecting, transmitting and analyzing machine-to-machine data from and between connected devices, applications, and computer networks; Software-as-a-service (SaaS) services featuring software using artificial intelligence for designing, planning, provisioning, operating and optimizing computer networks and telecommunications networks; Platform-as-a-service (PaaS) services featuring software using artificial intelligence for designing, planning, provisioning, operating and optimizing computer networks and telecommunications networks; Software-as-a-service (SaaS) services featuring software using artificial intelligence for data security and for monitoring, analyzing and optimizing computer networks and web application performance; Platform-as-a-service (PaaS) services featuring computer software platforms using artificial intelligence for data security and for monitoring, analyzing and optimizing computer networks and web application performance; Providing online non-downloadable software using artificial intelligence for design, deployment, and operation of data center networks and of cloud-computing infrastructure; Providing online non-downloadable software using artificial intelligence for implementing automation of computer networks, for testing and validating computer networks, for managing and monitoring computer network traffic, and for visualizing, planning, and simulating computer network architecture.

Data processing equipment and computers; Computer software; Computer programs; Downloadable software development kits (SDK); Downloadable application programming interface (API) software that enables developers to build software applications; Software applications for use with mobile devices and computers; Software for processing electronic payments to and from others; Computer software and software applications used in relation to financial services, financial transactions, electronic commerce, electronic payments, foreign currency exchange, trading and brokerage services, remittance transactions, cross-border money transfers, investment advisory and loan services, data, payment and computer security; Authentication software; Computer software and computer software applications (downloadable); Instant messaging software; File sharing software; Communications software for electronically exchanging and transmitting data, audio, video, images and graphics via computer, mobile, wireless and telecommunication networks; Computer software for processing images, graphics, audio, video, and text; Downloadable computer software which allows users to participate in web-based meetings and classes, with access to data, documents, images and software applications through a web browser; Downloadable computer software for accessing, viewing, and controlling remote computers and computer networks; Downloadable cloud-computing software; Downloadable cloud-based software; Computer software for tracking and evaluating customer and personal behaviour in relation to purchasing decisions; Computer software applications for use in relation to environmental conservation, climate change and carbon offsetting; Downloadable text files; Downloadable electronic data files; Downloadable data sets; Downloadable open source software; Downloadable software for software development and collaboration in the software development process, namely, working with the source code and its browsing, editing, development, enhancement and testing; Computer software, downloadable computer software, computer programs, software applications, and software development tools for code development, code editing, code testing, Application Programming Interface (API) selection and integration, code language selection and integration, plugins selection and integration, code deployment and integration; Computer software, downloadable computer software, computer programs, software applications, and software development tools for source code repository management, data storage and backup, database management, and facilitating the exchange of information via the Internet featuring collaboration tools; Downloadable text files of written source code for software; Downloadable text files in the nature of computer code; Downloadable electronic data files featuring written source code for software; Downloadable data sets in the field of computer code; Downloadable electronic data files containing computer code; Software for facilitating online payments through a payment gateway; Software for use in connection with contactless payments; Software and software applications for the purpose of allowing merchants to accept contactless mobile commerce transactions, contactless presentation of loyalty credentials, and contactless redemption of coupons, rebates, discounts, vouchers and special offers; Software and software applications that allow merchants to deliver coupons, rebates, discounts, vouchers and special offers directly to the mobile telecommunications devices of consumers; Computer software for generating, scanning and recognising matrix barcodes; Matrix barcode readers;

Software for mobile phone credit and e-wallet top-up services; Computer software, downloadable computer software, computer programs, software applications and software development tools for use in relation to blockchain technology, blockchain infrastructure, blockchain cybersecurity, tokenisation of real-world assets, digital assets, digital asset exchange transactions, decentralized finance (DeFi) and integrating traditional financial systems with blockchain technology; Computer software, downloadable computer software, computer programs, software applications, and software development tools for electronically creating, accessing, exchanging, trading, transmitting, managing and storing digital assets, digital currencies, cryptocurrencies, stable coins, virtual currencies, digital securities, digital tokens, and digital collectibles, and for facilitating users' ability to view, analyse, record, store, monitor, manage, trade, and exchange the aforesaid assets, as well as manage related payment and exchange transactions; Cryptography software; Cryptography software for ensuring security and compliance in blockchain transactions; Downloadable digital collectibles in the nature of multimedia files, namely, art, animation cels, images, photographs, trading cards, videos and other digital media content; Downloadable digital files authenticated by non-fungible tokens [NFTs]; Downloadable software to enable the building of applications on the blockchain, interaction with blockchain smart contracts, and asset and information exchange; Downloadable software for creating, agreeing, executing, managing and performing smart contracts; Downloadable computer software for use as an electronic wallet, a digital wallet and a cryptocurrency wallet; Artificial intelligence software; Artificial and virtual reality immersion software; Artificial intelligence software in the field of humanoid robots and robots working alongside humans; Humanoid and collaborative robots with artificial intelligence; Robots with artificial intelligence for use in human-machine integration solutions; Operating systems for robots; Software for facilitating interaction and communication between humans and artificial intelligence platforms, namely, bots, virtual agents and virtual assistants; Robotic Process Automation [RPA] software; Intelligent Process automation [IPA] software; Downloadable software for controlling and managing embodied artificial intelligence systems, namely humanoid robots and autonomous machines; Artificial intelligence apparatus; Humanoid robots with artificial intelligence for use in the provision of financial services; Artificial intelligence software for use in relation to marketing, cloud computing, data analytics, predicting trends and customer support; Artificial intelligence software for use in relation to cybersecurity and Information Technology (IT) infrastructure protection; Computer software, downloadable computer software, computer programs, software applications and software development tools for use in relation to artificial intelligence, artificial intelligence driven humanoid robots and robots working alongside humans, machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, predictive and prescriptive analytics, process and task automation, computer vision, internet of things (IoT) and smart data discovery; Computer software, downloadable computer software, computer programs, software applications and software development tools for use in relation to automation of processes and tasks; Computer software, downloadable computer software, computer programs, software applications and software development tools for use in relation to business analytics, business intelligence, data integration, data warehousing, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization and data analytics; Computer software and application software for the provision, communication and administration of loyalty, incentive, reward and redemption scheme, membership scheme, electronic vouchers, electronic wallets, electronic coupons, electronic direct marketing, customer relationship management, marketing campaign, customer database, transaction management, reminders or other messages; Downloadable software for omnichannel marketing solutions; Software as a medical device (SaMD), downloadable; Online electronic publications (downloadable from the Internet or a computer network or a computer database); Downloadable electronic publications in the nature of magazines, articles, brochures, leaflets, datasheets, information and instructional materials in the field of business, e-commerce, information technology, cloud computing, telecommunications, the Internet, business and e-commerce training, business, sales, marketing and financial management; Computer peripherals; Sim cards; Embedded SIM (eSIM) cards; Pocket wifi devices, notebook computers; Laptop computers; Portable computers; Handheld computers; Personal digital assistants; Personal media players; Mobile telephones; Smart phones; Batteries, battery chargers; Computer workstations (not furniture); Computer servers; Computer and telecommunications networking hardware; Computer network adaptors, switches, routers and hubs; Wireless and wired modems and communication cards and devices; Laptop holders, computer bags; Computer hardware and firmware; Automobile navigation system; Digital music (downloadable from the Internet); Telecommunications apparatus; Mouse mats; Mobile phone accessories, namely cell phone straps, mobile phone chargers, mobile phone screen protectors, protective cases for mobile phones, clear protective covers adapted for mobile phones, protective covers for smartphones, cases for smartphones incorporating a keyboard, screen protectors made of tempered glass specially adapted for mobile phones, screen protectors made of polyethylene terephthalate [PET] specially adapted for mobile phones, screen protectors made of thermoplastic polyurethane [TPU] specially adapted for mobile phones, earphones and headphones for mobile phones, power banks, battery chargers for mobile phones, mobile phone battery chargers for use in vehicles; Downloadable games, pictures, motion pictures, movies and music; Alarm systems; Security cameras; Headphones; Speakers; Global Positioning System (GPS) apparatus and equipment; Computer, electronic and video games programmes and software (including software downloadable from the Internet); Liquid crystal displays for telecommunications and electronic equipment; Data storage programs; Spectacles and sunglasses; Electronic signboards; Encoded or magnetic payment, bank, credit, debit, cash, charge, telephone and identification cards; Electronic book readers; Encoded key cards; 3D spectacles; Memory cards for video game machines; Wearable computers, smart

phones, monitors, displays, activity trackers, audio equipment, communications apparatus, telecommunication apparatus, and digital electronic communication devices; Downloadable mobile applications and application software for use with wearable computers, smart phones, monitors, displays, activity trackers, audio equipment, communications apparatus, telecommunication apparatus, and digital electronic communication devices; Electronic cards and stored value cards; Terminals, devices or apparatus for electronic payments and transactions and other contactless interactions with mobile devices; Contactless payment terminals; Secure online and offline payment transaction systems.

CLASS 36

Insurance; Financial affairs; Monetary affairs; Real estate affairs; Clearing financial transactions via a global computer network; Online banking services and financial services; Credit card services; Processing and transmission of bills and payments thereof, and providing insurance for financial transactions; Funds transfer services; Transfer of payments for others via the internet; Financial services in the nature of bill payment services and processing services; Provision of financial information via the Internet; Issuing of travel vouchers services; Capital investments; Financial evaluation [insurance, banking, real estate]; Asset management services; Financial consultancy and advisory services; Securities brokerage services, stock exchange quotation services; Stocks and bonds brokerage, financial analysis; Debit card services, charge card services and cheque guarantee services; Financial clearing services; Credit verification via global computer information network; Electronic credit risk management services; Electronic purchase payment and electronic bill payment services; Issuance of stored value cards, charge cards and debit cards; Information services relating to finance and insurance, provided online from a computer database or the Internet; Agency for collection of gas and electricity fees; Charitable fund raising; Online payment services; Issuing of vouchers; Provision of electronic funds transfer services; Monetary exchange services, provision of prepaid cards and tokens; Remittance services and money transfer services; Financial transaction services, namely, providing secure payment and remittance transactions; Including all of the aforementioned services provided by electronic means; Foreign currency transfer services; Foreign currency exchange; Currency trading; Currency dealing; Brokerage of currency; Financial transactions via blockchain; Fundraising and financial sponsorship; Brokerage of carbon offsets; Financial sponsorship of carbon offset programmes; Funding of and investment in emissions reduction projects; Investment in emissions reduction funds; Provision of loans; Providing temporary loans; Electronic wallet services (payment services); Payment services and transfer of funds by means of payment terminals; Financial services, namely, the provision of contactless mobile payments through merchants at retail, online and wholesale locations; Financial risk management services; Financial transaction analysis, namely, analyzing transactions for payment fraud, illegality and compliance with payment transaction regulations and antifraud and money laundering controls; Providing purchase protection services for goods and services purchased by others via a global computer network and wireless networks, namely, providing fraud reimbursement services in the field of credit card purchases and electronic payment purchases, and providing secure commercial transactions for credit card purchases and electronic payment purchases; Reimbursement of funds for disputed items in the field of electronic payment purchases; Financial services in relation to and for facilitating the buying, selling, trading and management of digital currency, blockchain tokens, and other digital assets on a trading platform; Financial services related to digital wallets and electronic wallets, including secure storage and transaction processing of digital assets; Issuance of tokens of value; Redeeming the tokens of value of others for payment of goods or services; Financial consultancy services related to blockchain technology, digital assets, smart contracts and the integration of traditional and decentralised financial systems; Trading of digital currency, cryptocurrency, stable coin and virtual currency services; Financial services, namely, digital currency wallet and storage services; Custodian electronic wallet services in relation to digital currency, cryptocurrency, stable coin, digital payment tokens and virtual currency; Issuance, transmission and transfer of stable coins and digital payment tokens; Financial services relating to customer loyalty, incentive and reward programs; Exchange and redemption services in relation to customer loyalty, incentive and reward programs; Providing discount card services and other rebate services as part of a customer loyalty program; Providing rebates at participating establishments of others through use of a membership card; Consultancy, information and advisory services relating to the aforesaid services.

Data processing equipment and computers; Computer software; Computer programs; Downloadable software development kits (SDK); Downloadable application programming interface (API) software that enables developers to build software applications; Software applications for use with mobile devices and computers; Software for processing electronic payments to and from others; Computer software and software applications used in relation to financial services, financial transactions, electronic commerce, electronic payments, foreign currency exchange, trading and brokerage services, remittance transactions, cross-border money transfers, investment advisory and loan services, data, payment and computer security; Authentication software; Computer software and computer software applications (downloadable); Instant messaging software; File sharing software; Communications software for electronically exchanging and transmitting data, audio, video, images and graphics via computer, mobile, wireless and telecommunication networks; Computer software for processing images, graphics, audio, video, and text; Downloadable computer software which allows users to participate in web-based meetings and classes, with access to data, documents, images and software applications through a web browser; Downloadable computer software for accessing, viewing, and controlling remote computers and computer networks; Downloadable cloud-computing software; Downloadable cloud-based software; Computer software for tracking and evaluating customer and personal behaviour in relation to purchasing decisions; Computer software applications for use in relation to environmental conservation, climate change and carbon offsetting; Downloadable text files; Downloadable electronic data files; Downloadable data sets; Downloadable open source software; Downloadable software for software development and collaboration in the software development process, namely, working with the source code and its browsing, editing, development, enhancement and testing; Computer software, downloadable computer software, computer programs, software applications, and software development tools for code development, code editing, code testing, Application Programming Interface (API) selection and integration, code language selection and integration, plugins selection and integration, code deployment and integration; Computer software, downloadable computer software, computer programs, software applications, and software development tools for source code repository management, data storage and backup, database management, and facilitating the exchange of information via the Internet featuring collaboration tools; Downloadable text files of written source code for software; Downloadable text files in the nature of computer code; Downloadable electronic data files featuring written source code for software; Downloadable data sets in the field of computer code; Downloadable electronic data files containing computer code; Software for facilitating online payments through a payment gateway; Software for use in connection with contactless payments; Software and software applications for the purpose of allowing merchants to accept contactless mobile commerce transactions, contactless presentation of loyalty credentials, and contactless redemption of coupons, rebates, discounts, vouchers and special offers; Software and software applications that allow merchants to deliver coupons, rebates, discounts, vouchers and special offers directly to the mobile telecommunications devices of consumers; Computer software for generating, scanning and recognising matrix barcodes; Matrix barcode readers; Software for mobile phone credit and e-wallet top-up services; Computer software, downloadable computer software, computer programs, software applications and software development tools for use in relation to blockchain technology, blockchain infrastructure, blockchain cybersecurity, tokenisation of real-world assets, digital assets, digital asset exchange transactions, decentralized finance (DeFi) and integrating traditional financial systems with blockchain technology; Computer software, downloadable computer software, computer programs, software applications, and software development tools for electronically creating, accessing, exchanging, trading, transmitting, managing and storing digital assets, digital currencies, cryptocurrencies, stable coins, virtual currencies, digital securities, digital tokens, and digital collectibles, and for facilitating users' ability to view, analyse, record, store, monitor, manage, trade, and exchange the aforesaid assets, as well as manage related payment and exchange transactions; Cryptography software; Cryptography software for ensuring security and compliance in blockchain transactions; Downloadable digital collectibles in the nature of multimedia files, namely, art, animation cels, images, photographs, trading cards, videos and other digital media content; Downloadable digital files authenticated by non-fungible tokens [NFTs]; Downloadable software to enable the building of applications on the blockchain, interaction with

blockchain smart contracts, and asset and information exchange; Downloadable software for creating, agreeing, executing, managing and performing smart contracts; Downloadable computer software for use as an electronic wallet, a digital wallet and a cryptocurrency wallet; Artificial intelligence software; Artificial and virtual reality immersion software; Artificial intelligence software in the field of humanoid robots and robots working alongside humans; Humanoid and collaborative robots with artificial intelligence; Robots with artificial intelligence for use in human-machine integration solutions; Operating systems for robots; Software for facilitating interaction and communication between humans and artificial intelligence platforms, namely, bots, virtual agents and virtual assistants; Robotic Process Automation [RPA] software; Intelligent Process automation [IPA] software; Downloadable software for controlling and managing embodied artificial intelligence systems, namely humanoid robots and autonomous machines; Artificial intelligence apparatus; Humanoid robots with artificial intelligence for use in the provision of financial services; Artificial intelligence software for use in relation to marketing, cloud computing, data analytics, predicting trends and customer support; Artificial intelligence software for use in relation to cybersecurity and Information Technology (IT) infrastructure protection; Computer software, downloadable computer software, computer programs, software applications and software development tools for use in relation to artificial intelligence, artificial intelligence driven humanoid robots and robots working alongside humans, machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, predictive and prescriptive analytics, process and task automation, computer vision, internet of things (IoT) and smart data discovery; Computer software, downloadable computer software, computer programs, software applications and software development tools for use in relation to automation of processes and tasks; Computer software, downloadable computer software, computer programs, software applications and software development tools for use in relation to business analytics, business intelligence, data integration, data warehousing, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization and data analytics; Computer software and application software for the provision, communication and administration of loyalty, incentive, reward and redemption scheme, membership scheme, electronic vouchers, electronic wallets, electronic coupons, electronic direct marketing, customer relationship management, marketing campaign, customer database, transaction management, reminders or other messages; Downloadable software for omnichannel marketing solutions; Software as a medical device (SaMD), downloadable; Online electronic publications (downloadable from the Internet or a computer network or a computer database); Downloadable electronic publications in the nature of magazines, articles, brochures, leaflets, datasheets, information and instructional materials in the field of business, e-commerce, information technology, cloud computing, telecommunications, the Internet, business and e-commerce training, business, sales, marketing and financial management; Computer peripherals; Sim cards; Embedded SIM (eSIM) cards; Pocket wifi devices, notebook computers; Laptop computers; Portable computers; Handheld computers; Personal digital assistants; Personal media players; Mobile telephones; Smart phones; Batteries, battery chargers; Computer workstations (not furniture); Computer servers; Computer and telecommunications networking hardware; Computer network adaptors, switches, routers and hubs; Wireless and wired modems and communication cards and devices; Laptop holders, computer bags; Computer hardware and firmware; Automobile navigation system; Digital music (downloadable from the Internet); Telecommunications apparatus; Mouse mats; Mobile phone accessories, namely cell phone straps, mobile phone chargers, mobile phone screen protectors, protective cases for mobile phones, clear protective covers adapted for mobile phones, protective covers for smartphones, cases for smartphones incorporating a keyboard, screen protectors made of tempered glass specially adapted for mobile phones, screen protectors made of polyethylene terephthalate [PET] specially adapted for mobile phones, screen protectors made of thermoplastic polyurethane [TPU] specially adapted for mobile phones, earphones and headphones for mobile phones, power banks, battery chargers for mobile phones, mobile phone battery chargers for use in vehicles; Downloadable games, pictures, motion pictures, movies and music; Alarm systems; Security cameras; Headphones; Speakers; Global Positioning System (GPS) apparatus and equipment; Computer, electronic and video games programmes and software (including software downloadable from the Internet); Liquid crystal displays for telecommunications and electronic equipment; Data storage programs; Spectacles and sunglasses; Electronic signboards; Encoded or magnetic payment, bank, credit, debit, cash, charge, telephone and identification cards; Electronic book readers; Encoded key cards; 3D spectacles; Memory cards for video game machines; Wearable computers, smart phones, monitors, displays, activity trackers, audio equipment, communications apparatus, telecommunication apparatus, and digital electronic communication devices; Downloadable mobile applications and application software for use with wearable computers, smart phones, monitors, displays, activity trackers, audio equipment, communications apparatus, telecommunication apparatus, and digital electronic communication devices; Electronic cards and stored value cards; Terminals, devices or apparatus for electronic payments and transactions and other contactless interactions with mobile devices; Contactless payment terminals; Secure online and offline payment transaction systems.

CLASS 35

Business management; Business administration; Office functions; Organization, operation and supervision of loyalty and incentive schemes; Accountancy; Arranging and conducting of trade fairs; Data processing; Provision of business information; Database management; Compilation of information into computer databases; Business consulting services; Business intelligence services; Business strategic management services; Business strategic management consulting services;

Arranging and conducting of commercial events; Business project management services; Market research and business consulting services; Business consultancy services relating to facilitating the transaction of business via local and global computer networks by locating and providing referrals for the delivery of a wide variety of business and consumer products and services; Dissemination of business information of goods and services of others via local and global computer networks; Business consultancy services relating to providing a web site on a global computer network by which third parties can offer and source goods and services, place, determine the status of and fulfil trade leads and orders, enter into contracts and transact business; Business consulting services in the field of online payments; Business information management, namely, electronic reporting of business analytics relating to payment processing, authentication, tracking, and invoicing; Business management, namely, optimization of payments for businesses; Business consulting services and project management services in the field of artificial intelligence, artificial intelligence software development and artificial intelligence driven robots; Providing computerized online ordering services; Advertising of goods and services of others via local and global computer networks; International import and export agency services; Rental of advertising space on communication media; Online trading services relating to electronic auctioneering and providing online business evaluation relating thereto; Providing a directory of third party web sites to facilitate business transactions; Business consultancy services relating to operating an electronic marketplace for the buyers and sellers of goods and/or services on a global computer network; Business assistance relating to facilitating business transactions via local and global computer networks; Corporate management consultancy services; Marketing and promotion services; Publication of publicity materials; Dissemination of advertising materials, updating of advertising materials, compilation of advertisements for use as web pages on the Internet; Rental of advertising space; Computer data processing; Sales, business and promotional information services; Auctioneering provided on the Internet; Personnel management; Provision of sales, business, advertising and promotional information through a global computer network and via the Internet; Presentation of goods on communication media for retail purposes; Retail, online retail and wholesale services of telephones, smartphones, mobile phone accessories, telecommunications goods, computer hardware, firmware and computer software, payment terminals, devices or apparatus for electronic payments and transactions, artificial intelligence apparatus, humanoid and collaborative robots with artificial intelligence, humanoid robots with artificial intelligence for use in the provision of financial services, computers, data processing equipment, sim cards, embedded SIM (eSIM) cards, computer peripherals, computers, Global Positioning System (GPS) apparatus and equipment, computer workstations, servers, computer and telecommunications networking hardware, computer network adaptors, switches, routers and hubs, wireless and wired modems and communication cards and devices, computer bags, online electronic publications, digital music (downloadable from the Internet), pocket wifi devices, mouse mats, downloadable games, pictures, motion pictures, movies and music, electronic and video games programmes and software (including software downloadable from the Internet), electronic amusement and game apparatus, games and electronic toys, liquid crystal displays for telecommunications and electronic equipment, data storage programs, signboards, and user manuals; Buying and selling agency services; Selection of goods and procurement of goods for individuals and businesses; Ordering services (for others); Provision of business statistical information; Organization of exhibitions for commercial or advertising purposes; Business investigation; Business administration services for the processing of sales made on the Internet; Business referral services and personnel placement; Document reproduction; Transcription services; Customer relationship management; Business management services relating to electronic commerce; Business management and administration services relating to sponsorship programmes; Charitable services, namely organizing and conducting volunteer programmes and community service projects; Provision of commercial and business contact information; Search engine optimization; Web site traffic optimization; Pay per click advertising; Commercial intermediation services; Business management for freelance service providers; Negotiation and conclusion of commercial transactions for third parties; Updating and maintenance of data in computer databases; Promotion of goods and services through sponsorship; Sponsorship search; Purchasing services; Procurement services for others; Commercial trading and consumer information services; Computerised point-of-sale data collection services; Promoting the sale of goods and services by others by awarding points for credit card use or mobile financial software application use; Promotional information and advisory services provided to members, subscribers and users of incentive loyalty schemes and reward programs; Promoting the sale of goods and services of others by means of contests and incentive award programs; Promotional services in the nature of bonus programmes for purchases of selected goods and services, including the supply of benefits in connection with environmentally-conscious purchase and lifestyle choices; Provision of advertising, business management and data processing services by the use of artificial intelligence; The bringing together, for the benefit of others, enabling customers to conveniently view and purchase a variety of goods, namely, virtual and digital currencies and collectibles, blockchain-based non-fungible assets and downloadable files authenticated by non-fungible tokens; Provision of an online marketplace for buyers and sellers of non-fungible assets, digital assets, and digital collectibles; Operating an online marketplace for buyers and sellers of non-fungible assets, digital assets and digital collectibles; Online auction services featuring non-fungible assets, digital assets, and digital collectibles; Information, consultancy and advisory services all relating to the aforesaid services.

CLASS 42

Scientific and technological services and research and design relating thereto, industrial analysis and research services; Design and development of computer hardware, software and artificial intelligence software; Software as a service (SaaS); Blockchain as a service (BaaS); Platform as a service (PaaS); Infrastructure as a service [IaaS]; Encryption, decryption and authentication of information, messages and data; Providing user authentication services using biometric, facial recognition, finger print authentication, voice recognition and other types of hardware and software authentication technology for provision of financial services, e-commerce transactions, donations, licensed product tracking and fan engagement; Data security services; IT security, protection and restoration; Computer security threat analysis for protecting data; Provision of security services for computer networks, computer access and computerised transactions; Certification (quality control) of data via blockchain; Data authentication via blockchain; Including all of the aforementioned services for use in connection with payment systems; Computer design and development services in connection with transmitting information, data, documents, and images over the Internet; Application service provider (ASP) services, namely, hosting computer software applications of others; Application service provider (ASP) services providing software in the fields of web-based conferencing, audio conferencing, electronic messaging, document collaboration, video conferencing, and voice and call processing; Providing online non-downloadable software for facilitating the interoperability of multiple software applications; Technical support services relating to computer software and applications provided online, by email and by telephone; Computer services, namely, creating an online community for registered users to participate in discussions, get feedback from their peers, form virtual communities, engage in social networking, and exchange documents; Computer service relating to creating indexes of information, sites and resources on computer networks; Providing search engines; Design of mobile telephones and smart phones; Design of digital cameras; Research, design and product development services in connection with payment terminals and electronic payment systems; Technical support services relating to payment terminals and electronic payment systems; Computer services, namely computer system administration for others; Computer programming; Computer integration services; Computer analysis services; Computer programming in relation to the defence against virus; Computer system software services; Computer system design; Design and development of webpages; Hosting webpages for others; Hosting computer application software for searching and retrieving information from databases and computer networks; Providing technical information at the specific request of end-users by means of telephone or global computer network; Consultancy services in relation to computer software; Computer services relating to customized searching of computer databases and websites; Computer and electronic signal coding and decoding; Conversion of physical data and documents into electronic media format; Product testing and evaluation services; Computer information services; Network information services, namely, providing technical information relating to computers and networks in the field of business and e-commerce; Provision of computer security risk management programs; Computer security information and testing services; Quality assurance services; Computer services relating to certification of business transactions and preparation of reports therefor; Access control to (security services for-) computers, electronic networks and databases; Security of data transmission services and of transactions via computer networks services; Consultancy in the field of data security; Technological consultancy concerning securing telecommunications; Computerized communication network security services; Authentication services for computer security; Online authentication of electronic signatures; Off-site data backup; Electronic data storage; Providing information on computer technology and programming via a web site; Cartography services; Cloud computing; Cloud hosting provider services; Providing temporary use of non-downloadable cloud-based software and cloud computing software; Providing virtual computer systems and virtual computer environments through cloud computing; Rental of entertainment software; Technical research in the field of carbon offsetting; Provision of scientific information, advice and consultancy in relation to carbon offsetting and environmental protection; Providing technological information about environmentally-conscious and green innovations; Environmental testing, assessment and monitoring services; Scientific research in the fields of environmental protection and conservation; Research and provision of scientific information in the field of climate change; Scientific and industrial consultation services relating to fuels, fuel and carbon dioxide emissions and environmental issues; Scientific and technological services relating to recommendation of courses of action to reduce carbon dioxide emission in a cost effective manner; Scientific and technological services relating to management of carbon offset programmes; Providing non-downloadable open source software; Providing temporary use of non-downloadable cloud-based software for software development and collaboration in the software development process, namely, working with the source code and its browsing, editing, development, enhancement and testing; Writing, design and development of computer code; Computer software testing, namely, source code review; Consulting services in the field of source code and application software development, implementation, maintenance, repair, analysis, security, and optimization; Providing non-downloadable software for use in relation to code development, code editing, code testing, Application Programming Interface (API) selection and integration, code language selection and integration, plugins selection and integration, code deployment and integration; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for use in relation to code development, code editing, code testing, Application Programming Interface (API) selection and integration, code language selection and integration, plugins selection and integration, code deployment and integration; Providing non-downloadable software for use in relation to source code repository management, data storage and backup, database management, and facilitating the exchange of information via the Internet featuring collaboration tools; Software as a Service (SaaS)

and Platform as a Service (PaaS) featuring software for use in relation to source code repository management, data storage and backup, database management, and facilitating the exchange of information via the Internet featuring collaboration tools; Designing, creating and hosting of bill payment websites; Network information services, namely, providing technical information relating to computers and networks in the field of payments including contactless payments; Providing temporary use of online non-downloadable computer software for tracking and analyzing payment activity; Providing temporary use of online non-downloadable software to evaluate and detect fraud and illegality in payment transactions, and manage compliance validation; Providing non-downloadable software for use in relation to electronic payments and contactless transactions; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for use in relation to electronic payments and contactless transactions; Providing non-downloadable software for mobile commerce, loyalty and rewards programs, and digital voucher redemption; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for mobile commerce, loyalty and rewards programs, and digital voucher redemption; Providing non-downloadable software for generating, scanning, and recognizing matrix barcodes; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for generating, scanning, and recognizing matrix barcodes; Providing non-downloadable software for use as an electronic wallet, digital wallet, and cryptocurrency wallet, and for facilitating top-up services and value storage for such wallets; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for use as an electronic wallet, digital wallet, and cryptocurrency wallet, and for facilitating top-up services and value storage for such wallets; Providing non-downloadable software for use in relation to blockchain technology, blockchain infrastructure, blockchain cybersecurity, tokenisation of real-world assets, digital assets, digital asset exchange transactions, decentralized finance (DeFi) and integrating traditional financial systems with blockchain technology; Software as a Service (SaaS), Platform as a Service (PaaS) and Infrastructure as a Service (IaaS) featuring software for use in relation to blockchain technology, blockchain cybersecurity, tokenisation of real-world assets, digital assets, digital asset exchange transactions, decentralized finance (DeFi) and integrating traditional financial systems with blockchain technology; Providing non-downloadable software for electronically creating, accessing, exchanging, trading, transmitting, managing, storing, sending, receiving, and accepting digital assets, digital currencies, cryptocurrencies, stable coins, virtual currencies, digital securities, digital tokens, and digital collectibles, and for facilitating users' ability to view, analyse, record, store, monitor, manage, trade, and exchange these assets, as well as manage related payment and exchange transactions; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for electronically creating, accessing, exchanging, trading, transmitting, managing, storing, sending, receiving, and accepting digital assets, digital currencies, cryptocurrencies, stable coins, virtual currencies, digital securities, digital tokens, and digital collectibles, and for facilitating users' ability to view, analyse, record, store, monitor, manage, trade, and exchange these assets, as well as manage related payment and exchange transactions; Providing non-downloadable cryptography software for ensuring security and compliance in blockchain transactions; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring cryptography software for ensuring security and compliance in blockchain transactions; Providing non-downloadable software to enable the building of applications on the blockchain, interaction with blockchain smart contracts, and asset and information exchange; Software as a Service (SaaS), Platform as a Service (PaaS) and Infrastructure as a Service (IaaS) featuring software for the building of applications on the blockchain, interaction with blockchain smart contracts, and asset and information exchange; Providing non-downloadable artificial intelligence software, artificial and virtual reality immersion software, and artificial intelligence software in the field of humanoid robots and robots working alongside humans; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring artificial intelligence software, artificial and virtual reality immersion software and artificial intelligence software in the field of humanoid robots and robots working alongside humans; Providing non-downloadable software for facilitating interaction and communication between humans and artificial intelligence platforms, namely, bots, virtual agents and virtual assistants; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for facilitating interaction and communication between humans and artificial intelligence platforms, namely, bots, virtual agents and virtual assistants; Providing non-downloadable Robotic Process Automation [RPA] and Intelligent Process automation [IPA] software; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring Robotic Process Automation [RPA] and Intelligent Process automation [IPA] software; Providing non-downloadable software for controlling and managing embodied artificial intelligence systems, namely artificial intelligence apparatus, humanoid robots and autonomous machines; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for controlling and managing embodied artificial intelligence systems, namely artificial intelligence apparatus, humanoid robots and autonomous machines; Providing non-downloadable artificial intelligence software for use in relation to marketing, cloud computing, data analytics, predicting trends, customer support, cybersecurity and Information Technology (IT) infrastructure protection; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring artificial intelligence software for use in relation to marketing, cloud computing, data analytics, predicting trends, customer support, cybersecurity and Information Technology (IT) infrastructure protection; Providing non-downloadable software for use in relation to artificial intelligence, artificial intelligence driven humanoid robots and robots working alongside humans, machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, predictive and prescriptive analytics, process and task automation, computer vision, internet of things (IoT) and smart data discovery; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for use in relation to artificial intelligence, artificial intelligence driven humanoid

robots and robots working alongside humans, machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, predictive and prescriptive analytics, process and task automation, computer vision, internet of things (IoT) and smart data discovery; Providing non-downloadable software for use in relation to process and task automation, business analytics, business intelligence, data integration, data warehousing, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization and data analytics; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for use in relation to process and task automation, business analytics, business intelligence, data integration, data warehousing, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization and data analytics; Providing non-downloadable software for the provision, communication and administration of loyalty, incentive, reward and redemption scheme, membership scheme, electronic vouchers, electronic wallets, electronic coupons, electronic direct marketing, customer relationship management, marketing campaign, customer database, transaction management, reminders or other messages; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for the provision, communication and administration of loyalty, incentive, reward and redemption scheme, membership scheme, electronic vouchers, electronic wallets, electronic coupons, electronic direct marketing, customer relationship management, marketing campaign, customer database, transaction management, reminders or other messages; Providing non-downloadable software for the provision of omnichannel marketing solutions; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for the provision of omnichannel marketing solutions; Design and development of medical technology and related computer software; Design and development of artificial intelligence apparatus and humanoid robots; Technical development services in the field of artificial intelligence and software engineering; Research in the field of artificial intelligence and humanoid robots and robots working with humans; Advanced product research in the field of artificial intelligence; Providing artificial intelligence computer programs on data networks; Infrastructure as a Service [IaaS] for the provision of artificial intelligence; Hosting of websites for the provision of artificial intelligence; Consultancy, information and advisory services relating to the aforesaid services.

CLASS 44

Medical services; Veterinary services; Hygienic and beauty care for human beings or animals; Agriculture, horticulture and forestry services; Physical therapy services; Rental of equipment for human healthcare; Rental of equipment for human hygiene and beauty care; Rental of equipment for agriculture, aquaculture, horticulture and forestry; Pharmaceutical services; Opticians' services; Mental health services; Human healthcare services; Dentistry; Animal healthcare services; Tree planting for carbon offsetting purposes; Provision of information relating to behavioural modification; Alternative medicine services; Animal-assisted therapy; Health centre services; Health counselling; Health spa services; Hospital services; Nursing home services; Orthodontic services; Pharmacy advice; Physiotherapy; Plant nursery services; Reforestation services; Rest home services; Services of a psychologist; Speech therapy; Tree surgery; Medical and healthcare services utilising artificial intelligence and machine learning for diagnostics, treatment planning, and patient monitoring; Telemedicine services incorporating virtual reality and artificial intelligence for remote consultations and immersive patient experiences; Healthcare advisory services using data analytics and artificial intelligence to predict health trends and outcomes; Consultancy, information and advisory services in relation to the aforesaid services.

ADVANCED NEW TECHNOLOGIES CO., LTD. ; Cayman Corporate Centre, 27 Hospital Road, George Town, Grand Cayman KY1-9008, CAYMAN ISLANDS

Data processing equipment and computers; Computer software; Computer programs; Downloadable software development kits (SDK); Downloadable application programming interface (API) software that enables developers to build software applications; Software applications for use with mobile devices and computers; Software for processing electronic payments to and from others; Computer software and software applications used in relation to financial services, financial transactions, electronic commerce, electronic payments, foreign currency exchange, trading and brokerage services, remittance transactions, cross-border money transfers, investment advisory and loan services, data, payment and computer security; Authentication software; Computer software and computer software applications (downloadable); Instant messaging software; File sharing software; Communications software for electronically exchanging and transmitting data, audio, video, images and graphics via computer, mobile, wireless and telecommunication networks; Computer software for processing images, graphics, audio, video, and text; Downloadable computer software which allows users to participate in web-based meetings and classes, with access to data, documents, images and software applications through a web browser; Downloadable computer software for accessing, viewing, and controlling remote computers and computer networks; Downloadable cloud-computing software; Downloadable cloud-based software; Computer software for tracking and evaluating customer and personal behaviour in relation to purchasing decisions; Computer software applications for use in relation to environmental conservation, climate change and carbon offsetting; Downloadable text files; Downloadable electronic data files; Downloadable data sets; Downloadable open source software; Downloadable software for software development and collaboration in the software development process, namely, working with the source code and its browsing, editing, development, enhancement and testing; Computer software, downloadable computer software, computer programs, software applications, and software development tools for code development, code editing, code testing, Application Programming Interface (API) selection and integration, code language selection and integration, plugins selection and integration, code deployment and integration; Computer software, downloadable computer software, computer programs, software applications, and software development tools for source code repository management, data storage and backup, database management, and facilitating the exchange of information via the Internet featuring collaboration tools; Downloadable text files of written source code for software; Downloadable text files in the nature of computer code; Downloadable electronic data files featuring written source code for software; Downloadable data sets in the field of computer code; Downloadable electronic data files containing computer code; Software for facilitating online payments through a payment gateway; Software for use in connection with contactless payments; Software and software applications for the purpose of allowing merchants to accept contactless mobile commerce transactions, contactless presentation of loyalty credentials, and contactless redemption of coupons, rebates, discounts, vouchers and special offers; Software and software applications that allow merchants to deliver coupons, rebates, discounts, vouchers and special offers directly to the mobile telecommunications devices of consumers; Computer software for generating, scanning and recognising matrix barcodes; Matrix barcode readers; Software for mobile phone credit and e-wallet top-up services; Computer software, downloadable computer software, computer programs, software applications and software development tools for use in relation to blockchain technology, blockchain infrastructure, blockchain cybersecurity, tokenisation of real-world assets, digital assets, digital asset exchange transactions, decentralized finance (DeFi) and integrating traditional financial systems with blockchain technology; Computer software, downloadable computer software, computer programs, software applications, and software development tools for electronically creating, accessing, exchanging, trading, transmitting, managing

and storing digital assets, digital currencies, cryptocurrencies, stable coins, virtual currencies, digital securities, digital tokens, and digital collectibles, and for facilitating users' ability to view, analyse, record, store, monitor, manage, trade, and exchange the aforesaid assets, as well as manage related payment and exchange transactions; Cryptography software; Cryptography software for ensuring security and compliance in blockchain transactions; Downloadable digital collectibles in the nature of multimedia files, namely, art, animation cels, images, photographs, trading cards, videos and other digital media content; Downloadable digital files authenticated by non-fungible tokens [NFTs]; Downloadable software to enable the building of applications on the blockchain, interaction with blockchain smart contracts, and asset and information exchange; Downloadable software for creating, agreeing, executing, managing and performing smart contracts; Downloadable computer software for use as an electronic wallet, a digital wallet and a cryptocurrency wallet; Artificial intelligence software; Artificial and virtual reality immersion software; Artificial intelligence software in the field of humanoid robots and robots working alongside humans; Humanoid and collaborative robots with artificial intelligence; Robots with artificial intelligence for use in human-machine integration solutions; Operating systems for robots; Software for facilitating interaction and communication between humans and artificial intelligence platforms, namely, bots, virtual agents and virtual assistants; Robotic Process Automation [RPA] software; Intelligent Process automation [IPA] software; Downloadable software for controlling and managing embodied artificial intelligence systems, namely humanoid robots and autonomous machines; Artificial intelligence apparatus; Humanoid robots with artificial intelligence for use in the provision of financial services; Artificial intelligence software for use in relation to marketing, cloud computing, data analytics, predicting trends and customer support; Artificial intelligence software for use in relation to cybersecurity and Information Technology (IT) infrastructure protection; Computer software, downloadable computer software, computer programs, software applications and software development tools for use in relation to artificial intelligence, artificial intelligence driven humanoid robots and robots working alongside humans, machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, predictive and prescriptive analytics, process and task automation, computer vision, internet of things (IoT) and smart data discovery; Computer software, downloadable computer software, computer programs, software applications and software development tools for use in relation to automation of processes and tasks; Computer software, downloadable computer software, computer programs, software applications and software development tools for use in relation to business analytics, business intelligence, data integration, data warehousing, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization and data analytics; Computer software and application software for the provision, communication and administration of loyalty, incentive, reward and redemption scheme, membership scheme, electronic vouchers, electronic wallets, electronic coupons, electronic direct marketing, customer relationship management, marketing campaign, customer database, transaction management, reminders or other messages; Downloadable software for omnichannel marketing solutions; Software as a medical device (SaMD), downloadable; Online electronic publications (downloadable from the Internet or a computer network or a computer database); Downloadable electronic publications in the nature of magazines, articles, brochures, leaflets, datasheets, information and instructional materials in the field of business, e-commerce, information technology, cloud computing, telecommunications, the Internet, business and e-commerce training, business, sales, marketing and financial management; Computer peripherals; Sim cards; Embedded SIM (eSIM) cards; Pocket wifi devices, notebook computers; Laptop computers; Portable computers; Handheld computers; Personal digital assistants; Personal media players; Mobile telephones; Smart phones; Batteries, battery chargers; Computer workstations (not furniture); Computer servers; Computer and telecommunications networking hardware; Computer network adaptors, switches, routers and hubs; Wireless and wired modems and communication cards and devices; Laptop holders, computer bags; Computer hardware and firmware; Automobile navigation system; Digital music (downloadable from the Internet); Telecommunications apparatus; Mouse mats; Mobile phone accessories, namely cell phone straps, mobile phone chargers, mobile phone screen protectors, protective cases for mobile phones, clear protective covers adapted for mobile phones, protective covers for smartphones, cases for smartphones incorporating a keyboard, screen protectors made of tempered glass specially adapted for mobile phones, screen protectors made of polyethylene terephthalate [PET] specially adapted for mobile phones, screen protectors made of thermoplastic polyurethane [TPU] specially adapted for mobile phones, earphones and headphones for mobile phones, power banks, battery chargers for mobile phones, mobile phone battery chargers for use in vehicles; Downloadable games, pictures, motion pictures, movies and music; Alarm systems; Security cameras; Headphones; Speakers; Global Positioning System (GPS) apparatus and equipment; Computer, electronic and video games programmes and software (including software downloadable from the Internet); Liquid crystal displays for telecommunications and electronic equipment; Data storage programs; Spectacles and sunglasses; Electronic signboards; Encoded or magnetic payment, bank, credit, debit, cash, charge, telephone and identification cards; Electronic book readers; Encoded key cards; 3D spectacles; Memory cards for video game machines; Wearable computers, smart phones, monitors, displays, activity trackers, audio equipment, communications apparatus, telecommunication apparatus, and digital electronic communication devices; Downloadable mobile applications and application software for use with wearable computers, smart phones, monitors, displays, activity trackers, audio equipment, communications apparatus, telecommunication apparatus, and digital electronic communication devices; Electronic cards and stored value cards; Terminals, devices or apparatus for electronic payments and transactions and other contactless

interactions with mobile devices; Contactless payment terminals; Secure online and offline payment transaction systems.

CLASS 35

Business management; Business administration; Office functions; Organization, operation and supervision of loyalty and incentive schemes; Accountancy; Arranging and conducting of trade fairs; Data processing; Provision of business information; Database management; Compilation of information into computer databases; Business consulting services; Business intelligence services; Business strategic management services; Business strategic management consulting services; Arranging and conducting of commercial events; Business project management services; Market research and business consulting services; Business consultancy services relating to facilitating the transaction of business via local and global computer networks by locating and providing referrals for the delivery of a wide variety of business and consumer products and services; Dissemination of business information of goods and services of others via local and global computer networks; Business consultancy services relating to providing a web site on a global computer network by which third parties can offer and source goods and services, place, determine the status of and fulfil trade leads and orders, enter into contracts and transact business; Business consulting services in the field of online payments; Business information management, namely, electronic reporting of business analytics relating to payment processing, authentication, tracking, and invoicing; Business management, namely, optimization of payments for businesses; Business consulting services and project management services in the field of artificial intelligence, artificial intelligence software development and artificial intelligence driven robots; Providing computerized online ordering services; Advertising of goods and services of others via local and global computer networks; International import and export agency services; Rental of advertising space on communication media; Online trading services relating to electronic auctioneering and providing online business evaluation relating thereto; Providing a directory of third party web sites to facilitate business transactions; Business consultancy services relating to operating an electronic marketplace for the buyers and sellers of goods and/or services on a global computer network; Business assistance relating to facilitating business transactions via local and global computer networks; Corporate management consultancy services; Marketing and promotion services; Publication of publicity materials; Dissemination of advertising materials, updating of advertising materials, compilation of advertisements for use as web pages on the Internet; Rental of advertising space; Computer data processing; Sales, business and promotional information services; Auctioneering provided on the Internet; Personnel management; Provision of sales, business, advertising and promotional information through a global computer network and via the Internet; Presentation of goods on communication media for retail purposes; Retail, online retail and wholesale services of telephones, smartphones, mobile phone accessories, telecommunications goods, computer hardware, firmware and computer software, payment terminals, devices or apparatus for electronic payments and transactions, artificial intelligence apparatus, humanoid and collaborative robots with artificial intelligence, humanoid robots with artificial intelligence for use in the provision of financial services, computers, data processing equipment, sim cards, embedded SIM (eSIM) cards, computer peripherals, computers, Global Positioning System (GPS) apparatus and equipment, computer workstations, servers, computer and telecommunications networking hardware, computer network adaptors, switches, routers and hubs, wireless and wired modems and communication cards and devices, computer bags, online electronic publications, digital music (downloadable from the Internet), pocket wifi devices, mouse mats, downloadable games, pictures, motion pictures, movies and music, electronic and video games programmes and software (including software downloadable from the Internet), electronic amusement and game apparatus, games and electronic toys, liquid crystal displays for telecommunications and electronic equipment, data storage programs, signboards, and user manuals; Buying and selling agency services; Selection of goods and procurement of goods for individuals and businesses; Ordering services (for others); Provision of business statistical information; Organization of exhibitions for commercial or advertising purposes; Business investigation; Business administration services for the processing of sales made on the Internet; Business referral services and personnel placement; Document reproduction; Transcription services; Customer relationship management; Business management services relating to electronic commerce; Business management and administration services relating to sponsorship programmes; Charitable services, namely organizing and conducting volunteer programmes and community service projects; Provision of commercial and business contact information; Search engine optimization; Web site traffic optimization; Pay per click advertising; Commercial intermediation services; Business management for freelance service providers; Negotiation and conclusion of commercial transactions for third parties; Updating and maintenance of data in computer databases; Promotion of goods and services through sponsorship; Sponsorship search; Purchasing services; Procurement services for others; Commercial trading and consumer information services; Computerised point-of-sale data collection services; Promoting the sale of goods and services by others by awarding points for credit card use or mobile financial software application use; Promotional information and advisory services provided to members, subscribers and users of incentive loyalty schemes and reward programs; Promoting the sale of goods and services of others by means of contests and incentive award programs; Promotional services in the nature of bonus programmes for purchases of selected goods and services, including the supply of benefits in connection with environmentally-conscious purchase and lifestyle choices; Provision of advertising, business management and data processing services by the use of artificial intelligence; The bringing together, for the benefit of others, enabling customers to conveniently view and purchase a variety of goods, namely, virtual and digital currencies and collectibles, blockchain-

based non-fungible assets and downloadable files authenticated by non-fungible tokens; Provision of an online marketplace for buyers and sellers of non-fungible assets, digital assets, and digital collectibles; Operating an online marketplace for buyers and sellers of non-fungible assets, digital assets and digital collectibles; Online auction services featuring non-fungible assets, digital assets, and digital collectibles; Information, consultancy and advisory services all relating to the aforesaid services.

CLASS 42

Scientific and technological services and research and design relating thereto, industrial analysis and research services; Design and development of computer hardware, software and artificial intelligence software; Software as a service (SaaS); Blockchain as a service (BaaS); Platform as a service (PaaS); Infrastructure as a service [IaaS]; Encryption, decryption and authentication of information, messages and data; Providing user authentication services using biometric, facial recognition, finger print authentication, voice recognition and other types of hardware and software authentication technology for provision of financial services, e-commerce transactions, donations, licensed product tracking and fan engagement; Data security services; IT security, protection and restoration; Computer security threat analysis for protecting data; Provision of security services for computer networks, computer access and computerised transactions; Certification (quality control) of data via blockchain; Data authentication via blockchain; Including all of the aforementioned services for use in connection with payment systems; Computer design and development services in connection with transmitting information, data, documents, and images over the Internet; Application service provider (ASP) services, namely, hosting computer software applications of others; Application service provider (ASP) services providing software in the fields of web-based conferencing, audio conferencing, electronic messaging, document collaboration, video conferencing, and voice and call processing; Providing online non-downloadable software for facilitating the interoperability of multiple software applications; Technical support services relating to computer software and applications provided online, by email and by telephone; Computer services, namely, creating an online community for registered users to participate in discussions, get feedback from their peers, form virtual communities, engage in social networking, and exchange documents; Computer service relating to creating indexes of information, sites and resources on computer networks; Providing search engines; Design of mobile telephones and smart phones; Design of digital cameras; Research, design and product development services in connection with payment terminals and electronic payment systems; Technical support services relating to payment terminals and electronic payment systems; Computer services, namely computer system administration for others; Computer programming; Computer integration services; Computer analysis services; Computer programming in relation to the defence against virus; Computer system software services; Computer system design; Design and development of webpages; Hosting webpages for others; Hosting computer application software for searching and retrieving information from databases and computer networks; Providing technical information at the specific request of end-users by means of telephone or global computer network; Consultancy services in relation to computer software; Computer services relating to customized searching of computer databases and websites; Computer and electronic signal coding and decoding; Conversion of physical data and documents into electronic media format; Product testing and evaluation services; Computer information services; Network information services, namely, providing technical information relating to computers and networks in the field of business and e-commerce; Provision of computer security risk management programs; Computer security information and testing services; Quality assurance services; Computer services relating to certification of business transactions and preparation of reports therefor; Access control to (security services for-) computers, electronic networks and databases; Security of data transmission services and of transactions via computer networks services; Consultancy in the field of data security; Technological consultancy concerning securing telecommunications; Computerized communication network security services; Authentication services for computer security; Online authentication of electronic signatures; Off-site data backup; Electronic data storage; Providing information on computer technology and programming via a web site; Cartography services; Cloud computing; Cloud hosting provider services; Providing temporary use of non-downloadable cloud-based software and cloud computing software; Providing virtual computer systems and virtual computer environments through cloud computing; Rental of entertainment software; Technical research in the field of carbon offsetting; Provision of scientific information, advice and consultancy in relation to carbon offsetting and environmental protection; Providing technological information about environmentally-conscious and green innovations; Environmental testing, assessment and monitoring services; Scientific research in the fields of environmental protection and conservation; Research and provision of scientific information in the field of climate change; Scientific and industrial consultation services relating to fuels, fuel and carbon dioxide emissions and environmental issues; Scientific and technological services relating to recommendation of courses of action to reduce carbon dioxide emission in a cost effective manner; Scientific and technological services relating to management of carbon offset programmes; Providing non-downloadable open source software; Providing temporary use of non-downloadable cloud-based software for software development and collaboration in the software development process, namely, working with the source code and its browsing, editing, development, enhancement and testing; Writing, design and development of computer code; Computer software testing, namely, source code review; Consulting services in the field of source code and application software development, implementation, maintenance, repair, analysis, security, and optimization; Providing non-downloadable software for use in relation to code development, code editing, code testing, Application Programming Interface (API) selection and integration, code

language selection and integration, plugins selection and integration, code deployment and integration; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for use in relation to code development, code editing, code testing, Application Programming Interface (API) selection and integration, code language selection and integration, plugins selection and integration, code deployment and integration; Providing non-downloadable software for use in relation to source code repository management, data storage and backup, database management, and facilitating the exchange of information via the Internet featuring collaboration tools; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for use in relation to source code repository management, data storage and backup, database management, and facilitating the exchange of information via the Internet featuring collaboration tools; Designing, creating and hosting of bill payment websites; Network information services, namely, providing technical information relating to computers and networks in the field of payments including contactless payments; Providing temporary use of online non-downloadable computer software for tracking and analyzing payment activity; Providing temporary use of online non-downloadable software to evaluate and detect fraud and illegality in payment transactions, and manage compliance validation; Providing non-downloadable software for use in relation to electronic payments and contactless transactions; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for use in relation to electronic payments and contactless transactions; Providing non-downloadable software for mobile commerce, loyalty and rewards programs, and digital voucher redemption; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for mobile commerce, loyalty and rewards programs, and digital voucher redemption; Providing non-downloadable software for generating, scanning, and recognizing matrix barcodes; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for generating, scanning, and recognizing matrix barcodes; Providing non-downloadable software for use as an electronic wallet, digital wallet, and cryptocurrency wallet, and for facilitating top-up services and value storage for such wallets; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for use as an electronic wallet, digital wallet, and cryptocurrency wallet, and for facilitating top-up services and value storage for such wallets; Providing non-downloadable software for use in relation to blockchain technology, blockchain infrastructure, blockchain cybersecurity, tokenisation of real-world assets, digital assets, digital asset exchange transactions, decentralized finance (DeFi) and integrating traditional financial systems with blockchain technology; Software as a Service (SaaS), Platform as a Service (PaaS) and Infrastructure as a Service (IaaS) featuring software for use in relation to blockchain technology, blockchain cybersecurity, tokenisation of real-world assets, digital assets, digital asset exchange transactions, decentralized finance (DeFi) and integrating traditional financial systems with blockchain technology; Providing non-downloadable software for electronically creating, accessing, exchanging, trading, transmitting, managing, storing, sending, receiving, and accepting digital assets, digital currencies, cryptocurrencies, stable coins, virtual currencies, digital securities, digital tokens, and digital collectibles, and for facilitating users' ability to view, analyse, record, store, monitor, manage, trade, and exchange these assets, as well as manage related payment and exchange transactions; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for electronically creating, accessing, exchanging, trading, transmitting, managing, storing, sending, receiving, and accepting digital assets, digital currencies, cryptocurrencies, stable coins, virtual currencies, digital securities, digital tokens, and digital collectibles, and for facilitating users' ability to view, analyse, record, store, monitor, manage, trade, and exchange these assets, as well as manage related payment and exchange transactions; Providing non-downloadable cryptography software for ensuring security and compliance in blockchain transactions; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring cryptography software for ensuring security and compliance in blockchain transactions; Providing non-downloadable software to enable the building of applications on the blockchain, interaction with blockchain smart contracts, and asset and information exchange; Software as a Service (SaaS), Platform as a Service (PaaS) and Infrastructure as a Service (IaaS) featuring software for the building of applications on the blockchain, interaction with blockchain smart contracts, and asset and information exchange; Providing non-downloadable artificial intelligence software, artificial and virtual reality immersion software, and artificial intelligence software in the field of humanoid robots and robots working alongside humans; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring artificial intelligence software, artificial and virtual reality immersion software and artificial intelligence software in the field of humanoid robots and robots working alongside humans; Providing non-downloadable software for facilitating interaction and communication between humans and artificial intelligence platforms, namely, bots, virtual agents and virtual assistants; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for facilitating interaction and communication between humans and artificial intelligence platforms, namely, bots, virtual agents and virtual assistants; Providing non-downloadable Robotic Process Automation [RPA] and Intelligent Process automation [IPA] software; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring Robotic Process Automation [RPA] and Intelligent Process automation [IPA] software; Providing non-downloadable software for controlling and managing embodied artificial intelligence systems, namely artificial intelligence apparatus, humanoid robots and autonomous machines; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for controlling and managing embodied artificial intelligence systems, namely artificial intelligence apparatus, humanoid robots and autonomous machines; Providing non-downloadable artificial intelligence software for use in relation to marketing, cloud computing, data analytics, predicting trends, customer support, cybersecurity and Information Technology (IT) infrastructure protection; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring artificial intelligence software for use in relation to marketing, cloud computing, data analytics,

predicting trends, customer support, cybersecurity and Information Technology (IT) infrastructure protection; Providing non-downloadable software for use in relation to artificial intelligence, artificial intelligence driven humanoid robots and robots working alongside humans, machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, predictive and prescriptive analytics, process and task automation, computer vision, internet of things (IoT) and smart data discovery; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for use in relation to artificial intelligence, artificial intelligence driven humanoid robots and robots working alongside humans, machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, predictive and prescriptive analytics, process and task automation, computer vision, internet of things (IoT) and smart data discovery; Providing non-downloadable software for use in relation to process and task automation, business analytics, business intelligence, data integration, data warehousing, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization and data analytics; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for use in relation to process and task automation, business analytics, business intelligence, data integration, data warehousing, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization and data analytics; Providing non-downloadable software for the provision, communication and administration of loyalty, incentive, reward and redemption scheme, membership scheme, electronic vouchers, electronic wallets, electronic coupons, electronic direct marketing, customer relationship management, marketing campaign, customer database, transaction management, reminders or other messages; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for the provision, communication and administration of loyalty, incentive, reward and redemption scheme, membership scheme, electronic vouchers, electronic wallets, electronic coupons, electronic direct marketing, customer relationship management, marketing campaign, customer database, transaction management, reminders or other messages; Providing non-downloadable software for the provision of omnichannel marketing solutions; Software as a Service (SaaS) and Platform as a Service (PaaS) featuring software for the provision of omnichannel marketing solutions; Design and development of medical technology and related computer software; Design and development of artificial intelligence apparatus and humanoid robots; Technical development services in the field of artificial intelligence and software engineering; Research in the field of artificial intelligence and humanoid robots and robots working with humans; Advanced product research in the field of artificial intelligence; Providing artificial intelligence computer programs on data networks; Infrastructure as a Service [IaaS] for the provision of artificial intelligence; Hosting of websites for the provision of artificial intelligence; Consultancy, information and advisory services relating to the aforesaid services.

ADVANCED NEW TECHNOLOGIES CO., LTD. ; Cayman Corporate Centre, 27 Hospital Road, George Town, Grand Cayman KY1-9008, CAYMAN ISLANDS

AGENT : Ong Boo Seng, Linda Wang, Su & Boo. Level 7, Menara Milenium Jalan Damanlela, Pusat Bandar Damansara, 50490 Kuala Lumpur

CLASS 9

Downloadable computer programs and software; Mobile applications; Artificial intelligence software; Interactive software based on artificial intelligence; Data processing apparatus with artificial intelligence; Downloadable computer programs and downloadable computer software for artificial intelligence capabilities including machine learning, deep learning, technical language processing, natural language processing, optimisation, forecasting and simulation models; Downloadable computer programs and downloadable computer software for using language models; Downloadable computer programs and downloadable computer software for using artificial intelligence models; Downloadable computer programs and downloadable computer software for machine learning; Downloadable computer programs and downloadable computer software for natural language processing, generation, understanding and analysis; Downloadable computer programs and downloadable computer software for machine-learning based language and speech processing software; Downloadable computer programs and downloadable computer software for processing structured and unstructured data, namely applications, database, speech, text, sound, code, videos, images, documents, and websites input; Downloadable computer programs and downloadable computer software for generating applications, database, speech, text, sound, code, videos, images, documents, and websites output; Downloadable computer programs and downloadable computer software for creating and generating data visualizations, summarisation and analysis from databases; Downloadable computer software using artificial intelligence in the field of search engines; Downloadable computer software using machine learning in the field of search engines; Downloadable computer chatbot software for simulating conversations; Downloadable chatbot software for providing information from searchable indexes and databases of information, including text, sounds, images, videos, software algorithms, mathematical equations, electronic documents, and databases; Downloadable computer programs and downloadable computer software for sharing datasets for machine learning, predictive analytics, and language models; Downloadable computer programs and downloadable computer software for creating and generating images from text; Downloadable computer programs and downloadable computer software for image recognition and generation; Downloadable computer programs and downloadable computer software for the conversion of text or speech from natural language to software code; Downloadable computer programs and downloadable computer software for conversion of text and data files into software code; Downloadable computer programs and downloadable computer software for creating and generating software code;

Downloadable computer programs and downloadable computer software for multilingual speech and voice processing, detection, recognition, transcription, diarization, generation and translation; Downloadable computer programs and downloadable computer software using artificial intelligence for automatic speech to text conversion; Downloadable computer programs and downloadable computer software for the translation of text or speech from one language to another; Downloadable computer programs and downloadable computer software for developing, running and analyzing algorithms that are able to learn to analyze, classify, and take actions in response to integrated data; Downloadable computer programs and downloadable computer software for developing and implementing artificial neural networks; Downloadable computer programs and downloadable computer software for simulation environments for the purpose of testing artificial intelligence agents, algorithms or programs; Downloadable computer programs and downloadable computer software for application development; Downloadable computer programs and downloadable computer software for business operation, facility management and project management; Downloadable computer programs and downloadable computer software for public administration and services; Downloadable computer programs and downloadable computer software for data management, knowledge management and data analytics; Downloadable computer programs and downloadable computer software for generating insights from data used in policy-making, civic administration, and public sector operations; Mobile applications for artificial intelligence capabilities including machine learning, deep learning, technical language processing, natural language processing, optimisation, forecasting and simulation models; Mobile applications for using language models; Mobile applications for using artificial intelligence models; Mobile applications for natural language processing, generation, understanding and analysis; Mobile applications for machine-learning based language and speech processing software; Mobile applications for processing structured and unstructured data, namely applications, database, speech, text, sound, code, videos, images, documents, and websites input; Mobile applications for generating applications, database, speech, text, sound, code, videos, images, documents, and websites output; Mobile applications for creating and generating data visualizations, summarisation and analysis from databases; Mobile applications for using artificial intelligence in the field of search engines; Mobile applications for using machine learning in the field of search engines; Mobile applications featuring chatbot software for simulating conversations; Mobile applications featuring chatbot software for providing information from searchable indexes and databases of information, including text, sound, images, videos, software algorithms, mathematical equations, electronic documents, and databases; Mobile applications for sharing datasets for machine learning, predictive analytics, and language models; Mobile applications for creating and generating images from text; Mobile applications for image recognition and generation; Mobile applications using artificial intelligence for music generation; Mobile applications for the conversion of text or speech from natural language to software code; Mobile applications for conversion of text and data files into software code; Mobile applications for creating and generating software code; Mobile applications for multilingual speech and voice processing, detection, recognition, transcription, diarization, generation and translation; Mobile applications using artificial intelligence for automatic speech to text conversion; Mobile applications for the translation of text or speech from one language to another; Mobile applications for developing, running and analyzing algorithms that are able to learn to analyze, classify, and take actions in response to integrated data; Mobile applications for developing and implementing artificial neural networks; Mobile applications for the purpose of testing artificial intelligence agents, algorithms or programs; Mobile applications for application development; Mobile applications for business operation, facility management and project management; Mobile applications for public administration and services; Mobile applications for data management, knowledge management and data analytics; Mobile applications for generating insights from data used in policy-making, civic administration, and public sector operations.

CLASS 35

Advisory services for business management; Business consultancy services for digital transformation; Business consultancy services relating to data and information sharing; Business consultancy services relating to process optimisation, efficiency improvement, knowledge empowerment, revenue generation and loss prevention; Business consultancy services in the field of public administration, policy development, institutional governance, and decision-making; Business consultancy relating to regulatory and technical compliance; Compilation, processing, systemisation and management of data; Compilation of data into computer databases; Compilation and systematisation of information into computer databases; Compilation of scientific or technical information into computer databases; Compilation of data from databases for analysis and decision-making; Data processing for the compilation of data for research, operation and commercial purposes; Compilation and analysis of data and information relating to business management, facility management and project management; Enterprise data and database management; Computer database management; Updating of data in computer databases; Maintenance of data in computer databases; Maintenance of databases being organization of information into a database; Provision of business intelligence services.

CLASS 42

Extracting information from large data collections (data mining); Data mining and data analysis services; Integration and correlation of data from databases for analysis and decision-making; Deriving business insights and strategic recommendations from aggregated and processed data; Software as a service [SaaS]; Software as a service [SaaS] services featuring software for using language models; Software as a service [SaaS] services featuring software for using artificial intelligence models; Software as a service [SaaS] featuring software for data management, analysis, modelling and insights

generation; Software as a service [SaaS] featuring software for summarizing, analyzing and interpreting database records, documents, and communications; Providing online non-downloadable software; Providing online non-downloadable software for artificial intelligence capabilities including machine learning, deep learning, technical language processing, natural language processing, optimisation, forecasting and simulation models; Providing online non-downloadable software for business operation, facility management and project management; Providing online non-downloadable software for public administration and services; Providing online non-downloadable software for data management, knowledge management and data analytics; Providing online non-downloadable software for natural language processing, understanding, analysis and generation; Providing online non-downloadable software for multilingual speech and voice processing, detection, recognition, transcription, diarization, generation and translation; Providing online non-downloadable software for processing structured and unstructured data, namely applications, database, speech, text, sound, code, videos, images, documents, and websites input; Providing online non-downloadable software for generating applications, database, speech, text, sound, code, videos, images, documents, and websites output; Providing online non-downloadable software for information, analysis and insights from indexes and databases of information, including text, sound, music, images, videos, software algorithms, mathematical equations, electronic documents, and databases; Providing online non-downloadable software for the translation of text or speech from one language to another; Providing online non-downloadable chatbot software for simulating conversations; Providing online non-downloadable software for creating and generating data visualizations, summarisation and analysis from databases; Providing online non-downloadable software for creating and generating images from text; Providing online non-downloadable software for generating insights from data used in policy-making, civic administration, and public sector operations; Providing online non-downloadable software for the conversion of text or speech from natural language to software code; Providing online non-downloadable software for conversion of text data files into software code; Providing online non-downloadable software for creating and generating software code; Providing online non-downloadable software using artificial intelligence for automatic speech to text conversion; Providing online non-downloadable software for the translation of speech and text from one language to another; Providing online non-downloadable software for developing, running and analyzing algorithms that are able to learn to analyze, classify, and take actions in response to integrated data; Providing online non-downloadable software for sharing datasets for machine learning, predictive analytics, and language models; Providing online non-downloadable software for developing and implementing artificial neural networks; Providing online non-downloadable software for simulation environments for the purpose of testing artificial intelligence agents, algorithms or programs; Providing online non-downloadable software for application development; AI as a service [AlaaS]; AI as a service [AlaaS] featuring software using artificial intelligence for general-purpose, engineering, scientific, and policy reasoning; AI as a service [AlaaS] featuring software using artificial intelligence for generating, manipulating and displaying images, illustrations, charts, graphs, texts, audios, videos, and music; AI as a service [AlaaS] featuring software using artificial intelligence for data management, exploration, assessment, analysis, modelling and insights generation; AI as a service [AlaaS] featuring software using artificial intelligence for writing custom algorithms and implementing algorithms into workflows; AI as a service [AlaaS] featuring software using artificial intelligence for generating operational and commercial insights; Platform as a service [PaaS]; Platform as a service [PaaS] featuring software platform for developing and using artificial intelligence models; Platform as a service [PaaS] featuring software platform for data management, analysis, modelling and insights generation; Platform as a service [PaaS] featuring software platform for summarizing, analyzing and interpreting database records, documents, and communications; Platform as a service [PaaS] featuring computer software platforms for use in data science, data transformation and manipulation; Platform as a service [PaaS] featuring computer software platforms for use in data management; Platform as a service [PaaS] featuring computer software platforms using machine learning and artificial intelligence for data labelling and modelling; Platform as a service [PaaS] featuring computer software platforms for use in performing data analytics; Research, design, development, implementation and maintenance of artificial intelligence models; Research, design, development, implementation and maintenance of computer programs and software; Research, design and development of computer software for the collection, transmission and analysis of data; Research, design, development, implementation, maintenance of mobile applications; Research, design and development of mobile applications for the collection, transmission and analysis of data; Research, development and evaluation of large language models and data sets; Technical consultancy; Software consultancy; Information and communication technology consultancy; Technical consultancy in the field of digital and artificial intelligence systems.

GENERAL INFORMATION III

TRADEMARKS ACT 2019 (Act 815)

PUBLICATION OF ACCEPTANCE OF INTERNATIONAL REGISTRATION DESIGNATING
MALAYSIA

Pursuant to regulation 71 of the Trademarks Act 2019, the following international registrations designating Malaysia have been accepted and are hereby published in Intellectual Property Official Journal under section 148 of the Trademarks Act 2019.

Where an application for registration is accepted subject to any conditions, amendments, modifications or limitations, such conditions, amendments, modifications or limitations shall appear in the publication.

Pursuant to subsections 35(1) and 35(2) of the Trademarks Act 2019 and subregulation 72(1) of the Trademarks Regulations 2019, a notice of opposition to oppose the registration of the international registrations designating Malaysia which shall include the statement of the grounds of such opposition may be filed together with payment of the prescribed fee with the Registrar of Trademarks within two months from the date of the publication of the acceptance of such international registrations designating Malaysia in the Intellectual Property Official Journal.

Notwithstanding the above paragraphs, pursuant to subsection 153(1) of the Trademarks Act 2019 and subregulation 72(2) of the Trademarks Regulations 2019, the request for an extension of time may be allowed at the discretion of the Registrar of Trademarks for not more than two months after the expiry of the period for filing the notice of opposition

Industrial analysis, industrial research and industrial design services; Quality control; Design and development of computer hardware and software; Meteorological information; Weather forecasting; Architectural services; Surveying (engineering); Geological surveys or research; Consultancy in the design and development of computer hardware; Computer programming; Computer software consultancy; Telecommunication network security consultancy; Digitization of documents (scanning); Conversion of computer programs and data, other than physical conversion; Data encryption services; Providing search engines for the internet; Design, creation, development and maintenance of computer platforms; Design, creation, development and maintenance of computer software; Design, creation, development and maintenance of computer system; Design, creation, hosting and maintenance of websites; Software engineering services for data processing; Computer software design for others; Monitoring of computer system operation by remote access; Technological advisory services relating to computer programs; Technological advisory services relating to machine engineering analysis; Testing, inspection and research services in the fields of pharmaceuticals, cosmetics and foodstuffs; Medical research; Clinical trials; Chemistry services; Research in the field of building construction and city planning; Testing and research services in the field of preventing pollution; Testing and research services in the field of electricity; Testing and research services in the field of civil engineering; Energy auditing; Scientific research in the field of environmental protection; Industrial analysis; Material testing; Scientific and technological research in the field of natural disasters; Consultancy in the field of energy-saving; Research in the field of telecommunications technology; Research in the field of physics; Testing, inspection and research services in the fields of agriculture, livestock breeding and fisheries; Testing and research services relating to machines, apparatus and instruments; Calibration (measuring); Mechanical research; Rental of measuring apparatus; Rental of measuring and testing apparatus and instruments; Rental of sensors (measurement apparatus), other than for medical use; Rental of computers; Providing temporary use of online non-downloadable software; Rental of web servers; Software as a service (SaaS); Hosting virtual environments; Hosting computer websites; Platform as a service (PaaS); Server hosting; Electronic data storage; Cloud computing; Providing virtual computer systems through cloud computing; Cloud storage services for electronic data; Rental of computer software; Providing computer systems; Hosting platforms on the Internet; Rental of data processing apparatus; Providing temporary use of online non-downloadable software for information processing, transmission, and storage; Rental of laboratory apparatus and instruments; Rental of telescopes; Rental of technical drawing instruments; Rental of smartglasses; Digitization of photographs (scanning); Providing online geographic maps, not downloadable; Providing geographic information; Cloud seeding; Rental of user-programmable humanoid robots, not configured; Development of video and computer games; Providing information relating to computer technology and programming via a website; Computer technology consultancy; Artificial intelligence consultancy; Technological consultancy services for digital transformation; Computer system analysis; Providing scientific information, advice and consultancy relating to carbon offsetting; Scientific and technological research; Scientific laboratory services; Conducting technical project studies; Technical writing; Research and development of new products for others; Research in the field of artificial intelligence technology; Engineering; Information technology (IT) support services; Design and development of industrial products; Technical measuring services; Rental of radio-frequency identification (RFID) tags;

Providing temporary use of online non-downloadable software for use in security alarm and monitoring systems; Software as a service (SaaS) and platform as a service (PaaS) featuring software for use in security alarm and monitoring systems; Designing websites for advertising purposes; Providing temporary use of online non-downloadable software for use in the field of personnel management; Providing temporary use of online non-downloadable software for use in job matching; Cloud computing services in the field of electricity and power control; Software as a service (SaaS) featuring software for use in operating, controlling and managing power conditioners, electric power controllers, electric power converters, electric inverters, batteries, accumulators, lithium ion secondary batteries, solar batteries, fuel cells and sensors; Design and development of power conditioners, electric power controllers, electric power converters, electric inverters, batteries, accumulators, lithium ion secondary batteries, solar batteries, fuel cells and sensors; Testing and research services in the field of electricity and power control; Rental of meters for the recording of energy consumption; Consultancy in the field of energy-saving and energy efficiency; Technical consultancy in the field of energy saving and energy efficiency; Consultancy relating to technological services in the field of power and energy supply; Providing temporary use of non-downloadable computer software, namely, middleware for use in the management and administration of software applications on radio-frequency identification (RFID) systems; Design, development, installation and maintenance of computer software, namely, middleware for use in the management and administration of software applications on radio-frequency identification (RFID) systems; Scientific and technological services, namely, scientific analysis in the field of EEG signals, not for medical services; Research and development of technology related to the analysis of EEG signals; Providing temporary use of online non-downloadable computer software platforms and applications for use in analysis of EEG signals; Providing temporary use of online non-downloadable cloud computing software using artificial intelligence for machine learning; Providing temporary use of online non-downloadable software for use in business management and marketing data analysis; Providing temporary use of online non-downloadable software for simulating the operation of vehicles; Providing temporary use of online non-downloadable software for use in tracking, detecting and locating the position of people and objects; Software as a service (SaaS) and platform as a service (PaaS) featuring software for use in tracking, detecting and locating the position of people and objects; Providing temporary use of online non-downloadable software for use in the operation, management, configuration, updating, remote control and maintenance of computer hardware and software; Software as a service (SaaS) and platform as a service (PaaS) featuring software for use in the operation, management, configuration, updating, remote control and maintenance of computer hardware and software; Technological consultancy for factory productivity improvement; Technical support, namely, troubleshooting of computer systems in factories; Design of factory automation equipment and installations; Technological research; Research and development in the field of information and communications technologies; Design, development and maintenance of computer programs for use in systems for controlling power supply technologies; Technological consultancy in the field of power control; Technological advisory and information services relating to electronic or electric materials, components and devices; Technological research in the field of electronic or electric materials, components and devices; Testing and research on electronic or electric materials, components and devices; Providing temporary use of online non-downloadable software for designing products for use in the field of electronic or electric products; Providing temporary use of online non-downloadable software for telecommunication or data transmission for use in the field of electronic or electric products; Providing temporary use of online non-downloadable software for controlling for use in the field of electronic or electric products; Providing temporary use of online non-downloadable software for designing products for use in the field of industrial products; Providing temporary use of online non-downloadable software for controlling for use in the field of industrial products; Providing temporary use of online non-downloadable software for use in design of industrial products via the Internet; Providing analysis computer software using finite element method via the Internet; Development or design of telecommunication machines and apparatus, computer programs and electronic machines, apparatus and their parts; Testing, inspection or research in the field of electric or electronic machines, apparatus and instruments; Development, design and maintenance of custom or customised hardware and software for others in the field of wireless systems; Development engineering services to create custom or customised hardware and software in the field of wireless systems; Providing temporary use of online non-downloadable software in the field of wireless systems; Design, creation, development and maintenance of computer system, namely, computer system integration in the field of wireless systems; Quality control, namely, quality certification services in the field of wireless systems; Quality control, namely, quality certification services in the field of wireless services; Providing temporary use of online non-downloadable software for use in management and operation of medical services in hospital facilities; Software as a service (SaaS) and platform as a service (PaaS) featuring software for use in management and operation of medical services in hospital facilities; Providing temporary use of online non-downloadable software for use in management and remote viewing and monitoring of patients' health records; Software as a service (SaaS) and platform as a service (PaaS) featuring software for use in management and remote viewing and monitoring of patients' health records; Providing temporary use of online non-downloadable software, namely, the internet of things platforms for use in patient monitoring; Software as a service (SaaS) and platform as a service (PaaS) featuring software, namely, the internet of things platforms for use in patient monitoring; Providing temporary use of online non-downloadable software for use in notification of critical events and changes in patients' status; Software as a service (SaaS) and platform as a service (PaaS) featuring software for use in notification of critical events and changes in patients' status; Providing temporary use of online non-downloadable software for use in monitoring respiration

during sleep; Software as a service (SaaS) and platform as a service (PaaS) featuring software for use in monitoring respiration during sleep; Providing temporary use of online non-downloadable software for operating and controlling electronic clinical thermometers; Software as a service (SaaS) and platform as a service (PaaS) featuring software for operating and controlling electronic clinical thermometers; Providing temporary use of online non-downloadable software for measuring, managing and storing data of patients' body temperatures; Software as a service (SaaS) and platform as a service (PaaS) featuring software for measuring, managing and storing data of patients' body temperatures; Scientific and technological testing of the functionality of machines, apparatus and instruments in the medical field; Scientific and technological research on machines apparatus and instruments in the medical field; Providing patient monitoring computer systems and platforms through cloud computing; Technological research in the fields of game software design, digital content design, and electric or electronic product development; Technological research in the fields of haptics technologies, cross reality technologies, brain science and ergonomics; Providing temporary use of online non-downloadable software for use in the operation, control and management of electronic devices using haptic technologies; Providing temporary use of online non-downloadable software for use in design and development of game software applications, for use in design and development of electric and electronic products, and for use in design and development of software applications using haptics technologies; Software as a service (SaaS) and platform as a service (PaaS) featuring software for use in design and development of game software applications, for use in design and development of electric and electronic products, and for use in design and development of software applications using haptics technologies; Providing temporary use of online non-downloadable augmented reality software for use in design and development of game software applications, for use in design and development of electric and electronic products, and for use in design and development of software applications using haptics technologies; Software as a service (SaaS) and platform as a service (PaaS) featuring augmented reality software for use in design and development of game software applications, for use in design and development of electric and electronic products, and for use in design and development of software applications using haptics technologies; Providing temporary use of online non-downloadable mixed reality software for use in design and development of game software applications, for use in design and development of electric and electronic products, and for use in design and development of software applications using haptics technologies; Software as a service (SaaS) and platform as a service (PaaS) featuring mixed reality software for use in design and development of game software applications, for use in design and development of electric and electronic products, and for use in design and development of software applications using haptics technologies; Providing temporary use of online non-downloadable virtual reality software for use in design and development of game software applications, for use in design and development of electric and electronic products, and for use in design and development of software applications using haptics technologies; Software as a service (SaaS) and platform as a service (PaaS) featuring virtual reality software for use in design and development of game software applications, for use in design and development of electric and electronic products, and for use in design and development of software applications using haptics technologies; Providing temporary use of online non-downloadable software for use in design and development of digital contents; Software as a service (SaaS) and platform as a service (PaaS) featuring software for use in design and development of digital contents; Providing temporary use of online non-downloadable software for use in editing sounds, audio, video, photographs, still and moving images; Software as a service (SaaS) and platform as a service (PaaS) featuring software for use in editing sounds, audio, video, photographs, still and moving images; Providing temporary use of online non-downloadable computer software platforms for use in design and development of game programs; Providing temporary use of online non-downloadable software, namely, platform middleware for use in design and development of game software applications; Platform as a service (PaaS) featuring middleware platforms for use in design and development of game software applications; Providing temporary use of online non-downloadable computer software for enhancing feel, vibration and feedback provided from portable electronic machines and apparatus; Providing temporary use of online non-downloadable computer software for recording, transmitting, reproducing, receiving, downloading, saving and editing sounds, images and haptic data; Providing temporary use of online non-downloadable computer software used to give a user a feeling of a response, force, pressure, touch in 3D games, video games, virtual reality; Rental of computer software for use in design and development of game software applications, for use in design and development of electric and electronic products, and for use in design and development of software applications using haptics technologies; Rental of augmented reality computer software for use in design and development of game software applications, for use in design and development of electric and electronic products, and for use in design and development of software applications using haptics technologies; Rental of mixed reality computer software for use in design and development of game software applications, for use in design and development of electric and electronic products, and for use in design and development of software applications using haptics technologies; Rental of virtual reality computer software for use in design and development of game software applications, for use in design and development of electric and electronic products, and for use in design and development of software applications using haptics technologies; Providing temporary use of online non-downloadable software development kits (SDKs); Providing online information on computer technology and programming; Technological audio analysis; Technological analysis of analog signals; Technological analysis of digital signals; Analysis of technical data; Providing temporary use of online non-downloadable software for use in data detection, collection, analysis and management relating to communications in the field of human resources; Providing temporary use of online non-downloadable software for use in tracking, detecting and

positioning of people and objects; Providing temporary use of online non-downloadable software for use in managing, monitoring and analyzing of production and manufacturing equipment and systems; Providing temporary use of online non-downloadable software for use in managing, monitoring and analyzing of working status, environment, safety and health conditions of employees and workers in the construction and manufacturing industries; Providing temporary use of online non-downloadable computer software platforms or applications for use in analysis of EEG (electroencephalogram) signals; Providing temporary use of online non-downloadable software for use in two or three dimensional simulation for use in design and development of industrial products; Providing temporary use of online non-downloadable software for use in the design and development of industrial products; Providing temporary use of online non-downloadable software for use in analysis using finite element method; Providing temporary use of online non-downloadable software for use in analysis of electromagnetic waves; Providing temporary use of online non-downloadable software for use in analysis of magnetic fields; Providing temporary use of online non-downloadable software for use in analysis of electric fields; Providing temporary use of online non-downloadable software for use in stress analysis of structures; Providing temporary use of online non-downloadable software for use in analysis of heat conductions; Providing temporary use of online non-downloadable software for use in analysis of fluid; Providing temporary use of online non-downloadable software for use in piezoelectric analysis; Providing temporary use of online non-downloadable software for use in analysis of sonic waves; Providing temporary use of online non-downloadable software for controlling engines or brakes for vehicles; Providing temporary use of online non-downloadable software for use in operating self-driving vehicles; Information, advisory and consultancy services relating to the aforesaid services.
